(b) (Cont'd)

- (1) the completed service period is 12 months, or 25% of the length of the originally selected CSPP service period, whichever is greater, and
- (2) the service period of the new CSPP arrangement for the higher order of service is equal to or longer than the remaining service period of the disconnected arrangement, and (Tx)
- (3) the service orders to install the new higher order of service and disconnect the old service are related together and received by the Telephone Company at the same time, and there is no lapse in service between installation of the higher order of service and disconnection of the existing service, and
- (4) the capacity of the higher service is equal to or greater than the existing service. For converting LightGate service (a.k.a. BellSouth SPA Point to Point Network) to SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) the capacity of the LightGate service (a.k.a. BellSouth Point to Point Network) is considered to be the quantity of DS3's activated on the LightGate service (a.k.a. BellSouth Point to Point Network).

For the purposes of determining a higher order of service, the following ranking will be used (Analog Voice Grade (a.k.a. BellSouth SPA DSO VG) services=lowest):

1. Analog Voice Grade (a.k.a. BellSouth SPA DSO VG) Services
2. DSO (a.k.a. BellSouth SPA DSO Digital Data) Services
3. DS1 (a.k.a. BellSouth DPA DS1) Services (described in 7.2.9 following)
4. SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) (described in 7.2.13 following)
5. LightGate service (a.k.a. BellSouth SPA Point to Point Network).
6. BellSouth SPA Managed Shared Network Service<sup>(2)</sup>
7. SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring)
8. SMARTGate service<sup>(1)</sup> (a.k.a. BellSouth SPA Managed Shared Ring Network)/BellSouth Managed Shared Ring service

Customer requested conversion of any Special Access Service (a.k.a. BellSouth SPA) to the same or higher speed Fast Packet Access Service will be treated as an upgrade to a higher order of service and, as such, termination liability will not apply in accordance with regulations set forth herein.

<sup>(1)</sup> Effective December 17, 2011, BellSouth SMARTGate Service is available only to existing Customers, for existing service arrangements. Existing Customers may continue to receive service under existing service arrangements, or on a month-to-month basis after their existing service arrangements expire, until BellSouth SMARTGate Service is discontinued.

<sup>(2)</sup> Effective August 31, 2012: 1) BellSouth SPA Managed Shared Network Service is limited to existing Customers, for existing service arrangements, 2) existing Customers may not order new services and 3) existing Customers may not make changes to their existing service arrangements.

(6) Requests for Changes in Length of Service Period

(a) Subsequent to the establishment of a CSPP arrangement, and prior to the completion of the selected service period for that arrangement, the CSPP arrangement may be replaced by a new CSPP arrangement at rates and charges in effect on the first day of service under the new CSPP arrangement, subject to the following conditions: (Tx)

- No credit will be given for payments made under the original CSPP arrangement, except for credits allowed under Sections 2.4.8(A)(9)(a) of this tariff.
- The service period selected for the new CSPP arrangement begins on the new CSPP effective date but not later than the expiration date of the CSPP being replaced.
- Nonrecurring charges will not be reapplied for existing services.
- If the new CSPP arrangement has a service period shorter in length than the time remaining under the service period for the existing CSPP arrangement, the change to the new CSPP arrangement constitutes a disconnection of the existing CSPP arrangement for which termination liability charges apply. (Tx)

(7) Renewal Options

(a) When a service period under an existing CSPP arrangement is completed, the customer may select a new CSPP arrangement at rates and charges in effect on the first day of service under the new CSPP arrangement, continue service under the month-to-month rates, or discontinue service with no termination liability charge. (B) Area Commitment Plan (ACP) (Cont'd)

The customer may choose any period of time between 24 and 72 months for the commitment. The applicable rate for use in the ACP calculation is the ACP rate selected commitment period. ACP commitment periods are offered as follows:

- ACP A, commitment periods may be selected from 24 months to 48 months in length. (Tx)
- ACP B, commitment periods may be selected from 49 months to 72 months in length. (Tx)

Each month, the number of the appropriate commitment rate elements (e.g., DS1 Local Channels) that are to be billed by the Telephone Company in the region will be determined i.e., the in-service quantity of commitment rate elements are determined for each billing period during a month and are accumulated at the end of each month. If that number of in-service commitment rate elements is equal to or greater than the commitment level, as determined on the billing period during the month, that contains the customer's ACP plan information, the Telephone Company will credit the customer's bill. The credit will be determined based on the difference in the month-to-month billed rate and the associated ACP rate for in-service rate elements equal to the customer's commitment level. If the number of in-service rate elements are less than the commitment level, the credit will be determined based on the difference in the month-to-month billed rate and the associated ACP rate for in-service rate elements. In addition, a shortfall charge, equal to the difference in the commitment level and the in-service number multiplied by 50 percent of the ACP rate will be applied. The credit/shortfall calculations are performed at the end of each month after all of the in-service and commitment level information has been compiled for the month and the resulting credit/shortfall amounts are then applied to the customer's bill during the next month. The ACP rate that will be used is the one that is in effect on the billing date for the appropriate commitment period, i.e., the ACP rate is the rate shown in the tariff at the end of each month when the credit/shortfall calculations are performed.

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) (Cont'd)

A customer may upgrade services under an ACP to a higher order of service<sup>1</sup>, provided under an Optional Payment Plan (i.e., an ACP, a TPP, a FPSPP, a FSP or a CSPP arrangement) and request a reduction in his ACP commitment level without incurring a termination liability. The customer request for the services being upgraded from a lower order of service must be coordinated with the installation of the new service being upgraded to a higher order of service. A new ACP will be issued to reflect a new commitment level. The new commitment level must be equal to or greater than the current commitment level less the quantity of services upgraded. (Tx)

Effective March 4, 2006, a customer desiring to increase a commitment level may update an existing ACP agreement to include the increased commitment level. The commitment period for the updated ACP agreement must be equal to or greater than the time remaining in the existing ACP agreement. (Tx)

If during the commitment period, the customer desires to decrease its commitment level or period, the customer must enter into a new ACP agreement and terminate the existing ACP agreement(s). This will result in a termination liability to be calculated as follows:

The penalty for a decrease in the commitment level or commitment period, per unit decreased, will equal the ACP rate associated with the existing ACP agreement multiplied by the difference in months between the time the ACP agreement has been in effect and the minimal months of the existing agreement times a factor. The factor is 40 percent for agreements that have been in effect twelve months or less, or 20 percent for agreements that have been in effect longer than 12 months. (Tx)

Changes in commitment periods within a plan (e.g., ACP B) do not constitute a change involving a termination liability.

In the case of a decrease in both a commitment level and commitment period, the termination liability will be calculated first for the reduction in level and then for the reduction in period based on the reduced level.

Note 1: Customer requested conversion of Special Access Service (a.k.a., BellSouth SPA) to the same or higher speed Fast Packet Access Service will be treated as an upgrade to a higher order of service. (Tx)
