ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.13 BellSouth SWA Managed Shared Network Service (Cont'd)

A customer may also designate a location in a BellSouth SWA Managed Shared Network Service area which aggregates dedicated transport for DS1 and DS0 switched access traffic as an Alternate Aggregation Location, all of whose Telephone Company-provided switched traffic, may be rearranged to an Aggregation Location in the same BellSouth SWA Managed Shared Network Service area. Traffic from an Alternate Aggregation Location may be rearranged only to a single Aggregation Location. The rearrangements will be made, as requested by the customer, via Access Service Requests. Such Alternate Aggregation Location is considered to be "associated" with the Aggregation Location to which its traffic may be rearranged. Traffic at Alternate Aggregation Locations may be rearranged only to Aggregation Locations where a customer subscribes to BellSouth SWA Managed Shared Network Service under a 60 month⁽¹⁾ rate plan and there are at least two years remaining on the Aggregation Location's current commitment period.

When the customer designates an Aggregation Location, the customer shall make a commitment to maintain a specified number of equivalent DS1s as BellSouth SWA Managed Shared Network Service for such Aggregation Location for a period of one year⁽²⁾ or five years⁽¹⁾, beginning on the date on which the customer initially orders the service or establishes a new commitment. Such commitment shall be equal to 90% of the equivalent switched access (a.k.a. BellSouth SWA) DS1s provided by the Telephone Company to the customer to be aggregated at such Aggregation Location as BellSouth SWA Managed Shared Network Service or 28 equivalent DS1s, whichever is greater. As of April 30, 2003, when a customer initially orders BellSouth SWA Managed Shared Network Service or establishes a new commitment plan for an Aggregation Location the customer must also subscribe to BellSouth SPA Managed Shared Network Service, as described in Section 7 of this Tariff, for the respective locations, regardless of whether the locations terminate only BellSouth SWA service, or both BellSouth SWA service and special access (a.k.a. BellSouth SPA) service. If the customer already subscribes to BellSouth SPA Managed Shared Network Service, then the customer shall replace their existing commitment plan with a new single commitment plan that will be established for the customer's BellSouth SWA Managed Shared Network Service and BellSouth SPA Managed Shared Network Service arrangements that shall be based on the customer's current DS1 equivalents. (N)

This initial commitment is to include traffic from an Alternate Aggregation Location.

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

(2) Effective on December 20, 2024, Switched Access Term Plans of greater than Month-to-Month are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than Month-to-Month, as of December 20, 2024, will continue to be provided under that plan for the remainder of that term. (N)

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.19 Zone Pricing - BellSouth SWA Transport (Cont'd)

BellSouth SWA Dedicated Transport service is available under an Area Commitment Plan (ACP) as described in 2.4.8(B) preceding. ACP for BellSouth SWA Dedicated Transport service is available for switched local channels, switched dedicated interoffice channels and switched Channelization Systems. BellSouth SWA Dedicated Transport interoffice facility termination rate elements will receive the same ACP rate treatment as the associated interoffice channel.

BellSouth SWA Transport service is available under several payment plans: Month-to-month (with a minimum of one month), and Area Commitment Plans A (24-48 Months)⁽¹⁾⁽²⁾ and B (49-72 Months)⁽¹⁾.

(N)

Monthly rates and nonrecurring charges as specified in 6.8.1 following apply for BellSouth SWA Transport service.

6.7.20 BellSouth Dedicated Ring

Monthly rates and charges as specified in 6.8.1. following apply for each BellSouth Dedicated Ring. Customers must specify network capacity at the time of the initial order. In an Overlay Ring Arrangement where a customer's overlaying BellSouth Dedicated Ring rides the customer's host BellSouth Dedicated Ring, the overlay ring will share the transport of the host ring between common node locations. Rate categories at OC-3, OC-3+, OC-12, OC-48, OC-48+, OC-192, and OC-192+ capacity levels include Customer Nodes, Central Office Nodes, Local Channels, Alternate Central Office Channels, Interoffice Channels and Internodal Channels. Rate categories for OC-1 BellSouth Dedicated Ring include Customer Nodes and Central Office Nodes. Channel Interfaces are required at each node on the network and must be associated with a BellSouth Dedicated Ring. An OC-1 Overlay Ring Arrangement requires an OC-1 Channel Interface at each node involved. An OC-3 Overlay Ring Arrangement requires an OC-3 Channel Interface at each node involved. An OC-3+ or OC-12 Overlay Ring Arrangement requires an OC-12 Channel Interface at each node involved. An OC-48 or OC-48+ Overlay Ring Arrangement requires an OC-48 Channel Interface at each node involved. In Overlay Ring Arrangements, the customer must order a Channel Interface for each entry to or exit from the host ring. In all other situations, the number of Channel Interfaces ordered will depend on whether the customer desires a working interface, or a working interface and a protection interface. The quantity of channel interfaces ordered may not exceed the capacity ordered. When a 28 DS1 Channel System is utilized to activate DS1 channels, the appropriate number of DS1 Channel Interfaces are required in lieu of an originating or terminating DS3 or STS-1 Channel Interface.

Nonrecurring charges for Local, Alternate Central Office, Interoffice and Internodal Channels apply for each channel for month-to-month customers. Nonrecurring charges are not applicable when the ring level rate elements are ordered under TPP arrangements.

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

(2) Effective on December 20, 2024, Switched Access Term Plans of greater than Month-to-Month are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than Month-to-Month, as of December 20, 2024, will continue to be provided under that plan for the remainder of that term.

6.7 Rate Regulations (Cont'd)

6.7.20 BellSouth Dedicated Ring (Cont'd)

The rates for Customer Channel Interfaces apply for each origination and for each termination of an activated DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 at the Customer Node. Nonrecurring charges are established on a per order basis for the first DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 which originates or terminates at a Customer Node and for each additional DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 which originates or terminates at the same Customer Node. The recurring rate applies on a per Customer Node basis for each origination and for each termination of an activated DS3 and/or DS1 at a Customer Node.

In addition, OC-12 and or OC-48 customers with DS3 and/or STS-1 interfaces at the Customer Node electing to connect with DS1 services at a Central Office Node, must obtain a 28 DS1 Channel System and the appropriate number of DS1 Channel Interfaces in lieu of a DS3 or STS-1 Channel Interface. A maximum of 28 DS1 Channel Interfaces can be activated for each 28 DS1 Channel System utilized. Nonrecurring charges are established on a per order basis for the first 28 DS1 Channel System and for each additional 28 DS1 Channel System at that same Central Office Node. Nonrecurring charges are also established for the first DS1 Channel Interface which originates/terminates in a 28 DS1 Channel System and each additional DS1 Channel Interface which originates/terminates in that same DS1 Channel System. For DS1 Channel Systems, nonrecurring charges only apply for month-to-month customers. The recurring rate applies for each 28 DS1 Channel System and each DS1 Channel Interface activated per Central Office Node.

A nonrecurring charge applies for BellSouth Dedicated Ring Surveillance, one for each Customer Node and each Central Office Node, per BellSouth Dedicated Ring. This charge applies when the customer adds BellSouth Customer Network Management options to an existing OC-1, OC-3, OC-3+ OC-12, OC-48, OC-48+, OC-192 or OC-192+ BellSouth Dedicated Ring.

In order to accommodate more flexible customer situations, BellSouth Dedicated Ring is available under several TPP arrangements: Plan A (12-36 Months)⁽²⁾, Plan B (37-60 Months)⁽¹⁾ or Plan C (61-96 Months)⁽¹⁾. Month-to-month arrangements (with a minimum of four months) are available for BellSouth Dedicated Ring.

(N)

TPP arrangements are provided under the terms and conditions specified in 2.4.8 preceding, except as modified following. For all payment plans, the following regulations apply:

- (1) BellSouth Dedicated Ring, whether initially or subsequently ordered in conjunction with SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring), must be provided under the same TPP payment plan with the same service period and both services are to be coterminous.

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

(2) Effective on December 20, 2024, Switched Access Term Plans of greater than Month-to-Month are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than Month-to-Month, as of December 20, 2024, will continue to be provided under that plan for the remainder of that term.

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service (Cont'd)

BellSouth SWA Managed Shared Network Service is available under a 12 month⁽²⁾ or a 60 month⁽¹⁾ commitment plan. Month-to-month rates, without termination liability, are only available upon completion of a commitment plan. Upon the completion of a commitment plan, the customer must establish a new commitment plan or billing will be changed to BellSouth SWA Managed Shared Service month-to-month rates. (N)

At the end of a commitment plan, the customer also may convert his BellSouth SWA Managed Shared Network Service arrangement to regular tariff services via ASRs or the customer may request that the Telephone Company convert their BellSouth SWA Managed Shared Service DS0 through DS3 service to standard tariff point-to-point services at month-to-month rates, at which time the customer may then subscribe to applicable payment plans.

The rates for the BellSouth SWA Managed Shared Network Service commitment plan are stabilized for the length of the plan and are exempt from Telephone Company initiated increases, however, decreases will automatically flow through to the customer.

Beginning one year after a customer orders BellSouth Managed Shared Network Service at an Aggregation Location and at each twelve month interval thereafter, a review of the customer's level of equivalent DS1s associated with an Aggregation Location in an BellSouth Managed Shared Network Service area will be performed. If at the annual review, the customer's equivalent DS1s associated with an Aggregation Location in a BellSouth Managed Shared Network Service area are less than the commitment for such Aggregation Location, a shortfall charge will apply. The shortfall will equal the number of equivalent DS1s the customer is short of the commitment times the per unit shortfall charge shown below.

	<u>Shortfall Charge</u>	<u>USOC</u>	
Per Equivalent DS1 Shortfall Charge	\$900.00		NSMS

If the customer designates an Alternate Aggregation Location, an Alternate Aggregation Location Establishment Charge shall apply.

	<u>Alternate Aggregation Establishment Charge</u>	<u>USOC</u>
Nonrecurring Charge Per Alternate Aggregation Location Established	\$1,500.00	OHSLE

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service (Cont'd)

A minimum period charge will apply on an BellSouth SWA Managed Shared Network Service DS1 and DS0 service component basis for each such component disconnected prior to the end of the four-month minimum service period. The charge will be calculated by multiplying the monthly rate for the BellSouth SWA Managed Shared Network Service service component times the number of months remaining in the four month minimum service period.

A termination liability charge will apply if customer terminates the BellSouth Managed Shared Network Service arrangement at an Aggregation Location prior to the end of a commitment period (i.e., 12 month⁽²⁾ or 60 month⁽¹⁾) associated with such Aggregation Location. The termination liability charge is equal to the number of equivalent DS1s associated with the commitment for such Aggregation Location times the number of months remaining in the commitment times the per unit termination liability charges shown below. Provided, however, that termination liability charges shall not apply for the termination of the BellSouth Managed Shared Network Service arrangement at an Aggregation Location under a five year commitment if, prior to the end of the five year⁽¹⁾ commitment period for such Aggregation Location, the customer requests reconfiguration of all of the traffic from such Aggregation Location to a second Aggregation Location in the same BellSouth Managed Shared Network Service Area and the following conditions are met: the commitment for the first Aggregation Location has been in place 36 months or greater and the remaining commitment period of the second Aggregation Location is equal to or greater than the time remaining at the first Aggregation Location. If the commitment for the first Aggregation Location has been in place for less than 36 months and the remaining commitment for the second Aggregation Location is equal to or greater than the time remaining at the first Aggregation Location, a termination liability charge shall apply equal to the number of equivalent DS1s associated with the commitment for the first Aggregation Location times the difference between the months the Aggregation Location's commitment has been in place and 36 months times the per unit termination liability charges shown below. If the commitment for the first Aggregation Location has been in place for less than 36 months and the remaining commitment for the second Aggregation Location is less than the time remaining at the first Aggregation Location, full termination liability charges apply. For all other situations, where a customer terminates BellSouth Managed Shared Network Service prior to the end of a commitment period full termination liability charges apply. (N)
