33. Pricing Flexibility Contract Offering (Cont'd)33.3 Contract Offering No. 3 - OC-48 SONET Ring Access Service (SRAS)  
Offer (Cont'd)33.3.5 Termination Liability

(N)

The termination language contained below applies in lieu of termination liability language contained in Section 7.4.16. If Customer terminates services before the completion of the term for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination and are payable as described in Section 7.4.16. Customer's termination liability for cancellation of service shall be equal to:

50% of all recurring charges for the balance of the Customer's three(3) or five (5) year term.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a \$20,000 monthly rate terminates service after two years and has twelve months remaining in a three year term plan. The termination liability would be calculated as:

$\$20,000 \times 12 \times 50\% = \$120,000$  termination liability charge.

33. Pricing Flexibility Contract Offering (Cont'd)33.4 Contract Offering No. 4 - OC-192 Dedicated Ring Offer (Cont'd)33.4.5 Termination Liability

(N)

The termination language contained below applies in lieu of termination liability language contained in Section 7.4.16. If Customer terminates services before the completion of the term for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination and are payable as described in Section 7.4.16. Customer's termination liability for cancellation of service shall be equal to:

50% of all recurring charges for the balance of the Customer's three (3) or five(5) year term.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a \$20,000 monthly rate terminates service after two years and has twelve months remaining in a three year term plan. The termination liability would be calculated as:

$\$20,000 \times 12 \times 50\% = \$120,000$  termination liability charge.

Central Office (CO) Renewal Offer (Cont'd)33.11.5 Termination Liability

(N)

The termination language contained below applies in lieu of termination liability language contained in Section 7.4.16. If Customer terminates services before the completion of the term for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination and are payable as described in Section 7.4.16. Customer's termination liability for cancellation of service shall be equal to:

50% of all recurring charges for the balance of the Customer's five (5) year term.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a \$20,000 monthly rate terminates service after four years and has twelve months remaining in a five year term plan. The termination liability would be calculated as:

33.12 Contract Offering No. 12 - OC-48 SONET Ring Access Service (SRAS) Offer (Cont'd)33.12.5 Termination Liability

The termination language contained below applies in lieu of termination liability language contained in Section 7.4.16. If Customer terminates services before the completion of the term for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination and are payable as described in Section 7.4.16. Customer's termination liability for cancellation of service shall be equal to:

50% of all recurring charges for the balance of the Customer's three(3) or five (5) year term.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a \$20,000 monthly rate terminates service after two years and has twelve months remaining in a three year term plan. The termination liability would be calculated as:

$\$20,000 \times 12 \times 50\% = \$120,000$  termination liability charge.

33.13 Contract Offering No. 13 - OC-48 SONET Ring Access Service (SRAS)  
Central Office (CO) Renewal Offer (Cont'd)33.13.5 Termination Liability

The termination language contained below applies in lieu of termination liability language contained in Section 7.4.16. If Customer terminates services before the completion of the term for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination and are payable as described in Section 7.4.16. Customer's termination liability for cancellation of service shall be equal to:

50% of all recurring charges for the balance of the Customer's five (5) year term.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a \$20,000 monthly rate terminates service after four years and has twelve months remaining in a five year term plan. The termination liability would be calculated as:

$\$20,000 \times 12 \times 50\% = \$120,000$  termination liability charge.

33.14 Contract Offering No. 14 - Access Advantage Plus Transport Service  
- One Year Term33.14.1 General Description

- (A) Access Advantage Plus (AA+) Transport Service is a dedicated transport service arrangement that integrates an end user's network access connections for multiple voice, data and other special access services onto a single interstate DS1 High Capacity Special Access Service. AA+ Transport Service includes a DS1 High Capacity Special Access Service between an end user's designated premises and an AA+ Transport Service Node, DS1-to-DS0 multiplexing and DS0 multiplexer cross connects as described below.

An AA+ Transport Service Node is a Telephone Company designated hubbing office in which digital DS1-to-DS0 multiplexing is provided through a Digital Cross Connect System (DCS) to derive twenty-four DS0 level channels (64 Kbps per channel). AA+ Transport Service DS0 channels are digitally cross connected at the AA+ Transport Service Node to the DS0 channels derived from other multiplexed high capacity service arrangements via DS0 multiplexer cross connects, which are described in 7.2.3(D)(15).

- (B) The DS0 channels derived from an AA+ Transport Service may be cross connected on an individual channel basis as well as by Bonded Channel Group. Any combination of the Bonded Channel Groups listed below and individual DS0 channels may be cross connected but the total number of DS0 channel cross connects per AA+ Transport Service cannot exceed twenty-four. A Bonded Channel Group consists of consecutively assigned DS0 channels configured to provide the following capacity arrangements:

- (1) Bonded Channel Group 2 - Two consecutively assigned DS0 channels configured to provide 128 Kbps of capacity.
- (2) Bonded Channel Group 4 - Four consecutively assigned DS0 channels configured to provide 256 Kbps of capacity.

If the Customer terminates services before the completion of the Term Period for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the termination and are payable as described in Section 7.4.16. Customer's termination liability charges shall be equal to the following percentages of all recurring charges for the balance of the Customer's ten (10) year term:

| Year | TL  |
|------|-----|
| 1    | 75% |
| 2    | 70% |
| 3    | 65% |
| 4    | 60% |

| 6    | 50% |
| 7    | 45% |
| 8    | 40% |
| 9    | 35% |

33.19 Contract Offering No. 19 - OC-48 SONET Ring Access Service (SRAS)  
Central Office (CO) Renewal Offer (Cont'd)33.19.5 Termination Liability

The termination language contained below applies in lieu of termination liability language contained in Section 7.4.16. If Customer terminates services before the completion of the Term Period for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. These termination liability charges shall become due as of the effective date of the termination and are payable as described in Section 7.4.16. Customer's termination liability charges for termination of service shall be equal to:

50% of all recurring charges for the balance of the Customer's five (5) year Term Period.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a \$20,000 monthly rate terminates service after four years and has twelve months remaining in a five year term plan. The termination liability charge would be calculated as:

$\$20,000 \times 12 \times 50\% = \$120,000$  termination liability charge.

33. Pricing Flexibility Contract Offerings (Cont'd)33.20 Contract Offer No. 20 - MVP DS1, DS3 and OCN Service Offer (Cont'd)33.20.5 Current Annual Revenue Commitment

(N)

Under Contract Offer No.20, Customer will commit to maintain a Current Annual Revenue Commitment (CARC). The CARC will be established using either the Customer's current MVP MARC or an Annual Revenue Commitment calculated as outlined below in Section 33.20.5(A), whichever is greater. The CARC will be established as soon as the Telephone Company receives the Letter Of Authorization from the customer.

(A) Determining the Annual Revenue Commitment

The Customer's Annual Revenue Commitment is calculated based on the total of the previous three (3) months recurring billing for all MVP qualified access services prior to any MVP discounts (as listed in F.C.C. 1, Section 22.2), multiplied by four (4). The Annual Revenue Commitment is calculated as follows:

Previous Three (3) Months Recurring Billing X 4 = Annual Revenue Commitment

(B) The CARC will not change during the contract Term Period.

(C) If the Customer fails to achieve the CARC on either of the contract anniversary dates (December 31, 2004 or December 31, 2005), and fails to remit the annual projected gap payment, the Customer will be deemed to have terminated its participation in Contract Offer No. 20 and termination liability charges will apply as set forth in Section 33.20.7.

33.20 Contract Offer No. 20 - MVP DS1, DS3 and OCN Service Offer (Cont'd)33.20.6 Quarterly True-Up

To ensure that the customer will meet the CARC by the end of year 2004 and 2005, the Telephone Company will review revenues quarterly. In the event that the Customer has an estimated shortfall, the Customer is required to remit Quarterly Gap Payments as described below. Quarterly is defined as consecutive three (3) month periods commencing January 1, 2004. The process of remitting payments to eliminate the Annual Projected Gap is referred to as the True-Up process.

The Telephone Company will calculate the Customer's Annual Projected Gap (if any) on a quarterly basis. The Annual Projected Gap is the CARC, less any annual projected MVP discounts, less actual annualized revenues. Actual annualized revenue is the Customer's actual billed amount to date, annualized to determine end of year estimated revenues. Actual annualized revenues will include any previous quarterly gap payment that the Customer has made. For this calculation, the actual annualized revenues are calculated after discounts from this Contract Offer No. 20, and any other applicable credits or discounts (i.e., MVP) have been applied.

Example A: Annual Projected Gap calculation at end of 1st quarter

|                                                         |                |
|---------------------------------------------------------|----------------|
| CARC                                                    | = \$12,000,000 |
| Less projected MVP discounts                            | = \$ 2,000,000 |
| Sub total                                               | = \$10,000,000 |
| Less actual quarterly revenue (\$1.5M) X 4 (annualized) | = \$ 6,000,000 |
| Annual Projected Gap                                    | = \$ 4,000,000 |

(A) If there is a positive Annual Projected Gap as measured above for the quarter, the Customer agrees to make Quarterly True-Up payments. Quarterly True-Up payments will be calculated using the percentages in section 33.20.6 (B) and will be applied to the Annual Projected Gap to determine the gap payment. See example B in Section 33.20.6.

(B) Quarterly True-up payments will be calculated utilizing the following percentiles:

| Quarter | Percent |
|---------|---------|
| 1st     | 0%      |
| 2nd     | 25%     |
| 3rd     | 66%     |

$$\$6,930,000 + \$750,000 + \$1,320,000 + \$1,000,000 + \$2,000,000 = \$12,000,000$$

(D) If at the end of either contract anniversary date (December 31, 2004 or December 31, 2005) the customer has exceeded their CARC (actual revenue + gap payments) and have made Quarterly Gap Payments, SBC will credit the customers account the amount exceeding the CARC, but not greater than the total gap payments the customer has made.

33.20 Contract Offer No. 20 - MVP DS1, DS3 and OCN Service Offer (Cont'd)33.20.7 Termination Liability Charges

If the Customer terminates service before the completion of the term for any reason whatsoever the customer agrees to pay the Telephone Company termination liability charges described below. These charges shall become due as of the effective date of the cancellation of termination. The Customer must provide written notification 60 days prior to the desired date of termination to the Telephone Company.

If the Customer fails to meet any of the eligibility criteria in section 33.20.3 or fails to maintain any of the Terms and Conditions in section 33.20.4, the Customer will be deemed to have terminated its participation in Contract Offer No. 20 and termination liability charges pursuant to section F.C.C. No. 1 Section 2.4.

Customers termination liability shall be equal to:

- (A) 100% of all Discounts received under this Contract Offer No. 20 during the six (6) months immediately prior to the date of termination, plus;
- (B) 25% of the CARC for each year in the remaining portion of the Term Period.

Any previous gap payments paid by the customer will be forfeited.

Example C:

The Customer signs up for Contract Offer No. 20 on November 1, 2003. The Customer terminates its participation in Contract Offer No. 20 effective September 15, 2004. The termination liability charge that would apply is calculated as follows:

Annual CARC = \$12M

Monthly CARC = \$12M / 12 months = \$1M

Number of months remaining in contract = 15.5

Remaining value of CARC = 15.5 x \$1M = \$15.5M

25 % of remaining value of CARC = .25 x \$15.5M = \$3.875M

March 2004 - August 2004 discounts = \$500K

Total Termination Liability Charge = \$3.875M + \$500K = \$4.375M

Customer's termination liability charges for termination of service shall be equal to:

- 50% of all recurring charges for the balance of the Customers three (3) or five (5) year Term Period for the Subject Service that the customer has terminated.
- All remaining in-service Subject Services will convert back to the prevailing tariff rates at the term that the customer signed up for. Prevailing tariff rates are highlighted in Section 7.5.9, 7.5.13, 30.4, 32.3 for Phase 1 MSAs and Section 31.5.2.10, 31.5.2.12 and 31.5.2.13 for Phase 2 MSAs.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)  
Example: A Customer with a \$20,000 monthly rate on a Subject Service terminates service after two years and has thirty-six months remaining in a five year billing period. The termination liability charge would be calculated as:

$\$20,000 \times 36 \times 50\% = \$360,000$  termination liability charge

If Customer is required by a regulatory agency to divest any markets, market spectrum or customers ("Divested Market") in connection with a Transfer, the Customer can request that Key Numbers be recalculated by the Telephone Company. The Customer must send written notice to the Telephone Company within sixty (60) days of completing a market divestiture. The date the Customer sends that written notice shall be the "Divestiture Notice Date". The Telephone Company will recalculate the Key Numbers as described below:

- (1) The Baseline MARC, IDC and IDCC amounts will be reduced by either of the following methods, at the Customer's discretion ("Divested Revenue"):
  - (a) One hundred percent (100%) of the Divested Market's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the notification multiplied by four (4); or
  - (b) A revenue amount that is less than the amount determined under subparagraph (a) above.

(2)The IDCCs will be reduced according to the following steps:

## Step 1.

Determine the impact on total revenue by calculating the "Divestiture Percentage". The Divestiture Percentage is the percent change between the Pre-Divest and Post-Divest revenues. The "Pre-Divest Revenue" equals 100% of the Customer's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the Divestiture Notice Date multiplied by four (4) or the Baseline MARC, whichever is greater. The "Post-Divest Revenue" equals Pre-Divest Revenue minus the Divested Revenue from (B)(1).

## Example:

Pre-Divest Revenue = \$37,900,000  
Divested Revenue = \$2,900,000  
Post-Divest Revenue = \$35,000,000  
(\$37,900,000 - \$2,900,000)

Divestiture Percentage = 8%  
(1-(\$35,000,000/\$37,900,000))

## (2)(Cont'd)

## Step 2.

The Divestiture Percentage will equal the percent reduction in the IDCs and IDCCs which remain available to the Customer.

Example:

IDCC-Level equals 5

Divestiture % = 8%

Reduced IDC = \$34,500,000  
( $\$37,500,000 - (\$37,500,000 \times .08)$ )

Reduced IDCC = \$5,175,000  
( $5,625,000 - (5,625,000 \times .08)$  )

(3) The Telephone Company will recalculate the Key Numbers within sixty (60) days of the Divestiture Notice Date. The recalculated Key Numbers will become effective once the Divested Market's billed, recurring revenues for Qualified Access Service are no longer being billed to the Customer ("Divestiture Effective Date"). Starting with the remaining quarters of the Term Year as of the Divestiture Effective Date, the recalculated Key Numbers will be used to determine the applicable IDCC.

(a) If the Divestiture Effective Date falls within the 1st, 2nd or 3rd quarter of the respective Term Year, the initial credit application of any eligible Reduced IDCC will occur thirty (30) days after the Key Numbers are effective or thirty (30) days in arrears of the end of the quarter, whichever is later; or,

## (3) (Cont'd)

- (b) If the Divestiture Effective Date falls within the fourth quarter of the respective Term Year, the initial credit application of any eligible reduced IDCC will occur thirty (30) days after the Key Numbers are determined or sixty (60) days in arrears of the end of the quarter, whichever is later.

33.29.7. WAMS-VIP Cell-Site Performance - Credits(A) Description

Cell-Site Performance Improvement Credits are available to the Customer based upon the quality of service delivered during the Term Period, as set forth in subparagraph (2) below. The credits will be granted in the event that the Telephone Company's Contract Offer No. 29 service performance level objectives for cell-site DS1 Qualified Access Services are not met.

- (1) The DS1 Qualified Access Services cell-site performance level parameters will be based on DS1 Percentage of Network Availability. The DS1 Percent of Network Availability will be calculated by determining the actual hours that the cell-site DS1 circuits are in service during a given month compared to the total expected availability, and then aggregating those total hours over the course of a Term Year.

Example:

If a Customer had 100 circuits in service at the end of January and 110 at the end of February, their total hours of expected availability would be (31 days times 100 circuits, times 24 hours) plus (28 days, times 110 circuits, times 24 hours) or 148,320. This would be the denominator of the network availability equation.

The numerator would be the total hours of outage based upon measured tickets reported to the Telephone Company subtracted from the 148,320. If there were eight (8) reported failures averaging 3.5 hours per outage, the total hours of outage would be equal to twenty-eight (28). The resulting availability equation for those two (2) months will be  $((148,320 - 28) / 148,320)$  or 99.981%. A twelve (12) month aggregation using the same process as noted for two (2) months will be used to determine annual percent availability for a Customer.

- (2) Table F below provides cell-site service performance targets, based on DS-1 Percentage of Network Availability, for each Term Year.

**Table F**

| Term Year | % Network Availability |
|-----------|------------------------|
| 1         | 99.9800%               |
| 2         | 99.9840%               |

| 7         | 99.9900%               |

- (B) At the Annual True-Up, if the Telephone Company annual results fail to meet the performance target, as specified in Table D above, and the Customer has met the Baseline MARC, the Telephone Company will provide credits and services as follows:

- (1) The Telephone Company will apply one hundred dollars (\$100) in special construction credits for each measured trouble ticket reported to the Telephone Company during the Term Year for cell-site improvements. The special construction credits will be used to improve performance at mutually agreed upon Customer's cell sites that are performing below the DS-1 Percentage of Network Availability as specified in Table D above.

For example: special construction credits can be used to offset the cost of replacing copper with fiber at non-performing cell-sites; and,

- (2) The Telephone Company will provide Customer the ability to purchase Automatic Loop Transfer service at twenty-five percent (25%) discount off the monthly recurring rates described in F.C.C. No. 1, Section 31.5.2 for those cell sites that fail to meet the performance target, as specified in Table D above.

33.29.8 Termination

The Customer's subscription to this Contract Offer No. 29 shall terminate if Customer gives notice to Telephone Company, as set forth in the following paragraph, and as set forth in other sections of this Contract Offer No. 29.

The termination liability charges described below shall apply if termination occurs because the Customer does not make a Shortfall Payment as described in Section 33.29.5(B)(1) and/or the Customer elects to terminate its subscription to Contract Offer No. 29 for reasons other than described in Section 33.29.6 (2)(A)option(ii)(4) and/or 33.29.8(B).

If the Customer elects to terminate its Contract Offer Subscription during the Term Period, written notification must be provided to the Telephone Company indicating the Customer's intention to terminate its Contract Offer Subscription. Termination liability charges will consist of the sum of the following:

- (1) Ten percent (10%) of the Baseline MARC divided by twelve (12) then multiplied by the number of months remaining in the Term Period; plus
- (2) Repayment of the IDCC, given under Contract Offer No. 29 during the three (3) quarters preceding the termination date.

Example:

Customer with a Baseline MARC of \$27,500,000 and an IDC of \$32,500,000 terminates its Contract Offer Subscription after forty-eight (48) months and with thirty-six (36) months remaining in the eighty-four (84) month Term Period, and the Customer received IDCC \$2,925,000 for the previous three quarters before termination. The termination liability charges would be:

$$((\$27,500,000/12) \times 10\% \times 36) + (\$2,925,000) = \$11,174,999 \text{ termination liability charge.}$$
(B) Rate Reductions

If the tariffed rates for the Qualified Access Services are reduced by a cumulative total of twenty percent (20%) from the tariffed rates in effect as of the Effective Date (Initial Tariff Rates), either party may terminate the Contract Offer Subscription by providing a sixty (60) day written notice to the other party. Telephone Company shall also perform a similar exercise within sixty (60) days following each Term Year detailing the Customer's inventory from the Initial Rate Analysis and the end-of-year tariff rates (EOY Rate Analysis). The Customer and Telephone Company will then compare the Initial Rate Analysis to the EOY Rate Analysis to identify the percent change in the total, cumulative rates, if any.

Example: Initial Rate Analysis and EOY Rate Analysis Comparison

The quantity of units for each product category used in the Initial Rate Analysis and the EOY Rate Analysis will be calculated from the Qualified Access Service rate elements listed below:

- (1) DS1 - Channel Terminations (CT), Channel Mileage (CM) fixed and Channel Mileage (CM) per mile;
- (2) DS3 - CT, CM fixed, CM per mile and Multiplexing (MUX); and

- (A) Access Advantage Plus (AA+) Transport Service is a dedicated transport service arrangement that integrates an end user's network access connections for multiple voice, data and other special access services onto a single interstate DS1 High Capacity Special Access Service. AA+ Transport Service includes a DS1 High Capacity Special Access Service between an end user's designated premises and an AA+ Transport Service Node, DS1-to-DS0 multiplexing and DS0 multiplexer cross connects as described below.

An AA+ Transport Service Node is a Telephone Company designated hubbing office in which digital DS1-to-DS0 multiplexing is provided through a Digital Cross Connect System (DCS) to derive twenty-four DS0 level channels (64 Kbps per channel). AA+ Transport Service DS0 channels are digitally cross connected at the AA+ Transport Service Node to the DS0 channels derived from other multiplexed high capacity service arrangements via DS0 multiplexer cross connects, which are described in 7.2.3(D)(15).

- (B) The DS0 channels derived from an AA+ Transport Service may be cross connected on an individual channel basis as well as by Bonded Channel Group. Any combination of the Bonded Channel Groups listed below and individual DS0 channels may be cross connected but the total number of DS0 channel cross connects per AA+ Transport Service cannot exceed twenty-four. A Bonded Channel Group consists of consecutively assigned DS0 channels configured to provide the following capacity arrangements:

3. Pricing Flexibility Contract Offerings (Cont'd)33.33 Contract Offer No. 33 - Wireless Advantage Managed Services Value Incentive Plan (WAMS-VIP) Offer (Cont'd)33.33.4 WAMS-VIP Offer Incentive Discounts

Customer will be eligible for the following Incentive Discounts and/or Portability Incentives (collectively "Incentives") under Contract Offer No. 33 during each of the Term Years:

Incentive Discount Commitment Credit (IDCC),  
Incentive Discount for SONET Services - (SONET-ID),  
Incentive Discount for WinBack Services (WinBack Incentive), and  
Portability Incentive for DS3s (Portability Incentive).

(A) Incentive Discount Commitment

In order to qualify for the IDCC and Portability Incentives, Customer must maintain the "Incentive Discount Commitment" (IDC):

(1) Establishment of the IDC

- (a) For Term Year one (1) the Customer's IDC will equal the Baseline MARC.
- (b) Unless and until Customer elects to increase the IDC, as provided in Section 33.33.4(A)(1)(c), the IDC during Term Years two (2) through seven (7) shall remain the Baseline MARC.
- (c) Customer may elect, by providing written notice to Telephone Company, to increase the IDC. Customer shall notify the Telephone Company of the new IDC Level, as provided in Table B in Section 33.33.4(B). The Customer may increase the IDC Level only; the IDC Level may not be decreased. An IDC Level may be increased after the first Term Year and/or after the first six (6) months of each Term Year (New IDC Date). Each time Customer chooses a new IDC Level, the corresponding IDC and IDCC shall apply as of the New IDC Date and for the remainder of the Term Period, unless Customer further increases the IDC as provided in this section.

(2) Application of Incentive Discount Commitment

If during the Annual True-Up, as defined in Section 33.33.5, the Customer's Achieved Revenue Amount (to include any Shortfall and/or Make-up Payments) meets or exceeds the IDC, the Telephone Company will apply the IDCC and Portability Incentives for the following Term Year, provided the criteria in Section 33.33.4(B) and (E) respectively, are met.

- (2) The terms and conditions of the Contract Offer No. 33 shall continue in full force and effect if the Customer merges with, acquires, is acquired by, or sells all or substantially all its stock or assets to any other entity (Transfer). After a Transfer, if the other entity also purchases Qualified Access Service(s) from the Telephone Company, either directly or through any affiliates, the Customer shall not include under the Contract Offer Subscription any of the billed, recurring revenue for the Qualified Access Services of the other entity in place as of the date the Transfer is finalized (Transfer Date), except as may be provided below.

Notwithstanding the foregoing, the Customer may choose, at its discretion, one of the options set forth in subsections (i)-(iii) below (Options), within the time period that is between twelve (12) months and twenty-four (24) months after the Transfer Date.

To exercise an Option, the Customer must send written notice to the Telephone Company within the time period described above stating which Option the Customer selects. The date that the Customer sends that written notice shall be the "Option Exercise Date". None of the Options shall alter in any way the terms or conditions of any contract or tariff pursuant to which the other entity obtains Qualified Access Services from the Telephone Company, including but not limited to any terms or conditions related to termination.

The Option 1 multiplier ("Option 1 Multiplier"), which equals the ratio of the Combined IDC to the Customer's current IDC, will be applied to the IDCCs associated with the IDC Levels that are available to the Customer, as defined in Section 33.33.4.

Example:

IDC = \$32,500,000

New Entity Revenue = \$25,000,000

Combined IDC = \$57,500,000  
(\$32,500,000 plus \$25,000,000)

Option 1 Multiplier = 1.8  
(\$57,500,000/\$32,500,000)

- (e) The IDCCs amounts will be adjusted according to the following formula:

The Option 1 Multiplier will be applied to the IDCC associated with the IDCC Levels which remain available to the Customer in order to determine the Combined IDCC.

Example:

IDC = \$32,500,000

Current IDC-Level = 3

IDCC = \$3,900,000

New Entity Revenue = \$25,000,000

Combined IDC = \$57,500,000

If Customer is required by a regulatory agency to divest any markets, market spectrum or customers ("Divested Market") in connection with a Transfer, the Customer can request that Key Numbers be recalculated by the Telephone Company. The Customer must send written notice to the Telephone Company within sixty (60) days of completing a market divestiture. The date the Customer sends that written notice shall be the "Divestiture Notice Date". The Telephone Company will recalculate the Key Numbers as described below:

- (1) The Baseline MARC, IDC and IDCC amounts will be reduced by either of the following methods, at the Customer's discretion ("Divested Revenue"):
  - (a) One hundred percent (100%) of the Divested Market's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the notification multiplied by four (4); or
  - (b) A revenue amount that is less than the amount determined under subparagraph (a) above.

(2)The IDCCs will be reduced according to the following steps:

## Step 1.

Determine the impact on total revenue by calculating the "Divestiture Percentage". The Divestiture Percentage is the percent change between the Pre-Divest and Post-Divest revenues. The "Pre-Divest Revenue" equals 100% of the Customer's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the Divestiture Notice Date multiplied by four (4) or the Baseline MARC, whichever is greater. The "Post-Divest Revenue" equals Pre-Divest Revenue minus the Divested Revenue from (B)(1).

## Example:

Pre-Divest Revenue = \$37,900,000  
Divested Revenue = \$2,900,000  
Post-Divest Revenue = \$35,000,000  
(\$37,900,000 - \$2,900,000)

Divestiture Percentage = 8%  
(1-(\$35,000,000/\$37,900,000))

## (2)(Cont'd)

## Step 2.

The Divestiture Percentage will equal the percent reduction in the IDCs and IDCCs which remain available to the Customer.

Example:

IDCC-Level equals 5

Divestiture % = 8%

Reduced IDC = \$34,500,000  
( $\$37,500,000 - (\$37,500,000 \times .08)$ )

Reduced IDCC = \$5,175,000  
( $5,625,000 - (5,625,000 \times .08)$ )

(3) The Telephone Company will recalculate the Key Numbers within sixty (60) days of the Divestiture Notice Date. The recalculated Key Numbers will become effective once the Divested Market's billed, recurring revenues for Qualified Access Service are no longer being billed to the Customer ("Divestiture Effective Date"). Starting with the remaining quarters of the Term Year as of the Divestiture Effective Date, the recalculated Key Numbers will be used to determine the applicable IDCC.

(a) If the Divestiture Effective Date falls within the 1st, 2nd or 3rd quarter of the respective Term Year, the initial credit application of any eligible Reduced IDCC will occur thirty (30) days after the Key Numbers are effective or thirty (30) days in arrears of the end of the quarter, whichever is later; or,

- (b) If the Divestiture Effective Date falls within the fourth quarter of the respective Term Year, the initial credit application of any eligible reduced IDCC will occur thirty (30) days after the Key Numbers are determined or sixty (60) days in arrears of the end of the quarter, whichever is later.

33.33.7. WAMS-VIP Cell-Site Performance - Credits(A) Description

Cell-Site Performance Improvement Credits are available to the Customer based upon the quality of service delivered during the Term Period, as set forth in subparagraph (2) below. The credits will be granted in the event that the Telephone Company's Contract Offer No. 33 service performance level objectives for cell-site DS1 Qualified Access Services are not met.

- (1) The DS1 Qualified Access Services cell-site performance level parameters will be based on DS1 Percentage of Network Availability. The DS1 Percent of Network Availability will be calculated by determining the actual hours that the cell-site DS1 circuits are in service during a given month compared to the total expected availability, and then aggregating those total hours over the course of a Term Year.

Example:

If a Customer had 100 circuits in service at the end of January and 110 at the end of February, their total hours of expected availability would be (31 days times 100 circuits, times 24 hours) plus (28 days, times 110 circuits, times 24 hours) or 148,320. This would be the denominator of the network availability equation.

The numerator would be the total hours of outage based upon measured tickets reported to the Telephone Company subtracted from the 148,320. If there were eight (8) reported failures averaging 3.5 hours per outage, the total hours of outage would be equal to twenty-eight (28). The resulting availability equation for those two (2) months will be  $((148,320 - 28) / 148,320)$  or 99.981%. A twelve (12) month aggregation using the same process as noted for two (2) months will be used to determine annual percent availability for a Customer.

- (2) Table F below provides cell-site service performance targets, based on DS-1 Percentage of Network Availability, for each Term Year.

Table F

| Term Year | % Network Availability |
|-----------|------------------------|
| 1         | 99.9800%               |
| 2         | 99.9840%               |

- (1) The Telephone Company will apply one hundred dollars (\$100) in special construction credits for each measured trouble ticket reported to the Telephone Company during the Term Year for cell-site improvements. The special construction credits will be used to improve performance at mutually agreed upon Customer's cell sites that are performing below the DS-1 Percentage of Network Availability as specified in Table D above.

For example: special construction credits can be used to offset the cost of replacing copper with fiber at non-performing cell-sites; and,

- (2) The Telephone Company will provide Customer the ability to purchase Automatic Loop Transfer service at twenty-five percent (25%) discount off the monthly recurring rates described in F.C.C. No. 1, Section 33.5.2 for those cell sites that fail to meet the performance target, as specified in Table D above.

33.33.8 Termination

The Customer's subscription to this Contract Offer No. 33 shall terminate if Customer gives notice to Telephone Company, as set forth in the following paragraph, and as set forth in other sections of this Contract Offer No. 33.

The termination liability charges described below shall apply if termination occurs because the Customer does not make a Shortfall Payment as described in Section 33.33.5(B)(1) and/or the Customer elects to terminate its subscription to Contract Offer No. 33 for reasons other than described in Section 33.33.6 (2)(A)option(ii)(4) and/or 33.33.8(B).

If the Customer elects to terminate its Contract Offer Subscription during the Term Period, written notification must be provided to the Telephone Company indicating the Customer's intention to terminate its Contract Offer Subscription. - (1) Ten percent (10%) of the Baseline MARC divided by twelve (12) then multiplied by the number of months remaining in the Term Period; plus
- (2) Repayment of the IDCC, given under Contract Offer No. 33 during the three (3) quarters preceding the termination date.

The termination liability charges would be:

33.34 Contract Offer No. 34 – Special Access Service Offer (Cont'd)33.34.3 Terms and Conditions (Cont'd)

- (K) Any disputed billing amounts that have been resolved in favor of the Telephone Company are due and payable as described in Section 2.4 and Section 33.34.3 (J) above.
- (L) The Customer must provide, at the time of subscription, all of the Access Customer Name Abbreviation (ACNA), Other Company Name (OCN) and/or Tiecodes (collectively "Company Code(s)") that the Customer designates for inclusion in this Contract Offer. Company Code(s) may be added by the Customer after initial subscription but are subject to revenue and calculation requirements discussed in Section 33.34.4 (B). Customer shall not incur any termination liability under the relevant tariffs as a result of adding any such Company Code(s).

33.34.4 Minimum Annual Revenue Commitment (MARC)(A) Calculation of the MARC

Under Contract Offer No. 34, the Customer must establish and maintain a MARC. The MARC will be calculated as outlined in this section. The MARC for the first year will be established when the Telephone Company receives the Letter Of Authorization (LOA) from the Customer and the Customer identifies the Company Code(s) that will be included in this Contract Offer pursuant to Section 33.34.3 (L).

The Customer's MARC for Year 1 is calculated based on the total of the previous three (3) months recurring revenue (recalculated to five-year term rates where applicable) pursuant to Section 33.34.3 (C)) for all Subject Services identified in Section 33.34.3 (B) from the SBC Tariffs identified in Section 33.34.3 (A) in eligible pricing flexibility MSAs, multiplied by four (4):

(Prior 3 months recurring revenue) x 4 = Year 1 MARC. The MARC for years 2 through 5 will be recalculated at each annual contract anniversary date.

Example for Year 1 MARC Establishment:

The Customer's prior 3 months recurring revenue (re-rated to 5 year term rates) is \$5M. The Customer's Year 1 MARC would be \$20M. (\$5M X 4).

The MARC for years 2 through 5 will be recalculated at each annual contract anniversary date as follows:

Total of the prior three (3) months recurring revenue for all Subject Services multiplied by four (4).

If the recalculated MARC is greater than the previous year's MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous year's MARC, the previous year's MARC will carryover for the new year.

33.34 Contract Offer No. 34 - Special Access Service Offer (Cont'd)33.34.4 Minimum Annual Revenue Commitment (MARC) (Cont'd)(A) Calculation of the MARC (Cont'd)Example for Year 2 MARC Establishment:

The Customer's prior 3 months recurring revenue is \$4M. The Customer's Year 2 MARC is \$20M. ( $\$4M \times 4 = \$16M < \$20M$ ). In this example the Customer's prior 3 months recurring revenue multiplied by 4 is less than the Year 1 MARC.

If the Value is less than the Year 1 MARC, then the Year 1 MARC will be used for Year 2.

If the Value calculated is greater than the Year 1 MARC, then the newly calculated MARC will be used as the Year 2 MARC.

If the Telephone Company receives additional pricing flexibility relief for MSAs that are not listed in Section 33.34.2, the Telephone Company will recalculate the MARC to incorporate recurring revenues from those areas and will include those revenues in the calculations discussed in Section 33.34.4 (B).

(B) Calculations to Achieve the MARC

Recurring revenue will be counted to determine whether the Customer achieves its MARC based on the following criteria:

(1) Revenue from Existing Services:

Recurring revenue from Subject Services to which the Customer subscribes as of the commencement of the Term Period and which are billed under the specific Company Code(s) provided by the Customer pursuant to Section 33.34.3 (L) will be included in the calculation used to achieve the MARC effective upon the commencement of the Term Period.

Recurring revenue from Subject Services to which the Customer does not subscribe as of the commencement of the Contract Term Period will not be included in the calculations used to achieve the MARC except as specifically allowed in this subsection. Subject Services ordered prior to, and/or purchased after subscription to this Contract Offer and not subscribed to by the Customer as of the commencement of the Contract Term Period will be considered Subsequently Added Services.

Subsequently Added Services will be recalculated to five (5) year term payment plans in accordance with Section 33.34.3(C). Recurring revenue generated from these Subsequently Added Services may only be used in the calculations used to achieve the MARC after (1) the Telephone Company issues a completed service order, (2) the Customer has been billed for the Subsequently Added Services, and (3) the Subsequently Added Services are qualified under one of the following provisions:

(a) First Six (6) Months After Contract Subscription

Within the first six (6) months of subscribing to this Contract Offer, the Customer can add one or more of its existing Company Code(s) (with its corresponding recurring revenue) not previously included by the Customer on the LOA at the time of subscription pursuant to this provision. The Customer must notify the Telephone Company in writing of its desire to include additional Company Code(s) and specify the Company Code(s) to be added. The recurring revenue from Subject Services of these Company Code(s) (recalculated to five (5) year term payment plans where applicable pursuant to Section 33.34.3(C)) shall be eligible for the MARC discounts as detailed in Section 33.34.5 (A)(1). The recurring revenues from Subject Services of these added Company Code(s) are not eligible for above the MARC discounts detailed in Section 33.34.5 (A)(2) or win-back credits detailed in Section 33.34.5 (E).

For example, the Customer's year 1 MARC is \$17M. The Customer's year 2 MARC is \$18M (calculated as revenue from the last quarter in year 1 x 4). On the anniversary date at the end of year 2, the Customer's year 2 recurring revenue is \$15M. The Customer elects to invoke the MARC adjustment option and adjust the MARC downward by 20%. The Customer's year 3 recalculated MARC is therefore \$14.4M = (\$18M x 80%).

The Customer's discounts (including any previously withheld) for year 2 will be recalculated to reflect levels as set forth in Table E and would total \$300K (\$15M x 2%). Any discounts that have been applied to the Customer's bill during year 2 in excess of \$300K will be back-billed. The discount amount for year 3 is also 2% as set forth in Table E.

Discounts, on a going forward basis, will be based on the re-calculated MARC and will be subject to percentages as detailed in Table E.

33.34 Contract Offer No. 34 – Special Access Service Offer (Cont'd)33.34.7 Mergers and Acquisitions

The Terms and Conditions of Contract Offer No. 34 shall continue in full force and in effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company (the foregoing generally referred to herein as a merger or acquisition). During or after the merger or acquisition, if the other company involved in the merger or acquisition also purchases Subject Services from the Telephone Company, either directly or through any affiliates, then billed, recurring revenue for Subject Services of the other company involved in the merger or acquisition will not be used in Calculations of the MARC as discussed in Section 33.34.4 (A) or Calculations to Achieve the MARC discussed in Section 33.34.4 (B), except as permitted by one of the provisions in this subsection.

The Customer must be meeting MARC commitments and all Eligibility Criteria and Terms and Conditions outlined in Sections 33.34.2 and 33.34.3 in order to exercise the provisions in this subsection.

Recurring revenue from Subject Services from the other entity involved in the merger or acquisition can not be used for any incentives or discounts contained in this Contract Offer except as permitted by one of the provisions outlined in this subsection.

The Customer shall have four one-time choices (per merger or acquisition) to incorporate revenue from the other company involved in the merger or acquisition. If the Customer does not exercise any of the provisions in this subsection by the times specified in relation to the Transaction Close Date, the Customer will not be permitted to use existing or future Special Access revenues from the other company or companies involved in the merger or acquisition in the Calculation of the MARC or Calculations to Achieve the MARC discussed in Section 33.34.4 (A) & (B).

The acquisition and/or merger Transaction Close Date will be used to measure the length of time the following provisions are available. The Transaction Close Date shall be defined as the date that the stock purchase is complete and/or the final date on which the assets of the acquired/merged company have been purchased.

If the Customer has selected but not yet fully implemented one of the provisions in this subsection, the MARC adjustment calculation as detailed in Section 33.34.4 will only apply to the Customer's original (pre-merger or acquisition) MARC and will not include revenue from the other company involved in the merger or acquisition. The Customer cannot combine any of the Merger and Acquisition provisions in this subsection.

Customer's termination liability charges for termination of service shall be equal to:

- 50% of all recurring charges for the balance of the Customers seven (7) year Term Period for the Subject Service that the customer has terminated.
- All remaining in-service Subject Services will convert back to the prevailing tariff rates at the end of the Term Period that the Customer signed up for. Prevailing tariff rates are highlighted in Section 7.5.9, 7.5.13, 32.3 for Phase 1 MSAs and Section 31.5.2.10 and 31.5.2.13 for Phase 2 MSAs.

33.39 Contract Offering No. 39 - Dedicated Ring Service Offer (Cont'd)33.39.7 Termination Liability

The termination liability language contained below applies in lieu of termination liability language contained in Section 30. If Customer terminates Contract Offer 39 before the completion of the Term Period for any reason, Customer must pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the termination and are payable as described in Section 30.3(C) (7). (N)

3.41.4 Terms and Conditions (Cont'd)

(G) When Customer subscribes to this Contract Offer, the Telephone Company will waive any termination liabilities that would otherwise apply pursuant to PBTC Tariff F.C.C. No. 1, Section 33, Contract Offer No. 41 for the Subject Services to be provided pursuant to this Contract Offer. Termination liabilities shall otherwise apply according to the terms of the applicable tariff.

(H) Customer must submit a letter of Subscription to the Telephone Company.

33.41.5 Current Annual Revenue Commitment

Under Contract Offer No.41, Customer will commit to maintain a Current Annual Revenue Commitment (CARC). The CARC will be established using either the Customer's current MVP MARC or an Annual Revenue Commitment calculated as outlined below in Section 33.41.5(A), whichever is greater. The CARC will be established as soon as the Telephone Company receives the Letter of Subscription from Customer. The CARC calculation will be the latest CARC established for Customers who are subscribing to PBTC Tariff F.C.C. No.1, Section 33, Contract Offer No. 41.

(A)Determining the Annual Revenue Commitment

The Customer's Annual Revenue Commitment is calculated based on the total of the previous three (3) months recurring billing for all MVP qualified access services prior to any MVP discounts (as listed in F.C.C. 1, Section 22.2), multiplied by four (4). The Annual Revenue Commitment is calculated as follows:

Previous Three (3) Months Recurring Billing X 4 = Annual Revenue Commitment

(B)If at any time during the contract Term Period of this Contract Offer the Customer's MVP MARC becomes greater than the CARC the Customer will commit to increase and maintain the CARC to be equal to its MVP MARC as it may change during the Term Period.

(C)If the Customer fails to achieve the CARC on either December 31, 2005, December 31, 2006 or December 31, 2007, and fails to remit the annual projected gap payment, the Customer will be deemed to have terminated its subscription in Contract Offer No. 41 and termination liability charges will apply as set forth in Section 33.41.7.

33.41 Contract Offer No. 41 - MVP DS1, DS3 and OCN Service Offer (Cont'd)33.41.6 Quarterly True-Up

To ensure that the customer will meet the CARC by the end of each year 2005, 2006 and 2007, the Telephone Company will review revenues quarterly. In the event that the Customer has an estimated shortfall, the Customer is required to remit Quarterly Gap Payments as described below. Quarterly is defined as consecutive three (3) month periods from April 1, 2005 through December 31, 2005, from January 1, 2006 through December 31, 2006 and from January 1, 2007 through December 31, 2007. The process of remitting payments to eliminate the Annual Projected Gap is referred to as the True-Up process.

The Telephone Company will calculate the Customer's Annual Projected Gap (if any) on a quarterly basis. The Annual Projected Gap is the CARC, less any annual projected MVP discounts, less actual annualized revenues. Actual annualized revenue is the Customer's actual billed amount to date, annualized to determine end of year estimated revenues. Actual annualized revenues will include any previous quarterly gap payment that the Customer has made. For this calculation, the actual annualized revenues are calculated after discounts from this Contract Offer No. 41, and any other applicable credits or discounts (i.e., MVP) have been applied.

Example A: Annual Projected Gap calculation at end of 1st Quarter 2006

|                                                         |                 |
|---------------------------------------------------------|-----------------|
| CARC                                                    | = \$ 12,000,000 |
| Less projected MVP discounts                            | = \$ 2,000,000  |
| Sub total                                               | = \$ 10,000,000 |
| Less actual quarterly revenue (\$1.5M) X 4 (annualized) | = \$ 6,000,000  |
| Annual Projected Gap                                    | = \$ 4,000,000  |

(A) If there is a positive Annual Projected Gap as measured above for the quarter, the Customer agrees to make Quarterly True-Up payments. Quarterly True-Up payments will be calculated using the percentages in section 33.41.6 (B) and will be applied to the Annual Projected Gap to determine the gap payment. See example B in Section 33.41.6.

(B) Quarterly True-up payments will be calculated utilizing the following percentiles:

| Quarter | Percent |
|---------|---------|
| 1st     | 0%      |
| 2nd     | 25%     |
| 3rd     | 66%     |

(D) If at the end of December 31, 2005, December 31, 2006 or December 31, 2007 the Customer has exceeded their CARC (actual revenue + gap payments) and have made Quarterly Gap Payments, The Telephone Company will credit the Customers account the amount exceeding the CARC, but not greater than the total gap payments the Customer has made.

Monthly CARC = \$12M / 12 months = \$1M  
Number of months remaining in contract = 15.5  
Remaining value of CARC = 15.5 x \$1M = \$15.5M  
25 % of remaining value of CARC = .25 x \$15.5M = \$3.875M

Termination liability language described below applies in lieu of the termination liability language described in Pacific Bell Telephone Company Tariff F.C.C. No. 1, Section 7.4.18 (G) for DS1 services and Section 7.4.11 (B) for DS3 services. If the Customer terminates this Contract Offer before the completion of the Contract Term Period for any reason, (except due to (i) material failure of Telephone Company to provide the services; or (ii) material failure of Telephone Company to comply with the provisions of this Tariff), the Customer must pay The Telephone Company termination liability charges as described below. Termination Liability charges will also apply if the customer is not in compliance with the Eligibility Criteria in Section 33.43.2 or the Terms and Conditions in Section 33.43.3. These termination liability charges shall become due as of the effective date of the termination of service and are payable as described below.

If the Customer fails to achieve and maintain purchase requirements identified in Section 33.43.3 (B)(6, 7, 8 & 9) throughout the Contract Term Period pursuant to Section 33.43.3 (B)(12), this Contract Offer will be considered terminated and the Customer will be billed terminations charges outlined below.

33.43 Contract Offer No. 43 - DS1/DS3 High Capacity Service Offer (Cont'd)33.43.6 Termination Liability (Cont'd)

For example, if the customer terminates the contract six (6) months after contract subscription and has 100 DS1 services with a monthly recurring charge of \$115 and six (6) DS3 services with a monthly recurring charge of \$738.02 with all services installed at contract inception, the termination liability charge will be calculated as follows:

DS1 - \$115 (MRC) X 100 (services) x 6 (months remaining) X  
50% = \$34,500

DS3 - \$738.02 (MRC) X 6 (services) X 30 (months remaining) X  
50% = \$66,421.80

The total termination liability charge in this example would be \$100,921.80.

In this example, all services were installed at contract inception. Actual calculations will be applied on a service (circuit) specific level based on the number of months remaining in the term period for each service.

At contract termination, all services under contract will revert to month to month terms at the rates specified in Section 7.5.9 or Section 31.5.2.7 depending on the level of MSA relief at the time of contract expiration.

33.50 Contract Offer No. 50 - MVP Dedicated Ring Service Offer (Cont'd)33.50.6 Termination Liability

The termination liability language contained below applies in lieu of termination liability language contained in Section 7. If Customer terminates Contract Offer 50 before the completion of the Term Period for any reason, Customer must pay to the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the termination and are payable as described in Section 7.4.10. Customer's termination liability charges for termination of service shall be equal to:

- (A) OC-192 DSRS - 50% of all monthly recurring charges for the balance of the Customer's three (3) year Term Period:

The termination liability charge will be calculated as follows:

(Monthly Recurring Charges) multiplied by (Months remaining in billing) multiplied by (Termination liability percentage of 50%)

Example: Customer with a \$200,000 monthly recurring charge terminates service after one (1) year and has twenty-four (24) months remaining in a three (3) year term plan. The termination liability would be calculated as:

$\$200,000 \times 24 \times 50\% = \$2,400,000$  termination liability charge.

- (B) OC-48 SRAS - Termination of service prior to the end of the first year of the Term Period the customer's termination liability charge will be 75% of the total monthly charges on the unexpired portion of the first year of service. In addition, the customer will be liable for 60% of the second year and 50% of the third year of the total monthly charges for the remaining portion of the Term Period.

Example: Customer disconnecting a OC-48 SRAS with a \$50,000 monthly recurring charge, after fourteen months of the thirty-six (36) month Term Period, termination liability charges would be calculated as:

$\$50,000 \times 10 \times 60\% = \$300,000$   
 $\$50,000 \times 12 \times 50\% = \$300,000$

$\$300,000 + \$300,000 = \$600,000$  termination liability charge

Portability is provided under this Contract Offer through the Portability Volume Commitment (PVC). For purposes of determining the Customer's PVC, the Telephone Company shall aggregate volumes for the various Subject Services included in this Contract Offer by converting counts of Telephone Company assigned unique Circuit ID's, by Circuit Type, into PVC Units, as shown below in Table B.

Table B:

| Qty | Circuit Type |   | PVC Units |
|-----|--------------|---|-----------|
| 1   | DS3          | = | 1         |
| 1   | OC-3         | = | 2.5       |
| 1   | OC-12        | = | 5         |

## (1) PVC Level

- (a) The initial PVC Level shall be established at the commencement of the Term Period and is based on the in service volumes for Level I Subject Services that are reflected in the recurring billing records of the Telephone Company during the month prior to the commencement of the Term Period.
- (b) The PVC Level will be reset after each PVC Attainment Review, as described below in Section 33.54.4 (G) (2) (c).
- (c) The PVC Level can not be reduced, except as provided by the PVC Reduction Option described in Section 33.54.4 (G) (5) of this Contract Offer.

## (2) PVC Attainment Review

Upon the completion of each six-month period, beginning upon the commencement of the Term Period, the Telephone Company will perform a review (the PVC Attainment Review), to compare the Customer's then-current PVC Measurement to the PVC Floor.

(a) The Telephone Company shall calculate the Customer's PVC Level and PVC Floor as follows:

- (i) The PVC Measurement shall be the sum of all Level I and Level II PVC Units that are reflected in the recurring billing records of the Telephone Company for the last month of the period under review.
- (ii) The PVC Floor shall be equal to the Customer's then-current PVC Level, multiplied by the PVC Attainment Factor, as provided in Table C:

Table C:

| Current PVC Level | PVC Attainment Factor |
|-------------------|-----------------------|
| 1,200 – 1,800     | 95%                   |
| 1,801 – 2,100     | 92%                   |
| 2,101 +           | 90%                   |

(b) The Customer's PVC Measurement, at the time of each six-month review, must equal or exceed the current PVC Floor.

- (i) If the PVC Measurement is greater than or equal to the PVC Floor, the Customer shall be deemed to have met the PVC requirement for the six-month period under review.
  - (ii) If PVC Measurement is lower than the PVC Floor, then the Customer must pay the PVC Attainment Shortfall as described in Section 33.54.4 (G) (3).
- (c) Upon completion of the PVC Attainment Review, the PVC Level shall be reset to the PVC Measurement calculated for the period under review, or the existing PVC Level, whichever is greater.

The PVC Attainment Shortfall Payment shall be calculated as follows:

- (a) The PVC Unit Shortfall shall be calculated according to the following equation:  $(\text{PVC Level} \times 95\%) - \text{PVC Measurement} = \text{PVC Unit Shortfall}$ .
- (b) The PVC Attainment Shortfall Payment shall be calculated by multiplying the PVC Unit Shortfall by \$9,600.

## (4) PVC Attainment Review Example

At month 6:

PVC Level = 1,500. PVC Measurement = 1,800. PVC Measurement exceeds PVC Floor of 1,425, thus commitment is met and new PVC Level is reset to 1,800.

At month 12:

PVC Level = 1,800. PVC Measurement = 1,750. PVC Measurement exceeds PVC Floor of 1,710, thus commitment is met and PVC Level remains 1,800.

At month 18:

PVC Level = 1,800. PVC Measurement 18 = 1,700. PVC Measurement is below PVC Floor of 1,710, thus commitment is not met. Customer must pay PVC Attainment Shortfall and PVC Level remains = 1,800.

Month 18 PVC Attainment Shortfall calculation:

Step 1 – (PVC Level x 95%) – PVC Measurement = PVC Unit Shortfall

$[(1,800 \times 95\%) - 1,700] = 10$

Step 2 – PVC Unit Shortfall x \$9,600 = PVC

Attainment Shortfall Payment

$10 \times \$9,600 = \$96,000$

## (5) PVC Reduction Option

Annually, upon each anniversary of the commencement of the Term Period, the Customer shall be permitted to reduce its PVC Level, as outlined herein:

- (a) The PVC Reduction Option is available only if the Customer has met the PVC requirements of this Contract Offer during the previous six-month period, as provided in Section 33.54.4 (G) (2) (b) of this Contract Offer, either by meeting the PVC Attainment Review criteria or by making the PVC Attainment Shortfall Payment.
- (b) The PVC Reduction Option lowers Customer's PVC Level; however, the Customer's PVC Level remains subject to increase through the PVC Attainment Review process as provided in Section 33.54.4 (G) (2) of this Contract Offer.
- (c) The Customer must notify the Telephone Company, in writing, within sixty (60) days following the anniversary of the commencement of the Term Period, of its decision to reduce the PVC Level, to be effective during the year of the Term Period in which notice is provided. The Customer shall include in its notice a PVC Reduction Amount, which shall be the amount of the reduction the customer has chosen, expressed in PVC Units.
- (d) A PVC Reduction Charge shall be calculated by multiplying the PVC Reduction Amount by \$1,600, then multiplying that amount by the PVC Term Factor, as provided in Table E:

Table E:

|                      | <b>PVC Term Factor</b> |
|----------------------|------------------------|
| Completion of Year 1 | 24                     |
| Completion of Year 2 | 18                     |
| Completion of Year 3 | 12                     |
| Completion of Year 4 | 6                      |

## Example: PVC Reduction

Customer requests a PVC Reduction of 10 PVC Units upon the completion of Year 2. PVC Reduction Charge is calculated as follows:

Requested PVC Reduction x \$1,600 x PVC Term Factor =  
PVC Reduction Charge  
10 x \$1,600 x 18 = \$288,000

If the Customer wishes to assign or transfer its use of services under this Contract Offer pursuant to PBTC Tariff F.C.C. No. 1, Section 2.1.2 of this Tariff, the Telephone Company will acknowledge such transfer or assignment if the criteria in Section 2.1.2 are met, unless (1) the proposed assignee or transferee demonstrates a lack of credit worthiness under one of the criteria in (A) or (B) below, or (2) if the proposed assignee or transferee or its parent company has commenced a voluntary receivership or bankruptcy proceeding (or had a receivership or bankruptcy proceeding initiated against it).

- (A) Any debt securities of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly, more than 50% of the equity of the proposed assignee or transferee) are rated below investment grade, as defined by the Securities and Exchange Commission or if any debt securities of a proposed assignee or transferee or its parent are rated the lowest investment grade and have been placed on review by the rating organization for a possible downgrade.
- (B) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies (e.g. Standard and Poor's), but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated "fair" or below in a composite credit appraisal published by Dun and Bradstreet, or "high risk" in a Paydex score as published by Dun and Bradstreet.

33. Pricing Flexibility Contract Offerings (Cont'd)33.54 Contract Offer No. 54 – Broadband Plan - Service Offer (Cont'd)33.54.10 Termination Liability

If Customer terminates this Contract Offer the termination liability language contained below applies in lieu of the termination liability language described in PBTC Tariff F.C.C. No. 1. Customer must pay to the Telephone Company termination liability charges as described below if Customer terminates this Contract Offer before the completion of the term period for any reason, or if Customer is not in compliance with Terms and Conditions in Section 33.54.4. These charges shall become due as of the effective date of the termination and are payable within 30 days of the billing invoice date.

Customer's termination liability charges for termination of this Contract Offer shall be equal to a complete reduction of the Portability Volume Commitment as outlined in 33.54.4 (G) (5). The PVC Term Factor shall be based on the longest fully completed year under this Contract Offer at termination.

Upon termination of this Contract Offer, all Subject Services provided under this Contract Offer will subsequently be provided under the prevailing applicable monthly extension rates found in PBTC Tariff F.C.C. No. 1.

If the Customer disconnects a Subject Service provided under this Contract Offer prior to the completion of the one (1) year minimum in service requirement, then the following termination liability charges will apply:

75% of all recurring charges for the balance of the one (1) year term period plus the current applicable NRC charge for a service installed under a one (1) year term payment plan less the NRC charge paid at installation of Subject Service.

The termination liability charge will be calculated as follows:

(Monthly Recurring Charges) multiplied by (Months remaining in order to achieve one (1) year in service) multiplied by (Termination liability percentage of 75%) plus current applicable NRC minus NRC charges already paid.

Example: Customer has \$20,000 in Monthly Recurring Charges for a Subject Service provided under this Contract Offer. The customer paid an NRC of \$550 at installation and the current applicable NRC equals \$750. If Customer terminates service after six (6) months and has six (6) months remaining in order to meet the one (1) year minimum time in service, the termination liability would be calculated as:

$(\$20,000 \times 6 \text{ months} \times 75\%) + (\$750 - \$550) = \$90,250$

33.56.4 Minimum Annual Revenue Commitment (MARC)(A) Calculation of the MARC

The Customer must establish and maintain a MARC as provided in this Contract Offer. The MARC for the first and second year of the Term Period (Years 1 and 2) will be established when the Telephone Company receives the LOS from the Customer. For purposes of calculating the MARC for Year 1, recurring annual revenue for all Contributory Services shall be included in the calculation based on the rates that would apply to the Contributory Subject Services for a five-year minimum term, regardless of whether the Subject Services were actually purchased pursuant to a five-year term at the time of the Customer's subscription to this Contract Offer. Services that are not Contributory Subject Services shall be included in the calculation based on the actual rates applicable to those Contributory Services at the time of calculation.

The Customer's MARC for Year 1 shall be \$26.5 Million or four times the Customer's monthly recurring revenue for Contributory Services during the three months immediately preceding the receipt of the signed LOS, whichever is greater. The Customer's Year 2 MARC will be equal to the Year 1 MARC.

The MARC will be re-established, effective on the Anniversary Date, beginning on the second anniversary (the beginning of Year 3). The MARC for Year 3 and subsequent years will be based on the Customer's actual monthly recurring revenue for all Contributory Services during the previous 3 months multiplied by 4, or the then-current MARC, whichever is greater.

Example 1:

The Contract Tariff date is May 1, 2005. The MARC for Year 2 is \$26.5M. The Customer's actual revenue to Telephone Company from February 1, 2007 to April 30, 2007 is \$8M. The new Year 3 MARC, effective May 1, 2007, is \$32M (\$8M multiplied by 4 equals \$32M).

Example 2:

The Contract Tariff date is May 1, 2005. The MARC for Year 2 is \$26.5M. The Customer's actual revenue to Telephone Company from February 1, 2007 to April 30, 2007 is \$6M. The new Year 3 MARC, effective May 1, 2007, is \$26.5M. (The \$26.5M MARC is due to the fact that the MARC recalculation cannot result in a MARC lower than the current MARC).

If the Telephone Company receives additional pricing flexibility relief for MSAs that are not listed in Section 33.56.2, or if additional Contributory Subject Services that are not listed in Section 33.56.2 become eligible for pricing flexibility, the additional MSAs or Contributory Subject Services may be included, at the Customer's option, in this Contract Offer, beginning with the first year after the additional MSAs or Contributory Subject Services became eligible for pricing flexibility. Upon Customer's written notification to the Telephone Company of their intent to exercise this option, the Telephone Company will recalculate the MARC to incorporate the recurring annual revenues from those MSAs or Subject Services and will include those revenues in the calculations described herein.

(Nx)(B) Inclusion of Additional Contributory Services

Notwithstanding anything to the contrary herein, the Customer may, at its option, include in this Contract Offer any Contributory Services being provided to the Customer by the Telephone Company as of the date the Customer subscribes to this Contract Offer, but which are then being provided to the Customer according to a tariff or contract other than this Contract Offer, provided, however, that the MARC must be increased to reflect the recurring annual revenues associated with the additional Contributory Services, as provided in Section 33.56.4. If any additional Contributory Services are ATM, Frame Relay or InterLATA services, those additional Contributory Services shall be provided pursuant to an agreement and/or contract which shall be available for review at the following web site:

- (1) The Customer shall have the right to adjust the MARC downward by up to 10%. This adjustment can only be made one time during the Term Period at anytime after the first 24 months of the Term Period (beginning with the establishment of the Year 3 MARC). To exercise this option, the Customer must notify the Telephone Company, in writing, at least 60 days prior to the Anniversary Date.
- (2) The MARC adjustment shall apply prospectively only. If Customer exercises this option, reduced discounts (as specified in Table D Section 33.56.5 (B)) will apply for the remainder of the Term Period, and certain provisions of the Contract Offer will no longer apply as provided in Section 33.56.5 (B). Also, if the Customer exercises this option, any MARC adjustments associated with SLA penalties offered in Section 33.56.5 shall not apply for the remaining years of the Term Period. If the Customer uses the MARC adjustment option in conjunction with any of the Merger and Acquisition options outlined in Section 33.56.7, reduced discounts will remain for the life of the Term Period, and discounts previously received during that contract year will not be re-rated provided the Eligibility Criteria in Section 33.56.2 and Terms and Conditions in Section 33.56.3 have been met prior to the MARC adjustment, and certain provisions will no longer apply as detailed in Section 33.56.5(B).

(N)

33.56 Contract Offer No. 56 - Special Access Service Offer (Cont'd)33.56.5 Discounts and Other Credits (Cont'd)(B) MARC Adjustments - Discount Schedule and Application (Cont'd)

Following a MARC adjustment, above the MARC discounts are available only if, during any year, the MARC for that year is equal to or greater than the MARC in effect immediately prior to the adjustment.

Example

The Customer's Year 3 MARC is \$30M (calculated as revenue from the last quarter in Year 2 x 4). On the Anniversary Date at the beginning of Year 4, the Customer's Year 3 annual recurring revenue for Contributory Services is \$25M. The Customer elects to invoke the MARC adjustment option and adjust the MARC downward by 10%. The Customer's Year 4 recalculated MARC is therefore \$27M = (\$30M x 90%). The Customer must make an Annual True-Up payment for Year 3 in the amount of \$5M. If the Customer fails to make the True-Up payment, the Customer will be in default and termination liabilities will apply. Under this scenario, the Customer will not become eligible for the above the MARC discounts provided in table D, above, until the Customer's MARC in a subsequent year equals or exceeds \$30M.

(C) Non-Recurring Charges

The Telephone Company will waive installation Non-recurring charges (NRCs) associated with the purchase of Contributory Subject Services pursuant to this Contract Offer. In the event that the installation NRCs are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis.

In order to receive credits for installation NRCs, the Customer must be in compliance with all terms and conditions of this Contract Offer.

At the conclusion of each Anniversary Date, the 12-month averages based on the Telephone Company's provided results for each measured service will be compared to its corresponding target in Table E. For each measurement that is not achieved by the Telephone Company, the Customer will be eligible to receive credits as outlined in subsection (1) and MARC adjustments as outlined in subsection (2).

- (1) The Customer will be eligible for the following credit amounts, as set forth in Table F. For each measurement that is not achieved by the Telephone Company after each Anniversary Date, credits will be paid into a Telephone Company account held on the Customer's behalf.

Immediately following the Customer's subscription to this Contract Offer, the Telephone Company will establish a holding account with an initial balance of \$300,000. The initial balance of the holding account represents the total, aggregate amount that the Customer will be eligible to receive across the regions identified in Section 33.56.2(B) of this Contract Offer. The credit account will be applied for the purpose of improving service delivery and performance. The Customer and Telephone Company will cooperate in good faith to identify and plan appropriate service and/or service performance projects, which shall be planned and completed as Special Construction. The Customer and the Telephone Company will work together to create a project schedule designed to ensure that projects are completed by the Telephone Company prior to the end of each term year.

The initial balance must be used within the first 12 months following the receipt of a signed LOS. Any amount remaining from the initial balance will not be allowed to carry over to Year 2 and will be forfeited. Any credit due to the Customer at the end of term Year 5, will be available to the Customer in the holding account for the 12-month period subsequent to the end of the Term Period. Annual SLA performance credits must be used within the year after the credits were issued, and cannot be rolled over into the following year. Any amounts left over, after the year following the issuance of the credits, will be forfeited, provided, however, that projects on the project schedule that are not completed at the end of the term year can be completed in the subsequent year and any allocated amounts associated with that project shall not be debited from the following year's holding account balance. If the Telephone Company fails to complete an agreed upon project on the project schedule at any time during the Term Period, the amount allocated for that project shall be carried over until the agreed upon project has been completed.

AA+ Transport Service includes a DS1 High Capacity Special Access Service between an end user's designated premises and an AA+ Transport Service Node, DS1-to-DS0 multiplexing and DS0 multiplexer cross connects as described below.

An AA+ Transport Service Node is a Telephone Company designated hubbing office in which digital DS1-to-DS0 multiplexing is provided through a Digital Cross Connect System (DCS) to derive twenty-four DS0 level channels (64 Kbps per channel). AA+ Transport Service DS0 channels are digitally cross connected at the AA+ Transport Service Node to the DS0 channels derived from other multiplexed high capacity service arrangements via DS0 multiplexer cross connects, which are described in 7.2.3(D)(15).

- (B) The DS0 channels derived from an AA+ Transport Service may be cross connected on an individual channel basis as well as by Bonded Channel Group. Any combination of the Bonded Channel Groups listed below and individual DS0 channels may be cross connected, but the total number of DS0 channel cross connects per AA+ Transport Service cannot exceed twenty-four. A Bonded Channel Group consists of consecutively assigned DS0 channels configured to provide the following capacity arrangements:

- (1) Bonded Channel Group 2 - Two consecutively assigned DS0 channels configured to provide 128 Kbps of capacity.
- (2) Bonded Channel Group 4 - Four consecutively assigned DS0 channels configured to provide 256 Kbps of capacity.

This termination liability language applies in lieu of termination liability language contained in PBTC Tariff F.C.C. No. 1. If the Customer requests termination of this Contract Offer, or requests termination of individual Subject Services provided under this Contract Offer, or is not in compliance with the Terms and Conditions of this Contract Offer, the Customer will be liable for a termination charge. This charge shall become due as of the effective date of the termination and is payable within 30 days of the invoice date.

33.65 Contract Offering No. 65 - 2005 Access Extension Offer (Cont'd)33.65.6 Calculation of the Total Revenue Commitment (TRC)

The Customer must establish and maintain a Total Revenue Commitment (TRC) as provided in this Contract Offer. Upon subscription, the Customer's TRC will be established based on billed revenue from Contributory Services, as listed in Section 33.65.5, net of all discounts, credits, and adjustments as specified in Section 33.65.6 (B)(1)(b) equal to 86.6 percent of 2004 Gross Spend rounded to the nearest million times 5/12's.

Example: Customer's 2004 Gross Spend equals \$121.3M. 86.6% of 121.3M equals \$105M (rounded to the nearest million). 5/12's of \$105M equals \$43.75 TRC.

$$\$121.3M * 86.6\% = \$105M/12 = \$8.75M * 5 = \$43.75M$$

- (A) Gross Spend, as defined in Section 33.65.6 (A)(1), (2), (3), (4), (5), and (6) is calculated by taking the sum of all of the purchases from the Qualified Companies, as described in Section 33.65.5 preceding, based on billed revenue. The Gross Spend is net of all discounts from existing optional payment plans or other tariffs or offers utilized by the Customer as of the date of subscription to this Contract Offer, any renewals, replacements or extensions of the foregoing, and any underlying tariff performance credits, but does not include discounts received under MVP (MARC or SLA credits).
- (1) Interstate Special Access recurring charges billed to the Customer associated with services described in Section 33.65.5 Table 3 and 4 preceding.
- (2) Interstate Special Access non-recurring charges billed to the Customer (including, but not limited to items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) except as noted in 33.65.6(A)(6).
- (3) Intrastate Special Access recurring charges billed to the Customer associated with services described in Section 33.65.5 Table 4 preceding.
- (4) Intrastate Special Access non-recurring charges billed to the Customer (including but not limited to items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) except as noted in 33.65.6(A)(6) below.

- (5) Interstate Switched Access Dedicated Transport recurring and non-recurring charges (including but not limited to items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) billed to the Customer for rate elements in Table 5 below.

Table 5

|------------------------|---------------------------|
| Entrance Facilities    | Section 6.7.1(D)1         |
| Direct Trunk Transport | Section 6.7.1(D)2         |

- (6) Non-recurring charges detailed in 33.65.6(A)(2),(4), and (5) above exclude Special Construction and unregulated time and materials charges (e.g. Inside Wire, Custom Work Orders, etc.)

(B) Application of Credits

The Customer is eligible to receive two (2) types of credits under this Contract Offer.

(1) Basic Credit

The Basic Credit is equal to the difference between the TRC and the purchase of Contributory Services up to 148.9 percent of the TRC (rounded to the nearest million). The Customer will receive Basic Credits on Contributory Subject Services.

- (a) Calculation of the Basic Credit. To determine the amount of Basic Credit the Customer can achieve, the TRC is multiplied by 148.9 percent. This amount less the TRC will equal the potential eligible Basic Credit rounded to the nearest million. If qualified, award of Basic Credit under this Contract Offer shall satisfy the Qualified Companies' Basic Credit obligations.

## (a) (Cont'd)

Example:

The Customer has 2004 Gross Spend of \$121.3M.  
86.6 percent of 2004 Gross Spend equals \$105M  
rounded to the nearest million.

The TRC is equal to 5/12's of \$105M.  
5/12's of \$105M equals \$43.75M

The eligible total Basic Credit available is:

$\$43.75 * 148.9\% = \$65.14M$   
 $\$65.14M - \$43.75M = \$21M$  eligible Basic Credits  
rounded to the nearest million.

- (b) The following credits issued to the Customer associated with the Contributory Services covered under the TRC (MVP Commitment credits, MVP SLA credits, and credit received under the first true-up attributable to this Contract Offer) but not including any discounts or credits described in 33.65.6(B)(1)(c) below, will be used by the Qualified Companies to satisfy any applicable Basic and Achievement Credit obligations under this Contract Offer.

Example:

The Customer has TRC of \$43.75M. The Customer achieves 148.9 percent of TRC equal to \$65.14M. The Customer has received or is entitled to receive a total of \$7M in MVP Commitment Credits and \$2M in MVP SLA Credits for a total of \$9M in credits unrelated to this Contract Offer.

Qualified Companies' Basic Credit obligations to the Customer in the amount of \$21M (\$65.14M - \$43.75M, rounded to the nearest million) under Contract Offer No. 65, as described in Table 6, will be satisfied by the \$9M in non-contract related credits acquired by the Customer under MVP and MVP SLA, and \$12M in Basic Credits paid related to this Contract Offer. This amount will be determined at the final true-up period once all other credits have been applied accordingly.

- (c) MVP Commitment credits applicable to periods prior to 2005, MVP SLA credits applicable to periods prior to 2005, or other credits applicable to periods prior to 2005, other discounts from optional payment plans or other tariffs, or offers utilized by the Customer as of the date of subscription to this Contract Offer, any renewals, replacements, or extensions of the foregoing, and any underlying tariff performance credits (other than MVP SLA credits) will not be used to satisfy any applicable Basic or Achievement Credit Obligations under this Contract Offer.

The Customer will not pay less than the TRC for the Term Period, except as described in Section 33.65.8 following. If the Customer does not achieve the TRC through the purchase of Contributory Services as of December 31, 2005, the Customer will be required to pay the deficiency.

## (c) (Cont'd)

Basic Credits shall be calculated and awarded on an aggregate basis across the Qualified Companies. If qualified for a Basic Credit, an award of Basic Credit under this Contract Offer shall satisfy any Basic Credit obligations of the other Qualified Companies under the tariff offerings listed in Section 33.65.2(C), and an award of Basic Credit under such other contract offers shall satisfy any Basic Credit obligations under this Contract Offer No. 65.

The total Basic Credit will be increased dollar for dollar to the extent that any amount by which Gross Spend during the Term Period exceeds 148.9 percent of the TRC is attributable to increases in tariff rates effective after March 31, 2005.

## Example:

Customer's Gross Spend increased \$10M due to applicable tariff rate increases after March 31, 2005.

Customer exceeds 148.9% of TRC by \$30M.

Of the \$30M, \$10M is added to Basic Credit  
\$20M would receive Achievement Credit equal 17%

(2) Achievement Credits

Achievement Credits are those credits the Customer will receive based on purchases of Contributory Subject Services above 148.9 percent of the TRC.

- (a) Achievement Credits are applied to purchase of services as described in Section 33.65.5 in excess of 148.9 percent of the TRC. The amount of applicable credit will be determined based on the amount of Gross Spend above the TRC as defined in Section 33.65.6 preceding, measured at the final true-up period described in Section 33.65.7 below. The Customer will receive a discount on Contributory Subject Services equal to 17 percent of total revenue above 148.9 percent of the TRC.

## (a) (Cont'd)

Achievement Credits shall be calculated and awarded on an aggregate basis across the Qualified Companies. If qualified, award of Achievement Credit under this Contract Offer shall satisfy the Qualified Companies' Achievement Credit obligations.

## Example:

The Customer has TRC of \$43.75M. The Customer achieves 155 percent of TRC equal to \$67.8M. The Customer will receive \$21M in Basic Credits as described above, and the Customer will receive \$452K in Achievement Credits calculated as follows:

$$(\$67.8\text{M minus (TRC} \times 148.9\%)) \times 17\%.$$

$$\begin{aligned} \$67.8\text{M} - \$65.14\text{M} (\$43.75\text{M} \times 148.9\%) &= \$2.66\text{M} \\ \$2.66\text{M} \times 17\% &= \$452\text{K (Achievement Credits).} \end{aligned}$$

| 148.9% of TRC                                           | \$65.14M |
| Gross Spend Achievement during Term Period (GSA)        | \$67.8M  |
| Difference between 148.9% of TRC and GSA                | \$2.66M  |
| Credit due for billed revenue above 148.9% of TRC x 17% | \$452K   |

The Customer receives \$21M in Basic Credits plus \$452K in Achievement Credits for total credits of \$21.452M as described in Table 7.

(3) Transfer of Qualified Services

- (a) Any transfer of services from non-SBC wholesale entities/ACNAs will require an equivalent increase in the TRC based on the amount of revenue associated with the transferred services. The Customer's maximum Basic Credit will not change as a result of the transfer.

## (a) (Cont'd)

Example: Customer has a TRC of \$43.75M and is eligible to earn up to a maximum of \$21M in Basic Credits. Customer transfers \$10M of services from a non-SBC wholesale entity. The Customer's new TRC will be \$53.75M (\$43.75M plus \$10M = \$53.75M). The Customer's maximum Basic Credit(\$21M) will not change as a result of the transfer.

33.65.7 True-up Process

To determine TRC achievement, two true-up calculations will be performed as follows:

- (A) First True Up - At the expiration of the final regional MVP agreement, the minimum required revenue will be based on the TRC proportionately divided between the months of 2005, in whole or in part, under MVP and the months of 2005 not under MVP plus 7/12's of 86.6 percent of 2004 Gross Spend, as described in Section 33.65.2 preceding.

Example 1: MVP expires 8/31/05. The Customer must meet a minimum of 1/5 of \$43.75M TRC which is equivalent to \$8.75M plus 7/12's of 86.6 percent of 2004 Gross Spend as described in Section 33.65.2 preceding.

Example 2: MVP agreements expire 8/31/05 and 10/31/05. The Customer must meet a minimum of 3/5's of \$43.75M TRC, which is equivalent to \$26.25M plus 7/12's of 86.6% of 2004 Gross Spend, as described in Section 33.65.2 preceding.

If the Customer's purchase of Contributory Services, after all credits as described above, is greater than the minimum required revenue at time of true-up, the Customer will receive a Basic Credit equivalent to revenue above the minimum required revenue amount.

If the Customer's purchase of Contributory Services, after all credits as described above, is below the minimum required revenue at the time of true-up, the Customer will be billed the amount required to meet the minimum revenue amount and will pay such bill pursuant to Section 33.65.7(D)

- (B) Final True Up - On December 31, 2005 calculation of final TRC achievement will be made to determine any eligible Basic or Achievement credits.

If the Customer's purchase of Contributory Services, after all credits as described above, is greater than the TRC required at time of true-up, the Customer will receive a Basic Credit against Contributory Subject Services equal to the amount above the TRC not to exceed the amount outlined in Section 33.65.6(B) preceding.

Example 3: The Customer's TRC is \$43.75M.  
The Customer's purchase of Contributory Services is \$54M  
The Customer will receive Basic Credit equal to \$11.75M

If the Customer's purchase of Contributory Services, after all credits as described above, is below the TRC at the time of the final true-up, the Customer will be billed the amount required to meet the TRC and will pay such charge pursuant to Section 33.65.7(D).

Example 4: The Customer's TRC is \$43.75M.  
The Customer's purchase of Contributory Services is \$38.75M  
The Customer must pay \$5M.

If the Customer's purchase of Contributory Services, after all credits as described above, is greater than 148.9 percent of the TRC, the Customer will receive a Basic Credit against Contributory Subject Services equal to the difference between the TRC and 148.9 percent of TRC, and an Achievement Credit against Contributory Subject Services equal to a 17 percent discount on services above 148.9 percent of TRC.

Example 5: The Customer's TRC is \$43.75M  
The Customer's purchase of Contributory Services is \$67.8M.  
The Customer receives \$21M in Basic Credits and \$452K in Achievement credits.

- (C) If, at the time of final true-up, the Qualified Companies owe the Customer a Basic Credit amount as described above, the credit will be applied to the Customer's bill no later than 30 days after the final true-up date.
- (D) If, at the time of true-up, the Customer must buy up to meet the TRC as described above, payment must be submitted to the Qualified Companies no later than 30 days after the true-up date.

The Qualified Companies will calculate the MVP SLA 1 performance measurement point value and the SLA 2 performance measurement, as described in F.C.C. No. 1 Section 22.3(G), as if it were applicable for the full 2005 calendar year. The Qualified Companies will calculate the MVP SLA 1 performance measurement point value and the SLA2 performance measurement, as described in F.C.C. 1 Section 22.3(G), as if it were applicable for the full 2004 calendar year. No credits will be rendered with respect to 2005 based on these calculations, but if these calculations show that the Qualified Companies would have paid out a higher amount under the MVP SLAs in calendar year 2005 (if the Customer had been eligible to receive credits under the MVP SLAs through calendar year 2005) than what the Qualified Companies would have paid out under the MVP SLAs in calendar year 2004, the Qualified Companies will determine the difference between what the Qualified Companies paid out under MVP SLA in calendar year 2004 versus what the Customer would have been eligible to receive under MVP SLA if MVP extended through calendar year 2005. If the MVP SLA credit amount the Qualified Companies would have paid out for calendar year 2005 is greater than the MVP SLA credit amount paid out for calendar year 2004, then the MVP SLA credit amount the Customer received in calendar year 2004 will be subtracted from the amount of MVP SLA credit the Customer would have qualified for in calendar year 2005 and, if a positive number, the amount of any difference, less any impact based on an MVP MARC increase, will be deducted from the Customer's TRC.

Any credits due to the Customer resulting from any deduction to the TRC under this section will be determined and applied after the December 31, 2005 true-up process is finalized.

Example A: MVP calendar year 2005 effective SLA credit would be greater than MVP calendar year 2004 SLA credit.

The Customer MVP MARC = \$30M (with MVP term agreement expiration August 31, 2005).

MVP calendar year 2004 total SLA credit = 1%.

$\$30M \times 1\% = \$300K$  total SLA credit received by the Customer in calendar year 2004.

$\$30M * 2\% = \$600K$  total SLA credit the Customer would have received in calendar year 2005.

MVP calendar year 2005 effective SLA credit (\$600K) minus MVP calendar year 2004 credit (\$300K) = \$300K.

The Customer qualifies for a \$300K SLA credit to be applied to the Customer TRC.

$\$105M - \$300K = \$104.7M$  (new TRC).

Example B: MVP calendar year 2005 effective SLA credit is less than or equal to MVP calendar year 2004 SLA credit.

The Customer MVP MARC = \$30M (with MVP term agreement expiration August 31, 2005).

MVP calendar year 2004 total SLA credit = 1%.

$\$30M * 1\% = \$300K$  total SLA credit received by the Customer in 2004.

MVP calendar year 2005 effective SLA credit the Customer would have received if MVP extended through December 31, 2005 = 1%.

$\$30M * 1\% = \$300K$  effective SLA credit the Customer would have received in 2005.

MVP plan year 2005 effective SLA credit (\$300K) minus MVP plan year 2004 SLA credit (\$300K) = \$0.

The Customer does not qualify for any additional SLA credits toward its TRC.

These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification ninety (90) days prior to the desired date of termination to the Qualified Companies. This notification must include the date upon which the Customer will terminate the Contract Offer.

If the Customer fails to meet any of the eligibility criteria in Section 33.65.2, or fails to meet any of the Terms and Conditions in Contract Offer No 65, then the Qualified Companies shall provide the Customer with written notification of such non-compliance and the Customer will have sixty (60) days to return to compliance. - (F) The Customer may not subscribe to any future Contract Offerings in Section 33 in conjunction with this Contract Offer or that might be offered by the Telephone Company for Subject Services covered under this Contract Offer unless expressly permitted in the future Contract Offer.
- (G) The Customer must pay billed charges in full throughout the Term Period of this Contract Offer, excluding amounts being disputed. The Telephone Company will exhaust its remedies under Section 2.4.1 of F.C.C. Tariff No. 1 before exercising any remedy under this section. The Telephone Company will provide the Customer written notice (via registered letter) of non-compliance. The Customer will have thirty (30) days from receipt of the written notice to comply, which may be extended by mutual agreement of the Parties to allow the Parties to attempt to resolve any disputes. During this thirty (30) day period or a period to be mutually agreed upon by the Parties, the Parties will cooperate in good faith to attempt to resolve any pending disputes. If, after the Parties have exhausted attempts to resolve any pending disputes or have resolved disputes and the Customer does not comply with the written notice of non-compliance, the Telephone Company shall have the right to terminate this Contract Offer. In the event of termination by the Telephone Company, termination liability charges as set forth in Section 33.70.11 will apply. Credits will not be issued until the Customer has paid all billed charges (excluding disputes). Any disputed billing amounts that have been resolved in favor of the Telephone Company are due and payable as described in Section 2.4.1.

- (I) The Customer will continue to receive the benefit of rate stability for any Contributory Subject Services currently under a term plan with the Telephone Company that provides for rate stability.

33.70.4 Minimum Annual Revenue Commitment (MARC)

Contract Offer No. 70 requires the Customer to establish and maintain a Minimum Annual Revenue Commitment (MARC) for each year of the five (5) year Term Period, as defined in Section 33.70.4(A). The MARC shall include all Contributory Services purchased from the Telephone Company or its affiliates available under this Contract Offer. Contributory Services include Contributory Subject Services, as described in Section 33.70.2(C), herein, in addition to Contributory Non-Subject Services (that are not Contributory Subject Services).

33.70 Contract Offer No. 70 - Special Access Service Offer33.70.4 Minimum Annual Revenue Commitment (MARC) (Cont'd)(A) Establishing the MARC

- (1) The Customer's Year 1 MARC will be established when the Telephone Company receives the LOS from the Customer. The Customer's MARC for Year 1 shall be \$12.0 Million, or four times the Customer's monthly recurring revenue for Contributory Services during the three months immediately preceding the receipt of the signed LOS, whichever is greater.

Example 1: LOS is executed on August 1, 2005. The Year 1 MARC is established upon subscription at \$12.0M. The Customer's actual revenue to Telephone Company from May 1, 2006 to July 31, 2006 is \$4M. The new Year 2 MARC, effective August 1, 2006, is \$16M (\$4M multiplied by 4 equals \$16M.)

- (2) The MARC will be re-established, effective on each anniversary date, beginning on the first anniversary (Year 2 MARC). The MARC for Years 2, 3, 4, and 5 will be based on the Customer's actual monthly recurring revenue for all Contributory Services during the previous 3 months multiplied by 4, or the then-current MARC, whichever is greater.

Example 2: Term Period begins August 1, 2005. The MARC for Year 2 is \$16.0M. The Customer's actual revenue to Telephone Company from May 1, 2007 to July 31, 2007 is \$2.5M. The new Year 3 MARC, effective July 1, 2007, is \$16.0M. (The \$16.0M MARC is due to the fact that the MARC recalculation cannot result in a MARC lower than the current MARC.)

(B) Inclusion of Contributory Subject Services

- (1) The following are the only billed revenues that can be included in the MARC:
  - (a) Monthly billed recurring revenues, including (that is, net) any credits or discounts given under existing pricing plans (e.g. Term Payment plans or Commitment Discount Plan) if applicable for the Subject Services provided during the Term Period; and
  - (b) Any credits and adjustments made to monthly billed amounts for Subject Services which are purchased by the Customer during the Term Period.

Customer's existing Contributory Subject Services that are included in the MARC will be based on the rates that would apply to a five-year minimum term, regardless of whether the Contributory Subject Services were actually purchased pursuant to a five-year term at the time of subscription to this Contract Offer.

The Customer must provide written notice to the Telephone Company of its wish to exercise this option. If any additional Contributory Services are ATM or Frame Relay services, those additional Contributory Services shall be provided pursuant to an agreement and/or contract which shall be available for review at the following web site: <https://www.sbcprimeaccess.com/shell.cfm?section=2501>

(D) MARC Adjustments

The Customer may exercise the following adjustments to the MARC pursuant to the terms listed below:

- (1) Option 1 - The Customer may, at its option, adjust the MARC downward by up to 10%. This adjustment can be made only one time during the Term Period, at any time after the first 24 months of the Term Period (i.e., beginning with the establishment of the Year 3 MARC). To exercise this option, the Customer must notify the Telephone Company, in writing, at least 60 days prior to the Anniversary Date upon which the adjustment is to become effective.
- (2) Option 2 - The Customer may carry over a shortfall of no more than 5% into the next contract year. This adjustment can be made only one time during the Term Period, at any time after the first 24 months of the Term Period (i.e., beginning with the establishment of the Year 3 MARC). To exercise this option, the Customer must notify the Telephone Company, in writing, at least 60 days prior to the Anniversary Date upon which the adjustment is to become effective. If the Customer opts to carry over a shortfall, the Customer's next year MARC will be increased to reflect that shortfall amount. If at the end of the subsequent contract year, the Customer does not meet its MARC, the Customer must make a shortfall payment sufficient to achieve that year's MARC or will be subject to termination liabilities as outlined in Section 33.70.4(E). This option cannot be combined with the MARC adjustment option as described in Section 33.70.4(D)(1)..

The MARC adjustment shall apply prospectively only. If the Customer uses the MARC adjustment option in conjunction with any of the Merger and Acquisition options outlined in Section 33.70.9, reduced discounts will remain for the life of the Term Period, and discounts previously received during that contract year will not be re-rated, provided the Eligibility Criteria in Section 33.70.2 and Terms and Conditions in Section 33.70.3 have been met prior to the MARC adjustment, and certain provisions will no longer apply as detailed in Section 33.70.5.

33.70 Contract Offer No. 70 – Special Access Service Offer (Cont'd)33.70.4 Minimum Annual Revenue Commitment (MARC) (Cont'd)(E) Failure to Achieve the MARC

The Customer and the Telephone Company shall exchange information annually, and shall meet annually if necessary, to review the Customer's progress toward achieving the MARC for the term years. The Customer and the Telephone Company agree that they will meet in the ninth month of each term year to discuss and address, if necessary, compliance with the Terms and Conditions of the Contract Offer prior to the Anniversary Date. If the Customer fails to achieve the annual MARC Commitment as of the anniversary date, the Customer will be notified by the Telephone Company and will be required to remit an Annual True-up payment to reach the MARC commitment. The True-up calculation will be performed as follows:

Annual MARC – Actual Annual recurring revenues for  
Subject Services = Annual True-up Amount

If the Customer fails to submit its Annual True-Up payment to the Telephone Company within 30 days after notification from the Telephone Company, the Customer shall be deemed to have terminated its Contract Offer No. 70, and termination charges will apply as set forth in Section 33.70.11.

33.70.5 Discounts and Other Credits(A) Discount Schedule and Application

On each anniversary date, the customer shall be eligible to receive the following Billing Credit, as set forth in Table A, subject to the Customer's compliance with all terms and conditions of this Contract Offer. Credits will be applied to the Customer's bill no later than 90 days after each Anniversary Date. Recurring revenue generated from Subject Services that were not included in this Contract Offer at the time of subscription are not eligible for discounts under this Contract Offer, unless and until those Contributory Subject Services have been added to this Contract Offer pursuant to Sections 33.70.2, 33.70.4, 33.70.9 and 33.70.10.

$$\$9,584,000 \times 2\% = \$191,680$$

(B) First Year Credit

If at the end of the Year 1 of this Contract Offer, the Customer's MARC for Year 2 is \$15.125M or higher, the Customer will receive an additional credit of 2.78 percent of Subject Services applied to the Customer's bill no later than 90 days after the anniversary date for Year 1.

Example: If the Customer reaches the MARC level of \$15.125M at the end of year 1 for the sum of all Contributory Services and has Subject Services revenue of \$11,230,000. The Customer will be eligible to receive a credit of \$312,194.

$$\$11,230,000 \times 2.78\% = \$312,194$$

33.70.6 Incentives(A) Purchase of New Contributory Subject Services

During the Contract Term period of subscription to this Contract Offer, the Telephone Company will calculate the billed revenue as described in Section 33.70.4 (B), of new eligible Subject Services towards meeting the MARC on the first contract anniversary date, the beginning of the second year of the Contract term period, and such revenue will be will be increased by 15 percent under this Contract Offer.

Example: Assume that the Customer's total monthly billed recurring revenues for new OC3/OC3c services during the first Contract Term Year Period was \$1,000,000 (\$1M). The Telephone Company will calculate the billed revenue for new Contributory Subject Services on the first Contract anniversary date for purchases made during such period and the Customer shall be deemed to have purchased \$1,150,000 (\$1.15M) in Contributory Subject Services. In subsequent years, these OC3 services would count as \$1,000,000 (\$1M) toward MARC calculations. The calculation to determine if the Customer met the MARC requirements will be:

(New Subject Services purchased during the first contract year multiplied by 1.15) + Existing Contributory Subject Services = Total value of Contributory Subject Services.

This total value of Contributory Subject Services will then determine if the Customer meets the MARC as described in Section 33.70.4 and/or has earned any incentive credits as described in Section 33.70. 5.

Purchase of the aforementioned new Subject Services in Year 2, 3, 4 and 5 of this Contract Offer will not receive the increased value towards meeting the MARC.

Example: Assume that the Customer's total monthly billed recurring revenues for new OC3/OC3c services during the second Contract Term Year Period was \$1,000,000 (\$1M). The Telephone Company will calculate the billed revenue for new Contributory Subject Services on the second contract anniversary date, the beginning of the third year of the Contract Term period, for purchases made during the second year and the Customer shall be deemed to have purchased \$1,150,000 (\$1.0M) in Contributory Subject Services toward MARC calculations. The calculation to determine if the Customer met the MARC requirements will be:

New Subject Services purchased multiplied by 15 percent + Existing Contributory Subject Services (prior year one purchases plus existing subject services)= Total value of Contributory Subject Services.

The increase value of new eligible services shall be used only to determine attainment of the MARC, and not for any other purposes. If the Customer fails to meet the MARC requirements as stated in section 33.70.4 after such calculation as described above, the Customer will be subject to the true-up provision as stated in Section 33. 70.4 (E)

For purposes of this Contract Offer, a new SONET OC3/OC3c service must meet one of the following criteria:

- (1) Newly ordered and provisioned during the first year of the Contract Term period by the customer under this Contract Offer; or
- (2) Upgrade of an existing Special Access service during the first year of the Contract Period that was not previously a SONET OC3/OC3c service (e.g., upgrade of a DS1 or DS3 to a SONET OC3 service) under the provisions set forth in other sections of this tariff.

33. Pricing Flexibility Contract Offerings (Cont'd)33.70 Contract Offer No. 70 - Special Access Service Offer (Cont'd)33.70.6 Incentives (Cont'd)(B) Conversion of DS1 or DS3 capacity loops:

For customers who subscribe to this Contract Tariff No. 70 and convert their DS1 or DS3 capacity loops, dedicated transport, or Expanded Extended Loops (**EELs**) provided by the Telephone Company as unbundled network elements (**UNEs**) to Special Access Service, the Telephone Company will multiply the customer's billed revenue associated with such converted UNEs by 1.50 in the year of conversion towards the attainment of the MARC. The converted services in subsequent years will not receive the billed revenue multiplier towards the attainment of the MARC. This multiplier shall be used only to determine the billed revenue for Qualifying Services for purposes of MARC attainment, and not for any other purpose. The Customer shall provide a detailed list of circuits that have been converted to the Telephone Company within 30 days after the contract anniversary year for verification.

For example, if the customer converts \$1,000,000 (\$1M) in UNEs to Special Access Services during the first Annual Contract Term Period of this Contract Tariff No. 70, then, in calculating billed revenue for Qualifying Services, the customer shall be deemed to have purchased \$1,500,000 (\$1.50M) in Special Access DS1 Services for purposes of calculating the billed revenue for Qualifying Services for meeting the MARC as described in section 33.70.4. In subsequent years, the converted UNE services would count as \$1,000,000 (\$1M) towards MARC calculations.

33.70.7 Non-Recurring Charges

The Telephone Company will waive installation non-recurring charges (NRCs) associated with the conversion of Contributory Subject Services pursuant to this Contract Offer. In the event that the installation NRCs are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis. In addition, the Telephone Company will waive Non-recurring charges (NRCs) associated with the conversion of existing UNE circuits which are converted to Special Access Services under the terms of this contract tariff offer. In the event that the installation NRCs are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis.

To receive credits for installation NRCs, the Customer must be in compliance with all terms and conditions of this Contract Offer. Additionally, if the Customer fails to meet the MARC on an Anniversary Date pursuant to Section 33.70.4 (A) and/or fails to pay the Annual True-Up as defined in Section 33.70.4 (E), termination liability charges will apply as set forth in Section 33.70.11.

The Customer must pay all other applicable non-recurring charges, including, but not limited to, rearrangement charges, special construction charges, access order charges, cancellation charges and Access Order Modification charges as described in PBTC F.C.C. - (7) The Telephone Company will calculate the actual recurring annual revenue of the other company involved in the merger or acquisition on the date the Customer elects the provisions in this subsection, in the same manner such revenue would be calculated for purposes of performing the annual recalculation of the MARC under this Contract Offer. Until the Customer has fully implemented one of the provisions in this subsection, the Customer will not be eligible to earn the above the MARC discounts discussed in Section 33.70.5 (A)(2) of this Contract Offer for revenue from the other company involved in the merger or acquisition. After the Customer has fully implemented the provision in this subsection, the Customer will be eligible for above the MARC discounts provided in Section 33.70.5(A)(2) for recurring annual revenue above the new combined MARC.

Notwithstanding the foregoing, if the Telephone Company is primarily responsible for a delay in the Access Conversion Schedule, MARC discounts will continue to apply and this Contract Offer will not be considered in default, provided, however, that each party shall exercise best efforts to comply.

(B) Option 1

- (i) The Customer must establish a combined MARC by adding to the Customer's then-current MARC at least 85%, but not more than 100% (at the Customer's option), of all recurring annual revenue for Contributory Services from the other company involved in the merger or acquisition. Recurring annual revenue for Contributory Services shall be calculated in a manner consistent with the annual recalculation of the MARC under this Contract Offer.

Termination liability language described below applies in lieu of the termination liability language described in PBTC Tariff F.C.C. No. 1, Section 7. If the Customer terminates Contract Offer No. 70 before the completion of the term for any reason whatsoever (other than a material default by the Telephone Company), the Customer must pay the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification 90 days prior to the desired date of termination to the Telephone Company. This notification must include the date upon which the Customer will terminate the Contract Offer.

If the Customer fails to meet any of the eligibility criteria in Section 33.70.2, or fails to meet any of the Terms and Conditions in Section 33.70.3, then the Telephone Company shall provide the Customer with written notification of such non-compliance and the Customer will have sixty (60) days to comply. The Customer's termination liability charge shall be equal to the following: If the Customer terminates the Contract Offer prior to the expiration of a term year, 100% of all Discounts (including non-recurring charges and early termination charges) received under Contract Offer No. 70 for the preceding six (6) months immediately prior to the date of termination, plus the following schedule:

Termination liability language described below applies in lieu of the termination liability language described in Sections 7 and 32. If the Customer terminates Subject Services under this Contract or terminates the Contract Offer in its entirety before the completion of the term period for any reason, the Customer must pay the Telephone Company termination charges as described in this section. These charges shall become due as of the effective date of the termination of service. The Customer must provide written notification to the Telephone Company 30 days prior to the desired date of termination of the Subject Services pursuant to this Contract Offer.

If the Customer fails to meet any of the eligibility criteria in Section 33.71.3, or fails to meet any of the Terms and Conditions in Section 33.71.4, the Customer will be deemed to have terminated services under this Contract Offer and Termination Liability is payable.

If the Customer terminates a Subject Service before the completion of the term period, the Customer's termination liability charge for termination of service shall be equal to:

50% of the monthly charges on the unexpired portion of the three (3) year term.

Example: The Customer terminates service on a DS3 with a \$ 1202.50 monthly charge after thirty (30) months of service and has six (6) months remaining in the thirty-six (36) month term. The termination liability would be calculated as:

(A) Gross Spend shall include all billed revenue for services identified in Section 33.74.6(A), and shall be based on the sum of all of the purchases from the Telephone Company and its affiliated telephone companies, including all of the contract offers as described in Section 33.74.2 (C), as described in Section 33.74.5 preceding, based on billed revenue. The Gross Spend is calculated as billed revenue, prior to the application of MVP discounts, MVP Service Level Agreement (SLA) credits and Discount Value Plan (DVP) credits, but after all other tariff term plan discounts, and other underlying tariff performance credits.

(B) Application of Credits

The Customer is eligible to receive two (2) types of credits under this Contract Offer. For the purposes of this Contract Offer, Customer will receive any applicable credits (the Basic Credit and Achievement Credit) through the SBC wholesale sales channel for all of the contract offers as described in Section 33.74.2 (C). The sum of all Basic Credits applicable under the individual contract offers listed in Section 33.74.2 (C) cannot exceed the total maximum Basic Credit described in Table 7 following. Award of the credits described below under this Contract Offer shall satisfy the credit obligations of the Telephone Company and its affiliated telephone companies to the Customer, as described in Section 33.74.2(C).

(1) Basic Credit

The Basic Credit for each Contract Year shall be equal to the Gross Spend of Contributory Services minus the TRC, but not to exceed the Maximum Basic Credit as described in Table 7 below. This calculation shall be performed at the commencement of the Contract Offer, and the Maximum Basic Credit resulting from these calculations will not change at any time during the Term Period except as described in Section 33.74.11 following. The Customer will receive Basic Credits on Contributory Subject Services on a monthly basis, as provided in Section 33.74.6(B)(1)(b) below, for each Contract Year and subject to the true-up process described in Section 33.74.8 following.

- (a) Calculation of the Basic Credit. To determine the amount of Basic Credit the Customer can achieve, the TRC is multiplied by the applicable percent as described in Table 7 below. This amount, less the TRC, will equal the potential Maximum Basic Credit, rounded to the nearest million. If qualified, award of Basic Credit under this Contract Offer shall satisfy the Basic Credit obligations of the Telephone Company and its affiliated telephone companies.

Table 7 -

| Year | TRC                                                                                                    | Maximum Basic Credit Amount                                                |
|------|--------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------|
| 2005 | 86.5% of 2004 Gross Spend described in (A) below, rounded to the nearest million dollars, times 1/12's | 310% of TRC minus the TRC amount, rounded to the nearest million dollars   |
| 2006 | 2005 TRC times 12 times 89.7% rounded to the nearest million dollars                                   | 119.6% of TRC minus the TRC amount, rounded to the nearest million dollars |
| 2007 | 2005 TRC times 12 times 83.4% rounded to the nearest million dollars                                   | 123.7% of TRC minus the TRC amount, rounded to the nearest million dollars |

Example A: The Customer has 2004 Gross Spend of \$121.3M. 86.5 percent of 2004 Gross Spend equals \$105M, rounded to the nearest million.

The 2005 TRC is equal to 1/12th of \$105M.  
1/12th of \$105M equals \$8.75M

The eligible total Basic Credit available is;

$$\$8.75M \times 310\% = \$27.13M$$

$\$27.13M - \$8.75M = \$18.38M$ , rounded to the nearest million, equals potential maximum Basic Credits

## (a) (Cont'd)

Example B: The 2006 TRC is equal to 2005 TRC times 12 times 89.7 percent, rounded to the nearest million.

$8.75M \times 12 \times 89.7\% = \$94.18M$ , rounded to the nearest million

The eligible total Basic Credit available is;

$\$94M \times 119.6\% = \$112.42M$

$\$112.42M - \$94M = \$18.42M$ , rounded to the nearest million equals maximum Basic Credits

(b) Application of the Maximum Basic Credit

The TRC will be divided evenly across the number of months for each Contract Year ending December 31<sup>st</sup>, as described below. The resulting monthly average amount will be the Customer's Monthly TRC commitment.

2005 - Contract Year 1 - 1 month

2006 - Contract Year 2 - 12 months

2007 - Contract Year 3 - 12 months

Example:

2005 TRC equal \$8.75M

Maximum Basic Credits will be applied to the Customer's Monthly TRC revenue for Contributory Services, as described in Section 33.74 5 preceding, based on the amount above the Monthly TRC commitment, not to exceed the maximum Basic Credit allowed for each Contract Year as described in Table 7 preceding.

If the Customer exceeds the Monthly TRC commitment, a credit will be issued on a monthly basis sixty (60) days in arrears. Monthly credits will be issued for every month the Customer maintains eligibility under Contract Offer No. 74 and exceeds the Monthly TRC Commitment, provided, however, that once the maximum Basic Credit is reached, as described in Table 7 preceding, no additional Basic Credits will be given for that Contract Year.

At MVP expiration, a MATA true-up will be conducted as described in F.C.C. 1, Section 22.3, to determine the Customer's credit amount or required buy-up amount under MVP. The monthly TRC true-up will be calculated at the same time. Customer will be paid the net amount above the TRC. At the end of the Contract Year, a true-up will be conducted, as described in Section 33.74.8, to determine any additional applicable credits or buy-up amount required.

Example: The Customer's MVP expires on October 31, 2005. Under MVP MATA on October 31, the Customer has met its MARC and is due \$2M in MVP credits (earned in 2005), plus \$1M in MVP SLA credits (earned in 2005), for a total MVP credit amount of \$3M.

The Customer's monthly TRC under this Contract Offer is \$8.75M, and Customer is billed \$9.75M.

The Customer will receive the \$1M under Contract Offer No. 74.

At the Contract Year true-up, the total Gross Spend and total credits paid to the Customer, as described in Section 33.74.6 above, will be calculated to determine any additional applicable credit amount or, if a TRC shortfall occurs, the amount of buy-up the Customer will be billed.

If the Customer does not achieve the Monthly TRC commitment in a given month, the Customer will be billed, and will be required to pay, the amount required to meet the Monthly TRC commitment. This payment must be submitted to the Telephone Company no later than 60 days after the true-up date. Timely payment of this true-up amount to meet Customer's Monthly TRC commitment shall constitute full satisfaction of Customer's Monthly TRC obligation.

Except as provided in Section 33.74.11, credits will not be issued unless the Customer has met the monthly TRC and the 95 percent Access Service Ratio. Under the Contract Year True-up Process, any credits due to the Customer will be paid, except for those months the Customer was not in compliance with the 95 percent Access Service Ratio, or the Temporary Access Service Ratio set forth in Section 33.74.11. Any Basic Credits paid will not exceed the amount described in 33.74.6, Table 7.

A final true-up will take place at the end of each Contract Year as described in Section 33.74.8.

- (c) Any of the following credits issued to the Customer and associated with the Contributory Services included in the TRC (including MVP Commitment credits earned in 2005, MVP SLA credits earned in 2005, DVP credits, any Basic Credits received pursuant to this Contract Offer) will be applied by the Telephone Company in satisfaction of any applicable Basic and Achievement Credit obligations under this Contract Offer.

Example

The Customer has Contract Year 1 TRC of \$8.75M. The Customer achieves 310 percent of the Contract Year 1TRC, equal to \$27.13M. The Customer has received, or is entitled to receive, a total of \$7M in MVP Commitment Credits and \$2M in MVP SLA Credits, for a total of \$9M in credits unrelated to this Contract Offer.

The Basic Credit obligation of the Telephone Company and its affiliated telephone companies providing service pursuant to the Contract Offers, as described in Section 33.74.2 (C), is \$18M (\$27.13M - \$8.75M, rounded to the nearest million), as illustrated in Table 7. The Basic Credit obligation will be satisfied by the \$9M in non-contract related credits acquired by the Customer under MVP and MVP SLA, plus \$9M in Basic Credits paid pursuant to this Contract Offer. This amount will be determined at the time of the final Contract Year true-up, once all other credits have been applied accordingly.

The Customer will not pay less than the TRC for the Contract Year. If the Customer does not achieve the TRC at the end of each Contract Year through the purchase of Contributory Services, the Customer will be required to pay the deficiency as full satisfaction of this obligation.

Basic Credits shall be calculated and awarded on an aggregate basis across the concurrently subscribed to contract offers as described in Section 33.74.2 (C). If qualified for a Basic Credit, an award of Basic Credit under this Contract Offer shall satisfy any Basic Credit obligations of the concurrently subscribed to contract offers as described in Section 33.74.2 (C), and an award of Basic Credit under such other contract offers shall satisfy any Basic Credit obligations under this Contract Offer No. 74.

(2) Achievement Credits

Achievement Credits are those credits the Customer will receive based on purchases of Contributory Subject Services above the TRC, plus the maximum Basic Credit Amount, as described in Table 7 preceding. Achievement Credits will not be applicable until the maximum Basic Credit amount has been achieved.

- (a) The Customer may receive Achievement Credits if the Customer's Gross Spend for any Contract Year exceeds the TRC plus the Maximum Basic Credit, as described in Table 7 preceding. The Customer will receive a discount on Contributory Subject Services equal to 17 percent of total revenue above the sum of the TRC, plus the Maximum Basic Credit Amount. Any applicable Achievement Credit will be paid out at the end of each Contract Year.

Achievement Credits shall be calculated and awarded on an aggregate basis across the Telephone Company and its affiliated telephone companies, as they apply to the contract offers as described in Section 33.74.2 (C). - (a) The Customer may transfer services purchased from SBC non - wholesale entities or channels, or purchased by the Customer under a different Access Customer Name Abbreviation (ACNA) than those identified under this Contract Offer. Upon such transfer, the Customer's TRC commitment must be increased proportionally, based on the amount of revenue associated with the transferred services. The Customer's Maximum Basic Credit amount will not change as a result of this transfer.

Example:

The Customer has a Contract Year 1 TRC of \$8.75M and is eligible to earn up to a maximum of \$18M in Basic Credits. The Customer transfers \$10M of services from a non-SBC wholesale entity. The Customer's new Contract Year 1 TRC will be \$18.75M (\$8.75M plus \$10M = \$18.75M). The Customer's maximum Basic Credit (\$18M) will not change as a result of the transfer.

This increase in the TRC amount will apply to Contract Year 2 and Contract Year 3, as well as the optional Contract Year Extensions.

33.74.7 Portability

- (A) The Telephone Company will waive termination liability charges for moves and/or disconnection of non-channelized DS1, DS3, OCN PTP services connecting to an end user premise, provided the conditions listed below are met, and provided the Eligibility Criteria in Section 33.74.2, and terms and conditions in Section 33.74.3 have been met. If the Customer both (i) fails to meet the monthly TRC during the Contract period pursuant to Section 33.74.6, and (ii) fails to pay the True-up amount, as defined in Section 33.74.8, or if the Customer fails to comply with the terms and conditions of their underlying term plans, the Customer will be back-billed for termination liability charges that were waived during the Term Period, up to a maximum of two years of such charges, to the extent such termination liability charges would otherwise apply under the relevant underlying term plans. Portability will apply subject to the following terms and conditions:
- (1) Each move and/or disconnection must be from any SBC Tariff as described in Section 33.74.1; and
  - (2) Services moved or disconnected must be in the Price Flex MSAs described in Tariff F.C.C. No. 1, Section 31.

33.74.8 End of Contract Year True-up Process

A true-up calculation will be performed at the end of each Contract Year during the Term Period as follows:

- (A) At the end of each Contract Year, the Customer's Gross Spend, as defined in Section 33.74.6 preceding, will be calculated to determine the applicable Basic Credit and Achievement Credits.

For true-up calculation purposes, the Gross Spend for Contract Year 1 will include the Customer's Contributory Service revenue for the full 2005 calendar year. The amount of Contributory Service minimum required revenue at final true-up for Contract Year 1 will be the 2005 TRC, plus 11/12ths of 86.5 percent of the 2004 Gross Spend, rounded to the nearest million. The applicable Basic Credit Amount and Achievement Credit Amount received as a result of this calculation will apply only to the TRC amount included in this Contract Offer, as described in Section 33.74.6 Table 7 preceding.

For Contract Years 2 and 3, the minimum required revenue shall be equal to the TRC.

The Basic Credit Amount shall be equal to the Gross Spend minus the TRC for each year (or, for Contract Year 1, the Gross Spend minus the sum of the TRC plus 11/12ths of 86.5 percent of 2004 Gross Spend), provided, however, that the Basic Credit Amount shall not exceed the amount provided in Section 33.74.6 Table 7 preceding, and will only apply to the TRC amount included in this Contract Offer.

Credits received under this Contract Offer during the Contract Year, as well as any MVP credits earned in 2005, MVP SLA credits earned in 2005, and DVP credits, will be calculated to determine the amount of Basic Credit the Customer has been paid.

Example 1: The Customer's TRC for the first Contract Year is \$8.75M. The Customer's Gross Spend for Contributory Services, after all credits and adjustments as described above, is \$10M. The Customer will receive an additional Basic Credit equal to \$1.25M

If the Customer's Gross Spend for Contributory Services, after all credits and shortfall payments described above, is below the minimum required revenue at the time of the true-up, the Customer will be billed the amount required to meet the minimum required revenue and will pay such charge pursuant to Section 33.74.8 (D).

Example 2: The Customer's TRC for the first Contract Year is \$8.75M. The Customer's Gross Spend for Contributory Services, after all credits and adjustments as described above, is \$7M. The Customer must pay \$1.75M.

33.74 Contract Offering No. 74 - Access Discount Offer (Cont'd)33.74.11 Mergers and Acquisitions

- (A) The terms and conditions of this Contract Offer shall continue in full force and effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or assets to any other entity, or purchases all stock or substantially all stock or assets of another company (the foregoing generally referred to herein as a merger or acquisition). Any other company involved in such merger or acquisition shall be identified for purposes of this Contract Offer as an Acquired Company, without regard to whether the Customer or the Acquired Company is the surviving entity following the transaction. The Transaction Close Date shall be the date upon which a stock purchase has been completed and/or the final date on which the assets of the acquired/merged company have been purchased. Upon the Transaction Close Date, if the Acquired Company purchases any services that are Contributory Services under this Contract Offer No. 74 from the Telephone Company and each of its affiliated telephone companies in each of the contract offers described in Section 33.74.2 (C), the Contributory Services purchased by the Acquired Company will not count toward the Gross Revenue achievement or TRC amount, and the Contributory Services provided for in this Contract Offer will continue to be maintained at the same volume, rates, terms, and conditions as outlined herein.

Effective upon the Transaction Close Date:

The Acquired Spend shall be calculated for the Acquired Company, including the Acquired Company's billed revenue for Contributory Services consistent with the manner of calculating Gross Spend, as provided in Section 33.74.6(A) of this Contract Offer, plus the Acquired Company's billed revenue for UNE or equivalent offerings, as described in Section 33.74.4, Table 2.

- (1) If the Acquired Spend (calculated based on the billed revenue of the Acquired Company during the three months immediately prior to the Transaction Close Date, times four) is less than or equal to 15 percent of the billed revenue for both Contributory Services and UNE, or equivalent offerings provided to the Customer prior to the Transaction Close Date, this Contract Offer shall remain in force without change, unless Customer includes the Acquired Spend in this Contract Offer, as provided in Section 33.74.11(B) of this Contract Offer.

(2) If the Acquired Spend (calculated based on the billed revenue of the Acquired Company during the three months immediately prior to the Transaction Close Date, times four) is greater than 15 percent of the billed revenue for both Contributory Services and UNE, or equivalent offerings provided to the Customer prior to Transaction Close Date, the following provisions shall apply:

(a) The Customer's Calculated Annual Spend shall be the Customer's actual annualized billed revenue for Contributory Services (calculated as the Customer's billed revenue during the three months immediately prior to the Transaction Close Date, times four). The Ceiling shall be the sum of the TRC plus the Maximum Basic Credit. If the Customer's Calculated Annual Spend is less than the Ceiling, the Customer's Maximum Basic Credit shall be reduced by an amount equal to the difference between the Ceiling and the Calculated Annual Spend. The Customer's TRC shall not change. The reduced Maximum Basic Credit shall apply thereafter throughout the Term Period, unless subsequently reduced pursuant to this provision as a result of a subsequent merger or acquisition. Thereafter, the Customer shall not receive Achievement Credits for any revenue above the Calculated Annual Spend, except as described in Section 33.74.11(A)(3) of this Contract Offer.

Example: The Customer's Year 2 TRC is \$90M and its Maximum Basic Credit is \$18M, for a Ceiling of \$108M (TRC plus Maximum Basic Credit).

On the Transaction Close Date, the Customer's Calculated Annual Spend (billed revenue for Contributory Services during the prior three months, times four) is \$100M. The Customer's TRC remains \$90M, and the Customer's Maximum Basic Credit is reduced to \$10M. The Maximum Basic Credit remains at \$10M thereafter, unless further reduced as a result of a subsequent merger or acquisition.

No Achievement Credits will apply to any revenue over \$100M.

The Customer shall not receive Achievement Credits for any revenue above the Ceiling during the months after the Transaction Close Date, except as provided in Section 33.74.11(A)(3) of this Contract Offer. Any Achievement Credits earned after the maximum Basic Credit amount has been achieved, but prior to the Transaction Close Date, will continue to apply.

Example: The Customer's Year 2 TRC is \$90M and the Maximum Basic Credit is \$18M for total of \$108M.

On the Transaction Close Date, the Calculated Annual Spend (billed revenue for Contributory Services during the prior three months, times four) is \$112M. The Customer's TRC remains \$90M and the Maximum Basic Credit remains \$18M.

- (3) If the Customer wishes to include Contributory Services provided to the Acquired Company in this Contract Offer, the Customer must so notify the Telephone Company within nine (9) months after the Transaction Close Date. If the Customer chooses to include the Acquired Company's Contributory Services in this Contract, the Acquired Spend (calculated based on the billed revenue of the Acquired Company during the three months immediately prior to the date upon which the Customer provides notification pursuant to this provision, times four) will be added to the Customer's then-current TRC. In addition, the revenues resulting from any conversion of UNE or equivalent offerings to qualified Contributory Subject Services, whether voluntary or required, shall also be added to the Customer's then-current TRC, according to the rates that would apply to those Contributory Services under this Contract Offer. The Maximum Basic Credit shall be determined according to Section 33.74.11(A) of this Contract Offer. Achievement Credits will apply to revenue above the Ceiling, beginning upon the date the Customer provides notification pursuant to this provision. Upon including the other company's Contributory Services in this Contract Offer, any pricing flexibility contract offer, or similar intrastate arrangement governing the included services, shall be deemed terminated and any termination liability or other charges will apply, as provided in the previously effective pricing flexibility contract offer or similar intrastate arrangement. The Customer's Maximum Basic Credit amount will not change as a result of this transfer except as described in Section 33.74.11(A)(2)(a) of this Contract Offer. The Access Service Ratio, as described in Section 33.74.4, will be applicable to all of the Customer's affiliates, regardless of their inclusion in, or exclusion from, this Contract Offer (except as described in Section 33.74.11(B) of this Contract Offer). The increase in the Customer's TRC shall apply thereafter, except to the extent the TRC may be further modified pursuant to this Contract Offer.

Example A: The Customer has a Year 2 TRC of \$90M, and the Maximum Basic Credit is \$18M. The Customer acquires another company with annualized Contributory Service revenues of \$40M, and the Customer chooses to add the Acquired Company's Contributory Services business to this Contract Offer. The Customer's new Contract Year 2 TRC will be \$130M (\$90M plus \$40M = \$130M). The Customer's Maximum Basic Credit (\$18M) will not change, except as described in Section 33.74.11(A)(2)(a) of this Contract Offer. The new TRC will apply thereafter, unless the TRC is subsequently changed pursuant to this Contract Offer.

33.74 Contract Offering No. 74 - Access Discount Offer (Cont'd)33.74.11 Mergers and Acquisitions (Cont'd)(B) Mergers and Acquisitions Affecting Access Service Ratio

If any merger or acquisition affects the Customer's Access Service Ratio, the Customer and any affiliated entities that existed as of the Transaction Close Date (as determined by the applicable ACNA's) shall comply with the Access Service Ratio requirements of this Contract Offer, as described in Section 33.74.4 of this Contract Offer, subject to the provisions of this Section 33.74.11(B).

If the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases:

(1) All stock, or substantially all stock or certain assets of another company, and the merger or acquisition will cause the Customer to fall below Access Services Ratio Terms and Conditions as defined in Section 33.74.4, regardless of whether the Customer chooses to include the Acquired Company's Contributory Services in this Contract Offer, the following will apply.

(a) A Temporary Access Service Ratio will be calculated in a manner consistent with the calculation of the Access Service Ratio as described in Section 33.74.4 of this Contract Offer, for the Acquired Company, for the month immediately following the Transaction Close Date, according to the following formula.

$$\frac{\text{Acquired Company Access Revenue}}{\text{Acquired Company Access Revenue} + \text{Acquired Company Wholesale Revenue}}$$

Example:

$$\frac{\$35\text{M Access}}{\$35\text{M Access} + \$34\text{M Wholesale}}$$

The Temporary Access Services Ratio would be:

50.7%/49.3%

## (1) (Cont'd)

- (b) The Temporary Access Service Ratio will apply to the Acquired Company's Contributory Services until the earlier of nine (9) months after the Transaction Close Date, or the date upon which the Customer notifies the Telephone Company of its election to add the Acquired Company's Contributory Services to this Contract Offer, whichever is earlier. While the Temporary Access Service Ratio remains in effect, the Contributory Services of the Acquired Company must at all times meet or exceed the Temporary Access Service Ratio.

Thereafter, a Combined Access Service Ratio shall be calculated according to the following formula:

$$\frac{\text{Combined Access Revenue}}{\text{Combined Access Revenue} + (\text{Combined Wholesale} - \text{Acquired Wholesale Revenue})}$$

The Acquired Wholesale Revenue in the combined equation shall be measured at the earlier of nine (9) months after the Transaction Close Date or the date upon which the Customer notifies the Telephone Company of its election to add the Acquired Company's Contributory Services to this Contract Offer, whichever is earlier.

Example:

$$\frac{\$140\text{M}}{\$140\text{M} + (\$37\text{M} - \$35\text{M})}$$

The combined Access Service Ratio of 98.6%/1.4% exceeds the 95%/5% ratio required.

- (c) Once the Combined Access Service Ratio has been calculated, the combined Company (the Customer and Acquired Company, considered together) must meet or exceed a Combined Access Service Ratio of 95 percent for all services (Contributory and UNE or other equivalent offerings) purchased thereafter. Any wholesale services purchased by the Acquired Company prior to the earlier of the date nine months after the Transaction Close Date, or the date upon which the Customer notifies the Telephone Company of its election to add the Acquired Company's Contributory Services to this Contract Offer, will be deducted from the Combined Wholesale Revenue for purposes of calculating the Combined Access Service Ratio.

(d) Services included in the calculation of the Temporary Access Service Ratio or the Combined Access Service Ratio shall be the same as those described in Section 33.74.4 of this Contract Offer.

(e) If the Customer and/or the Acquired Company fails to meet or exceed the Temporary Access Service Ratio or the Combined Access Service Ratio, the remedies provided in Section 33.74.4 of this Contract Offer shall apply.

(f) The provisions of this Section 33.74.11 shall apply to each merger or acquisition during the Term Period.

(2) If the Customer chooses to include the Acquired Company's Contributory Services in this Contract Offer, Contributory Services previously provided to the Acquired Company shall be included in this Contract Offer immediately upon the Telephone Company's receipt of the Customer's notice of intent to include them, and the TRC will be increased by the amount of the Acquired Company's qualified revenues. In addition, the monthly TRC will be increased to reflect the conversion of any unbundled network elements and equivalent offerings to Contributory Subject Services subject to this Contract Offer. Any converted services will be billed as Contributory Subject Services subject to this Contract Offer, and will be included in the TRC, effective upon the date on which receives the Customer's request to convert. The Customer's Maximum Basic Credit will not change as a result of the inclusion of the Acquired Company's Contributory Services in this Contract Offer, except as described in 33.74.11(A) preceding. 33.74 Contract Offering No. 74 – Access Discount Offer (Cont'd)33.74.12 Cessation of Business

If, at any time during the Term Period, the Telephone Company, or any of its affiliated telephone companies, cease to provide telecommunications services in any MSA subject to this Contract Offer, or any of the other Contract Offers as described in Section 33.74.2 (C), sells or divests its operating assets in any MSA subject to this Contract Offer, or otherwise ceases to provide any of the Contributory Services subject to this Contract Offer, the TRC will be decreased by the amount of the qualified revenue associated with the Contributory Services no longer provided by the Telephone Company or its affiliated telephone companies.

33.74.13 Termination Liability Charges

Termination liability language described below applies in lieu of the termination liability language in F.C.C. No. 1, Section 7 and Section 32. If the Customer terminates Contract Offer No. 74 before the expiration of the Term Period for any reason, except for that defined in 33.74.13 (B) below, the Customer must pay the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification to the Telephone Company 90 days prior to the desired date of termination. This notification must include the date upon which the Customer will terminate the Contract Offer.

- (A) If the Customer fails to meet any of the eligibility criteria in Section 33.74.2, or fails to meet any of the terms and conditions in Contract Offer No. 74, then the Telephone Company shall provide the Customer with written notification of such non-compliance, and the Customer will have sixty (60) days to return to compliance. If the Customer does not return to compliance within such time period, the Customer will be deemed to have terminated its participation in Contract Offer No. 74, and termination liability charges will apply as stated below, and will be payable within sixty (60) days from the time the contract is deemed terminated.

(B) If the Telephone Company and its affiliated telephone companies providing service pursuant to the contract offers described in Section 33.74.2(C) fail, in the aggregate, to maintain a Network Availability cumulative annual target of 90 percent for all Contributory services for twelve consecutive months, the Customer will have the option to notify the Telephone Company of the Customer's intent to terminate this Contract Offer. The Customer must provide the Telephone Company with ninety (90) days notice of the Customer's intent to invoke this escape clause and return its services to standard special access services. The Telephone Company will have sixty (60) days, from the date that Customer notice is received, to rectify the service problems or the Customer will be allowed to terminate this offering without incurring any termination liability on the services moved to standard Special Access services. If the Telephone Company and its affiliated telephone companies meet the Network Availability targets within sixty (60) days, the Customer will continue to purchase services under this Contract Offer.

The following occurrences will not be included in the measurements described in the calculation of Network Availability:

- (1) In the case of labor disputes, governmental orders, civil commotions, or criminal actions taken against the Telephone Company or its affiliated telephone companies, the Telephone Company and its affiliated telephone companies will be excused for the duration of these events.
- (2) In the case of actions outside of the Telephone Company or its affiliated telephone companies' reasonable control (e.g., catastrophic weather conditions) that have a severe impact on the Telephone Company or its affiliated telephone companies' ability to provision and repair service, the Telephone Company and its affiliated telephone companies will be excused, for the duration of the situation, from the performance measures set forth herein. Any such temporary exemption will apply only to the dispatch area(s) directly affected by the situation, and the Telephone Company and its affiliated telephone companies will return to the levels of performance required hereunder as promptly as is reasonably practicable. To the extent additional dispatch areas are impacted by such a situation, the Telephone Company and its affiliated telephone companies will give prompt notice to the Customer of the scope and nature of such impact so the parties can determine whether additional temporary exemptions from the applicable performance measures are appropriate.
- (3) Performance shall be excused for the duration of any interruptions caused by the negligence of the Customer, the Customer's end-user, or other third parties not affiliated with the Telephone Company or its affiliated telephone companies.

Termination of Contract during:

Contract Year 1 - Any credits received under this Contract Offer plus 25% of TRC for remaining months of Term Period

Contract Year 2 - Last 6 months of credit received under this Contract Offer plus 25% of TRC for remaining months of Term Period.

Contract Year 3 - Last 6 months of credit received under this Contract Offer plus 10% of total TRC for Contract Year 3.

Example:

The Customer's 2006 TRC is \$90M. The Customer terminates the contract on April 31, 2006. The Customer has 20 months remaining on the Term Period and has received \$6M in credits under this Contract Offer in the 6 months prior to termination. The customer will owe \$43.4M in termination liability
