

ACCESS SERVICE

3. Carrier Common Line Access Service

The Telephone Company will provide Carrier Common Line Access Service (Carrier Common Line Access) to customers in conjunction with Switched Access Service provided in Section 6 of this tariff.

3.1 General Description

Carrier Common Line Access provides for the use of end users' Telephone Company provided common lines by customers for access to such end users to furnish Interstate Communications. The rate elements included in Carrier Common Line Access are the Multiline Business Primary Interexchange Carrier Charge (PICC), the Carrier Common Line Charge (CCL) and the Special Access Surcharge. (C)

The Multiline Business PICC is a flat monthly charge that applies for each end user's Multiline Business common line. The Multiline Business PICC applies on a per presubscribed line basis. The individual rate elements, types of lines, and specific rate applications are further described in 3.5 and 3.8, following. (C)

The CCL is a usage sensitive element that applies to switched access minutes of use as either a premium or transitional rate. The application of premium and transitional rates for a specific customer depends upon the type of service and the availability of equal access capabilities in the end office to which the service is provided. The rules for applying CCL rates are provided in 3.8, following. (C)

The Special Access Surcharge, as set forth in 7.4.2(E) following, will apply to interstate special access service provided by the Telephone Company to a customer, in accordance with regulations as set forth in 7.4.2 following.

Rates contained in this transmittal are subject to subsequent adjustment, effective retrospectively back to the transmittal's original effective date, in the event the Commission or a court subsequently authorizes Ameritech to correct its rates pursuant to pending motions, or petitions for reconsideration or waiver (and including, but not limited to, any Application for Review of the letter from Lawrence E. Strickling, Chief, Common Carrier Bureau, FCC, to Dale Robertson, SBC, dated May 18, 1999 which may be filed with the Commission), or in the event of any other adjustment pursuant to an order of the Commission or a court.

ACCESS SERVICE**3. Carrier Common Line Access Service****3.2 Limitations****3.2.1 Exclusions**

Neither a telephone number nor detail billing are provided with Carrier Common Line Access. Additionally, directory listings and intercept arrangements are not included in the rates and charges for Carrier Common Line Access.

3.2.2 Access Groups

All line side connections provided in the same access group will be limited to the same features and operating characteristics.

All trunk side connections provided in the same access group will be limited to the same features and operating characteristics.

3.2.3 Dedicated Access Lines

Where Switched Access Services are provided in conjunction with Special Access Services at Telephone Company Designated WATS Serving Offices for the provision of WATS or WATS-type Services, Switched Access Service minutes which are carried on that end of the service, (i.e., originating minutes for outward WATS and WATS-type services and terminating minutes for inward WATS and WATS-type services) shall not be assessed Carrier Common Line Access per minute charges with the following exception. Carrier Common Line Access per minute charges shall apply when Feature Group A switched access is ordered from a non equal access telephone company office that does not have measurement capabilities and the assumed average access minutes, as set forth in 6.7.7 are used.

ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.3 Undertaking of the Telephone Company

3.3.1 Provision of Service

Where the customer is provided Switched Access Service under other sections of this tariff, the Telephone Company will provide the use of Telephone Company common lines by a customer for access to end users at rates and charges as set forth in 3.9 following.

3.3.2 Interstate and Intrastate Use

The Switched Access Service provided by the Telephone Company includes the Switched Access Service provided for both interstate and intrastate communications. The Carrier Common Line Access rates and charges as set forth in 3.9 following apply to interstate Switched Access Service access minutes in accordance with the rate regulations as set forth in 3.8.4 following (Percent Interstate Use - PIU).

C

3.4 Obligations of the Customer

3.4.1 Switched Access Service Requirements

The Switched Access Service associated with Carrier Common Line Access shall be ordered by the customer under other sections of this tariff.

3.4.2 Supervision

The customer facilities at the premises of the ordering customer shall provide the necessary on-hook and off-hook supervision.

Effective: March 19, 1997

ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.5 Description of the Primary Interexchange Carrier Charge

A Multiline Business Primary Interexchange Carrier Charge (PICC) applies for each end user's Multiline Business common line. (C)
(C)

3.5.1 Assessment of the Multiline Business PICC (C)

For Multiline Business end user lines which have a Presubscribed Interexchange Carrier (PIC), as described in Section 4.2, the Multiline Business PICC applies to the selected IC on a per presubscribed line basis. This charge also applies when a telecommunications carrier has purchased local exchange service for resale. (C)
(C)

(D)
(D)

When an end user's line has two PICs, one for interLATA calls and one for intraLATA calls, the Multiline Business PICC is billed to the interLATA presubscribed carrier. (C)

When an interexchange carrier is reselling MTS and/or MTS-type service(s), the reseller will be billed the Multiline Business PICC, unless other arrangements have been made. This is described further in 3.7, Resold Access Services and 3.8, Rate Regulations. (C)

If the Multiline Business end user line is not presubscribed to a primary interexchange carrier, the Multiline Business PICC will be assessed directly to the end user. If the local exchange service is provided on a resold basis by a telecommunications carrier other than the Telephone Company, and the end user has not chosen a presubscribed interexchange carrier, the reseller will be assessed the Multiline Business PICC. (C)
(C)

Upon timely notification (at least 15 days before the date on which the Telephone Company determines the IC's PICC liability for a given month) from an IC to the Telephone Company that the IC has terminated long distance service to an end user for nonpayment or other violation of the IC's tariff, the Telephone Company will cease billing the Multiline Business PICC to the IC with respect to that end user's lines. The Telephone Company will bill the Multiline Business PICC directly to the end user until such time as the end user selects a new presubscribed IC. The IC will also furnish the Telephone Company with a copy of the end user notification or updated Customer Account Record Exchange (CARE) records for terminated end users which indicate the date of end user notification and reason for termination. (C)
(C)

ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.5 Description of the Primary Interexchange Carrier Charge (Cont'd)

3.5.2 Types of Lines

The Multiline Business PICC is assessed based on the number and type of lines that are presubscribed to an individual carrier. The types of lines for which Multiline Business PICC applies corresponds to the types of lines for which End User Common Line charges (described in Section 4) apply. The types of lines for which Multiline Business PICC applies are:

Multi-Line Business
Centrex

Primary Rate Interface ISDN (ISDN-PRI)

Regulations concerning the application of the Multiline Business PICC are contained in 3.8, following.

ACCESS SERVICE**3. Carrier Common Line Access Service (Cont'd)****3.6 Determination of Usage Subject to Carrier Common Line Access Charges**

T

Except as set forth herein, all Switched Access Service provided to the customer will be subject to Carrier Common Line Access charges.

3.6.1 Determination of Jurisdiction

T

When the customer reports interstate and intrastate use of Switched Access Service, the associated Carrier Common Line Access used by the customer for interstate will be determined as set forth in 3.8.5 following (Percent Interstate Use - PIU).

3.6.2 Cases Involving Usage Recording By the Customer

T

Where Feature Group C end office switching is provided without Telephone Company recording and the customer records minutes of use used to determine Carrier Common Line Access charges (i.e., Feature Group C operator and calls such as pay telephone sent-paid, operator-DDD, operator-person, collect, credit-card, third number and/or other like calls), the customer shall furnish such minutes of use detail to the Telephone Company in a timely manner. If the customer does not furnish the data, the customer shall identify all Switched Access Services which could carry such calls in order for the Telephone Company to accumulate the minutes of use through the use of special Telephone Company measuring and recording equipment.

3.6.3 Local Exchange Access and Enhanced Services Exemption

T

When access to the local exchange is required to provide a customer service (e.g., MTS/WATS-type, telex, Data, etc.) that uses a resold private line service, Switched Access Service Rates and Regulations, as set forth in Section 6 following will apply, except when such access to the local exchange is required for the provision of an enhanced service. Carrier Common Line Access rates and charges as set forth in 3.9 following apply in accordance with the resale rate regulations as set forth in 3.7.4 following.

T

(TR1135)

Issued: November 26, 1997

Effective: January 1, 1998

ACCESS SERVICE**3. Carrier Common Line Access Service (Cont'd)****3.6 Determination of Usage Subject to Carrier Common Line Access Charges (Cont'd)** T**3.6.4 Switched Access Service Provided in Conjunction with a Cellular Carrier or a Radio Common Carrier** T

For Switched Access Service provided in conjunction with public mobile service to a customer subject to Switched Access charges, where Telephone Company common line facilities are not used, Carrier Common Line charges do not apply.

3.6.5 Switched Access Dedicated Network Access Link T

For Switched Access Dedicated Network Access Links, Carrier Common Line charges do not apply.

3.7 Resold Access Services T**3.7.1 Scope** T

Where the customer is reselling MTS and/or MTS-type service(s) on which the Carrier Common Line and Switched Access charges have been assessed, the customer may, at the option of the customer, obtain Feature Group A, Feature Group B or Feature Group D Switched Access Service under this tariff as set forth in Section 6 following for originating and/or terminating access in the local exchange. Such access group arrangements, whether single lines or trunks or multiline hunt groups or trunk groups, will have Carrier Common Line Access charges applied as set forth in 3.9 following. Rate regulations for the Primary Interexchange Carrier Charge (PICC) and the Carrier Common Line (CCL) charge are described in 3.8. In addition, the CCL will apply in accordance with the resale rate regulations set forth in 3.7.4 following. For purposes of administering this provision:

Resold interstate terminating MTS and MTS-type service(s) shall include collect calls, third number calls and credit card calls where the reseller pays the underlying carrier's service charges; and shall not include intrastate minutes of use.

Resold interstate originating MTS and MTS-type service(s) shall not include collect, third number, credit card or intrastate minutes of use.

Effective: January 1, 1998

ACCESS SERVICE**3. Carrier Common Line Access Service (cont'd)**

T

3.7 Resold Access Services (cont'd)

T

3.7.2 Customer Obligations Concerning the Resale of MTS and MTS-type Services

When the customer is reselling MTS and/or MTS-type service as set forth in 3.7.1 preceding, the customer will be charged Carrier Common Line Access charges in accordance with the resale rate regulations as set forth in 3.7.4 following if the customer or the provider of the MTS service furnishes documentation of the MTS usage and/or the customer furnishes documentation of the MTS-type usage. Such documentation supplied by the customer shall be supplied each month and shall identify the involved resold MTS and/or MTS-type services.

When the customer is reselling MTS and/or MTS-type service and is obtaining access under this tariff, the customer will be assessed the PICC on a per presubscribed line basis. At the request of the reseller, with the concurrence of the provider of the MTS service, the PICC charges will be billed to the MTS provider. Both the reseller and the provider must furnish the Telephone Company with letters of authorization accepting such a billing arrangement and the provision of carrier data included in the bill detail.

T

The monthly period used to determine the minutes of use for resold MTS and/or MTS-type service(s) shall be the most recent monthly period for which the customer has received a bill for such resold service(s). This information shall be delivered to the Telephone Company, at a location specified by the Telephone Company, no later than 15 days after the bill date shown on the resold MTS and/or MTS-type service bill. If the required information is not received by the Telephone Company, the previously reported information, as described preceding, will be used for the next two months. For any subsequent month, no allocation or credit will be made until the required documentation is delivered to the Telephone Company by the customer.

(TR1177)

Issued: November 2, 1998

Effective: November 17, 1998

ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.7 Resold Access Services (Cont'd)

T

3.7.3 Resale Documentation Provided By the Customer

T

When the customer utilizes Switched Access Service as set forth in 3.7.2 preceding, the Telephone Company may request a certified copy of the customer's resold MTS or MTS-type usage billing from either the customer or the provider of the MTS or MTS-type Service. Requests for billing will relate back no more than 12 months prior to the current billing period.

T

3.7.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services

T

When the customer is provided an access group to be used in conjunction with the resale of MTS and/or MTS-type services as set forth in 3.7.1 preceding, subject to the limitations as set forth in 3.2 preceding and the billing entity receives the usage information required as set forth in 3.7.2 preceding to calculate the adjustment of Carrier Common Line Access charges, the customer will be billed as set forth in (D), (E) or (F) following, depending upon, respectively, whether the usage is from non equal access offices, equal access offices or a combination of the two.

T

T

(A) Apportionment and Adjustment of Resold Minutes of Use

When the customer is provided with more than one access group in a LATA in association with the resale of MTS and/or MTS-type services, the resold minutes of use will be apportioned as follows:

(1) Originating Services

The Telephone Company will apportion the resold originating MTS and/or MTS-type services and originating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the originating usage for each access group to the total originating usage for all access groups in the LATA. For purposes of administering this provision:

3.7.4 Rate Regulations Concerning the Resale of MTS and MTS-type
Services (Cont'd) T(A) Apportionment and Adjustment of Resold Minutes of Use
(Cont'd)

(1) Originating Services (Cont'd)

Resold originating MTS and/or MTS-type services minutes shall be only those attributable to interstate originating MTS and/or MTS-type minutes and shall not include collect, third number, credit card or intrastate minutes of use.

The resale credit adjustment shall apply for resold originating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

(2) Terminating Services

The Telephone Company will apportion the resold terminating MTS and/or MTS-type services and terminating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the terminating usage for each access group to the total terminating usage for all access groups in the LATA. For purposes of administering this provision:

Resold terminating MTS and/or MTS-type services minutes shall be only those attributable to interstate terminating MTS/MTS-type (i.e., collect calls, third number calls, and credit card calls) and shall not include intrastate minutes of use or MTS/MTS-type minutes of use paid for by another party.

The resale credit adjustment shall apply for resold terminating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

(C) Direct and Indirect Connections

Each of the access group arrangements used by the customer in association with the resold MTS and/or MTS-type services must be connected either directly or indirectly to the customer designated premises at which the resold MTS and/or MTS-type services are terminated. Direct connections are those arrangements where the access groups and resold MTS and/or MTS-type services are terminated at the same customer designated premises.

Indirect originating connections are those arrangements where the access groups and the resold originating MTS and/or MTS-type services are physically located at different customer designated premises in the same exchange. Such different customer designated premises are connected by facilities that permit a call to flow from access groups to resold MTS and/or MTS-type services.

Indirect terminating connections are those arrangements where the access groups and resold terminating MTS and/or MTS-type services are physically located at different customer designated premises in the same exchange. Such different customer designated premises are connected by facilities that permit a call to flow from resold terminating MTS and/or MTS-type services to access groups.

(D)
|
(D)

3.8.1 Rate Regulations Concerning Primary Interexchange Carrier Charge

The Primary Interexchange Carrier Charge Multiline Business (PICC) is a flat monthly charge that applies for each Multiline Business end user's common line. The PICC applies on a per presubscribed line basis. If the end user line is not presubscribed to an Interexchange Carrier (IC), the Multiline Business PICC will be assessed directly to the end user. When an end user's line has two PICs, one for interLATA and one for intraLATA calls, the Multiline Business PICC is billed to the interLATA presubscribed line. Exceptions will be discussed below.

(C)
(C)
(C)
(C)
(D)
(D)

A snapshot of all end user lines will be taken once per month to determine the presubscribed carrier. The number of lines per carrier will be accumulated from this snapshot by state, LATA, end office and end user line type. If an IC has more than one Carrier Identification Code (CIC), data will also be summarized by CIC.

The Multiline Business PICC is assessed based on the number and type of lines that are presubscribed to an individual carrier. The types of lines for which Multiline Business PICC applies corresponds to the types of lines for which End User Common Line charges (described in Section 4) apply. The types of lines for which Multiline Business PICC applies are:

3.8 Rate Regulations (Cont'd)

3.8.1 Rate Regulations Concerning Primary Interexchange Carrier Charge (Cont'd)

(C) Primary Rate Interface - ISDN PICC

(T)

Primary Rate Interface - ISDN (ISDN-PRI) is provided with up to twenty-three trunks per ISDN-PRI. Each of the trunks in an ISDN-PRI service may be presubscribed to an IC, or may be provided without a presubscribed carrier. An ISDN-PRI service may include trunks that are presubscribed to multiple carriers, or a combination of presubscribed and non-presubscribed trunks.

The PICC for ISDN-PRI will be calculated based on the Multi-Line Business PICC rate, multiplied by five and then divided by the trunks per service. For trunks that are presubscribed to an interexchange carrier (IC), the ISDN-PRI PICC will be charged to the presubscribed IC for each trunk. If a trunk is not presubscribed to an IC, the end user will be billed the PICC for that trunk.

(D) Exceptions to General Rate Application

(T)

If the end user Multiline Business line does not have a presubscribed interexchange carrier, the Multiline Business PICC will be assessed directly to the end user. If the local exchange service is provided on a resold basis by a telecommunications carrier other than the Telephone Company, the reseller will be assessed the Multiline Business PICC for a non-PIC situation.

(C)

(C)

(C)

Upon timely notification (at least 15 days before the date on which the Telephone Company determines the IC's PICC liability for a given month) from an IC to the Telephone Company that the IC has terminated long distance service to an end user for nonpayment or other violation of the IC's tariff, the Telephone Company will cease billing the PICC to the IC with respect to that end user's lines. The Telephone Company will bill the PICC directly to the end user until such time as the end user selects a new presubscribed IC. The IC will also furnish the Telephone Company with a copy of the end user notification or updated Customer Account Record Exchange (CARE) records for terminated end users which indicate the date of end user notification and reason for termination.

If the end user line is presubscribed to a carrier that is reselling MTS and/or MTS-like service (access reseller), the PICC may be billed to one of its MTS service providers if both the reseller and the provider have furnished the Telephone Company with a letter of authorization. In this letter the reseller will accept such a billing and with this arrangement, the reseller must choose only one of its providers per state to be billed their PICC charges and will permit the provision to the provider of bill detail data necessary to verify the bill.

ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.8 Rate Regulations (Cont'd)

3.8.1 Rate Regulations Concerning Primary Interexchange Carrier Charge (Cont'd)

(D) Exceptions to General Rate Application (Cont'd) (T)

Terms and conditions relating to Multiline Business PICC described above shall apply to telecommunications services provided by carriers which purchase local exchange service for resale. Multiline Business PICC charges will apply, based on the classification of the ultimate end user. (C)

3.8.2 Billing of Usage Charges

Carrier Common Line charges will be billed to each Switched Access Service provided under this tariff in accordance with the regulations as set forth in 3.8.5 following (Determination of Premium and Non-Premium Charges) except as set forth in 3.7.4 preceding (Resale) and 3.8.5 following (Percent Interstate Use - PIU).

3.8.3 Measuring and Recording of Call Detail

When access minutes are used to determine Carrier Common Line charges, they will be accumulated using call detail recorded by Telephone Company equipment except as set forth in 3.8.4 following (Unmeasured FGA Usage) and Feature Group C operator and automated operator services systems call detail such as pay telephone sent-paid, operator-DDD, operator-person, collect, credit-card, third number and/or other like calls recorded by the customer. The Telephone Company measuring and recording equipment, except as set forth in 3.8.4 following (Unmeasured FGA Usage), will be associated with end office or local tandem switching equipment and will record each originating and terminating access minute where answer supervision is received. The accumulated access minutes will be summed on a line by line basis, by line group or by end office, whichever type of account is used by the Telephone Company, for each customer and then rounded to the nearest minute.

ACCESS SERVICE**3. Carrier Common Line Access Service (Cont'd)****3.8 Rate Regulations (Cont'd)****3.8.4 Unmeasured Feature Group A Usage** T

When Carrier Common Line Access is provided in association with Feature Group A Switched Access Service in Telephone Company offices that are not equipped for measurement capabilities, an assumed average interstate access minutes will be used to determine Carrier Common Line Access charges. These assumed access minutes are as set forth in 6.7.7.

3.8.5 Percent Interstate Use (PIU) T

When the customer reports interstate and intrastate use of in-service Switched Access Service, Carrier Common Line charges will be billed only to interstate Switched Access Service access minutes based on the data reported by the customer as set forth in 2.3.10 preceding (Jurisdictional Report Requirements), except where the Telephone Company is billing according to actuals by jurisdiction. Interstate Switched Access Service access minutes will, after adjustment as set forth in 3.6.4 preceding (Resale), when necessary, be used to determine Carrier Common Line Charges as set forth in 3.8.5 following.

Issued: November 26, 1997

Effective: January 1, 1998

ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.8 Rate Regulations (Cont'd)

3.8.6 Determination of Premium and Non-Premium Charges

T

After the adjustments as set forth in 3.7.5 and 3.8.5 preceding have been applied, when necessary, to Switched Access Service access minutes, charges for the involved customer account will be determined as follows:

T

(A) Access minutes for all premium rated Switched Access Service subject to Carrier Common Line charges will be multiplied by the Premium Access per minute rate as set forth in 3.9 following.

(B) Access minutes for all non-premium rated Switched Access Service subject to Carrier Common Line charges will be multiplied by the Non-Premium Access per minute rate as set forth in 3.9 following.

(C) Carrier Common Line charges shall not be reduced as set forth in 3.7.1 preceding unless Switched Access Charges, as set forth in Section 6 following are applied to the customer's Switched Access Services.

T

(D) Terminating Premium Access or Non-Premium Access, per minute charge(s) apply to:

- all terminating access minutes of use;
- all originating access minutes of use associated with FGA Access Services where the off-hook supervisory signaling is forwarded by the customer's equipment when the called party answers;

Effective: January 1, 1998

ACCESS SERVICE

3. Carrier Common Line Access Service (cont'd)

3.8 Rate Regulations (cont'd)

3.8.6 Determination of Premium and Non-Premium Charges (cont'd)

- D. Terminating Premium Access or Non-Premium Access, per minute charges(s) apply to: (cont'd)
- all originating access minutes of use associated with calls placed to 500, 700 900 and toll free numbers, less those originating access minutes of use associated with calls placed to 500, 700, 900 and toll free numbers for which the customer furnishes for each month a report of either the number of calls or minutes or a Percent Common Line (PCL) report of the percent of calls or minutes that terminate in a Switched Access Service that is assessed Carrier Common Line charges.

If the customer does not provide a Percent Common Line report, the percent of calls or minutes that terminate to a common line will be assumed to be 100. When a customer provides a report, the percent will continue to be used until it is superseded by a subsequent report. When the customer determines that any currently effective PCL is no longer accurate, the customer shall report a revised percent. The revised PCL will become effective on the first day of the next monthly billing period which begins at least 15 business days after the day on which the customer reports the revised percent to the Telephone Company.

When the customer makes this report available to the Telephone Company in advance of billing, these minutes of use will be charged on the current bill as originating minutes of use as set forth in (E) following. If a billing dispute arises concerning the customer provided report, the Telephone Company will request the customer to provide the data the customer used to develop the report. The Telephone Company will not request such data more than once a year. The customer shall supply the data within 30 days of the Telephone Company request.

When this report is not available to the Telephone Company until after billing, it shall be used by the Telephone Company to calculate and post a credit to the customer's account. The credit shall be posted to the customer's account within 30 days of receipt of the report. The credit shall be calculated by multiplying the number of access minutes of use, for which a credit is determined to be applicable, times the difference between the terminating and originating Carrier Common Line charges in effect when the calls were completed.
