

ACCESS SERVICES

4. End User Access Service and Presubscription

4.1 End User Access Service

The Telephone Company will provide End User Access Service (End User Access) to end users who obtain local exchange service from the Telephone Company under its general and/or local exchange tariffs.

4.1.1 General Description

End User Access provides for the use of an End User Common Line (EUCL).

4.1.2 Limitations

- (A) A telephone number is not provided with End User Access.
- (B) Detail billing is not provided with End User Access.
- (C) Directory listings are not included with End User Access.
- (D) Intercept arrangements are not included with End User Access.

4.1.3 Undertaking of the Telephone Company

The Telephone Company will provide use of an End User Access at rates and charges as set forth in 4.1.7 following, as follows:

- (A) Use of an EUCL by an end user in connection with interstate Access Services provided under this tariff. Such use will be provided when the end user obtains local exchange service.
- (B) The Telephone Company will be responsible for contacts and arrangements with customers for the billing of End User Access charges.

4.1.4 Obligations of the End User

- (A) When the end user is a Radio Common Carrier (RCC), or a Maritime Radio Common Carrier (MRCC), it shall designate whether the local exchange services it is provided by the Telephone Company are used as access lines for its services or used as administrative lines.

4.1 End User Access Service (Cont'd)

4.1.5 Payment Arrangements and Credit Allowances

(A) Minimum Period

The minimum period for which EUCL is provided to an end user and for which charges are applicable is the same as that in the general and/or local exchange tariffs for the associated local exchange service. (T)

(B) Cancellation of Application

End User Access Service is canceled when the order for the associated local telephone exchange service is canceled. No cancellation charges apply. (T)

(C) Changes to Orders

When changes are made to orders for the local exchange service associated with End User Access Service, any necessary changes will be made for End User Access. No charges will apply. (T)

(D) Allowance for Interruptions

When there is an interruption to an EUCL, requested End User Access Service credit allowances for interruptions will be provided as set forth for credit allowance for interruptions in 2.4.4 preceding. (T)

(E) Temporary Suspension of Service

When an end user temporarily suspends its local exchange service which is associated with EUCL, one-half of the EUCL per month charge and one-half of the FUSF Charge per month charge will be temporarily suspended for the time period the local exchange service is suspended. (T)

4.1 End User Access Service (Cont'd)

4.1.6 Rate Regulations

Rates are subject to subsequent adjustment, effective retroactively in light of USTA v. FCC, (Case No.97-1469) (slip. Op. May 21, 1999) (D.C. Cir.), or pursuant to pending motions or petitions or any other adjustments pursuant to a Commission or court order.

(A) End User Common Line (EUCL)

- (1) EUCL per month charges will be billed to the end user of the associated Local Exchange Service.
- (2) For each local exchange service provided as remote call forwarding residential service or remote call forwarding business service under the general and/or local exchange service tariffs, End User Access charges do not apply.

For each local exchange service other than local exchange service used for administrative purposes, provided to Radio Common Carriers and/or Maritime Radio Common Carriers as access lines for their services under the general and/or local exchange service tariffs, End User Access charges do not apply.

- (3) For business Centrex CO and Centrex CO-like service lines or trunks and Centrex Dormitory (Residence) Service office lines or trunks installed or on order prior to July 28, 1983, the End User Common Line (EUCL) Centrex CO rate as set forth in 4.1.7 following applies to each line or trunk. For such lines installed on or after July 28, 1983, the EUCL Multiline Business Subscriber rate as set forth in 4.1.7 following applies to each line or trunk.

(C)
(C)
(C)

For Centrex Dormitory (Residence) Service dormitory (residential) lines or trunks, the End User Common Line (EUCL) Primary Residence Subscriber-Individual line or trunk rate as set forth in 4.1.7 following applies to each line or trunk.

Centrex CO is a service that (1) uses a portion of a Telephone Company switch located at the Telephone Company central office to meet the customer's internal needs and serves as the customer's interface with the local and interexchange networks and (2) links the customer's main stations to the Telephone Company switch with subscriber loops.

Centrex CO-like services are services (e.g., Airport Service, ESSEX, Hotel-Motel and Exhibition Hall Service) that operate in a matter that is the same as Centrex CO and (1) are provided using switches located at Telephone Company central offices and (2) links the customer's main stations to the Telephone Company switch with subscriber loops.

For exchange residence service installed prior to January 1, 1998, the Telephone Company will use existing service records to determine which line is primary. Current billing records contain Universal Service Order Codes (USOCs) and Field Identifiers (FIDs) that identify non-primary residence lines. If that data are not available, date of installation will be used. The first line installed at a location will be designated as Primary.

For exchange residence service established after January 1, 1998, if the customer orders more than one line at the same service location, the first line installed will be Primary. Otherwise, if services are ordered at different times, date of installation data for the same location will be used to designate one line as Primary.

- (12) When an end user is provided a local residence exchange service and is a qualifying low income subscriber under paragraph 54.400 (a) (1) of Part 54 of FCC Rules and Regulations, the End User Common Line Residence Subscriber - Individual line or trunk rate in 4.1.7 following shall be waived for a single line to the household's principal residence as specified in paragraph 54.403 (b) of Part 54 of FCC Rules and Regulations.

- (13) When an end user is provided a Basic Rate Interface ISDN (ISDN-BRI) service, to either a residence or business location, the ISDN-BRI End User Common Line rate applies, as set forth in 4.1.7.

ACCESS SERVICE

4. End User Access Service and Presubscription (Cont'd)

4.2 Presubscription

(A) Except as set forth in (B)(5) following, presubscription is a procedure whereby an end user may select and designate to the Telephone Company an IC to access, without dialing an access code, for interLATA interstate calls. This IC is referred to as the end user's primary IC. The presubscription procedure also allows the end user of a Telephone Company pay telephone line to select and designate to the Telephone Company an IC to access, without dialing an access code, for 0+ and 00- interLATA interstate calls. For Telephone Company pay telephones, the IC designated as the primary IC for 0+ and 00- traffic may direct the routing of 1+ interLATA interstate calls either to itself or another carrier, without dialing of an access code, subject to provisions set forth in 4.2(B)(4), following.

(C)

The end user of the account is defined as the person responsible for payment of the account or any person contractually or otherwise lawfully authorized to change telecommunications services and/or represent the end user.

(N)

(N)

(N)

(B) Presubscription of residence and business lines and/or trunks is furnished in accordance with the detailed provisions of the Federal Communications Commission's Allocation Plan as set forth in Appendix B of its Memorandum Opinion and Order in CC Docket 83-1145, Phase I, adopted May 31, 1985 and released June 12, 1985.

In accordance with the Opinion and Order of U.S. District Court of the District of Columbia in United States vs. Western Electric Co., Inc. (C.A. No. 82-0192) issued October 14, 1988, the same detailed provisions also apply to pay telephone presubscription except for the six month prior notification provided to interexchange carriers of end offices converting to equal access on or before April 15, 1989.

Pay telephone presubscription for end offices converted to equal access prior to April 7, 1989, in Illinois, Indiana, Michigan and Wisconsin, and on or before April 15, 1989, in Ohio will follow a transition schedule. After those dates, pay telephone lines will be included in the standard presubscription time line for the end office.

(T)

If an IC's FGD or other type of switched service is discontinued by the Telephone Company, either due to the IC's election or because the IC ceases to provide such service to its end users, the IC is obligated to contact in writing, not less than 15 days' before the scheduled service cut-off, all affected end users and agents who have selected, or been allocated to the disconnecting IC as their primary IC, to inform these end users or agents to select a new IC as their primary IC, and to state that the discontinuing IC will pay the change charge. The Telephone Company will bill a discontinuing IC the Presubscription Charge, as set forth in (C) following for each end user and agent that this IC currently has designated to it.

If end users who were presubscribed to an IC that no longer has FGD service do not select a new IC as their primary carrier before the FGD service is discontinued, the Telephone Company will contact them by letter. The end users will be notified to select a new primary IC. They will be notified that if they do not select a primary IC within thirty days, their line will be changed to no-PIC, and the end user will be assessed the Primary Interexchange Carrier Charge, as described in Section 3. In this case, the PIC Change Charge will be waived. If the Telephone Company does not change an end user's PIC designation to no-PIC on the date specified in the thirty days' notice, nothing contained herein shall preclude the Telephone Company's right to change the end user's PIC to no-PIC without further notice, providing the end user has not made a PIC selection in the interim.

(f) Interexchange Carrier Pays Billing Option

(T)

The Interexchange Carrier Pays (IC Pays) Billing Option is an agreement between the Telephone Company and an Interexchange Carrier (IC) under which the Presubscription (PIC) change charge is assessed to the IC instead of being charged to the end user customer when the Telephone Company changes an end user's primary IC assignment.

The PIC change may be requested via an IC-provided end user or an agent list submitted in the Customer Account Record Exchange (CARE) format (IC Pays – Carrier Initiated) or by the end user customer directly to the Telephone Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the PIC change charge on a case by case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all end user PIC changes to the IC's CIC initiated through the Telephone Company will be redirected to the IC.

The IC submitting the PIC change must sign an IC Pays Billing Option agreement with the Telephone Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user customer will not be assessed the Presubscription change charge for the PIC change. The IC participating in the IC Pays Billing Option will be charged the Presubscription change charge per line or trunk as set forth in Section 4.2 (C) following.

4.3 International Blocking Service

(A) International Blocking Service (IBS) - Description

The International Blocking Service (IBS) is an optional end user service that provides end office blocking of 011+ and 101XXXX011+ dialed calls. Originating 011+ and 101XXXX011+ dialed calls from exchange lines provisioned with the International Blocking Service will be blocked and routed to a recorded announcement. IBS is available to any Call Aggregators' exchange line side or business end user line side services that are subject to either the Single Line Business End User Common Line (EUCL) or Multiline Business EUCL rates. It is also available to Centrex Dormitory Call Aggregator lines. It is provided where facilities permit as specified in the National Exchange Carrier Association Inc., Tariff F.C.C. No. 4.

4.5 Payphone Service Provider Optional Services

(A) Outgoing Only Service

Outgoing Only Service is an optional service which restricts incoming calls from being completed to designated payphones. It is the payphone service provider's responsibility to state this restriction on the instruction card of the phone.

(B) Restricted Coin Access (RCA)

RCA is an optional service that provides for the coin collecting device to be disabled during certain hours designated by the Payphone Service Provider. During those hours, Local calls, Extended Local calls and Message Toll calls must be charged to a third number or a Company calling card, or placed on a collect basis. Calls to public emergency numbers such as 911 are unaffected by RCA. All end users placing calls using a coin during restricted hours will have their coins returned and will hear a recording advising that the phone is not equipped for coin calls during certain hours. It is the payphone service provider's responsibility to state this restriction on the instruction card of the phone.

4.6 Application of Charges to Resold Local Exchange Service

Terms and conditions relating to End User Access Service and Presubscription changes, described in 4.1 and 4.2, preceding, shall apply to telecommunications carriers which purchase local exchange service for resale.

End User Common Line charges will apply, based on the classification of the ultimate end user as either Residence or Business.

Presubscription change charges for residence and business lines or trunks will also apply to resellers of local exchange service, including the reduced rate for additional lines changed in a single request.

4.7 Service Provider Number Portability Service (SPNP) Monthly Charge

Service Provider Number Portability Service (SPNP) is an arrangement provided by Ameritech to Telecommunications Carriers which permits an end user customer, that switches subscription of local exchange service from Ameritech to another Telecommunications Carrier, to retain for their use the existing Ameritech assigned telephone numbers, provided that the end user customer remains within the same Ameritech serving wire center, rate center or rate district, whichever is smaller within the given state boundary.

SPNP provides for the completion of all calls to ported telephone numbers, as described above, regardless of where the call originates.

The SPNP Monthly Charge is being introduced pursuant to the Commission's Third Report and Order in CC Docket No. 95-116, Released May 12, 1998. The SPNP Monthly Charge will be assessed to Ameritech's end user customers, including its end user customers of line-side access services (i.e., FG A). The charge will apply to end user customers in the

Detroit	Milwaukee	Grand Rapids	Toledo
Cleveland	Akron	Youngstown	Cincinnati
Columbus	Gary	Fort Wayne	Louisville

Metropolitan Statistical Areas (MSAs) and end user customers outside the listed MSAs served by switches where long term number portability has been implemented. The SPNP Monthly Charge will not be applied to end users who participate in the Lifeline Assistance Program. The SPNP Monthly Charge will be applied to resellers of Ameritech's local exchange services and to purchasers of its switching ports as unbundled network elements under Section 251 of the Telecommunications Act. The SPNP Monthly Charge will also be applied to Coin customers. C
