22.20.5 Current Annual Revenue Commitment

Under Contract Offer No.20, Customer will commit to maintain a Current Annual Revenue Commitment (CARC). The CARC will be established using either the Customer's current MVP MARC or an Annual Revenue Commitment calculated as outlined below in Section 22.20.5(A), whichever is greater. The CARC will be established as soon as the Telephone Company receives the Letter Of Authorization from the customer.

(A) Determining the Annual Revenue Commitment

The Customer's Annual Revenue Commitment is calculated based on the total of the previous three (3) months recurring billing for all MVP qualified access services prior to any MVP discounts (as listed in F.C.C. 2, Section 19.2), multiplied by four (4). The Annual Revenue Commitment is calculated as follows:

Previous Three (3) Months Recurring Billing X 4 = Annual Revenue Commitment

(B) The CARC will not change during the contract Term Period.

(C) If the Customer fails to achieve the CARC on either of the contract anniversary dates (December 31, 2004 or December 31, 2005), and fails to remit the annual projected gap payment, the Customer will be deemed to have terminated its participation in Contract Offer No. 20 and termination liability charges will apply as set forth in Section 22.20.7.

22.20.6 Quarterly True-Up

To ensure that the customer will meet the CARC by the end of year 2004 and 2005, the Telephone Company will review revenues quarterly. In the event that the Customer has an estimated shortfall, the Customer is required to remit Quarterly Gap Payments as described below. Quarterly is defined as consecutive three (3) month periods commencing January 1, 2004. The process of remitting payments to eliminate the Annual Projected Gap is referred to as the True-Up process.

The Telephone Company will calculate the Customer's Annual Projected Gap (if any) on a quarterly basis. The Annual Projected Gap is the CARC, less any annual projected MVP discounts, less actual annualized revenues. Actual annualized revenue is the Customer's actual billed amount to date, annualized to determine end of year estimated revenues. Actual annualized revenues will include any previous quarterly gap payment that the Customer has made. For this calculation, the actual annualized revenues are calculated after discounts from this Contract Offer No. 20, and any other applicable credits or discounts (i.e., MVP) have been applied.

Example A: Annual Projected Gap calculation at end of 1st quarter

CARC	= $12,000,000
Less projected MVP discounts	= $ 2,000,000
Sub total	= $10,000,000
Less actual quarterly revenue ($1.5M) X 4 (annualized)	= $ 6,000,000
Annual Projected Gap	= $ 4,000,000

(A) If there is a positive Annual Projected Gap as measured above for the quarter, the Customer agrees to make Quarterly True-Up payments. Quarterly True-Up payments will be calculated using the percentages in section 22.20.6 (B) and will be applied to the Annual Projected Gap to determine the gap payment. See example B in Section 22.20.6.

(B) Quarterly True-up payments will be calculated utilizing the following percentiles:

Quarter	Percent
1st	0%
2nd	25%
3rd	66%
4th	100%

Less actual 6 months revenue ($3.5M) x 2 (annualized):	= $ 7,000,000

Quarter 4

Actual revenue 1st, 2nd, 3rd and 4th Quarter

January	= $ 400,000
February	= $ 500,000
March	= $ 600,000
April	= $ 600,000
May	= $ 700,000
June	= $ 700,000
July	= $ 500,000
August	= $ 600,000
September	= $ 665,038
October	= $ 500,000
November	= $ 550,000
December	= $ 614,962
Total	= $6,930,000

CARC	= $12,000,000
Less projected MVP discounts	= $2,000,000
Sub total	= $10,000,000
Less (12 months actual revenue + 2nd & 3rd Quarter Gap payment):	
$6,930,000 + $750,000 + $1,320,000	= $9,000,000
Annual Projected Gap	= $1,000,000

$1,000,000 x 100% = $1,000,000 Quarterly True-up payment

In the example above at the end of the 4th Quarter the Customer's actual revenue plus the Customer's Quarterly Gap payments, plus projected MVP discounts will equal the CARC.

$6,930,000 + $750,000 + $1,320,000 + $1,000,000 + $2,000,000 = $12,000,000

(C) SBC will provide customer a quarterly gap payment bill (if applicable) within 30 days after the end of the quarter.

(D) If at the end of either contract anniversary date (December 31, 2004 or December 31, 2005) the customer has exceeded their CARC (actual revenue + gap payments) and have made Quarterly Gap Payments, SBC will credit the customers account the amount exceeding the CARC, but not greater than the total gap payments the customer has made. 22.20.7 Termination Liability Charges

If the Customer terminates service before the completion of the term for any reason whatsoever the customer agrees to pay the Telephone Company termination liability charges described below. These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification 60 days prior to the desired date of termination to the Telephone Company.

If the Customer fails to meet any of the eligibility criteria in section 22.20.3 or fails to maintain any of the Terms and Conditions in section 22.20.4, the Customer will be deemed to have terminated its participation in Contract Offer No. 20 and termination liability charges will apply as stated below and will be payable pursuant to F.C.C. No. 2 , Section 2.4.

Customers termination liability shall be equal to:

(A) 100% of all Discounts received under this Contract Offer No. 20 during the six (6) months immediately prior to the date of termination, plus;

(B) 25% of the CARC for each year in the remaining portion of the Term Period.

Any previous gap payments paid by the customer will be forfeited.

Example C:

The Customer signs up for Contract Offer No. 20 on November 1, 2003. The Customer terminates its participation in Contract Offer No. 20 effective September 15, 2004. The termination liability charge that would apply is calculated as follows:

Annual CARC = $12M
Monthly CARC = $12M / 12 months = $1M
Number of months remaining in contract = 15.5
Remaining value of CARC = 15.5 x $1M = $15.5M
25 % of remaining value of CARC = .25 x $15.5M = $3.875M
March 2004 - August 2004 discounts = $500K

Total Termination Liability Charge = $3.875M + $500K = $4.375M

22.27.4 Minimum Annual Revenue Commitment (MARC)

Under Contract Offer No. 27, Customer must maintain a MARC. The MARC will be calculated as outlined below in Section 22.27.4 (A). The MARC for the first year will be established as soon as the Telephone Company receives the Letter Of Authorization from the Customer.

(A) Determining the Minimum Annual Revenue Commitment

The Customer's MARC for Year 1 is calculated based on the total of the previous three (3) months recurring revenue for all Subject Services in three of the SBC Companies: (Ameritech Operating Companies, Southwestern Bell Telephone Company, and Pacific Bell Telephone Company), multiplied by four (4):

(Prior 3 months recurring revenue) x 4 = YEAR 1 MARC

The MARC for years 2 through 5 will be recalculated at each annual contract anniversary date.The MARC for years 2 through 5 will be calculated as follows:

Total of the previous three (3) months recurring revenue for all Subject Services, multiplied by four (4), multiplied by 95%. If the recalculated MARC is greater than the previous year's MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous year's MARC, the previous year's MARC will carryover for the new year.

Example for Year 2 MARC Establishment:

(Prior 3 months recurring revenue) x 4 x 95%

If the Value calculated is greater than the YEAR 1 MARC, then the newly calculated MARC will be used as the YEAR 2 MARC.

If the Value is less than the YEAR 1 MARC, then the YEAR 1 MARC will be used for YEAR 2.

22.28.4 WAMS-VIP Offer Incentive Discounts

Customer will be eligible for the following Incentive Discounts and/or Portability Incentives (collectively "Incentives") under this Contract Offer No. 28 during each of the Term Years:

(A) Incentive Discount Commitment

In order to qualify for the IDCC, IDAC, SONET-ID and Portability Incentives, Customer must maintain the "Incentive Discount Commitment" (IDC):

(1) Establishment of the IDC

(a) For Term Year one (1) the Customer's IDC will equal the Baseline MARC.

(b) For Term Years two (2) through seven (7) the Customer's IDC will be the greater of:

(i) The Achieved Revenue Amount, as defined in Section 22.28.5, from the previous Term Year;

(ii) The IDC, from the previous Term Year; or

(2) Application of Incentive Discount Commitment

If during the Annual True-Up, as defined in Section 22.28.5(A), the Customer's Achieved Revenue Amount meets or exceeds the IDC, the Telephone Company will apply the IDCC, IDAC, SONET-ID and Portability Incentives for the following Term Year, provided the criteria in Sections 22.28.4 (B), (C), (D) and (F) respectively are met. (3) Notwithstanding the above, Incentives shall not be applied unless and until Customer is current in paying (or properly disputing) all invoices submitted for Services in accordance with F.C.C. No. 2, Section 2.

(C) Incentive Discount Achievement Credit for Qualified Access Service (Cont'd)

(1) Application of Incentive Discount Achievement Credit

(a) The Telephone Company will apply the IDAC to the Customer's bill(s) for Qualified Access Services in those Term Years for which the Customer qualifies for the IDAC per Section 22.28.4(A), as follows:

(i) Half of the IDAC will be applied thirty (30) days in arrears from the end of the first quarter of the Term Year, and the remaining half of the IDAC will be applied thirty (30) days in arrears from the end of the second quarter of the Term Year.

(b) The IDAC applied during the first and second quarters of Term Year one (1) shall be based upon IDAC-Level 1.

(c) The IDAC applied during the first and second quarters for Term Years two (2) through seven (7) will be based upon the IDAC-Level attained using the IDC as established in Section 22.28.4(A).

(d) The IDAC corresponding to each IDAC-Level will be credited to the Customer as provided below:

(i) The IDAC corresponding to IDAC-Level 1 will be available to the Customer only once during the Term Period;

(ii) The IDAC corresponding to IDAC-Levels two (2) through seven (7) will each be credited to the Customer only once during the Term Period except when:

(1) The Customer skips an IDAC-Level from one Term Year to the next Term Year; or

(2) The Customer skips IDAC-Level 1 at the end of Term Year one (1).

(iii) If the Customer has skipped one (1) or more IDAC-Levels from one (1) Term Year to the next Term Year, the Customer will be eligible to receive the IDAC corresponding to the higher IDAC-Level more than once, provided that the Achieved Revenue Amount in the following Term Year remains within the IDAC Range of the higher IDAC-Level; (N)

(1) Application of Incentive Discount Achievement Credit (Cont'd)

(d) (Cont'd)

(iv) The number of times the Customer will be eligible for an IDAC corresponding to a given IDAC-Level shall be equal to the initial application of the IDAC plus the number of skipped IDAC-Levels;

(v) The Customer will not be eligible for the IDAC corresponding to a skipped IDAC-Level;

(vi) If the Customer achieves IDAC-Level 7 in any given Term Year, the IDAC corresponding to IDAC-Level 7 will be credited to Customer in any subsequent Term Year in which the Customer qualifies for IDAC-Level 7.

For example, if at the end of Term Year 1, the Customer's Achieved Revenue Amount equaled $43,000,000, the Customer would be eligible for an IDAC commensurate with IDAC-Level 4, skipping IDAC-Levels 1,2 and 3.

If at the end of Term Years 2, 3 and 4, the Customer's Achieved Revenue Amount is between $43,000,000 and $44,676,999, the Customer would be eligible for the IDAC corresponding to IDAC-Level 4 for each of those three Term Years. The Customer would not be eligible for the IDAC corresponding to IDAC-Level 4 in Term Years, 5, 6 or 7.

(e) If the Customer's Achieved Revenue Amount from one Term Year is not sufficient for the Customer to qualify for an IDAC in the following Term Year, the Customer may make a shortfall payment (Shortfall IDAC Payment). The Shortfall IDAC Payment amount would equal the difference between the Achieved Revenue Amount and the minimum value of the IDAC Range for the next IDAC-Level that is still available to the Customer.

(i) The Telephone Company shall notify the Customer within thirty (30) days of the end of the Term Year of any Shortfall IDAC Payment amount for the subsequent Term Year.

(iv) If the Customer does not make the Shortfall IDAC Payment, no IDAC will be applied for the subsequent Term Year.

(D) Incentive Discount for SONET Services

The Customer is eligible for additional Incentive Discounts for SONET Services, "SONET-Incentive Discounts" (SONET-ID), at the end of each Term Year if the Customer's incremental billed, recurring revenues for SONET Services fall within one of the SONET-ID Levels set forth in Table D below. The SONET-ID Level is the amount of SONET billed, recurring revenues in a Term Year above the Baseline SONET MARC ($3,430,000).

Table D

SONET-ID Level	SONET-ID
$0 - $239,999	0%
$240,000 - $479,999	10%
$480,000 - $719-999	11%
$720,000 - $959,999	12%
$960,000 - $1,199,999	13%
$1,200,000 - $1,439,999	14%
$1,440,000 - $1,679,999	15%
$1,680,000 or above	16%

The Telephone Company will apply the SONET-ID in the form of a credit to the Customer's bill(s) for Qualified Access Services sixty (60) days in arrears from the end of the fourth quarter of the Term Year. (N)

Customer has ended a given Term Year of Contract Offer No. 28, and the billed, recurring revenue for SONET Service equals $4,395,000. The SONET-ID for the Term Year is 13%, or $125,450.

$4,395,000 - $3,430,000 = $965,000 (incremental SONET-ID revenue)
$965,000 X 13% = $125,450 (SONET-ID)

(E) Incentive Discount for WinBack Services

If the Customer elects to obtain Qualified Access Service(s) located in MSAs where the Telephone Company has been granted pricing flexibility within the Operating Territory, in place of access service(s) that is provided by a carrier other than the Telephone Company or one of its affiliates, the Customer will receive a one-time credit equal to twenty percent (20%)of the first twelve (12) months billed, recurring revenue for that new Qualified Access Service (WinBack Incentive).

This WinBack Incentive credit will be applied in addition to the Incentives described in Sections 22.28.4(B), (C), (D) and (F).

(1) Eligibility Criteria for WinBack Incentive

(a) The Customer must present reasonable and verifiable information, which includes but is not limited to circuit detail or coordinated move orders, to demonstrate the service being converted is currently being provided by a carrier other than the Telephone Company or its affiliates; and

(b) The new Qualified Access Service(s) ordered must have a minimum term period of twelve (12) months for DS1 and DS3 orders and thirty-six (36) months for SONET services.

(2) Application of WinBack Incentive

(a) The Telephone Company will apply the credit to the Customer's bill(s) for Qualified Access Services that follows the end of the initial twelve (12) month period, thirty (30) days in arrears, as follows:

(i) When the Telephone Company and Customer have identified the start date for the term period of the WinBack Qualified Access Service in a authorization letter, the initial twelve 12-month period will be the twelve (12) month period commencing on that start date; or,

(ii) When the start date for the term period of the WinBack Qualified Access Service is established by the completion of an access service order, the initial twelve (12) month period will be the twelve (12) month period commencing on the day the access service order is completed. (N)

(F) DS1/DS3 Portability Incentive

The Portability Incentive waives termination liability charges that would otherwise be assessed to the Customer for moves of DS1 and DS3 Qualified Access Services.

This Portability Incentive is in addition to the Incentives described in Sections 22.28.4 (B),(C),(D) and (E).

(1) Eligibility Criteria for DS1/DS3 Portability Incentive

The following criteria must be met in order to receive the Portability Incentive:

(a) Customer's DS1s and DS3s must meet the Minimum Period requirements, as established under F.C.C. No. 2., Section 2.4.2, at the previous location;

(b) The term period of the new circuit must be equal to, or greater than, the remaining term of the disconnected circuit; and

(c) The disconnect and new service is within the Operating Territory.

(2) Quarterly Review of Disconnect Access Service Orders

If Customer qualified for the Portability Incentive as set forth in Section 22.28.4(A) but cumulative "disconnect" access service orders exceeded "add" access service orders during the Term Year, as measured on a quarterly basis, the Customer will be assessed termination liability charges on the sum difference between the cumulative disconnect and add access service orders.

22.28 Contract Offer No. 28 – Wireless Advantage Managed Services Value Incentive Plan (WAMS-VIP) Offer (Cont'd)

22.28.5 WAMS-VIP Annual True-Up

(A) An annual true-up calculation is performed after each Term Year ("Annual True-Up") to establish any fourth quarter Incentive credits, adjustments or other payments that apply for the preceding twelve (12) month period, as determined by whether:

(1) Customer maintained its Baseline MARC and Baseline SONET MARC during that Term Year; and,

(2) Customer earned the IDCC and IDAC received during the 1st, 2nd and 3rd quarters of the Term Year ("Applied IDCC" and "Applied IDAC", respectively).

For the purposes of the Annual True-Up calculations, the Customer's billed, recurring revenue for Qualified Access Services during the Term Year will constitute the Customer's "Achieved Revenue Amount". The IDCC and/or IDAC earned using the Achieved Revenue Amount compared to Table B and Table C will constitute the "Earned IDCC" and "Earned IDAC".

(B) Annual True-Up Calculations

(1) Baseline MARC Annual True-Up:

The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the Baseline MARC.

(a) If Customer's Achieved Revenue Amount falls below the Baseline MARC, the Customer may pay the difference between the Baseline MARC and the Achieved Revenue Amount (Shortfall Payment).

(i) The Telephone Company will notify the Customer within thirty (30) days of the end of the Term Year of any Shortfall Payment.

(ii) Customer may make the Shortfall Payment and return the difference between the Applied IDCC and the Earned IDCC, associated with the Baseline MARC, within thirty (30) days after receiving notification from the Telephone Company.

(iii) The following Term Year's IDC and IDCC will be determined as set forth in Section 22.28.4(A) and (B).

(B) Annual True-Up Calculations (Cont'd)

(1) Baseline MARC Annual True-Up: (Cont'd)

Example of Baseline MARC Annual True-Up:

If Customer's Achieved Revenue Amount in Term Year 5 is $30,000,000, the Baseline MARC of $31,968,000 has not been met. Customer may choose to pay the difference of $1,968,000 (31,968,000 - $30,000,000) and repay the difference between the Applied IDCC and the Earned IDCC.

(b) If Customer's Achieved Revenue Amount falls below the Baseline MARC for any given Term Year, and the Customer does not make the Shortfall Payment, this Contract Offer Subscription shall terminate and termination liability charges will apply as described in Section 22.28.8(A).

(2) Baseline SONET MARC Annual True-Up:

The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the Baseline SONET MARC.

(a) If the Customer's Achieved Revenue Amount meets or exceeds the IDC, but the Baseline SONET MARC is not maintained, the Earned IDCC will be reduced ("IDCC Reduction"), as explained in subparagraph (i) through (iii) below.

(i) The IDCC Reduction will be calculated by taking the Baseline SONET MARC less the billed, recurring revenues for SONET Services for the Term Year, and multiplying that amount by ninety-five percent (95%) or (.95).

(ii) The Telephone Company will reduce the amount of the Earned IDCC, to be applied in the fourth quarter, by the IDCC Reduction. If the IDCC Reduction exceeds the value of the fourth quarter IDCC, the Telephone Company will reduce the Applied IDCC in the subsequent Term Year by the remaining amount of the IDCC Reduction.

(2) Baseline SONET MARC Annual True-Up: (Cont'd)

(a) (Cont'd)

(iii) The following Term Year's IDCC will be determined as set forth in Section 22.28.4(B).

Example of Baseline SONET MARC Annual True-Up:

If billed, recurring revenue for SONET Service equals $3,153,000 and the Achieved Revenue Amount equals $42,000,000, the IDCC Reduction would equal (($3,430,000 - $3,153,000)*.95) or $263,150, and the Earned IDCC would be adjusted to $1,225,850 ($1,489,000 - $263,150).

The amount of the fourth quarter IDCC would equal $109,100 ($372,250 – $263,150).

(b) If the Baseline SONET MARC is not maintained by Customer, as a result of SONET rate reductions and/or rate restructures that are directly attributed to actions of the Telephone Company and not attributed to Customer, the IDCC Reduction will be zero (0).

(3) IDCC Annual True-Up:

The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the IDC.

(a) If the Customer's Achieved Revenue Amount meets or exceeds the IDC, the Telephone Company will determine the Earned IDCC and the fourth quarter credit amount. The fourth quarter credit amount will be the difference between the Earned IDCC and the Applied IDCC. The Customer would receive its fourth (4th) quarter payment, as set forth in Section 22.28.4(B)(1)(a)(ii).

(3) IDCC Annual True-Up: (Cont'd)

(b) If the Customer's Achieved Revenue Amount falls below the IDC, the Customer may pay the difference between the Achieved Revenue Amount and the IDC ("Make-Up Payment") or Customer will refund the Applied IDCC to Telephone Company, as detailed below.

(i) The Telephone Company shall notify the Customer within thirty (30) days of the end of the Term Year of any Make-Up Payment.

(ii) Customer shall pay the Make-Up Payment within thirty (30) days after receiving said notification from the Telephone Company.

(iii) The Telephone Company will apply the appropriate IDCC for the fourth quarter of the Term Year within thirty (30) days of receiving the Make-Up Payment. The fourth quarter credit amount will be the difference between the Earned IDCC and the Applied IDCC. The following Term Year's IDCC will be determined as set forth in Section 22.28.4(B).

(iv) If the Customer chooses not to make the Make-Up Payment, the Customer will repay the Applied IDCC. Repayment is due thirty (30) days after notification from the Telephone Company identified in subparagraph (i) above.

Example of IDCC Annual True-Up:

If the Achieved Revenue Amount for Term Year 3 is $43,000,000 and the IDC is $40,000,000 the Earned IDCC would be $1,744,000. The IDCC applied for the 4th quarter would be equal to $1,744,000 less the Applied IDCC received by the Customer for the Term Year or $830,500. (N)

(b) For Term Year one (1), if the Customer's Achieved Revenue Amount exceeds the IDAC Range associated with the Applied IDAC, Telephone Company will issue an additional credit due to Customer equating to the difference between the Earned IDAC and the Applied IDAC. In all cases of assignment or transfer, the written acknowledgment of the Telephone Company is required prior to such assignment or transfer which acknowledgment shall be made within 15 days from the receipt of notification. All regulations and conditions contained in this tariff shall apply to such assignee or transferee; and

the assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly or severally liable with the assignee of transferee for any obligations existing at the time of the assignment or transfer, unless the proposed assignee or transferee demonstrates a lack of credit worthiness under any of the criteria in (a), (b) or (c) below, or if the assignee or transferee or its parent, has commenced or had initiated against it a voluntary receivership or bankruptcy proceeding.

(i) Fair or below in a composite credit appraisal published by Dun and Bradstreet, or;

(ii) High risk in a Paydex score as published by Dun and Bradstreet.

(2) The terms and conditions of the Contract Offer No. 28 shall continue in full force and effect if the Customer merges with, acquires, is acquired by, or sells all or substantially all its stock or assets to any other entity (Transfer). After a Transfer, if the other entity also purchases Qualified Access Service(s) from the Telephone Company, either directly or through any affiliates, the Customer shall not include under the Contract Offer Subscription any of the billed recurring revenue for the Qualified Access Services of the other entity in place as of the date the Transfer is finalized (Transfer Date), except as may be provided below.

Notwithstanding the foregoing, the Customer may choose, at its discretion, one of the options set forth in subsections (i)-(iii) below (Options), within the time period that is between twelve (12) months and twenty-four (24) months after the Transfer Date.

To exercise an Option, the Customer shall send written notice to the Telephone Company within the time period described above stating which Option the Customer selects. The date that the Customer sends that written notice shall be the "Option Exercise Date". None of the Options shall alter in any way the terms or conditions of any contract or tariff pursuant to which the other entity obtains Qualified Access Services from the Telephone Company, including but not limited to any terms or conditions related to termination.

Option (i): The Customer and Telephone Company shall recalculate the Baseline MARC, Baseline SONET MARC, IDC, IDC Ranges, IDCCs, IDACs and IDAC Ranges (Key Numbers) for the period from the Option Exercise Date to the end of the Term Period, to allow for the combined billed, recurring revenues for Qualified Access Services of the Customer and the merged or acquiring company to be covered under the Contract Offer Subscription, provided the following conditions are met:

(1) One Hundred percent (100%) of the total combined billed recurring revenues for Qualified Access Services of Customer and the other entity must be included in the Contract Offer Subscription; (N)

This shall be the "Combined Baseline MARC"; and,

(b) The Baseline SONET MARC will be equal to one hundred percent (100%) of the other entity's billed, recurring revenues for Qualified Access Services that are SONET services for the three (3) months immediately preceding the Option Exercise Date multiplied by four (4) plus $3,430,000. This shall be the "Combined Baseline SONET MARC."

(3) The IDC for the remainder of the then-current Term Year will be adjusted according to the following formula:

The IDC will be equal to one hundred percent (100%) of the other entity's actual billed recurring Qualified Access Services revenues for the three months immediately preceding the Option Exercise Date multiplied by four (4) plus the Customer's current IDC. This shall be the "Combined IDC".

The Option 1 multiplier ("Option 1 Multiplier"), which equals the ratio of the Combined IDC to the Customer's current IDC, will be applied to the minimum and maximum values of the IDC and IDAC Ranges associated with the IDC and IDAC Levels that are still available to the Customer, as defined in Section 22.28.4.

Example:
IDC = $39,900,000
Current IDAC Level = 3
IDAC Range Minimum = $38,681,000
IDAC Range Maximum = $42,548,999

New Entity Revenue = $25,000,000
Combined IDC = $64,900,000 ($39,900,000 plus $25,000,000)
Option 1 Multiplier = 1.63

(5) The IDCCs and IDACs amounts will be adjusted according to the following formula:

The Option 1 Multiplier will be applied to the IDCC and the IDAC Associated with the IDCC and IDAC-Levels which remain available to the Customer in order to determine the Combined IDCC and IDAC Ranges.

Example:

New Entity Revenue = $25,000,000
Combined IDC = $64,900,000 ($39,900,000 plus $25,000,000)
Option 1 Multiplier = 1.63

(6) The Customer must have at least forty-eight (48) months remaining in the Term Period under the Contract Offer Subscription or, if less than forty-eight (48) months are remaining in the Term Period under the Contract Offer Subscription, the Term Period shall be automatically extended so that the terms and conditions of the Contract Offer No. 28 remain in effect for forty-eight (48) months after the Option Exercise Date; and

(B) Sale of Markets

If Customer is required by a regulatory agency to divest any markets, market spectrum or customers ("Divested Market"), in connection with a Transfer, the Customer can request that Key Numbers be recalculated by the Telephone Company. The Customer send the written notice to the Telephone within sixty (60) days of completing a market divestiture. The date the Customer sends that written notice shall be the "Divestiture Notice Date". The Telephone Company will recalculate the Key Numbers as described below:

(1) The Baseline MARC, IDC, IDCC Ranges and IDAC Ranges will be reduced, by either of the following methods, at the Customer's discretion ("Divested Revenue"):

(a) One hundred percent (100%) of the Divested Market's billed, recurring for Qualified Access Services for the three (3) months immediately preceding the notification multiplied by four (4); or

(b) A revenue amount that is less than the amount determined under subparagraph (a) above.

(2) The Baseline SONET MARC will be reduced, by either of the following methods, at the Customer's discretion ("Divested SONET Revenue"):

(a) One hundred percent (100%) of the Divested Market's billed, recurring revenues for Qualified Access Services that are SONET revenues for the three (3) months immediately preceding the notification multiplied by four (4); or

(b) A revenue amount that is less than the amount determined under subparagraph (a) above.

22.28.6 WAMS-VIP Offer Mergers/Acquisitions (Cont'd)

(B) Sale of Markets (Cont'd)

(3) The IDCCs and IDACs will be reduced according to the following steps:

Step 1.

Determine the impact on total revenue by calculating the "Divestiture Percentage". The Divestiture Percentage is the percent change between the Pre-Divest and Post-Divest revenues. The "Pre-Divest Revenue" equals one hundred percent (100%) of the Customer's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the notification multiplied by four (4) or the Baseline MARC, whichever is greater. The "Post-Divest Revenue" equals Pre-Divest Revenue minus the Divested Revenue from (B) (1).

Example:

Pre-Divest Revenue = $40,000,000
Divested Revenue = $2,900,000
Post-Divest Revenue = $37,100,000
($40,000,000 - $2,900,000)

Divestiture Percentage = 7%
(1-($37,100,000/$40,000,000))

Step 2.

Determine the SONET multiplier that results from the divested SONET revenue by the following:

(a) Determine the "Post-Divest SONET Revenue" amount by subtracting the Divested SONET Revenue, as identified in (B) (2) above, from the Pre-Divested Market SONET revenue. The "Pre-Divest SONET Revenue" equals 100% of the Customer's billed, recurring revenues for Qualified Access Services that are SONET services for the three (3) months immediately preceding the notification multiplied by four (4) or the Baseline SONET MARC, whichever is greater. 22.28.6 WAMS-VIP Offer Mergers/Acquisitions (Cont'd)

(B) Sale of Markets (Cont'd)

(3) (Cont'd)

Step 2. (Cont'd)

(a) (Cont'd)

If the Post-Divest SONET Revenue amount meets or exceeds the Baseline SONET MARC ($3,430,000) the SONET multiplier equals 1.0.

Example:
Pre-Divest SONET Revenue =$4,000,000
Divested SONET Revenue = $500,000
Post-Divest SONET Revenue=$3,500,000

(b) If the Post-Divest SONET Revenue amount is less than the Baseline SONET MARC, the ratio of Post-Divest SONET Revenue to Post-Divest Revenue ("Post Divest Ratio"), as identified in Step 1, will be determined.

Example:
Post-Divest Revenue = $37,100,000
Post-Divest SONET Revenue= $3,000,000
Post-Divest Ratio = 8%
($3,000,000 / $37,100,000)

(c) If the Post-Divest Ratio is equal to or greater than 11%, the SONET multiplier equals 1.0.

(d) If the Post-Divest Ratio is below 11%, the ratio of Pre-Divest SONET Revenue, as identified in Step 2 (a), to total Pre-Divest Revenue ("Pre-Divest Ratio"), as identified in Step 1, will be determined.

Example:
Pre-Divest Revenue = $40,000,000
Pre-Divest SONET Revenue= $4,000,000
Pre-Divest Ratio = 10%
($4,000,000/$40,000,000) (N)

22.28.6 WAMS-VIP Offer Mergers/Acquisitions (Cont'd)

(B) Sale of Markets (Cont'd)

(3) (Cont'd)

Step 2. (Cont'd)

(e) A SONET equalizer will be calculated by subtracting the Pre-Divest Ratio from 11% ("SONET Equalizer"). The SONET Equalizer will be added to the Post-Divest Ratio, resulting in a revised Post-Divest Ratio.

Example:
Pre-Divest Ratio = 10%
SONET Equalizer = 1% (11% - 10%)

Post-Divest SONET Ratio = 8%
SONET Equalizer = 1%
Revised Post-Divest Ratio = 9%

(f) The following SONET multipliers will be applied based upon the revised Post-Divest Ratio(s):

(i) 11% or greater, a SONET multiplier of 1.0 will be used;

(ii) Less than 11%, but equal to or greater than 8%, a SONET multiplier of 1.25 will be used;

(iii) Less than 8%, but equal to or greater than 5%, a SONET multiplier of 1.50 will be used; or

(iv) Less than 5%, a SONET multiplier of 2.0 will be used.

(B) Sale of Markets (Cont'd)

(3) (Cont'd)

(f) (Cont'd)

Step 3.

The Divestiture Percentage multiplied by the SONET multiplier will equal the percent reduction in the IDCCs and IDACs which remain available to the customer.

Example:

IDCC-Level equals 6
IDAC-Level equals 3
Divestiture % = 7%
SONET multiplier = 1.25
(assuming a revised Post-Divest Ratio of 9%)

Reduced IDCC = $1,358,713
(1,489,000 – (1,489,000 X (.07 X 1.25)))

Reduced IDAC = $4,447,525
(4,874,000 – (4,874,000 X (.07 X 1.25)))

(4) The Telephone Company will recalculate the Key Numbers within sixty (60) days of the Divestiture Notice Date. The recalculated Key Numbers will become effective once the Divested Market's billed, recurring revenues for Qualified Access Services are no longer being billed to the Customer ("Divestiture Effective Date"). Starting with the remaining quarters of the Term Year as of the Divestiture Effective Date, the recalculated Key Numbers will be used to determine the applicable IDCC and IDAC amounts.

(a) If the Divestiture Effective Date falls within the 1st, 2nd or 3rd quarter of the respective Term Year, the initial credit application of any eligible Reduced IDCC and/or Reduced IDAC will occur thirty (30) days after the Key Numbers are effective or thirty (30) days in arrears of the end of the quarter, whichever is later; or, (N)

22.28.7 WAMS-VIP Cell-Site Performance – Credits

(A) Description

Cell-Site Performance Improvement Credits are available to the Customer based upon the quality of service delivered during the Term Period, as set forth in subparagraph (2) below. The credits will be granted in the event that the Telephone Company's Contract Offer No. 28 service performance level objectives for cell-site DS1 Qualified Access Services are not met.

(1) The DS1 Qualified Access Services cell-site performance level parameters will be based on DS1 Percentage of Network Availability. The DS1 Percent of Network Availability will be calculated by determining the actual hours that the cell-site DS1 circuits are in service during a given month compared to the total expected availability, and then aggregating those total hours over the course of a Term Year.

Example:

If a Customer had 100 circuits in service at the end of January and 110 at the end of February, their total hours of expected availability would be (31 days times 100 circuits, times 24 hours) plus (28 days, times 110 circuits, times 24 hours) or 148,320. This would be the denominator of the network availability equation. (N)

22.28.7 WAMS-VIP Cell-Site Performance – Credits (Cont'd)

(A) Description (Cont'd)

(1) Example: (Cont'd)

The numerator would be the total hours of outage based upon measured tickets reported to the Telephone Company subtracted from the 148,320. If there were 8 reported failures averaging 3.5 hours per outage, the total hours of outage would be equal to twenty-eight (28). The resulting availability equation for those two (2) months will be ((148,320-28)/148,320) or 99.981%. A twelve (12) month aggregation using the same process as noted for two (2) months will be used to determine annual percent availability for a Customer.

(2) Table E below provides cell-site service performance targets, based on DS-1 Percentage of Network Availability, for each Term Year.

Table E

Term Year	% Network Availability
1	99.9588%
2	99.9666%
3	99.9744%
4	99.9822%
5	99.9900%
6	99.9900%
7	99.9900%

(B) At the Annual True-Up, if the Telephone Company annual results fail to meet the performance target, as specified in Table E above, and the Customer has met the Baseline MARC, the Telephone Company will provide credits and services as follows:

(1) The Telephone Company will apply one hundred dollars ($100) in special construction credits for each measured trouble ticket reported to the Telephone Company during the Term Year for cell-site improvements. The special construction credits will be used to improve performance at mutually agreed upon Customer's cell sites that are performing below the DS-1 Percentage of Network Availability as specified in Table E above.

For example: special construction credits can be used to offset the cost of replacing copper with fiber at non-performing cell-sites; and,

(2) The Telephone Company will provide Customer the ability to purchase Automatic Loop Transfer service at 25% discount off the monthly recurring rates described in F.C.C. No. 2, Section 21.5.2 for those cell sites that fail to meet the performance target, as specified in Table E above.

22.28.8 Termination

The Customer's subscription to this Contract Offer No. 28 shall terminate if Customer gives notice to Telephone Company, as set forth in the following paragraph, and as set forth elsewhere in this Contract Offer No. 28.

The termination liability charges described below shall apply if termination occurs because the Customer does not make a Shortfall Payment as described in Section 22.28.5(B)(1) and/or the Customer elects to terminate its subscription to Contract Offer No. 28 for reasons other than described in Section 22.28.6 (A)(6)(Option (ii) and/or Section 22.28.8(B).

If the Customer elects to terminate its Contract Offer Subscription during the Term Period, written notification must be provided to the Telephone Company indicating the Customer's intention to terminate its Contract Offer Subscription. This notification must include the date upon which the Customer wishes to terminate its Contract Offer Subscription.

(A) Termination Liability

Termination liability charges will consist of the sum of the following:

(1) Ten percent (10%) of the Baseline MARC divided by twelve (12) then multiplied by the number of months remaining in the Term Period; plus

(2) Repayment of the IDCC, IDAC and SONET-ID given under Contract Offer No. 28 during the three (3) quarters preceding the termination date. (N)

22.28.8 Termination (Cont'd)

(A) Termination Liability (Cont'd)

Example:

Customer with a Baseline MARC of $31,968,000 and an IDC of $36,000,000 terminates its Contract Offer Subscription after forty-eight (48) months and with thirty-six (36) months remaining in the eighty-four (84) month Term Period, and the Customer received IDCC and IDAC of $553,500 and $2,215,500, respectively, for the previous three quarters before termination. The termination liability charges would be:

(($31,968,000/12) X 10% X 36) + ($553,500 + $2,215,500) = $12,359,400 termination liability charge.

(B) Rate Reductions

If the tariffed rates for the Qualified Access Services are reduced by a cumulative total of twenty percent (20%) from the tariffed rates in effect as of the Effective Date (Initial Tariff Rates), either party may terminate the LOS by providing a sixty (60) day written notice to the other party. Termination liability charges will not apply.

To determine whether the 20% rate reduction has been met or exceeded, the Telephone Company shall perform an analysis within sixty (60) days following the Effective Date that details the Customer's inventory of Qualified Access Services and the Initial Tariff Rates (Initial Rate Analysis.)

Example: DS1-Initial Rate Analysis

Product Category/ Description	State	Zone	Term	Rate	Units	Total Cost

Telephone Company shall also perform a similar exercise within sixty (60) days following each Term Year detailing the Customer's inventory from the Initial Rate Analysis and the end-of-year tariff rates (EOY Rate Analysis). The Customer and Telephone Company will then compare the Initial Rate Analysis to the EOY Rate Analysis to identify the percent change in the total, cumulative rates, if any.

Example: Initial Rate Analysis and EOY Rate Analysis Comparison

22.43.3 Terms and Conditions (Cont'd)

(K) Any disputed billing amounts that have been resolved in favor of the Telephone Company are due and payable as described in Section 2.4 and Section 22.43.3 (J) above.

(L) The Customer must provide, at the time of subscription, all of the Access Customer Name Abbreviation (ACNA), Other Company Name (OCN) and/or Tiecodes (collectively " Company Code(s)") that the Customer designates for inclusion in this Contract Offer. Company Code(s) may be added by the Customer after initial subscription but are subject to revenue and calculation requirements discussed in Section 22.43.4 (B). Customer shall not incur any termination liability under the relevant tariffs as a result of adding any such Company Code(s).

22.43.4 Minimum Annual Revenue Commitment (MARC)

(A) Calculation of the MARC

Under Contract Offer No. 43, the Customer must establish and maintain a MARC. The MARC will be calculated as outlined in this section. The MARC for the first year will be established when the Telephone Company receives the Letter Of Authorization (LOA) from the Customer and the Customer identifies the Company Code(s) that will be included in this Contract Offer pursuant to Section 22.43.3 (L).

The Customer's MARC for Year 1 is calculated based on the total of the previous three (3) months recurring revenue (recalculated to five-year term rates where applicable pursuant to Section 22.43.3 (C) for all Subject Services identified in Section 22.43.3 (B) from the SBC Tariffs identified in Section 22.43.3 (A) in eligible pricing flexibility MSAs, multiplied by four (4):

(Prior 3 months recurring revenue) x 4 = Year 1 MARC. The MARC for years 2 through 5 will be recalculated at each annual contract anniversary date.

Example for Year 1 MARC Establishment:

The Customer's prior 3 months recurring revenue re-rated to 5 year term rates is $5M. The Customer's Year 1 MARC would be $20M. ($5M X 4).

The MARC for years 2 through 5 will be recalculated at each annual contract anniversary date as follows:

Total of the prior three (3) months recurring revenue for all Subject Services multiplied by four (4). If the recalculated MARC is greater than the previous year's MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous year's MARC, the previous year's MARC will carryover for the new year. (N)

22. Pricing Flexibility Contract Offerings (Cont'd) (N)

22.43 Contract Offer No. 43 – Special Access Service Offer (Cont'd)

22.43.4 Minimum Annual Revenue Commitment (MARC) (Cont'd)

(A) Calculation of the MARC (Cont'd)

Example for Year 2 MARC Establishment:

The Customer's prior 3 months recurring revenue is $4M. The Customer's Year 2 MARC is $20M. ($4M X 4 = $16M < $20M). In this example the Customer's prior 3 months recurring revenue multiplied by 4 is less than the Year 1 MARC.

If the Value is less than the Year 1 MARC, then the Year 1 MARC will be used for Year 2.

If the Value calculated is greater than the Year 1 MARC, then the newly calculated MARC will be used as the Year 2 MARC.

If the Telephone Company receives additional pricing flexibility relief for MSAs that are not listed in Section 22.43.2, the Telephone Company will recalculate the MARC to incorporate recurring revenues from those areas and will include those revenues in the calculations discussed in Section 22.43.4 (B).

(B) Calculations to Achieve the MARC

Recurring revenue will be counted to determine whether the Customer achieves its MARC based on the following criteria:

(1) Revenue from Existing Services

Recurring revenue from Subject Services to which the Customer subscribes as of the commencement of the Term Period and which are billed under the specific Company Code(s) provided by the Customer pursuant to Section 22.43.3 (L) will be included in the calculation used to achieve the MARC effective upon the commencement of the Term Period. (N)

(C) MARC Adjustments

The Customer shall have the right to adjust the MARC downward by 10% or 20%. This adjustment can only be made one time during the life of the Contract Term Period anytime after the first 12 months of the Contract Term Period. (B) MARC adjustments Discount Schedule and Application

Table E outlines discounts that the Customer will be eligible to receive depending on the MARC adjustment percentage chosen pursuant to Section 22.43.4 (C)

TABLE E:

MARC Adjustment	10%	20%
Discounts	Year 2 – 3% Year 3 – 4% Year 4 – 5% Year 5 – 6%	Year 2 – 2% Year 3 – 2% Year 4 – 3% Year 5 – 3%
Above MARC discount	Will only apply to revenue above the MARC used as the basis of the adjustment or the recurring revenue from the previous 3 months multiplied by 4, whichever is lower.	Will only apply to revenue above the MARC used as the basis of the adjustment or the recurring revenue from the previous 3 months multiplied by 4, whichever is lower.

For example, the Customer's year 1 MARC is $17M. The Customer's year 2 MARC is $18M (calculated as revenue from the last quarter in year 1 x 4). On the anniversary date at the end of year 2, the Customer's year 2 recurring revenue is $15M. The Customer elects to invoke the MARC adjustment option and adjust the MARC downward by 20%. The Customer's year 3 recalculated MARC is therefore $14.4M = ($18M x 80%).

The Customer's discounts (including any previously withheld) for year 2 will be recalculated to reflect levels as set forth in Table E and would total $300K ($15M * 2%). Any discounts that have been applied to the Customer's bill during year 2 in excess of $300K will be back-billed. The discount amount for year 3 is also 2% as set forth in Table E.

Discounts, on a going forward basis, will be based on the re-calculated MARC and will be subject to percentages as detailed in Table E.

$$\frac{\text{Annual Access Revenue} - \text{Annual Wholesale Revenue}}{\text{Annual Access Revenue}}$$

22.46.6 Contract Offer No. 46 - Termination Liability

The termination liability language contained below applies in lieu of termination liability language contained in Section 7. If Customer terminates Contract Offer No. 46 before the completion of the Term Period for any reason, Customer agrees to pay to the Telephone Company termination liability charges as described below. If the customer is not in compliance with the Eligibility Criteria in Section 22.46.3 or the Terms and Conditions in Section 22.46.4, termination liability charges will apply. These charges shall become due as of the effective date of the termination and are payable as described in Section 7.4.10. Customer's termination liability charges for termination of service shall be equal to:

50% of all monthly recurring charges (OC-48, DS1 and DS3 services) for the balance of the Customer's five (5) year Term Period.

All remaining in-service Subject Services will convert back to the prevailing tariff rates at the term that the customer signed up for. Prevailing tariff rates are highlighted in Section 7.5.9 and 7.5.10 for Phase 1 MSAs and Section 21.5.2 for Phase 2 MSAs.

The termination liability charge will be calculated as follows:

(Monthly Recurring Charges) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: Customer with a $35,000 monthly recurring charge terminates service after three (3) years and has twenty-four (24) months remaining in a five (5) year term plan. The termination liability would be calculated as:

$35,000 X 24 X 50% = $420,000 termination liability charge.

22.47 Contract Offer No. 47 – MVP DS1, DS3 and OCN Service Offer (Cont'd)

22.47.5 Current Annual Revenue Commitment

Under Contract Offer No.47, Customer must maintain a Current Annual Revenue Commitment (CARC). The CARC will be established using either the Customer's current MVP MARC or an Annual Revenue Commitment calculated as outlined below in Section 22.47.5(A), whichever is greater. The CARC will be established as soon as the Telephone Company receives the Letter of Subscription from Customer. The CARC calculation will be the latest CARC established for Customers who are subscribing to AIT Tariff F.C.C. No.2, Section 22, Contract Offer No.20.

(A) Determining the Annual Revenue Commitment

The Customer's Annual Revenue Commitment is calculated based on the total of the previous three (3) months recurring billing for all MVP qualified access services prior to any MVP discounts (as listed in F.C.C. 2, Section 19.2), multiplied by four (4). The Annual Revenue Commitment is calculated as follows:

Previous Three (3) Months Recurring Billing X 4 = Annual Revenue Commitment

(B) If at any time during the contract Term Period of this Contract Offer the Customer's MVP MARC becomes greater than the CARC the Customer will commit to increase and maintain the CARC to be equal to its MVP MARC as it may change during the Term Period.

(C) If the Customer fails to achieve the CARC on either December 31, 2005, December 31, 2006 or December 31, 2007, and fails to remit the annual projected gap payment, the Customer will be deemed to have terminated its subscription in Contract Offer No. 47 and termination liability charges will apply as set forth in Section 22.47.9.

22.47 Contract Offer No. 47 – MVP DS1, DS3 and OCN Service Offer (Cont'd)

22.47.6 Quarterly True-Up

To ensure that the customer will meet the CARC by the end of each year 2005, 2006 and 2007, the Telephone Company will review revenues quarterly. In the event that the Customer has an estimated shortfall, the Customer is required to remit Quarterly Gap Payments as described below. Quarterly is defined as consecutive three (3) month periods from April 1, 2005 through December 31, 2005; from January 1, 2006 through December 31, 2006; and from January 1, 2007 through December 31, 2007. The process of remitting payments to eliminate the Annual Projected Gap is referred to as the True-Up process.

The Telephone Company will calculate the Customer's Annual Projected Gap (if any) on a quarterly basis. The Annual Projected Gap is the CARC, less any annual projected MVP discounts, less actual annualized revenues. Actual annualized revenue is the Customer's actual billed amount to date, annualized to determine end of year estimated revenues. Actual annualized revenues will include any previous quarterly gap payment that the Customer has made. For this calculation, the actual annualized revenues are calculated after discounts from this Contract Offer No. 47, and any other applicable credits or discounts (i.e., MVP) have been applied.

Example A: Annual Projected Gap calculation at end of 1st quarter 2006

CARC	= $12,000,000
Less projected MVP discounts	= $ 2,000,000
Sub total	= $10,000,000
Less actual quarterly revenue ($1.5M) X 4 (annualized)	= $ 6,000,000
Annual Projected Gap	= $ 4,000,000

(A) If there is a positive Annual Projected Gap as measured above for the quarter, the Customer must make Quarterly True-Up payments. Quarterly True-Up payments will be calculated using the percentages in section 22.47.6 (B) and will be applied to the Annual Projected Gap to determine the gap payment. See example B in Section 22.47.6.

(B) Quarterly True-up payments will be calculated utilizing the following percentiles:

Quarter	Percent
1st	0%
2nd	25%
3rd	66%
4th	100%

Example B: Quarterly True-up (Cont'd)

4th Quarter 2006

Actual revenue 1st, 2nd, 3rd and 4th Quarter

January	= $ 400,000
February	= $ 500,000
March	= $ 600,000
April	= $ 600,000
May	= $ 700,000
June	= $ 700,000
July	= $ 500,000
August	= $ 600,000
September	= $ 665,038
October	= $ 500,000
November	= $ 550,000
December	= $ 614,962
Total	= $6,930,000

CARC	= $12,000,000
Less projected MVP discounts	= $2,000,000
Sub total	= $10,000,000
Less (12 months actual revenue + 2nd & 3rd Quarter Gap payment):	
$6,930,000 + $750,000 + $1,320,000	= $9,000,000
Annual Projected Gap	= $1,000,000

$1,000,000 x 100% = $1,000,000 Quarterly True-up payment

In the example above at the end of the 4th Quarter the Customer's actual revenue plus the Customer's Quarterly Gap payments, plus projected MVP discounts will equal the CARC.

$6,930,000 (end of year actual revenue) + $750,000 (2nd Quarter Gap Payment) + $1,320,000 (3rd Quarter Gap Payment) + $1,000,000 (4th Quarter Gap Payment) + $2,000,000 (projected MVP discount) = $12,000,000

(C) The Telephone Company will provide Customer a quarterly gap payment bill (if applicable) within 30 days after the end of the quarter.

(D) If at the end of December 31, 2005, December 31, 2006 or December 31, 2007 the Customer has exceeded their CARC (actual revenue + gap payments) and have made Quarterly Gap Payments, the Telephone Company will credit the Customers account the amount exceeding the CARC, but not greater than the total gap payments the Customer has made. (B) 25% of the CARC for each year in the remaining portion of the Term Period.

Any previous gap payments paid by the Customer will be forfeited.

Example C:

The Customer signs up for Contract Offer No. 47 and it begins April 1, 2005. The Customer terminates its participation in Contract Offer No. 47 effective August 15, 2006. The termination liability charge that would apply is calculated as follows:

Annual CARC = $12M
Monthly CARC = $12M / 12 months = $1M
Number of months remaining in contract = 15.5
Remaining value of CARC = 15.5 x $1M = $15.5M
25 % of remaining value of CARC = .25 x $15.5M = $3.875M
February 2006 - July 2006 discounts = $500K

(10) If the Customer wishes to assign or transfer its use of services under Contract Offer No. 48 pursuant to F.C.C. 22.48.4 Minimum Annual Revenue Commitment (MARC)

This Contract Offer requires the Customer to maintain a Minimum Annual Revenue Commitment (MARC) for the duration of the Term Period. The MARC will be calculated as outlined below in Section 22.48.4 (A).

(A) Determining the Minimum Annual Revenue Commitment

The Customer's MARC for Year 1 is at least $500,000 in cumulative annual revenue for Qualified Access Services.

The MARC for Years 2, 3, 4 and 5 will be reviewed annually on the anniversary date of the Term Period of this Contract Offer. The MARC for Years 2, 3, 4 and 5 will be calculated as follows:

Sum of the recurring revenue for all Qualified Access Services of the pervious three (3) months of the contract year, multiplied by four (4), multiplied by 95%.

If the recalculated MARC is greater than the previous year's MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous year's MARC, the previous year's MARC will carryover for the new year.

Example of Year 2 MARC Establishment: Customer's Year 1 MARC is established at $500,000. End of Year 1 the total recurring revenue of the previous 3 months totaled $150,000. Multiply that number by 4 and by 95% the Customer's Year 2 MARC is set at $570,000.

$150,000 X 4 X .95 = $570,000

(B) Failure to Achieve the MARC

If the Customer fails to achieve the Annual MARC for any year of the Term Period, it must comply with one of the options below:

(1) The Customer pays the difference between the Annual MARC for the current term year and the actual annual recurring revenue for the Subject Services as set forth in the true-up process as described in Section 22.48.6 within 60 days ; or

(2) The Customer terminates its Contract Offer No. 48 and pays termination liability charges as set forth in Section 22.48.9, following. (N)

If the Customer fails to achieve the annual MARC commitment as of the anniversary date, the Customer will be notified by the Telephone Company SBC and will be required to remit an Annual True-Up payment to reach the MARC commitment. 22.48.9 Termination Liability

Termination liability language described below applies in lieu of the termination liability language described in Tariff No. 48, Section 7.4.10 (C). If the Customer terminates service under this Contract Offer before the completion of the term period for any reason, the Customer must pay the Telephone Company termination charges as described in this section. These charges shall become due as of the effective date of the termination of service. The Customer must provide written notification to the Telephone Company 60 days prior to the desired date of termination of the Qualified Access Services pursuant to this Contract Offer.

If the Customer fails to meet any of the eligibility criteria as described in Section 22.48.2, or fails to meet any of the Terms and Conditions in Section 22.48.3, the Customer will be deemed to have terminated services under this Contract Offer and are payable pursuant to F.C.C. No. 2, Section 7.

If the Customer terminates this Contract Offer before the completion of the term period, the Customer's termination liability charges for termination of the contract shall be equal to:

50% of the difference between the Actual Current Annual Recurring Revenue for Qualified Access Services and the annual MARC at the time of termination, plus 50% of the annual MARC at the time of termination for each subsequent year remaining in the term period.

50% (Annual MARC - Annual Current Recurring Revenue) + 50% (Annual MARC x years remaining) = termination liability

For example, the Customer terminates the contract in Year 2 and Customer has 3 years remaining in a 5 year term period. Customer's current MARC at time of termination is $500,000 and actual recurring revenue is $ 400,000. The Termination liability charge will be as follows:

50% ($500,000 - 400,000) + 50% ($500,000 x 3) = $800,000 termination liability charge (N)

22.50.5 Termination Liability

The termination liability language contained below applies in lieu of termination liability language contained in Section 7. If Customer terminates any Qualifying Service under Contract Offer No. 50 before the completion of the Term Period for OC-12, OC-48 and OC-192 Dedicated Ring services for any reason, other than a service interruption caused by Telephone Company, Customer must pay to the Telephone Company termination liability charges as described below. If the Customer is not in compliance with the Eligibility Criteria in Section 22.50.2 or the Terms and Conditions in Section 22.50.3, termination liability charges will also apply. These charges shall become due as of the effective date of the termination and are payable as described in Section 7.2.11.

Customer's termination liability charges for termination of a Qualifying Service shall be equal to:

50% of all monthly recurring charges for the balance of the Customer's Term Period(s), as applicable.

The termination liability charge will be calculated as follows:

(Monthly Recurring Charges) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: Customer with a $300,000 monthly recurring charge terminates service after three (3) years and has twenty-four (24) months remaining in a five-year (5) Term Period. The termination liability would be calculated as:

If Customer terminates any Qualifying Service under Contract Offer No. 50 before the completion of the Term Period for reason of a service interruption, Customer must notify the Telephone Company in writing within thirty (30) days of the interruption. (N)

The Telephone Company will waive otherwise applicable termination liability charges for moves and/or disconnection of existing Subject Services, provided that the Customer complies with the terms and conditions of this Contract Offer, including but not limited to Sections 22.56.3 and 22.56.5. In the event that termination liability charges for any such moves and/or disconnections are billed by the Telephone Company, the Customer will receive credits for those charges on a quarterly basis. To receive the credits or a waiver of termination liability charges for such moves and/or disconnects, the following conditions must be met:

(A) The Customer must be in compliance with all terms and conditions of this Contract Offer;

(B) DS3, OC-3 and OC-12 Point-to-Point services must have been in service for a minimum of one (1) year from the original installation date;

22.56.5 Minimum Annual Revenue Commitment (MARC)

(A) Establishment of the MARC

The Customer must establish and maintain a MARC as provided in this Contract Offer. The MARC for the first year of the Term Period (Year 1) will be established when the Telephone Company receives the Letter of Subscription (LOS) from the Customer. For purposes of calculating the MARC for Year 1, recurring annual revenue for all existing and new Subject Services pursuant to this Contract Offer shall be included in the calculation of the Year 1 MARC.

(B) Determining the Minimum Annual Revenue Commitment

(1) The MARC shall be calculated as the sum of the recurring revenue for all Subject Special Access Services of the previous three (3) months of the contract year, multiplied by four(4).

(2) Example: Customer achieves $1,000,000 in previous three months of the contract year. The $1,000,000 is multiplied by 4 for a new MARC of $4,000,000.

(B) Determining the Minimum Annual Revenue Commitment (Cont'd)

(3) The Customer's MARC for Year 1 shall be $3,600,000, or the MARC as calculated for the year prior (previous 3 months times 4) to the effective date of this contract offer, whichever is greater.

(4) The MARC for Years 2, 3, 4, and 5 will be reviewed and re-established on an annual basis, effective on the Contract anniversary dates.

If, for any year the recalculated MARC is greater than the previous years MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous years MARC, the previous year's MARC will carry over for the new year.

Example of Year 2 MARC Establishment: Customer's Year 1 MARC is established at $3,600,000. At the end of Year 1, the total recurring revenue of the previous three (3) months totaled $1,000,000. Multiply that number by 4, and the Customer's Year 2 MARC equals $4,000,000.

$1,000,000 X 4 = $4,000,000

(C) Failure to Achieve the MARC

If the Customer fails to achieve the Annual MARC for any year of the Term Period, the Customer must pay the difference between the Annual MARC for the current term year and the actual recurring annual revenue for the Qualifying services as set forth in the True-up process as described in Section 22.56.5 (E) within thirty (30) days of notification by the Telephone Company.

(D) Discounts and Other Credits

If the Customer exceeds the MARC by ten (10) percent upon the Term Period annual anniversary date, then the Customer will be eligible for a two (2)percent credit of recurring annual revenue. If the Customer exceeds MARC by fifteen (15) percent, then the Customer will be eligible for a three (3) percent credit of said annual revenue. If Customer exceeds the MARC by twenty (20) percent, then the Customer will be eligible for a five (5) percent credit of recurring annual revenue. If the Customer exceeds the MARC by twenty-five (25) percent, then the Customer will be eligible for a 7 percent credit of recurring annual revenue. Said annual credits will be applied to Customers bill within sixty (60) days after determination of MARC.

22.56.9 Termination Liability

(A) If the Customer terminates Contract Offer No. 56, the termination liability language contained below applies in lieu of the termination liability language described in Section 7. In addition, if any termination liability has been waived subject to the portability provision set forth in Section 22.56.4 of this Contract Offer within 12 months prior to the termination of the Contract Offer, such previously waived termination Liability charges will also apply.

(G) Portability Volume Commitment (PVC)

Portability is provided under this Contract Offer through the Portability Volume Commitment (PVC). For purposes of determining the Customer's PVC, the Telephone Company shall aggregate volumes for the various Subject Services included in this Contract Offer by converting counts of Telephone Company assigned unique Circuit ID's, by Circuit Type, into PVC Units, as shown below in Table B.

(b) The PVC Level will be reset after each PVC Attainment Review, as described below in Section 22.61.4 (G) (2) (c).

(2) PVC Attainment Review

Upon the completion of each six-month period, beginning upon the commencement of the Term Period, the Telephone Company will perform a review (the PVC Attainment Review), to compare the Customer's then-current PVC Measurement to the PVC Floor.

(a) The Telephone Company shall calculate the Customer's PVC Level and PVC Floor as follows:

(i) The PVC Measurement shall be the sum of all Level I and Level II PVC Units that are reflected in the recurring billing records of the Telephone Company for the last month of the period under review.
(ii) The PVC Floor shall be equal to the Customer's then-current PVC Level, multiplied by the PVC Attainment Factor, as provided in Table C:

Table C:

Current PVC Level	PVC Attainment Factor
1,200 – 1,800	95%
1,801 – 2,100	92%
2,101 +	90%

(b) The Customer's PVC Measurement, at the time of each six-month review, must equal or exceed the current PVC Floor.

(i) If the PVC Measurement is greater than or equal to the PVC Floor, the Customer shall be deemed to have met the PVC requirement for the six-month period under review.
(ii) If PVC Measurement is lower than the PVC Floor, then the Customer must pay the PVC Attainment Shortfall as described in Section 22.61.4 (G) (3).

(c) Upon completion of the PVC Attainment Review, the PVC Level shall be reset to the PVC Measurement calculated for the period under review, or the existing PVC Level, whichever is greater.

The PVC Attainment Shortfall Payment shall be calculated as follows:

(a) The PVC Unit Shortfall shall be calculated according to the following equation: (PVC Level x 95%) - PVC Measurement = PVC Unit Shortfall.

(b) The PVC Attainment Shortfall Payment shall be calculated by multiplying the PVC Unit Shortfall by $9,600.

(4) PVC Attainment Review Example

At month 6:
PVC Level = 1,500. PVC Measurement = 1,800. PVC Measurement exceeds PVC Floor of 1,425, thus commitment is met and new PVC Level is reset to 1,800.

At month 12:
PVC Level = 1,800. PVC Measurement = 1,750. PVC Measurement exceeds PVC Floor of 1,710, thus commitment is met and PVC Level remains 1,800.

At month 18:
PVC Level = 1,800. PVC Measurement 18 = 1,700. PVC Measurement is below PVC Floor of 1,710, thus commitment is not met. Customer must pay PVC Attainment Shortfall and PVC Level remains = 1,800.

Month 18 PVC Attainment Shortfall calculation:
Step 1 – (PVC Level x 95%) - PVC Measurement = PVC Unit Shortfall
[(1,800 x 95%) – 1,700] = 10
Step 2 - PVC Unit Shortfall x $9,600 = PVC Attainment Shortfall Payment
10 x $9,600 = $96,000

Table D: PVC Attainment Review Example

Completed Contract Month	PVC Level	PVC Floor	PVC Measure-ment	PVC Attainment Review	PVC Unit Shortfall	PVC Attainment Shortfall
6	1,500	1,425	1,800	met	0	n/a
12	1,800	1,710	1,750	met	0	n/a

(d) A PVC Reduction Charge shall be calculated by multiplying the PVC Reduction Amount by $1,600, then multiplying that amount by the PVC Term Factor, as provided in Table E:

Table E:

	PVC Term Factor
Completion of Year 1	24
Completion of Year 2	18
Completion of Year 3	12
Completion of Year 4	6

Example: PVC Reduction
Customer requests a PVC Reduction of 10 PVC Units upon the completion of Year 2. PVC Reduction Charge is calculated as follows:

Requested PVC Reduction x $1,600 x PVC Term Factor = PVC Reduction Charge
10 x $1,600 x 18 = $288,000

22.61.10 Termination Liability

If Customer terminates this Contract Offer the termination liability language contained below applies in lieu of the termination liability language described in Ameritech Tariff F.C.C. No. 2. Customer must pay to the Telephone Company termination liability charges as described below if Customer terminates this Contract Offer before the completion of the term period for any reason, or if Customer is not in compliance with Terms and Conditions in Section 22.61.4. These charges shall become due as of the effective date of the termination and are payable within 30 days of the billing invoice date.

Customer's termination liability charges for termination of this Contract Offer shall be equal to a complete reduction of the Portability Volume Commitment as outlined in 22.61.4 (G) (5). The PVC Term Factor shall be based on the longest fully completed year under this Contract Offer at termination.

Upon termination of this Contract Offer, all Subject Services provided under this Contract Offer will subsequently be provided under the prevailing applicable monthly extension rates found in Ameritech Tariff F.C.C. No. 2.

If the Customer disconnects a Subject Service provided under this Contract Offer prior to the completion of the one (1) year minimum in service requirement, then the following termination liability charges will apply:

75% of all recurring charges for the balance of the one (1) year term period plus the current applicable NRC charge for a service installed under a one (1) year term payment plan less the NRC charge paid at installation of Subject Service.

The termination liability charge will be calculated as follows:

(Monthly Recurring Charges) multiplied by (Months remaining in order to achieve one (1) year in service) multiplied by (Termination liability percentage of 75%) plus current applicable NRC minus NRC charges already paid.

Example: Customer has $20,000 in Monthly Recurring Charges for a Subject Service provided under this Contract Offer. The customer paid an NRC of $550 at installation and the current applicable NRC equals $750. If Customer terminates service after six (6) months and has six (6) months remaining in order to meet the one (1) year minimum time in service, the termination liability would be calculated as:

($20,000 X 6 months X 75%) + ($750 - $550) = $90,250

(A) In-Service Levels:

The Customer must meet and maintain the following minimum in-service levels throughout the Term Period as a result of the new DS1 and DS3 services purchased under this Contract Offer (combined with the existing services converted to this Contract Offer, as referenced in Section 22.63.3.8). With the exception of the existing services referenced in Section 22.63.3.8, no services purchased and in service prior to the date of subscription of this Contract Offer will count toward satisfying the in-service level requirements below:

(1) 100 DS1s and 20 DS3s within 6 months of contract subscription
(2) 200 DS1s and 40 DS3s within 12 months of contract subscription

In-service levels cannot exceed 750 DS1s and 120 DS3s during the Term Period of this Contract Offer. A Local Distribution Channel must be ordered to be considered toward the in-service level requirements specified in this section.

(B) Portability

The Customer may move or disconnect DS1s or DS3s purchased under this Contract Offer without incurring termination liability charges provided the Customer has achieved and maintains the minimum in-service levels outlined above in Section 22.63.4(A) during contract years 2 through 5, per a quarterly review process.

Total in-service levels of DS1 and DS3 circuits ordered under this Contract Offer will be reviewed on a quarterly basis.

This quarterly review will be for the purpose of determining eligibility for credits of termination liability associated with moves and disconnections. Verification will be done 30 days after the close of each quarter. Total in-service levels will be based on services purchased under this Contract Offer.

(1) If the current quarter's in-service levels are equal to or exceed the minimum in-service levels required in Section 22.63.4(A), the Telephone Company will credit termination liability charges.

(2) If the current quarter's in service levels are below the minimum in-service levels required in Section 22.63.4(A), the Telephone Company will not credit termination liability charges for any moves or disconnects ordered during that quarter.

(C) Shortfall Payments

Customer must meet in-service level requirements for DS1 and DS3 services purchased under this Contract Offer pursuant to Section 22.63.4(A). Total in-service levels of DS1 and DS3 circuits ordered under this Contract Offer will be reviewed annually (at the end of each contract year) for the purpose of determining shortfall payment requirements. If at the end of a contract year, the in-service levels are less than the in-service level requirements required in Section 22.63.4(A), the Customer will be assessed a shortfall charge. The shortfall charge is calculated as follows:

$165 per DS1 short of in-service level requirement x 12 months $800 per DS3 short of in-service level requirement x 12 months

Example:

If in-service DS1 volumes at end of year 1 = 90 and in service DS3 volumes = 30, then shortfall charge =

DS1 shortfall = (100 – 90) x ($165) x (12 months) = $19,800
DS3 shortfall = (40-30) x ($800) x (12 months) = $96,000

Total shortfall charge Year 1 = $19,800 + $96,000 = $115,800

Failure to achieve compliance in 60 days will constitute a default and the Telephone Company shall have the right to terminate this Contract Offer, unless the Customer has acted in good faith to achieve compliance and the Customer's failure to achieve compliance within 60 days is caused by delay attributable to the Telephone Company. In the event of a termination by the Telephone Company, termination liability charges will apply as set forth in Section 22.64.9.

(6) Credits will not be issued until the Customer has met the 98% Access Services Ratio.

22.64.4 Minimum Annual Revenue Commitment (MARC)

(A) Calculation of the MARC

The Customer must establish and maintain a MARC as provided in this Contract Offer. The MARC for the first and second year of the Term Period (Years 1 and 2) will be established when the Telephone Company receives the LOS from the Customer. For purposes of calculating the MARC for Year 1, recurring annual revenue for all Contributory Services shall be included in the calculation based on the rates that would apply to the Contributory Subject Services for a five-year minimum term, regardless of whether the Subject Services were actually purchased pursuant to a five-year term at the time of the Customer's subscription to this Contract Offer. Recurring annual revenue for Contributory Services that are not Contributory Subject Services shall be included in the calculation based on the actual rates applicable to those Contributory Services at the time of calculation.

The Customer's MARC for Year 1 shall be $26.5 Million, or four times the Customer's monthly recurring revenue for Contributory Services during the three months immediately preceding the receipt of the signed LOS, whichever is greater. The Customer's Year 2 MARC will be equal to the Year 1 MARC.

The MARC will be re-established, effective on the Anniversary Dates, beginning on the second anniversary (the beginning of Year 3). The MARC for Year 3 and subsequent years will be based on the Customer's actual monthly recurring revenue for all Contributory Services during the previous 3 months multiplied by 4, or the then-current MARC, whichever is greater.

Example 1:
The Contract Tariff date is May 1, 2005. The MARC for Year 2 is $26.5M. The Customer's actual revenue to Telephone Company from February 1, 2007 to April 30, 2007 is $8M. The new Year 3 MARC, effective May 1, 2007, is $32M ($8M multiplied by 4 equals $32M.)

Example 2:
The Contract Tariff date is May 1, 2005. The MARC for Year 2 is $26.5M. The Customer's actual revenue to Telephone Company from February 1, 2007 to April 30, 2007 is $6M. The new Year 3 MARC, effective May 1, 2007, is $26.5M. (The $26.5M MARC is due to the fact that the MARC recalculation cannot result in a MARC lower than the current MARC.)

If the Telephone Company receives additional pricing flexibility relief for MSAs that are not listed in Section 22.64.2, or if additional Contributory Subject Services that are not listed in Section 22.64.2 become eligible for pricing flexibility, the additional MSAs or Contributory Subject Services may be included, at the Customer's option, in this Contract Offer, beginning with the first year after the additional MSAs or Contributory Subject Services became eligible for pricing flexibility. Upon Customer's written notification to the Telephone Company of their intent to exercise this option, the Telephone Company will recalculate the MARC to incorporate the recurring annual revenues from those MSAs or Subject Services and will include those revenues in the calculations described herein.

(B) Inclusion of Additional Contributory Services (N)

Not withstanding anything to the contrary herein, the Customer may, at its option, include in this Contract Offer any Contributory Services being provided to the Customer by the Telephone Company, but which are being provided to the Customer according to a tariff or contract other than this Contract Offer, provided, however, that the MARC must be increased to reflect the recurring annual revenues associated with the additional Contributory Services, as provided in Section 22.64.4. If any additional Contributory Services are ATM, Frame Relay or InterLATA services, those additional Contributory Services shall be provided pursuant to an agreement and/or contract which shall be available for review at the following web site: https://www.sbcprimeaccess.com/shell.cfm?section=2501. (Nx)

Example (N)
Year 1 MARC = $26.5M
If during Year 1, Customer wishes to include $2M of annual spend currently purchased from the Telephone Company under another tariff or contract and if those services qualify as Contributory Services, the new Year 1 MARC is $28.5M.

(C) MARC Adjustments

(1) The Customer shall have the right to adjust the MARC downward by up to 10%. This adjustment can only be made one time during the Term Period at anytime after the first 24 months of the Term Period (beginning with the establishment of the Year 3 MARC). To exercise this option, the Customer must notify the Telephone Company, in writing, at least 60 days prior to the Anniversary Date.

(2) The MARC adjustment shall apply prospectively only. If Customer exercises this option, reduced discounts (as specified in Table D Section 22.64.5 (B)) will apply for the remainder of the Term Period and certain provisions of the Contract Offer will no longer apply as provided in Section 22.64.5 (B). Also, if the Customer exercises this option, any MARC adjustments associated with SLA penalties offered in Section 22.64.5 shall not apply for the remaining years of the Term Period. If the Customer uses the MARC adjustment option in conjunction with any of the Merger and Acquisition options outlined in Section 22.64.7, reduced discounts will remain for the life of the Term Period, and discounts previously received during that contract year will not be re-rated, provided the Eligibility Criteria in Section 22.64.2 and Terms and Conditions in Section 22.64.3 have been met prior to the MARC adjustment, and certain provisions will no longer apply as detailed in Section 22.64.5(B).

(3) The MARC will be adjusted automatically pursuant to SLA measurement guidelines specified in Section 22.64.5, unless the MARC adjustment option discussed in Section 22.64.4 (C) (1) is exercised. (N)

(D) Failure to Achieve the MARC

The Customer and Telephone Company agree to exchange information quarterly, and meet quarterly if necessary, to review the Customer's progress toward achieving the MARC for the term year and Telephone Company's progress on SLA targets. The Customer and Telephone Company agree that they will meet in the ninth month of each term year to discuss and address, if necessary, compliance with the Terms and Conditions of the Contract Offer prior to the Anniversary Date.

If the Customer fails to achieve the annual MARC commitment as of the Anniversary Dates of each year of the Term Period, the Customer will be notified by the Telephone Company.

The Customer must remit an Annual True-Up payment, the amount of which will be calculated as the difference between the annual MARC for the current term year and the actual recurring annual revenue for the Contributory Services during that term year.

If the Telephone Company does not receive the Annual True-Up amount within 30 days of the Customer's receipt of its notification, the Customer shall be deemed to have terminated this Contract Offer, and termination liability charges will apply as set forth in Section 22.64.9.

22.64.5 Discounts and Other Credits

(A) Discount Schedule and Application

(1) Table C contains the level of discounts for this Contract Offer.

TABLE C:

Year	MARC Discount	Discount on Recurring Revenue above the MARC
1	0%	0%
2	5%	5%
3	10%	10%
4	11%	11%
5	12%	12%

Example for Year 2:

Customer's MARC = $26.5M
Customer's annual recurring revenues for Contributory Services = $32M
Customer's annual recurring revenues for Subject Services = $30M
Customer will receive a 5% discount on $30M (issued annually in accordance with subsection (2)

(A) Discount Schedule and Application (Cont'd)

(2) The Customer will receive the 0%, 5%, 10%, 11%, or 12% discount (depending on the year outlined in Table C) on annual recurring revenues for Contributory Subject Services, provided that the Customer meets or exceeds the MARC. The discount will be applied no later than 60 days after each Anniversary Date. Recurring revenue generated from Subject Services that were not included in this Contract Offer at the time of subscription are not eligible for discounts under this Contract Offer unless, and until, those Contributory Subject Services have been added to this Contract Offer pursuant to Section 22.64.2, Section 22.64.4 Section 22.64.7 or Section 22.64.8.

(B) MARC Adjustments - Discount Schedule and Application

Table D outlines discounts that the Customer will be eligible to receive following a MARC adjustment option pursuant to Section 22.64.4 (C)

TABLE D

	MARC Discount	Above MARC Discount, if available
MARC Adjustment	Year 3 – 4% Year 4 – 5% Year 5 – 6%	Year 3 – 4% Year 4 – 5% Year 5 – 6%

Following a MARC adjustment, above the MARC discounts are available only if, during any year, the MARC for that year is equal to or greater than the MARC in effect immediately prior to the adjustment.

Example
The Customer's Year 3 MARC is $30M (calculated as revenue from the last quarter in year 2 x 4). On the Anniversary Date at the beginning of Year 4, the Customer's Year 3 annual recurring revenue for Contributory Services is $25M. The Customer elects to invoke the MARC adjustment option and adjust the MARC downward by 10%. The Customer's Year 4 recalculated MARC is therefore $27M = ($30M x 90%). The Customer must make an Annual True-Up payment for Year 3 in the amount of $5M. If the Customer fails to make the True-Up payment, the Customer will be in default and termination liabilities will apply. Under this scenario, the Customer will not become eligible for the above the MARC discounts provided in table D, above, until the Customer's MARC in a subsequent year equals or exceeds $30M.

(C) Non-Recurring Charges

The Telephone Company will waive installation Non-recurring charges (NRCs) associated with the purchase of Contributory Subject Services pursuant to this Contract Offer. In the event that the installation NRCs are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis.

In order to receive credits for installation NRCs, the Customer must be in compliance with all terms and conditions of this Contract Offer. Additionally, if the Customer fails to meet the MARC on an Anniversary Date pursuant to Section 22.64.4 (A) and/or fails to pay the Annual True-Up as defined in Section 22.64.4 (D), termination liability charges will apply as set forth in Section 22.64.9.

The Customer must pay all other applicable non-recurring charges, including, but not limited to, rearrangement charges, special construction charges, access order charges, cancellation charges and Access Order Modification charges as described in Ameritech F.C.C. No. 2.5.2.2 for Subject Services pursuant to this Contract Offer.

(D) Portability

The Telephone Company will waive termination liability charges for moves and/or disconnection of Contributory Subject Services. In the event that termination liability charges for any such moves and/or disconnections are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis. In order to receive credits or a waiver of termination liability charges for such moves and/or disconnects, the following conditions must be met:

(1) The Customer must be in compliance with all terms and conditions of this Contract Offer.

(2) The Customer shall be permitted to move and/or disconnect Contributory Subject Services from any of the identical Contract Offers, as described in Section 22.64.2 (B).

(3) DS1 Services must have been in service for a minimum of one (1) month from the original installation date.

(4) DS3, OC-3 and OC-12 Point to Point Services must have been in service for a minimum of one (1) year from the original installation date.

(5) OC48 Point To Point, OC192 Point to Point and GigaMAN Services must have been in service for a minimum of three (3) years from the original installation date.

(6) If, and to the extent that OPT-E-MAN becomes eligible for pricing flexibility, OPT-E-MAN may, at the Customer's option, become a Contributory Subject Service included in this Contract Offer. If so, such OPT-E-MAN service shall be eligible for portability provided that, for each OPT-E-MAN circuit to be ported:

(a) facilities necessary to provide OPT-E-MAN, as specified in F.C.C. No. 2, Section 24, exist at the end user location in which the circuit is being moved; and
(b) the circuit has been in service for a minimum of one (1) year from the original installation date.

If the Customer fails to meet the MARC on a contract Anniversary Date pursuant to Section 22.64.4 (A) and/or fails to pay the Annual True-Up as defined in Section 22.64.4 (D), termination liability charges will apply as set forth in Section 22.64.9.

(E) Service Level Assurance (SLA) Performance

Customer will be eligible for additional credits and/or MARC adjustments based upon the quality of service delivered by the Telephone Company during the Term Period of this Contract Offer. Pursuant to this Contract Offer, SLA credits and MARC adjustments will apply in the event the Telephone Company's SLA service performance level objectives are not met.

SLA performance targets are established for a twelve (12) month interval commencing with the subscription date of this Contract Offer.

The service performance targets will be based on the following four (4) measured service components:

(1) Percent Network Availability: The percent of the time all DS1, DS3 and OCN circuits are in service compared to the total expected availability during the reporting period factoring in both failure frequency and time to repair.

(2) Mean Time To Repair (MTTR) of DS1 circuits: The average time it takes the Telephone Company to repair all of the Customer's DS1 circuits during the reporting period.

(3) Mean Time To Repair (MTTR) of DS3 and OCN circuits: The average time it takes the Telephone Company to repair all of the Customer's DS3 and OCN circuits during the reporting period.

(E) Service Level Assurance (SLA) Performance (Cont'd)

(4) On Time Delivery – Due Date: Calculated by dividing the number of Customer requests for new service and rearrangements of existing service that were missed for Telephone Company reasons by the total number of new service requests and rearrangements of existing service completed during the reporting period. The date used to determine whether or not the service request was missed is the service confirmation date provided on the Firm Order Confirmation (FOC). This measurement will apply to all of the Customer's DS1, DS3 and OCN services.

Table E outlines the SLA performance targets for each measured service in each contract year.

On Time Delivery – Due Date (DS1-OCN)	96.00%	96.50%	96.500%	97.00%	97.00%

(F) SLA Performance Penalties

At the conclusion of each Anniversary Date, the 12-month averages based on Telephone Company's provided results for each measured service will be compared to its corresponding target in Table E. For each measurement that is not achieved by the Telephone Company, the Customer will be eligible to receive credits as outlined in subsection (1) and MARC adjustments as outlined in subsection (2).

(1) The Customer will be eligible for the following credit amounts, as set forth in Table F. For each measurement that is not achieved by the Telephone Company after each Anniversary Date, credits will be paid into a Telephone Company account held on the Customer's behalf. (N)

Immediately following the Customer's subscription to this Contract Offer, the Telephone Company will establish a holding account with an initial balance of $300,000. The initial balance of the holding account represents the total, aggregate amount that the Customer will be eligible to receive across the regions identified in Section 22.64.2.B of this Contract Offer. The credit account will be applied for the purpose of improving service delivery and performance. The Customer and Telephone Company will cooperate in good faith to identify and plan appropriate service and/or service performance projects, which shall be planned and completed as Special Construction. The Telephone Company will follow the Special Construction guidelines provided in F.C.C. Tariff No. 3 for work performed pursuant to this provision, including standard time and materials rates, and shall be subject to any applicable additional charges for expediting or overtime. Work performed pursuant to this provision shall be credited to a designated BAN of the Customer's choice. The amount will be deducted from the SLA credit holding account. After the first Anniversary Date, the Telephone Company will annually add to the holding account the credit amount due to the Customer for each SLA measurement not met.

The Customer and the Telephone Company will work together to create a project schedule designed to ensure that projects are completed by the Telephone Company prior to the end of each term year.

The initial balance must be used within the first 12 months following the receipt of a signed LOS. Any amount remaining from the initial balance will not be allowed to carry over to Year 2, and will be forfeited. Any credit due to the Customer at the end of term year 5 will be available to the Customer in the holding account for the 12-month period subsequent to the end of the Term Period. Annual SLA performance credits must be used within the year after the credits were issued, and cannot be rolled over into the following year. Any amounts left over, after the year following the issuance of the credits, will be forfeited, provided, however, that projects on the project schedule that are not completed at the end of the term year can be completed in the subsequent year, and any allocated amounts associated with that project shall not be debited from the following year's holding account balance. If the Telephone Company fails to complete an agreed upon project on the project schedule at any time during the Term Period, the amount allocated for that project shall be carried over until the agreed upon project has been completed. (2) The Customer will be eligible for the following MARC adjustments in Table G for each measurement that is not achieved by the Telephone Company at each Anniversary Date. However, if the Customer exercises the MARC adjustment option specified in Section 22.64.4, the MARC adjustments in Table G will not apply in the year that the MARC adjustment option is exercised and for the remaining years of the contract.

The Telephone Company achieved 1 out of the 4 measurements in year 3. The Year 4 MARC is then recalculated and set at $32.01M ($33M X 97%).

22.64.6 Assignment and Transfer

Subject to the provisions set forth in section 22.64.7 regarding mergers and acquisitions, if the Customer wishes to assign or transfer its use of services under this Contract Offer No. 64, pursuant to F.C.C. No. 2, Section 2.1.2 of this Tariff, the Telephone Company will acknowledge such transfer or assignment pursuant to the terms of F.C.C. No. 2, Section 2.1.2, unless: (1) the proposed assignee or transferee demonstrates a lack of credit worthiness under one of the criteria in (A) or (B) below, or (2) if the proposed assignee or transferee or its parent company has commenced a voluntary receivership or bankruptcy proceeding (or had a receivership or bankruptcy proceeding initiated against it).

(A) Any debt securities of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly more than 50% of the equity of the proposed assignee or transferee) are rated below investment grade, as defined by the Securities and Exchange Commission, or if any debt securities of a proposed assignee or transferee or its parent company are rated the lowest investment grade and have been placed on review by the rating organization for a possible downgrade.

(B) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies (e.g. Standard and Poor's), but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated "fair" or below in a composite credit appraisal published by Dun and Bradstreet, or "high risk" in a Paydex score as published by Dun and Bradstreet.

22.64.7 Mergers and Acquisitions Involving the Customer

(A) The Terms and Conditions of Contract Offer No. 64 shall continue in full force and in effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company (the foregoing generally referred to herein as a merger or acquisition). During or after the merger or acquisition, if the other company involved in the merger or acquisition also purchases Contributory Services from the Telephone Company, either directly or through any affiliates, then billed, recurring revenue for Contributory Services of the other company involved in the merger or acquisition will not be used in calculations of the MARC as discussed in Section 22.64.4 (A) or calculations to achieve the MARC discussed in Section 22.64.4 (B) or in the calculation of the Access Service Ratio discussed in Section 22.64.3(E), except as permitted by one of the provisions in this subsection.

(1) The Customer must be meeting MARC commitments and all Eligibility Criteria and Terms and Conditions outlined in Sections 22.64.2 and 22.64.3 in order to exercise the provisions under this subsection.

(2) Recurring revenue from Contributory Services from the other entity involved in the merger or acquisition cannot be applied to, or eligible for, any incentives or discounts contained in this Contract Offer, except as expressly permitted by one of the provisions herein.

(3) The Customer shall have four options (per merger or acquisition) to incorporate revenue from the other company or companies involved in the merger or acquisition. The Customer may elect only one of those options with respect to any particular merger or acquisition. If the Customer does not exercise any of those options in the manner provided herein, the Customer will not be permitted to use existing or future Special Access revenues from the other company or companies involved in the merger or acquisition in the Calculation of the MARC or Calculations to Achieve the MARC discussed in Section 22.64.4 (A) & (B), nor will such revenues be eligible for any discounts provided under this Contract Offer, nor will the Telephone Company apply existing or future Special Access or Wholesale Service revenues from the other company or companies in calculating the Access Service Ratio in Section 22.64.3(E).

(4) The acquisition and/or merger Transaction Close Date will be used to measure the length of time the following provisions are available. The Transaction Close Date shall be defined as the date that the stock purchase is complete and/or the final date on which the assets of the acquired/merged company have been purchased.

(5) If the Customer has selected, but not yet fully implemented, one of the options provided herein, the MARC, and any MARC adjustment calculation as provided in Section 22.64.4, will apply only to the Customer's original (pre-merger or acquisition) MARC and will not include revenue from the other company involved in the merger or acquisition.

22.64.7 Mergers and Acquisitions Involving the Customer (Cont'd)

(A) (Cont'd)

(6) The Customer cannot combine any of the Merger and Acquisition provisions in this subsection.

(7) The Telephone Company will calculate the actual recurring annual revenue of the other company involved in the merger or acquisition on the date the Customer selects one of the provisions in this subsection, in the same manner such revenue would be calculated for purposes of performing the annual recalculation of the MARC under this Contract Offer. Until the Customer has fully implemented one of the provisions in this subsection, the Customer will not be eligible to earn the above the MARC discounts discussed in Section 22.64.5 (A)(2) of this Contract Offer for revenue from the other company involved in the merger or acquisition. After the Customer has fully implemented one of the provisions in this subsection, the Customer will be eligible for above the MARC discounts provided in Section 22.64.5(A)(2) for recurring annual revenue above the new combined MARC.

(B) Mergers and Acquisitions Affecting Access Service Ratio

(1) If the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company, and inclusion of the recurring revenue from Contributory Services from the other company or companies involved in the merger or acquisition into this Contract Offer will cause the Customer to fall below Access Services Ratio Terms and Conditions as defined in Section 22.64.3 (E), the Customer must select from Option 1 or 2 of this Section 22.64.7(B), below, to incorporate any recurring annual revenues from the other company involved in the merger or acquisition into this Contract Offer.

(2) The Customer must fully conform to Access Service Ratio within 18 months of the Transaction Close Date and must comply with the Access Conversion Schedule provided in Table H below. As long as the Customer is in compliance with the Access Conversion Schedule and the Customer's existing revenue complies with the Access Services Ratio, as provided in Section 22.64.3(E), MARC discounts will continue to apply and the Customer shall not be considered out of compliance with the Access Services Ratio Terms and Conditions as defined in Section 22.64.3(E).

(3) If, at any time the Customer does not comply with the Access Conversion Schedule provided in Table H, MARC discounts will be withheld and the Telephone Company will notify the Customer of non-compliance. The Customer will then have 60 days to comply with the Access Conversion Schedule. If the Customer does not comply within 60 days, this Contract Offer shall be deemed to be in default, and the Telephone Company shall have the right to terminate this Contract Offer. Upon such termination, termination liability charges will apply as provided in Section 22.64.9. Notwithstanding the foregoing, if the Telephone Company is primarily responsible for a delay in the Access Conversion Schedule, MARC discounts will continue to apply, the Customer shall not be considered out of compliance with the Access Services Ratio Terms and Conditions as defined in Section 22.64.3(E), and this Contract Offer will not be considered in default, provided, however, that each party shall exercise best efforts to comply.

3rd	50%
4th	75%
5th	85%

(a) Option 1

(i) The Customer must establish a temporary combined MARC by adding to the Customer's then current MARC at least 85%, but not more than 100% (at the Customer's option), of all recurring annual revenue for Contributory Services from the other company involved in the merger or acquisition for a period not to exceed 18 months from the Transaction Close Date. Recurring annual revenue for Contributory Services shall be calculated in a manner consistent with the annual recalculation of the MARC under this Contract Offer.

(ii) The Customer must exercise this option within 60 days following the Transaction Close Date.

(iii) This option is not available in Year 5 of the Term Period.

(iv) A permanent combined MARC will be established no later than 18 months following the Transaction Close Date using the following calculation, based on a calculation of the Customer's combined recurring annual revenue.

(1) The calculation of the Customer's combined annual recurring revenue shall include all Contributory Services for the combined company resulting from the merger or acquisition. The calculation of the Customer's combined permanent MARC shall be performed in the same manner as the annual MARC calculations provided in Section 22.64.4(A), above. Following the calculation of the combined permanent MARC, the MARC shall be recalculated for each year remaining in the Term Period, and the MARC-related terms and conditions of this Contract Offer shall be applied to the combined company, in the same manner as would otherwise apply under this Contract Offer.

(2) Notwithstanding anything to the contrary in this Contract Offer, the permanent combined MARC must be at least 85% of temporary combined MARC as defined in Section 22.64.7 (C) (1) (a).

If the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company and inclusion of recurring revenue from Subject Services from the other company or companies involved in the merger or acquisition into this Contract Offer will not cause the Customer to fall below Access Services Ratio Terms and Conditions as defined in Section 22.64.3 (E), the Customer must select from Option 3 or 4 of this Section 22.64.7(C) to incorporate into this Contract Offer any recurring annual revenues from the other company involved in the merger or acquisition.

(1) Option 3

(a) The Customer must establish a temporary combined MARC by adding at least 85%, but no more than 100% (at Customer's option), of all recurring annual revenue for Contributory Services from the other company involved in the merger or acquisition for a period not to exceed 12 months from the Transaction Close Date. 22.64.8 Merger or Acquisition Involving the Telephone Company (Cont'd)

(A) If the Customer purchases any interstate special access services from the merged or acquired company, and such special access services are or become eligible for pricing flexibility, the Customer may include those special access services in this Contract Offer, subject to any terms or conditions of any contracts or tariffs pursuant to which the Customer is purchasing such special access services prior to the merger or acquisition, including any terms or conditions regarding termination liability. If the Customer chooses to include the services subject to the merger or acquisition in this Contract Offer, they shall become Contributory Subject Services within the meaning of this Contract Offer at the time they are included in this Contract Offer. At the time such Contributory Subject Services are included in this Contract Offer, the MARC shall be recalculated, including both the recurring annual revenues of the Contributory Services provided to the Customer prior to the merger or acquisition and the recurring annual revenues of the additional Contributory Subject Services previously provided by the merged or acquired Company.

(B) The Customer must notify the Telephone Company in writing, within 120 days of the Transaction Close Date, of any Contributory Services from the merged or acquired company that Customer wishes to include in this Contract Offer. These termination liability charges shall become due as of the effective date of the termination of service and are payable as described below.

The Customer's termination liability charges shall be equal to:

50% of all recurring charges for the balance of Customer's term.

The termination liability charge will be calculated as follows:

(Monthly recurring rate) multiplied by (Months remaining in billing) multiplied by (Termination percentage of 50%)

Example: A Customer with a $16,000 monthly rate terminates service after one year and has twelve months remaining in a two year term plan. The termination liability would be calculated as:

$16,000 X 12 X 50% = $96,000 termination liability charge.

22.70.4 Portability of Existing Subject Services

The Telephone Company will waive otherwise applicable termination liability charges for moves and/or disconnection of existing Subject Services, provided that the Customer complies with the terms and conditions of this Contract Offer, including, but not limited to, Sections 22.70.3 and 22.70.5. In the event that termination liability charges for any such moves and/or disconnections are billed by the Telephone Company, the Customer will receive credits for those charges on a quarterly basis. To receive the credits or a waiver of termination liability charges for such moves and/or disconnects, the following conditions must be met:

(A) The Customer must be in compliance with all terms and conditions of this Contract Offer;

(B) DS3, OC-3 and OC-12 Point-to-Point services must have been in service for a minimum of one (1) year from the original installation date;

(C) OC-48 and OC-192 Point-to-Point services must have been in service for a minimum of three (3) years from the original installation date; and

(D) If the Customer fails to meet the MARC on a contract anniversary date pursuant to Section 22.70.5, fails to pay the Annual True-up as defined in Section 22.70.5 (E), or otherwise terminates this Contract Offer prior to the end of the Term Period, the Customer must pay the previous 12 months termination liability charges previously waived or credited by the Telephone Company.

22.70.5 Minimum Annual Revenue Commitment (MARC)

(A) Establishment of the MARC

The Customer must establish and maintain a MARC as provided in this Contract Offer. The MARC for the first year of the Term Period (Year 1) will be established when the Telephone Company receives the Letter of Subscription (LOS) from the Customer. For purposes of calculating the MARC for Year 1, recurring annual revenue for all existing and new Subject Services pursuant to this Contract Offer shall be included in the calculation of the Year 1 MARC.

(B) Determining the Minimum Annual Revenue Commitment

(1) The MARC shall be calculated as the sum of the recurring revenue for all Subject Special Access Services of the previous three (3) months of the contract year, multiplied by four(4).
(2) Example: Customer achieves $1,000,000 in previous three months of the contract year. The $1,000,000 is multiplied by 4 for a new MARC of $4,000,000.

$1,000,000 X 4 = $4,000,000

22.70.5 Minimum Annual Revenue Commitment (MARC) (Cont'd)

(B) Determining the Minimum Annual Revenue Commitment (Cont'd)

(3) The Customer's MARC for Year 1 shall be $3,000,000, or the MARC as calculated for the year prior (previous 3 months times 4) to the effective date of this Contract Offer, whichever is greater.

(4) The MARC for Years 2, 3, 4, and 5 will be reviewed and re-established on an annual basis, effective on the Contract anniversary dates.

If, for any year, the recalculated MARC is greater than the previous year's MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous year's MARC, the previous year's MARC will carry over for the new year.

Example of Year 2 MARC Establishment: Customer's Year 1 MARC is established at $3,000,000. At the end of Year 1, the total recurring revenue of the previous 3 months totaled $1,000,000. Multiply that number by 4, and the Customer's Year 2 MARC equals $4,000,000.

$1,000,000 X 4 = $4,000,000

(C) Failure to Achieve the MARC

If the Customer fails to achieve the Annual MARC for any year of the Term Period, the Customer must pay the difference between the Annual MARC for the current term year and the actual recurring annual revenue for the Qualifying services as set forth in the True-up process as described in Section 22.70.5 (E) within thirty (30) days of notification by the Telephone Company.

(D) Discounts and Other Credits

If the Customer exceeds the MARC by 10 percent upon the Term Period annual anniversary date, then the Customer will be eligible for a 2 percent credit of recurring annual revenue. If the Customer exceeds MARC by 15 percent, then the Customer will be eligible for a 3 percent credit of said annual revenue. If Customer exceeds the MARC by 20 percent, then the Customer will be eligible for a 5 percent credit of recurring annual revenue. If the Customer exceeds the MARC by 25 percent, then the Customer will be eligible for a 7 percent credit of recurring annual revenue. Said annual credits will be applied to Customer's bill within sixty (60) days after determination of MARC.

If the Customer fails to achieve the annual MARC Commitment as of the anniversary date, the Customer will be notified by the Telephone Company and will be required to remit an Annual True-up payment to reach the MARC commitment. The True-up calculation will be performed as follows:

Annual MARC – Actual Annual recurring revenues for Subject Services = Annual True-up Amount

If the Customer fails to submit its Annual True-Up payment to the Telephone Company within 30 days after notification from the Telephone Company, the Customer shall be deemed to have terminated its Contract Offer No. 70, and termination charges will apply as set forth in Section 22.70.9.

(2) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies, e.g. Standard and Poor's but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated:

(a) "fair" or below in a composite credit appraisal published by Dun and Bradstreet; or

If the Customer chooses to include the services subject to the merger or acquisition in this Contract Offer, they shall become Contributory Subject Services within the meaning of this Contract Offer at the time they are included in this Contract Offer. At the time such Contributory Subject Services are included in this Contract Offer, the MARC shall be recalculated, including both the recurring annual revenues of the Contributory Services provided to the Customer prior to the merger or acquisition and the recurring annual revenues of the additional Contributory Subject Services previously provided by the merged or acquired Company.

22.70.9 Termination Liability

(A) If the Customer terminates Contract Offer No. 70, the termination liability language contained below applies in lieu of the termination liability language described in Section 7. If the Telephone Company previously waived termination liability pursuant to the portability provision in Section 22.70.4 of this Contract Offer in the amount of $320,000, then the additional termination liability would be calculated as:

22.73 Contract Offering No. 73 – 2005 Access Extension Offer (Cont'd)

22.73.6 Calculation of the Total Revenue Commitment (TRC)

The Customer must establish and maintain a Total Revenue Commitment (TRC) as provided in this Contract Offer. Upon subscription, the Customer TRC will be established based on billed revenue from Contributory Services, as listed in Section 22.73.5, net of all discounts, credits, and adjustments as specified in Section 22.73.6(B)(1)(b), equal to 86.6 percent of 2004 Gross Spend rounded to the nearest million times 5/12's.

Example: Customer's 2004 Gross Spend equals $121.3M. 86.6% of $121.3M equals $105M (rounded to the nearest million). 5/12's of $105M equals $43.75M TRC.

$121.3M * 86.6% = $105M/12 = $8.75M * 5 = $43.75M

(A) Gross Spend, as defined in 22.73.6(A)(1),(2),(3),(4), (5), and (6), is calculated by taking the sum of all of the purchases from the Qualified Companies, as described in Section 22.73.5 preceding, based on billed revenue. The Gross Spend is net of all discounts from existing optional payment plans or other tariffs or offers utilized by the Customer as of the date of subscription to this Contract Offer, any renewals, replacements or extensions of the foregoing, and any underlying tariff performance credits, but does not include discounts received under MVP (MARC or SLA credits).

(1) Interstate Special Access recurring charges billed to the Customer associated with services described in Section 22.73.5 Table 3 and 4 preceding.

(2) Interstate Special Access non-recurring charges billed to the Customer (including, but not limited to, items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) except as noted in 22.73.6(A)(6).

(3) Intrastate Special Access recurring charges billed to the Customer associated with services described in Section 22.73.5 Table 4 preceding.

(4) Intrastate Special Access non-recurring charges billed to the Customer (including but not limited to items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) except as noted in 22.73.6(A) (6) below.

The Customer is eligible to receive two (2) types of credits under this Contract Offer.

(1) Basic Credit

The Basic Credit is equal to the difference between the TRC and the purchase of Contributory Services up to 148.9 percent of the TRC (rounded to the nearest million). The Customer will receive Basic Credits on Contributory Subject Services.

(a) Calculation of the Basic Credit. To determine the amount of Basic Credit the Customer can achieve, the TRC is multiplied by 148.9 percent. This amount less the TRC will equal the potential eligible Basic Credit rounded to the nearest million. If qualified, award of Basic Credit under this Contract Offer shall satisfy the Qualified Companies' Basic Credit obligations.

22.73.6 Calculation of the Total Revenue Commitment (TRC) (Cont'd)

(B) Application of Credits (Cont'd)

(1) Basic Credit (Cont'd)

(a) (Cont'd)

Example:

The Customer has 2004 Gross Spend of $121.3M. 86.6 percent of 2004 Gross Spend equals $105M rounded to the nearest million.

The TRC is equal to 5/12's of $105M.
5/12's of $105M equals $43.75M

The eligible total Basic Credit available is;

$43.75 * 148.9% = $65.14M
$65.14M - $43.75M = $21M eligible Basic Credits rounded to the nearest million.

(b) The following credits issued to the Customer associated with the Contributory Services covered under the TRC (MVP Commitment credits, MVP SLA credits, and credit received under the first true-up attributable to this Contract Offer) but not including any discounts or credits described in 22.73.6(B)(1)(c) below, will be used by the Qualified Companies to satisfy any applicable Basic and Achievement Credit obligations under this Contract Offer.

Example:

The Customer has TRC of $43.75M. The Customer achieves 148.9 percent of TRC equal to $65.14M. The Customer has received or is entitled to receive a total of $7M in MVP Commitment Credits and $2M in MVP SLA Credits for a total of $9M in credits unrelated to this Contract Offer.

Table 6

2004 Gross Spend calculated as described above	86.6 percent of 2004 Gross Spend (rounded)	TRC = 5/12's of 86.6 percent 2004 Gross Spend	148.9 percent of TRC as described above (rounded)
$121.3M	$105M	$43.75M	$65.14M

Qualified Companies' Basic Credit obligations to the Customer in the amount of $21M ($65.14M - $43.75M, rounded to the nearest million) under Contract Offer No. 73, as described in Table 6, will be satisfied by the $9M in non-contract related credits acquired by the Customer under MVP and MVP SLA, and $12M in Basic Credits paid related to this Contract Offer. This amount will be determined at the final true-up period once all other credits have been applied accordingly.

(c) MVP Commitment credits applicable to periods prior to 2005, MVP SLA credits applicable to periods prior to 2005, or other credits applicable to periods prior to 2005, other discounts from optional payment plans or other tariffs or offers utilized by the Customer as of the date of subscription to this Contract Offer, any renewals, replacements, or extensions of the foregoing, and any underlying tariff performance credits (other than MVP SLA credits) will not be used to satisfy any applicable Basic or Achievement Credit Obligations under this Contract Offer.

The Customer will not pay less than the TRC for the Term Period, except as described in Section 22.73.8 following. If the Customer does not achieve the TRC through the purchase of Contributory Services as of December 31, 2005, the Customer will be required to pay the deficiency.

22.73.6 Calculation of the Total Revenue Commitment (TRC) (Cont'd)

(B) Application of Credits (Cont'd)

(1) Basic Credit (Cont'd)

(c) (Cont'd)

Basic Credits shall be calculated and awarded on an aggregate basis across the Qualified Companies. If qualified for a Basic Credit, an award of Basic Credit under this Contract Offer shall satisfy any Basic Credit obligations of the other Qualified Companies under the tariff offerings listed in Section 22.73.2(C), and an award of Basic Credit under such other contract offers shall satisfy any Basic Credit obligations under this Contract Offer No. 73.

The total Basic Credit will be increased dollar for dollar to the extent that any amount by which Gross Spend during the Term Period exceeds 148.9 percent of the TRC is attributable to increases in tariff rates effective after March 31, 2005.

Example:

Customer's Gross Spend increased $10M due to applicable tariff rate increases after March 31, 2005.

Customer exceeds 148.9% of TRC by $30M.

Of the $30M, $10M is added to Basic Credit
$20M would receive Achievement Credit equal 17%

(2) Achievement Credits

Achievement Credits are those credits the Customer will receive based on purchases of Contributory Subject Services above 148.9 percent of the TRC.

(a) Achievement Credits are applied to purchase of services as described in Section 22.73.5 in excess of 148.9 percent of the TRC. The amount of applicable credit will be determined based on the amount of Gross Spend above the TRC as defined in Section 22.73.6 preceding, measured at the final true-up period described in Section 22.73.7 below. The Customer will receive a discount on Contributory Subject Services equal to 17 percent of total revenue above 148.9 percent of the TRC. (N)

(2) Achievement Credits (Cont'd)

(a) (Cont'd)

Achievement Credits shall be calculated and awarded on an aggregate basis across the Qualified Companies. If qualified, award of Achievement Credit under this Contract Offer shall satisfy the Qualified Companies' Achievement Credit obligations.

Example:

The Customer has TRC of $43.75M. The Customer achieves 155 percent of TRC equal to $67.8M. The Customer will receive $21M in Basic Credits as described above, and the Customer will receive $452K in Achievement Credits calculated as follows:

($67.8M minus (TRC x 148.9%)) x 17%

$67.8M – $65.14M ($43.75M x 148.9%) = $2.66M
$2.66M x 17% = $452K (Achievement Credits).

Table 7

148.9% of TRC	$65.14M
Gross Spend Achievement during Term Period (GSA)	$67.8M
Difference between 148.9% of TRC and GSA	$2.66M
Credit due for billed revenue above 148.9% of TRC x 17%	$452K

The Customer receives $21M in Basic Credits plus $452K in Achievement Credits for total credits of $21.452M as described in Table 7.

(3) Transfer of Qualified Services

(a) Any transfer of services from non-SBC wholesale entities/ACNAs will require an equivalent increase in the TRC commitment based on the amount of revenue associated with the transferred services. The Customer's maximum Basic Credit Amount will not change as a result of the transfer.

(B) Application of Credits (Cont'd)

(3) Transfer of Qualified Services

(a) (Cont'd)

Example: Customer has a TRC of $43.75M and is eligible to earn up to a maximum of $21M in Basic Credits. Customer transfers $10M of services from a non-SBC wholesale entity. The Customer's new TRC will be $53.75M ($43.75M plus $10M = $53.75M). The Customer's maximum Basic Credit ($21M) will not change as a result of the transfer.

22.73.7 True-up Process

To determine TRC achievement, two true-up calculations will be performed as follows:

(A) First True Up - At the expiration of the final regional MVP agreement, the minimum required revenue will be based on the TRC proportionately divided between the months of 2005 in whole or in part under MVP and the months of 2005 not under MVP plus 7/12's of 86.6 percent of 2004 Gross Spend, as described in Section 22.73.2 preceding.

Example 1: MVP expires 8/31/05. The Customer must meet a minimum of 1/5 of $43.75M TRC which is equivalent to $8.75M plus 7/12's of 86.6 percent of 2004 Gross Spend, as described in Section 22.73.2 preceding.

Example 2: MVP agreements expire 8/31/05 and 10/31/05. The Customer must meet a minimum of 3/5's of $43.75M TRC which is equivalent to $26.25M plus 7/12's of 86.6% of 2004 Gross Spend as described in Section 22.73.2 preceding.

If the Customer's purchase of Contributory Services, after all credits as described above, is greater than the minimum required revenue at time of true-up, the Customer will receive a Basic Credit equivalent to revenue above the minimum required revenue amount.

If the Customer's purchase of Contributory Services, after all credits as described above, is below the minimum required revenue at the time of true-up, the Customer will be billed the amount required to meet the minimum revenue amount and will pay such bill pursuant to Section 22.73.7 (D)

22.73 Contract Offering No. 73 – 2005 Access Extension Offer (Cont'd)

22.73.7 True-up Process (Cont'd)

(B) Final True Up - On December 31, 2005, calculation of final TRC achievement will be made to determine any eligible Basic or Achievement credits.

If the Customer's purchase of Contributory Services, after all credits as described above, is greater than the TRC required at time of true-up, the Customer will receive a Basic Credit against Contributory Subject Services equal to the amount above the TRC not to exceed the amount outlined in Section 22.73.6(B) preceding.

Example 3: The Customer's TRC is $43.75M.
The Customer's purchase of Contributory Services is $54M
The Customer will receive Basic Credit equal to $11.75M

If the Customer purchase of Contributory Services, after all credits as described above, is below the TRC at the time of the final true-up, the Customer will be billed the amount required to meet the TRC amount and will pay such charge pursuant to Section 22.73.7 (D).

Example 4: The Customer's TRC is $43.75M.
The Customer's purchase of Contributory Services is $38.75M
The Customer must pay $5M.

If the Customer's purchase of Contributory Services, after all credits as described above, is greater than 148.9 percent of the TRC, the Customer will receive a Basic Credit against Contributory Subject Services equal to the difference between the TRC and 148.9 percent of TRC, and an Achievement Credit against Contributory Subject Services equal to a 17 percent discount on services above 148.9 percent of TRC.

Example 5: The Customer's TRC is $43.75M
The Customer's purchase of Contributory Services is $67.8M
The Customer receives $21M in Basic Credits and $452K in Achievement credits.

(C) If at the time of final true-up the Qualified Companies owe the Customer a Basic Credit amount as described above, the credit will be applied to the Customer's bill no later then 30 days after the final true-up date.

(D) If at the time of true-up the Customer must buy-up to meet the TRC as described above, payment must be submitted to the Qualified Companies no later than 30 days after the true-up date.

22.73.8 Service Level Agreement (SLA)

The Qualified Companies will calculate the MVP SLA 1 performance measurement point value and the SLA 2 performance measurement as described in F.C.C No. 2 Section 19.3 (G), as if it were applicable for the full 2005 calendar year. The Qualified Companies will calculate the MVP SLA 1 performance measurement point value and the SLA2 performance measurement as described in F.C.C 2 Section 19.3 (G), as if it were applicable for the full 2004 calendar year. No credits will be rendered with respect to 2005 based on these calculations, but if these calculations show that the Qualified Companies would have paid out a higher amount under the MVP SLAs in calendar year 2005 (if the Customer had been eligible to receive credits under the MVP SLAs through calendar year 2005) than what the Qualified Companies would have paid out under the MVP SLAs in calendar year 2004, the Qualified Companies will determine the difference between what the Qualified Companies paid out under MVP SLA in calendar year 2004 versus what the Customer would have been eligible to receive under MVP SLA if MVP extended through calendar year 2005. If the MVP SLA credit amount the Qualified Companies would have paid out for calendar year 2005 is greater than the MVP SLA credit amount paid out for calendar year 2004, then the MVP SLA credit amount the Customer received in calendar year 2004 will be subtracted from the amount of MVP SLA credit the Customer would have qualified for in calendar year 2005 and, if a positive number, the amount of any difference, less any impact based on an MVP MARC increase, will be deducted from the Customer's TRC.

Any credits due to the Customer resulting from any deduction to the TRC under this section will be determined and applied after the December 31, 2005 true-up process is finalized.

Example A: MVP calendar year 2005 effective SLA credit would be greater than MVP calendar year 2004 SLA credit

The Customer MVP MARC = $30M (with MVP term agreement expiration August 31, 2005)

MVP calendar year 2004 total SLA credit = 1%

$30M * 1% = $300K total SLA credit received by the Customer in calendar year 2004

22.73 Contract Offering No. 73 – 2005 Access Extension Offer (Cont'd)

22.73.8 Service Level Agreement (SLA) (Cont'd)

Example A: (Cont'd)

MVP calendar year 2005 effective SLA credit the Customer would have received if MVP extended through December 31, 2005 = 2%.

$30M * 2% = $600K total SLA credit the Customer would have received in calendar year 2005.

MVP calendar year 2005 effective SLA credit ($600K) minus MVP calendar year 2004 credit ($300K) = $300K.

The Customer qualifies for a $300K SLA credit to be applied to the Customer TRC.

$105M - $300K = $104.7M (new TRC) .

Example B: MVP calendar year 2005 effective SLA credit is less than or equal to MVP calendar year 2004 SLA credit.

The Customer MVP MARC = $30M (with MVP term agreement expiration August 31, 2005).

MVP calendar year 2004 total SLA credit = 1%.

$30M * 1% = $300K total SLA credit received by the Customer in 2004.

MVP calendar year 2005 effective SLA credit the Customer would have received if MVP extended through December 31, 2005 = 1%.

$30M * 1% = $300K effective SLA credit the Customer would have received in 2005.

MVP plan year 2005 effective SLA credit ($300K) minus MVP plan year 2004 SLA credit ($300K) = $0.

The Customer does not qualify for any additional SLA credits toward its TRC.

If the Customer wishes to assign or transfer its use of services under this Contract Offer No. 73 pursuant to F.C.C. No. 2, Section 2.1.2 of this Tariff, the Qualified Companies will acknowledge such transfer or assignment pursuant to the terms of F.C.C. No. 2, Section 2.1.2, unless:

(A) the proposed assignee or transferee demonstrates a lack of credit worthiness under one of the criteria in (1) or (2) below, or

(B) if the proposed assignee or transferee or its parent company has commenced a voluntary receivership or bankruptcy proceeding (or had a receivership or bankruptcy proceeding initiated against it).

(1) Any debt securities of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly, more than 50 percent of the equity of the proposed assignee or transferee) are rated below investment grade, as defined by the Securities and Exchange Commission or if any debt securities of a proposed assignee or transferee or its parent are rated the lowest investment grade and have been placed on review by the rating organization for a possible downgrade.

(2) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies (e.g. Standard and Poor's), but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated "fair" or below in a composite credit appraisal published by Dun and Bradstreet, or "high risk" in a Paydex score as published by Dun and Bradstreet.

The terms and conditions of this Contract Offer shall continue in full force and in effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or assets to any other entity or purchases all stock or substantially all stock or certain assets of another company (the foregoing generally referred to herein as a merger or acquisition). Upon the Transaction Close Date of the merger or acquisition, if the other company involved in the merger or acquisition also purchases any services that are Contributory Services under this Contract Offer No. 73 from the Qualified Companies, the Contributory Services as provided for in this Contract Offer will continue to be maintained at the same volume, rates, terms, and conditions as outlined herein. The Transaction Close Date shall be defined as the date that the stock purchase is complete and/or the final date on which the assets of the acquired/merged company have been purchased.

The terms and conditions of Section 22.73.9 above do not apply when the merger or acquisition occurs in accordance with the provisions outlined in this Section 22.73.10.

22.73.11 Termination Liability Charges

Termination liability language described below applies in lieu of the termination liability language in F.C.C No. 2, Section 7. If the Customer terminates Contract Offer No. 73 before the expiration of the Term Period for any reason whatsoever the Customer must pay the Qualified Companies termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification 90 days prior to the desired date of termination to the Qualified Companies. This notification must include the date upon which the Customer will terminate the Contract Offer.

If the Customer fails to meet any of the eligibility criteria in Section 22.73.2, or fails to meet any of the terms and conditions in Contract Offer No. 73, then the Qualified Companies shall provide the Customer with written notification of such non-compliance and the Customer will have sixty (60) days to return to compliance. If the Customer does not return to compliance within such time period, the Customer will be deemed to have terminated its participation in Contract Offer No. 73 and termination liability charges will apply as stated below and will be payable within thirty (30) days from the time the contract is deemed terminated.

If the Customer terminates its subscription to this Contract Offer prior to September 30, 2005, the Customer must pay termination liability charges in an amount equivalent to a prorated portion of the TRC based upon the remaining months of the TRC as shown below:

(A) Example:

The Customer's TRC is $43.75M. The Customer terminates the contract on August 31, 2005. The Customer has 4 months remaining on the contract term and will owe $35M in termination liability

$43.75M/5 * 4 = $35M = in termination liability

If the Customer terminates its subscription to this Contract Offer after September 30, 2005, the Customer must pay termination liability charges in an amount equivalent to a prorated portion of the TRC based upon the remaining months of 2005, as well as any credits received under this Contract Offer.

Contributory Services include Contributory Subject Services, as described in Section 22.79.2(C), herein, in addition to the following Contributory Non-Subject Services (that are not Contributory Subject Services): OPT-E-MAN, ATM, and Frame Relay services. Such agreements and/or contracts shall be available for review at the website established to make public any agreements for these services. 22.79.3 Terms and Conditions

(A) Term Period

The term of this Contract Offer (Term Period) is five (5) years, commencing on the date the Customer executes a Letter of Subscription (LOS). The Anniversary Date shall be based on the date of the executed LOS. Contract Offer No. 79 is not renewable.

Contributory Subject Services to which the Customer already subscribes as of the commencement of the Term Period, or any additional Contributory Subject Services included in this Contract Offer after commencement of the Term Period in accordance with the Terms and Conditions set forth herein, must be converted to five (5) year term payment plans (where available) to receive discounts pursuant to this Contract Offer no later than August 1, 2006, except for those services whose conversion would cause the rates to increase over existing rates; those services would be exempt and remain at existing rates on the current term payment plan for those services. If a five (5) year term payment plan is not available for certain Contributory Subject Services, the Customer must select the longest term plan available for the Contributory Subject Service.

Services are subject to certain rates, charges, and general terms and conditions in other sections of F.C.C. Tariff No. 2, as set forth in Sections 2-General Regulations, 5-Ordering Options for Switched & Special Access Service, and 13-Additional Engineering, Additional Labor & Miscellaneous Services. Such terms and conditions may be modified through the filing of tariff changes at any time during the Term Period. Such tariff modifications will not change the Terms and Conditions described in this Contract Offer.

(B) Contract Offer No. 79 is available for subscription only from September 7, 2005 through October 7, 2005.

(C) The Customer must submit a completed Letter of Subscription (LOS) to the Telephone Company.

(D) Commingling, as defined in F.C.C. No. 2, Section 2.6 of Subject Services under this Contract Offer, is prohibited.

(E) The Customer must subscribe to this Contract Offer in accordance with the regulations set forth in Ameritech Tariff F.C.C. No. 2, Section 5 – Ordering Options for Switched Access and Special Access Services.

22.79.3 Terms and Conditions (Cont'd)

(F) The Customer may not subscribe to any future Contract Offerings in Section 22 in conjunction with this Contract Offer or that might be offered by the Telephone Company for Subject Services covered under this Contract Offer unless expressly permitted in the future Contract Offer.

(G) The Customer must pay billed charges in full throughout the Term Period of this Contract Offer, excluding amounts being disputed. The Telephone Company will exhaust its remedies under Section 2.4.1 of F.C.C. Tariff No. 2 before exercising any remedy under this section. The Telephone Company will provide the Customer written notice (via registered letter) of non-compliance. The Customer will have thirty (30) days from receipt of the written notice to comply, which may be extended by mutual agreement of the Parties to allow the Parties to attempt to resolve any disputes. During this thirty (30) day period, or a period to be mutually agreed upon by the Parties, the Parties will cooperate in good faith to attempt to resolve any pending disputes. If, after the Parties have exhausted attempts to resolve any pending disputes or have resolved disputes and the Customer does not comply with the written notice of non-compliance, the Telephone Company shall have the right to terminate this Contract Offer. In the event of termination by the Telephone Company, termination liability charges as set forth in Section 22.79.11 will apply. Credits will not be issued until the Customer has paid all billed charges (excluding disputes). Any disputed billing amounts that have been resolved in favor of the Telephone Company are due and payable as described in Section 2.4.

(H) Customer must have achieved billing of Contributory Subject Service, Switched Access Transport, that is no greater than $100,000 upon subscription to this Contract Offer.

(I) If the Telephone Company introduces a new Special Access or Switched Access service, or an enhancement to an existing Special Access or Switched Access service, then such services shall be automatically included as Contributory Non Subject Services, and the Customer's purchase of such new or enhanced Contributory Non-Subject Services shall be included in the calculation of the MARC, subject to the Terms and Conditions set forth in this Contract Offer.

(I) The Customer will continue to receive the benefit of rate stability for any Contributory Subject Services currently under a term plan with the Telephone Company that provides for rate stability.

22.79.4 Minimum Annual Revenue Commitment (MARC)

Contract Offer No. 79 requires the Customer to establish and maintain a Minimum Annual Revenue Commitment (MARC) for each year of the five (5) year Term Period, as defined in Section 22.79.4(A). The MARC shall include all Contributory Services purchased from the Telephone Company or its affiliates available under this Contract Offer. Contributory Services include Contributory Subject Services, as described in Section 22.79.2(C), herein, in addition to Contributory Non-Subject Services (that are not Contributory Subject Services). 22.79.4 Minimum Annual Revenue Commitment (MARC) (Cont'd)

(A) Establishing the MARC

(1) The Customer's Year 1 MARC will be established when the Telephone Company receives the LOS from the Customer. The Customer's MARC for Year 1 shall be $12.0 Million, or four times the Customer's monthly recurring revenue for Contributory Services during the three months immediately preceding the receipt of the signed LOS, whichever is greater.

Example 1: LOS is executed on August 1, 2005. The Year 1 MARC is established upon subscription at $12.0M. The Customer's actual revenue to Telephone Company from May 1, 2006 to July 31, 2006 is $4M. The new Year 2 MARC, effective August 1, 2006, is $16M ($4M multiplied by 4 equals $16M.)

(2) The MARC will be re-established, effective on each Anniversary Date, beginning on the first anniversary (Year 2 MARC). The MARC for Years 2, 3, 4, and 5 will be based on the Customer's actual monthly recurring revenue for all Contributory Services during the previous 3 months multiplied by 4, or the then-current MARC, whichever is greater.

Example 2: Term Period begins August 1, 2005. The MARC for Year 2 is $16.0M. The Customer's actual revenue to Telephone Company from May 1, 2007 to July 31, 2007 is $2.5M. The new Year 3 MARC, effective July 1, 2007, is $16.0M. (The $16.0M MARC is due to the fact that the MARC recalculation cannot result in a MARC lower than the current MARC.)

(B) Inclusion of Contributory Subject Services

(1) The following are the only billed revenues that can be included in the MARC:

(a) Monthly billed recurring revenues, including (net) any credits or discounts given under existing pricing plans (e.g. Term Payment plans or Commitment Discount Plan), if applicable, for the Subject Services provided during the Term Period; and

(b) Any credits and adjustments made to monthly billed amounts for Subject Services which are purchased by the Customer during the Term Period.

(1) (Cont'd)

(c) All other charges, other than those listed in Section 22.79.4 (B) (1), are excluded.

Customer's existing Contributory Subject Services that are included in the MARC will be based on the rates that would apply to a five-year minimum term, regardless of whether the Contributory Subject Services were actually purchased pursuant to a five-year term at the time of subscription to this Contract Offer.

(N)
(Nx)

(C) Inclusion of Additional Contributory Services

Not withstanding anything to the contrary herein, the Customer may, at its option, include in this Contract Offer any Contributory Services being provided to the Customer by the Telephone Company according to a tariff or contract other than this Contract Offer, provided, however, that the MARC must be increased to reflect the recurring annual revenues associated with the additional Contributory Services, as provided in Section 22.79.4. The Customer must provide written notice to the Telephone Company of its wish to exercise this option. If any additional Contributory Services are ATM or Frame Relay services, those additional Contributory Services shall be provided pursuant to an agreement and/or contract which shall be available for review at the following web site: https://www.sbcprimeaccess.com/shell.cfm?section=2501.

(C) Inclusion of Additional Contributory Services (Cont'd)

Example Year 1 MARC = $12.0M. If, during Year 1, Customer wishes to include $2M of annual spend currently purchased from the Telephone Company under another tariff or contract, and if those services qualify as Contributory Services, the new Year 1 MARC is $14.0M.

(D) MARC Adjustments

The Customer may exercise the following adjustments to the MARC pursuant to the terms listed below:

(1) Option 1 - The Customer may, at its option, adjust the MARC downward by up to 10%. This adjustment can be made only one time during the Term Period, at any time after the first 24 months of the Term Period (i.e., beginning with the establishment of the Year 3 MARC). To exercise this option, the Customer must notify the Telephone Company, in writing, at least 60 days prior to the Anniversary Date upon which the adjustment is to become effective.

(2) Option 2 - The Customer may carry over a shortfall of no more than 5% into the next contract year. This adjustment can be made only one time during the Term Period, at any time after the first 24 months of the Term Period (i.e., beginning with the establishment of the Year 3 MARC). To exercise this option, the Customer must notify the Telephone Company, in writing, at least 60 days prior to the Anniversary Date upon which the adjustment is to become effective. If the Customer opts to carry over a shortfall, the Customer's next year MARC will be increased to reflect that shortfall amount. If at the end of the subsequent contract year, the Customer does not meet its MARC, the Customer must make a shortfall payment sufficient to achieve that year's MARC or will be subject to termination liabilities as outlined in Section 22.79.4(E). This option cannot be combined with the MARC adjustment option as described in Section 22.79.4(D)(1).

The MARC adjustment shall apply prospectively only. If the Customer uses the MARC adjustment option in conjunction with any of the Merger and Acquisition options outlined in Section 22.79.9, reduced discounts will remain for the life of the Term Period, and discounts previously received during that contract year will not be re-rated, provided the Eligibility Criteria in Section 22.79.2 and Terms and Conditions in Section 22.79.3 have been met prior to the MARC adjustment, and certain provisions will no longer apply as detailed in Section 22.79.5.

(E) Failure to Achieve the MARC

The Customer and the Telephone Company shall exchange information annually, and shall meet annually, if necessary, to review the Customer's progress toward achieving the MARC for the term years. The Customer and the Telephone Company agree that they will meet in the ninth month of each term year to discuss and address, if necessary, compliance with the Terms and Conditions of the Contract Offer prior to the Anniversary Date. If the Customer fails to achieve the annual MARC Commitment as of the Anniversary Date, the Customer will be notified by the Telephone Company and will be required to remit an Annual True-up payment to reach the MARC commitment. The True-up calculation will be performed as follows:

Annual MARC – Actual Annual recurring revenues for Subject Services = Annual True-up Amount

If the Customer fails to submit its Annual True-Up payment to the Telephone Company within 30 days after notification from the Telephone Company, the Customer shall be deemed to have terminated its Contract Offer No. 79, and termination charges will apply as set forth in Section 22.79.11.

22.79.5 Discounts and Other Credits

(A) Discount Schedule and Application

On each Anniversary Date, the Customer shall be eligible to receive the following Billing Credit, as set forth in Table A, subject to the Customer's compliance with all Terms and Conditions of this Contract Offer. Credits will be applied to the Customer's bill no later than 90 days after each Anniversary Date. Recurring revenue generated from Contributory Subject Services that were not included in this Contract Offer at the time of subscription are not eligible for discounts under this Contract Offer, unless and until those Contributory Subject Services have been added to this Contract Offer pursuant to Sections 22.79.2, 22.79.4, 22.79.9 and 22.79.10.

Table A

MARC Level	Billing Credit
$12,000,000	2.00%
$14,000,000	3.00%
$15,125,000	3.50%
$16,000,000	4.00%

$20,000,000	6.00%

22.79.5 Discounts and Other Credits (Cont'd)

(A) Discount Schedule and Application (Cont'd)

Example: If the Customer meets the minimum MARC of $12,000,000 for sum of all Contributory Services and has Subject Services revenue of $9,584,000. The Customer will be eligible to receive a credit of $191,681.

$9,854,000 X 2% = $191,680

(B) First Year Credit

If at the end of the Year 1 of this Contract Offer, the Customer's MARC for Year 2 is $15.125M or higher, the Customer will receive an additional credit of 2.78 percent of Subject Services applied to the Customer's bill no later than 90 days after the anniversary date for Year 1.

Example: If the Customer reaches the MARC level of $15.125M at the end of year 1 for the sum of all Contributory Services and has Subject Services revenue of $11,230,000. The Customer will be eligible to receive a credit of $312,194.

$11,230,000 X 2.78% = $312,194

22.79.6 Incentives

(A) Purchase of New Contributory Subject Services

During the Contract Term period of subscription to this Contract Offer, the Telephone Company will calculate the billed revenue as described in Section 22.79.4 (B), of new eligible Subject Services towards meeting the MARC on the first contract anniversary date, the beginning of the second year of the Contract term period, and such revenue will be will be increased by 15 percent under this Contract Offer.

Example: Assume that the Customer's total monthly billed recurring revenues for new OC3/OC3c services during the first Contract Term Year Period was $1,000,000 ($1M). The Telephone Company will calculate the billed revenue for new Contributory Subject Services on the first Contract anniversary date for purchases made during such period and the Customer shall be deemed to have purchased $1,150,000 ($1.15M) in Contributory Subject Services. In subsequent years, these OC3 services would count as $1,000,000 ($1M) toward MARC calculations. The calculation to determine if the Customer met the MARC requirements will be:

(New Subject Services purchased during the first contract year multiplied by 1.15) + Existing Contributory Subject Services = Total value of Contributory Subject Services. (N)

22. Pricing Flexibility Contract Offerings (Cont'd) (N)

22.79 Contract Offer No. 79 – Special Access Service Offer (Cont'd)

22.79.6 Incentives (Cont'd)

(A) Purchase of New Contributory Subject Services (Cont'd)

This total value of Contributory Subject Services will then determine if the Customer meets the MARC as described in Section 22.79.4 and/or has earned any incentive credits as described in Section 22.79. 5.

Purchase of the aforementioned new Subject Services in Year 2, 3, 4 and 5 of this Contract Offer will not receive the increased value towards meeting the MARC.

Example: Assume that the Customer's total monthly billed recurring revenues for new OC3/OC3c services during the second Contract Term Year Period was $1,000,000 ($1M). The Telephone Company will calculate the billed revenue for new Contributory Subject Services on the second contract anniversary date, the beginning of the third year of the Contract Term period, for purchases made during the second year and the Customer shall be deemed to have purchased $1,150,000 ($1.0M) in Contributory Subject Services toward MARC calculations. The calculation to determine if the Customer met the MARC requirements will be:

New Subject Services purchased multipled by 15 percent + Existing Contributory Subject Services (prior year one purchases plus existing subject services) = Total value of Contributory Subject Services.

The increase value of new eligible services shall be used only to determine attainment of the MARC, and not for any other purposes. If the Customer fails to meet the MARC requirements as stated in section 22.79.4 after such calculation as described above, the Customer will be subject to the true-up provision as stated in Section 22.79.4 (E)

For purposes of this Contract Offer, a new SONET OC3/OC3c service must meet one of the following criteria:

(1) Newly ordered and provisioned during the first year of the Contract Term period by the customer under this Contract Offer; or

(2) Upgrade of an existing Special Access service during the first year of the Contract Period that was not previously a SONET OC3/OC3c service (e.g., upgrade of a DS1 or DS3 to a SONET OC3 service) under the provisions set forth in other sections of this tariff.

22.79 Contract Offer No. 79 – Special Access Service Offer (Cont'd)

22.79.6 Incentives (Cont'd)

(B) Conversion of DS1 or DS3 capacity loops:

For customers who subscribe to this Contract Tariff No. 79 and convert their DS1 or DS3 capacity loops, dedicated transport, or Expanded Extended Loops (**EELs**) provided by the Telephone Company as unbundled network elements (**UNEs**) to Special Access Service, the Telephone Company will multiply the customer's billed revenue associated with such converted UNEs by 1.50 in the year of conversion towards the attainment of the MARC. The converted services in subsequent years will not receive the billed revenue multiplier towards the attainment of the MARC. This multiplier shall be used only to determine the billed revenue for Qualifying Services for purposes of MARC attainment, and not for any other purpose. The Customer shall provide a detailed list of circuits that have been converted to the Telephone Company within 30 days after the contract anniversary year for verification.

For example, if the customer converts $1,000,000 ($1M) in UNEs to Special Access Services during the first Annual Contract Term Period of this Contract Tariff No. 79, then, in calculating billed revenue for Qualifying Services, the customer shall be deemed to have purchased $1,500,000 ($1.50M) in Special Access DS1 Services for purposes of calculating the billed revenue for Qualifying Services for meeting the MARC as described in section 22.79.4. In subsequent years, the converted UNE services would count as $1,000,000 ($1M) towards MARC calculations.

22.79.7 Non-Recurring Charges

The Telephone Company will waive installation non-recurring charges (NRCs) associated with the conversion of Contributory Subject Services pursuant to this Contract Offer. In the event that the installation NRCs are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis. In addition, the Telephone Company will waive Non-recurring charges (NRCs) associated with the conversion of existing UNE circuits which are converted to Special Access Services under the terms of this contract tariff offer. In the event that the installation NRCs are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis.

To receive credits for installation NRCs, the Customer must be in compliance with all terms and conditions of this Contract Offer. Additionally, if the Customer fails to meet the MARC on an Anniversary Date pursuant to Section 22.79.4 (A) and/or fails to pay the Annual True-Up as defined in Section 22.79.4 (E), termination liability charges will apply as set forth in Section 22.79.11.

The Customer must pay all other applicable non-recurring charges, including, but not limited to, rearrangement charges, special construction charges, access order charges, cancellation charges and Access Order Modification charges as described in Ameritech F.C.C. No. 2.5.2.2 for Subject Services pursuant to this Contract Offer.

22.79.8 Portability

The Telephone Company will waive termination liability charges for moves and/or disconnection of Contributory Subject Services. In the event that termination liability charges for any such moves and/or disconnections are billed by the Telephone Company, the Customer will receive credits for these charges on a quarterly basis. In order to receive credits or a waiver of termination liability charges for such moves and/or disconnects, the following conditions must be met:

(1) The Customer must be in compliance with all terms and conditions of this Contract Offer.
(2) The Customer shall be permitted to move and/or disconnect Contributory Subject Services from any of the identical Contract Offers, as described in Section 22.79.2 (B).
(3) DS1 Services must have been in service for a minimum of one (1) month from the original installation date.
(4) DS3, OC-3 and OC-12 Point to Point Services must have been in service for a minimum of one (1) year from the original installation date.
(5) OC48 Point To Point, OC192 Point to Point and GigaMAN Services must have been in service for a minimum of three (3) years from the original installation date.

If, and to the extent that OPT-E-MAN becomes eligible for pricing flexibility, OPT-E-MAN may, at the Customer's option, become a Contributory Subject Service included in this Contract Offer. If so, such OPT-E-MAN service shall be eligible for portability provided that, for each OPT-E-MAN circuit to be ported:

(a) facilities necessary to provide OPT-E-MAN, as specified in F.C.C. No. 2, Section 24, exist at the end user location in which the circuit is being moved; and
(b) the circuit has been in service for a minimum of one (1) year from the original installation date.

22.79.9 Mergers and Acquisitions Involving the Customer

(A) The Terms and Conditions of Contract Offer No. 79 shall continue in full force and effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company (the foregoing generally referred to herein as a merger or acquisition). During or after the merger or acquisition, if the other company involved in the merger or acquisition also purchases Contributory Services from the Telephone Company, either directly or through any affiliates, then billed, recurring revenue for Contributory Services of the other company involved in the merger or acquisition will not be used in calculations of the MARC as discussed in Section 22.79.4.

22.79.9 Mergers and Acquisitions Involving the Customer

(A) (Cont'd)

(1) The Customer must be meeting MARC commitments and all Eligibility Criteria and Terms and Conditions outlined in Sections 22.79.2 and 22.79.3 in order to exercise the provisions under this subsection.

(2) Recurring revenue from Contributory Services from the other entity involved in the merger or acquisition cannot be applied to, or eligible for, any incentives or discounts contained in this Contract Offer, except as expressly permitted by one of the provisions herein.

(3) The Customer shall have an option (per merger or acquisition) to incorporate revenue from the other company or companies involved in the merger or acquisition. If the Customer does not exercise this option in the manner provided herein, the Customer will not be permitted to use existing or future Special Access revenues from the other company or companies involved in the merger or acquisition in the calculation of the MARC Section 22.79.4, nor will such revenues be eligible for any discounts provided under this Contract Offer.

(4) The acquisition and/or merger Transaction Close Date will be used to measure the length of time the following provisions are available. The Transaction Close Date shall be defined as the date that the stock purchase is complete and/or the final date on which the assets of the acquired/merged company have been purchased.

(5) If the Customer has selected, but not yet fully implemented, the option provided herein, the MARC, and any MARC adjustment calculation as provided in Section 22.79.4, will apply only to the Customer's original (pre-merger or acquisition) MARC and will not include revenue from the other company involved in the merger or acquisition.

(6) The Customer cannot combine any of the Merger and Acquisition provisions in this subsection. (N)

22.79.9 Mergers and Acquisitions Involving the Customer (Cont'd)

(A) (Cont'd)

(7) The Telephone Company will calculate the actual recurring annual revenue of the other company involved in the merger or acquisition on the date the Customer elects the provisions in this subsection, in the same manner such revenue would be calculated for purposes of performing the annual recalculation of the MARC under this Contract Offer. Until the Customer has fully implemented one of the provisions in this subsection, the Customer will not be eligible to earn the above the MARC discounts discussed in Section 22.79.5 (A)(2) of this Contract Offer for revenue from the other company involved in the merger or acquisition. After the Customer has fully implemented the provision in this subsection, the Customer will be eligible for above the MARC discounts provided in Section 22.79.5(A)(2) for recurring annual revenue above the new combined MARC.

Notwithstanding the foregoing, if the Telephone Company is primarily responsible for a delay in the Access Conversion Schedule, MARC discounts will continue to apply and this Contract Offer will not be considered in default, provided, however, that each party shall exercise best efforts to comply.

(B) Option 1

(i) The Customer must establish a combined MARC by adding to the Customer's then-current MARC at least 85%, but not more than 100% (at the Customer's option), of all recurring annual revenue for Contributory Services from the other company involved in the merger or acquisition. Recurring annual revenue for Contributory Services shall be calculated in a manner consistent with the annual recalculation of the MARC under this Contract Offer.

(ii) The Customer must exercise this option within 60 days following the Transaction Close Date.

(iii) This option is not available in Year 5 of the Term Period.

22.79.10 Merger or Acquisition Involving the Telephone Company

(A) If the Customer purchases any interstate special access services from the merged or acquired company, and such special access services are or become eligible for pricing flexibility, the Customer may include those special access services in this Contract Offer, subject to any terms or conditions of any contracts or tariffs pursuant to which the Customer is purchasing such special access services prior to the merger or acquisition, including any terms or conditions regarding termination liability. At the time such Contributory Subject Services are included in this Contract Offer, the MARC shall be recalculated, including both the recurring annual revenues of the Contributory Services provided to the Customer prior to the merger or acquisition and the recurring annual revenues of the additional Contributory Subject Services previously provided by the merged or acquired Company.

(B) The Customer must notify the Telephone Company in writing, within 120 days of the Transaction Close Date, of any Contributory Services from the merged or acquired company that Customer wishes to include in this Contract Offer. 22.80.8 Termination Liability

Termination liability language described below applies in lieu of the termination liability language described in Section 7.4.10 (C). If the Customer terminates Subject Services under this Contract or terminates the Contract Offer in its entirety before the completion of the term period for any reason, the Customer must pay the Telephone Company termination charges as described in this section. These charges shall become due as of the effective date of the termination of service. The Customer must provide written notification to the Telephone Company 30 days prior to the desired date of termination of the Subject Services pursuant to this Contract Offer.

If the Customer fails to meet any of the eligibility criteria in Section 22.80.3, or fails to meet any of the Terms and Conditions in Section 22.80.4, the Customer will be deemed to have terminated services under this Contract Offer and Termination Liability is payable.

(A) Customer terminates a Subject Service:

If the Customer terminates a Subject Service before the completion of the term period, the Customer's termination liability charge for termination of service shall be equal to:

Example: The Customer terminates service on a DS3 with a $ 1202.50 monthly charge after thirty (30) months of service and has six (6) months remaining in the thirty-six (36) month term. The termination liability would be calculated as:

$ 1202.50 X 6 X .50 = $ 3607.50 termination liability charge. (N)

22.80.8 Termination Liability (Cont'd)

(B) Customer terminates Contract Offer

If the Customer terminates this Contract Offer before the completion of the term period, the Customer's termination liability charges for termination of the contract shall be equal to:

The difference between the Actual Current Annual Recurring Revenue for Subject Services and the annual MARC at the time of termination, plus 50% of the annual MARC at the time of termination for each subsequent year remaining in the term period.

(Annual MARC – Annual Current Recurring Revenue) + 50% (Annual MARC x years remaining) = termination liability.

Example: the Customer terminates the contract in Year 2 and Customer has 1 year remaining in a 3 year term period. Customer's annual MARC at time of termination is $2,000,000 and actual recurring revenue is $1,500,000. The Termination liability charge will be as follows:

($2,000,000 – 1,500,000) + (50% 0f $2,000,000 x 1) = $ 1,500,000. termination liability charge.

22.90 Contract Offering No. 90 – Access Discount Offer (Cont'd)

22.90.6 Calculation of the Total Revenue Commitment (TRC)

The Customer must establish and maintain a Total Revenue Commitment (TRC) as provided in this Contract Offer. Upon subscription, the Customer's TRC will be established, as described in Table 5 below, based on billed revenue from Contributory Services, as listed in Section 22.90.5, net of all discounts, credits, and adjustments as specified in Section 22.90.6(B).

The Contract Year shall be each Calendar Year, or fraction thereof, to which this Contract Offer applies, as described in Table 5 below.

Table 5

Contract Year	2005 (Dec)	2006	2007
TRC equals	86.5% of 2004 Gross Spend described in (A) below, rounded to the nearest million dollars, times 1/12's	2005 TRC times 12 times 89.7%, rounded to the nearest million dollars	2005 TRC times 12 times 83.4%, rounded to the nearest million dollars

(A) Gross Spend shall include all billed revenue for services identified in Section 22.90.6(A), and shall be based on the sum of all of the purchases from the Telephone Company and its affiliated telephone companies, including all of the contract offers as described in Section 22.90.2 (C), as described in Section 22.90.5 preceding, based on billed revenue. The Gross Spend is calculated as billed revenue, prior to the application of MVP discounts, MVP Service Level Agreement (SLA) credits and Discount Value Plan (DVP) credits, but after all other tariff term plan discounts, and other underlying tariff performance credits**.**

(1) Interstate Special Access recurring charges billed to the Customer associated with services described in Section 22.90.5 Table 3 and 4 preceding.

(2) Interstate Special Access non-recurring charges billed to the Customer (including, but not limited to, items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges), except as noted in 22.90.6(A)(7).

(3) Intrastate Special Access recurring charges billed to the Customer associated with services described in Section 22.90.5 Table 4 preceding.

(4) Intrastate Special Access non-recurring charges billed to the Customer (including but not limited to items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges), except as noted in 22.90.6(A) (7). (5) Interstate Switched Access Dedicated Transport recurring and non-recurring charges (including, but not limited to, items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) billed to the Customer for rate elements in Table 6 below.

Table 6

Service	General Basic Description
Entrance Facilities	Section 6.1.3(A)(1)(a)

(6) Intrastate Switched Access Dedicated Transport recurring and non-recurring charges (including, but not limited to, items such as termination liability charges, expedite charges, cancellation charges, rearrangement charges, installation charges, and access order charges) billed to the Customer and remitted for rate elements equivalent to those described in Table 6 above.

(7) Non-recurring charges identified in 22.90.6(A)(2), (4), (5) and (6) exclude Special Construction and unregulated time and materials charges (e.g. Inside Wire, Custom Work Orders, etc.)

(B) Application of Credits

The Customer is eligible to receive two (2) types of credits under this Contract Offer. For the purposes of this Contract Offer, Customer will receive any applicable credits (the Basic Credit and Achievement Credit) through the SBC wholesale sales channel for all of the contract offers as described in Section 22.90.2 (C). The sum of all Basic Credits applicable under the individual contract offers listed in Section 22.90.2 (C) cannot exceed the total maximum Basic Credit described in Table 7 following. Award of the credits described below under this Contract Offer shall satisfy the credit obligations of the Telephone Company and its affiliated telephone companies to the Customer, as described in Section 22.90.2(C).

(1) Basic Credit

The Basic Credit for each Contract Year shall be equal to the Gross Spend of Contributory Services minus the TRC, but not to exceed the Maximum Basic Credit as described in Table 7. This calculation shall be performed at the commencement of the Contract Offer, and the Maximum Basic Credit resulting from these calculations will not change at any time during the Term Period except as described in Section 22.90.11 following. The Customer will receive Basic Credits on Contributory Subject Services on a monthly basis, as provided in Section 22.90.6(B)(1)(b), for each Contract Year and subject to the true-up process described in Section 22.90.8 following.

(B) Application of Credits (Cont'd)

(1) Basic Credit (Cont'd)

(a) Calculation of the Basic Credit. To determine the amount of Basic Credit the Customer can achieve, the TRC is multiplied by the applicable percent as described in Table 7 below. This amount, less the TRC, will equal the potential Maximum Basic Credit, rounded to the nearest million. If qualified, award of Basic Credit under this Contract Offer shall satisfy the Basic Credit obligations of the Telephone Company and its affiliated telephone companies.

Table 7

Year	TRC	Maximum Basic Credit Amount
2005	86.5% of 2004 Gross Spend described in (A) below, rounded to the nearest million dollars, times 1/12's	310% of TRC minus the TRC amount, rounded to the nearest million dollars
2006	2005 TRC times 12 times 89.7%, rounded to the nearest million dollars	119.6% of TRC minus the TRC amount, rounded to the nearest million dollars
2007	2005 TRC times 12 times 83.4%, rounded to the nearest million dollars	123.7% of TRC minus the TRC amount, rounded to the nearest million dollars

Example A: The Customer has 2004 Gross Spend of $121.3M. 86.5 percent of 2004 Gross Spend equals $105M, rounded to the nearest million.

The 2005 TRC is equal to 1/12th of $105M.
1/12th of $105M equals $8.75M

The eligible total Basic Credit available is;

$8.75M x 310% = $27.13M

$27.13M - $8.75M = $18.38M, rounded to the nearest million, equals potential maximum Basic Credits (N)

22.90.6 Calculation of the Total Revenue Commitment (TRC) (Cont'd)

(B) Application of Credits (Cont'd)

(1) Basic Credit (Cont'd)

(a) (Cont'd)

Example B: The 2006 TRC is equal to 2005 TRC times 12 times 89.7 percent, rounded to the nearest million.

8.75M x 12 x 89.7% = $94.18M, rounded to the nearest million

The eligible total Basic Credit available is;

$94M x 119.6% = $112.42M

$112.42M - $94M = $18.42M, rounded to the nearest million equals maximum Basic Credits

(b) Application of the Maximum Basic Credit

The TRC will be divided evenly across the number of months for each Contract Year ending December 31st, as described below. The resulting monthly average amount will be the Customer's Monthly TRC commitment.

2005 – Contract Year 1 – 1 month
2006 – Contract Year 2 – 12 months
2007 – Contract Year 3 – 12 months

Example:

2005 TRC equal $8.75M

Maximum Basic Credits will be applied to the Customer's Monthly TRC revenue for Contributory Services, as described in Section 22.90 5 preceding, based on the amount above the Monthly TRC commitment, not to exceed the maximum Basic Credit allowed for each Contract Year as described in Table 7 preceding.

(B) Application of Credits (Cont'd)

(1) Basic Credit (Cont'd)

(b) Application of the Maximum Basic Credit (Cont'd)

If the Customer exceeds the Monthly TRC commitment, a credit will be issued on a monthly basis sixty (60) days in arrears. Monthly credits will be issued for every month the Customer maintains eligibility under Contract Offer No. 90 and exceeds the Monthly TRC Commitment, provided, however, that once the maximum Basic Credit is reached, as described in Table 7 preceding, no additional Basic Credits will be given for that Contract Year.

At MVP expiration, a MATA true-up will be conducted as described in F.C.C. 2, Section 19.3, to determine the Customer's credit amount or required buy-up amount under MVP. The monthly TRC true-up will be calculated at the same time. Customer will be paid the net amount above the TRC. At the end of the Contract Year, a true-up will be conducted, as described in Section 22.90.8, to determine any additional applicable credits or buy-up amount required.

Example: The Customer's MVP expires on October 31, 2005. Under MVP MATA on October 31, the Customer has met its MARC and is due $2M in MVP credits (earned in 2005), plus $1M in MVP SLA credits (earned in 2005), for a total MVP credit amount of $3M.

The Customer's monthly TRC under this Contract Offer is $8.75M, and Customer is billed $9.75M.

The Customer will receive the $1M under Contract Offer No. 90.

At the Contract Year true-up, the total Gross Spend and total credits paid to the Customer, as described in Section 22.90.6 above, will be calculated to determine any additional applicable credit amount or, if a TRC shortfall occurs, the amount of buy-up the Customer will be billed.

If the Customer does not achieve the Monthly TRC commitment in a given month, the Customer will be billed, and will be required to pay, the amount required to meet the Monthly TRC commitment. This payment must be submitted to the Telephone Company no later than 60 days after the true-up date. Timely payment of this true-up amount to meet Customer's Monthly TRC commitment shall constitute full satisfaction of Customer's Monthly TRC obligation.

(B) Application of Credits (Cont'd)

(1) Basic Credits (Cont'd)

(b) Application of the Maximum Basic Credit (Cont'd)

Except as provided in Section 22.90.11, credits will not be issued unless the Customer has met the monthly TRC and the 95 percent Access Service Ratio. Under the Contract Year True-up Process, any credits due to the Customer will be paid, except for those months the Customer was not in compliance with the 95 percent Access Service Ratio, or the Temporary Access Service Ratio set forth in Section 22.90.11. Any Basic Credits paid will not exceed the amount described in 22.90.6, Table 7.

A final true-up will take place at the end of each Contract Year as described in Section 22.90.8.

(c) Any of the following credits issued to the Customer and associated with the Contributory Services included in the TRC (including MVP Commitment credits earned in 2005, MVP SLA credits earned in 2005, DVP credits, any Basic Credits received pursuant to this Contract Offer) will be applied by the Telephone Company in satisfaction of any applicable Basic and Achievement Credit obligations under this Contract Offer.

Example

The Customer has Contract Year 1 TRC of $8.75M. The Customer achieves 310 percent of the Contract Year 1TRC, equal to $27.13M. The Customer has received, or is entitled to receive, a total of $7M in MVP Commitment Credits and $2M in MVP SLA Credits, for a total of $9M in credits unrelated to this Contract Offer.

The Basic Credit obligation of the Telephone Company and its affiliated telephone companies providing service pursuant to the Contract Offers, as described in Section 22.90.2 (C), is $18M ($27.13M - $8.75M, rounded to the nearest million), as illustrated in Table 7. The Basic Credit obligation will be satisfied by the $9M in non-contract related credits acquired by the Customer under MVP and MVP SLA, plus $9M in Basic Credits paid pursuant to this Contract Offer. This amount will be determined at the time of the final Contract Year true-up, once all other credits have been applied accordingly.

(B) Application of Credits (Cont'd)

(1) Basic Credits (Cont'd)

(c) (Cont'd)

The Customer will not pay less than the TRC for the Contract Year. If the Customer does not achieve the TRC at the end of each Contract Year through the purchase of Contributory Services, the Customer will be required to pay the deficiency as full satisfaction of this obligation.

Basic Credits shall be calculated and awarded on an aggregate basis across the concurrently subscribed to contract offers as described in Section 22.90.2 (C). If qualified for a Basic Credit, an award of Basic Credit under this Contract Offer shall satisfy any Basic Credit obligations of the concurrently subscribed to contract offers as described in Section 22.90.2 (C), and an award of Basic Credit under such other contract offers shall satisfy any Basic Credit obligations under this Contract Offer No. 90.

(2) Achievement Credits

Achievement Credits are those credits the Customer will receive based on purchases of Contributory Subject Services above the TRC, plus the maximum Basic Credit Amount, as described in Table 7 preceding. Achievement Credits will not be applicable until the maximum Basic Credit amount has been achieved.

(a) The Customer may receive Achievement Credits if the Customer's Gross Spend for any Contract Year exceeds the TRC plus the Maximum Basic Credit, as described in Table 7 preceding. The Customer will receive a discount on Contributory Subject Services equal to 17 percent of total revenue above the sum of the TRC, plus the Maximum Basic Credit Amount. Any applicable Achievement Credit will be paid out at the end of each Contract Year.

Achievement Credits shall be calculated and awarded on an aggregate basis across the Telephone Company and its affiliated telephone companies, as they apply to the contract offers as described in Section 22.90.2 (C). If qualified, award of Achievement Credit under this Contract Offer shall satisfy the Telephone Company's Achievement Credit obligations.

Example:

The Customer has TRC for Contract Year 1 of $8.75M. The Customer achieves 325 percent of TRC equal to $28.44M. The Customer will receive $18M in Basic Credits as described above, and the Customer will receive $223K in Achievement Credits calculated as follows:

($28.44M minus (Contract Year 1 TRC x 310%)) x 17%

$28.44M – $27.13M ($8.75M x 310%) = $1.31M
$1.31M x 17% = $223K (Achievement Credits).

(3) Transfer of Qualified Services

(a) The Customer may transfer services purchased from SBC non - wholesale entities or channels, or purchased by the Customer under a different Access Customer Name Abbreviation (ACNA) than those identified under this Contract Offer. Upon such transfer, the Customer's TRC commitment must be increased proportionally, based on the amount of revenue associated with the transferred services. The Customer's Maximum Basic Credit amount will not change as a result of this transfer.

Example:

The Customer has a Contract Year 1 TRC of $8.75M and is eligible to earn up to a maximum of $18M in Basic Credits. The Customer transfers $10M of services from a non-SBC wholesale entity. The Customer's new Contract Year 1 TRC will be $18.75M ($8.75M plus $10M = $18.75M). The Customer's maximum Basic Credit ($18M) will not change as a result of the transfer.

This increase in the TRC amount will apply to Contract Year 2 and Contract Year 3, as well as the optional Contract Year Extensions.

22.90.7 Portability

(A) The Telephone Company will waive termination liability charges for moves and/or disconnection of non-channelized DS1, DS3, OCN PTP services connecting to an end user premise, provided the conditions listed below are met, and provided the Eligibility Criteria in Section 22.90.2, and terms and conditions in Section 22.90.3 have been met. If the Customer both (i) fails to meet the monthly TRC during the Contract period pursuant to Section 22.90.6, and (ii) fails to pay the True-up amount, as defined in Section 22.90.8, or if the Customer fails to comply with the terms and conditions of their underlying term plans, the Customer will be back-billed for termination liability charges that were waived during the Term Period, up to a maximum of two years of such charges, to the extent such termination liability charges would otherwise apply under the relevant underlying term plans. Portability will apply subject to the following terms and conditions:

(1) Each move and/or disconnection must be from any SBC Tariff as described in Section 22.90.1; and

(2) Services moved or disconnected must be in the Price Flex MSAs described in Tariff F.C.C. No. 2, Section 21.

22.90.7 Portability (Cont'd)

(A) (Cont'd)

(3) Services must be non-channelized and must include at least one end user termination. The end user must be disconnected.

(4) The Customer must meet the minimum in-service period for each service, as described below:

(a) DS1 – no minimum in-service period;
(b) DS3, OC3 and OC12 Point to Point Services – 1 year minimum in-service period; and
(c) OC48 and OC192 Point to Point Services – 3 year minimum in-service period;

(5) The Customer must continue to meet the terms and conditions of any underlying term plan.

22.90.8 End of Contract Year True-up Process

A true-up calculation will be performed at the end of each Contract Year during the Term Period as follows:

(A) At the end of each Contract Year, the Customer's Gross Spend, as defined in Section 22.90.6 preceding, will be calculated to determine the applicable Basic Credit and Achievement Credits.

For true-up calculation purposes, the Gross Spend for Contract Year 1 will include the Customer's Contributory Service revenue for the full 2005 calendar year. The amount of Contributory Service minimum required revenue at final true-up for Contract Year 1 will be the 2005 TRC, plus 11/12ths of 86.5 percent of the 2004 Gross Spend, rounded to the nearest million. The applicable Basic Credit Amount and Achievement Credit Amount received as a result of this calculation will apply only to the TRC amount included in this Contract Offer, as described in Section 22.90.6 Table 7 preceding.

For Contract Years 2 and 3, the minimum required revenue shall be equal to the TRC.

The Basic Credit Amount shall be equal to the Gross Spend minus the TRC for each year (or, for Contract Year 1, the Gross Spend minus the sum of the TRC plus 11/12ths of 86.5 percent of 2004 Gross Spend), provided, however, that the Basic Credit Amount shall not exceed the amount provided in Section 22.90.6 Table 7 preceding, and will only apply to the TRC amount included in this Contract Offer.

Credits received under this Contract Offer during the Contract Year, as well as any MVP credits earned in 2005, MVP SLA credits earned in 2005, and DVP credits, will be calculated to determine the amount of Basic Credit the Customer has been paid.

22.90.8 End of Contract Year True-up Process (Cont'd)

(B) If the Customer's Gross Spend for Contributory Services, after all credits and shortfall payments described above, is greater than the minimum required revenue at time of the true-up, the Customer will receive a Basic Credit against Contributory Subject Services equal to the amount above the TRC, not to exceed the amount outlined in Section 22.90.6(B) Table 7 preceding.

Example 1: The Customer's TRC for the first Contract Year is $8.75M. The Customer's Gross Spend for Contributory Services, after all credits and adjustments as described above, is $10M. The Customer will receive an additional Basic Credit equal to $1.25M

If the Customer's Gross Spend for Contributory Services, after all credits and shortfall payments described above, is below the minimum required revenue at the time of the true-up, the Customer will be billed the amount required to meet the minimum required revenue and will pay such charge pursuant to Section 22.90.8 (D).

Example 2: The Customer's TRC for the first Contract Year is $8.75M. The Customer's Gross Spend for Contributory Services, after all credits and adjustments as described above, is $7M. The Customer must pay $1.75M.

If the Customer's Gross Spend for Contributory Services, after all credits and shortfall payments described above, is greater than the TRC times the maximum Basic Credit (plus 11/12ths of 86.5% of 2004 Gross Spend for Contract Year 1), as described in Section 22.90.6, Table 7, the Customer will receive the Maximum Basic Credit against Contributory Subject Services as described above, and an Achievement Credit against Contributory Subject Services (equal to a 17 percent discount on services above the TRC times the maximum Basic Credit amount, plus 11/12ths of 86.5 percent of 2004 Gross Spend for Contract Year 1).

Example 3: The Customer's TRC for the first Contract Year is $8.75M. The Customer's Gross Spend for Contributory Services after all credits and adjustments as described above, is $28.44M. The Customer receives $18M in Basic Credits and $223K in Achievement Credits.

(C) If, at the time of final true-up, the Telephone Company or any of its affiliated telephone companies described in Section 22.90.2 (C), owe the Customer a Basic Credit amount as described above, the credit will be applied to the Customer's bill no later than 60 days after the final true-up date.

(D) If, at the time of true-up, the Customer must make a true-up payment to meet the TRC as described above, the true-up payment must be submitted to the Telephone Company no later than 60 days after the true-up date. The true-up amount will appear on the Customer's monthly invoice.

22.90.9 Contract Extension Options

At the Customer's option, the Customer may extend this Contract Offer at the end of the Term Period. The Customer may extend for one year at the end of Term Period (First Extension Option), and may also extend the Contract Offer by another year at the end of the first extension year (Second Extension Option). The First Extension Option and Second Extension Option must be exercised concurrently for all contract offers described in Section 22.90.2(C). Those contract offers may not be extended individually. To exercise either option, the Customer must notify the Telephone Company and its affiliated telephone companies as described in Section 22.90.2 (C), in writing, no later than 60 days prior to the expiration of the Term Period or, for the Second Extension Option, 60 days prior to the expiration of the First Extension Option.

For the First Extension Option, the TRC shall be determined as follows:

The TRC amounts for the First Extension Option will be equal to the last 3 months of qualified Contributory Services revenue in Contract Year 3 times 4 times 83 percent, or the Contract Year 3 TRC, whichever is greater. The maximum Basic Credit will be equal to the TRC times 120 percent minus the TRC amount, less any Basic Credit reductions applied during the Term Period of this Contract Offer, as described in Section 22.90.11(A) following. An Achievement Credit of 17 percent will apply on revenue above 120 percent of the TRC, except as described in Section 22.90.11 (A) following.

Example:

(TRC X 120% - TRC) – (any credit reduction as described in Section 22.90.11)

For the Second Extension Option, the TRC shall be determined as follows:

The TRC amount for the Second Extension Option will be equal to the last 3 months of qualified Contributory Services revenue in Contract Year 4 times 4 times 83 percent, or the Contract Year 4 TRC, whichever is greater. The maximum Basic Credit Amount will be equal to the TRC times 120 percent minus the TRC amount, less any Basic Credit reductions applied during the Term Period of this Contract Offer, or under the First Extension Option as described in Section 22.90.11(A) following. (A) the proposed assignee or transferee demonstrates a lack of credit worthiness under one of the criteria in (1) or (2) below, or

(B) if the proposed assignee or transferee or its parent company has commenced a voluntary receivership or bankruptcy proceeding (or had a receivership or bankruptcy proceeding initiated against it).

(1) Any debt securities of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly more than 50 percent of the equity of the proposed assignee or transferee) are rated below investment grade, as defined by the Securities and Exchange Commission, or if any debt securities of a proposed assignee or transferee or its parent are rated the lowest investment grade and have been placed on review by the rating organization for a possible downgrade.

(2) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies (e.g. Standard and Poor's), but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated "fair" or below in a composite credit appraisal published by Dun and Bradstreet, or "high risk" in a Paydex score as published by Dun and Bradstreet.

22.90.11 Mergers and Acquisitions

(A) The terms and conditions of this Contract Offer shall continue in full force and effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or assets to any other entity, or purchases all stock or substantially all stock or assets of another company (the foregoing generally referred to herein as a merger or acquisition). Any other company involved in such merger or acquisition shall be identified for purposes of this Contract Offer as an Acquired Company, without regard to whether the Customer or the Acquired Company is the surviving entity following the transaction. The Transaction Close Date shall be the date upon which a stock purchase has been completed and/or the final date on which the assets of the acquired/merged company have been purchased. Upon the Transaction Close Date, if the Acquired Company purchases any services that are Contributory Services under this Contract Offer No. 90 from the Telephone Company and each of its affiliated telephone companies in each of the contract offers described in Section 22.90.2 (C), the Contributory Services purchased by the Acquired Company will not count toward the Gross Revenue achievement or TRC amount, and the Contributory Services provided for in this Contract Offer will continue to be maintained at the same volume, rates, terms, and conditions as outlined herein.

Effective upon the Transaction Close Date:

The Acquired Spend shall be calculated for the Acquired Company, including the Acquired Company's billed revenue for Contributory Services consistent with the manner of calculating Gross Spend, as provided in Section 22.90.6(A) of this Contract Offer, plus the Acquired Company's billed revenue for UNE or equivalent offerings, as described in Section 22.90.4, Table 2.

(1) If the Acquired Spend (calculated based on the billed revenue of the Acquired Company during the three months immediately prior to the Transaction Close Date, times four) is less than or equal to 15 percent of the billed revenue for both Contributory Services and UNE, or equivalent offerings provided to the Customer prior to the Transaction Close Date, this Contract Offer shall remain in force without change, unless Customer includes the Acquired Spend in this Contract Offer, as provided in Section 22.90.11(B) of this Contract Offer. (A) (Cont'd)

(2) If the Acquired Spend (calculated based on the billed revenue of the Acquired Company during the three months immediately prior to the Transaction Close Date, times four) is greater than 15 percent of the billed revenue for both Contributory Services and UNE, or equivalent offerings provided to the Customer prior to Transaction Close Date, the following provisions shall apply:

(a) The Customer's Calculated Annual Spend shall be the Customer's actual annualized billed revenue for Contributory Services (calculated as the Customer's billed revenue during the three months immediately prior to the Transaction Close Date, times four). The Ceiling shall be the sum of the TRC plus the Maximum Basic Credit. If the Customer's Calculated Annual Spend is less than the Ceiling, the Customer's Maximum Basic Credit shall be reduced by an amount equal to the difference between the Ceiling and the Calculated Annual Spend. The Customer's TRC shall not change. The reduced Maximum Basic Credit shall apply thereafter throughout the Term Period, unless subsequently reduced pursuant to this provision as a result of a subsequent merger or acquisition. Thereafter, the Customer shall not receive Achievement Credits for any revenue above the Calculated Annual Spend, except as described in Section 22.90.11(A)(3) of this Contract Offer.

Example: The Customer's Year 2 TRC is $90M and its Maximum Basic Credit is $18M, for a Ceiling of $108M (TRC plus Maximum Basic Credit).
On the Transaction Close Date, the Customer's Calculated Annual Spend (billed revenue for Contributory Services during the prior three months, times four) is $100M. The Customer's TRC remains $90M, and the Customer's Maximum Basic Credit is reduced to $10M. The Maximum Basic Credit remains at $10M thereafter, unless further reduced as a result of a subsequent merger or acquisition..

No Achievement Credits will apply to any revenue over $100M. (N)

(b) If the Customer's Calculated Annual Spend is equal to or greater than the Ceiling, neither the TRC nor the Maximum Basic Credit shall change, except as provided in Section 22.90.11(A)(3) of this Contract Offer. The Customer shall not receive Achievement Credits for any revenue above the Ceiling during the months after the Transaction Close Date, except as provided in Section 22.90.11(A)(3) of this Contract Offer. Any Achievement Credits earned after the maximum Basic Credit amount has been achieved, but prior to the Transaction Close Date, will continue to apply.

Example: The Customer's Year 2 TRC is $90M and the Maximum Basic Credit is $18M for total of $108M.

On the Transaction Close Date, the Calculated Annual Spend (billed revenue for Contributory Services during the prior three months, times four) is $112M. The Customer's TRC remains $90M and the Maximum Basic Credit remains $18M.

Achievement Credits will apply to Contributory Service revenue during any month after the month in which the Customer reaches the Maximum Basic Credit amount, but before the Transaction Close Date. Achievement Credits will not apply after the Transaction Close Date. (N)

(A) (Cont'd)

(3) If the Customer wishes to include Contributory Services provided to the Acquired Company in this Contract Offer, the Customer must so notify the Telephone Company within nine (9) months after the Transaction Close Date. If the Customer chooses to include the Acquired Company's Contributory Services in this Contract, the Acquired Spend (calculated based on the billed revenue of the Acquired Company during the three months immediately prior to the date upon which the Customer provides notification pursuant to this provision, times four) will be added to the Customer's then-current TRC. In addition, the revenues resulting from any conversion of UNE or equivalent offerings to qualified Contributory Subject Services, whether voluntary or required, shall also be added to the Customer's then-current TRC, according to the rates that would apply to those Contributory Services under this Contract Offer. The Maximum Basic Credit shall be determined according to Section 22.90.11(A) of this Contract Offer. Achievement Credits will apply to revenue above the Ceiling, beginning upon the date the Customer provides notification pursuant to this provision. Upon including the other company's Contributory Services in this Contract Offer, any pricing flexibility contract offer, or similar intrastate arrangement governing the included services, shall be deemed terminated and any termination liability or other charges will apply, as provided in the previously effective pricing flexibility contract offer or similar intrastate arrangement. The Customer's Maximum Basic Credit amount will not change as a result of this transfer except as described in Section 22.90.11(A)(2)(a) of this Contract Offer. The Access Service Ratio, as described in Section 22.90.4, will be applicable to all of the Customer's affiliates, regardless of their inclusion in, or exclusion from, this Contract Offer (except as described in Section 22.90.11(B) of this Contract Offer). The increase in the Customer's TRC shall apply thereafter, except to the extent the TRC may be further modified pursuant to this Contact Offer.

Example A: The Customer has a Year 2 TRC of $90M, and the Maximum Basic Credit is $18M. The Customer acquires another company with annualized Contributory Service revenues of $40M, and the Customer chooses to add the Acquired Company's Contributory Services business to this Contract Offer. The Customer's new Contract Year 2 TRC will be $130M ($90M plus $40M = $130M). The Customer's Maximum Basic Credit ($18M) will not change, except as described in Section 22.90.11(A)(2)(a) of this Contract Offer. The new TRC will apply thereafter, unless the TRC is subsequently changed pursuant to this Contract Offer. (N)

(B) Mergers and Acquisitions Affecting Access Service Ratio

If any merger or acquisition affects the Customer's Access Service Ratio, the Customer and any affiliated entities that existed as of the Transaction Close Date (as determined by the applicable ACNA's) shall comply with the Access Service Ratio requirements of this Contract Offer, as described in Section 22.90.4 of this Contract Offer, subject to the provisions of this Section 22.90.11(B).

If the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all its stock or certain assets to any other entity, or purchases:

(1) All stock, or substantially all stock or certain assets of another company, and the merger or acquisition will cause the Customer to fall below Access Services Ratio Terms and Conditions as defined in Section 22.90.4, regardless of whether the Customer chooses to include the Acquired Company's Contributory Services in this Contract Offer, the following will apply.

(a) A Temporary Access Service Ratio will be calculated in a manner consistent with the calculation of the Access Service Ratio as described in Section 22.90.4 of this Contract Offer, for the Acquired Company, for the month immediately following the Transaction Close Date, according to the following formula.

$$\frac{\text{Acquired Company Access Revenue}}{\text{Acquired Company Access Revenue + Acquired Company Wholesale Revenue}}$$

Example:

$$\frac{\$35\text{M Access}}{\$35\text{M Access} + \$34\text{M Wholesale}}$$

The Temporary Access Services Ratio would be:

50.7%/49.3% (N)

22.90.11 Mergers and Acquisitions (Cont'd)

(B) Mergers and Acquisitions Affecting Access Service Ratio (Cont'd)

(1) (Cont'd)

(b) The Temporary Access Service Ratio will apply to the Acquired Company's Contributory Services until the earlier of nine (9) months after the Transaction Close Date, or the date upon which the Customer notifies the Telephone Company of its election to add the Acquired Company's Contributory Services to this Contract Offer, whichever is earlier. While the Temporary Access Service Ratio remains in effect, the Contributory Services of the Acquired Company must at all times meet or exceed the Temporary Access Service Ratio.

Thereafter, a Combined Access Service Ratio shall be calculated according to the following formula:

$$\frac{\text{Combined Access Revenue}}{\text{Combined Access Revenue} + (\text{Combined Wholesale} - \text{Acquired Wholesale Revenue})}$$

The Acquired Wholesale Revenue in the combined equation shall be measured at the earlier of nine (9) months after the Transaction Close Date or the date upon which the Customer notifies the Telephone Company of its election to add the Acquired Company's Contributory Services to this Contract Offer, whichever is earlier.

Example:

$$\frac{\$140M}{\$140M + (\$37M - \$35M)}.$$

The combined Access Service Ratio of 98.6%/1.4% exceeds the 95%/5% ratio required.

(c) Once the Combined Access Service Ratio has been calculated, the combined Company (the Customer and Acquired Company, considered together) must meet or exceed a Combined Access Service Ratio of 95 percent for all services (Contributory and UNE or other equivalent offerings) purchased thereafter. Any wholesale services purchased by the Acquired Company prior to the earlier of the date nine months after the Transaction Close Date, or the date upon which the Customer notifies the Telephone Company of its election to add the Acquired Company's Contributory Services to this Contract Offer, will be deducted from the Combined Wholesale Revenue for purposes of calculating the Combined Access Service Ratio.

(1) (Cont'd)

(d) Services included in the calculation of the Temporary Access Service Ratio or the Combined Access Service Ratio shall be the same as those described in Section 22.90.4 of this Contract Offer.

(e) If the Customer and/or the Acquired Company fails to meet or exceed the Temporary Access Service Ratio or the Combined Access Service Ratio, the remedies provided in Section 22.90.4 of this Contract Offer shall apply.

(f) The provisions of this Section 22.90.11 shall apply to each merger or acquisition during the Term Period.

(2) If the Customer chooses to include the Acquired Company's Contributory Services in this Contract Offer, Contributory Services previously provided to the Acquired Company shall be included in this Contract Offer immediately upon the Telephone Company's receipt of the Customer's notice of intent to include them, and the TRC will be increased by the amount of the Acquired Company's qualified revenues. In addition, the monthly TRC will be increased to reflect the conversion of any unbundled network elements and equivalent offerings to Contributory Subject Services subject to this Contract Offer. Any converted services will be billed as Contributory Subject Services subject to this Contract Offer, and will be included in the TRC, effective upon the date on which receives the Customer's request to convert. The Customer's Maximum Basic Credit will not change as a result of the inclusion of the Acquired Company's Contributory Services in this Contract Offer, except as described in 22.90.11(A) preceding. The recalculated monthly TRC will apply for the remainder of that Contract Year. In each subsequent Contract Year, the TRC will continue to include the revenues associated with the Acquired Company's Contributory Services. (N)

22.90.12 Cessation of Business

If, at any time during the Term Period, the Telephone Company, or any of its affiliated telephone companies, cease to provide telecommunications services in any MSA subject to this Contract Offer, or any of the other Contract Offers as described in Section 22.90.2 (C), sells or divests its operating assets in any MSA subject to this Contract Offer, or otherwise ceases to provide any of the Contributory Services subject to this Contract Offer, the TRC will be decreased by the amount of the qualified revenue associated with the Contributory Services no longer provided by the Telephone Company or its affiliated telephone companies.

22.90.13 Termination Liability Charges

Termination liability language described below applies in lieu of the termination liability language in F.C.C. No. 2, Section 7. If the Customer terminates Contract Offer No. 90 before the expiration of the Term Period for any reason, except for that defined in 22.90.13 (B) below, the Customer must pay the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification to the Telephone Company 90 days prior to the desired date of termination. This notification must include the date upon which the Customer will terminate the Contract Offer.

(A) If the Customer fails to meet any of the eligibility criteria in Section 22.90.2, or fails to meet any of the terms and conditions in Contract Offer No. 90, then the Telephone Company shall provide the Customer with written notification of such non-compliance, and the Customer will have sixty (60) days to return to compliance. If the Customer does not return to compliance within such time period, the Customer will be deemed to have terminated its participation in Contract Offer No. 90, and termination liability charges will apply as stated in 22.90.13 (C), and will be payable within sixty (60) days from the time the contract is deemed terminated. (B) If the Telephone Company and its affiliated telephone companies providing service pursuant to the contract offers described in Section 22.90.2(C) fail, in the aggregate, to maintain a Network Availability cumulative annual target of 90 percent for all Contributory services for twelve consecutive months, the Customer will have the option to notify the Telephone Company of the Customer's intent to terminate this Contract Offer. The Customer must provide the Telephone Company with ninety (90) days notice of the Customer's intent to invoke this escape clause and return its services to standard special access services. The Telephone Company will have sixty (60) days, from the date that Customer notice is received, to rectify the service problems or the Customer will be allowed to terminate this offering without incurring any termination liability on the services moved to standard Special Access services. If the Telephone Company and its affiliated telephone companies meet the Network Availability targets within sixty (60) days, the Customer will continue to purchase services under this Contract Offer.

The following occurrences will not be included in the measurements described in the calculation of Network Availability:

(1) In the case of labor disputes, governmental orders, civil commotions, or criminal actions taken against the Telephone Company or its affiliated telephone companies, the Telephone Company and its affiliated telephone companies will be excused for the duration of these events.

(2) In the case of actions outside of the Telephone Company or its affiliated telephone companies' reasonable control (e.g., catastrophic weather conditions) that have a severe impact on the Telephone Company or its affiliated telephone companies' ability to provision and repair service, the Telephone Company and its affiliated telephone companies will be excused, for the duration of the situation, from the performance measures set forth herein. Any such temporary exemption will apply only to the dispatch area(s) directly affected by the situation, and the Telephone Company and its affiliated telephone companies will return to the levels of performance required hereunder as promptly as is reasonably practicable. To the extent additional dispatch areas are impacted by such a situation, the Telephone Company and its affiliated telephone companies will give prompt notice to the Customer of the scope and nature of such impact so the parties can determine whether additional temporary exemptions from the applicable performance measures are appropriate.

(3) Performance shall be excused for the duration of any interruptions caused by the negligence of the Customer, the Customer's end-user, or other third parties not affiliated with the Telephone Company or its affiliated telephone companies. (N)

(6) Performance shall be excused for the duration of any interruptions of a service when the Customer has released that service to the Telephone Company or any of its affiliated telephone companies for maintenance purposes, to make rearrangements, or for the implementation of an order for a change in the service during the time that was negotiated with the Customer prior to the release of that service.

(C) If the Customer terminates its subscription to this Contract Offer prior to the end of the Term Period, for any reason other than described in 22.90.13 (B), the Customer must pay termination liability charges as described below:

Termination of Contract during:

Contract Year 1 – Any credits received under this Contract Offer plus 25% of TRC for remaining months of Term Period

Contract Year 2 – Last 6 months of credit received under this Contract Offer plus 25% of TRC for remaining months of Term Period.

Contract Year 3 – Last 6 months of credit received under this Contract Offer plus 10% of total TRC for Contract Year 3.

Example:

The Customer's 2006 TRC is $90M. The Customer terminates the contract on April 31, 2006. The Customer has 20 months remaining on the Term Period and has received $6M in credits under this Contract Offer in the 6 months prior to termination. The customer will owe $43.4M in termination liability

$26.25M x 4 = $105M
$105M times 89.7% = $94M
$94M/12 = $7.8M x 8 = $62M x 25% = $15.5M for remainder of Contract Year 2

plus

$105M times 83.4% = $87.5M
$87.5M x 25% = $21.9M for Contract Year 3

Contract Year 2 + Contract Year 3 + Last 6 months of credits

$15.5M + $21.9M + $6M = $43.4M Termination Liability (N)

22.96 Contract Offer No. 96 – DS1, DS3 and OCN PTP Service Offer (Cont'd)

22.96.5 Minimum Annual Revenue Commitment (MARC)

(A) Establishment of the MARC

The Customer must establish and maintain a MARC as provided in this Contract Offer. The MARC for the first year of the Term Period (Year 1) will be established when the Telephone Company receives the LOS from the Customer. For purposes of calculating the MARC for Year 1, recurring annual revenue for all existing and new Subject Services pursuant to this Contract Offer shall be included in the calculation of the Year 1 MARC.

(B) Determining the Minimum Annual Revenue Commitment

(1) The MARC shall be calculated as the sum of the recurring revenue for all Subject Special Access Services of the previous three (3) months of the contract year, multiplied by four (4).

Example: The Customer achieves $1,000,000 in the previous three months of the contract year. The $1,000,000 is multiplied by four (4) for a new MARC of $4,000,000.

$1,000,000 X 4 = $4,000,000

(2) The Customer's MARC for Year 1 shall be $3,000,000, or the sum of the recurring revenue for all Subject Services of the previous three (3) months prior to subscribing to this Contract Offer, multiplied by four (4), whichever is greater.

(3) The MARC for Years 2, 3, 4, and 5 will be reviewed and re-established on an annual basis, effective on the Contract anniversary dates. If, for any year, the recalculated MARC is greater than the previous year's MARC, the newly recalculated MARC will apply. If the recalculated MARC is less than the previous year's MARC, the previous year's MARC will carry over for the new year. Example of Year 2 MARC Establishment: Customer's Year 1 MARC is established at $3,000,000. At the end of Year 1, the total recurring revenue of the previous 3 months totaled $1,000,000. Multiply that number by 4, and the Customer's Year 2 MARC equals $4,000,000. $1,000,000 X 4 = $4,000,000

(C) Failure to Achieve the MARC

If the Customer fails to achieve the Annual MARC for any year of the Term Period, the Customer must pay the difference between the Annual MARC for the current term year and the actual recurring annual revenue for the qualifying services as set forth in the True-up process as described in Section 22.96.5 (E) within thirty (30) days of notification by the Telephone Company. (D) Discounts and Other Credits

If the Customer exceeds the MARC by 10 percent upon the anniversary date of the commencement of the Term Period, then the Customer will be eligible for a 2 percent credit of recurring annual revenue. If the Customer exceeds MARC by 15 percent, then the Customer will be eligible for a 3 percent credit of said annual revenue. If the Customer exceeds the MARC by 20 percent, then the Customer will be eligible for a 5 percent credit of recurring annual revenue. If the Customer exceeds the MARC by 25 percent, then the Customer will be eligible for a 7 percent credit of recurring annual revenue. Said annual credits will be applied to the Customer's bill within sixty (60) days after determination of MARC.

Exceed MARC upon annual anniversary date – Percentage	Eligible Credit
0	0%
10%	2%
15%	3%
20%	5%
25%	7%

(E) Annual True-up

The Telephone Company shall conduct an Annual True-up upon the anniversary date of each term year of this Contract Offer, based on the Customer's MARC commitment. If the Customer fails to achieve the annual MARC commitment as of the anniversary date, the Customer will be notified by the Telephone Company, and will be required to remit an Annual True-up payment to reach the MARC commitment. The true-up calculation will be performed as follows:

Annual MARC – Actual Annual recurring revenues for Subject Services = Annual True-up Amount

If the Customer fails to submit its Annual True-up payment to the Telephone Company within sixty (60) days upon notification from the Telephone Company, the Customer is deemed to have terminated its Contract Offer No. 96 and termination charges will apply as set forth in Section 22.96.9.

If the Customer terminates this Contract Offer in its entirety before completion of the Term Period for any reason, or if the Customer fails to meet any of the terms and conditions of this Contract Offer throughout the Term Period, the Customer shall pay termination liability charges as described herein. If the Customer fails to meet any of the terms and conditions of this Contract Offer, the Telephone Company shall provide the Customer with written notification of such non-compliance, and the Customer shall have sixty (60) days to comply. (1) If the Contract Offer is terminated in Year 1, 10 percent of the monthly recurring revenue generated from Subject Services, calculated as of the month immediately preceding termination, and based on the rates provided under this Contract Offer, for the remainder of the Term Period.

22.98 Contract Offer No. 98- OC3 Special Access Service Offer (Cont'd)

22.98.9 Termination Liability (Cont'd)

(5) (Cont'd)

Example 1: Customer has $83,333.33 in monthly recurring revenue from Subject Services in the month preceding termination of the Contract Offer. The Telephone Company waived $14,000 in NRCs for Subject Services provided under this Contract Offer in the previous six (6) months before termination. If the Customer terminates this Contract Offer nine (9) months after the commencement of the Term Period, the Customer would be charged 100 percent of the NRC's that were waived for the prior six (6) months, plus 10 percent of the monthly recurring revenue from Subject Services at the time of termination for the remainder of the Term Period, for a total termination charge of $416,083.

This is computed as:
$14,000 + (($83,333.33 x .10) x .25) + (($83,333.33 x .10) x 12) x 4) = $416,083

Example 2: Customer has $83,333.33 in monthly recurring revenue from Subject Services in the month preceding termination of the Contract Offer. The Telephone Company waived $14,000 in NRCs for Subject Services provided under this Contract Offer in the previous six (6) months before termination. If the Customer terminates this Contract Offer two (2) years and nine (9) months after the commencement of the Term Period, the Customer would be charged 100 percent of the NRC's that were waived for the previous six (6) months, plus 12.5 percent of the monthly recurring revenue from Subject Services, calculated as of the time of termination, for the remainder of the Term Period, for a total of $266,604.

This is computed as:

$14,000 + ((($83,333.33 x .125) x .25) + (($83,333.33 x .125) x 12) x 2) = $266,604

(B) Individual Circuit Termination

If the Customer terminates any of the Subject Services provided under this Contract Offer prior to the completion of the Service Term, during the Term Period, the Customer will be liable for a termination charge which shall be equal to 50 percent of the MRCs for the Subject Services for the balance of the Service Term, during the Term Period, and will be calculated as follows:

(MRCs) multiplied by (months remaining in Service Term) multiplied by (termination liability percentage of 50%) = Termination Charge

Example: If the Subject Service has $350 in MRCs and is terminated after thirty-six (36) months, and has twenty-four (24) months remaining in a sixty (60) month Service Term Period, the termination charge would be calculated as:
($350 X 24 months) x 50% = $4,200 Termination Charge

Conversion of Identified UNEs to Special Access Subject Services, as described in Section 22.99.3 (B) (6), or conversion of existing Special Access services to Subject Services, as described in Section 22.99.3 (B) (11), does not count toward the Customer's minimum new purchase requirements.

(1) Within six (6) months of subscription to this Contract Offer, the Customer must purchase at least six (6) new DS3s and sixty (60) new DS1s;

(2) Within the first eighteen (18) months of the commencement of the Term Period of this Contract Offer, the Customer must have purchased a total of at least eighteen (18) new DS3s and one hundred twenty (120) new DS1s; and

(3) A Local Distribution Channel must be ordered for each new DS1 or DS3 for that service to be counted toward the minimum new purchase requirements.

22.99.5 In-Service Level Requirements

(A) The Customer must meet and maintain the annual minimum in-service level requirement for each year of the five (5) year Term Period for Subject Services. The in-service level requirement that must be attained by the end of the first year of the Term Period (Year 1) shall be established upon receipt of the Customer's LOS. The following Subject Services provided under this Contract Offer shall count toward the in-service level requirement:

(1) Subject Services purchased under this Contract Offer pursuant to Section 22.99.4;
(2) DS1 and DS3 Identified UNEs converted to Special Access Subject Services, as provided in Section 22.99.3 (B) (6); and

22.99.5 In-Service Level Requirements (Cont'd)

(A) (Cont'd)

DS1 or DS3 services in excess of the maximum in-service level for that service will not be provided pursuant to this Contract Offer, but instead will be provided at the prevailing tariff rates available in Sections 7.5.9 or 21.5.2.7, depending on the MSA relief level in effect at the time the service is ordered.

(B) If the Customer fails to meet the minimum in-service level requirements as of the anniversary date of each term year, the Customer must make Shortfall Payments as set forth below.

Shortfall Payments

Total in-service levels of Subject Services shall be reviewed annually (at anniversary of each term year) for the purpose of determining shortfall payment requirements. If, at the time of each review, the Customer has not met its in-service level requirement for Subject Services for that term year, as listed in Table 1, the Customer will be required to make a Shortfall Payment. The Shortfall Payment shall be calculated as follows:

(1) $2,160 for each DS1 by which the Customer falls short of the required in-service level; and
(2) $9,600 for each DS3 by which the Customer falls short of the required in-service level.

Example:

If in-service DS1 level at end of Year 1 = 140 and in-service DS3 level = 23, then:

DS1 shortfall = (155 – 140) x ($2,160)	= $32,400
DS3 shortfall = (28-23) x ($9,600)	= $48,000
Total shortfall charge Year 1 = $32,400 + $48,000	= $80,400

22.99.6 Portability

The Customer may move or disconnect DS1s or DS3s purchased or converted under this Contract Offer without incurring termination liability charges, provided the Customer achieved and maintained the minimum in-service levels outlined in Section 22.99.5 (A), Table 1, based upon the quarterly review process provided herein.

Beginning with Year 2, a quarterly review shall be conducted by the Telephone Company every three (3) months throughout the Term Period. This review is for the purpose of determining Customer eligibility for credits of termination liability charges associated with moves and disconnections. Verification will be done thirty (30) days after the close of each quarter. Total in-service levels will be based on Subject Services purchased or converted under this Contract Offer, as described in Section 22.99.5 (A).

Portability Credits

If the Customer's in-service levels at the end of any quarter during the Term Period are equal to or greater than the required in-service levels applicable at the end of the previous year of the Term Period, the Telephone Company will credit any termination liability charges for services moved or disconnected during the quarter.

(B) Monthly Billing Commitment (MBC)

Pursuant to this Contract Offer, the Customer must attain the MBC for each month of the Term Period as described herein to be eligible for credits, as described in 22.104.5. The Customer's MBC shall be equal to 1/12th of their existing MVP MARC.

Attainment of the MBC will be determined monthly by the Telephone Company. The Telephone Company will compare the MBC to the combined total of the monthly recurring billing for Contributory Subject Services and Contributory Non-Subject Services.

Example: Upon subscription the Customer's existing MVP MARC is $12,120,000. The MBC would be ($12,120,000 x 1/12) or $1,010,000. At the end of Month 1, the Telephone Company billed the Customer $840,000 for Contributory Subject Services and $200,000 for Contributory Non-Subject Services, for a total monthly recurring billing of $1,040,000. Since the Customer attained its MBC, the Customer shall be eligible to receive the credit provided under this Contract Offer.

Failure to attain the MBC

If the monthly recurring billing is less than the MBC:

(1) The Customer must remit the difference between the actual monthly recurring billing and the MBC to the Telephone Company upon notification; and

(2) The Customer forfeits the monthly credit as provided in 22.104.5 for that month.

22.111.4 WAMS-VIP Offer Incentive Discounts

The Customer will be eligible for the following Incentive Discounts and/or Portability Incentives (collectively "Incentives") under this Contract Offer No. 111 during each of the Term Years:

(A) Incentive Discount Commitment

In order to qualify for the IDCC, IDAC, SONET-ID and Portability Incentives, the Customer must maintain the "Incentive Discount Commitment" (IDC):

(1) Establishment of the IDC

(a) For Term Year One, the Customer's IDC will equal the Baseline MARC 0f $87,919,000.

(b) For Term Years Two through Seven, the Customer's IDC will be the greater of:

(i) The Achieved Revenue Amount, as defined in Section 22.111.5, from the previous Term Year;

(3) Notwithstanding the above, Incentives shall not be applied unless and until Customer is current in paying (or properly disputing) all invoices submitted for payment by the Telephone Company for billed, recurring Qualified Access Services in accordance with Ameritech Tariff F. C. C. No. 2, Section 2.

(1) Application of Incentive Discount Achievement Credit

(a) The Telephone Company will apply the IDAC to the Customer's bill(s) for Qualified Access Services in those Term Years for which the Customer qualifies for the IDAC per Section 22.111.4 (A), as follows:

(i) Half of the IDAC will be applied thirty (30) days in arrears from the end of the First Quarter of the Term Year, and the remaining half of the IDAC will be applied thirty (30) days in arrears from the end of the Second Quarter of the Term Year.

(b) The IDAC applied during the First and Second Quarters of Term Year One shall be based upon IDAC-Level 1.

(iii) If the Customer has skipped one (1) or more IDAC-Levels from one (1) Term Year to the next Term Year, the Customer will be eligible to receive the IDAC corresponding to the higher IDAC-Level more than once, provided that the Achieved Revenue Amount in the following Term Year remains within the IDAC Range of the higher IDAC-Level;

(iv) The number of times the Customer will be eligible for an IDAC corresponding to a given IDAC-Level shall be equal to the initial application of the IDAC plus the number of skipped IDAC-Levels;

If, at the end of Term Years 2, 3 and 4, the Customer's Achieved Revenue Amount is between $145,000,000 and $156,623,000, the Customer would be eligible for the IDAC corresponding to IDAC-Level 4 for each of those three Term Years. The Customer would not be eligible for the IDAC corresponding to IDAC-Level 4 in Term Years 5, 6 or 7.

(e) If the Customer's Achieved Revenue Amount from one Term Year is not sufficient for the Customer to qualify for an IDAC in the following Term Year, the Customer must make a shortfall payment (Shortfall IDAC Payment). The Shortfall IDAC Payment amount would equal the difference between the Achieved Revenue Amount and the minimum value of the IDAC Range for the next IDAC-Level that is still available to the Customer.

(i) The Telephone Company shall notify the Customer within thirty (30) days of the end of the Term Year of any Shortfall IDAC Payment amount for the subsequent Term Year.

(D) Incentive Discount for SONET Services

The Customer is eligible for additional Incentive Discounts for SONET Services, "SONET-Incentive Discounts" (SONET-ID), at the end of each Term Year if the Customer's incremental billed, recurring revenues for SONET Services fall within one of the SONET-ID Levels set forth in Table D, below. The SONET-ID Level is the amount of SONET billed recurring revenues in a Term Year above the Baseline SONET MARC ($20, 82,000).

Table D

SONET-ID Level	SONET-ID Ranges	SONET-ID Percentage Discount
1	$0 - $ 239,999	0%
2	$240,000 - $ 479,999	10%
3	$480,000 - $ 719-999	11%
4	$720,000 - $ 959,999	12%
5	$960,000 - $1,199,999	13%
6	$1,200,000 - $1,439,999	14%
7	$1,440,000 - $1,679,999	15%
8	$1,680,000 or above	16%

The Telephone Company will apply the SONET-ID in the form of a credit to the Customer's bill(s) for Qualified Access Services sixty (60) days in arrears from the end of the Fourth Quarter of the Term Year.

Example:
The Customer has ended a given Term Year of Contract Offer No. 111, and the billed, recurring revenue for SONET Service equals $21,000, 000. The SONET-ID for the Term Year is 12%, or $110,160

$21,000,000 - $20,082,000 = $918,000 (incremental SONET-ID revenue)
$918,000 X 12% = $110,160 (SONET-ID)

(E) Incentive Discount for WinBack Services

If the Customer elects to obtain Qualified Access Service(s) located in MSAs where the Telephone Company has been granted pricing flexibility within the Operating Territory, in place of access service(s) that is provided by a carrier other than the Telephone Company or one of its affiliates, the Customer will receive a one-time credit equal to twenty percent (20%) of the first twelve (12) months billed, recurring revenue for that new Qualified Access Service (WinBack Incentive).

This WinBack Incentive credit will be applied in addition to the Incentives described in Sections 22.111.4 (B), (C), (D) and (F).

(1) Eligibility Criteria for WinBack Incentive

(a) The Customer must present reasonable and verifiable information, which includes, but is not limited to, circuit detail or coordinated move orders, to demonstrate the service being converted is currently being provided by a carrier other than the Telephone Company or its affiliates; and

The new Qualified Access Service(s) ordered must have a minimum term period of twelve (12) months for DS1 and DS3 orders, and thirty-six (36) months for SONET services.

(2) Application of WinBack Incentive

(a) The Telephone Company will apply the credit to the Customer's bill(s) for Qualified Access Services that follow the end of the initial twelve (12) month period, thirty (30) days in arrears, as follows:

(i) When the Telephone Company and the Customer have identified the start date for the term period of the WinBack Qualified Access Service in a authorization letter, the initial twelve 12-month period will be the twelve (12) month period commencing on that start date; or

(ii) When the start date for the term period of the WinBack Qualified Access Service is established by the completion of an access service order, the initial twelve (12) month period will be the twelve (12) month period commencing on the day the access service order is completed. (N)

(F) DS1/DS3 Portability Incentive

The Portability Incentive waives termination liability charges that would otherwise be assessed to the Customer for moves of DS1 and DS3 Qualified Access Services.

This Portability Incentive is in addition to the Incentives described in Sections 22.111.4 (B), (C), (D) and (E).

(1) Eligibility Criteria for DS1/DS3 Portability Incentive

The following criteria must be met in order to receive the Portability Incentive:

(a) The Customer's DS1s and DS3s must meet the Minimum Period requirements, as established under Ameritech Tariff F. C. C. No. 2 , Section 2.4.2, at the previous location;
(b) The term period of the new circuit must be equal to, or greater than, the remaining term of the disconnected circuit;
(c) The disconnect and new service must be within the Operating Territory; and
(d) Any applicable DS1 Minimum Monthly Revenue Commitment (MMRC) level reductions (disconnect access service order), as established under Ameritech Tariff F. C. C. No. 2, Sections 21.4 or 7.4, in one MSA, must be offset by an equal MMRC level increase (new access service order) in the new MSA.

(2) Quarterly Review of Disconnect Access Service Orders

If the Customer qualified for the Portability Incentive as set forth in Section 22.111.4 (A) (2), but cumulative "disconnect" access service orders exceeded "add" access service orders during the Term Year, as measured on a quarterly basis, the Customer will be assessed termination liability charges on the sum difference between the cumulative disconnect and add access service orders.

22.111.5 WAMS-VIP Annual True-Up

(A) An annual true-up calculation is performed after each Term Year ("Annual True-Up") to establish any Fourth Quarter Incentive credits, adjustments or other payments that apply for the preceding twelve (12) month period, as determined by whether:

(1) The Customer maintained its Baseline MARC and Baseline SONET MARC during that Term Year; and

(2) The Customer earned the IDCC and IDAC received during the First, Second and Third Quarters of the Term Year ("Applied IDCC" and "Applied IDAC", respectively).

For the purposes of the Annual True-Up calculations, the Customer's billed, recurring revenue for Qualified Access Services during the Term Year will constitute the Customer's "Achieved Revenue Amount." The IDCC and/or IDAC earned using the Achieved Revenue Amount compared to Table B, Section 22.111.4 (B), and Table C, Section 22.111.4 (C), will constitute the "Earned IDCC" and "Earned IDAC."

(B) Annual True-Up Calculations

(1) Baseline MARC Annual True-Up:
The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the Baseline MARC.

(a) If the Customer's Achieved Revenue Amount falls below the Baseline MARC, the Customer may pay the difference between the Baseline MARC and the Achieved Revenue Amount (Shortfall Payment).

(i) The Telephone Company will notify the Customer within thirty (30) days of the end of the Term Year of any Shortfall Payment.

(ii) The Customer may make the Shortfall Payment and return the difference between the Applied IDCC and the Earned IDCC, associated with the Baseline MARC, within thirty (30) days after receiving notification from the Telephone Company.

(iii) The following Term Year's IDC and IDCC will be determined as set forth in Section 22.111.4 (A) and (B).

(B) Annual True-Up Calculations (Cont'd)

(1) Baseline MARC Annual True-Up: (Cont'd)

(a) (Cont'd)

Example of Baseline MARC Annual True-Up:
If the Customer's Achieved Revenue Amount in Term Year Five is $87,000,000, the Baseline MARC of $87,919,000 has not been met. The Customer may choose to pay the difference of $919,000 ($87,919,000 - $87,000,000) and repay the difference between the Applied IDCC and the Earned IDCC.

(b) If the Customer's Achieved Revenue Amount falls below the Baseline MARC for any given Term Year, and the Customer does not make the Shortfall Payment, this Contract Offer Subscription shall terminate and termination liability charges will apply, as described in Section 22.111.8 (A).

(2) Baseline SONET MARC Annual True-Up:
The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the Baseline SONET MARC.

(a) If the Customer's Achieved Revenue Amount meets or exceeds the IDC, but the Baseline SONET MARC is not maintained, the Earned IDCC will be reduced ("IDCC Reduction"), as explained in subparagraphs (i) through (iii), below.

(i) The IDCC Reduction will be calculated by taking the Baseline SONET MARC less the billed, recurring revenues for SONET Services for the Term Year, and multiplying that amount by ninety-five percent (95%), or (.95).

(ii) The Telephone Company will reduce the amount of the Earned IDCC, to be applied in the Fourth Quarter, by the IDCC Reduction. If the IDCC Reduction exceeds the value of the Fourth Quarter IDCC, the Telephone Company will reduce the Applied IDCC in the subsequent Term Year by the remaining amount of the IDCC Reduction.

(iii) The following Term Year's IDCC will be determined as set forth in Section 22.111.4 (B).

(B) Annual True-Up Calculations (Cont'd)

(2) Baseline SONET MARC Annual True-Up: (Cont'd)

(a) (Cont'd)

Example of Baseline SONET MARC Annual True-Up:
If billed, recurring revenue for SONET Service equals $20,000,000 and the Achieved Revenue Amount equals $130,000,000, the IDCC Reduction would equal (($20,082,000 - $20,000,000) x .95)), or $77,900, and the Earned IDCC would be adjusted to $2,565,100 ($2,643,000 - $77,900).

The amount of the Fourth Quarter IDCC would equal $582,850 ($660,750 - $77,900).

(b) If the Baseline SONET MARC is not maintained by the Customer, as a result of SONET rate reductions and/or rate restructures that are directly attributed to actions of the Telephone Company and not attributed to the Customer, the IDCC Reduction will be zero (0).

(3) IDCC Annual True-Up:

The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the IDC.

(a) If the Customer's Achieved Revenue Amount meets or exceeds the IDC, the Telephone Company will determine the Earned IDCC and the Fourth Quarter credit amount. The Fourth Quarter credit amount will be the difference between the Earned IDCC and the Applied IDCC. The Customer would receive its Fourth Quarter payment, as set forth in Section 22.111.4 (B) (1) (a) (ii). (N)

(3) IDCC Annual True-Up: (Cont'd)

(b) If the Customer's Achieved Revenue Amount falls below the IDC, the Customer may pay the difference between the Achieved Revenue Amount and the IDC ("Make-Up Payment"), or the Customer will refund the Applied IDCC to Telephone Company, as detailed below.

(i) The Telephone Company shall notify the Customer within thirty (30) days of the end of the Term Year of any Make-Up Payment.

(ii) The Customer shall pay the Make-Up Payment within thirty (30) days after receiving said notification from the Telephone Company.

(iii) The Telephone Company will apply the appropriate IDCC for the Fourth Quarter of the Term Year, within thirty (30) days of receiving the Make-Up Payment. The Fourth Quarter credit amount will be the difference between the Earned IDCC and the Applied IDCC. The following Term Year's IDCC will be determined as set forth in Section 22.111.4 (B).

(iv) If the Customer chooses not to make the Make-Up Payment, the Customer will repay the Applied IDCC. Repayment is due thirty (30) days after notification from the Telephone Company as identified in subparagraph (i), above.

Example of IDCC Annual True-Up:

If the Achieved Revenue Amount for Term Year Three is $132,000,000 and the IDC is $130,000,000, the Earned IDCC would be $2,643,000. The IDCC applied for the Fourth Quarter would be equal to $2,643,000 less the Applied IDCC received by the Customer for the Term Year or $660,750.

(4) IDAC Annual True-Up:

(a) For Term Years One through Seven, no Annual True-Up will be performed on the IDAC.

(A) Assignment/Successors

(1) If the Customer wishes to assign or transfer its rights and obligations under this Contract Offer 111 ("Contract Offer Subscription"), the Telephone Company will permit such transfer or assignment if the criteria in Ameritech Tariff F. C. C. No. 2, Section 2.1.2, are fulfilled, unless the proposed assignee or transferee demonstrates a lack of credit worthiness under any of the criteria in (a), (b) or (c), below, or if the assignee or transferee or its parent has commenced, or had initiated against it, a voluntary receivership or bankruptcy proceeding.

(a) Any debt of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly more than 50% of the equity of the proposed assignee or transferee) are rated below investment grade as defined by the securities and exchange commission; or

(b) If any debt securities of a proposed assignee or transferee or its parent are rated the lowest investment grade, and have been placed on review by a rating organization for a possible downgrade; or

(c) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies (e.g., Standard and Poor's) but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated:

(2) The Terms and Conditions of Contract Offer No. 111 shall continue in full force and effect if the Customer merges with, acquires, is acquired by, or sells all or substantially all its stock or assets to any other entity (Transfer). After a Transfer, if the other entity also purchases Qualified Access Service(s) from the Telephone Company, either directly or through any affiliates, the Customer shall not include under the Contract Offer Subscription any of the billed, recurring revenue for the Qualified Access Services of the other entity in place as of the date the Transfer is finalized (Transfer Date), except as may be provided below.

Notwithstanding the foregoing, the Customer may choose, at its discretion, one of the options set forth in this subsection (i - ii) (Option), within the time period that is between twelve (12) months and twenty-four (24) months after the Transfer Date.

To exercise an Option, the Customer shall send written notice to the Telephone Company, within the time period described above, stating which Option the Customer selects. The date that the Customer sends that written notice shall be the "Option Exercise Date." None of the Options shall alter, in any way, the terms or conditions of any contract or tariff pursuant to which the other entity obtains Qualified Access Services from the Telephone Company, including, but not limited to, any terms or conditions related to termination.

Option (i): The Customer and Telephone Company shall recalculate the Baseline MARC, Baseline SONET MARC, IDC, IDC Ranges, IDCCs, IDACs and IDAC Ranges (Key Numbers) for the period from the Option Exercise Date to the end of the Term Period, to allow for the combined billed, recurring revenues for Qualified Access Services of the Customer and the merged or acquiring company to be covered under the Contract Offer Subscription, provided the following conditions are met:

This shall be the "Combined Baseline MARC"; and

(b) The Baseline SONET MARC will be equal to one hundred percent (100%) of the other entities billed, recurring revenues for Qualified Access Services that are SONET services for the three (3) months immediately preceding the Option Exercise Date, multiplied by four (4), plus $20,082,000. The Option 1 multiplier ("Option 1 Multiplier"), which equals the ratio of the Combined IDC to the Customer's current IDC, will be applied to the minimum and maximum values of the IDC and IDAC Ranges associated with the IDC and IDAC-Levels that are still available to the Customer, as defined in Section 22.111.4.

Example:
IDC = $137,900,000
Current IDAC Level = 3
IDAC Range Minimum = $122,938,000
IDAC Range Maximum = $142,069,999

New Entity Revenue = $50,000,000
Combined IDC = $187,900,000 ($137,900,000 plus $50,000,000)
Option 1 Multiplier = 1.36 ($187,900,000/$137,900,000)

($122,938,000 multiplied by 1.36)
Combined IDAC Range Maximum = $192,215,198

(5) The IDCCs and IDACs amounts will be adjusted according to the following formula:

The Option 1 Multiplier will be applied to the IDCC and the IDAC associated with the IDCC and IDAC-Levels which remain available to the Customer in order to determine the Combined IDCC and IDAC Ranges.

Example:
IDC = $137,900,000
Current IDAC-Level = 3

(7) The Telephone Company will recalculate the Key Numbers within sixty (60) days of the Option Exercise Date, with no credits being applied to the Customer's bill(s) during this sixty (60) day period. The Customer shall send written notice to the Telephone Company within sixty (60) days of completing a market divestiture. The date the Customer sends that written notice shall be the "Divestiture Notice Date." The Telephone Company will recalculate the Key Numbers as described below:

(1) The Baseline MARC, IDC, IDCC Ranges and IDAC Ranges will be reduced by either of the following methods, at the Customer's discretion ("Divested Revenue"):

(a) One hundred percent (100%) of the Divested Market's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the notification, multiplied by four (4); or

(b) A revenue amount that is less than the amount determined under subparagraph (a), above.

(2) The Baseline SONET MARC will be reduced by either of the following methods, at the Customer's discretion ("Divested SONET Revenue"):

(a) One hundred percent (100%) of the Divested Market's billed, recurring revenues for Qualified Access Services that are SONET revenues for the three (3) months immediately preceding the notification, multiplied by four (4); or

22.111.6 WAMS-VIP Offer Mergers/Acquisitions (Cont'd)

(B) Sale of Markets (Cont'd)

(3) The IDCCs and IDACs will be reduced according to the following steps:

Step 1.

Determine the impact on total revenue by calculating the Divestiture Percentage." The Divestiture Percentage is the percent change between the Pre-Divest and Post-Divest revenues. The "Pre-Divest Revenue" equals 100% of the Customer's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the notification, multiplied by four (4) or the Baseline MARC, whichever is greater. The "Post-Divest Revenue" equals Pre-Divest Revenue minus the Divested Revenue from (B) (1) of this Section.

Example:

Pre-Divest Revenue	=	$137,900,000
Divested Revenue	=	$ 12,900,000
Post-Divest Revenue	=	$135,000,000 ($137,900,000 - $12,900,000)

Divestiture Percentage = 2% (1-($135,000,000/$137,900,000))

Step 2.

Determine the SONET multiplier that results from the divested SONET revenue by the following:

(a) Determine the "Post-Divest SONET Revenue" amount by subtracting the Divested SONET Revenue, as identified in (B) (2) of this Section, from the Pre-Divest SONET Revenue. The "Pre-Divest SONET Revenue" equals 100% of the Customer's billed, recurring revenues for Qualified Access Services that are SONET services for the three (3) months immediately preceding the notification, multiplied by four (4) or the Baseline SONET MARC, whichever is greater.

(B) Sale of Markets (Cont'd)

(3) The IDCCs and IDACs will be reduced according to the following steps: (Cont'd)

Step 2. (Cont'd)

(a) (Cont'd)

If the Post-Divest SONET Revenue amount meets or exceeds the Baseline SONET MARC ($20,082,000), the SONET multiplier equals 1.0.

Example:
Pre-Divest SONET Revenue= $27,500,000
Divested SONET Revenue = $ 500,000
Post-Divest SONET Revenue= $27,000,000

(b) If the Post-Divest SONET Revenue amount is less than the Baseline SONET MARC, the ratio of Post-Divest SONET Revenue to Post-Divest Revenue ("Post-Divest Ratio"), as identified in Step 1, will be determined.

Example:
Post-Divest Revenue = $137,900,000
Post-Divest SONET Revenue= $ 16,700,000
Post-Divest Ratio = 12% ($16,700,000/$137,900,000)

(c) If the Post-Divest Ratio is equal to or greater than 23%, the SONET multiplier equals 1.0.

(d) If the Post-Divest Ratio is below 23%, the ratio of Pre-Divest SONET Revenue, as identified in Step 2 (a), to total Pre-Divest Revenue ("Pre-Divest Ratio"), as identified in Step 1, will be determined.

Example:
Pre-Divest Revenue = $137,900,000
Pre-Divest SONET Revenue= $ 27,500,000
Pre-Divest Ratio = 20% $27,500,000/$137,900,000)

(B) Sale of Markets (Cont'd)

(3) The IDCCs and IDACs will be reduced according to the following steps: (Cont'd)

Step 2. (Cont'd)

(e) A SONET equalizer will be calculated by subtracting the Pre-Divest Ratio from 23% ("SONET Equalizer"). The SONET Equalizer will be added to the Post-Divest Ratio, resulting in a revised Post-Divest Ratio.

Example:
Pre-Divest Ratio = 20%
SONET Equalizer = 3% (23%-20%)

Post-Divest SONET Ratio = 12%
SONET Equalizer = 3%
Revised Post-Divest Ratio=15%

(f) The following SONET multipliers will be applied based upon the revised Post-Divest Ratio(s):

(i) 23% or greater, a SONET multiplier of 1.0 will be used;

(ii) Less than 23%, but equal to or greater than 20%, a SONET multiplier of 1.25 will be used;

(iii) Less than 20%, but equal to or greater than 10%, a SONET multiplier of 1.50 will be used; or

(iv) Less than 10%, a SONET multiplier of 2.0 will be used.

Step 3.

The Divestiture Percentage multiplied by the SONET multiplier will equal the percent reduction in the IDCCs and IDACs which remain available to the customer.

IDCC-Level = 6
IDAC-Level = 3
Divestiture % = 2%
SONET Multiplier = 1.15 (assuming a revised Post-Divest Ratio of 15%)

Reduced IDCC = $3,101,090 ($3,197,000 – ($3,197,000 x (.02 X 1.50)))

Reduced IDAC = $14,742,060 ($15,198,000 – ($15,198,000 X (.02 X 1.50)))

(4) The Telephone Company will recalculate the Key Numbers within sixty (60) days of the Divestiture Notice Date. The recalculated Key Numbers will become effective once the Divested Market's billed, recurring revenues for Qualified Access Service are no longer being billed to the Customer ("Divestiture Effective Date"). Starting with the remaining quarters of the Term Year as of the Divestiture Effective Date, the recalculated Key Numbers will be used to determine the applicable
IDCC and IDAC amounts.

(a) If the Divestiture Effective Date falls within the First, Second or Third Quarter of the respective Term Year, the initial credit application of any eligible Reduced IDCC and/or Reduced IDAC will occur thirty (30) days after the Key Numbers are effective, or thirty (30) days in arrears of the end of the quarter, whichever is later; or,

22.111.7 WAMS-VIP Cell-Site Performance – Credits

(A) Description

Cell-Site Performance Improvement Credits are available to the Customer based upon the quality of service delivered during the Term Period, as set forth in subparagraph (1), below. The credits will be granted in the event that the Telephone Company's Contract Offer No. 111 service performance level objectives for cell-site DS1 Qualified Access Services are not met.

(1) The DS1 Qualified Access Services cell-site performance level parameters will be based on DS1 Percentage of Network Availability. The DS1 Percent of Network Availability will be calculated by determining the actual hours that the cell-site DS1 circuits are in service during a given month, compared to the total expected availability, and then aggregating those total hours over the course of a Term Year.

Example:

If a Customer had 100 circuits in service at the end of January and 111 at the end of February, their total hours of expected availability would be (31 days times 100 circuits, times 24 hours) plus (28 days, times 111 circuits, times 24 hours) or 148,320. This would be the denominator of the network availability equation.

22.111.7 WAMS-VIP Cell-Site Performance – Credits (Cont'd)

(A) Description (Cont'd)

(1) (Cont'd)

Example: (Cont'd)

The numerator would be the total hours of outage based upon measured tickets reported to the Telephone Company, subtracted from the 148,320. If there were eight (8) reported failures averaging 3.5 hours per outage, the total hours of outage would be equal to twenty-eight (28). The resulting availability equation for those two (2) months will be ((148,320-28)/148,320), or 99.981%. A twelve (12) month aggregation using the same process as noted for two (2) months will be used to determine annual percent availability for a Customer.

(2) Table E, below, provides cell-site service performance targets, based on DS-1 Percentage of Network Availability, for each Term Year.

Table E

Term Year	% Network Availability
1	99.9830%
2	99.9854%
3	99.9877%
4	99.9900%
5	99.9900%
6	99.9900%
7	99.9900%

(B) At the Annual True-Up, if the Telephone Company annual results fail to meet the performance target, as specified in Table E, above, and the Customer has met the Baseline MARC, the Telephone Company will provide credits and services as follows:

(B) (Cont'd)

(1) The Telephone Company will apply one hundred dollars ($100) in special construction credits for each measured trouble ticket reported to the Telephone Company during the Term Year for cell- site improvements. The special construction credits will be used to improve performance at mutually agreed upon Customer's cell sites that are performing below the DS-1 Percentage of Network Availability, as specified in Table E of this Section.

For example: special construction credits can be used to offset the cost of replacing copper with fiber at non-performing cell-sites; and

(2) The Telephone Company will provide the Customer the ability to purchase Automatic Loop Transfer service at twenty-five percent (25%) discount off the monthly recurring rates described in Ameritech Tariff F. C. C. No. 2, Section 21.5.2, for those cell sites that fail to meet the performance target, as specified in Table E in this Section.

22.111.8 Termination

The Customer's subscription to this Contract Offer No. 111 shall terminate if the Customer gives notice to Telephone Company, as set forth in the following paragraph, and as set forth elsewhere in this Contract Offer No. 111.

The termination liability charges described below shall apply if termination occurs because the Customer does not make a Shortfall Payment as described in Section 22.111.5 (B) (1), and/or the Customer elects to terminate its subscription to Contract Offer No. 111 for reasons other than described in Section 22.111.8 (B).

If the Customer elects to terminate its Contract Offer Subscription during the Term Period, written notification must be provided to the Telephone Company indicating the Customer's intention to terminate its Contract Offer Subscription. This notification must include the date upon which the Customer wishes to terminate its Contract Offer Subscription.

41.22.8 Termination (Cont'd)

(A) Termination Liability

Termination liability charges will consist of the sum of the following:

(1) Ten percent (10%) of the Baseline MARC, divided by twelve (12), then multiplied by the number of months remaining in the Term Period; plus
(2) Repayment of the IDCC, IDAC and SONET-ID given under Contract Offer No. 111 during the three (3) quarters preceding the termination date.

Example:

Customer with a Baseline MARC of $87,919,000 and an IDC of $135,900,000 terminates its Contract Offer Subscription after forty-eight (48) months, and with thirty-six (36) months remaining in the eighty-four (84) month Term Period, and the Customer received IDCC and IDAC of $2,397,750 and $15,198,000, respectively, for the previous three quarters before termination. The termination liability charges would be:

(($87,919,000/12) X 10% X 36) + ($2,397,750 + $15,198,000) = $43,971,450 termination liability charge.

(B) Rate Reductions

If the tariffed rates for the Qualified Access Services are reduced by a cumulative total of twenty percent (20%) from the tariffed rates in effect as of the Effective Date (Initial Tariff Rates), either party may terminate the LOS by providing a sixty (60) day written notice to the other party. Termination liability charges will not apply.

To determine whether the 20% rate reduction has been met or exceeded, the Telephone Company shall perform an analysis within sixty (60) days following the Effective Date that details the Customer's inventory of Qualified Access Services and the Initial Tariff Rates (Initial Rate Analysis.)

Example: DS1-Initial Rate Analysis

Product Category/ Description	State	Zone	Term	Rate	Units	Total
DS1 - Channel Termination (CT)	IL	2	36	$25.00	4,000	$100,000
DS1 - Channel Mileage (CM-Fixed)				$21.00	1,600	$33,600
DS1 - Channel Mileage CM-Per Mile)				$16.40	1,000	$16,400
DS1 Total					6,600	$150,000

The Telephone Company shall also perform a similar exercise within sixty (60) days following each Term Year detailing the Customer's inventory from the Initial Rate Analysis and the end-of-year tariff rates (EOY Rate Analysis). The Customer and Telephone Company will then compare the Initial Rate Analysis to the EOY Rate Analysis to identify the percent change in the total, cumulative rates, if any.

Example: Initial Rate Analysis and EOY Rate Analysis Comparison

Product Category	Units	Initial Tariff Rates	EOY Tariff Rates	% Rate Change
DS1	6600	$150,000	$122,000	
DS3	2000	$ 90,000	$ 70,000	
SONET	1000	$300,000	$200,000	
Total	9600	$540,000	$392,000	27%

27% = (1-($392,000/$540,000))

The quantity of units for each product category used in the Initial Rate Analysis and the EOY Rate Analysis will be calculated from the Qualified Access Service rate elements listed below:

(1) DS1 – Channel Terminations (CT), Channel Mileage (CM) fixed and Channel Mileage (CM) per mile;

(2) DS3 – CT, CM fixed, CM per mile and Multiplexing (MUX); and

(3) SONET – All SONET rate elements for Dedicated Ring Service (DRS) and Optical Carrier Network Point-to-Point (OCN PTP) services.

22.119.8 Termination Liability

The termination liability language described below applies in lieu of the termination liability language described in Ameritech Tariff, F.C.C. No. 2, Section 7.

(A) If the Customer terminates this Contract Offer before the completion of the Term Period for any reason, the Customer must pay the Telephone Company termination liability charges as described below. Termination liability charges will also apply if the Customer is not in compliance with the Eligibility Criteria in Section 22.119.2 or the Terms and Conditions in Section 22.119.3 as defined in Section 22.119.3(B)(6)(e), except as provided in Section (C) herein. The Customer's termination liability charges shall be equal to:

50% of all Monthly Recurring Charges for the balance of the Customer's Term Period for all Subject Services under contract.

Example: If the Monthly Recurring Charge is $10,000 per month for the balance of the Term Period, and the Contract Offer is terminated after thirty-six (36) months and has twenty-four (24) months remaining in a sixty (60) month Term Period, the termination charge would be calculated as:

22.119.8 Termination Liability (Cont'd)

(B) If Customer terminates individual Subject Services provided under this Contract Offer prior to the completion of the Service Term, during the Term Period, the Customer will be liable for a termination charge which shall be equal to 50% of the Monthly Recurring Charges for the Subject Services for the balance of the Service Term, during the Term Period, and will be calculated as follows:

(Monthly Recurring Charges) multiplied by (months remaining in Service Term) multiplied by (termination liability percentage of 50%) = Termination Charge

Example: The MRC equals $350. The Subject Service is terminated after thirty-six (36) months and has twenty-four (24) months remaining in a sixty (60) month Service Term Period, and the termination charge would be calculated as:

($350 X 24 months) x 50% = $4,200 Termination Charge

(C) Failure to achieve minimum purchase requirements:

(1) Should the Customer fail to meet the minimum purchase requirements as set forth in 22.119.3 (B)(6), the Telephone Company will bill the Customer and the Customer must pay for the minimum required number of DS1 and/or DS3 Subject Services to meet the commitment. This shall be defined as the shortfall amount.

(2) The formula for calculation of the shortfall shall be as follows: Number of minimum DS1/DS3 Subject Services minus the number of actual DS1/DS3 Subject Services, times the Median Monthly Recurring Charge for the DS1/DS3 Subject Services. The Median Monthly Recurring Charge for the DS1/DS3 Subject Services will be determined for the period to which the minimum purchase requirement applies as referenced in 22.119.3 (B)(6).

(3) The Customer will be billed the shortfall amount, as calculated above, on a monthly basis until the expiration of the Term Period or until the Customer purchases the requisite number of DS1/DS3 Subject Services, whichever comes first.

(4) Should the Customer fail to remit the shortfall amount within thirty (30) days of the contract year end date, the Customer will be declared to be in violation of the contract and subject to the termination liability charges, as defined in Section 22.119.8(A) .

Example of a shortfall calculation:

(300 DS1 circuits X $160 Median DS1 MRC) – (175 DS1 circuits X $160 Median MRC) = $20,000 MRC to be billed to the Customer. (N)

(A) Incentive Discount Commitment (Cont'd)

(3) Notwithstanding the above, Incentives shall not be applied unless and until the Customer is current in paying (or properly disputing) all invoices submitted for payment by the Telephone Company for billed, recurring Qualified Access Services in accordance with Ameritech Tariff F.C.C. (B) Incentive Discount Commitment Credit for Qualified Access Services

The Customer will notify the Telephone Company in writing of the Billing Account Number(s) (BAN) and percentage of the IDCC awarded to be applied to each BAN(s) billing Qualified Access Services for the Contract Offers subscribed to in Section 22.121.3(A).

For each Term Year, the Customer will be eligible for an Incentive Discount Commitment Credit (IDCC) based on the sum of all billed recurring revenue for Qualified Access Services, including all of the Contract Offers as described in Section 22.121.3(A), according to Table B, following. (N)

If qualified for a IDPC, an award of the IDPC under this Contract Offer will satisfy any IDPC obligations of the concurrently subscribed to Contract Offers as described in Section 22.121.3(A), and an award of IDPC under such other Contract Offers shall satisfy any IDPC obligations under this Contract Offer No. 121.

The Customer will notify the Telephone Company in writing of the Billing Account Number(s) (BAN) and percentage of the IDPC awarded to be applied to each BAN(s) billing Qualified Access Services for the Contract Offers subscribed to in Section 22.121.3(A).

For each Term Year, the Customer will be eligible for an IDPC which applies to non-IDC revenues. Non-IDC revenues are the sum of all recurring revenues associated with the Qualified Access Services, including billed recurring revenues of all of the Contract Offers as described in Section 22.121.3(A) that exceed the Customer's IDC (which are listed as Levels in Table B) according to the ranges set forth in Table C.

(C) Incentive Discount Plus Credit for Qualified Access Service (Cont'd)

(1) Application of Incentive Discount Plus Credit

(a) The Telephone Company will apply the IDPC to the Customer's bill(s) for Qualified Access Services in those Term Years for which the Customer qualifies for the IDPC as provided in Section 22.121.6(C); and

(b) The IDPC corresponding to the IDC Level and IDPC Band will be credited to the Customer's bill sixty (60) days in arrears from the end of the 4th Quarter of the Term Year, through the Annual True-up described in Section 22.121.7.

(D) DS3 Portability Incentive

The Portability Incentive waives termination liability charges that would otherwise be assessed to the Customer for moves of DS3 Qualified Access Services.

This Portability Incentive will be applied in addition to the Incentives described in Sections 22.121.6(B) and(C).

(1) Eligibility Criteria for DS3 Portability Incentive

The Customer must meet the following criteria to receive the Portability Incentive:

(a) The Customer's DS3s must meet the Minimum Period requirements, as established under Ameritech Tariff F.C.C. No. 2, Section 2.4.2, at the previous location;
(b) The Term Period of each new circuit must be equal to, or greater than, the remaining term of the disconnected circuit; and
(c) The disconnect and new service must be within the Operating Territory.

(2) Quarterly Review of Add and Disconnect Access Service Orders

The Telephone Company will perform quarterly reviews of the quantity of the DS3 "adds" and "disconnects" within the Telephone Company Operating Territory, as described in Section 22.121.3(C), as follows:

(a) If the Customer qualifies for the Portability Incentive as set forth in Sections 22.121.6(A) and 22.121.6(D)(1), and the cumulative "add" access service orders exceed cumulative "disconnect" access service orders during the Term Year, as measured on a quarterly basis, the cumulative adds and the cumulative disconnects will carry over quarter to quarter within a Term Year until the number of cumulative disconnects exceeds the cumulative adds;

(b) If the Customer qualifies for the Portability Incentive as set forth in Section 22.121.6(A) and 22.121.6(D)(1), but cumulative "disconnect" access service orders exceed cumulative "add" access service orders during the Term Year, as measured on a quarterly basis, the Customer will be assessed termination liability charges on the number of circuits by which cumulative disconnect orders, where termination liability charges are applicable, exceed cumulative add orders; or

(c) During the Term Year, if the Customer is assessed termination liability charges as a result of cumulative "disconnect" access service orders exceeding cumulative "add" access service orders in any quarter, as described in 22.121.6(D)(2)(b), above, no cumulative "disconnect" access service orders or cumulative "add" access service orders will carry over to the next quarter within that Term Year. (2) Quarterly Review of Add and Disconnect Access Service Orders (Cont'd)

Example:
During a given Term Year:

If at the end of the 1st Quarter:
DS3 "adds" = 10
DS3 "disconnects" = 3
Quarter Termination Liability = 0 DS3's
(DS3 "adds" are greater than DS3 "disconnects")

If at the end of the 2nd Quarter:
Cumulative DS3 "adds" = 11 (1st Qtr 10 plus 2nd Qtr 1)
Cumulative DS3 "disconnects"= 12 (1st Qtr 3 plus 2nd Qtr 9)
Quarter Termination Liability = 1 DS3
(Cumulative DS3 "disconnects" are greater than Cumulative DS3 "adds")

Termination Liability assessed based on the last disconnect order provisioned during the 2nd Quarter. The 1st and 2nd Quarters cumulative DS3 "adds" and cumulative DS3 "disconnects" will not accumulate into the 3rd Quarter.

If at the end of the 3rd Quarter:

DS3 "adds" = 2
DS3 "disconnects" = 1
Quarter Termination Liability = 0 DS3's
(DS3 "adds" are greater than DS3 "disconnects")

If at the end of the 4th Quarter:

Cumulative DS3 "adds" = 5 (3rd Qtr 2 plus 4th Qtr 3)
Cumulative DS3 "disconnects" = 3 (3rd Qtr 1 plus 4th Qtr 2)
Quarter Termination Liability = 0 DS3's
(Cumulative DS3 "adds" are greater than Cumulative DS3 "disconnects")

22.121.7 WAMS-VIP Annual True-Up

(A) An annual true-up calculation is performed after each Term Year ("Annual True-Up") to establish any 4th Quarter Incentive credits, adjustments or other payments that apply for the preceding twelve-month (12) period, as determined by whether:

(1) The Customer maintained its IDC during that Term Year;

(2) The Customer earned the IDCC received during the 1st, 2nd and 3rd Quarters of the Term Year ("Applied IDCC"); and

(3) The Customer qualifies to receive an IDPC.

For the purposes of the Annual True-Up calculations, the Customer's billed, recurring revenue for Qualified Access Services during the Term Year will constitute the Customer's "Achieved Revenue Amount." The IDCC and/or IDPC earned using the Achieved Revenue Amount compared to Table B in Section 22.121.6(B) and Table C in Section 22.121.6(C) will constitute the "Earned IDCC" and "Earned IDPC."

(B) Annual True-Up Calculations

(1) IDC Impact - Divested Market(s):

If the Telephone Company divests or sells any market(s) and if the billed recurring revenues for the Qualified Access Services that are used for the purposes of calculating the IDC are reduced, as a result of the divestiture and/or sale of those market(s), the Telephone Company will recalculate the IDC and IDCC, if requested by the Customer in writing within ninety (90) days of the divestiture and/or sale, according to the following steps below:

Step 1.
Determine the impact on total revenue by calculating the "IDC Impact-Divested Market(s)Percentage." The IDC Impact-Divested Market(s) Percentage is the percent change between the IDC and the Customer's billed recurring revenues for Qualified Access Services that the Telephone Company was required to divest.

Example:
IDC = $141,600,000
Revenue divestiture by the Telephone Company =$10,000,000

IDC minus divestiture amount = $131,600,000

IDC Impact – Divested Market(s) Percentage = 7.07%
(1-($132,000,000/$141,600,000))

(B) Annual True-Up Calculations (Cont'd)

(1) IDC Impact - Divested Market(s): (Cont'd)

Step 2:
The current Term Year's IDC will be adjusted by subtracting the dollar amount of the billed recurring revenues for Qualified Access Services that were divested by the Telephone Company. The IDCC for the current Term Year will be adjusted by the IDC Impact-Divested Markets Percentage and prorated from the time of divestiture.

Step 3:
The Telephone Company will recalculate the IDC(s) which remains available to the Customer (Table B) by subtracting the annualized dollar amount of the billed recurring revenues for Qualified Access Service that was divested by the Telephone Company.

Step 4:
The Telephone Company will recalculate the IDCC(s) which remains available to the Customer (Table B) by the ratio of the reduced IDC to the original IDC for each level.

Example:
Reduced IDC = $131,600,000
($141,600,000 – $10,000,000)

Reduced IDCC = $11,802,110
($12,700,000 – ($12,700,000 x 7.07%)

(2) IDCC Annual True-Up:

The Telephone Company will determine whether the Customer's Achieved Revenue Amount meets, exceeds or falls below the IDC.

(a) If the Customer's Achieved Revenue Amount meets or exceeds the IDC, the Telephone Company will apply the appropriate 4th Quarter IDCC credit. The Customer will receive its 4th Quarter payment, as set forth in Section 22.121.6(B)(1)(a)(iii).

(b) If the Customer's Achieved Revenue Amount falls below the IDC, the Customer may pay the difference between the Achieved Revenue Amount and the IDC ("Make-Up Payment"). If the Customer has identified an "IDC Negative Impact," as defined in Subsection (c), following, that amount will be subtracted from the Make-up Payment.

(i) The Telephone Company will notify the Customer within thirty (30) days of the end of the Term Year of any Make-Up Payment.

(ii) The Customer will pay the Make-Up Payment within thirty (30) days after receiving said notification from the Telephone Company.

(iii) The Telephone Company will apply the appropriate IDCC for the 4th Quarter of the Term Year within thirty (30) days of receiving the Make-Up Payment. The following Term Year's IDCC will be determined as set forth in Section 22.121.6(B).

(B) Annual True-Up Calculations (Cont'd)

(2) IDCC Annual True-Up: (Cont'd)

(c) The Telephone Company will adjust the Make-up Payment at the Annual True-up, by the amount identified as a "Negative IDC Impact" revenue amount, if the IDC is missed due to the following "Negative IDC Impact" causes:

(i) If the tariff rates for the billed recurring revenues for the Qualified Access Services that are used for the purposes of calculating the IDC are reduced by a percentage that causes the Customer's billed recurring revenues for such Qualified Access Services to fall below the IDC; and/or

(ii) If the Customer terminates Qualified Access Service(s) as a result of one or more Excessive Service Outages, as defined in Section 22.121.10(B), and the billed recurring revenues for the Qualified Access Services that are used for the purposes of calculating the IDC are reduced, as a result of the Excessive Service Outage termination, by a percentage that causes the Customer's billed recurring revenues for such Qualified Access Services to fall below the IDC.

(d) If the Customer chooses not to make the Make-Up Payment, in Section 22.121.7(B)(2)(b)(ii), this Contract Offer shall be terminated and termination liability charges will apply, as described in Section 22.121.10(A).

Example of IDCC Annual True-Up:

If the Achieved Revenue Amount for Term Year 3 is $143,000,000 and the IDC is $141,600,000, then the IDCC would be $12,700,000. The IDCC applied for the 4th Quarter would be equal to $12,700,000 (which is $3,175,000 X 4) less the Applied IDCC received by the Customer for the Term Year.

(3) IDPC Annual True-Up:
The Telephone Company will determine whether the Customer's Achieved Revenue Amount exceeds the IDC.

(a) If the Achieved Revenue Amount exceeds the IDC, the revenue above the IDC will be used to determine the IDPC Band in Table C based on the IDC Level. The IDPC corresponding to the IDC Level and IDPC Band will be credited as per Section 22.121.6.(C), or

(b) If the Achieved Revenue Amount does not exceed the IDC, or if revenue above the IDC does not fall within an IDPC Band, as described in (a), above, no IDPC credit will be applied for the Term Year.

Example of IDPC Annual True-Up:

If the Achieved Revenue Amount for Term Year 1 is $175,000,000 and the IDC is $141,600,000 (IDC Level 1), the revenue above the IDC would equal $33,400,000 ($175,000,000 -$141,600,000). The IDPC applied in the 4th Quarter would be $1,400,000 per IDPC Band 1.

(A) Assignment/Successors

(1) If the Customer wishes to assign or transfer its rights and obligations under this Contract Offer 121 ("Contract Offer Subscription"), the Telephone Company will permit such transfer or assignment if the criteria in Ameritech Tariff F.C.C. No. 2, Section 2.1.2(A) are fulfilled, unless the proposed assignee or transferee demonstrates a lack of credit worthiness under any of the criteria in (a), (b) or (c), below, or if the assignee or transferee or its parent has commenced, or had initiated against it, a voluntary receivership or bankruptcy proceeding.

(a) Any debt of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly more than 50% of the equity of the proposed assignee or transferee) are rated below investment grade as defined by the securities and exchange commission; or

(b) If any debt securities of a proposed assignee or transferee or its parent are rated the lowest investment grade, and have been placed on review by a rating organization for a possible downgrade; or

(c) The proposed assignee or transferee does not have any outstanding securities rated by credit rating agencies (e.g., Standard and Poor's) but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated:

(i) Fair or below in a composite credit appraisal published by Dun and Bradstreet, or

(2) The Terms and Conditions of Contract Offer No. 121 shall continue in full force and effect if the Customer merges with, acquires, is acquired by, or sells all or substantially all its stock or assets to any other entity (Transfer). After a Transfer, if the other entity also purchases Qualified Access Service(s) from the Telephone Company, either directly or through any affiliates, the Customer shall not include under the Contract Offer Subscription any of the billed, recurring revenue for the Qualified Access Services of the other entity in place as of the date the Transfer is finalized (Transfer Date), except as may be provided below.

Notwithstanding the foregoing, the Customer may choose, at its discretion, one of the options set forth in Subsection Options (i) and (ii) following, within the time period that is between twelve (12) months and twenty-four (24) months after the Transfer Date.

To exercise an Option, the Customer shall send written notice to the Telephone Company, within the time period described above, stating which Option the Customer selects. The date that the Customer sends that written notice shall be the "Option Exercise Date." None of the Options shall alter in any way the terms or conditions of any contract or tariff pursuant to which the other entity obtains Qualified Access Services from the Telephone Company, including, but not limited to, any terms or conditions related to termination.

Option (i): The Customer and the Telephone Company shall recalculate the IDC, IDCC and IDPCs (collectively "Key Numbers") for the period from the Option Exercise Date to the end of the Term Period to allow for the combined billed, recurring revenues for Qualified Access Services of the Customer and the merged or acquiring company to be covered under the Contract Offer Subscription, provided the following conditions are met: (N)

(2) (Cont'd)

Option (i): (Cont'd)

(1) One hundred percent (100%) of the total combined billed, recurring revenues for Qualified Access Services of the Customer and the other entity must be included in the Contract Offer Subscription;

(2) The IDC will be adjusted according to the following formula:

The IDC will be equal to one hundred percent (100%) of the other entity's billed, recurring revenues for Qualified Access Services for the three (3) months immediately preceding the Option Exercise Date, multiplied by four (4), plus the actual IDC at the time of merger. This shall be the "Combined IDC," and

(3) The IDC and IDCC amounts will be adjusted according to the following formula:

The Option 1 multiplier ("Option 1 Multiplier"), which equals the ratio of the Combined IDC to the Customer's current IDC and IDCC, will be applied to the values of the IDC and IDCC associated with the IDC and IDCC Levels that are still available to the Customer, as defined in Section 22.121.6.

Example:
IDC = $141,600,000
Current IDC Level = 1
IDCC = $12,700,000

New Entity Revenue = $33,400,000
Combined IDC = $175,000,000
($141,600,000 plus $33,400,000)

Option 1 Multiplier = 1.24
($175,000,000/$141,600,000)
Combined IDCC = $15,748,000
($12,700,000 multiplied by 1.24)

(5) The Customer must have at least thirty-six (36) months remaining in the Term Period under the Contract Offer Subscription, or if less than thirty-six (36) months are remaining in the Term Period under the Contract Offer Subscription, the Term Period shall be automatically extended so that the Terms and Conditions of Contract Offer No. 121 remain in effect for thirty-six (36) months after the Option Exercise Date; and

(6) The Telephone Company will recalculate the Key Numbers within sixty (60) days of the Option Exercise Date, with no credits being applied to the Customer's bill(s) during this sixty (60) day period. Starting with the remaining quarters, combined Key Numbers will be used to determine applicable IDCC and IDPC credit amounts.

(a) If the Option Exercise Date falls within the 1st, 2nd or 3rd Quarters of the respective Term Year, the initial credit application of any eligible Combined IDCC will occur thirty (30) days after the Key Numbers are determined, or thirty (30) days in arrears of the end of the Quarter, whichever is later; or

(b) If the Option Exercise Date falls within the 4th Quarter of the respective Term Year, the initial credit application of any eligible Combined IDCC and/or Combined IDPC will occur thirty (30) days after the Key Number are determined, or sixty (60) days in arrears of the end of the Quarter, whichever is later.

22.121 Contract Offer No. 121 – Wireless Advantage Managed Services Value Incentive Plan (WAMS-VIP) Offer (Cont'd)

22.121.9 WAMS-VIP Performance – Credits

(A) Cell Site Performance

Cell site Performance Improvement Credits may be available to the Customer based on the quality of service delivered during the Term Period, as set forth in Subparagraph (2), following. The credits will be granted in the event that the Telephone Company's Contract Offer No. 121 service performance level objectives for cell site DS1 Qualified Access Services are not met.

For Term Year 1, the Telephone Company will apply a maximum of $600,000 in special construction credits to improve performance at mutually agreed cell sites that are performing below the DS1 Percentage of 99.9775% Network Availability. The special construction credits will not exceed $600,000 for the sum of all mutually agreed cell sites in all of the Contract Offers, as described in Section 22.121.3(A). This special construction credit will be available until Term Year 1 Annual True-Up.

(1) The DS1 Qualified Access Services cell site performance level parameters will be based on DS1 Percentage of Network Availability. The DS1 Percent of Network Availability will be calculated by determining the actual hours that the cell site DS1 circuits are in service during the Term Year compared to the total expected availability, and then aggregating those total hours over the course of a Term Year.

Example:

If a Customer had 100 circuits in service at the end of January and 110 at the end of February, their total hours of expected availability would be (31 days times 100 circuits, times 24 hours) plus (28 days, times 110 circuits, times 24 hours), or 148,320. This would be the denominator of the network availability equation.

The numerator would be the total hours of outage based on measured trouble found tickets reported to the Telephone Company, subtracted from the 148,320. If there were eight (8) reported failures totaling twenty-eight (28) hours of outage time, the resulting availability for those two (2) months will be equal to ((148,320-28)/148,320), or 99.981 percent. 22.125 Contract Offer No. 125 – Access Extension Offer (Cont'd)

22.125.4 Terms and Conditions

(A) Term Period

The contract term (Term Period) shall be twelve (12) months commencing upon the first day of the month after the Telephone Company receives the Letter of Subscription (LOS) from the Customer.

(B) Monthly Billing Commitment (MBC)

Pursuant to this Contract Offer, the Customer must attain the MBC for each month of the Term Period as described herein to be eligible for credits, as described in Section 22.125.5. The Customer's MBC shall be equal to 1/12th of their previous MVP MARC.

Attainment of the MBC will be determined monthly by the Telephone Company. The Telephone Company will compare the MBC to the combined total of the monthly recurring billing for Contributory Subject Services and Contributory Non-Subject Services.

Example: The Customer's previous MVP MARC was $12,120,000. The MBC would be ($12,120,000 x 1/12) or $1,010,000. At the beginning of the first month of the Term Period, the Telephone Company determined the Customer was billed $840,000 for Contributory Subject Services, and $200,000 for Contributory Non-Subject Services, for a total monthly recurring billing of $1,040,000. Since the Customer attained its MBC, the Customer shall be eligible to receive the monthly credit provided under this Contract Offer.

Shortfall

If the monthly recurring billing is less than the MBC, the Customer shall still be entitled to the Monthly Credit under Section 21.125.5, but the Monthly Credit will be reduced by the amount of the shortfall (difference between the actual monthly recurring billing and the MBC). If the shortfall is greater than the monthly credit, then the Customer must remit the difference to the Telephone Company upon notification.

22.127.7 Termination Liability

The termination liability language described below applies in lieu of the termination liability language described in Ameritech Tariff F.C.C. No. 2, Section 7.

Example: The MRC equals $350. The Subject Service is terminated after twenty-four (24) months, and has twelve (12) months remaining in a thirty-six (36) month service term, and the termination charge would be calculated as:
