39.5 Rates and Charges (Cont'd)39.5.4 Vintage Rates

(A) General Regulations

Term Pricing Plan vintage rates are those rates that apply to existing services provided under a term pricing plan in the event the Telephone Company initiates a rate increase. Vintage rates as set forth following are classified as vintage because the Telephone Company ensures that rates provided under a term pricing plan will not be increased by the Telephone Company, above the term pricing plan rate in effect at the beginning of the customer's term pricing plan.

Vintage term pricing plan rates associated with services and/or MSA's which have not been approved for Phase II pricing flexibility are found in Sections 7, 19, 20, 29, 30, 31 and 40. These vintage rates are applicable in the above mentioned rate increase situations for term plans of services and/or within MSA's with no pricing flexibility approval at beginning of the term plan.

Term plans associated with approved services/MSA's at the outset of the contract will employ Section 39 for vintage rates in regards to rate increase situations.
