A2. GENERAL REGULATIONS

A2.6 Classification of Areas as the Basis for Furnishing Telephone Service

A2.6.1 General

- A. Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by the public necessity as distinguished from personal desire, except where adequate protection is afforded. (T)
- B. The provisions contained in the other sections of this *guidebook* describe the application of the general principles of providing telephone service. (T)

A2.6.2 Classification of Areas

The general plan for furnishing telephone service is based on the following classification of areas by types for the determination of the classes of service available and for the application of rates

- A. Exchange Area
The Exchange Area or Local Service Area is that territory in which local exchange service is furnished and comprises all the area in which some form of local telephone service is furnished, as distinguished from toll service.
- B. Toll Area
Outside the Exchange Area, interim foreign exchange service or foreign exchange service are the normal service offerings.

A2.6.3 Reserved For Future Use

A2.7 Obligation of the Company

A2.7.1 Obligation to Furnish Service

- A. The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights and facilities, and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.
- B. The Company shall satisfy requests for telecommunications services except in the following situations:
 1. Where the Company, in its sole discretion, is unable to secure suitable rights to place and maintain facilities to provide the services; or
 2. Where providing the services is uneconomic or otherwise based upon economic factors, in the Company's sole discretion; or
 3. Where the Company is unable to make an economic assessment due to the Company's inability to secure necessary information, from the owner or developer of a property or other relevant party, to make that assessment; or
 4. Where any conditions in this *Guidebook* are not satisfied, including, without limitation, conditions requiring payment of special construction charges under Section A5. "Charges Applicable Under Special Conditions"; or (T)
 5. Where otherwise specified in this *Guidebook*. (T)
- C. The Company's obligation to furnish service or to continue to furnish service may be modified during a Trial as specified elsewhere in this Guidebook. (N)

A2.8 Reserved for Future Use

A2.9 Customer Premises Inside Wire

A2.9.1 General

- A. Customer premises inside wire is defined as that wire, including connectors, blocks and jacks, within a customer's premises that extends between the termination of the Exchange Access Line or Private Line and those standard jack locations within the customer's premises to which terminal equipment can be connected for access to the Exchange Access Line.
- B. Customer premises inside wire provided by the customer must be installed in accordance with the technical standards and installation guidelines. (T)

A2. GENERAL TERMS AND CONDITIONS

A2.18 King’s Point Wire Center (DLBHFLKP) Trial

(N)

A2.18.1 General

(N)

- A. Effective February 16, 2016, business subscribers served by the King’s Point Wire Center service area, which is a part of the Delray Beach exchange, will participate in the Technology Transition Trial. Certain business service offerings will no longer be available for new installations in the King’s Point Wire Center serving area. Services grandfathered as a result of this Trial will be obsoleted as specified in A100.1 of this Guidebook and B100.1 of the Private Line Guidebook.
- B. The applicable terms and conditions for the trial shall be determined by the Company and the Company reserves the right to alter these terms and conditions at its discretion with appropriate notifications.

(N)

(N)

A2.19 Reserved for Future Use

A2.20 Reserved for Future Use

A2.21 Reserved for Future Use

A2.22 Storm Recovery Fee

A2.22.1 General

- A. Pursuant to the Florida Public Service Commission’s decision in Docket No. 06598-TL, a monthly Storm Recovery Fee may be imposed on all access lines and access line equivalents for the recovery of intrastate costs and expenses related to repairing, restoring, or replacing lines, plant or facilities damaged by a specific storm or multiple storms during a specified storm season. Access line equivalents include, but are not limited to, PBX trunks, Network Access Registers (NARs) and B channels. This fee may be applied for a maximum of twelve (12) months. This fee will not be applied to Lifeline subscribers.
- B. The following will apply from February 2, 2007 to February 1, 2008:
 - 1. Storm Recovery Fee

	Monthly Fee	USOC
(a) Per access line or access line equivalent, residence/business	\$.50	NA

A2.23 Major Disaster Relief Plan

A2.23.1 General

- A. To assist in cases of state and/or federally recognized disasters, AT&T Florida may provide special offerings of its products and services to residence and business customers. Such disasters include, but are not limited to, acts of God, natural disasters, terrorism, military action or war.
- B. The disaster aid offering(s) will be at the discretion of the Company.
- C. The offering(s) will be limited in duration.

A100. OBSOLETE SERVICE OFFERINGS - GENERAL

A100.1 General

- A. Service offerings listed herein are classified as obsolete according to the following types, and each obsolete offering is designated by one of these types.

Type of Obsolescence	Effect on Existing Customers	Effect on New Customer Requests	Status of Equipment in this Category
Type 1	Available for additions, rearrangements, changes or moves if the required equipment is available from existing stock.	Offered for new installations only as available from existing stock.	No longer manufactured. Maintenance of Type 1 offerings will be provided as long as replacement parts are available from existing stock.
Type 2	Available units used only for additions to or replacements of existing service at the same location (i.e., same building) if the required equipment is available from existing stock. A move from one building to another is considered a new installation.	Not offered for new installations on and after the specified obsolete date.	Maintenance of Type 2 offerings will be provided as long as replacement parts are available from existing stock.
Type 3	Units in service on the specified date may be continued in service at the same location (i.e., same building) until such units are discontinued.	Not offered for new installations on and after the specified obsolete date.	No longer manufactured. Maintenance of Type 3 offerings will be provided as long as replacement parts are available from existing stock.
Type 4	Any other arrangement; specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.		

- B. Obsolete services are furnished subject to all *the terms and conditions* of the *guidebook* the same as would be applicable if the service offering were not obsolete. For convenience in use, a *Guidebook* Reference is provided as an aid in referring the reader to a specific section of the *guidebook* having a bearing on the obsolete service offering. (T)
- C. King's Point Wire Center (DLBHFLKP) Trial (N)
- Effective February 16, 2016, the following business services are obsolete and not available for new installations or moves of existing service to a new location in the King's Point Wire Center service area. The King's Point Wire Center service area is part of the Delray Beach exchange. Existing customers with any of the following services provided by the King's Point Wire Center may retain these services at their current locations. (N)

B2. TERMS AND CONDITIONS

B2.1 Undertaking of the Company (Cont'd)

B2.1.8 Obligation of the Company

A. Obligation to Furnish Service

1. The Company shall satisfy requests for telecommunications services except in the following situations: (T)
 - a. Where the Company, in its sole discretion, is unable to secure suitable rights to place and maintain facilities to provide the services; or (T)
 - b. Where providing the services is uneconomic or otherwise based upon economic factors, in the Company's sole discretion; or (T)
 - c. Where the Company is unable to make an economic assessment due to the Company's inability to secure necessary information, from the owner or developer of a property or other relevant party, to make that assessment; or (T)
 - d. Where any conditions in this Guidebook are not satisfied, including, without limitation, conditions requiring payment of special construction charges under Section B5. "Charges Applicable Under Special Conditions"; or (T)
 - e. Where otherwise specified in this Guidebook. (T)
2. The Company's obligation to furnish service or to continue to furnish service may be modified during a Trial as specified elsewhere in this Guidebook. (N)

B2.1.9 Telecommunications Service Priority (TSP) System

A. Service Description

1. The Telecommunications Service Priority (TSP) System is a structured coding scheme that prescribes the order in which National Security Emergency Preparedness (NSEP) telecommunications services are installed or restored. TSP service is limited to qualifying state and local governments, the federal government, foreign governments and certain private industry telecommunications services. The Company can only accept orders for TSP service from holders of valid TSP Authorization Codes. TSP Authorization Codes are administered by the Director, Office of Emergency Communications (OEC). The TSP System was developed to support the requirements of the U. S. Government and applies only to NSEP telecommunications services to which the Company is able to apply priority treatment. It requires and authorizes priority action by the Company.
2. Conditions of emergency or crises that cause invocation of NSEP treatment can only be declared by authorized officials of the Federal Government or other officials (Federal or non-Federal) specified by the Director, Office of Emergency Communications (OEC) on behalf of the Executive Office of the President of the United States.

B. Service Limitations

1. Priority installation and/or restoration of NSEP telecommunications services shall be provided in accordance with Part 64.401, Appendix A, of the Federal Communications Commission's Rules and Regulations.
In addition, TSP System service shall be provided in accordance with the guidelines set forth in "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service User Manual" (NCS manual 3-1-1 dated July 9, 1990) and "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service Vendor Handbook" (NCS manual 3-1-2 dated July 9, 1990).
2. The customer for the TSP System service must also be the same customer for the underlying Private Line Service with which it is associated.
3. The Company will arrange for the installation and/or restoration of TSP System service upon receipt of the proper certification as specified in 1. preceding.
4. It is the responsibility of the TSP user to provide the TSP Authority Code to the Company with each service request.
5. When performing Priority Installation or Priority Restoration (repair) on TSP-designated services in compliance with the Rules and Regulations cited in 1. preceding, the Company may not be in a position to notify the customer regarding additional labor charges if additional labor is required. The customer recognizes that quoting charges and obtaining permission to proceed with the installation or restoration of service may cause unnecessary delays and grants the Company the right to quote charges after the installation or restoration has been completed.

B2. TERMS AND CONDITIONS

B2.14 Customer Agents (Cont'd)

B2.14.3 Warranty and Liability of the Agent

- A. By undertaking any transaction with the Company on behalf of a customer, the agent warrants and represents to the Company that the agent has been duly authorized by the customer to act on behalf of the customer in the transaction undertaken. In the event that the customer denies that the agent has acted within the scope of its authority, the agent shall assume responsibility for such transactions and will indemnify and hold the Company harmless from any and all damages, losses, or claims resulting from such dispute or denial by the customer, except for any damages, losses or claims resulting from the Company's willful misconduct, and will pay any and all applicable rates and charges for services rendered or equipment supplied by the Company because of the agent's actions. The foregoing in no way absolves the customer from liability arising from transactions performed by the agent on behalf of the customer.

B2.14.4 Proof of Authority

- A. When the Company in the reasonable exercise of the Company's discretion believes it appropriate, the Company may request proof of the authority of any party claiming to be the agent of the customer prior to acting upon such request. Failure of the Company to request such proof shall not, however, limit or otherwise affect the agent's responsibility or liability set forth herein, nor shall such a failure constitute a waiver of the Company's right to request such proof at any time in the future.

B2.15 Waiver of Nonrecurring Charges for Customers with Subvoice Grade Private Lines and Local Area Data Channels

- A. It is expressly declared that metallic facilities are in continually decreasing supply and that the Company does not hold itself in a position to make such facilities available. In addition, if modernization programs dictate the replacement of existing metallic facilities with facilities such as fiber optics and subscriber carrier that do not provide metallic continuity, the Company will not be required to continue to provide services that are based on metallic facilities.
- B. In consideration of the decreasing supply of metallic facilities, the Company will convert a customer's service that is based on such facilities to an alternate service and waive the nonrecurring charges associated with the change. This applies to a customer where metallic facilities are being displaced with non-metallic facilities, or a customer may elect to make this change at any time prior to a modernization program that would eliminate the availability of metallic facilities. (M)
- C. This waiver applies to private line customers with Subvoice Grade Service and Local Area Data Service. Alternative services that a customer may convert to are Voice Grade Private Lines, SynchroNet service, WatchAlert service or Basic Local Exchange Service. (M)

B2.17 Reserved for Future Use (M)

B2. TERMS AND CONDITIONS

(M)

B2.18 King’s Point Wire Center (DLBHFLKP) Trial

(N)

B2.18.1 General

(N)

- A. Effective February 16, 2016, business subscribers served by the King’s Point Wire Center service area, which is a part of the Delray Beach exchange, will participate in the Technology Transition Trial. Certain business service offerings will no longer be available for new installations in the King’s Point Wire Center serving area. Services grandfathered as a result of this Trial will be obsoleted as specified in B100.1 of this Guidebook and A100.1 of the General Exchange Guidebook. (N)
- B. The applicable terms and conditions for the trial shall be determined by the Company and the Company reserves the right to alter these terms and conditions at its discretion with appropriate notifications. (N)

B2.19 Reserved for Future Use

B2.20 Reserved for Future Use

B2.21 Reserved for Future Use

B2.22 Storm Recovery Fee

B2.22.1 General

- A. Pursuant to the Florida Public Service Commission’s decision in Docket No. 06598-TL, a monthly Storm Recovery Fee may be imposed on Private Line Services for the recovery of intrastate costs and expenses related to repairing, restoring, or replacing lines, plant or facilities damaged by a specific storm or multiple storms during a specified storm season. Access line equivalents include activated channels on Private Line services. This fee may be applied for a maximum of twelve (12) months.
- B. The following will apply from February 2, 2007 to February 1, 2008:
 - 1. Storm Recovery Fee

	Monthly Fee	USOC
(a) Per activated channel	\$.50	NA

B100. OBSOLETE SERVICE OFFERINGS

B100.1 General

- A. Service offerings listed herein are classified as obsolete according to the following types, and each obsolete offering is designated by one of these types.

Type of Obsolescence	Effect on Existing Customers	Effect on New Customer Requests	Status of Equipment in this Category
Type 1	Available for additions, rearrangements, changes or moves if the required equipment is available from existing stock.	Offered for new installations only as available from existing stock.	No longer manufactured. Maintenance of Type 1 offerings will be provided as long as replacement parts are available from existing stock.
Type 2	Available units used only for additions to or replacements of existing service at the same location (i.e., same building) if the required equipment is available from existing stock. A move from one building to another is considered a new installation.	Not offered for new installations on and after the specified obsolete date.	Maintenance of Type 2 offerings will be provided as long as replacement parts are available from existing stock.
Type 3	Units in service on the specified date may be continued in service on at the same location (i.e., same building) until such units are discontinued. In the case of products/services having common equipment, lines and/or stations may be added up to the capacity of the currently installed common equipment if the required equipment is available from existing stock.	Not offered for new installations on and after the specified obsolete date.	No longer manufactured. Maintenance of Type 3 offerings will be provided as long as replacement parts are available from existing stock.
Type 4	Any other arrangement; specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.		(M)
