(T)

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

H. Switched Circuit Automatic Network Access Line Terminations (Cont'd)

2. *Terms and Conditions* (Cont'd)

(T)

a. Explanation of Terms (Cont'd)

(3) Non-Preemptible SCAN Access Line Terminal

A Non-Preemptible SCAN Access Line Terminal is arranged for the completion of incoming and outgoing routine calls.

(4) Main AUTOVON Location

A Main AUTOVON Location is an ESSX-1 system at which SCAN access lines terminate.

(5) Satellite AUTOVON Location

A Satellite AUTOVON Location may be a ESSX-1, ESSX-5, Centrex or CO, P.B.X., or customer-provided equipment system which is connected to the main AUTOVON location by tie lines or to which incoming priority calls may be routed via the main AUTOVON location over the local and toll network by the main-satellite AUTOVON capability PID option.

(6) Main-Satellite AUTOVON Compatibility Options

Main-Satellite AUTOVON Compatibility Options may be furnished in association with preemptible SCAN access line terminals at the main AUTOVON location.

Immediate Diversion Network In-Dialing (INID) Option

- The INID option provides for the intercept and rerouting of incoming priority calls directed to AUTOVON satellite locations.

Precedence Network In-Dialing (PID) Option

- The PID option provides for the routing, via either tie lines or the local and toll network, of incoming priority calls directed to AUTOVON satellite locations.

- b. SCAN access line terminations provide for the direct inward and outward dialing of AUTOVON calls. Outgoing priority calls are completed only via preemptible SCAN access line terminals. Incoming priority call precedence is only furnished when that call is completed via a preemptible SCAN access line terminal. When an incoming priority call is completed via a non-preemptible SCAN access line terminal, the call is processed in the same manner as a routine call without any precedence recognition. Incoming and outgoing routine calls may be completed via either preemptible or non-preemptible SCAN access line terminals.
- c. The origination of priority calls requires 16-button Touch-Tone dial telephone equipment associated with attendant positions and main station lines.
- d. Preemptible SCAN access line terminals are only furnished where the customer's system is equipped with Data Link Console attendant position equipment.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(T)

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

H. Switched Circuit Automatic Network Access Line Terminations (Cont'd)

2. Terms and Conditions (Cont'd)

(T)

- e. Where tie lines are furnished between a main AUTOVON location and a satellite AUTOVON location, those tie lines may be used to extend incoming priority and routing calls to the satellite location. Satellite AUTOVON location station users may originate routine calls via such tie lines and the main AUTOVON location. Where a satellite AUTOVON location station user desires to originate a priority call via such tie lines and the main AUTOVON location, the attendant at the main location may complete the desired priority call for the satellite location station user.
- f. At the option of the customer, main-satellite AUTOVON compatibility may be furnished on either an INID or PID option basis but a mix of the two on the same system is not permitted. Furthermore, where the PID option is furnished, the option must be arranged for routing via either tie lines or the local and toll networks and a mix of the two routing methods on the same system is not permitted.
- g. When a main-satellite AUTOVON compatibility PID option routed call to a satellite AUTOVON location is not answered within approximately three ringing cycles, that call will be rerouted to the attendant position of the main AUTOVON location.

3. Rates and Charges

a. Common Equipment for SCAN Access Line Terminals

(1) Common Equipment

	Service Establishment Charge	Installation Charge	Monthly Rate	USOC SNN
(a) Per system	\$-	\$550.00	\$220.00

A112.9 Electronic Tandem Switching Features

(Obsoleted 05-30-96, Type 4) Service rates and charges in this section are available for inward activity of existing subscribers only as specified in the obsolescence rules stated in A112.8. Not available for new service or entire moves of existing service to new locations.

(Obsoleted 7-01-85, Type 4) Provided only to those systems already in service or to those systems for which firm orders were received by the Company prior to this date. Additions, deletions and/or rearrangements to an existing system can be made subject to the capacity of the central office from which it is provided.

Note 1: The rate for this option is in addition to the rates and charges applicable for tie line service as specified in other sections of this *Guidebook*. (T)

Note 2: In addition, the rates and charges as specified for Remote Call Forwarding (USOC's: RCF, RCA) in Section A13.11 apply to this option. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.9 Electronic Tandem Switching Features (Cont'd)

A112.9.1 General

- A. Electronic Tandem Switching (ETS) Features are provided only in association with ESSX-1/Centrex-CO Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subjected to the availability of facilities, to ESSX-1/Centrex-CO systems which are served by the same such equipment.

A112.9.2 Terms and Conditions

(T)

- A. Explanation Of Terms

- 1. ETS Features
 - a. ETS Features are ESSX-1/Centrex-CO optional features which are the Deluxe Queueing features.
- 2. (DELETED)

(T)

A. Explanation Of Terms (Cont'd)

3. (DELETED)

4. Deluxe Queueing

a. Deluxe Queueing permits station users to be placed in a queue whenever the first choice route for completing a particular call is already in use. Two queueing arrangements are available;

(1) A Ring-back Queue (RBQ), in which case the calling station goes on-hook and is called back when a facility becomes available.

(2) An Off-hook Queue (OHQ), in which case the calling station remains off-hook and is held in queue until a facility becomes available.

b. Calls held in queue beyond a predetermined time limit will be removed from the queue and be routed, at the option of the customer, via either subsequent route choices or to overflow tone.

C. (DELETED)

D. Deluxe Queueing

1. Calls in queue may overflow to subsequent routes or to tone at the customer option.
2. Deluxe Queueing is available with facilities appearing as the primary (first choice) route in ARS-D or UN/AAR patterns.
3. The text and announcement provided with the Recorded Announcement option will be provided by the Company.
4. The music for the Music-On-Queue option must be provided by the customer.
5. The Music-On-Queue option requires a voice grade channel between the central office and the customer-provided music source at the customer premises. This feature is available only with OHQ.
6. Customer must specify the length of time a call is held in queue (threshold time limit) before overflowing to subsequent routes or to overflow tone.

A. Customer Station Rearrangement

(Obsoleted 05/30/96, Type 4) Service rates and charges in this section are not available for new installations, moves, transfers of service, or replacements or additions to existing service.

Obsolescence Rules

- ESSX Small, Medium and Large Service, Centrex and ESSX-1 Customer Management Features subscribers under a month-to-month payment option will be allowed to maintain their service at month-to-month rates.
- ESSX Small, Medium and Large Service, Centrex and ESSX-1 Customer Management Features subscribers under contract will be allowed to maintain their service until the expiration date associated with the Common Equipment of their contract. Upon expiration of the contract associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)

A112.11 ESSX Small, Medium and Large Service, Centrex and ESSX-1 (Cont'd)**A112.11.1 Customer Management Features (Cont'd)****A. Customer Station Rearrangement (Cont'd)**

Obsoleted 2-9-87, Type 3. Not offered for new installations on and after the specified obsolete date.

1. General

- a. The Customer Station Rearrangement (CSR) feature permits Centrex, ESSX-1 and ESSX customers to activate/deactivate selected optional features, change certain service options, and change feature configurations on predesignated ESSX station lines.
- b. For CSR equipped station lines, CSR allows the customer to verify and/or display the assignment of features on a single station line, range of station lines or all station lines to determine which station or stations have a particular feature or service option.
- c. Certain ESSX station lines may be specified by the customer to be exempt from this feature. Additionally, the Company reserves the right to make station lines inaccessible to CSR.
- d. Changing the status of a station line from accessible to CSR to inaccessible or vice versa, must be done by the Company via a Service Order request. Service Ordering charges, as specified in Section A4. will apply. (T)
- e. CSR transactions will not require a service order.
- f. The Company has made the following provisions to protect the integrity of the switching system database and to ensure the security of CSR changes.
 - (1) A CSR customer's change, display or verify capabilities are restricted to that particular ESSX system to which the customer subscribes.
 - (2) All changes are audited as they are entered by the CSR customer. Invalid changes will not be accepted. An error message detailing which command is in error will be given.
 - (3) Customer access to the database is password protected.
- g. A CSR customer can schedule changes (individual or bulk) for completion by the next business day or for a future business day.
- h. Definitions pertaining to CSR/ESSX features are specified in Section A112.26.3. (T)

A112.11.1 Customer Management Features (Cont'd)

A. Customer Station Rearrangement (Cont'd)

1. General (Cont'd)

i. The CSR feature allows the customer to perform the following transactions from the customer provided terminal:

- (1) Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are:

Common Equipment Group Number (Common Block)

CAT Code

Ringling Cycles for CFDA

Call Pickup Group: The call pickup group to which a station is assigned can be changed on a per station basis.

The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.

Speed Call Group: The Speed Call group to which a station is assigned can be changed on a per-station basis.

Series Completion "Hunt To" Telephone Number (TN): The "hunt to" TN assigned to a station line can be changed on a per-station basis¹

(T)

Station TN Rearrangement: Swap TNs from one location to another²

(T)

- (2) Activate/deactivate the following features and service options on a single station line basis:

Automatic Callback Calling

Call Forwarding Busy Line

Call Forwarding Don't Answer

Call Forwarding Variable

Call Forwarding Unrestricted

Call Hold

Call Pickup

Call Waiting Originating

Call Waiting Terminating

Dial Call Waiting

Directed Call Pickup - Barge In

Directed Call Pickup - Non Barge In

Speed Calling - 6

Speed Calling - 30

Basic Station Line Hunting (Series Completion)

Note 1: All numbers in series completion hunt must be in the same common block.

(T)

Note 2: Rearranged station TNs carry all features and characteristics to their new location unless the Common Equipment Group (Common Block) is also changed.

A. Customer Station Rearrangement (Cont'd)

1. General (Cont'd)

i. The CSR feature allows the customer to perform the following transactions from the customer provided terminal: (Cont'd)

- (3) Display and/or print the status (active or inactive) of features and service options previously listed in a and b and other related information for either a single station line, range of station lines, or all station lines. The other related information provided includes:

Line Equipment Number (OE)
 Common Equipment Group Number (Common Block)
 Master Complex Number
 CAT Code Assignment
 Multiline Hunt Group (MLH) TN assigned to
 Terminal assignment in MLH
 Call Pickup Group - Station TN assigned to
 Speed Call - 30 Group - Station TN assigned to
 Forward to Station TN for CFBL and/or CFDA
 "Hunt to" Station TN
 Outward Trunk Queuing (OTQ) (active/inactive)
 TouchTone (equipped for/not equipped for)
 Group Start (equipped for/not equipped for)

- (4) A CSR customer may also display and/or print the following administrative reports:

Call Pickup Groups

- A list of all call pickup groups and the station TNs associated with each.
- A list of all station TNs associated with a particular multiline hunt group.

Multi-Line Hunt Groups

- A list of all multi-line hunt groups and the station TNs associated with each.
- A list of all station TNs associated with a particular multiline hunt group.

Speed Call Groups

- A list of all speed call groups and the station TNs associated with the control station identified for each group.
- A list of all station TNs with the control station identified for a particular speed call group.

Pending Changes

- A list of all CSR changes entered pending a future completion date.

(T)

(T)

(T)

2. *Terms and Conditions*

(T)

- a. CSR is provided only with Centrex, ESSX-1 and ESSX systems served from a No. 1 or 1A ESS central office and is furnished subject to the availability of facilities.
- b. ESSX-S, M or L customers equipped for CSR must order via a service order² CSR changeable features in groups of five (5) at the rates specified in A112.11.1.A.3.b. following. ESSX-1 and Centrex customers must order via a service order CSR changeable features at rates and charges specified in Section A112. (T)
- c. Non-CSR changeable features will be added subject to the specifications and rates in A112.26.8, A112.26.9, A112.26.10 or A112 as appropriate.
- d. Features for CSR exempt station lines must be requested via a Service Order² and added by the Company. Rates and Charges for the features specified in A112.26.8, A112.26.9, A112.26.10 apply as appropriate. (T)
- e. The customer provided CSR terminal equipment requires an exchange access line or Centrex, ESSX-1 and ESSX main station line. Rates and charges in sections A3, A112.26.8, A112.26.9, A112.26.10 or A112 apply as appropriate.
- f. CSR changes must be entered prior to a time to be designated by the Company to be completed by the next business day.
- g. A CSR customer cannot activate features in excess of the quantity that has been ordered from the Company. The customer will receive an indication on the terminal screen when 100% utilization of a feature is reached. To add additional quantities will require a service order.

Note 1: The CSR customer is responsible for entering and updating the information contained in this field. (T)

Note 2: Appropriate Service Ordering charges as specified in Section A4. will apply. (T)

2. Terms and Conditions (Cont'd) (T)

- h. Contractual obligations and End User Common Line Charges will be billed to the location where originally installed and will not transfer with a station line number rearrangement.
- i. The following types of lines will be restricted from Station TN Rearrangement capability. Service option and features change capabilities are still available.
 - (1) Station lines equipped for dial pulse service
 - (2) Station lines assigned to multiline hunt groups
 - (3) Attendant Lines
 - (4) Any Centrex, ESSX-1 and ESSX line which has a special hardware configurations (e.g., ground start lines and lines having SCAN points or signal distribution points)
 - (5) Manual lines (e.g., station lines with full originating and/or terminating restrictions)
- j. CSR changeable features added by the Company at the customer's request will be subject to the appropriate Service Order charges specified in Section A.4, and the per line charges specified in A112.11. (T)
- k. The Per System charges specified in A112.11.1.A.3.c. apply when a feature is initially activated in a Common Equipment Group (Common Block).

3. Rates and Charges

a. CSR Capability

- (1) Existing ESSX Service (ESSX-S, ESSX-M or ESSX-L)

(T)

A112.11 ESSX Small, Medium and Large Service, Centrex and ESSX-1 (Cont'd)

A112.11.1 Customer Management Features (Cont'd)

B. Advanced Communications Package

1. General

- a. Advanced Communications Package (ACP) features are provided only in association with ESSX Service furnished from No. 1/1A Electronic Switching System (ESS) central office equipment located on company premises and may be provided, subject to the availability of facilities, to ESSX systems which are served by the same such equipment.
- b. The ACP features are designed to meet the needs of those customers who have large numbers of WATS, FX and other services. The ACP features are designed to streamline communications and offer a customer increased control over those communications and offer a customer increased control over those communications. The ACP features will be used to monitor and control facilities in applications such as stand-alone ESSX configurations, Electronic Tandem Network Configurations with ESSX tandems etc.

2. Explanation of Terms

- a. ACP features are optional ESSX features which are specified following:

Advanced Station Message Detail Recording (ASMDR)
Customer Station Rearrangement (CSR)
Facilities Management System (FMS)

- b. ASMDR data include records for Electronic Tandem Switched (ETS) calls originating over FX, WATS, CCSA and the toll network. This feature also adds the capability of recording non-ETS call types (such as dial '9' or "IXX" calls) originated by stations, attendants and ESSX Tie Trunks.
- c. The CSR feature allows the ESSX customer to change and verify their own station assignments for specified stations without requiring a service order.
- d. The Facilities Management feature provides real time access to facilities data and allows customer control of ARS pattern groups, FRL's, Queues, and authorization codes.

3. *Terms and Conditions*

- a. ASMDR will require that the central office be capable of providing SMDR via the 1AE6/1E6 generic or higher. ASMDR is not represented to be a provision of billing detail.

ASMDR records will be provided on customer provided compatible terminal equipment located at the customers' premises.

The customer must designate all station lines and/or selected facility groups on which ASMDR originating and terminating records are to be provided.

ASMDR will include the recording of Authorization codes where these optional features are provided at the rates and charges specified in A112.27.

- b. CSR will be provided at the Rates and Charges as specified in A112.11.
- c. FMS requires the use of ARS-Deluxe at the rates and charges as specified in Section A112.27.3. FMS provides the individual features of Facility Administration and Control, Traffic Data to Customer (Pollable). (T)
- d. All ACP features require the use of customer provided compatible terminal equipment. (M)
- e. Rates and charges for ACP will be developed on an individual case basis and will be based on the estimated costs to provide this service. (M)

A112.12 ESSX Small, Medium and Large Service - 85

(Obsoleted 05-30-96, Type 4) Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service or entire moves of existing service to new locations.

Obsolescence Rules

1. Inward activity for ESSX service - 85 will only be allowed under a Term Payment Plan.
2. ESSX service - 85 subscribers who have their entire account under a month-to-month payment option will be allowed to maintain their ESSX service - 85 at month-to-month rates.
3. ESSX service - 85 subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the rates and charges outlined in this Section until such a time that the Term Payment Plan associated with the Common equipment expires. Upon expiration of the Term Payment Plan associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)
4. ESSX service - 85 subscribers under a Term Payment Plan will be allowed to maintain their ESSX service - 85 until the expiration date associated with the Common Equipment of their contract. Upon expiration of the Term Payment Plan associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)
5. ESSX service - 85 subscribers under a Term Payment Plan will have until 11/30/96 to exercise the recast option and subscribe to ESSX service - Vintage II, as described in A112.26, for a Term Payment Plan of not greater than 84 months in length. ESSX service - 85 subscribers under a month-to-month payment option will have until 11/30/96 to convert to an ESSX service - Vintage II Term Payment Plan of not greater than 84 months in length.
6. ESSX service - 85 subscribers may no longer exercise the recast option as described in A112.32.1.6.
7. Conversion from ESSX-1 service to ESSX service - 85 will not be allowed under this *Guidebook*. (T)(M1)
8. Existing ESSX service - 85 subscribers who are under a Term Payment Plan may add a new secondary location (SLA) or move an existing SLA of their existing service. (M1)

Vintaged November 22, 1988, Type 4. This service is not offered for new installations after November 22, 1988, except where a letter of intent was signed prior to November 22, 1988 and the service is to be installed on or before May 22, 1989. Subsequent additions to an existing system, under contract, are permitted. Additionally, a system under contract may be moved to another *Company* location within the State of Florida. Customers paying vintaged rates and charges will continue to pay vintaged rates and charges until their payment period expires. (M1)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

(M)

A112.12.1 General

- A.** ESSX service Small (S), Medium (M) and Large (L) Service is furnished from No. 1 and 1A Electronic Switching System (ESS) Central Office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features:
1. Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of an ESSX service system.
 2. Intercommunication calls between stations of the same ESSX service system.
 3. Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by the Company will be provided this identification.
 4. Common recorded announcement interception of calls to unassigned station numbers.
 5. Trunk answer any station of incoming primary directory listing calls.
 6. Basic Station Line Hunting
 7. Touch-Tone Service
- B.** ESSX service will be furnished in three categories based on the size of the subscribers system.
1. ESSX service-S will serve systems with 1-200 main station lines.
 2. ESSX service-M will serve systems with 201-600 main station lines.
 3. ESSX service-L will serve systems with more than 600 main station lines.
- C.** An ESSX service system may be comprised of the following components:
- Common Equipment¹
 - Network Access¹
 - Main Station Lines¹
 - Terminating Arrangements
 - Features
1. The Common Equipment and Terminating Arrangements will be at the rates and charges as specified in A112.12.7. The Network Access Limiter and Network Access Registers will be at the rates and charges as specified in A112.26.

(T)

Note 1: Every system will include these components.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.1 General (Cont'd)

- C. An ESSX System may be comprised of the following components: (Cont'd)
2. Main Station Line rates will consist of the intercom charge and the appropriate wire center line charge. These charges will be located in A112.12.8, A112.12.9, and A112.12.10 for ESSX-S, ESSX-M, and ESSX-L respectively.
 3. ESSX Line and System Features will be grouped as follows:
 - Group A Line Features
 - Group B Line Features
 - Group B System Features
 - Optional System Features
 - Customer Management Features²
 - a. Group A Line Features will be offered on a grouped basis to ESSX subscribers who have selected an ESSX Term Payment Plan of 36, 60 or 84 months. Subscribers selecting the month-to-month payment option will be offered the Group A Line Features on an individual basis only.
 - b. Group B Line Features, Group B System Features, Optional System Features and the Customer Management Features will be offered to ESSX subscribers under all payment plan options subject to the specific requirements within each arrangement.
 - c. An ESSX-S subscriber will select Group A and B features in A112.12.8.¹ (T)
 - d. An ESSX-M subscriber will select Group A and B features in A112.12.9.¹ (T)
 - e. An ESSX-L subscriber will select Group A and B features in A112.12.10.¹ (T)
 - f. Optional Service Features will be offered to all ESSX subscribers in A112.12.12. (T)
 - g. Customer Management Features will be offered to all ESSX subscribers in A112.12.13.¹ (T)

A112.12.2 Terms and Conditions

- A. ESSX Small, Medium and Large service is furnished subject to the availability of facilities and features from a No. 1 or 1A Electronic Switching System located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and or major relocations of ESSX systems are subject to the same *terms and conditions* as initial installations. (T)
- B. Certain Auxiliary Services are available on a individual main station line basis and are subject to the capabilities of the serving ESS central office.

Note 1: ESSX systems subscribing to the CSR feature in A112.12.13 must select CSR Changeable Features subject to the rates, *terms and conditions* in A112.12.13. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.2 Terms and Conditions (Cont'd)

- C. Optional Service Features as listed in A112.12.12 include Attendant Features and Auxiliary Attendant Features. These Features may require customer provided compatible terminal equipment. (T)
- D. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service. (T)
- E. All ESSX main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with ESSX service. (T)
- F. Tie lines for direct connections between a basic ESSX system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in Section A13, and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the ESSX system to or from other systems (ESSX or non ESSX) provided such connections to the exchange or long distance network are only made one system at a time. (T)
- G. Where completion of incoming and outgoing local and long distance calls through an ESSX system is furnished to or from main station lines of a separate ESSX system in another exchange or a non ESSX system in the same or different exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems except for Subsidiary System Arrangements furnished under the *terms and conditions* specified in A112.12.12. (T)
 - 1. Rates and charges as specified in Section B3 of the Private Line *Guidebook* apply to miscellaneous lines furnished with unique access codes (trunk level access) except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.12.12. (T)
 - 2. ESSX optional features charges as outlined in Section A112.12.12 apply for each trunk terminated main station line as offered in Section A112.12.7, as appropriate. (T)
- H. Where the lines are arranged to switch calls through the System to or from one or more tie lines or private lines, charges for Dial Cut-Through Arrangement as specified in A112.12.7 shall apply per tie line so equipped. The charge is in addition to the regular charges for the facilities connecting the systems. (T)
- I. Dormitory service is furnished in accordance with the *terms and conditions* for Dormitory Communications Service specified in Section A13. (T)
- J. A system may not be provided for Intercommunication (standalone) service only. Access to the exchange network must be provided. (T)
- K. A mixture of Flat Rate and Message Rate Service will not be allowed within a single customer system. (T)
- L. Suspension of Service with the exception of Network Access Registers, suspension of ESSX Service is not permitted. (T)
- M. A twelve month minimum service period shall be required for subscription to ESSX-M or ESSX-L Service. The minimum service period as specified in Section A2, applies for ESSX-S Service. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.2 Terms and Conditions (Cont'd)

- N. Touch-Tone service will be furnished subject to the *terms and conditions*, specified in Section A13. The rates and charges for ESSX-S, ESSX-M and ESSX-L Service include the provision of Touch-Tone Service. Rates and charges as specified in Section A13. do not apply for the provision of Touch-Tone Service to ESSX-S, ESSX-M and ESSX-L Service. (T)
- O. Directory Listings will be furnished subject to the rates, *terms and conditions* specified in Section A6. (T)
- P. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an ESSX system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the network access register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charge as specified in Section A4. will apply per Network Access Register affected. (T)
- Q. Service charges, as specified in Section A4, apply to all ESSX systems except as provided in A112.12.5. (T)
- R. ESSX installation charges due on an initial installation or subsequent addition may be paid in full at the time of installation or deferred over a predetermined period of time as specified in Section A122. (T)
- S. If the ESSX subscriber elects a Message Rate Service option, Message Rate Service usage charges specified in Section A3. are applicable on calls to locations outside the subscriber's ESSX system in addition to rates and charges in this and other *guidebook* sections for ESSX service and other associated services. Usage charges are not applicable on calls originated and terminated within the same ESSX system. (T)
- T. ESSX main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It¹ Services (e.g., 900 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 10XXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted. The term "Public Announcement Services" as used herein are those services which, in the judgement of the Company, furnish advertised recorded announcement messages to the general public (e.g., time, weather, sport scores and stock market reports). The Public Announcement Service central office codes will be determined by the Company and will be commonly denied access in the office serving the ESSX systems subscribing to this service arrangement.
1. At the time a Code Restriction Arrangement is installed, the ESSX system will be arranged for the code restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the appropriate Service Ordering Charge as specified in Section A4. for a change in line termination applies per main station line affected except that no such charge applies when the Code Restriction Arrangement is disconnected in its entirety. (T)
 2. Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
 3. Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls but such calls may, in certain circumstances be completed and charges will apply as specified elsewhere in this *Guidebook*. (T)(M)

Note 1: Dial-It is a service of AT&T.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.2 Terms and Conditions (Cont'd)

- U. The list of Wire Center Density Classifications by Exchange as specified in A112.12.14 shall be used in determining the density of a particular serving wire center. Whenever the density group designation of a serving wire center is reclassified, ESSX service customers are subject to the following:
 - 1. Charges for main station lines under contract via the ESSX service Term Payment Plan shall not change for the remainder of the payment period.
 - 2. Upon expiration of the existing contract, the new rate will be based on the wire center density group as reclassified.
 - 3. Charges for main station lines not under contract (Month-to-Month), including minimum service period shall be adjusted as appropriate in those situations where the reclassification will result in a lower rate.
- V. The first system established per customer within a Local Calling Area must consist of a minimum of one (1) Main Station Line. Systems installed or ordered prior to December 17, 1985, are not subject to this *term and condition*. (T)
- W. ESSX service subscribers with rates and charges applicable out of the Obsolete Section A112.12 may subscribe to features found in A112.26 but not offered in A112.12. (T)
- X. ESSX service subscribers with rates and charges applicable out of the Obsolete Section A112.12 wishing to add or change features must apply nonrecurring charges as indicated in A112.26. (T)

A112.12.3 Definitions

WIRE CENTER DENSITY

Refers to the average number of main stations (MS) and equivalent main stations (EQ. MS) per square mile in the serving wire center area. Wire Center Density Groups are designated "A" and "B" with group "A" having the least density and group "B" having the highest. Wire Centers with the group "A" designation contain 0-1200 main stations and equivalent main stations per square mile. Wire Centers with the group "B" designation contain over 1201 main stations and equivalent main stations per square mile.

OTHER DEFINITIONS - SEE A112.

A112.12.4 Intercept Of Calls To Unassigned Station Lines

- A. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- B. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all ESSX systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted. (M1)

Note 1: Dial-It is a service of AT&T.

(T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

(M)

A112.12.5 Conversion

A. Conversion of No. 1 or No. 1A ESS served Centrex C.O. Services to ESSX-S, M and L Service

1. Conditional Requirements - Customers with Centrex C.O. Services may elect to convert to ESSX service at no charge provided the following conditions are met.
 - a. The Centrex - C.O. Service must be provided from No. 1 or No. 1A Electronic Switching System (ESS) central offices.
 - b. The customer's system must continue to be served by the same central office equipment.
 - c. There must be no interruption of service, and
 - d. No moves, changes or additions in existing station lines, terminating arrangements, or optional features are requested by the customer.
 - e. Centrex C.O. Service converting to ESSX Service must elect one of the following options:
 - (1) Month-to-Month Payment Plan
 - (2) ESSX Term Payment Plan of 36, 60 or 84 months
Terms and conditions concerning the ESSX Term Payment Plan are specified in Section A22.

(T)

B. Conversion of ESSX-1 Service to ESSX-S, M and L Service

1. When a customer whose present ESSX-1 Service elects to convert to ESSX-S, M or L Service, installation and service connection charges do not apply to Common Equipment, in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided that all of the following conditions are met:
 - a. The customer's system must continue to be served by the same central office equipment,
 - b. There must be no interruption of service, and
 - c. There are no moves, changes or additions in existing station lines, terminating arrangements, or optional features requested by the customer.
2. Customers with ESSX-1 Service converting to ESSX-S, M or L Service must elect a payment period equal to or greater than the unexpired portion of their current payment plan. The following options are available.
 - a. Month-to-Month Payment Plan
 - b. ESSX Term Payment Plan of 36, 60 or 84 months
Terms and conditions concerning the ESSX Term Payment Plan are specified in Section A122.

(T)

C. Replacement of Number 1/1A ESS Central Office Equipment

(M1)

1. The rates and charges in this and other *guidebook* sections for ESSX Service and the associated features and services will continue to apply to existing ESSX subscribers served at a location that is converted through no desire or fault of the subscriber to other than Number 1/1A ESS central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the non-Number 1/1A ESS equipment, the billing for the customer's system will be converted to rates and charges appropriate for the central office equipment providing his service.

(T)(M1)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS (T)**A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)** (M)**A112.12.6 Payment Schedules****A. General**

1. ESSX service is offered as follows

a. The Payment periods are:

Month to Month Payment Plan

36 Month ESSX Term Payment Plan

60 Month ESSX Term Payment Plan

84 Month ESSX Term Payment Plan

b. Items that may be placed under the ESSX Term Payment Plan:

Main Station Lines

Extension Station Lines

Group A Features

Group B Features

Optional Service Features

System Common Equipment

Line Terminating Arrangements

Terms and conditions concerning the ESSX Term Payment Plan are specified in Section A122. (T)

2. The monthly rate for ESSX service is dependent upon the payment period selected by the customer.

3. The monthly rate for ESSX service under the ESSX Term Payment Plan for the periods of 36, 60 or 84 months is not subject to Company initiated rate increases.

B. Expiration of Contract Period

1. ESSX-S, ESSX-M and ESSX-L customers must upon the expiration of their contract:
 - a. Select a new payment period as offered in the current *guidebook* or, (T)
 - b. Revert to the current *guidebook* rates for the month to month payment option. (T)
2. An ESSX-S, ESSX-M or ESSX-L customer whose service is provided under rates, *terms and conditions* found in Section A112. may at any time during his selected contract period resubscribe for an equal or longer contract period at the current *guidebook* rates subject to the following conditions: (T)
 - a. No credit will be given for payments made during the formerly selected period. Non-recurring charges will not be reapplied.
 - b. The new payment period begins with the billing date following the date the new payment period is requested.
 - c. No termination charge applies for the former payment period.
 - d. A Secondary Service Ordering charge as specified in Section A4. will apply. (T)
 - e. Subscriber has not previously exercised the option to resubscribe after the effective date of this *Guidebook*. (T)
3. An ESSX-S, ESSX-M or ESSX-L customer whose service is provided under rates, *terms and conditions* found in Section A112. may at any time during his selected contract period resubscribe for a contract period shorter in length than the time remaining in the existing service agreement, subject to the following conditions: (T)
 - a. No credit will be given for payments made during the formerly selected period. However, nonrecurring charges will not be reapplied.
 - b. The new payment period begins with the date requested.
 - c. A termination charge applied to the former payment period.
 - d. A Secondary Service Ordering charge as specified in Section A4. will apply. (T)

(T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.6 Payment Schedules (Cont'd)

C. Termination Liability

The Termination Liability applicable to ESSX service is dependent upon the payment period selected by the customer. Termination charges for the optional payment periods are as follows:

1. Month-to-Month Payment Plan
 - a. ESSX-S Customers - No Termination Liability will be applicable.
 - b. ESSX-M Customers
 - (1) Within 12 months of date of installation - If a customer's Main Station Line count falls below 75% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
 - (2) Beyond 12 months of date of installation No Termination Liability will be applicable.
 - c. ESSX-L Customers
 - (1) Within 12 months of date of installation - If a customer's main station line count falls below 90% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
 - (2) Beyond 12 months of date of installation - No Termination Liability will be applicable.
2. ESSX Term Payment Plan Option
 - a. ESSX-S, ESSX-M and ESSX-L customers that contract a portion of their system under the ESSX Term Payment Plan Option are subject to the following liability charges.
 - (1) Main Station Lines, Group A Features, Group B Features, System Features under contract - 90% of remaining amount due for each main station line disconnected after the customer's total main station line count falls below 90% of the total main station lines initially installed or of the annually adjusted total.
 - (2) All non-contracted items - No Termination Liability will be applicable.
3. When a subscriber's ESSX service under a Term Payment Plan is disconnected prior to the expiration of the selected service period as a result of a subscriber requested change to one of the separately *available* services listed following, termination charges will not apply when:
 - a. the completed service period is 12 months, and
 - b. the service period of the new arrangement for the separately *available* service equals or exceeds the remaining service period of the disconnected service, and
 - c. the service orders to install the separately *available* service and disconnect the existing service are related together and there is no lapse in service between installation of the separately *available* service and disconnection of the existing service, and
 - d. the service orders are for the same subscriber at the same location.

For the purposes of determining the separately *available* services to which the preceding conditions apply, the following list will be used:

 - MegaLink Service (M)
 - MegaLink Channel Service (M)
 - MegaLink ISDN Service (M)
 - LightGate Service (M)

(M)

A112.12.7 Common Rates and Charges**A. General****1. Station Lines**

- a. The rates and charges specified herein for main station lines provide for main station line components. The main station line consists of all facilities including outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.
- b. The rates and charges specified herein for extension stations provide for an extension station line component. The extension station line consists of usage of traffic sensitive Central Office equipment.
- c. The rates and charges specified herein for main and extension station lines are applicable to each main station location and extension station location respectively to which a customer-provided instrument can be connected.
- d. Service Charges as specified in Section A4. apply to all customer-requested moves, changes, removals, rearrangements and maintenance of premises wiring performed by the Company on the customer's premises. (T)
- e. End User charges as specified in the End User Access Service Section of FCC Tariff Number 61 apply as appropriate.
- f. Rates for the main station lines of ESSX-S, M and L customers will be based on the following criteria:
 - Main Station Group Size
 - Wire Center Density Group
 - Distance from the Serving Central Office
 - The type of payment plan selected by the customer
- g. The total main group size will consist of main station lines and attendant access lines for all locations served by the same ESSX system.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.7 Common Rates and Charges (Cont'd)

A. General (Cont'd)

1. Station Lines (Cont'd)

- h. Wire center density is based on the number of main stations and equivalent main stations per square mile served by that wire center.
- i. Wire center density groups are designated "A" and "B" with group "A" having the least density and "B" having the most density.

"A"

0 - 1200 Mains and equivalents/square mile

"B"

Over - 1201 Mains and equivalents/square mile

- j. The distance band will be based on airline mileage from the serving central office to the Network Interface Location at the customer's premises.

Where main stations are in a foreign exchange (FX) or a foreign central office (FCO) area the distance band will be calculated from the FX or the FCO to the Network Interface Location serving those main stations.

Systems with more than one location served by the same ESSX control group will calculate the distance band per location.

- k. In a different central office serving area of a multi-office exchange:

The rate of ESSX Service in a FX or FCO area is the monthly rate for the ESSX service desired, plus an FX or FCO mileage charge as specified in Section A9. (T)

When ESSX main station lines are connected by facilities which are routed between two or more central offices in the same exchange the foreign central office mileage charge is calculated separately on an airline basis between the ESS central office from which the ESSX system is served and the central office from which exchange service normally would be rendered.

- l. Rates, charges, liabilities and additional *terms and conditions* if applicable may be developed on an individual case basis for main station lines exceeding four (4) airline miles from the serving central office. (T)

2. Exchange Access

- a. Exchange Access is provided by means of Network Access Registers.
- b. Presubscription of a Carrier of Preference is specified in Section 13 of the Interstate Access Service Tariff.

3. Subsequent Training

After the initial installation of the subscriber's system, subsequent training will be provided at the charges indicated in Section A12.20.8.D. (T)

B. Nonrecurring Charges (See A112.26.7)

B. Group A Line Features

1. General

ESSX-S Service customers may add features from Group A at the rates shown in a. or b. following if a payment period of three, five or seven years is selected. ESSX-S customers choosing the month to month payment option must add Group A features at the rates specified in C. following. An additional common block may be required if certain feature parameters are exceeded.

a. Group A Line Features

The following ESSX-S Group A features are available.

There is no minimum number of features or groupings of features that must be obtained unless specified by the features.

(1) Three-Way Calling, Consultation Hold, Call Transfer-Individual^{1,2}

(T)

(2) Three-Way Calling, Consultation Hold, Call Transfer-All Calls²

(T)

(3) Call Forwarding - Busy Line

(4) Call Forwarding - Don't Answer

(5) Call Forwarding - Variable

(6) Call Forwarding - Variable (Outside)

(7) Call Hold

(8) Call Pickup

(9) Call Waiting Terminating

(10) Call Waiting Originating

(11) Speed Call (6) Customer Changeable

Note 1: An ESSX-S System may be provided with only one type of call transfer capability without using the Split Service feature. The Split Service feature in D. following is required to provide more than one type call transfer within the same ESSX-S system.

(T)

Note 2: Either (1) or (2) is required with each Listed Directory Number, number arranged for hunting with Listed Directory Numbers and/or each ESSX-S main station line or line equipment number designated as a Console Access Loop or terminated in telephone sets used as Attendant Consoles.

A112.12.8 ESSX-S Service (Cont'd)

D. Group B System Features (Cont'd)

1. Rates and Charges (Cont'd)

a. The following features may be added by an ESSX-S subscriber as Group B System Features. (Cont'd)

(3) Added Call Transfer¹ (T)

	ESSX Term Option				Month USOC
	To Month	36 Months	60 Months	84 Months	
(a) Per Rearrangement per System	\$ -	\$ -	\$ -	\$ -	CTP
(4) Split Service					
(a) Each additional Common Block	4.75	4.50	4.25	4.00	EBS
(5) Station Dial Code Screening ² - Arrangement I					
(a) Per Main Station Line Equipped	.35	.30	.30	.30	SCR
(b) Per group with same Screening arrangements	47.15	46.95	46.75	46.55	SCW
(c) Per NPA (exclude HNPA) with C.O. code screening Initial Service	1.40	1.35	1.35	1.35	SCY
(d) Additions to NPA or C.O. Code Group	-	-	-	-	NA
(e) Deletions from NPA or C.O. Code Group	-	-	-	-	NA
(f) Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change ³	-	-	-	-	NA

Note 1: This feature is optionally available to Call Transfer - All Calls and permits calls to be transferred outside the ESSX system. (T)

Note 2: Except where all ESSX main station lines have the same Arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8.D. This feature is not available on International Direct Distance (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call. (T)

Note 3: Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged as specified in other sections of this *Guidebook*. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.9 ESSX-M Service (Cont'd)

B. Group A Line Features

1. General

ESSX-M Service customers may add features from Group A or B following at the rates shown in a. following if a contract period of three, five or seven years is selected. ESSX-M Customers choosing month-to-month payment may add features from c. following for Group A features. An additional common block may be required if certain feature parameters are exceeded.

All features in Group B apply to ESSX-M customers selecting 3, 5 or 7 years or month-to-month payment plans.

a. Group A Line Features

The following ESSX-M Group A features are available.

There is no minimum number of features or groupings of features that must be obtained unless specified by the feature.

(1) Three-Way Calling, Consultation Hold, Call Transfer-Individual^{1,2}

(T)

(2) Three-Way Calling, Consultation Hold, Call Transfer-All Calls²

(T)

(3) Call Forwarding - Busy Line

(4) Call Forwarding - Don't Answer

(5) Call Forwarding - Variable

(6) Call Forwarding - Variable (Outside)

(7) Call Hold

(8) Call Pickup

(9) Call Waiting Terminating

(10) Call Waiting Originating

(11) Speed Call (6) Customer Changeable

Note 1: An ESSX-M System may be provided with only one type of call transfer capability without using the Split Service feature. The Split Service feature in D. following is required to provide more than one type call transfer within the same ESSX-M system.

(T)

Note 2: Either (1) or (2) is required with each Listed Directory Number (LDN), numbers arranged for hunt with Listed Directory Numbers and/or each ESSX-M main station line or line equivalent number designated as a Console Access Loop or terminated in telephone sets used as Attendant Consoles.

D. Group B System Features (Cont'd)

1. Rates and Charges (Cont'd)

a. The following features may be added by an ESSX-M subscriber or Group B System Features. (Cont'd)

(3) Added Call Transfer

	ESSX Term Option				Month	
	To Month	36 Months	60 Months	84 Months		
(a) Per Rearrangement per System ¹	\$-	\$-	\$-	\$-		USOC CTP (T)
(4) Split Service						
(a) Each additional Common Block	3.75	3.50	3.25	3.00		EBS (T)
(5) Station Dial Code Screening ² Arrangement I						
(a) Per Main Station Line Equipped	.30	.25	.25	.25		SCR
(b) Per group with same Screening arrangements	45.35	45.20	45.00	44.80		SCW
(c) Per NPA (exclude HNPA) with C.O. code screening Initial Service	1.35	1.30	1.30	1.30		SCY
(d) Additions to NPA or C.O. Code Group	-	-	-	-		NA
(e) Deletions from NPA or C.O. Code Group	-	-	-	-		NA
(f) Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change ³	-	-	-	-		NA (T)

Note 1: This feature is optionally available to Call Transfer - All calls and permits calls to be transferred outside the ESSX system. (T)

Note 2: Except where all ESSX main station lines have the same Arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8. This feature is not available on International Direct Distance Dialed (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call. (T)

Note 3: Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged for as specified in other sections of this *Guidebook*. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number. Removal of the code screening arrangement from a main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)

(b)	Per group with same screening arrangement and same access code	45.35	45.20	45.00	44.80	SCZ
(c)	Per NPA with C.O. code Screening Additions/Deletions to NPA Central Office Code, each (See A112.26.9)	1.35	1.30	1.30	1.30	SC1

Rearrangement from one Screening arrangement to a different Screening arrangement, per main station line or group of lines changed at the same time without main station line number change² (See A112.26.9) (T)

Note 1: Arrangement II is available only with access to channels associated with private line networks and requires the associated facilities to be senderized and equipped with uniform numbering. (T)

Note 2: Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged for as specified in other sections of this *Guidebook*. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number. Removal of the code screening arrangement from a main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)

(10) Code Restriction to NNX assigned to 900 Services ⁴					
(a) Per System	-	-	-	-	RAZ
(b) Per Main Station Line	-	-	-	-	RA8

Note 1: Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for as specified in other sections of this *Guidebook*. (T)

Note 2: Initial Rate Per System applies only to the first type of code restriction installed. Subsequent restriction types may be installed on a per system basis at no additional monthly rate.

Note 3: On subsequent additions to the same system, no additional recurring rates apply.

Note 4: Service charges are not applicable. Nonrecurring charges will be waived for a period of 90 days following customer notification of this offering. Also, for new customers, nonrecurring charges will be waived for a 90 day period following initial establishment of service.

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.10 ESSX-L Service (Cont'd)

B. Group A Line Features

1. General

ESSX-L Service customers may add features from Group A at the rates shown in a. following if a payment period of three, five or seven years is selected. ESSX-L Customers choosing month-to-month payment may add features from b. following for Group A features.

All features in Group B apply to ESSX-L customers selecting 3, 5 or 7 years or month-to-month payment plans.

a. Group A Line Features

The following ESSX-L Group A features are available.

There is no minimum number of features or grouping of features that must be obtained unless specified by the feature.

(1) Three-Way Calling, Consultation Hold, Call Transfer – Individual^{1,2}

(T)

(2) Three-Way Calling, Consultation Hold, Call Transfer - All Calls²

(T)

(3) Call Forwarding - Busy Line

(4) Call Forwarding - Don't Answer

(5) Call Forwarding - Variable

(6) Call Forwarding - Variable (Outside)

Note 1: An ESSX-L System may be provided with only one type of call transfer capability without using the Split Service feature. The Split Service feature in D. following is required to provide more than one type call transfer within the same ESSX-L system.

(T)

Note 2: Either 1. or 2. is required with each Listed Directory Number (LDN), numbers arranged for hunt with Listed Directory Numbers, and/or each ESSX-L main station line or line equipment number designated as a Console Access Loop or terminated in telephone sets used as Attendant Consoles.

(a) Each additional Common Block	\$2.75	\$2.50	\$2.25	\$2.00	USOC
(5) Station Dial Code Screening ¹ Arrangement I					EBS
(a) Per Main Station Line Equipped	.25	.20	.20	.20	SCR
(b) Per group with same screening arrangements	44.95	44.70	44.60	44.40	SCW
(c) Per NPA (exclude HNPA) with C.O. code screening Initial Service	1.30	1.25	1.25	1.25	SCY
Additions to NPA or C.O. Code Group (See A112.26.10)					
Deletions from NPA or C.O. Code Group (See A112.26.10)					
Rearrangements from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change ² (See A112.26.10)					

Note 1: Except where all ESSX main station lines have the same arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8.D. This feature is not available on International Direct Distance Dialed (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call. (T)

Note 2: Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged as specified in other sections of this *Guidebook*. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number. Removal of the code screening arrangement from a main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)

Note 1: Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged as specified in other sections of this *Guidebook*. (T)

Note 2: Initial Rate Per System applies only to the first type of restriction installed. Subsequent restriction types may be installed at no additional monthly rate.

Note 3: On subsequent additions to the same system, no additional recurring rates apply.

Note 4: Service charges are not applicable. Nonrecurring charges will be waived for a period of 90 days following customer notification of this offering. Also, for new customers, nonrecurring charges will be waived for a 90 day period following initial establishment of services.

A112.12.12 Optional Service Features

A. Attendant Service

Central office attendant console operation is offered as an auxiliary service with ESSX service.

The Call Transfer-Attendant feature is furnished with Non-Data Link or Data Link Console operation.

As an alternative the subscriber may designate a selected station or stations to perform attendant functions. Incoming calls to the listed directory number are connected to the selected station and then completed to the desired party by operation of the Call Transfer feature.

1. Central Office Components for Non-Data Link Consoles Operations

a. General

(1) Customer provided compatible consoles may be provided only where the central office serving the ESSX system has been arranged for use with such consoles.

(2) Control channels are required for various console optional features as indicated and are provided at the appropriate rates and charges as specified in Section B3. of the Private Line *Guidebook*. (T)

Note 1: All main station lines in the same customer group must be commonly equipped for Call Transfer Inter ESSX screening. (T)

C. Centralized Attendant Service

Centralized Attendant Service (CAS) allows a customer with a number of locations that are served by either a PBX, Centrex-CO or ESSX system to concentrate all attendants at a single centralized location (main). Incoming calls over a local exchange trunk to an unattended location (branch) are routed to the main location via a Release Link Trunk (RLT), where a CAS attendant completes the call by dialing the called party's extension number over the same Release Link Trunk facilities.

Note 1: In addition apply rates and charges as specified in Section B3. of the Private Line *Guidebook* for a private line channel between the serving central office and the customer premises and for customer provided equipment associated with that charge. (T)

Note 2: Apply recurring charges for initial installation. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS (T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.12 Optional Service Features (Cont'd)

C. Centralized Attendant Service (Cont'd)

1. Types of Equipment With Which CAS is Associated

The main location must be an ESSX system that is equipped for this service, and utilizes customer provided compatible terminal equipment.

The branch locations must be one of the following:

- a. An ESSX system
- b. A Centrex-CO system served by a No. 1 ESS or No. 5 Crossbar central office that is equipped for this service and arranged for switched loop operation and Touch-Tone service, as provided for in this *Guidebook*. (T)
- c. A location that has switching equipment that is customer-provided or is in an area that is served by another telephone company can be interconnected as a branch location only if the switching equipment is compatible with the Company's.

2. Basic Service Features

- a. Remote Hold - enables the attendant to hold a call without holding an RLT. The call is temporarily placed on hold at the originating system and automatically routed to an attendant after approximately 30 seconds.
- b. Customer Testing of Release Link Trunks - permits each RLT to a PBX branch to be dial accessed by the centralized attendant to insure it is in service and the transmission performance is adequate.
- c. Attendant Call Distribution - queues and distributes calls to the CAS attendants. This provides administrative control over the team of attendants and enables the calls from the branch locations to be handled in their approximate order of arrival, as attendant positions become available.
- d. Attendant Recall on "Station Don't Answer" - all PBX type branch locations provide a timed reminder generally after 30 seconds, to automatically recall the attendant if a called station does not answer.

3. Rates and Charges

D. Automatic Route Selection - Basic (ARS-B)

1. General

a. Automatic Route Selection - Basic (ARS-B) is an optional feature, available where facilities permit that allows station users, by dialing a preselected code to automatically select the preferred route subscribed to by a customer for network calls. Alternate routing to other facilities subscribed to by the customer is also provided. This agreement is available for use with Foreign Exchange, WATS, CCSA off-net tie lines and Interexchange Carrier (IC) access lines which are compatible with ARS and the MTS network facilities.

Note 1: Rates and charges as specified in Section A112.12.A.1 for equipment is required.

(T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)**A112.12.12 Optional Service Features (Cont'd)****D. Automatic Route Selection - Basic (ARS-B) (Cont'd)**

1. General (Cont'd)

- b. Automatic Route Selection - Basic is accessed by dialing a single code (1, 2 or 3 digits) which automatically selects the appropriate route (FX, WATS, CCSA off-net, tie line, IC access line or the MTS Network) to complete the call. If all facilities in the initial route selected are busy, the call will advance to other routes in the selected pattern. Patterns may consist of up to four (4) private routes. If no route is available, the call will route to the MTS network or overflow tone (customer option). All patterns accessed by a single access code will have the same final route, either the MTS network or overflow tone.
- c. For calls using FX, WATS, CCSA off-net or IC access line facilities, the routing may be based on a Number Plan Area (NPA) and limited to specified central office codes within the NPA as designated by the customer. This is referred to as Foreign Area Discrete Translation.
- d. Automatic Route Selection - Basic is a call routing capability and, therefore, all codes must be in a route for selection. Code blocking is not provided by this feature.

2. **Terms and Conditions**

(T)

- a. Automatic Route Selection - Basic is provided only in association with ESSX Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities to ESSX systems which are served by the same such equipment.
- b. Preferred routes and alternate routing patterns will be specified by the customer.
- c. All rates and charges specified for Automatic Route Selection - Basic are in addition to the rates and charges for associated facilities.
- d. The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- e. A single rate per facility will apply regardless of the number of patterns having access to the facility. The monthly rate specified is applicable to each facility available to the patterns.
- f. Patterns without final route to the DDD Network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgement of the Company, provide an adequate level of service so as to avoid interfering with the service of others or to prevent others from making or receiving calls over their telephone service.
- g. Where a route is used in one pattern (pattern reached by one access code) only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes). One translation per pattern may be provided subject to the appropriate charges as specified in paragraph E.1.d. following. Where central office code translation is required for more than one Numbering Plan Area (NPA) per single facility group or route, rates and charges as specified should be applied for each NPA translated.

E. Station Message Detail Recording

1. General

- a. Station Message Detail Recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, FX, WATS, CCSA, Interexchange Carrier access lines and or the MTS Network (Toll).
- b. The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by; the customer for Station Message Detail Recording.

2. *Terms and Conditions*

- a. Station Message Detail Recording (SMDR) may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- b. Station Message Detail Recording is not represented to be a provision of billing detail. Where tie line, Interexchange Carrier access line, and Foreign exchange facilities are involved all such call attempts, whether completed or not, will appear in the SMDR.
- c. Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The customer will be responsible for making the tape format compatible with his data processing equipment.
- d. A magnetic tape will be provided by the Company on each occasion Station Message Detail Recording is furnished to the customer. The tape becomes the property of the customer on a "no exchange" basis and the tape may not be returned to the Company for reuse.
- e. Station Message details may be provided on all facilities subscribed for the customer including the Network (Toll), but will not include intercom calls originated by station users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the toll network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g. messages received collect or billed to third number will be on the tape file in addition to DDD messages originated by the station user.
- f. Directory Assistance (DA) call detail may be provided on the magnetic tape (customer option).

(T)

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.12 Optional Service Features (Cont'd)

G. Subsidiary System Arrangements

1. Subsidiary System

A Subsidiary System of an ESSX system is a customer-provided equipment system which is furnished PBX trunks from the central office serving the customer's ESSX system and which is connected by tie lines to that ESSX system.

A Subsidiary System Arrangement provides station numbers which are in sequence with the main station line numbers of the customers' ESSX system to the stations of one or more subsidiary systems.

2. *Terms and Conditions*

(T)

a. Subsidiary System Arrangement (SSA) station numbers are provided by the same central office equipment and facilities which furnish Direct-Inward-Dialing (DID) service and will only be furnished where adequate DID facilities are available in the central office serving the customer's system and where the subsidiary system is properly equipped for DID service.

b. The PBX trunks of the subsidiary system are provided at the same rates and charges as specified for such trunks furnished from the central office serving the customer's ESSX system. In addition, foreign central office or foreign exchange mileage charges are applicable to those trunks when the subsidiary system is located outside the area of that serving central office.

c. The same rates and charges as specified for DID service apply for SSA station numbers. Where more than one subsidiary system is involved, each subsidiary system is considered a separate service and the count of station numbers furnished will commence anew at each such system for the purpose of determining the applicable rates and charges.

d. Tie lines connecting the ESSX and subsidiary systems are provided at the same rates and charges as specified for ESSX tie line terminals in a customer-provided equipment system.

e. SSA station numbers are furnished subject to the condition that all inward and outward local and toll network calling by subsidiary system stations be via the central office serving the customer's ESSX system.

(1) Where subsidiary system station's outward local and toll network calls are placed via tie lines and the network access registers of the ESSX system, the charges for such calls are identified and billed as primary directory listing calls of the ESSX system.

(2) Where subsidiary system station's outward local and toll network calls are placed via PBX trunks, the charges for such calls are identified as primary directory listing calls of the subsidiary system except as specified in f. following.

f. At the option of the customer, identification of outgoing toll network calls by SSA station number will be provided at the same rates and charges as specified for Identified-Outward-Dialing (IOD) service subject to the following conditions.

(1) The identification of outgoing toll calls by SSA station number will only be provided on calls routes via PBX trunks.

(2) Where more than one subsidiary system is arranged for the identification of outgoing toll calls by SSA station number, each system shall be considered a separate service and the count of connecting channels which serve as IOD trunks will commence anew at each system for the purpose of determining the applicable rates and charges.

(M)

g. The ESSX subsidiary system arrangement is provided solely for the furnishing of SSA station numbers to subsidiary systems for local and toll network and intercommunication calling and does not provide any of the basic optional service features of ESSX service to stations of the subsidiary systems.
