(T)

A17. MOBILE TELEPHONE SERVICE

A17.1 *Terms and Conditions* (Obsoleted, See Section A117.) (Cont'd)

(T)

A17.2 *Service Categories* (Obsoleted, See Section A117.)

A17.3 *Service Areas* (Obsoleted, See Section A117.)

A17.4 *Rates and Charges* (Obsoleted, See Section A117.)

A23. SHARING AND RESALE OF EXCHANGE SERVICE

A23.1 Sharing and Resale of Basic Local Exchange Service

A23.1.1 General

- A. In general, basic local exchange service as set forth in Section A2. is furnished for the exclusive use of the subscriber, employees, agents, representatives or members of the subscriber's domestic establishment. Resale of basic local exchange service is permitted only under specific conditions as described in this *Guidebook*. For the purpose of this Section "sharing" of basic local exchange service is considered to be synonymous with "resale" of basic local exchange service. (T)

A23.1.2 Conditions for Resale

- A. Resale is permitted where facilities permit and within the confines of specifically identified continuous property areas under the control of a single owner or management unit. Areas designated for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be continuous in the absence of the thoroughfare. The designated resale service area must be wholly within the confines of existing wire centers and/or exchange boundaries.
- B. Customers desiring to resell or share Company provided local exchange services must provide the Company with a written description of the intended size and scope of the project along with layout maps defining the resale service area and an anticipated development plan in terms of new building construction and/or projected growth.
- C. Resale configurations may not exceed a combined total of 950 PBX trunks or 950 ESSX service, Digital ESSX service, MultiServ PLUS service, or BellSouth Centrex service network access registers (Inward, Outward and/or Two-Way configurations).
- D. The Company maintains the right to serve directly any subscriber, within the identified resale service area.
- E. In order to fulfill the Company's obligation to provide local exchange service to the premises of all customer entities within a franchised area, including individual subscribers within a resale service area, the Company must be permitted to install and maintain its own facilities within the resale service area to reach the premises of each individual subscriber. Resale service will only be established if such access is provided to the Company. At the Company's option, the Company may choose to utilize privately owned distribution facilities in lieu of Company owned facilities.
- F. The provision of intercommunication between unaffiliated entities (reseller clients) remains the responsibility of the Company and may not be provided by the reseller.
- G. Within a LATA, interconnection of a resale service area to any other resale service area is not permitted for resale or sharing purposes. Individual tie lines or private lines are restricted to the private use of a single subscriber or resale client and cannot be used to access Local Exchange Service.
- H. Exchange access lines to the reseller are limited to exchange sharing and resale trunks and ESSX service, Digital ESSX service, MultiServ PLUS service, or BellSouth Centrex service network access registers as specified in Section A3. (T)
- I. All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the resellers communication switch will be the responsibility of the customer of record. The reseller will be the single point of contact for all resale client services provided in connection with the Sharing and Resale of Basic Local Exchange Service.

A23.1.3 Rates and Charges

- A. The following rates and charges apply for Sharing and Resale of Basic Local Exchange Service. (T)
1. Local Exchange Service rates as specified in A3.7 will apply for shared and resold local service lines.

A23. SHARING AND RESALE OF EXCHANGE SERVICE

A23.1 Sharing and Resale of Basic Local Exchange Service (Cont'd)

A23.1.3 Rates and Charges (Cont'd)

- A. The following rates and charges apply for Sharing and Resale of Basic Local Exchange Service. (Cont'd)
- 2. Rates and charges for Direct Inward Dialing (DID) and other associated services apply as specified in other sections of this Tariff. DID trunks for sharing and resale are provided under A3.7. (T)
- 3. Service charges as specified in Section A4. apply as appropriate. (T)
- 4. Reseller client listing provides one listing in the alphabetical section of the directory. The reseller client listing charge will date from the day the Company's information records are posted and is payable monthly in advance. The minimum chargeable period for the reseller client listing is for the life of the directory issue in which the listing first appears, not to exceed one year from the effective date of the listing. In the event the reseller client listing does not appear in the directory, the minimum chargeable period is for one month.

		Monthly	
		Rate	USOC
(a)	Per Business Client	\$1.20	BS6
(b)	Per Residence Client	.95	RS6

- 5. Charges for additional listings used to further define a reseller client apply at the standard tariff rate as specified in Section A6. (T)
- 6. Administrative Charge

		Nonrecurring	
		Charge	USOC
(a)	Service Establishment Charge	\$300.00	NA

- 7. Rates and charges appearing in other sections of this *Guidebook* for ESSX service, Digital ESSX service, MultiServ service, MultiServ PLUS service, or BellSouth Centrex service/features are applicable for resellers. Features and services available to an ESSX service, Digital ESSX service, MultiServ service, MultiServ PLUS service, or BellSouth Centrex service subscriber may be shared or resold in accordance with this *Guidebook*. (T)

A23.1.4 Definitions

- A. Customer of Record
Person, corporation or authorized representative responsible for placing application for service; requesting additions, rearrangements, maintenance or discontinuances of service; payment in full of charges incurred such as Toll, Directory Assistance, etc.; providing legal description of Resale Service Areas to the Company.
- B. Reseller Client
As used in Section A23., refers to a customer located within a resale service area who utilizes shared or resold local service provided by the Sharing and Resale Customer of Record. (T)
- C. Resale Service Area
Area within which a reseller offers shared or resold local exchange telecommunications service.
- D. Reseller
A customer who offers shared or resold Company exchange service within a resale service area.

A29. DATA TRANSPORT SERVICE

A29.1 Derived Data Channel Service

A29.1.1 General

- A. Derived Data Channel Service (DDCS) provides full-duplex asynchronous or synchronous data transmission utilizing data over voice and subrate multiplexing technology. A derived data channel is provided between a customer's premises and that customer's serving central office. A subrate multiplexed interface is provided in the serving central office for multiplexing multiple derived data channels into a single interface. A transport facility is provided for interconnection of the subrate multiplexed interface to a Company provided data service or to data services provided by others.
- B. The *terms, conditions* and rates specified herein are in addition to the applicable *terms, conditions* and rates specified in other sections of this Guidebook. (T)
- C. DDCS is offered for intraLATA use only.

A29.1.2 Terms and Conditions (T)

A. Explanation of Terms

1. Asynchronous Transmission - Transmission in which time intervals between transmitted characters may be of unequal length but time intervals between bits within a character are fixed. Transmission is controlled by start and stop elements (bits) at the beginning and end of each character.
2. Derived Data Channel - A data channel derived from a local exchange facility utilizing data/voice multiplexing (DVM) equipment. A derived data channel is provided between a customer's premises and that customer's serving central office.
3. DS0-B Interface - A central office subrate multiplexed interface that provides a 4-wire DS0 output signal conforming to the standard DDS (Digital Data System) signal formats (i.e., 2.4 Kbps, 4.8 Kbps, or 9.6 Kbps).
4. DS0-B Transport Facility - Local access and interoffice facilities utilized to interconnect the DS0-B interface to a Company provided data service or to data services provided by others.
5. Subrate Multiplexing - The process for separating a 64 Kbps DS0 signal into individual channel groups of lower transmission speeds (i.e., twenty channels at 2.4 Kbps, ten channels at 4.8 Kbps, five channels at 9.6 Kbps, or one channel at 56 Kbps).
6. Synchronous Transmission - Transmission of data based upon a timing mechanism in which data is transmitted at fixed intervals.

B. Basis of Offering

1. A derived data channel provides full-duplex asynchronous or synchronous data transmission at the speed of 2.4 Kbps over a compatible two-wire facility.
2. The central office DVM termination provides subrate multiplexing into a standard DS0-B interface for a group composed of a maximum of twenty derived data channels.
3. The customer's derived data channel must be associated with a DS0-B interface. This association requires coordination between the subscriber of the derived data channel and the subscriber of the DS0-B interface.
4. DDCS can be interconnected to compatible Company provided data services or to data services provided by others.

A29. DATA TRANSPORT SERVICE

A29.1 Derived Data Channel Service (Cont'd)

A29.1.2 Terms and Conditions (Cont'd)

(T)

B. Basis of Offering (Cont'd)

5. DDCS is provided under the following terms and conditions.
 - a. The customer will be responsible for selecting his own Customer Premises Equipment (CPE). Customer provided terminal equipment must be compatible with the Company provided terminating equipment at the central office. Network interface specifications are contained in BellSouth Technical Reference Publication 73548 for DVM equipment and BellSouth Technical Reference Publication 73548, Addendum 1, for access to a DS0-B interface. These publications are available from the Information Exchange Manager, BellSouth Telecommunications, Inc., Documentations Operations, North W5A1, 3535 Colonnade Parkway, Birmingham, Alabama 35243.
 - b. The customer will be responsible for installation, maintenance and testing of CPE.
 - c. The customer must be prepared to activate his portion of service in a timely manner as mutually agreed with the Company. If joint testing is required, each party must be prepared to test on the negotiated date.
 - d. The Company reserves the right to change its equipment vendors should equipment availability, price or technological advantages make such a change attractive or necessary.
 - e. The Company will notify the customer, generally a minimum of six months in advance, of any need to change its central office equipment to allow the customer sufficient time to respond, make any necessary changes in his equipment, and schedule cooperative testing for cutover if required.
 - f. Company dispatches to customer premises caused by CPE trouble will be handled in accordance with standard Company procedures. The Company does not assume responsibility for the compatibility or suitability of CPE.
6. DDCS is provided subject to the availability of appropriate network facilities and equipment.
7. The minimum service period for a derived data channel is twelve months. In case service is discontinued within the minimum service period, a termination charge is applicable at the date service is terminated. This charge is equal to fifty percent (50%) of the following: the number of months remaining in the service period times the monthly rate for a derived data channel. The minimum service period for the other DDCS elements is one month.
8. Suspension of service is not allowed.

C. Application of Rates

1. The derived data channel charges provide the central office DVM terminating equipment. The customer must also subscribe to a compatible two-wire exchange line (e.g., business exchange line, Centrex Type Services main station line). This two-wire exchange line charge and its associated rates and charges are in addition to the derived data channel rates and charges.
2. The DS0-B interface charge is applicable for each group of a maximum of twenty multiplexed derived data channels. Each of the twenty channels in a DS0-B interface channel group operates at a bit rate of 2.4 Kbps.

A29. DATA TRANSPORT SERVICE

A29.1 Derived Data Channel Service (Cont'd)

A29.1.2 Terms and Conditions (Cont'd)

C. Application of Rates (Cont'd)

- 3. The DS0-B transport facility is required with each subscription to a DS0-B interface. This facility is available for use with DDCS only.
- 4. Nonrecurring charges specified herein include service ordering and installation charges.
- 5. Derived Data Channel Service is available on a month-to-month basis or under contract plan periods of twenty-four to forty-two months and forty-three to sixty months. The following conditions apply for the contract plans:
 - a. Rates under contract plans will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed and/or as of the service order application date will be applicable until the contract expires. At the expiration date of the customer's contract plan option, the customer may select a new contract option at the current rates. If the customer does not select a new contract option or does not request discontinuance of service, service will be continued under the terms specified in A2.4.
 - b. A termination charge is applicable at the date of termination if the customer disconnects the service prior to fulfilling the period of the contract plan. The applicable charge is dependent on the contract period subscribed to and will be equal to fifty percent (50%) of the following: the number of months remaining in the contract period times the monthly rate provided under contract.

(T)

(T)

A29.1.3 Rates and Charges

A. Derived Data Channel Service

1. Derived Data Channel

		Nonrecurring Charge	Month to Month	24 to 42 Months	43 to 60 Months	USOC
(a) Per channel at 2.4 Kbps		\$190.00	\$17.00	\$13.50	\$11.00	DAXPC
2. DS0-B Interface						
(a) Per group of twenty channels at 2.4 Kbps each		95.00	70.00	65.00	62.00	DAXP1
3. DS0-B Transport Facility						
(a) Per group of twenty channels at 2.4 Kbps each		180.00	60.00	45.00	35.00	DAXP2

A29. DATA TRANSPORT SERVICE

A29.2 Data Transport Access Channel Service

A29.2.1 General

- A. Data Transport Access Channel Service provides the data channel facilities between a customer's premises and a central office or between two central offices for access to Company provided central office data switched services or to other Composite Data Services, or for connection to other Company provided channel services. These services may also be utilized between two Composite Data Services.
- B. The *terms, conditions* and rates specified herein are in addition to the applicable *terms, conditions* and rates specified in other sections of this and other *guidebooks* of the Company. (T)
- C. Channel services provided under the provisions of this Section are offered for intraLATA use only and may not be used in connection with Switched Access Service offered under the Access Service Tariff. (T)

A29.2.2 Terms and Conditions (T)

- A. Explanation of Terms
 - 1. Analog - Transmission employing variable and continuous waveforms to represent information values, where interpretation by the receiver is an estimated approximation (quantization) of the encoded value.
 - 2. Digital - Referring to communications procedures, techniques and equipment where information is encoded as either a binary "1" or "0"; the representation of information in discrete binary form, discontinuous in time, as opposed to the analog representation of information in variable, but continuous, waveforms.
 - 3. Principal Central Office - Is the central office through which digital access channels are routed and where access is provided to such lines and associated equipment for testing purposes.
 - 4. Terminating Central Office - The central office or wire center where a Data Transport Access Channel terminates in order to access a gateway to a Company provided central office switched data service or data transport service, or to access another compatible Data Transport Access Channel or other compatible channel services offered in this and other *guidebooks* of the Company. (T)
- B. Basis of Offering
 - 1. Data Transport Access Channels are provided for analog voice-grade or digital data transmission and are intended to be utilized with Company central office data switched services, other Company provided channel services or with Composite Data Services provided by others.
 - 2. (Obsoleted, See Section A129.)
 - 3. The basic access channel charge includes the access facility only. Data Terminating Equipment (DTE) may be required at the customer's premises and/or terminating central office depending on the type of service associated with the channel.
 - 4. (Obsoleted, See Section A129.)
 - 5. An optional data set termination is provided at the central office. Central office data sets will be provided under the following terms and conditions:
 - a. The Company will provide the customer with details of the type and manufacturer of central office data set equipment to be used in each application.

A29. DATA TRANSPORT SERVICE

A29.2 Data Transport Access Channel Service (Cont'd)

A29.2.2 Terms and Conditions (Cont'd)

(T)

B. Basis of Offering (Cont'd)

5. (Cont'd)
 - b. The customer will be responsible for selecting his own Customer Premises Equipment (CPE). Customer provided terminal equipment must be compatible with the Company provided data set at the central office.
 - c. The Company will limit its selection of central office equipment to avoid operational and administrative difficulties associated with a multi-vendor central office environment.
 - d. The Company reserves the right to change its equipment vendors should equipment availability, price or technological advantages make such a change attractive or necessary.
 - e. The Company will notify the customer, generally a minimum of six months in advance, of any need to change its central office equipment to allow the customer sufficient time to respond, make any necessary changes in his equipment and schedule cooperative testing for cutover if required.
 - f. The customer will be responsible for installation, maintenance and testing of customer provided terminal equipment.
 - g. The customer must be prepared to activate his portion of joint service in a timely manner as mutually agreed with the Company. If joint testing is required, each party must be prepared to test on the negotiated date.
 - h. Company dispatches to customer premises caused by CPE troubles will be handled in accordance with standard Company procedures. Charges equal to the Trouble Location Charge will apply as appropriate. The Company does not assume responsibility for the compatibility or suitability of the customer's equipment.
6. (Obsoleted, See Section A129.)
7. The Service Connection Charges specified herein are in lieu of the Service Charges specified in Section A4 except as noted.
8. Data Transport Access Channels are furnished for service 7 days per week, 24 hours per day, for a minimum period of one month.
9. These services are provided on a link basis from A29.2.3 and B3.2 and B7.2 of the Private Line Guidebook.

A29. DATA TRANSPORT SERVICE

A29.2 Data Transport Access Channel Service (Cont'd)

A29.2.2 Terms and Conditions (Cont'd)

(T)

C. Types and Descriptions

1. Dial Access Channel Service

- a. Provides central office line equipment and facilities in a terminating central office for calls between the local exchange network and a Company provided data switched service or for connection to a dedicated access analog channel.

2. (Obsoleted, See Section A129.)

In lieu of Direct Access Channel Service, see B3.2 of the Private Line *Guidebook* for analog access channels and B7.2 for digital access channels.

3. (Obsoleted, See Section A129.)

D. Application of Rates

1. Dial Access Channels

- a. Dial Access Channel Service always requires a Dial Access Line. One Dial Access Line is required for each line arranged in a multiline group.
- b. Dial Access Lines arranged in multiline groups which would allow an incoming call to a line that is called to be completed over another line by means of central office equipment will require Business Rotary Line charges as specified in Section A3.
- c. The Dial Access Line nonrecurring charge includes installation and service ordering charges.

3. Central Office Data Set

- a. This option connects an Access Channel to a data set at a terminating central office. Several types of data set connections are provided according to the type of associated Access Channel and transmission speed desired by the customer.
- b. The 2.4 Kbps Dial Central Office Data Set shown in A29.2.3.B.1.(c) following is capable of transmitting/receiving a data signal at the speed of 2.4 kbps. It also has an autobaud detection feature which allows it to adapt its speed to the speed of the call originating customer premises data set. In this autobaud mode, this data set functions at 2400/1200/300 bps.
- c. The 9.6 Kbps Dial Central Office Data Set shown in A29.2.3.B.1.(d) following is capable of transmitting/receiving a data signal at the speed of 9.6 Kbps. It also has an autobaud detection feature which allows it to adapt its speed to the speed of the call originating customer premises data set. In this autobaud mode, this data set functions at 9600/2400/1200/300 bps.

\$58.00	\$25.00	1DCVX

A29. DATA TRANSPORT SERVICE

A29.7 Administrative Management Service (AMS) (Cont'd)

A29.7.3 Terms and Conditions

(T)

A. Basis of Offering

Administrative Management Service will be available where appropriate facilities are available.

Administrative Management Service will provide the customer the following capabilities:

- Product and Service Information
- Trouble Entry/Status
- Service Order Entry
- Miscellaneous Messaging

A29. DATA TRANSPORT SERVICE

A29.7 Administrative Management Service (AMS) (Cont'd)

A29.7.3 Terms and Conditions (Cont'd)

(T)

A. Basis of Offering (Cont'd)

- Billing Information

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Administrative Management Service render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

The Company will assist the customer in resolving any installation or day to day channel service problems. However, the Company does not assume responsibility for the compatibility or suitability of the customer's equipment.

B. Provision of Service

Customer access to Administrative Management Service may be either dial/shared or dedicated.

For dial/shared access, the customer will be required to provide a terminal, a modem, and dial tone at his premises. Provided the customer's premises resides in a Company LATA, the customer will dial a non-toll access number which furnishes access to AMS. If the customer's premises does not reside in a Company LATA, the customer must obtain an access line to a Company location from which the Company offers access to AMS. The AMS port will be assigned a seven-digit number to enable the customer to access this port. If a customer desires multiple telephone numbers to access AMS, an additional port charge will be required for each additional telephone number requested. Individual customer data will be kept secure via the AMS password security system.

Dedicated access will be provided at 9600 bps for a customer wanting continuous access to Administrative Management Service. The customer will be required to provide at his premises a terminal and a modem and to obtain a dedicated data circuit to a location designated by the Company at which the Company provides access to Administrative Management Service.

The customer will be responsible for installation, maintenance and testing of customer-provided terminal equipment.

C. Special Contract Assembly Arrangement

We reserve the right to develop unique customer applications should such requests occur.

A29.7.4 Application of Rates

A. Service Establishment

For the initial establishment of each Administrative Management Service customer, a nonrecurring Service Establishment charge will apply. These charges do not apply for any subsequent Port Access additions.

B. Usage Charge

A recurring Usage charge is required based on the customer's estimate of the maximum number of transactions that will be performed per month. If this predetermined number of transactions is exceeded for any given month, then for that month an additional per transaction charge will apply to each transaction in excess of the estimated maximum.

C. User ID Charge

The User ID charge is a nonrecurring charge per customer.

A29. DATA TRANSPORT SERVICE

A29.7 Administrative Management Service (AMS) (Cont'd)

A29.7.4 Application of Rates (Cont'd)

G. Expiration of Payment Period

1. Administrative Management Service customers must upon the expiration of their payment period:
 - a. Select a new payment period as offered in the current *guidebook*, or¹ (T)
 - b. Revert to the current *guidebook* rates for the one month payment option if the customer does not select a new payment period.¹ (T)
2. Administrative Management Service customer may at any time during his selected payment period resubscribe for an equal or longer payment period at the current *guidebook* rates subject to the following conditions. (T)
 - a. No credit will be given for payments made during the formerly selected period. Nonrecurring charges and installation charges will not be reapplied.
 - b. The new payment period begins with the billing date following the date the new payment period is requested.
 - c. No termination charge applies for the former payment period.
 - d. A Secondary Service Ordering charge as specified in Section A4. will apply. (T)
3. Administrative Management Service customer may at any time during his selected payment period subscribe for a payment period shorter in length than the time remaining in the existing service agreement, subject to the following conditions:
 - a. No credit will be given for payments made during the formerly selected period. Nonrecurring charges and installation charges will not be reapplied.
 - b. The new payment period begins with the date requested.
 - c. A termination charge will be applied which represents 50 percent of the difference between the remaining amount of the longer contract and the total amount of the shorter contract.
 - d. A Secondary Service Ordering charge as specified in Section A4. will apply. (T)

H. Termination Liability

1. One Month Payment Plan - there is no termination liability for this option other than the initial service period as specified in F. preceding.
2. Term Payment Plan Option - 50 percent of the remaining amount due.

I. Allowance for Interruptions

1. When service is interrupted due to a failure or malfunction of the Administrative Management Service, a pro rata adjustment of the appropriate Administrative Management Service monthly charges will be allowed at the request of the subscriber if the total system is unavailable for more than a twenty four hour period and in accordance with the *terms and conditions* specified in Section A2. (T)

Note 1: A Secondary Service Ordering charge as specified in Section A4. will apply. (T)

A29. DATA TRANSPORT SERVICE

A29.7.4 Application of Rates (Cont'd)

- I. Allowance for Interruptions (Cont'd)
 - 2. No allowances will be granted for interruptions required to perform preventive or routine maintenance, or to perform software updates when the customer is notified at least 24 hours prior to such occurrences.

A29.7.5 Connections

- A. Security
 - 1. Extra security layers are provided which allow individual clients to customize access capabilities for each of their users. Both client information files and the Company computer systems are kept secure from intrusion.
 - 2. Administrative Management Service security uses the concept of a "usertype", which is simply a variable referring to a subset of the service that can be accessed by a given customer. Every user of the system must be assigned a usertype by the "admin" user during the process of adding the user to the system.

B. System Recovery

Uninterrupted power supplies are provided to prevent unexpected system shutdowns due to commercial power failure. All processes will be smoothly terminated and all buffers written to disk before a shutdown is performed. Message queues that have been built will be saved to disk files so that any established host session can be reestablished as soon as the system is brought back up following power outages.

A29.7.6 Rates and Charges

- A. Service Ordering Charge - (Premises visit not required) found in A4.2 will apply.
- B. Basic Service includes service establishment, multilevel security and network administration aids.
- C. Administrative Management Service - Basic Service
 - 1. Service Establishment

(T)

	Installation Charge	Month To Month	24 to 48 Months	49 to 72 Months	USOC
