A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.1 Reserved for Future Use

A112.2 Prestige Deluxe Service

(Obsoleted 09/28/92, Type 4) Not available for new installations or on transfers of service to a new location. Existing customers may request changes and additions at the rates specified in this Section. (T)

A112.2.1 General

- A. Prestige Deluxe Service is an expanded group of central office features that may be provided in association with individual Flat Rate or Message Rate Business exchange lines served by electronic switching equipment located in Company buildings.
- B. Prestige Deluxe Service is offered to subscribers having a minimum of two and a maximum of thirty Individual Business exchange access lines.
- C. Prestige Deluxe Service is offered subject to the availability of facilities. The rates and charges for Prestige Deluxe, as applicable, are in addition to rates and charges for the individual exchange access lines in Section A3. (T)
- D. Exchange Access lines terminating at different Prestige Deluxe locations may be combined into a single Prestige Deluxe arrangement for the same customer if the lines are all served by the same central office.
- E. Prestige Deluxe lines will utilize Touch-Tone signaling. The rates and charges for Touch-Tone service will apply as appropriate in Section A13. (T)
- F. The billing record of toll calls on lines using Prestige Deluxe Service will not be affected by the application of the features of this Service.
- G. Prestige Deluxe standard and optional station features, and optional system features are not permitted on the same line with existing Prestige, Custom Calling Service, or Customized Dialing Package Service described in other sections of this *Guidebook*. (T)
- H. Service availability and/or operation may vary depending upon the type of central office serving the Prestige Deluxe arrangement, and the capabilities of that office. In addition, those features which require activation by switchhook flash may conflict with the operation of customer owned electronic key premises equipment.
- I. Suspension of Prestige Deluxe Service is not permitted. The Business exchange lines may be suspended as addressed in Section A2. The Prestige Deluxe Service associated with those lines must be disconnected or billed at full rate. (T)
- J. The quality of transmission for calls utilizing Prestige Deluxe Call Forwarding Variable or Conferencing may vary depending on the distance and routing involved. The Company makes no representation as to the quality of the transmission on such calls.
- K. All calls from within the Prestige Deluxe arrangement to destinations outside the Prestige Deluxe arrangement must be preceded by a one digit access code. This includes calls to O (Operator) and 911 (emergency).
- L. The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of Prestige Deluxe Service offered herein, including, without limitation, the inability of the station user, with or without dialing the one digit access code, to reach the operator, 911, or other emergency services.
- M. The features as listed following will be offered as standard station features. Each line terminated in a Prestige Deluxe Service arrangement will have access to these features.
 - Call Hold
 - Conferencing
 - Station-to-Station Calling
 - User Transfer
- N. In addition to the standard station features, certain features will be offered as optional station features and will be offered on a per line equipped basis. Optional station features do not have to be assigned to all lines in a Prestige Deluxe Service Arrangement.
- O. Station User Dial Access may be provided via Optional System features to certain miscellaneous lines (WATS, Tie, FX) and other customer oriented facilities (Loudspeaker Paging).

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.2 Prestige Deluxe Service (Cont'd)

A112.2.2 Service Description (Cont'd)

C. Optional System Features

1. Loudspeaker Paging Access

The Loudspeaker Paging feature, where facilities are available, allows Prestige Deluxe station users to dial access loudspeaker paging equipment. Capabilities are provided to allow multizone paging where a separate access code is provided for each zone within the customer's location. The customer is responsible for providing all paging equipment, including the paging interface that may be required on the premises.

2. Miscellaneous Line Terminations

The Miscellaneous Line Termination feature provides station user dial access to such lines as WATS, FX and Tie Lines. The Inward Only Termination Feature allows an Inward Only Line ('800' Service) to be assigned in the standard Prestige Features.

3. Prestige Access Management

This feature allows the station user dial access to certain miscellaneous lines and other customer oriented facilities by means of treatment codes. The feature does not prevent intra-Prestige Deluxe station calling.

4. Prestige Conference

The Prestige Conference feature will allow a Prestige Deluxe line to establish a conference of up to six conferees including the originator.

A112.2.3 Rates and Charges

A. The following rates and charges are for Prestige Deluxe service only and are in addition to the applicable service charges, monthly rates and nonrecurring charges for exchange access lines and other services or equipment with which they may be associated.

B. Feature Establishment Charges will apply as specified, when an optional feature is entered or changed. These charges apply in addition to other applicable nonrecurring charges.

1. Prestige Deluxe Basic Service

a. Initial Service Establishment

(1) Common Equipment, includes one code

	Service Establishment Charge	Monthly Rate	USOC
(a) Per Business System	\$500.00	\$1.95	PCV49

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.6 Customized Dialing Package (CDP)

A112.6.1 General

(Obsoleted 12-17-93, Type 3) Rates and services in this *Guidebook* are available only to existing customers at existing locations. Existing customers will be required to discontinue service when the customer's serving central office is converted to new technology. (T)

- A. A Customized Dialing Package (CDP) is a group of expanded central office features provided in association with individual flat rate Business and Residence exchange lines served by electronic switching equipment located in Company buildings. It is offered as a customer option and may be provided subject to the availability of facilities. A combination of Business and Residence lines in a CDP service arrangement is allowed. CDP rates and charges, as applicable, are in addition to rates and charges for individual exchange access line.
- B. CDP service is offered to customer groups having a minimum of 10 Individual Business and/or Residence exchange access lines. The billing record of toll calls on lines using CDP service will not be affected by the application of the features of this service.
- C. Exchange access lines terminating at different locations may be combined into a single CDP arrangement. All exchange access lines terminating in a CDP arrangement, however, must be served by the same central office. Admission to the CDP arrangement is granted by the authorizing agent as specified in K. following.
- D. CDP lines may utilize Dial Pulse or Touch-Tone[®] signaling. The rates and charges for Touch-Tone[®] service apply as appropriate in addition to CDP rates and charges.
- E. Service availability and/or operation may vary depending upon the type of central office and/or the current generic program operating in that central office.
- F. CDP standard and optional features are not permitted on the same line with existing Prestige or Custom Calling Services described in other sections of this *Guidebook*. (T)
- G. A telephone number change will be required in order for a customer to subscribe to CDP service. Upon disassociating the exchange access line from the CDP arrangement, a telephone number change will be required. When a telephone number change is required, the Line Change Charge in Section A4. will apply. (T)
- H. Suspension of exchange line service will result in suspension of CDP service. Suspension of CDP service only is not permitted. Suspension is addressed in Section A2. (T)
- I. The quality of transmission for calls utilizing CDP Call Forwarding Variable or Conferencing may vary depending on the distance and routing involved. The Company makes no representation as to the quality of the transmission on such calls.
- J. Calls forwarded from CDP lines via the Call Forwarding Busy Line feature or the Alternate Answering feature can be routed to a specified CDP line which may be established by the Authorizing Agent to serve as a common call answering point.
- K. The Authorizing Agent is responsible for allowing admission of subscribers to the CDP arrangement. The Authorizing Agent shall do so by providing the potential subscriber with a letter of admission which in turn is presented to the Company. The Authorizing Agent is responsible for paying the rates and charges applicable to the Authorizing Agent as discussed following under "Rates and Charges". The Authorizing Agent title may be transferred from an existing holder to a new party. (See Section A2. for applicable procedures and charges.) If the Authorizing Agent of a CDP arrangement ceases to exist, no new subscribers will be added to that CDP arrangement. Existing service, as established, would be allowed to continue. (T)
- L. A subscriber has no responsibility to the Authorizing Agent. Each subscriber is responsible for paying to the Company all rates and charges, as applicable, associated with his service.
- M. All calls from within the CDP arrangement to destinations outside the CDP arrangement must be preceded by a one digit access code. This includes calls to 0 (Operator) and 911 (emergency). It shall be the Authorizing Agent's responsibility to notify all CDP subscribers in writing that the access code is required.
- N. The Company shall not be liable to any person for damages of any nature or kind arising out of, resulting from, or in connection with the provision of Customized Dialing Package service offered herein, including, without limitation, the inability of the station user, with or without dialing the one digit access code, to reach the operator, 911, or other emergency services for any purpose.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.7 ESSX-1 Auxiliary Station Line Service

(Obsolated June 20, 1985, Type 4) This service will be continued at existing service areas (i.e., Atlanta Airport) under the following *guidebook*. Normal station activity such as additions, rearrangements, changes or moves is allowed at existing service areas subject to the availability of facilities and central office equipment. Not available for new service area installations on or after the obsolated date. (T)

A112.7.1 General

- A. ESSX-1 Auxiliary Station Line Service is classified as a flat rate business service and provided only in connection with other specified basic exchange services furnished from No. 1 ESS central offices. This service may be furnished only under the conditions following and in compliance with all *terms and conditions* in A112.7.3 following. (T)
1. Each customer is a member of a group of customers situated on the connecting premises and/or nearby properties of a common geographical location, such as an airport complex, joint medical college/hospital institutions, complex of government agencies, etc.
 2. Each customer is a member of a group of customers engaged in the conduct of interacting business or governmental activities which, by the nature of their common business interests, have a need for large amounts of communications service between station lines and/or systems of the interacting group, and such a service arrangement would be beneficial to the general business or industrial community.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.7 ESSX-1 Auxiliary Station Line Service (Cont'd)

A112.7.1 General (Cont'd)

A. (Cont'd)

3. Each customer's ESSX-1 Auxiliary Station Line Service is served by the same central office dial switching equipment which serves the ESSX-1 System of at least one other customer at the common location.
4. Each ESSX-1 System at the common location associated with this ESSX-1 Auxiliary Line Service must be arranged for the optional Group Use feature at rates and charges specified in A112.8.8.B.6.. (T)
5. Station lines may be provided in Foreign Exchange and Foreign Central Office serving areas only when the individual customer is eligible for and subscribes to one or more ESSX-1 Auxiliary Station Line Service Station Lines at the designated common location.

A112.7.2 Definitions

A. Nonrestricted ESSX-1 Auxiliary Station Line Service

1. Provides communication between station lines of all ESSX-1 Systems and all ESSX-1 Auxiliary Station Line Services served from the same Centrex Master Complex of a No. 1 ESS.
2. Each basic exchange line arranged to also provide Nonrestricted ESSX-1 Auxiliary Station Line Service can originate and receive local and long distance calls directly and is provided with the same basic service features as a nonrestricted ESSX-1 main station line plus Group Use.

B. Interior ESSX-1 Auxiliary Station Line Service

1. Provides communication between station lines of all ESSX-1 Systems and all ESSX-1 Auxiliary Station Line Services served from the same Centrex Master Complex of a No. 1 ESS.
2. Each Interior ESSX-1 Auxiliary Station Line Service line provides the same basic service features as a fully-restricted ESSX-1 main station line plus Group Use, and cannot originate and/or receive local and long distance calls.

A112.7.3 Terms and Conditions

- A. ESSX-1 Auxiliary Station Line Service is provided only within the service conditions specified in A112.7.1 preceding, and only when a definite requirement for direct communications exists with other customers, including at least one ESSX-1 subscriber, all of whom are engaged in the conduct of interacting business.
- B. ESSX-1 Auxiliary Station Line Service is offered subject to the availability of facilities and where, in the judgment of the Company, service may be provided by the use of service arrangements, equipment and facilities in quantities and types regularly furnished by the Company.
- C. Each customer furnished with this service is responsible and will be billed for the service(s) and feature(s) provided, and the autonomy of each subscriber's service must be maintained.
- D. One or more Interior ESSX-1 Auxiliary Station Lines may be furnished to a customer.
- E. A maximum of four Nonrestricted ESSX-1 Auxiliary Station Lines may be furnished to a customer.
- F. Nonrestricted ESSX-1 Auxiliary Station Line(s) may not be terminated as trunks in PBX and/or ACD Systems.
- G. ESSX-1 Auxiliary Station Line Service may be extended beyond the boundary of the common geographical location only when the main location of the service is the designated common geographical location.
- H. Minimum monthly Charges, *Terms and Conditions* as specified for ESSX-1 service in A112.7.3 do not apply to ESSX-1 Auxiliary Station Line Services. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.7 ESSX-1 Auxiliary Station Line Service (Cont'd)

A112.7.3 Terms and Conditions (Cont'd)

- I. Termination Charges, *Terms and Conditions* as specified for ESSX-1 service in A112.8.2.A.3.c.(2) do not apply to ESSX-1 Auxiliary Station Line Services. (T)
- J. Interior ESSX-1 Auxiliary Station Line Service customers must be subscribers for other telephone service(s) with access to the exchange network. (T)

A112.7.4 Rates and Charges

- A. General
 - 1. Rates quoted herein consist of switching facilities located on Company premises and connected by main station lines terminated on the subscriber's premises.
 - 2. The minimum revenue guarantee period for each ESSX-1 Auxiliary Station Line provided is one month.
 - 3. The following nonrecurring charges are in addition to any applicable regular service and installation charges provided for in other sections of this *Guidebook*. (T)

B. Nonrecurring Charges

- 1. Service Establishment Charge

	Nonrecurring Charge	USOC
(a) Per main station line ¹	\$40.00	NA

5. Distance Charges		
a. Distance Charges for each ESSX-1 Auxiliary Station Line Service will apply for each circuit required to provide service located in excess of one mile (Airline Distance) from the central office. Apply same rates, <i>terms and conditions</i> as specified in Section A112.8.5 for ESSX-1 Distance Charges.		(T)

A112.8 ESSX-1 Service

(Obsoleted 10-08-95, Type D) Service rates and charges in this Section are not available for new installations, moves, transfers of service, or replacements of existing service.

Obsolescence Rules

- 1. ESSX-1 service subscribers under a month-to-month payment option will be allowed to maintain their ESSX-1 service at month-to-month rates.
- 2. ESSX-1 service subscribers under contract will be allowed to maintain their ESSX-1 service until the expiration date associated with the Common Equipment of their contract. Upon expiration of the contract associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)

(Obsoleted 6-14-85, Type 4) Provided only to those systems already in service or to those systems for which firm orders were received by the Company prior to this date. Additions, deletions and/or rearrangements to an existing system can be made subject to the capacity of the central office from which it is provided.

Note 1: Includes USOC's EGR and ERSVC.

Note 2: Monthly rate is 125 percent of ESSX-1 Group "B" Main Station Line Rate.

Note 3: Monthly rate is 175 percent of ESSX-1 Group "B" Main Station Line Rate.

Note 4: The provision of certain optional features with ESSX-1 Auxiliary Station Line Service may be technically prohibitive, and the availability of the feature(s) desired must be ascertained prior to a firm commitment being made to the customer.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.1 General (Cont'd)

- A. (Cont'd)
 - 6. Touch-Tone® or Rotary Dial
- B. ESSX-1 service is furnished, subject to the availability of facilities and features from a No. 1 or 1A Electronic Switching System located in a central office building owned or leased by the Company from which the service is provided. The service allows for normal station line activity including incidental additions and deletions. Major additions to and/or major relocations of ESSX-1 systems are subject to the same *terms and conditions* as initial installations. (T)
- C. The ESSX-1 Primary Service Feature Package is provided on an optional basis for individual main station lines except for main station lines terminating in attendant consoles or telephone sets used as consoles which require the Primary Service Feature Package on a non-optional basis.
- D. Certain ESSX-1 Auxiliary Services and secondary service features are available on an individual main station line basis, and are subject to the capabilities of the serving ESS central office.
- E. Auxiliary Services, as specified herein, may be offered for use with compatible customer-provided consoles.
- F. Suitable building space and commercial power, including outlets, required for the operation of key telephone equipment, console(s), and other station apparatus at the subscriber's premises will be furnished by the subscriber.
- G. All console functions by the attendant at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- H. All ESSX-1 main station lines must be associated with the main switching equipment. Subsidiary System Arrangements utilizing satellite switching equipment are offered only with ESSX-1 service as outlined in A112.8.8.G. (T)
- I. Tie lines for direct connections between a basic ESSX-1 system and other systems are provided primarily for communication between main station lines of the two systems. In addition these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the ESSX-1 system to or from the other system (ESSX-1 or non-ESSX-1) provided such tie lines are equipped with the Dial Cut-through Arrangement; USOC:ETM, necessary for tandem tie line operation.
- J. Where completion of incoming and outgoing local and long distance calls through an ESSX-1 system is furnished to or from main station lines of a separate ESSX-1 system in another exchange or a non-ESSX-1 system in the same or different exchange, the charges applicable for the following features, apply in addition to the regular charges for the facilities connecting the systems, except for Subsidiary System Arrangements furnished under the *terms and conditions* specified in A112.8.8.G. (T)
 - 1. Miscellaneous Line Termination charges as outlined in A112.8.8.D apply for each miscellaneous line that is terminated as a trunk in an ESSX-1 system.
 - 2. ESSX-1 main station line charges apply to miscellaneous lines furnished with unique access codes (trunk level access), except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.8.8.G. (T)
 - 3. ESSX-1 optional feature charges as outlined in A112.8.8.C apply for each trunk terminated main station line as offered in A112.8.7.C.5, as appropriate. (T)
- K. Dormitory service is furnished in accordance with the *terms and conditions* for Dormitory Communications Service specified in Section A13.4. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.1 General (Cont'd)

O. Definitions (Cont'd)

1. Basic ESSX-1 Service Features (Cont'd)

a. ESSX-1 System (Cont'd)

Calls may be dialed directly to completion between any two main station lines of an ESSX-1 system.

2. Auxiliary Services

a. Attendant Service

Incoming calls to the main listed number are answered by an attendant, who may complete the call to the desired main station line by means of the Call Transfer feature provided with an ESSX-1 Primary Feature Package as specified in A112.8.8.C.1.b.(1). (T)

An unrestricted and semirestricted main station line user may dial the attendant over attendant lines to secure help in the completion of an outgoing call by means of the Dial "0" calling auxiliary attendant feature as offered in A112.8.8.B.4. (T)

3. Auxiliary Attendant Services

a. Access Lines to Customer Oriented Facilities

Allows dial access from ESSX-1 service for connection to customer oriented facilities (Recorded Telephone Dictation, Dial Code Sending Equipment and Loudspeaker Paging).

(1) Recorded Telephone Dictation Feature

Permits access to a control of customer-owned telephone dictating equipment by main station lines, tie trunks, and attendants within the ESSX-1 system. Main station line, attendant and tie trunk access must be via Touch-Tone®.

(2) Dial Code Sending (Code Calling) Feature

Code Calling provides dial access to customer-premises located code calling equipment by main station line, attendant access and tie lines of an ESSX-1 system. The dialed two or three digit code activates signaling devices on the customer's premises to produce a coded signal corresponding to the dialed code. The called party, upon recognition of the signal, is automatically connected to the calling party by dialing a special code from any main station line in the ESSX-1 system.

(3) Loudspeaker Paging Feature

Allows ESSX-1 attendants and main station line users to dial access loudspeaker paging equipment. Capabilities are provided to allow multizone paging where a separate access code or directory number is provided for each zone within a customer's location. Optional arrangements may be provided to allow the paged party to be connected to the calling party by dialing an answering code from any main station line within the ESSX-1 system.

b. Attendant Call Thru Test on Tie Trunks

Attendant Call Thru Test on Tie Trunks is a Data Link console attendant position optional service arrangement which permits the ESSX-1 system attendant to select a specific trunk within a trunk group for the purpose of verifying that the trunk is in working order. As used herein, the terms "Trunk" and "Trunk Groups" apply to Tie Lines, Tandem Tie Lines, and SCAN access lines.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.1 General (Cont'd)

O. Definitions (Cont'd)

5. Secondary Optional Features (Cont'd)

q. Distinctive Ringing and Call Waiting Tone (Cont'd)

Class C tone associated with Call Waiting-Originating or Dial Call Waiting will only be provided where all such main station lines in the same No. 1 ESS customer group are commonly arranged for Class C tone.

Where a customer's system is equipped with a Data Link Console and is arranged for Class B ringing/tone, Class C ringing will be provided to identify night service arrangement extended calls to main station lines at no additional charge.

r. Single Digit Dialing or Abbreviated Dialing for Services

Provides ESSX-1 main station lines the ability to dial a one- or two-digit code to reach selected lines within the ESSX-1 system. Also provides the ability to use variable length codes by means of timing. Abbreviated dialed calls are completed to predesignated ESSX-1 administrative main station lines. This feature may also be used to reach particular internal facilities such as dial dictation equipment. Abbreviated dialing is not required where regular "1XX" or "level" access codes are utilized without conflict in the numbering plan.

s. Speed Calling

Lets the main station line user place calls to a list of frequently called telephone numbers by dialing fewer digits than the complete directory number. Telephone numbers, including routing codes, are limited to a maximum of sixteen digits. The service is offered in repertory sizes of six and thirty. With the six list, the user will dial a one-digit code; with the thirty number list, the main station line user will dial a two-digit code.

t. Split Service Offering

This feature permits segregation of ESSX-1 main station lines for a customer into separate groups, thereby enabling each group to have a different set of common features. In a hotel this arrangement is quite valuable in that the administrative telephones have usage characteristics and feature requirements similar to basic ESSX-1 main station lines. Typically administrative telephones will utilize DID, AIOD, consultation hold, add-on and call forwarding features. The guest room telephones usually will not be equipped with these features and a split service offering should be used at appropriate rates. Splitting the service in this manner allows all other No. 1 ESS main station line user features on an optional basis, thus enhancing the versatility of the administrative telephones and reducing the need for key telephones and equipment.

(T)

u. Station Dial Code Screening

Station Dial Code Screening permits designated ESSX-1 main station lines to be used to originate calls to specified Message Telecommunications System (MTS) telephoned in Number Plan Areas and Central Office Codes within the continental U.S., and restricts these main station lines from originating calls to other MTS telephones. Three- or six-digit screening is provided.

6. Miscellaneous Line Terminations (Cont'd)

a. (Cont'd)

(4) Advanced Private Line Termination (APLT)

The APLT unit is used to terminate tie lines, private line facilities and access lines from switched private line services, such as Enhanced Private Switched Communications Service (EPSCS), and access lines furnished by Other Common Carriers to the ESSX-1 dial switching equipment.

The following service features will be obtained when a facility is terminated on an APLT unit only if these features are subscribed to by the customer as part of the ESSX-1 service and/or the facility involved.

Cut-through operation

Variable digit outpulsing

Use of switched private line authorization codes

Call tandem via the ESSX-1 switcher

Call Transfer - Individual

Call Transfer - Individual - All Calls

Attendant call transfer¹

Attendant completion

Attendant camp-on

Call Forwarding - All Calls

Call Forwarding - Don't Answer

Call Hold

Automatic Calling Station Identity on access lines to Enhanced Private Line Switched Communications Systems.

A112.8.2 ESSX-1 Payment Schedules

A. ESSX Term Payment Plan (ETPP)

1. The following services will be furnished under the ESSX Term Payment Plan (ETPP).

- a. ESSX-1 Group "A" and "B" main station lines
- b. ESSX-1 Group "B" main station line Distance Charges
- c. Extension Station Lines
- d. Primary Feature Packages

2. ESSX-1 service will be furnished under the ESSX Term Payment Plan (ETPP) as specified in this *Guidebook*. The ETPP rates are payable over a period selected by the customer from those available. All *terms and* conditions pertaining to the ETPP are included in Section A122., except as specified in 2. following.

(T)

Note 1: On calls incoming to station only.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.2 ESSX-1 Payment Schedules (Cont'd)

A. ESSX Term Payment Plan (ETPP) (Cont'd)

3. Options and Conditions under ETPP

a. Additions

- (1) Equipment can be added to an existing system at the customer's option, and the payment of rates and charges in the currently effective *guidebooks* for such service will be applied. (T)
- (2) At the customer's option, additions may be paid for over the remainder of the existing system's payment period, and be added onto the existing agreement, providing at least 30 days remain in the customer's existing payment period. The addition and installed system payment periods will then have a common expiration date. The charge(s) for the addition(s) will be the current filed rate(s) for the equipment for the same payment period as the installed system's existing payment period. If the installed system's payment period is not in the current *guidebook*, the rate charged for the addition will be that of the next shorter filed payment period. If less than 30 days remain in the current payment period, additions may only be placed on the one-month payment period at the current rates in effect for the one-month period. (T)
- (3) If the coterminus option for additions (described in (2) preceding) is not elected by the customer, additions may only then be placed on the one-month payment period at the current rates in effect for the one-month period.

b. Disconnects

- (1) When equipment and/or facilities i.e., station lines, etc., are disconnected from a system for which the current payment period is longer than one month, the expiration date of the remaining equipment and service will not be affected.
- (2) Equipment and/or facilities disconnected from a system prior to the expiration date of the payment period for such equipment, will require termination charges for premature disconnection if applicable.

c. Termination Liability

The Termination Liability applicable to ESSX-1 service is dependent upon the payment period selected by the customer. Termination for the optional payment periods is as follows:

(1) 1-Month Term Option

Main Station Lines, Extension Station Lines, Distance Charges and Primary Feature Packages - No Termination Liability

(2) 36-Month Term Option

Main Station Lines and Distance Charges - 90% of the remaining amount due for each main station line disconnected when the customer's total main station line count falls below 80% of the total main station lines initially installed or of the annually adjusted total.

Extension Station Lines and Primary Feature Packages - No Termination Liability

B. Conventional Payment Plan

1. All other ESSX-1 services/features offered in Section A112. will be furnished under the Conventional Payment Plan. (T)
2. The Initial Service Period for all conventional rated ESSX-1 services/features is one month.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.5 Distance and/or Mileage Charges (Cont'd)

- C. Group "B" Station Lines only (Cont'd)
 - 1. Within the same exchange (Cont'd)
 - b. In a different central office serving area of multioffice exchange (Cont'd)
 - (2) When ESSX-1 main station lines are connected by facilities which are routed between two or more central offices in the same exchange the foreign central office mileage charge is computed separately on an airline basis between the ESS central office from which the ESSX-1 system is served and the central office from which exchange service normally would be rendered.
 - (3) Between ESSX-1 central office and the central office from which the subscriber location would normally be served, for each interoffice channel charges apply as specified in Section A9. for Foreign Central Office service. (T)
 - (4) Between subscriber's location and the central office which normally would provide telephone service at the location, no additional rate applies for the first one mile. For each one-half mile or fraction in excess of the first one mile, charges apply as shown in A112.8.5.C.1.a.
 - c. The rates specified above are based upon the utilization of two-wire, voice grade exchange facilities. When the Company incurs additional expenses in order to provide adequate transmission due to the remote location of the customer or due to the requirement for specially constructed facilities or high cost facilities, charges based on costs may apply.
 - 2. In a Different Exchange
 - a. The rate of ESSX-1 service in a foreign exchange service area is the monthly rate for the ESSX-1 service desired, plus a foreign exchange mileage charge as specified in Section A9.. (T)

A112.8.6 Classification of Basic ESSX-1 Service

- A. ESSX-1 Intercommunication
 - 1. Main Station Line - Intercommunication between all main station lines of the same ESSX-1 system. Main station lines may be arranged to originate or receive local and long distance calls directly, or through the attendant when console operation is provided.
 - 2. Extension Station Line - An additional station line on an ESSX-1 main station line.
 - 3. Console Access Loop - A main station line equivalent to an ESSX-1 Main Station Line that terminates in Attendant Console(s) or telephone set(s) used as consoles.
- B. ESSX-1 Exchange Access

Exchange access is provided each ESSX-1 system by means of Network Access Registers, utilizing software and simulated facilities of the ESS central office from which the ESSX-1 system is served. Network Access Registers simulate physical hardware facilities and may be arranged individually or in groups with the same options available to PBX trunks.
- C. Dormitory Stations

(Refer to Dormitory Communications Service as offered in Section A13.). (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.7 Rates

A. General

The rate elements for ESSX-1 service are exchange access, intercommunication and main station line, extension station line and station set.

1. ESSX-1 Stations

- a. The rates and charges specified herein for ESSX-1 main stations provide for an ESSX-1 main station line component. The ESSX-1 main station line consists of all facilities, including intercommunication and outside plant facilities from the ESSX-1 system dial switching equipment to the Network Interface of the main ESSX-1 station location.
- b. The rates and charges specified herein for ESSX-1 extension stations provide for an ESSX-1 extension line component. The ESSX-1 extension station line consists of usage of traffic sensitive central office equipment.
- c. The rates and charges specified herein for ESSX-1 main station lines and extension station lines are applicable to each ESSX-1 main station location and an ESSX-1 extension station location, respectively, to which a customer-provided instrument can be connected.
- d. Time and Material Charges apply to all customer-requested maintenance of premises wiring performed by the Company on the customer's premises.
- e. End User charges as specified in the End User Access Service Section of the Intrastate and Interstate Access Service Tariffs apply as appropriate.
- f. Monthly net billing for interstate end user access charges will be equal to the interstate business end user access charge times the number of Network Access Registers provided each subscriber.
- g. Presubscription of a Carrier of Preference is required as specified in Section E13 of the Intrastate Access Service Tariff and Section 13 of the Interstate Access Service Tariff.

2. ESSX-1 Exchange Access

- a. ESSX-1 Exchange Access is provided by means of Network Access Registers which are furnished at the rates, *terms and conditions* specified in Section A3. for PBX trunks. (T)

B. Nonrecurring

- 1. The following nonrecurring charges for ESSX-1 service are in addition the any applicable regular service and installation charges provided for in other sections of this *Guidebook*. (T)

a. Service Establishment Charge

- (1) Initial Service Establishment Charge

- (a) Each system

Nonrecurring	
Charge	USOC
\$580.00	NA

A112.8.7 Rates (Cont'd)

B. Nonrecurring (Cont'd)

1. (Cont'd)

b. Feature Establishment Charges

- (1) These charges apply, as specified, when an optional feature is entered or changed. These charges apply in addition to other applicable nonrecurring charges.
- (2) One or more optional features may be provided at the same time and in such instances the specified feature establishment charge will apply for each feature provided.

c. Installation Charges

- (1) Installation charges are in addition to other appropriate nonrecurring charges for the ESSX-1 service.

d. Service Charges

- (1) Service Charges as specified for business service in Section A4. are applicable for each ESSX-1 main station line, console access loop, extension station line, etc. (T)

C. Recurring

1. Common Equipment

(a) Each ESSX-1 System

Installation Charge	Monthly Rate	USOC
\$3,020.00	\$75.00	ESS

2. ESSX-1 Intercommunication Charge

a. Main Station Lines of an ESSX-1 System in all Exchange Rate Groups:

- (1) Each ESSX-1 Group "A" main station line¹

ESSX Term Option		USOC
Nonrecurring Charge	36 Month Monthly Rate	
(a) Main Station Line, each	\$-	EXA

Note 1: ESSX-1 Group "A" main station lines are not offered for new installations and may remain at Group "A" rates and charges only as long as they remain in service. If a Group "A" main station line is disconnected, any subsequent reinstatement of the main station line will be at rates and charges as specified for ESSX-1 Group "B" main station lines.

- (2) Each ESSX-1 Group "B" main station line¹

(a) Main Station Line, each

3. ESSX-1 Exchange Access Charge

a. Network Access Registers

- (1) Flat Rate Service

(a) Two-way operation, each²

(b) One-way incoming operation, each²

(c) One-way outgoing operation, each²

- (2) Message Rate Service

(a) Two-way operation, initial, each³

(b) Two-way operation, additional, each³

(c) One-way outgoing operation, initial, each³

(d) One-way outgoing operation, additional, each³

- (3) For use as Toll Terminals

(a) Each⁴

	Nonrecurring Charge	ESSX Term Option		36 Month USOC
		Monthly Rate	Monthly Rate	
(a) Main Station Line, each	\$-	\$11.75	\$12.85	EXM

	Monthly Rate	USOC
(a) Two-way operation, each ²	\$-	EQA
(b) One-way incoming operation, each ²	-	EQB
(c) One-way outgoing operation, each ²	-	EQC
(a) Two-way operation, initial, each ³	-	EQE
(b) Two-way operation, additional, each ³	-	EQG
(c) One-way outgoing operation, initial, each ³	-	EQF
(d) One-way outgoing operation, additional, each ³	-	EQK
(a) Each ⁴	-	EQD

Note 1: The monthly rate in A112.8.7.C.2.a.(2) preceding applies for ESSX-1 Group "B" main station lines located within one mile (airline distance) of the serving ESSX-1 central office. At locations beyond one mile (airline distance) of the main switching equipment, distance and mileage charges as outlined in A112.8.5.C. apply for each unrestricted and restricted main station line.

Note 2: Apply same charges, rates, *terms and conditions* as specified in Section A3. for a flat rate central office PBX trunk line . (T)

Note 3: Apply same charges, rates, *terms and conditions* as specified in Section A3. for Message Rate Central Office PBX Trunk line service. (T)

Note 4: Apply rates and charges for Long Distance Trunks arranged for connection to either toll switchboard positions or the DDD network (USOC: TTTXA) as specified in Section A13.14. (T)

A112.8.7 Rates (Cont'd)

C. Recurring (Cont'd)

4. ESSX-1 Extension Station Line Charge

		ESSX Term Option		
		36 Month		
		Monthly	Monthly	
		Rate	Rate	USOC
(a)	Located on same premises as main station line, each	\$3.35	\$3.35	EX3
(b)	Located on different premises from main station line on non-continuous property ¹ , each	-	-	EC8
(c)	Located on different premises from main station line on same continuous property ² , each	3.35	3.35	EX5

5. Main Station Lines Terminated as Trunks

a. Where a ESSX-1 main station line terminates as a trunk in a PBX system, order turret, automatic call distributor or similar concentrating device, rates and charges apply as set forth below:

- (1) ESSX-1 Group "B" month-to-month main station line rates, distance charges and optional feature charges apply as appropriate.
- (2) All PBX equipment associated with "PBX behind ESSX-1 service " will be rated at rates and charges as set forth in Section A3.

(T)

6. ESSX-1 Telephone Numbers Reserved for Future Use

a. General

- (1) ESSX-1 Telephone Numbers and Facilities Reserved for Future Use service include the common equipment, including preassigned telephone numbers, and facilities necessary to expand the customer's ESSX-1 system in size to meet his specified growth requirements at specific locations. Such common equipment, including telephone numbers, and facilities will be removed from the reserved status and assigned as active ESSX-1 main station lines upon request from the customer.
- (2) The service is provided on the condition that the customer subscribes to sufficient reserved numbers to adequately handle his foreseen growth and main station line requirements. In the event the customer elects not to be provided with ESSX-1 Telephone Numbers Reserved for Future Use, timely main station line additions cannot be assured and facilities necessary for his growth requirements will be provided only within normal engineering and construction intervals.

Note 1: ESSX-1 Group "B" main station line charges apply.

Note 2: Apply rates and charges specified in this *Guidebook* for extension line mileage.

A112.8.8 Auxiliary Services (Cont'd)

A. Attendant Service (Cont'd)

1. Central Office Rates and Charges For Non-Data Link Console Operations

a. General

- (1) Consoles may be provided only where the central office serving the ESSX-1 system has been arranged for use with such consoles.
- (2) (DELETED)
- (3) Each Attendant Access Line terminating on the console requires an Attendant Access Circuit (USOC EAS).
- (4) Attendant Access lines are required between the No. 1 ESS serving the ESSX-1 system and the console location. These facilities are used to complete incoming calls for the listed directory number and may be arranged for completing Dial "O" traffic. In addition, Attendant Access Lines have the same capabilities as ESSX-1 station lines. Attendant Access Lines terminate directly on apparatus of a specific console. Multiple appearances of an Attendant Access Line are not provided.
- (5) The ESSX-1 Primary Feature Package, at rates as specified in Section A112.8.8.C.1.b.(1), is required with each ESSX-1 circuit designated as an Attendant Access Line. (T)
- (6) Night Service is provided by use of the Directed Call Pickup optional feature of the ESSX-1 system on the listed directory number.
- (7) Control channels are required for various console optional features as indicated and are provided at the appropriate rates and charges as specified.

a. Rates

(1) Central Office Common Equipment for Consoles

	Installation Charge	Monthly Rate	USOC
(a) Attendant access circuit (one required per Attendant Access Line), each	\$-	\$4.50	EAS
(2) Attendant Access Line			
(a) Each ¹	-	-	EAR
(3) Common Equipment for Optional Features			
(a) Position busy ² (position busy may not be provided for a one position arrangement), per console.	-	4.25	CXJ

Note 1: ESSX-1 Group "B" month-to-month main station line charges apply. Long Distance charges will also apply where appropriate. In addition, see A112.8.8.C.1 for charges applicable for associated ESSX-1 Primary Feature Package and optional features.

Note 2: See *the Private Line Guidebook* for charges applicable for associated Supervisory Control Channel. (T)

A. Attendant Service (Cont'd)

1. Central Office Rates and Charges For Non-Data Link Console Operations (Cont'd)

a. Rates (Cont'd)

(4) Multiple Position Hunt for ESSX-1 systems provided with more than one Console.

	Installation Charge	Monthly Rate	USOC
(a) Per system (charges for the appropriate line hunting arrangements associated with multiple position hunt are specified in A112.8.8.C.2.b.(15) following)	\$-	\$28.50	CXH
(b) Fixed night service ¹	-	4.50	CXX

(5) Optional Features for non-Data Link Consoles

(a) Auxiliary attendant features ²	-	-	-
---	---	---	---

b. Non-Data Link Customer Premises Equipment, Consoles, etc.

Rates and charges as specified in Section A114.3 apply as appropriate. (T)

3. Central Office Components Rates and Charges for Universal -Data Link Console Operations .

a. General

(1) Data Link Console operation utilizes universal cordless telephone consoles and is provided only where the central office serving the ESSX-1 system has been arranged for use with such console operation.

(2) Console Access Loops are required for each ESSX-1 system equipped for data link console operation. These facilities are used to complete incoming calls for the listed directory number and may be arranged for completing Dial "0" traffic. In addition, Console Access Loops have the same capabilities as ESSX-1 station lines. Console Access Loops terminate on the Data link common equipment.

(3) The ESSX-1 Primary Feature Package at rates as specified in Section A112.8.8.C.1. b.(1) is required with each ESSX-1 circuit designated as a Console Access Loop. (T)

(4) (DELETED)

(5) The Night Service feature is provided by means of a Night Key on the console.

(6) The console can be made to appear busy on incoming calls by the operation of the busy key on the console or by the removal of the attendant headset.

(7) Busy Verification is a console attendant position optional service arrangement which permits the ESSX-1 system attendant to verify the status of main station lines and CCSA, SCAN, EPSCS, ETS and tie line terminations associated with that system.

Note 1: See *the* Private Line *Guidebook* for charges applicable for associated Supervisory Control Channel. (T)

Note 2: As specified in A112.8.8.B. (T)

A112.8.8 Auxiliary Services (Cont'd)

A. Attendant Service (Cont'd)

3. (Cont'd)

a. General (Cont'd)

- (8) The Call Waiting is provided to inform the attendant that calls are waiting to be answered.
 - The optional feature "Variable Trigger" on call waiting lamps provides a more dynamic representation of the length of queue for Data Link Console positions.
- (9) Incoming call identification provides the attendant with a means of identifying the source and type of incoming calls to be answered.
- (10) Trunk group busy lamps inform the attendant that all trunks in a particular trunk group are busy.

b. Rates and Charges for Central Office components

(1) Data Link Frame/Common Equipment

	Monthly Rate	USOC
(a) Per control cabinet	\$442.00	EDX
(2) Data Loop Circuit - Duplex (one required per control cabinet) - See <i>the Private Line Guidebook</i> for charges for Rates and Charges applicable for Series 2100 local channel. (T)		
(3) Console Access Loop		
(a) Each ¹	-	EDA
(4) Optional Features for Data Link Consoles		

	Feature Establishment Charge	Monthly Rate	USOC
(a) Busy verification of stations and trunks by attendant, per ESSX-1 system (when provided with initial installations)	\$80.00	\$6.50	EDSVC
(b) Busy verification of stations and trunks by attendant, subsequent installations	160.00	6.50	EDSVC
(c) Auxiliary Attendant Features ²	-	-	NA
(d) Variable trigger on call waiting lamps (applicable to each console in multiple), per console	-	2.15	EWV

Note 1: The monthly rate is the same as the ESSX-1 Group "B" month-to-month main station line charge.

Note 2: As specified in A112.8.8.B. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

A. Attendant Service (Cont'd)

3. (Cont'd)

c. Customer Premises Equipment, Consoles, etc.

(1) Rates and charges as specified in Section A14. or A114. apply as appropriate. (T)

4. Use of NonKey Telephone Set or Key Telephone System in lieu of Control Operation

a. General

(1) NonKey Telephone Sets or Key Telephone Systems may be used for attendant operations. Each access line terminated for attendant use must be provided with the ESSX-1 Primary Feature Package at rates as specified in Section A112.8.8.C.1.b.(1). (T)

(2) Each ESSX-1 circuit, designated as an Attendant Access Loop, terminating in a Key Telephone System requires a Line Termination in the Key System.

(3) Attendant Access Loops are required between the No. 1 ESS serving the ESSX-1 system and the answering location. These facilities are used to complete incoming calls for the listed directory number and may be arranged for completing Dial "O" traffic. In addition, Attendant Access Loops have the same capabilities as ESSX-1 station lines. Access Loops terminate in the Key System and multiple appearances of an Access Loop may be provided within the limits of the associated Key Telephone System.

(4) Recorded intercept is provided utilizing common announcement facilities located within the Central Office.

b. Rates

(1) Key Telephone System Access Loop

(a) Each¹

B. Auxiliary Attendant Features

1. Attendant Control of Facilities²

	Feature Establishment Charge	Monthly Rate	USOC EAL
(a) Non-Data Link Consoles, per group of lines to which access is denied	235.00	6.70	CFC
(b) Data Link Consoles, per group of lines to which access is denied	235.00	6.70	CFU

Note 1: The monthly rate is the same as the ESSX-1 Group "B" month-to-month main station line charge.

Note 2: In addition, apply same rates and charges as specified for a Series 1000 Local Channel between the serving central office and the customer premises and for the Key Telephone Service transfer key associated with that channel.

7. Group Use Service

	Feature Establishment Charge	Monthly Rate	USOC
(a) Per system arranged to initiate outgoing calls	\$60.00	\$-	-
(b) Per line ¹	-	.65	EGR
8. ESSX-1 Access to Customer Oriented Facilities ^{2,3,4,5}			
a. Access to Recorded Telephone Dictation Equipment			
(1) First line equipped for dial access			
(a) Each	250.00	42.00	EWA
(2) Per Additional line equipped			
(a) Each ⁶	160.00	42.00	EWB
b. Access to Dial Code Sending Equipment			
(1) Code Calling			
(a) Per customer premises location	200.00	129.00	PLC
c. Access to Loudspeaker Paging Equipment			
(1) Loudspeaker paging origination, for dial access to paging equipment, per line equipped with access code			
(a) Each	233.00	62.00	EWJ
(2) Additional for zone paging option			
(a) Per zone	-	2.40	EWG
(3) Loudspeaker paging answer, per line equipped with access code			
(a) Each ⁶	145.00	9.00	EWK

Note 1: Applicable to each main station line of the System or Common Block.

Note 2: ESSX-1 main station line charges also apply to each access line or access code arranged (originate or answer) for connection to customer oriented facilities.

Note 3: All rates and charges for the above features are in addition to existing rates and charges for ESSX-1 and other services with which they are associated.

Note 4: See Private Line *Guidebook* for rates and charges applicable for control channels when required for supervisory purposes with equipment and/or apparatus located on customer premises. (T)

Note 5: The above items are required whether access lines and access codes are connected to terminal equipment provided by the customer or by the Company.

Note 6: Feature Establishment Charge applicable only when provided subsequent to the provision of the initial arrangement.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

d. Rates and Charges

(1) Release Link Trunk Terminal Equipment, Main Location

	Feature Establishment Charge	Monthly Rate	USOC
(a) Per ESSX-1 system	\$185.00	\$-	NA
(b) Per release link trunk group ¹	50.00	-	NA
(c) Release link trunk, each termination	20.00	140.00	EC6
(2) Release Link Trunk Terminal Equipment, Branch Location			
(a) Per ESSX-1 system	365.00	-	NA
(b) Per release link trunk group ¹	50.00	-	NA
(c) Release link trunk, first two terminations	40.00	38.00	EC4
(d) Release link trunk, additional terminations after the first two, each	20.00	19.00	EC5

Each of the above rate elements provide only the basic release link trunk termination equipment facilities located at the central office where the basic ESSX-1 service is provided and is in addition to other rates and charges applicable for the associated ESSX-1 service and Private Line Service and Channels.

Each Release Link Trunk termination requires 2 channels between the Main and Branch locations.

Release Link Trunk Termination Equipment charges are in lieu of Tie Line and Miscellaneous Line Termination charges.

(3) CAS Attendant

Console Equipment as specified in Section A112.8.8.A. for Data Link Console(s).

(T)

(4) Uniform Numbering

(a) Per ESSX-1 location	16.00	-	NA
(b) Each 100 numbers or fraction thereof	11.00	-	NA

10. Dial Thru Attendant, per ESSX-1 System

(a) Data link console operation	65.00	8.60	EWM
(b) Non-Data Link Console or key telephone system operation arranged for attendant use	65.00	7.60	EWP

Note 1: One Feature Establishment Charge applies when any number of release link trunk groups of the same type are installed at the same time at the same location.

(a) Each	145.00	37.00	OTC
(3) Music-On-Queue ⁶			
(a) Common equipment, each	145.00	130.00	OTD

Note 1: The OTQ - Phase 1 feature is only available for ESSX-1 systems equipped with Customer Facility Group Network Access Registers from No. 1 ESS central offices equipped with the 1E5 or later generics. This feature can only be offered to serve customer main station lines (excluding the attendant) that are co-located in the same ESSX-1 as the WATS simulated facilities.

Note 2: Calls in queue may overflow to the MTS (Toll) or to tone; customer option.

Note 3: The Inhibit Inflow/Outflow optional features require separate control channel(s) between the central office and the control key(s) at the customer premises, one per queue. Rates apply for Type 1105 Local Control Channel between the control keys on customer premises and the ESSX-1 central office. (T)

Note 4: Customer may specify the length of time a call is held in queue (threshold time limit) before overflowing to the MTS Network or to overflow tone.

Note 5: The text and announcement provided with the Recorded Announcement optional feature will be provided by the Company.

Note 6: In addition to the rates shown for the Music-On-Queue optional feature, rates specified in the Private Line *Guidebook* for a voice grade (Type 2123) Local Channel between the central office and the customer provided music source at the customer premises applies. (T)

A112.8.8 Auxiliary Services (Cont'd)

E. Automated Attendant Services (Cont'd)

1. Automatic Route Selection - Basic (ARS-B) (Cont'd)

b. Definitions (Cont'd)

- (6) Foreign Area Discrete Translation - Foreign Area Discrete Translation is the screening of a specific group of digits by the ESS switcher to determine proper call routing.

c. *Terms and Conditions*

- (1) Automatic Route Selection - Basic is provided only in association with ESSX-1 Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities, to ESSX-1 systems which are served by the same such equipment.
- (2) Preferred routes and alternate routing patterns will be specified by the customer.
- (3) All rates and charges specified for Automatic Route Selection - Basic are in addition to the rates and charges for associated facilities.
- (4) The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- (5) A single rate per facility will apply regardless of the number of patterns having access to that facility. The monthly rate specified is applicable to each facility available to the patterns.
- (6) Patterns without final route to the DDD Network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgment of the Company, provide an adequate level of service so as to avoid interfering with the service of others or to prevent others from making or receiving calls over their telephone service.
- (7) Where a route is used in one pattern (pattern reached by one access code) only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes) one translation per pattern may be provided subject to the appropriate charges as specified in E.1.d. following. Where central office code translation is required for more than one Numbering Plan Area (NPA) per single facility group or route, rates and charges as specified in E.d.(2)(d) and (e) following should be applied for each NPA translated.
- (8) A group of patterns may have either the DDD Network as a final route or overflow tone. A combination of both within the same pattern group is not permitted. Dial "9" may be used as an access code only if the patterns accessed have the DDD Network as a final route.
- (9) Where toll restricted main station lines have access to ARS patterns with final route to the DDD Network, apply charge and rate as specified for patterns with overflow to tone in lieu of the charge and rate specified for final route to the DDD Network.

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

E. Automated Attendant Services (Cont'd)

2. Station Message Detail Recording

a. General

- (1) Station Message Detail Recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, FX, WATS, CCSA, Other Common Carrier access line and/or the MTS Network (Toll) and at the customer's option, on certain incoming calls¹ that the attendant extends to a main station line or tie line within the customer's ESSX-1 group.
- (2) The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided, on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording.

b. *Terms and Conditions*

- (1) Station Message Detail Recording (SMDR) may be offered to main station lines of ESSX-1 customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- (2) Station Message Detail Recording is not represented to be a provision of billing detail. Where Tie Line, Other Common Carrier access line, and Foreign Exchange facilities are involved, all such call attempts, whether completed or not, will appear in the SMDR.
- (3) Station Message Details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The format may be changed to serve Company purposes and the customer will be responsible for making the tape compatible with his data processing equipment.
- (4) A magnetic tape will be provided by the Company on each occasion Station Message Detail Recording is furnished to the customer. The tape becomes the property of the customer on a "no exchange" basis and the tape may not be returned to the Company for reuse.
- (5) Station Message Details may be provided on all facilities subscribed for by the customer, including the Network (Toll), but will not include intercom calls originated by main station line users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the toll network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g., messages received collect or billed to third number will be on the tape file in addition to DDD messages originated by the main station line user.
- (6) Directory Assistance (DA) call detail may be provided on the magnetic tape (customer option).

Note 1: SMDR detail on incoming calls does not include the calling number or the type of facility used.

(T)

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

F. Touch-Tone® Calling Service

1. Main station lines and attendant access lines may be equipped where facilities permit with Touch-Tone® operation at no additional charge.

G. Subsidiary System Arrangements

1. General

- a. Subsidiary System

A Subsidiary System of an ESSX-1 system is a customer-provided equipment system which is furnished PBX trunks from the central office serving the customer's ESSX-1 system and which is connected by tie lines to that ESSX-1 system.

A Subsidiary System Arrangement provides main station line numbers, which are in sequence with the main station line numbers of the customer's ESSX-1 system, to the main station lines of one or more subsidiary systems.

2. **Terms and Conditions**

- a. Subsidiary System Arrangement (SSA) main station line numbers are provided by the same central office equipment and facilities which furnish Direct-Inward-Dialing (DID) service and will only be furnished where adequate DID facilities are available in the central office serving the customer's ESSX-1 system and where the subsidiary system is properly equipped for DID Service.
 - b. The PBX trunks of the subsidiary system are provided at the same rates and charges as specified for such trunks furnished from the central office serving the customer's ESSX-1 system. In addition foreign central office or foreign exchange mileage charges are applicable to those trunks when the subsidiary system is located outside the area of that serving central office.
 - c. The same rates and charges as specified for DID Service apply for SSA main station line numbers. Where more than one subsidiary system is involved, each subsidiary system is considered a separate service and the count of main station line numbers furnished will commence anew at each such system for the purpose of determining the applicable rates and charges.
 - d. Tie lines connecting the ESSX-1 and subsidiary systems are provided at the same rates and charges as specified for ESSX-1 tie line terminals, tie lines, and tie line terminals in a customer-provided equipment system.

(T)

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

G. Subsidiary System Arrangements (Cont'd)

2. *Terms and Conditions* (Cont'd)

- (T)
- e. SSA main station line numbers are furnished subject to the condition that all inward and outward local and toll network calling by subsidiary system main station lines be via the central office serving the customer's ESSX-1 system.
 - (1) Where subsidiary system main station line's outward local and toll network calls are placed via tie lines and the network access registers of the ESSX-1 system, the charges for such calls are identified and billed as primary directory listing calls of the ESSX-1 system.
 - (2) Where subsidiary system main station line's outward local and toll network calls are placed via PBX trunks, the charges for such calls are identified and billed as primary directory listing calls of the subsidiary system except as specified in f. following.
 - f. At the option of the customer, identification and billing of outgoing toll network calls by SSA main station line number will be provided at the same rates and charges as specified for Identified-Outward-Dialing (IOD) Service subject to the following conditions:
 - (1) The identification and billing of outgoing toll calls by SSA main station line number will only be provided on calls routed via PBX trunks.
 - (2) Where more than one subsidiary system is arranged for the identification and billing of outgoing toll calls by SSA main station line number, each system shall be considered a separate service and the count of connecting channels which serve as IOD trunks will commence anew at each system for the purpose of determining the applicable rates and charges.
 - g. The ESSX-1 subsidiary system arrangement is provided solely for the furnishing of SSA main station line numbers to subsidiary systems for local and toll network and intercommunication calling and does not provide any of the basic or optional service features of ESSX-1 Service to main station lines of the subsidiary systems.
- ##### 3. Rates and Charges
- a. Each Subsidiary System Arrangement¹
 - (1) Direct-Inward-Dialing²
 - (2) Identified-Outward-Dialing³
 - (3) Exchange Access, per trunk⁴

Note 1: PBX Equipment associated with Subsidiary System Arrangements will be furnished at Rates and Charges as set forth in Section A11. (T)

Note 2: Apply Rates and Charges as specified in Section A12.7 for DID service. (T)

Note 3: Apply Rates and Charges as specified in Section A12.8 for IOD service. (T)

Note 4: Apply Rates and Charges as specified in Section A3. for PBX trunks. (T)

H. Switched Circuit Automatic Network Access Line Terminations

1. General

Switched Circuit Automatic Network (SCAN) access line terminations provide for the ESSX-1 system termination of access lines to SCAN switching centers furnished by F.C.C. Tariff No. 260.

2. *Terms and Conditions*

a. Explanation of Terms

(1) SCAN

SCAN is a private switched service which provides the Automatic Voice Network (AUTOVON) to various authorized agencies of the federal government. Both routine and priority calls are handled by AUTOVON. Within that network are five levels (0 through 4) of precedence for AUTOVON calls. Level 4 is a routine call and levels 0 through 3 are priority call levels with 0 being the highest priority. This precedence scheme allows priority calls to preempt, when necessary, routine and lower level priority calls.

(2) Preemptible SCAN Access Line Terminal

A Preemptible SCAN Access Line Terminal is arranged for the completion of incoming and outgoing priority or routine calls.

(3) Non-Preemptible SCAN Access Line Terminal

A Non-Preemptible SCAN Access Line Terminal is arranged for the completion of incoming and outgoing routine calls.

(4) Main AUTOVON Location

A Main AUTOVON Location is a ESSX-1 system at which SCAN access lines terminate.

(5) Satellite AUTOVON Location

A Satellite AUTOVON Location may be an ESSX-1, ESSX-5, P.B.X., or customer-provided equipment system which is connected to the main AUTOVON location by tie lines or to which incoming priority calls may be routed via the main AUTOVON location over the local and toll network by the main-satellite AUTOVON compatibility PID option.

Note 1: PBX Equipment associated with Subsidiary System Arrangements will be furnished at Rates and Charges as set forth in Section A11. (T)

Note 2: Apply Rates and Charges as specified in other sections of this *Guidebook* for tie-line terminations, tie-line mileage, etc., as appropriate. (T)

Note 3: Apply Rates and Charges as specified in A112.8.8.D.1. or USOC: ETM. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.8 ESSX-1 Service (Cont'd)

A112.8.8 Auxiliary Services (Cont'd)

H. Switched Circuit Automatic Network Access Line Terminations (Cont'd)

2. *Terms and Conditions* (Cont'd)

a. Explanation of Terms (Cont'd)

(6) Main-Satellite AUTOVON Compatibility Options

Main-Satellite AUTOVON Compatibility Options may be furnished in association with preemptible SCAN access line terminals at the main AUTOVON location.

Immediate Diversion Network In-Dialing (INID) Option

--The INID option provides for the intercept and rerouting of incoming priority calls directed to AUTOVON satellite locations.

Precedence Network In-Dialing (PID) Option

--The PID option provides for the routing, via either tie lines or the local and toll network, of incoming priority calls directed to AUTOVON satellite locations.

- b. SCAN access line terminations provide for the direct inward and outward dialing of AUTOVON calls. Outgoing priority calls are completed only via preemptible SCAN access line terminals. Incoming priority call precedence is only furnished when that call is completed via a preemptible SCAN access line terminal. When an incoming priority call is completed via a non-preemptible SCAN access line terminal, the call is processed in the same manner as a routine call without any precedence recognition. Incoming and outgoing routine calls may be completed via either preemptible or non-preemptible SCAN access line terminals.
- c. The origination of priority calls requires 16-button Touch-Tone[®] dial telephone equipment associated with attendant positions and main station lines.
- d. Preemptible SCAN access line terminals are only furnished where the customer's system is equipped with Data Link Console attendant position equipment.
- e. Where the tie lines are furnished between a main AUTOVON location and a satellite AUTOVON location, those tie lines may be used to extend incoming priority and routine calls to the satellite location. Satellite AUTOVON location station line users may originate routine calls via such tie lines and the main AUTOVON location. Where a satellite AUTOVON location station line user desires to originate a priority call via such tie lines and the main AUTOVON location, the attendant at the main location may complete the desired priority call for the satellite location station line user.
- f. At the option of the customer, main-satellite AUTOVON compatibility may be furnished on either an INID or PID option basis, but a mix of the two on the same system is not permitted. Furthermore, where the PID option is furnished, the option must be arranged for routing via either tie lines or the local and toll networks, and a mix of the two routing methods on the same system is not permitted.
- g. When a main-satellite AUTOVON compatibility PID option routed call to a satellite AUTOVON location is not answered within approximately three ringing cycles, that call will be rerouted to the attendant position of the main AUTOVON location.

A112.10 (DELETED)

A112.11 ESSX Small, Medium and Large Service and ESSX-1

A112.11.1 Customer Management Features

Obsoleted 01-09-87, Type 3. Not offered for new installations on and after the specified obsolete date.

A. Customer Station Rearrangement

1. General

- a. The Customer Station Rearrangement (CSR) feature permits ESSX-1 and ESSX customers to activate/deactivate selected optional features, change certain service options, and change feature configurations on predesignated ESSX station lines.
- b. For CSR equipped station lines, CSR allows the customer to verify and/or display the assignment of features on a single station line, range of station lines or all station lines to determine which station or stations have a particular feature or service option.
- c. Certain ESSX station lines may be specified by the customer to be exempt from this feature. Additionally, the Company reserves the right to make station lines inaccessible to CSR.
- d. Changing the status of a station line from accessible to CSR to inaccessible or vice versa, must be done by the Company via a service request. Service Charges, as specified in Section A4. will apply. (T)
- e. CSR transactions will not require a service order.
- f. The Company has made the following provisions to protect the integrity of the switching system database and to ensure the security of CSR changes.
 - (1) A CSR customer's change, display or verify capabilities are restricted to that particular ESSX system to which the customer subscribes.
 - (2) All changes are audited as they are entered by the CSR customer. Invalid changes will not be accepted. An error message detailing which command is in error will be given.
 - (3) Customer access to the database is password protected.

A112.11.1 Customer Management Features (Cont'd)

A. Customer Station Rearrangement (Cont'd)

1. General (Cont'd)

g. A CSR customer can schedule changes (individual or bulk) for completion by the next business day or for a future business day.

h. Definitions pertaining to CSR/ESSX features are specified in A112.26.3. (T)

i. The CSR feature allows the customer to perform the following transactions from the customer provided terminal:

(1) Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are:

Common Equipment Group Number (Common Block)

CAT Code

Ringing Cycles for CFDA

Call Pickup Group: The call pickup group to which a station is assigned can be changed on a per station basis. The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.

Speed Call Group: The Speed Call group to which a station is assigned can be changed on a per-station basis.

Series Completion "Hunt To" Telephone Number (TN): The "hunt to" TN assigned to a station line can be changed on a per-station basis¹

Station TN Rearrangement: Swap TNs from one location to another²

(2) Activate/deactivate the following features and service options on a single station line basis:

Automatic Callback Calling

Call Forwarding Busy Line

Call Forwarding Don't Answer

Call Forwarding Variable

Call Forwarding Unrestricted

Call Hold

Call Pickup

Call Waiting Originating

Call Waiting Terminating

Dial Call Waiting

Directed Call Pickup - Barge In

Directed Call Pickup - Non Barge In

Speed Calling - 6

Speed Calling - 30

Basic Station Line Hunting (Series Completion)

Note 1: All numbers in series completion hunt must be in the same common block.

Note 2: Rearranged station TNs carry all features and characteristics to their new location unless the Common Equipment Group (Common Block) is also changed.

Listing

- Listing of all CSR changeable station lines which includes the following information:

Station Telephone Number

Name¹

Department¹

Location¹

2. *Terms and Conditions*

- a. CSR is provided only with ESSX-1 and ESSX[®] systems served from a No. 1 or 1A ESS central office and is furnished subject to the availability of facilities. (T)
- b. ESSX-S, M or L customers equipped for CSR must order via a service order² CSR changeable features in groups of five (5) at the rates specified in A112.11.1.A.3.(b) following. ESSX-1 customers must order via a service order CSR changeable features at rates and charges specified in Section A112. (T)
- c. Non-CSR changeable features will be added subject to the specifications and rates in A112. as appropriate.
- d. Features for CSR exempt station lines must be requested via a Service Order² and added by the Company. Rates and Charges for the features specified in A112.26.8, A112.26.9 or A112.26.10 apply as appropriate.
- e. The customer provided CSR terminal equipment requires an exchange access line ESSX-1 or ESSX main station line. Rates and charges in Sections A3. or A112. apply as appropriate.
- f. CSR changes must be entered prior to a time to be designated by the Company to be completed by the next business day.
- g. A CSR customer cannot activate features in excess of the quantity that has been ordered from the Company. The customer will receive an indication on the terminal screen when 100% utilization of a feature is reached. To add additional quantities will require a service order.
- h. Contractual obligations and End User Common Line Charges will be billed to the location where originally installed and will not transfer with a station line number rearrangement.
- i. The following types of lines will be restricted from Station TN Rearrangement capability. Service option and features change capabilities are still available.
 - (1) Station lines equipped for dial pulse service
 - (2) Station lines assigned to Multi-Line Hunt Groups

Note 1: The CSR customer is responsible for entering and updating the information contained in this field.

Note 2: Appropriate Service Charges as specified in Section A4. will apply. (T)

A112.11 ESSX Small, Medium and Large Service and ESSX-1 (Cont'd)

A112.11.1 Customer Management Features (Cont'd)

B. Advanced Communications Package

1. General

- a. Advanced Communications Package (ACP) features are provided only in association with ESSX Service furnished from No. 1/1A Electronic Switching System (ESS) central office equipment located on company premises and may be provided, subject to the availability of facilities, to ESSX systems which are served by the same such equipment.
- b. The ACP features are designed to meet the needs of those customers who have large numbers of WATS, FX and other services. The ACP features are designed to streamline communications and offer a customer increased control over those communications and offer a customer increased control over those communications. The ACP features will be used to monitor and control facilities in applications such as stand-alone ESSX configurations, Electronic Tandem Network Configurations with ESSX tandems etc.

2. Explanation of Terms

- a. ACP features are optional ESSX features which are specified following:

Advanced Station Message Detail Recording (ASMDR)
Customer Station Rearrangement (CSR)
Facilities Management System (FMS)

- b. ASMDR data include records for Electronic Tandem Switched (ETS) calls originating over FX, WATS, CCSA and the toll network. This feature also adds the capability of recording non-ETS call types (such as dial '9' or "IXX" calls) originated by stations, attendants and ESSX Tie Trunks.
- c. The CSR feature allows the ESSX customer to change and verify their own station assignments for specified stations without requiring a service order.
- d. The Facilities Management feature provides real time access to facilities data and allows customer control of ARS pattern groups, FRL's, Queues, and authorization codes.

3. *Terms and Conditions*

- a. ASMDR will require that the central office be capable of providing SMDR via the 1AE6/1E6 generic or higher. ASMDR is not represented to be a provision of billing detail.
ASMDR records will be provided on customer provided compatible terminal equipment located at the customers' premises.
The customer must designate all station lines and/or selected facility groups on which ASMDR originating and terminating records are to be provided.
ASMDR will include the recording of Authorization codes where these optional features are provided at the rates and charges specified in A112.27.
- b. CSR will be provided at the Rates and Charges as specified in A112.
- c. FMS requires the use of ARS-Deluxe at the rates and charges as specified in A112.27 FMS provides the individual features of Facility Administration and Control, Traffic Data to Customer (Pollable).
- d. All ACP features require the use of customer provided compatible terminal equipment.
- e. Rates and charges for ACP will be developed on an individual case basis and will be based on the estimated costs to provide this service.

(T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85

(Obsoleted 10-26-95, Type D) Service rates and charges in this Section are available for inward activity of existing subscribers only as specified following. Not available for new service or entire moves of existing service to new locations.

Obsolescence Rules

1. Inward activity for ESSX service - 85 will only be allowed under a Term Payment Plan.
2. ESSX service - 85 subscribers who have their entire account under a month-to-month payment option will be allowed to maintain their ESSX service - 85 at month-to-month rates.
3. ESSX service - 85 subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the rates and charges outlined in this Section until such a time that the Term Payment Plan associated with the Common Equipment expires. Upon expiration of the Term Payment Plan associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)
4. ESSX service - 85 subscribers under a Term Payment Plan will be allowed to maintain their ESSX service - 85 until the expiration date associated with the Common Equipment of their contract. Upon expiration of the Term Payment Plan associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)
5. ESSX service - 85 subscribers under a Term Payment Plan will have until 02/28/96 to exercise the recast option and subscribe to ESSX service - Vintage II, as described in A112.26, for a Term Payment Plan of not greater than 36 months in length. ESSX service - 85 subscribers under a month-to-month payment option will have until 02/28/96 to convert to a ESSX service - Vintage II Term Payment Plan of not greater than 36 months in length.
6. Conversions from ESSX-1 service to ESSX service - 85 will not be allowed under this *Guidebook*. (T)
7. Existing ESSX service - 85 subscribers who are under a Term Payment Plan may add a new Secondary Location (SLA) or move an existing SLA of their existing service. (T)

Vintaged 07-10-89, Type 4. This service is not offered for new installations after 07-10-89, except where a letter of intent was signed prior to 07-10-89 and the service is to be installed on or before 01-10-90. Subsequent additions to an existing system, under contract, are permitted. Additionally, a system under contract may be moved to another *Company* location within the State of Georgia. Customers paying vintaged rates and charges will continue to pay vintaged rates and charges until their payment period expires. (T)

A112.12.1 General

- A. ESSX Small (S), Medium (M) and Large (L) Service is furnished from No. 1 and 1A Electronic Switching System (ESS) Central Office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features:
 1. Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of an ESSX system.
 2. Intercommunication calls between stations of the same ESSX system.
 3. Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by the Company will be provided this identification.
 4. Common recorded announcement interception of calls to unassigned station numbers.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.1 General (Cont'd)

- A.** (Cont'd)
5. Trunk answer any station of incoming primary directory listing calls.
 6. Basic Station Line Hunting
 7. Touch-Tone Service
- B.** ESSX service will be furnished in three categories based on the size of the subscribers system.
1. ESSX service-S will serve systems with 1-200 main station lines.
 2. ESSX service-M will serve systems with 201-600 main station lines.
 3. ESSX service-L will serve systems with more than 600 main station lines.
- C.** An ESSX service system may be comprised of the following components:
- Common Equipment¹
 - Network Access¹
 - Main Station Lines¹
 - Terminating Arrangements
 - Features
1. The Common Equipment and Terminating Arrangements will be at the rates and charges as specified in A112.12.7. The Network Access Limiter and Network Access Registers will be at the rates and charges as specified in A12.12.7. (T)
 2. Main Station Line rates will consist of the intercom charge and the appropriate wire center line charge. These charges will be located in A112.12.8, A112.12.9, and A112.12.10 for ESSX service-S, ESSX service-M, and ESSX service-L respectively.
 3. ESSX service Line and System Features will be grouped as follows:
 - Group A Line Features
 - Group B Line Features
 - Group B System Features
 - Optional System Features
 - Customer Management Features

Note 1: Every system will include these components.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.1 General (Cont'd)

- C. An ESSX System may be comprised of the following components: (Cont'd)
 - 3. ESSX Line and System Features will be grouped as follows: (Cont'd)
 - Customer Management Features¹
 - a. Group A Line Features will be offered on a grouped basis to ESSX subscribers who have selected an ESSX Term Payment Plan of 36, 60 or 84 months. Subscribers selecting the month-to-month payment option will be offered the Group A Line Features on an individual basis only.
 - b. Group B Line Features, Group B System Features, Optional System Features and the Customer Management Features will be offered to ESSX subscribers under all payment plan options subject to the specific requirements within each arrangement.
 - c. An ESSX-S subscriber will select Group A and B features in A112.12.8.¹ (T)
 - d. An ESSX-M subscriber will select Group A and B features in A112.12.9.¹ (T)
 - e. An ESSX-L subscriber will select Group A and B features in A112.12.10.¹ (T)
 - f. Optional Service Features will be offered to all ESSX subscribers in A112.12.12. (T)
 - g. Customer Management Features will be offered to all ESSX subscribers in A112.12.13.¹ (T)

A112.12.2 Terms and Conditions

- A. ESSX Small, Medium and Large service is furnished subject to the availability of facilities and features from a No. 1 or 1A Electronic Switching System located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and or major relocations of ESSX systems are subject to the same *terms and conditions* as initial installations. (T)
- B. Certain Auxiliary Services are available on an individual main station line basis and are subject to the capabilities of the serving ESS central office.
- C. Optional Service Features as listed in A112.12.12 include Attendant Features and Auxiliary Attendant Features. These Features may require customer provided compatible terminal equipment.
- D. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- E. All ESSX main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with ESSX service.
- F. Tie lines for direct connections between a basic ESSX system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in Section A13. and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the ESSX system to or from other systems (ESSX or non ESSX) provided such connections to the exchange or long distance network are only made one system at a time. (T)

Note 1: ESSX systems subscribing to the CSR feature in A112.12.13 must select CSR Changeable Features subject to the rates, *terms and conditions* in A112.12.13. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.2 Terms and Conditions (Cont'd)

- G. Where completion of incoming and outgoing local and long distance calls through an ESSX system is furnished to or from main station lines of a separate ESSX system in another exchange or a non ESSX system in the same or different exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems except for Subsidiary System Arrangements furnished under the *terms and conditions* specified in A112.12.12. (T)
 - 1. Rates and charges as specified in Section B3. of the Private Line *Guidebook* apply to miscellaneous lines furnished with unique access codes (trunk level access) except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.12.12. (T)
 - 2. ESSX optional features charges as outlined in Section A112.12.12 apply for each trunk terminated main station line as offered in Section A112.12.7, as appropriate. (T)
- H. Where the lines are arranged to switch calls through the System to or from one or more tie lines or private lines, charges for Dial Cut-Through Arrangement as specified in A112.12.7 shall apply per tie line so equipped. The charge is in addition to the regular charges for the facilities connecting the systems. (T)
- I. Dormitory service is furnished in accordance with the *terms and conditions* for Dormitory Communications Service specified in Section A13. (T)
- J. A system may not be provided for Intercommunication (standalone) service only. Access to the exchange network must be provided.
- K. A mixture of Flat Rate and Message Rate Service will not be allowed within a single customer system.
- L. Suspension of Service - With the exception of Network Access Registers, suspension of ESSX Service is not permitted.
- M. A twelve month minimum service period shall be required for subscription to ESSX-M or ESSX-L Service. The minimum service period as specified in Section A2. applies for ESSX-S Service. (T)
- N. Touch-Tone service will be furnished subject to the *terms and conditions*, specified in Section A13. The rates and charges for ESSX-S, ESSX-M and ESSX-L Service include the provision of Touch-Tone Service. Rates and charges as specified in Section A13. do not apply for the provision of Touch-Tone Service to ESSX-S, ESSX-M and ESSX-L Service. (T)
- O. Directory Listings will be furnished subject to the rates, *terms and conditions* specified in Section A6. (T)
- P. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an ESSX system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one way incoming or one-way outgoing operation depending upon the option of the customer at the time the network access register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charge as specified in Section A4. will apply per Network Access Register affected.
- Q. Service charges, as specified in Section A4., apply to all ESSX systems except as provided in A112.12.5. (T)
- R. ESSX installation charges due on an initial installation or subsequent addition may be paid in full at the time of installation or deferred over a predetermined period of time as specified in Section A122. (T)
- S. If the ESSX subscriber elects a Message Rate Service option, Message Rate Service usage charges specified in Section A3 are applicable on calls to locations outside the subscriber's ESSX system in addition to rates and charges in this and other *guidebook* sections for ESSX service and other associated services. Usage charges are not applicable on calls originated and terminated within the same ESSX system. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.2 Terms and Conditions (Cont'd)

- T. ESSX service main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It Services¹ (e.g. 900 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 10XXX and 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted. The term "Public Announcement Services" as used herein are those services which, in the judgement of the Company, furnish advertised recorded announcement messages to the general public (e.g., time, weather, sport scores and stock market reports). The Public Announcement Service central office codes will be determined by the Company and will be commonly denied access in the office serving the ESSX systems subscribing to this service arrangement. (T)
1. At the time a Code Restriction Arrangement is installed, the ESSX service system will be arranged for the code restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the Line Change Charge in Section A4. applies per main station line affected except that no such charge applies when the Code Restriction Arrangement is disconnected in its entirety. (T)
 2. Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
 3. Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls but such calls may, in certain circumstances be completed and charges will apply as specified elsewhere in this *Guidebook*. (T)
- U. The list of Wire Center Density Classifications by Exchange as specified in A112.12.14 shall be used in determining the density of a particular serving wire center. Whenever the density group designation of a serving wire center is reclassified, ESSX service customers are subject to the following:
1. Charges for main station lines under contract via the ESSX service Term Payment Plan shall not change for the remainder of the payment period.
 2. Upon expiration of the existing contract, the new rate will be based on the wire center density group as reclassified.
 3. Charges for main station lines not under contract (Month-to-Month), including minimum service period shall be adjusted as appropriate in those situations where the reclassification will result in a lower rate.
- V. The first system established per customer within a Local Calling Area must consist of a minimum of one (1) Main Station Line. Systems installed or ordered prior to December 16, 1985 are not subject to this *term and condition*. (T)
- W. ESSX service subscribers with rates and charges applicable within A112.12 may subscribe to features found in A112.26 but not offered in A112.12. (T)
- X. ESSX service subscribers with rates and charges applicable within A112.12 wishing to add or change features must apply nonrecurring charges as indicated in A112.26. (T)

Note 1: Dial-It is a service of AT&T.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.5 Conversion (Cont'd)

- B. Conversion of ESSX-1 Service to ESSX-S, M and L Service (Cont'd)
 - 2. Customers with ESSX-1 Service converting to ESSX-S, M or L Service must elect a payment period equal to or greater than the unexpired portion of their current payment plan. The following options are available.
 - a. Month-to-Month Payment Plan
 - b. ESSX Term Payment Plan of 36, 60 or 84 months
Terms and Conditions concerning the ESSX Term Payment Plan are specified in Section A122. (T)
- C. Replacement of Number 1/1A ESS Central Office Equipment
 - 1. The rates and charges in this and other Sections for ESSX Service and the associated features and services will continue to apply to existing ESSX subscribers served at a location that is converted through no desire or fault of the subscriber to other than Number 1/1A ESS central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the non-Number 1/1A ESS equipment, the billing for the customer's system will be converted to rates and charges appropriate for the central office equipment providing his service. (T)

A112.12.6 Payment Schedules

- A. General
 - 1. ESSX service is offered as follows
 - a. The Payment periods are:
 - Month to Month Payment Plan
 - 36 Month ESSX Term Payment Plan
 - 60 Month ESSX Term Payment Plan
 - 84 Month ESSX Term Payment Plan
 - b. Items that may be placed under the ESSX Term Payment Plan
 - Main Station Lines
 - Extension Station Lines
 - Group A Features
 - Group B Features
 - Optional Service Features
 - System Common Equipment
 - Line Terminating Arrangements
- 2. The monthly rate for ESSX service is dependent upon the payment period selected by the customer. (T)
- 3. The monthly rate for ESSX service under the ESSX Term Payment Plan for the periods of 36, 60, or 84 months is not subject to Company initiated rate increases.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.6 Payment Schedules (Cont'd)

A. General (Cont'd)

4. ESSX-S service will be offered to subscribers having 15 -200 main station lines under any of the payment options offered.
 - a. An ESSX-S subscriber may elect a 36, 60 or 84 month payment period for any portion or all of the total system size with the remainder to be under the month to month payment option.
 - (1) Group A and B line features may be added under any of the payment plan options.
 - (2) Group B System Features, Auxiliary Attendant Features, or Optional service features may be added under any of the payment plans provided that they are not added for a payment period of shorter duration than the contract period associated with the ESSX common equipment.
 - b. An ESSX-S subscriber may add station lines up to 220 Lines, and:
 - (1) Add those lines and associated Group A & B Line features at the month to month rate specified for ESSX-S or,
 - (2) Resubscribe the entire system under the payment periods as offered for ESSX-M.¹
There will be no termination liability.
ESSX-S Subscribers will be liable for the difference in Service Establishment charges between ESSX-S and ESSX-M.
5. ESSX-M service will be offered to subscribers with 201-600 main station lines under month to month, 36 months, 60 months or 84 month payment options.
 - a. An ESSX-M subscriber may elect a 36, 60 or 84 month payment period for any portion or all the total system size with the remainder to be under the month to month payment option.
 - (1) Group A and B line features may be added under any of the payment plan options.
 - (2) Group B System Features, Auxiliary Attendant Features, or Optional service features may be added under any of the payment plan options provided that they are not added for a payment period of shorter duration than the contract period associated with the ESSX common equipment.
 - b. An ESSX-M subscriber may add station lines up to the 660 Lines and:
 - (1) Add those lines and associated Group A & B features at the month to month rate specified for ESSX-M or,
 - (2) Resubscribe the entire system under the payment periods as offered for ESSX-L.¹
There will be no termination liability.
ESSX-M Subscribers will be liable for the difference in Service Establishment charges between ESSX-M and ESSX-L.
6. ESSX-L service will be offered to subscribers with more than 600 main station lines under month to month, 36 month, 60 month and 84 month payment options.
 - a. An ESSX-L subscriber may elect a 36, 60 or 84 month payment period for any portion or all of the total system size with the remainder to be under the month to month payment option.
 - (1) Group A and B line features may be added under any of the payment plan options.

Note 1: *Terms and conditions* concerning the ESSX Term Payment Plan are specified in Section A122.

a. (Cont'd)

- (2) Group B System Features, Auxiliary Attendant Features, or Optional service features may be added under any of the payment plan options provided that they are not added for a contract period of shorter duration than the contract period associated with the ESSX common equipment.

B. Expiration of Contract Period

1. ESSX-S, ESSX-M and ESSX-L customers must upon the expiration of their contract:

a. Select a new payment period as offered in the current *guidebook* or, (T)

b. Revert to the current *guidebook* rates for the month to month payment option. (T)

2. An ESSX-S, ESSX-M or ESSX-L customer whose service is provided under rates, *terms and conditions* found in Section A112. may at any time during his selected contract period resubscribe for an equal or longer contract period at the current rates subject to the following conditions: (T)

a. No credit will be given for payments made during the formerly selected period. Non-recurring charges will not be reapplied.

b. The new payment period begins with the billing date following the date the new payment period is requested.

c. No termination charge applies for the former payment period.

d. A Secondary Service Charge as specified in Section A4. will apply. (T)

e. Subscriber has not previously exercised the option to resubscribe after the effective date of this *Guidebook*.

3. An ESSX-S, ESSX-M or ESSX-L customer whose service is provided under rates, *terms and conditions* found in Section A112., may at any time during his selected contract period resubscribe for a contract period shorter in length than the time remaining in the existing service agreement, subject to the following conditions: (T)

a. No credit will be given for payments made during the formerly selected period. However, nonrecurring charges will not be reapplied.

b. The new payment period begins with the date requested.

c. A termination charge applied to the former payment period.

d. A Secondary Service Charge as specified in Section A4. will apply. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.6 Payment Schedules (Cont'd)

C. Termination Liability

The Termination Liability applicable to ESSX service is dependant upon the payment period selected by the customer. Termination charges for the optional payment periods are as follows:

1. Month-to-Month Payment Plan
 - a. ESSX-S Customers - No Termination Liability will be applicable.
 - b. ESSX-M Customers
 - (1) Within 12 months of date of installation - If a customer's Main Station Line count falls below 75% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
 - (2) Beyond 12 months of date of installation No Termination Liability will be applicable.
 - c. ESSX-L Customers
 - (1) Within 12 months of date of installation - If a customer's main station line count falls below 90% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
 - (2) Beyond 12 months of date of installation - No Termination Liability will be applicable.
2. ESSX Term Payment Plan Option
 - a. ESSX-S, ESSX-M and ESSX-L customers that contract a portion of their system under the ESSX Term Payment Plan Option are subject to the following liability charges.
 - (1) Main Station Lines, Group A Features, Group B Features, System Features under contract - 90% of remaining amount due for each main station line disconnected after the customer's total main station line count falls below 90% of the total main station lines initially installed or of the annually adjusted total.
 - (2) All non-contracted items - No Termination Liability will be applicable.
3. When a subscriber's ESSX service under a Term Payment Plan is disconnected prior to the expiration of the selected service period as a result of a subscriber requested change to one of the separately *available* services listed following, termination charges will not apply when:
 - a. the completed service period is 12 months, and (T)
 - b. the service period of the new arrangement for the separately *available* service equals or exceeds the remaining service period of the disconnected service, and (T)
 - c. the service orders to install the separately *available* service and disconnect the existing service are related together and there is no lapse in service between installation of the separately *available* service and disconnection of the existing service, and (T)
 - d. the service orders are for the same subscriber at the same location. (T)

For the purposes of determining the separately *available* services to which the preceding conditions apply, the following list will be used: (T)

 - MegaLink Service
 - MegaLink Channel Service
 - MegaLink ISDN Service
 - LightGate Service

A112.12.7 Common Rates and Charges

A. General

1. Station Lines
 - a. The rates and charges specified herein for main station lines provided for main station line components. The main station line consists of all facilities including intercommunication outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.
 - b. The rates and charges specified herein for extension stations provide for an extension station line component. The extension station line consists of usage of traffic sensitive Central Office equipment.
 - c. The rates and charges specified herein for main and extension station lines are applicable to each main station location and extension station location respectively to which a customer-provided instrument can be connected.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.7 Common Rates and Charges (Cont'd)

A. General (Cont'd)

1. Station Lines (Cont'd)

d. (DELETED)

e. End User charges as specified in the End User Access Service Section of FCC Tariff Number 61 apply as appropriate.

f. Rates for the main station lines of ESSX-S, M and L customers will be based on the following criteria:

Main Station Group Size

Wire Center Density Group

Distance from the Serving Central Office

The type of payment plan selected by the customer

g. The total main group size will consist of main station lines and attendant access lines for all locations served by the same ESSX system.

h. Wire center density is based on the number of main stations and equivalent main stations per square mile served by that wire center.

i. Wire center density groups are designated "A" and "B" with group "A" having the least density and "B" having the most density.

"A"

0 - 1200 Mains and equivalents/square mile

"B"

Over - 1201 Mains and equivalents/square mile

j. The distance band will be based on airline mileage from the serving central office to the Network Interface Location at the customer's premises.

Where main stations are in a foreign exchange (FX) or a foreign central office (FCO) area the distance band will be calculated from the FX or the FCO to the Network Interface Location serving those main stations.

Systems with more than one location served by the same ESSX control group will calculate the distance band per location.

k. In a different central office serving area of a multi-office exchange:

The rate of ESSX Service in a FX or FCO area is the monthly rate for the ESSX service desired, plus an FX or FCO mileage charge as specified in Section A9. (T)

When ESSX main station lines are connected by facilities which are routed between two or more central offices in the same exchange the foreign central office mileage charge is calculated separately on an airline basis between the ESS central office from which the ESSX system is served and the central office from which exchange service normally would be rendered.

l. Rates, charges, liabilities and additional *terms and conditions* if applicable may be developed on an individual case basis for main station lines exceeding four (4) airline miles from the serving central office. (T)

	ESSX Term Option				Month
	To Month	36 Months	60 Months	84 Months	
(e) Deletions from NPA or C.O. Code Group	\$-	\$-	\$-	\$-	NA
(f) Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change. ²	-	-	-	-	NA
(6) Station Dial Code Screening - Arrangement II³					
(a) Per Main Station Line Equipped	.35	.30	.30	.30	SCG
(b) Per group with same screening arrangement and same access code	47.15	46.95	46.75	46.55	SCZ
(c) Per NPA with C.O. code Screening	1.40	1.35	1.35	1.35	SC1

Note 1: Except where all ESSX main station lines have the same Arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8.D. This feature is not available on International Direct Distance (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call. (T)

Note 2: Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged as specified in other sections of this *Guidebook*. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)

Note 3: Arrangement II is available only with access to channels associated with private line networks and requires the associated facilities to be senderized and equipped with uniform numbering.

A112.12.12 Optional Service Features

A. Attendant Service

Central office attendant console operation is offered as an auxiliary service with ESSX service.

The Call Transfer-Attendant feature is furnished with Non-Data Link or Data Link Console operation.

As an alternative the subscriber may designate a selected station or stations to perform attendant functions. Incoming calls to the listed directory number are connected to the selected station and then completed to the desired party by operation of the Call Transfer feature.

1. Central Office Components for Non-Data Link Consoles Operations

a. General

(1) Customer provided compatible consoles may be provided only where the central office serving the ESSX system has been arranged for use with such consoles.

(2) Control channels are required for various console optional features as indicated and are provided at the appropriate rates and charges as specified in Section B3. of the Private Line *Guidebook*.

(T)

Note 1: All main station lines in the same customer group must be commonly equipped for Call Transfer Inter ESSX screening.

(a) Per group of main station lines arranged per occasion	-	-	-	-	EHS

C. Centralized Attendant Service

Centralized Attendant Service (CAS) allows a customer with a number of locations that are served by either a PBX or ESSX system to concentrate all attendants at a single centralized location (Main). Incoming calls over a local exchange trunk to an unattended location (Branch) are routed to the main location via a Release Link Trunk (RLT), where a CAS attendant completes the call by dialing the called party's extension number over the same Release Link Trunk facilities.

1. Types of Equipment With Which CAS is Associated

The main location must be an ESSX system that is equipped for this service, and utilizes customer provided compatible terminal equipment.

The branch locations must be one of the following:

- a. An ESSX system

Note 1: In addition apply rates and charges as specified in Section B3. of the Private Line *Guidebook* for a private line channel between the serving central office and the customer premises and for customer provided equipment associated with that charge. (T)

Note 2: Apply recurring charges for initial installation.

(7) Uniform Numbering, Per Location					
(a) Each	-	-	-	-	UNQ
(8) Uniform Numbering, 100 numbers or fraction thereof					
(a) Each	-	-	-	-	UNZ

D. Automatic Route Selection - Basic (ARS-B)

1. General

- a. Automatic Route Selection - Basic (ARS-B) is an optional feature, available where facilities permit that allows station users, by dialing a preselected code to automatically select the preferred route subscribed to by a customer for network calls. Alternate routing to other facilities subscribed to by the customer is also provided. This agreement is available for use with Foreign Exchange, WATS, CCSA off-net tie lines and Interexchange Carrier (IC) access lines which are compatible with ARS and the MTS network facilities.
- b. Automatic Route Selection - Basic is accessed by dialing a single code (1, 2 or 3 digits) which automatically selects the appropriate route (FX, WATS, CCSA off-net, tie line, IC access line or the MTS Network) to complete the call. If all facilities in the initial route selected are busy, the call will advance to other routes in the selected pattern. Patterns may consist of up to four (4) private routes. If no route is available, the call will route to the MTS network or overflow tone (customer option). All patterns accessed by a single access code will have the same final route, either the MTS network or overflow tone.

Note 1: Rates and charges as specified in Section A112.12.12.A.1 for equipment is required.

(T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.12 Optional Service Features (Cont'd)

D. Automatic Route Selection - Basic (ARS-B) (Cont'd)

1. General (Cont'd)

- c. For calls using FX, WATS, CCSA off-net or IC access line facilities, the routing may be based on a Number Plan Area (NPA) and limited to specified central office codes within the NPA as designated by the customer. This is referred to as Foreign Area Discrete Translation.
- d. Automatic Route Selection - Basic is a call routing capability and, therefore, all codes must be in a route for selection. Code blocking is not provided by this feature.

2. *Terms and Conditions*

- a. Automatic Route Selection - Basic is provided only in association with ESSX Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities to ESSX systems which are served by the same such equipment.
- b. Preferred routes and alternate routing patterns will be specified by the customer.
- c. All rates and charges specified for Automatic Route Selection - Basic are in addition to the rates and charges for associated facilities.
- d. The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- e. A single rate per facility will apply regardless of the number of patterns having access to the facility. The monthly rate specified is applicable to each facility available to the patterns.
- f. Patterns without final route to the DDD Network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgment of the Company, provide an adequate level of service so as to avoid interfering with the service of others or to prevent others from making or receiving calls over their telephone service.
- g. Where a route is used in one pattern (pattern reached by one access code) only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes). One translation per pattern may be provided subject to the appropriate charges as specified in paragraph E.1.d. following. Where central office code translation is required for more than one Numbering Plan Area (NPA) per single facility group or route, rates and charges as specified should be applied for each NPA translated.
- h. A group of patterns may have either the DDD Network as a final route or overflow tone. A combination of both within the same pattern group is not permitted. Dial "9" may be used as an access code only if the patterns accessed have the DDD Network as a final route.
- i. Where toll restricted main station lines have access to ARS-Basic patterns with final route to the DDD Network, apply charges and rates as specified for patterns with overflow to tone in lieu of the charge and rate specified for final route to the DDD Network.

E. Station Message Detail Recording

1. General

- a. Station Message Detail Recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, FX, WATS, CCSA, Interexchange Carrier access lines and or the MTS Network (Toll) and at the customer's option on certain incoming calls² that the attendant extends to a station or the line within the customer's ESSX group.
- b. The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by; the customer for Station Message Detail Recording.

2. **Terms and Conditions**

- a. Station Message Detail Recording (SMDR) may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.

Note 1: Each WATS band is treated as a separate route.

Note 2: SMDR detail on incoming calls does not include the calling number or the type of facility used.

(T)

A112.12.12 Optional Service Features (Cont'd)

E. Station Message Detail Recording (Cont'd)

2. Terms and Conditions (Cont'd)

- b. Station Message Detail Recording is not represented to be a provision of billing detail. Where tie line, Interexchange Carrier access line, and Foreign exchange facilities are involved all such call attempts, whether completed or not, will appear in the SMDR.
- c. Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The customer will be responsible for making the tape format compatible with his data processing equipment.
- d. A magnetic tape will be provided by the Company on each occasion Station Message Detail Recording is furnished to the customer. The tape becomes the property of the customer on a "no exchange" basis and the tape may not be returned to the Company for reuse.
- e. Station Message details may be provided on all facilities subscribed for the customer including the Network (Toll), but will not include intercom calls originated by station users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the toll network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g. messages received collect or billed to third number will be on the tape file in addition to DDD messages originated by the station user.
- f. Directory Assistance (DA) call detail may be provided on the magnetic tape (customer option).

G. Subsidiary System Arrangements

1. Subsidiary System

A Subsidiary System of an ESSX system is a customer-provided equipment system which is furnished PBX trunks from the central office serving the customer's ESSX system and which is connected by tie lines to that ESSX system.

A Subsidiary System Arrangement provides station numbers which are in sequence with the main station line numbers of the customers' ESSX system to the stations of one or more subsidiary systems.

2. *Terms and Conditions*

- a. Subsidiary System Arrangement (SSA) station numbers are provided by the same central office equipment and facilities which furnish Direct-Inward-Dialing (DID) service and will only be furnished where adequate DID facilities are available in the central office serving the customer's system and where the subsidiary system is properly equipped for DID service.
- b. The PBX trunks of the subsidiary system are provided at the same rates and charges as specified for such trunks furnished from the central office serving the customer's ESSX system. In addition, foreign central office or foreign exchange mileage charges are applicable to those trunks when the subsidiary system is located outside the area of that serving central office.
- c. The same rates and charges as specified for DID service apply for SSA station numbers. Where more than one subsidiary system is involved, each subsidiary system is considered a separate service and the count of station numbers furnished will commence anew at each such system for the purpose of determining the applicable rates and charges.
- d. Tie lines connecting the ESSX and subsidiary systems are provided at the same rates and charges as specified for ESSX tie line terminals in a customer-provided equipment system.
- e. SSA station numbers are furnished subject to the condition that all inward and outward local and toll network calling by subsidiary system stations be via the central office serving the customer's ESSX system.

(T)

G. Subsidiary System Arrangements (Cont'd)

2. *Terms and Conditions* (Cont'd)

(T)

e. (Cont'd)

- (1) Where subsidiary system station's outward local and toll network calls are placed via tie lines and the network access registers of the ESSX system, the charges for such calls are identified and billed as primary directory listing calls of the ESSX system.
 - (2) Where subsidiary system station's outward local and toll network calls are placed via PBX trunks, the charges for such calls are identified as primary directory listing calls of the subsidiary system except as specified in f. following.
- f. At the option of the customer, identification of outgoing toll network calls by SSA station number will be provided at the same rates and charges as specified for Identified-Outward-Dialing (IOD) service subject to the following conditions.
- (1) The identification of outgoing toll calls by SSA station number will only be provided on calls routes via PBX trunks.
 - (2) Where more than one subsidiary system is arranged for the identification of outgoing toll calls by SSA station number, each system shall be considered a separate service and the count of connecting channels which serve as IOD trunks will commence anew at each system for the purpose of determining the applicable rates and charges.
- g. The ESSX subsidiary system arrangement is provided solely for the furnishing of SSA station numbers to subsidiary systems for local and toll network and intercommunication calling and does not provide any of the basic optional service features of ESSX service to stations of the subsidiary systems.

3. Rates and Charges

K. Station Message Detail Recording - Premises

(Obsoleted 10-05-92, Type 4) Not available for new subscribers to this feature. Subsequent additions, deletions, and/or rearrangements to an existing system under contract are permitted, subject to the capacity of the central office from which it is provided. Customers paying obsoleted contract rates and charges may continue to do so until their contract period expires or they subscribe to the new restructured Station Message Detail Recording (SMDR) feature located in Section A12. and new Station Message Detail - Premises function located in Section A32. Customers paying obsoleted month-to-month rates and charges may do so until they subscribe as detailed above or until May 1, 1994, at which time they must subscribe to the new offerings. (T)

Note 1: This feature provides for access only to customer provided features which may require customer provided compatible terminal equipment.

Note 2: In addition, apply rates and charges applicable for 3.A Code Calling and Auxiliary Signal Equipment as specified in Section A14. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.12 Optional Service Features (Cont'd)

K. Station Message Detail Recording - Premises (Cont'd)

1. General

- a. Station Message Detail Recording - Premises (SMDR-P) is an arrangement to provide a record, by main station line number, of originating traffic routing over local lines, tie lines, WATS, Interexchange Carrier access lines and/or the toll network.
- b. The station message detail will include the calling main station line number, the called number, connect time and date, call duration, facility used, disconnect time, digits outpulsed by switch, and end of dialing. SMDR-P data provided to customers using the ETS feature will include incoming facility identification, outgoing facility used, midnight passed, prefix digits, interLATA carrier, ARS, ARS-D, or ARS-B pattern group, and call event code where these features are *available via guidebook*. (T)
- c. Station Message Detail Recording - Premises (SMDR-P) is designed for either an ETS or non-ETS ESSX service customer.
- d. The SMDR-P data may be delivered as Dial-In/Dial-Out, asynchronous or synchronous, or Direct Output. In Dial-In/Dial-Out asynchronous, the data may be delivered to a customer's collection device via DDD facilities or an ESSX service main station line. The delivery can be initiated by a customer call or can be initiated by the application processor software as specified by the customer. In Dial-In/Dial-Out synchronous, the data may be delivered to a customer's collection device over DDD facilities or an ESSX service main station line. The two methods of delivery are Direct File Transfer and Remote Job Entry.
Direct Output is similar to Dial-In/Dial-Out in delivery modes. The Direct Output requires a dedicated port on the application processor and a dedicated modem. Also, a two or four wire facility will be required.
- e. The SMDR-P data provided will be delivered to the customer as raw data.
- f. It should be noted that this feature was shown as part of the ETS A12.5.3.D. which has been deleted.

2. *Terms and Conditions*

- a. The Station Message Detail Recording - Premises (SMDR-P) may be offered on ESSX service main station lines of customers where facilities and technology permit. (T)
- b. Customer provided premises equipment is required. Channel charges specified in the Private Line *Guidebook* for a Voice Grade Local Channel also may apply. (T)
- c. Station message detail will be provided through the use of telephone central office equipment that will interface with the appropriate type line connections as specified by the customer.
- d. During collection or distribution of the customer's SMDR-P data, if data is destroyed, the Company shall not be liable, directly or indirectly, for damages, unless caused by the negligence of the Company in failing to maintain reasonable standards of maintenance and inspection and to exercise reasonable supervision.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.15 ESSX Customer Administration Service (Cont'd)

A. General (Cont'd)

6. An ECAS customer can schedule changes (individual or bulk) for completion by the next day or for a future day. Additionally priority changes may be requested and the changes completed the same day subject to ***Terms and Conditions*** in A112.12.15. (T)
7. Definitions pertaining to ECAS/ESSX features are specified in Section A12.1.3. (T)
8. The ECAS feature allows the customer to perform the following transactions from the customer provided terminal:
 - a. Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are:
 - (1) Line Status (Active/Inactive)¹
 - (2) CAT Code
 - (3) Ringing Cycles for CFDA
 - (4) Call Pickup Group: The call pickup group to which a station is assigned can be changed on a per station basis.
 - (5) The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.
 - (6) Speed Call Group: The Speed Call group to which a station is assigned can be changed on a per-station basis.
 - (7) Series Completion "Hunt To" Telephone Number (TN): The "hunt to" TN assigned to a station line can be changed on a per station basis²
 - (8) Station TN Rearrangement: Swap TNs from one location to another
 - (9) Facility Restriction Levels
 - (10) Access Line Class of Service
 - (11) Add/Change Customer Entered Listing Information
 - b. Activate/deactivate the following features and service options on a single station line basis:
 - (1) Automatic Callback Calling
 - (2) Call Forwarding Busy Line
 - (3) Call Forwarding Don't Answer
 - (4) Call Forwarding Variable
 - (5) Call Forwarding Variable - Outside
 - (6) Call Hold
 - (7) Call Pickup
 - (8) Call Waiting Originating
 - (9) Call Waiting Terminating

Note 1: Station lines made inactive using ECAS will continue to be billed at the ***guidebook*** rates. (T)

Note 2: All numbers in series completion hunt must be in the same common block.

A112.12.15 ESSX Customer Administration Service (Cont'd)

A. General (Cont'd)

8. (Cont'd)

- e. Initial training of the customer for up to four (4) system managers in the use this feature is included at the time the feature is put into service. Communication counselor training is a prerequisite to the ECAS system manager training. Any customer training or subsequent assistance necessary after the initial establishment of the feature is at the option of the customer and a Subsequent Training Charge applies per hour where such training is provided.

B. *Terms and Conditions*

1. ECAS is provided only with ESSX systems served from a No. 1/1A ESS central office and is furnished subject to the availability of facilities.
2. Customers equipped for ECAS must order via a service order¹ ECAS changeable features in groups of five (5) at the rates specified in A112.12.15.
3. Non-ECAS changeable features with the exception of Three-Way Calling, Consultation Hold, Call Transfer All Calls will be added subject to the specifications and rates in A112.12.8, A112.12.9 or A112.12.10 as appropriate. Three-Way Calling, Consultation Hold, Call Transfer All Calls is offered in groups of five (5) at the rates specified in A112.12.15.
4. Features for ECAS exempt station lines must be requested via a Service Order¹ and added by the Company. Rates and Charges for the features specified in A112.12.8, A112.12.9 or A112.12.10 apply as appropriate.
5. The customer provided ECAS terminal equipment requires an ESSX main station line. Rates and charges in A112.12.8, A112.12.9 and A112.12.10 apply as appropriate.
6. ECAS changes must be entered prior to a time to be designated by the Company to be completed as priority changes or by the next day as requested by the customer.
7. An ECAS customer cannot activate features in excess of the quantity that has been ordered from the Company. The customer will receive an indication when 100% utilization of a feature is reached. Additional quantities of features may be added subject to *Terms and Conditions*. (T)
8. Contractual obligations and End User Common Line charges will be billed to the location where originally installed and will not transfer with a station number rearrangement.
9. If the Company is requested to load ECAS changeable features for new ESSX/ECAS customers, Installation Charges specified in A12.1.15 applies per ECAS feature added.
10. The following types of lines will be restricted from Station TN Rearrangement capability. Service options and feature change capabilities will still be available except on lines assigned to multiline hunt groups.
 - Station lines assigned to multiline hunt groups
 - Attendant Lines
 - Any ESSX line which as a special hardware configuration (e.g., ground start lines and lines having SCAN points or signal distribution points)
 - Manual lines (e.g., station lines with full originating and/or terminating restrictions)
11. ECAS functions performed by the Company at the customer's request subsequent to the initial installation will be subject to the nonrecurring charge specified in A12.1.15.

Note 1: Appropriate Service Charges specified in Section A4. will apply.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

A112.12.15 ESSX Customer Administration Service (Cont'd)

B. Terms and Conditions (Cont'd)

(T)

- 12. The Per System charges specified in A112.12.15.C. apply when a feature is initially activated in a Common Block.
- 13. Any required changes in customer provided equipment as a result of growth, desired enhancements or technological advancement, will be the responsibility of the ECAS customer. Compatibility with customer provided station terminal equipment is not guaranteed.
- 14. The ECAS customer is responsible for assigning and maintaining a record of station feature assignments. The ECAS customer also agrees to provide the Company with a central point of contact for inquiries and/or trouble reports involving station features.
- 15. ECAS customers will be responsible for initiating a Service Order to correct any information pertaining to Directory Listings that changed as a result of an ECAS TN swap. The Secondary Service Charge specified in Section A4. applies.

C. Rates and Charges

1. ECAS Capability

ESSX-L customers will have the option of paying for ECAS on either a per system or a per line basis. Customers choosing to pay on a per system or a per line basis will be subject to the rates specified in A112.12.15.C. The installation charge will be reapplied if an ESSX-L customer changes their ECAS billing arrangement subsequent to the installation of the ECAS feature.

a. New/Existing Service

(1) ESSX-Small

	ESSX Term Option				Month
	To Month	36 Months	60 Months	84 Months

2. ECAS Changeable Features

- a. The following ECAS Changeable features must be ordered in groups of five (5). The rates apply for ESSX-S, ESSX-M, and ESSX-L customers. Per system feature establishment charges apply per initial activation of that feature per Common Equipment Group.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

3. Digital ESSX service - 85 subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the rates and charges outlined in this Section until such a time that the Term Payment Plan associated with the Common Equipment expires. Upon expiration of the Term Payment Plan associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)
4. Digital ESSX service - 85 subscribers under a Term Payment Plan will be allowed to maintain their Digital ESSX service - 85 until the expiration date associated with the Common Equipment of their contract. Upon expiration of the Term Payment Plan associated with the Common Equipment, the Company reserves the right to convert all or part of the subscriber's account to the month-to-month rates and charges as outlined in this *Guidebook*. (T)
5. Digital ESSX service - 85 subscribers under a Term Payment Plan will have until 02/28/96 to exercise the recast option and subscribe to Digital ESSX service - Vintage II, as described in A112.28, for a Term Payment Plan of not greater than 36 months in length. Digital ESSX service - 85 subscribers under a month-to-month payment option will have until 02/28/96 to convert to a Digital ESSX service - Vintage II Term Payment Plan of not greater than 36 months in length.
6. Conversions from ESSX-1 service to Digital ESSX service - 85 will not be allowed under this *Guidebook*. (T)
7. Existing Digital ESSX service - 85 subscribers who are under a Term Payment Plan may add a new Secondary Location (SLA) or move an existing SLA of their existing service. (T)

Vintaged 07-10-89, Type 4. This service is not offered for new installations after 07-10-89, except where a letter of intent was signed prior to 07-10-89 and the service is to be installed on or before 01-10-90. Subsequent additions to an existing system, under contract, are permitted. Additionally, a system under contract may be moved to another *Company* location within the State of Georgia. Customers paying vintaged rates and charges will continue to pay vintaged rates and charges until their payment period expires. (T)

A112.13.1 General

- A. Digital ESSX Service is furnished from Digital Central Office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features:
 1. Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of a Digital ESSX system.
 2. Intercommunication calls between stations of the same Digital ESSX system.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.1 General (Cont'd)

- A. (Cont'd)
3. Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by this Company will be provided this identification.
 4. Common recorded announcement interception of calls to unassigned station numbers.
 5. Basic Station Line Hunting.
 6. Touch-Tone Service
- B. Digital ESSX service will be furnished in three categories, based on the size of the subscriber's system.
1. Digital ESSX service-S will serve systems with 1-200 Main Station Lines.
 2. Digital ESSX service-M will serve systems with 201-600 Main Station Lines.
 3. Digital ESSX service-L will serve systems with more than 600 Main Station Lines.
- C. A Digital ESSX service system may be comprised of the following components:
- Common Equipment¹
 - Network Access¹
 - Main Station Lines¹
 - Terminating Arrangements
 - Features

The Common Equipment and Terminating Arrangements will be at the rates and charges as specified in A112.13.7. The Network Access Limiter and Network Access Registers will be at the rates and charges as specified in A12.13.7. (T)

Main Station Line rates will consist of the intercom charge and the appropriate wire center line charge. These charges will be located in A112.13.8, A112.13.9, and A112.13.10 for Digital ESSX service-S, Digital ESSX service-M and Digital ESSX service-L respectively.

Digital ESSX service Line and System Features will be grouped as follows:

- A Line Features Grouped
- A Line Features Individual
- B Line Features
- Optional Service Features

A Line Features will be offered on a grouped basis to Digital ESSX service subscribers who have selected an ESSX service Term Payment Plan of 36, 60 or 84 months. Subscribers selecting the month to month payment option will be offered the Group A Line features on an individual basis only.

B Line Features and Optional System Features will be offered to Digital ESSX service subscriber under all payment plan options subject to the specific requirements within each arrangement.

A Digital ESSX service-S subscriber will select A & B Features in A112.13.8. (T)

A Digital ESSX service-M subscriber will select A & B Features in A112.13.9. (T)

A Digital ESSX service-L subscriber will select A & B Features in A112.13.10. (T)

Optional Service Features will be offered to all Digital ESSX service subscribers in A112.13.11. (T)

Note 1: Every system will include these components.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.2 Terms and Conditions

- A. Digital ESSX service is furnished subject to the availability of facilities and features from Digital Central Office equipment, located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and or major relocations of Digital ESSX systems are subject to the same *terms and conditions* as initial installations.(T)
- B. Certain Auxiliary Services are available on an individual main station line basis and are subject to the capabilities of the serving central office.(T)
- C. Optional Service Features as listed in A112.13.11 include Attendant Features and Auxiliary Attendant Features. These features may require customer provided compatible terminal equipment.
- D. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- E. All Digital ESSX main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with Digital ESSX service.
- F. Tie lines for direct connections between a basic Digital ESSX system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in A13 of this *Guidebook* and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the Digital ESSX system to or from other systems (Digital ESSX or non-Digital ESSX) provided such connections to the exchange or long distance network are only made at one system at a time.(T)
- G. Where completion of incoming and outgoing local and long distance calls through a Digital ESSX system is furnished to or from main station lines of a separate Digital ESSX system in another exchange or a non-Digital ESSX system in the same or different exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems except for Subsidiary System Arrangements furnished under the *terms and conditions* specified in A112.13.11.(T)
- 1. Rates and charges as specified in Section B3. of the Private Line *Guidebook* apply to miscellaneous lines furnished with unique access codes (trunk level access) except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.13.11.(T)
- 2. Digital ESSX optional feature charges as outlined in Section A112.13.8, 9 and 10 apply for each trunk terminated main station line as offered in Section A112.13.7, as appropriate.(T)
- H. Dormitory service is furnished in accordance with the *terms and conditions* for Dormitory Communications Service specified in Section A13.(T)
- I. A system may not be provided for Intercommunication (standalone) service only. Access to the Exchange Network must be provided.
- J. A mixture of Flat Rate and Message Rate Service will not be allowed within a single customer system.
- K. Suspension of Service
With the exception of Network Access Registers, suspension of Digital ESSX Service is not permitted.
- L. A twelve month minimum service period shall be required if the subscriber's system is a Digital ESSX-M or L. The normal minimum service period as specified in Section A2. will be applicable to Digital ESSX-S systems.(T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.2 Terms and Conditions (Cont'd)

- M. Touch-Tone service will be furnished subject to the *terms and conditions*, specified in Section A13. The rates and charges for Digital ESSX station lines include the provision of Touch-Tone service. Rates and charges for Touch-Tone service as specified in Section A13. do not apply for the provision of Touch-Tone service to Digital ESSX Service. (T)
- N. Directory Listings will be furnished subject to the rates, *terms and conditions* specified in Section A6. (T)
- O. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of a Digital ESSX system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the Network Access Register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charges as specified in Section A4. apply per Network Access Register affected. (T)
- P. Service charges, as specified in Section A4., apply to all Digital ESSX systems except as provided in A112.13.5. (T)
- Q. Digital ESSX installation charges are due on initial installation or subsequent additions unless deferred over a predetermined period of time as specified in Section A122. (T)
- R. If the Digital ESSX subscriber elects a Message Rate Service option, Message Rate Service usage charges specified in Section A3. are applicable on calls to locations outside the subscriber's Digital ESSX system in addition to rates and charges in this and other *guidebook* sections for Digital ESSX service and other associated services. Usage charges are not applicable on calls originated and terminated within the same Digital ESSX system. (T)
- S. Digital ESSX main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It¹ Services (e.g., 900 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 10XXX and 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted. The term "Public Announcement Services" as used herein are those services which, in the judgment of the Company, furnish advertised recorded announcement messages to the general public (e.g., time, weather, sport scores and stock market reports). The Public Announcement Service central office codes will be determined by the Company and will be commonly denied access in the central office serving the Digital ESSX systems subscribing to this service arrangement.
 1. At the time a Code Restriction arrangement is installed, the Digital ESSX system will be arranged for the Code Restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the appropriate Service Charges as specified for a change in line termination apply per main station line affected except that no such charges apply when the code restriction arrangement is disconnected in its entirety.
 2. Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
 3. Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for in the normal manner.

Note 1: Dial-It is a service of AT&T.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.2 Terms and Conditions (Cont'd)

- T. The list of Wire Center Density Classifications by Exchange as specified in A112.12.14 shall be used in determining the density of a particular serving wire center. Whenever the density group designation of a serving wire center is reclassified, Digital ESSX service customers are subject to the following: (T)
 1. Charges for main station lines under contract via the ESSX service Term Payment Plan shall not change for the remainder of the contract.
 2. Upon expiration of the existing contract, the new rate will be based on the wire center density group as reclassified.
 3. Charges for main station lines not under contract (Month-to-Month), including minimum service period shall be adjusted if the reclassification would result in a lower rate.
- U. Customer Station Rearrangement (CSR) may be provided with Digital ESSX service where facilities permit. Rates and charges for CSR will be developed on an individual case basis and will be based on the estimated costs to provide this service.
- V. The first system established per customer within a Local Calling Area must consist of a minimum of one (1) Main Station Line.
- W. Digital ESSX service subscribers with rates and charges applicable out of the Vintaged Section A112.13 may subscribe to features found in A112.28 but not offered in A112.13. (T)
- X. Digital ESSX service subscribers with rates and charges applicable out of the Vintaged Section A112.13 wishing to add or change features must apply nonrecurring charges as indicated in A112.28. (T)

A112.13.3 Definitions

WIRE CENTER DENSITY

Refers to the average number of main stations (MS) and equivalent main stations (EQ. MS) per square mile in the serving wire center area. Wire Center Density Groups are designated "A" and "B" with group "A" having the least density and group "B" having the highest.

OTHER DEFINITIONS - SEE A12.13.3

A112.13.4 Intercept of Calls to Unassigned Station Lines

- A. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- B. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all Digital ESSX service systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.5 Conversion

A. Replacement of Central Office Equipment

1. The rates and charges in this and other *guidebook* sections for Digital ESSX Service and the associated features and services will continue to apply to Digital ESSX subscribers served at a location that is converted through no desire or fault of the subscriber to Digital central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the Digital central office equipment, the billing for that customer's system will be converted to charges appropriate for the central office equipment providing his service. (T)

B. Conversion of ESSX Service¹ to Digital ESSX Service

1. When a customer whose ESSX Service elects to convert to Digital ESSX Service, installation and service connection charges do not apply to Common Equipment, in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided each of the following conditions are met:
 - a. The Customer's system must continue to be served by the same central office equipment or the customer is moved to other central office equipment at the Company's instance.
 - b. There must be no interruption of service, and
 - c. There are no moves, changes or additions in existing station lines, terminating arrangements, or optional features requested by the customer.
2. ESSX Services converting to Digital ESSX Service must elect one of the following options:
 - a. Month to Month Payment Plan
 - b. ESSX Term Payment Plan of 36, 60 or 84 months¹
3. Where the customer elects an ESSX Term Payment Plan of 36, 60 or 84 months and wishes to add to his system the following shall apply:
 - a. Such additions shall be made within a scheduled period after the conversion at the rates and charges in this and other *guidebook* sections for Digital ESSX Service and the associated Features and Services. (T)
4. Where an ESSX customer converts to Digital ESSX the service establishment charge shall not apply if the same customer category, (Small, Medium or Large) is maintained. If the ESSX customer has a current ESSX Term Payment Plan, an ESSX Term Payment Plan for Digital ESSX must be selected that is equal to or longer than the unexpired portion of the current plan.
5. Where an ESSX customer converts to Digital ESSX and changes customer category (Small to Medium, Medium to Large, Small to Large) the Service Establishment Charge applied shall be equal to the appropriate Digital ESSX Service Establishment Charge (of the category the customer is going to) less the ESSX Service Establishment (of the category the customer is coming from) Charge.
6. Where an ESSX customer converts to Digital ESSX and downgrades from Large to Medium, Medium to Small, or Large to Small, no service charge shall apply. Termination charges will apply as specified in A112.13.6. (T)
7. Where a Digital ESSX customer converts to ESSX such conversions shall also be made in accordance with paragraphs 3, 4, 5 & 6 preceding.

Note 1: Denotes ESSX-1 Service or ESSX-S, M, L Service.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.6 Payment Schedules

A. General

1. Digital ESSX service is offered as follows.
 - a. The contract periods are:
 - Month to Month Payment Plan
 - 36 Month ESSX Term Payment Plan
 - 60 Month ESSX Term Payment Plan
 - 84 Month ESSX Term Payment Plan
 - b. Items that may be placed under the ESSX Term Payment Plan¹
 - (1) Main Station Lines
 - (2) Extension Station Lines
 - (3) Line Feature Options
 - (4) Optional Service Features
 - (5) System Common Equipment
 - (6) Terminating Arrangements
2. The monthly rate for Digital ESSX service is dependent upon the payment period selected by the customer.
3. The monthly rate for Digital ESSX service under the ESSX Term Payment Plan for the periods of 36, 60 or 84 months is not subject to Company initiated rate increases.
4. Digital ESSX-S service will be offered to subscribers having 15 -200 main station lines under any of the payment options offered.
 - a. A Digital ESSX-S subscriber may elect a 36, 60 or 84 month payment period for any portion or all of the total system size with the remainder to be under the month to month payment option.
 - (1) Group A and B line features may be added under any of the payment plan options.
 - (2) Auxiliary Attendant Features, or Optional Service Features may be added under any of the payment plans provided that they are not added for a payment period of shorter duration than that associated with the Digital ESSX common equipment.
 - b. A Digital ESSX-S subscriber may add station lines up to 220 Lines, and:
 - (1) Add those lines and associated Group "A" and "B" line features at the month-to-month rate specified for Digital ESSX-S or,
 - (2) Resubscribe the entire system under the payment periods offered for Digital ESSX-M.¹
 - (3) There will be no termination liability.
 - (4) Digital ESSX-S Subscribers will be liable for the difference in service establishment charges between Digital ESSX-S and Digital ESSX-M.

Note 1: *Terms and conditions* concerning the ESSX Term Payment Plan are specified in Section A122.

(T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.6 Payment Schedules (Cont'd)

A. General (Cont'd)

5. Digital ESSX-M service will be offered to subscribers with 201-600 main station lines under month to month, 36 months, 60 months or 84 month payment options.
 - a. A Digital ESSX-M subscriber may elect a 36, 60 or 84 month contract period for any portion or all the total system size with the remainder to be under the month to month payment option.
 - (1) Group "A" and "B" line features may be added under any of the payment plan options.
 - (2) Auxiliary Attendant Features, or Optional service features may be added under any of the payment plans provided that they are not added for a payment period of shorter duration than the contract period associated with the Digital ESSX common equipment.
 - b. A Digital ESSX-M subscriber may add station lines up to the 660 Lines and:
 - (1) Add those lines and associated Group "A" and "B" features at the month to month rate specified for Digital ESSX-M or,
 - (2) Resubscribe the entire system under the payment periods as offered for Digital ESSX-L.
 - (3) There will be no termination liability.
 - (4) Digital ESSX-M Subscribers will be liable for the difference in service establishment charges between Digital ESSX-M and Digital ESSX-L.
6. Digital ESSX-L service will be offered to subscribers with more than 600 main station lines under month to month, 36 month, 60 month and 84 month payment options.
 - a. A Digital ESSX-L subscriber may elect a 36, 60 or 84 month payment period for any portion or all of his total system size with the remainder to be under the month to month payment option.
 - (1) Group "A" and "B" line features may be added under any of the payment plan options.
 - (2) Auxiliary Attendant Features, or Optional service features may be added under any of the payment plans provided that they are not added for a contract period of shorter duration than the remaining contract period associated with the Digital ESSX common equipment.

B. Expiration of Contract Period

1. Digital ESSX-S, M and L customers must upon the expiration of their contract:
 - a. Select a new contract period as offered in the current *guidebook* or, (T)
 - b. Revert to the current *guidebook* rates for the month to month payment option. (T)
2. A Digital ESSX S, M or L customer whose service is provided under rates, *terms and conditions* found in Section A112. may at any time during his selected payment period resubscribe for an equal or longer payment period at the current rates subject to the following conditions: (T)
 - a. No credit will be given for payments made during the formerly selected period. Nonrecurring charges will not be reapplied.
 - b. The new payment period begins with the billing date following the date the new payment period is requested.
 - c. No termination charge applies for the former payment period.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.6 Payment Schedules (Cont'd)

B. Expiration of Contract Period (Cont'd)

2. (Cont'd)

- d. A Secondary Service Charge as specified in Section A4. will apply. (T)
- e. Subscriber has not previously exercised the option to resubscribe after the effective date of this *guidebook*. (T)
- 3. A Digital ESSX S, M or L customer whose service is provided under rates, *terms and conditions* found in Section A112., may at any time during his selected payment period resubscribe for a payment period, shorter in length than the time remaining in the existing service agreement, subject to the following conditions: (T)
 - a. No credit will be given for payments made during the formerly selected period. However, nonrecurring charges will not be reapplied.
 - b. The new payment period begins with the date requested.
 - c. A termination charge applies to the former payment period.
 - d. A Secondary Service Charge as specified in Section A4. will apply. (T)

C. Termination Liability

The Termination Liability applicable to Digital ESSX service is dependent upon the payment period selected by the customer. Termination charges for the optional payment periods are as follows:

1. Month-to-Month Payment Plan

- a. Digital ESSX-S Customers - No Termination Liability will be applicable.
- b. Digital ESSX-M Customers
 - (1) Within 12 months of date of installation - If a customer's Main Station Line count falls below 75% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
 - (2) Beyond 12 months of date of installation - No Termination Liability will be applicable.
- c. Digital ESSX-L Customers
 - (1) Within 12 months of date of installation - If a customer's main station line count falls below 90% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
 - (2) Beyond 12 months of date of installation - No Termination Liability will be applicable.

2. ESSX Term Payment Plan Option

- a. Digital ESSX-S, M and L customers that contract a portion of their system under the ESSX Term Payment Plan Option are subject to the following liability charges.
 - (1) Main Station Lines under contract - 90% of the remaining amount due for each main station line disconnected after the customer's total main station line count falls below 90% of the total main station lines initially installed or of the annually adjusted total.
 - (2) All non-contracted items - No Termination Liability will be applicable.

- 3. When a subscriber's Digital ESSX service under a Term Payment Plan is disconnected prior to the expiration of the selected service period as a result of a subscriber requested change to one of the separately *available* services listed following, termination charges will not apply when: (T)
 - a. the completed service period is 12 months, and
 - b. the service period of the new arrangement for the separately *available* service equals or exceeds the remaining service period of the disconnected service, and (T)
 - c. the service orders to install the separately *available* service and disconnect the existing service are related together and there is no lapse in service between installation of the separately *available* service and disconnection of the existing service, and (T)
 - d. the service orders are for the same subscriber at the same location.

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.7 Common Rates and Charges

A. General

1. Station Lines

- a. The rates and charges specified herein for main station lines provide for main station line components. The main station line consists of all facilities including intercommunication outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.
- b. The rates and charges specified herein for main station and extension station lines are applicable to each main station location and extension station location respectively to which a customer-provided instrument can be connected.
- c. (DELETED)
- d. End User charges as specified in the End User Common Access Service Section of FCC Tariff Number 61 apply as appropriate.
- e. Rates for the main station lines of Digital ESSX-S, M and L customers will be based on the following criteria:
 - (1) Main Station Group Size
 - (2) Wire Center Density Group
 - (3) Distance from the Serving Central Office
 - (4) The type of payment plan selected by the customer.
- f. The total main station group size will consist of main station lines and attendant access lines for all locations served by the same Digital ESSX system.
- g. Wire center density is based on the number of main stations and equivalent main stations per square mile served by that wire center.
- h. Wire center density groups are designated "A" and "B" with group "A" having the least density and "B" have the most density.

"A"	0 - 1200 Mains and equivalents/square mile
"B"	Over 1200 Mains and equivalents/square mile
- i. The distance band will be based on airline mileage from the serving central office to the Network Interface Location at the customer's premises.
 - (1) Where main stations are in a foreign exchange (FX) or a foreign central office (FCO) area the distance band will be calculated from the FX or the FCO to the Network Interface Location serving those main stations.
 - (2) Systems with more than one location served by the same Digital ESSX control group will calculate the distance band per location.
- j. In a different central office serving area of a multi-office exchange:
 - (1) The rate of Digital ESSX Service in a FX or FCO area is the monthly rate for the Digital ESSX service desired, plus a FX or FCO mileage charge as specified in Section A9. (T)

A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.13 Digital ESSX Service - 85 (Cont'd)

A112.13.7 Common Rates and Charges (Cont'd)

A. General (Cont'd)

1. Station Lines (Cont'd)

j. In a different central office serving area of a multi-office exchange: (Cont'd)

(2) When Digital ESSX main station lines are connected by facilities which are routed between two or more central offices in the same exchange, the foreign central office mileage charge is calculated separately on an airline basis between the ESS central office from which the Digital ESSX system is served and the central office from which exchange service normally would be rendered.

k. Rates, charges, liabilities and additional *terms and conditions*, if applicable, may be developed on an individual basis for main station lines exceeding four (4) airline miles from the serving central office. (T)

l. Exchange Access

(1) Exchange Access is provided by means of Network Access Registers.

(2) Presubscription of a Carrier of Preference is specified in Section A13 of the Interstate Access Service Tariff.

2. Subsequent Training

After the initial installation of the subscriber's system, subsequent training will be provided at the charges indicated in A12.20.8.D. (T)

B. Nonrecurring Charges

1. The following nonrecurring charges for service are in addition to any applicable service connection, move, change and installation charges provided for in other sections of this *Guidebook*. (T)

- a. Service Establishment Charge (See A12.13.7)
- b. Feature Establishment Charges (See A12.13.7)
- c. Installation Charges (See A12.13.7)
- d. Service Connection Charges (See A12.13.7)
