A5. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

A5.3 Charges for Unusual Installations (Cont'd)

A5.3.3 Temporary Installation

When an installation is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber may be required to bear all or a portion of the cost of such installation, over and above all other regular charges for service.

A5.4 Special Service Arrangements

A5.4.1 General

- A. Where practicable, special arrangements, not otherwise provided for in this Guidebook, are furnished if they are in accord with authorized service offerings and if they are to be used in connection with and not detrimental to any of the services furnished by the Company. Charges for such special service arrangements will be based on the estimated costs of furnishing them, such costs to consist of the following items to the extent they are applicable: (T)
1. Cost of maintenance.
 2. Cost of operation.
 3. Depreciation on the estimated cost installed of the facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
 4. Administration and taxes on the basis of reasonable average charges for these items.
 5. Any other specific items of expense associated with the particular situation.
 6. A reasonable amount, computed on the estimated cost installed of the facilities provided, for return and contingencies.
- B. Estimated cost installed as mentioned in A5.4.A.3. and A5.4.A.6. preceding includes cost of equipment and materials specifically provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, right-of-way and any other investment items.

A5.4.2 Reserved for Future Use

A5.5 Reserved for Future Use

A5.6 Contract Service Arrangements

A5.6.1 General

- A. When economically practicable, customer specific contract service arrangements may be furnished in lieu of existing Guidebook offerings provided there is reasonable potential for uneconomic bypass of the Company's services. Uneconomic bypass occurs when an alternative service arrangement is utilized, in lieu of Company services, at prices below the Company's rates but above the Company's incremental costs.
- B. Rates, Charges, Terms and additional conditions, if applicable, for the contract service arrangements will be developed on an individual case basis, and will include all relevant costs, plus an appropriate level of contribution. For customers with service locations in multiple rate groups within the State, the Contract Service Arrangement may include a composite statewide rate based on a weighted average of the applicable business line rates for the rate groups in which the lines are located.
- C. Unless otherwise specified, the terms and conditions for contract service arrangements are in addition to the applicable terms, conditions and rates specified in other sections of this Guidebook.
