A2. GENERAL TERMS AND CONDITIONS

A2.3 Establishment and Furnishing of Service (Cont'd)

A2.3.1 Availability of Facilities (Cont'd)

- C. When excessive costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the terms and conditions as set forth in Section A5., "Charges Applicable Under Special Conditions", except as otherwise specified.

A2.3.2 Flat and Message¹ Rate Service

A. (DELETED)

(D)

An applicant at a business location may select either flat or message rate service when both types are available in the exchange. However, a combination of both flat and message rate service will not be furnished to the same subscriber at the same business location. Different applicants at the same business location, even in the same office, may each subscribe to a different type of service as long as each applicant has a different account and the applicants do not share a communication or other key-type system. The exceptions to the mixing restrictions for business locations are listed following:

1. To hotel and hospital premises where flat rate service may be furnished for the exclusive use of the hotel or hospital management in addition to the message rate service ordinarily provided in guests' or patients' rooms and lobbies. Flat rate service may be provided in guest or patient rooms, in lieu of message rate service, in addition to flat rate service for management use in hospitals and hotels. Regardless of the type of service the hotel or hospital subscribes to, a guest or patient using the station as a place of residence may subscribe individually to flat rate or message¹ rate service.
2. To premises where pay telephones may properly be located.
3. To a flat rate Foreign Exchange line which is switched at a location outside the local calling area of the normal serving exchange.
4. To premises where Back-Up Line service may be located with flat rate, measured rate or message rate primary line service.
5. To any combination of Classroom Communication Service lines with flat rate administrative lines at a school teaching grades kindergarten through twelve or public libraries including the state library and archives, regional libraries and public libraries in any county, city or town.
6. To premises where toll terminals are located.
7. To premises where flat rate service is used for voice transmission and usage service is used for transmission of medical information only, for contingency or temporary use during service outages of the main communication system only, for lines to the subscriber's own automatic attendant or voice mail system only, for fax machines only, or for computer data communications only, and the usage lines are not part of the primary voice system at that location. It shall also apply for premises where usage service is used for voice transmission and flat rate service is used for the same purposes stated above.
8. To premises where flat rate service is used for voice transmission and the customer subscribes to a service for which the Company requires usage rated network access such as, but not limited to, MegaLink service and LightGate service. It shall also apply for premises where usage rate service is used for voice transmission and the customer subscribes to a service for which the Company requires flat rate service network access.

A2.3.3 Party Line Service

When party line service is furnished to a subscriber, the Company may in consideration of the rate at which service is furnished, establish and furnish service to one other subscriber in the case of two-party line service, and to three other subscribers in the case of four-party line service. The Company reserves the right to cancel any party line service, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

A2.3.4 Rotary Line Service

Any individual lines arranged for rotary, level hunting or similar service which allows an incoming call to a line that is called to be completed over another line by means of central office equipment will be classed as rotary lines. Lines used as trunks to PBX, Centrex Type Services or other switching systems are not classed as rotary lines. Rotary main service is restricted to a single premises.

Refer to Section A3. for the rotary line rate.

(DELETED) (D)
- (Obsoleted 10/13/2002 Type 4 for Business customers. GCC is not available for new installations or transfers of service to new locations. Business customers may add lines at present locations.)
1. Business customers who subscribe to Georgia Community Calling (GCC) have an expanded service area included in their local calling area. Calling points within the basic and expanded service areas for GCC are specified in A3.6.1. (C)
 2. This offering is limited to where facilities and equipment are available.
 3. A message rate charge as specified in A103.7.4.D applies for calls to points within the basic service area. The monthly rate for a GCC exchange access line includes a usage allowance of seventy-five messages for business. Inward only trunks and NARs are excluded from the allowance.¹
 4. (DELETED) (D)
 5. Message rate charges will not apply to calls to the Company Business Office, Repair service, Directory Assistance or for Emergency 911 service. Regular Directory Assistance charges as specified in A3.13 will apply.
 6. Usage charges as specified in A103.7.4.D apply for calls to points in the expanded service area and are based on airline mileage between rate centers. The methodology for determining the airline mileage is described in A18.5.
 7. Long distance rates as specified in A18.3 apply for calls to points in the expanded service area on which the Company quotes time and charges.
 8. All regular guidebook charges will apply as appropriate except for those exceptions listed herein.
 9. Any combination of message rate and flat rate service will generally not be allowed on the same premises with the exception of GCC customers who subscribe to Deluxe Optional Extended Area Service (OEAS). Additional exceptions are also described in A2.3.2.
 10. GCC subscribers are regularly billed monthly in advance. Usage charges, including messages in excess of the monthly allowance, are billed monthly in arrears. Any portion of the monthly message allowance not used in one month may not be credited to the subscriber's account for any other month of service.
 11. GCC will not be provided in conjunction with Foreign Exchange or Foreign Central Office Service.
 12. Where a subscriber contracts for two or more individual GCC lines on the same premises, and agrees to group billing, the number of monthly message allowances per exchange access line will be multiplied by the number of lines. Messages in excess of this product will be billed at the additional local message charge as specified in A103.7.4. All exchange access lines included for such allowances must have the same central office designation and must be located at the same end user premises.
 13. (DELETED) (D)
 14. The compensation rate found in Section E2. of the Access Service Tariff will apply for Interexchange Carriers, Resellers, AOS providers, and all other entities who complete unauthorized intraLATA calls.
 15. Operator assisted charges as specified in A3.14.1 apply to operator handled calls in addition to the usage charges specified.
 16. Hotel, Motel and Hospital customers have the option of selecting GCC with the expanded calling area or without the expanded calling area.

A142. OBSOLETE SERVICE OFFERINGS - INTEGRATED SERVICES DIGITAL NETWORK (ISDN)

A142.2 ISDN – Residence Service (IRS)

(Obsoleted 02-17-97 Type 4) Service rates in this section are available for existing lines at existing locations only. Not available for new service, additions to existing service or moves of existing service to new location.

(DELETED)

(D)

Obsolescence Rules

1. Inward activity for ISDN - Residence Service in this Section will not be allowed except that features may be added or deleted on existing lines at their current location.
2. ISDN - Residence Service subscribers upon moving to a new location must either (1) convert to the Flat Rate Threshold Pricing Plan for ISDN - Residence Service; or (2) subscribe to an alternate service.
3. Nonrecurring charges will not apply for conversion of ISDN - Residence Service subscribers to the Flat Rate Threshold Pricing Plan.
4. Existing ISDN - Residence Service subscribers will reference this Section for Interoffice Circuits and Optional Features.

Effective December 15, 2015, ISDN – Residence Service (IRS) is obsoleted. IRS will not be available for new service, additions or changes to existing service, or moves of existing service to a new location. Customers may retain the service for existing IRS lines at existing locations.

A142.2.1 General

- A.** Effective February 17, 1997, ISDN - Residence Service (IRS) will be offered only under a Flat Rate Threshold Pricing Plan. This plan allows up to 12,000 minutes of use each month per DSL at the flat rate. Minutes of use rates will apply for all usage above the 12,000 minutes per DSL threshold. A minimum service period of three months will be required on the Flat Rate Threshold Pricing Plan. Termination Charges as defined herein will apply if the subscriber terminates or disconnects the service prior to fulfilling the three months period.
- B.** ISDN - Residence Service (IRS) is a new intraLATA group of offerings supported by the Integrated Services Digital Network (ISDN) architecture. IRS supports simultaneous transmission of voice, data, and packet services on the same exchange access line. Calling/Called Number Delivery, Calling Name Delivery, and Call Hold are included with this service where facilities permit.
- C.** IRS provides a new method of access to the telephone network called Basic Rate Access. Basic Rate Access will consist of the ability to access up to two 64 Kbps (B) channels and one 16 Kbps (D) channel at the service delivery point.
- D.** IRS is provided through Basic Rate Access. Features are available to increase the capability of the Bearer Alternative Service and may be subscribed to on an as-needed basis.
- E.** B channel circuit switched services offer up to 64 Kbps intra-office transmission of voice or data. This option permits the customer to utilize either circuit voice or data transmission paths on a per call selection basis. Transmission on the B channel will be circuit switched at 64 Kbps within the switch and/or equipped facilities between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 Kbps. This option includes one directory number (DN).
- F.** IRS will consist of the following components:
 - Basic Rate Digital Subscriber Line (DSL) Access
 - Two B channels CSV/CSD and one D channel Low Speed Packet Switched Data. Optional B channel packet services may be purchased in place of the B channel CSV/CSD. A maximum of two simultaneous B channels can be in use per Basic Rate Access.
 - Minimum of one and maximum of eight User Profiles per Basic Rate Digital Subscriber Line (DSL) Access Arrangement.
