AIS is available only where facilities permit.

Note 6: Installation charge applicable for reservation of numbers where DID service has not previously been established.

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.56 Hot Line Service

A13.56.1 General

- A. Hot Line Service is an automatic dialing feature which provides the customer with the ability to automatically be connected with another predetermined telephone line in the circuit switched network. When the customer's telephone instrument goes off-hook, a switched connection is set-up without any further customer action. The predetermined telephone number is selected by the customer at the time service is established and can be changed only via service order.
- B. Hot Line Service may be used only in connection with individual line service.
- C. Hot Line Service is furnished only from central offices which have been arranged to provide this service and is provided subject to the availability of facilities.

A13.56.2 Rates and Charges

B. Optional Features (Cont'd)

4. Alternate Answering

This feature automatically transfers incoming or intercom calls that encounter a don't answer condition after a preselected number of rings (from 1 to 7) on the subscribing PCP line to an alternate designated line within the PCP system. Because of technical limitations, the actual number of ring cycles before a don't answer call is transferred may vary slightly from the preset value. The number to which calls are transferred and the approximate number of ring cycles before a don't answer call is transferred are specified by the customer at the time the feature is ordered. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Changes to the feature must be requested from the Company by service order.

A112.17.3 Rates and Charges

The following rates and charges are for PCP service only and are in addition to the applicable service charges, monthly rates and nonrecurring charges for exchange access lines and other services or equipment with which they are associated.

A113.57 Warm Line Service¹

A113.57.1 General

- A. Warm Line Service provides a business customer who has basic exchange line service with time delayed automatic dialing capability. When the customer goes off-hook and initiates dialing within the time delay period (0-20 seconds), the call proceeds normally as dialed. If dialing does not commence within the time delay period, a predetermined telephone number is automatically dialed. The predetermined telephone number and time delay period are selected by the customer at the time service is established and can be changed only via service order.
- B. Warm Line Service may be used only in connection with individual line service.
- C. Warm Line Service is furnished only from central offices which have been arranged to provide this service and is provided subject to the availability of facilities.

A113.57.2 Rates and Charges
