Different applicants at the same business location, even in the same office, may each subscribe to a different type of service as long as each applicant has a different account and the applicants do not share a communication or other key-type system. The exceptions to the mixing restrictions for business locations are listed following:

It shall also apply for premises where usage service is used for voice transmission and flat rate service is used for the same purposes stated above.

It shall also apply for premises where usage rate service is used for voice transmission and the customer subscribes to a service for which the Company requires flat rate service network access.

A2.3.3 Party Line Service

When party line service is furnished to a subscriber, the Company may in consideration of the rate at which service is furnished, establish and furnish service to one other subscriber in the case of two-party line service, and to three other subscribers in the case of four-party line service. Any costs due to rearrangement of equipment caused by suspension of a portion of a service will be borne by the customer.
- E. When equipment has been ordered for the specific needs of a subscriber and the installation thereof is unduly delayed by or at the request of the subscriber, appropriate charges apply for such equipment for the period of the delay.
- F. When a subscriber requests a change in location of all or a part of the facilities covered by his application for service or requests for additions, rearrangements or modifications of his existing service and equipment prior to completion of the work involved, he is required to pay the difference between the total costs and expenses incurred by the Company in completing the work involved and that which would have been incurred had the final location of the facilities been specified initially.

The subscriber is responsible for the provision and maintenance, at his expense, of all suitable space and floor arrangements, including but not limited to adequate lighting and temperature control, required on his premises for communication facilities provided by the Company in connection with services furnished to the subscriber by the Company. Any power outlets and commercial power required for the operation of such facilities shall be provided by, and at the expense of, the subscriber.
- B. All operating required for the use of communications facilities provided by the Company at the subscriber's premises will be performed at the expense of the subscriber, and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.

A2.3.10 Provision and Ownership of Equipment and Facilities

- B. Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except as expressly provided in this Guidebook or upon the written consent of the Company.

A2.3 Establishment and Furnishing of Service (Cont'd)

A2.3.10 Provision and Ownership of Equipment and Facilities (Cont'd)

- C. Equipment and facilities furnished by the Company shall, upon termination of service from any cause whatsoever, be returned to it in good condition, reasonable wear and tear thereof expected.
- D. The provision of equipment or service will be governed by the technical limitations of the equipment as required by our service criteria and consistent with reasonable cost.

A2.3.11 Provision and Ownership of Directories

No binder, holder, insert or auxiliary cover or attachment of any kind not furnished by the Company shall be attached to the directories owned by the Company, except that this prohibition shall not apply to a subscriber-provided binder, holder, insert, or auxiliary cover which is not so attached as to impede reference to essential service information or otherwise interferes with service.

(T)

A2.3.12 Provision and Ownership of Telephone Numbers

Telephone numbers are the property of the Company and are assigned to the service furnished the subscriber. The subscriber has no property right to the telephone number or any other call number designation associated with services furnished by the Company, and no right to the continuance of service through any particular central office. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the subscriber, whenever the Company deems it necessary to do so in the conduct of its business.

A2.3.13 Maintenance and Repairs

All ordinary expense of maintenance and repairs, unless otherwise specified in this Guidebook, is borne by the Company. In case of damage, loss, theft, or destruction of any of the Company's property due to the negligence or willful act of the subscriber or other persons authorized to use the service, and not due to ordinary wear and tear or causes beyond the control of the subscriber, the subscriber shall be required to pay the expense incurred by the Company in connection with the replacement of the property damaged, lost, stolen, or destroyed, or the expense incurred in restoring it to its original condition.

A2.3.14 Company Facilities at Hazardous or Inaccessible Locations

Where new or additional service is to be established at a location that would involve undue hazards, or where accessibility is impracticable, to employees of the Company, the subscriber may be required to install and maintain the Company's equipment and facilities in a manner satisfactory to the Company, any remuneration to be based on the conditions involved.

Where new or additional service is to be established at a location that has a hazardous electrical environment (e.g., an electric power substation or generating plant or a high voltage transmission tower, switching or distribution location), the customer must have high voltage isolation equipment installed at such premises whenever hazardous voltages of 1000V peak-asymmetrical or greater exist prior to the installation of ordered service. If the customer is aware that its premises are located where such hazardous voltages exist, the customer must notify the Company of this fact at the time its order for service is placed. The Company makes high voltage isolation equipment that complies with the Institute of Electrical and Electronics Engineers ("IEEE") Standards 487 and 1590 available to its customer under Special Assembly.

The customer may elect to provide high voltage protection by means other than Special Assembly and if customer so elects, the equipment used must meet the technical requirements specified in IEEE Standards 487 and 1590 and the customer shall submit its proposed design and equipment specifications to the Company for approval prior to installation of service ordered. Where the customer has elected to select, install, use and maintain its own high voltage protection equipment, the customer does so with the understanding that it is solely responsible for any interruption of service associated with its selection, installation, use or maintenance of the high voltage protection. Furthermore, the customer, its employees, agents, officers, directors, affiliates, successors and assigns agree to indemnify and hold the Company, its subsidiaries, affiliates and their collective employees, agents, officers, and directors harmless from all loss, liabilities, costs and expenses, including attorneys' fees and all costs of defense and settlement, resulting from interruption of service, damage to property, claims, demands, suits or actions of any nature whatsoever arising from the failure of the high voltage protection selected, installed, used or maintained by the customer.

The Company reserves the right to suspend any service it provides absent required high voltage protection until adequate protection is provided.

Standard intervals do not apply for service ordered where voltage isolation equipment is required and must be installed prior to installation of new or additional service ordered from the Company.

- A. The Subscriber is responsible for payment of all appropriate charges for completed calls, services, and equipment.  - 1. A charge of \$30.00 will apply whenever a check or draft presented for payment for service is not accepted by the institution on which it is written.
- F. When the service has been disconnected for nonpayment, the service agreement is considered to have been terminated. Reestablishment of service may be made only upon the execution of a new service agreement which is subject to the provisions of this Guidebook.
- G. In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for nonpayment of charges, or otherwise discontinued, terminated or interrupted, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for nonpayment of any such or other charges due and unpaid or for the violation of the provisions of this Guidebook; nor shall the failure to suspend or disconnect service for nonpayment of any past due account or accounts operate as a waiver or estoppel to suspend or disconnect service for nonpayment of such account or of any other past due account.

Further, the subscriber agrees to pay future bills and the installments by the date due. However, if a subscriber has received a notice of intent to disconnect, at any time prior to the time when the subscriber is once again current in his billings for service previously provided, if the subscriber makes toll calls exceeding \$10.00 in any thirty (30) day period, the Company shall have the right to immediately and without further notice, disconnect telephone service to that subscriber. Similarly, if the subscriber fails to make any agreed upon payment as set forth immediately preceding, the Company may disconnect service without further notice.

If, in the judgement of the Company, the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of a lawful interest rate. Suspension of the deferred payment option will not affect customers who have executed a deferred payment agreement prior to the effective date of such suspension. The deferred charges (including calculated interest) will be prorated on a monthly basis over the selected deferral period length.

A2. GENERAL TERMS AND CONDITIONS (T)

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plans For Contract Services

A. General

1. The *terms and conditions* specified herein are applicable to specific services as indicated in each service's respective section of this *Guidebook*. (T)
2. Services furnished under Payment Plans for Contract Services (PPCS) are subject to all general *terms and conditions* applicable to the provision of service by the Company as stated elsewhere in this *Guidebook* except as noted herein. (T)
3. The PPCS are payment plans which allow customers to pay fixed or variable rates for services provided over variable contractual payment periods. A specific monthly rate applies for the duration of each period.
Payment periods for services provided under PPCS will be described in the services' specific *guidebook* section. The following is an example of payment periods offered. (T)
 - a. Payment Plan A - payment periods may be selected from 24 months to 48 months in length.
 - b. Payment Plan B - payment periods may be selected from 49 months to 72 months in length.
 - c. Payment Plan C - payment periods may be selected from 73 months to 96 months in length.
4. When the customer extends service beyond the longest service period offered, then rates for the longest available service period will apply.
5. When the customer orders service to be provided under a PPCS arrangement, the customer must designate to the Company the payment plan and the service period desired, e.g. Payment Plan B and sixty months.

B. Application of Rates and Charges

1. Rates stabilized under a PPCS arrangement are exempt from Company-initiated increases, however, decreases for any rate element will automatically flow through to the customer. Effective with this *Guidebook*, customers under a PPCS arrangement will be billed the lower of their existing PPCS rates or the current PPCS rates for their service arrangement. (T)
2. When customers renew or change the length of their payment period, the rates applicable for the new period are those currently in effect at the time of the renewal or change in the length of the payment period. A service charge will not be applicable for such renewals or changes to the payment period.
3. Recurring rates and installation, termination, service establishment, Service Connection and other nonrecurring charges apply according to the appropriate schedules for services offered as associated items to Contracted Services, and are filed elsewhere in this *Guidebook*. (T)
4. Customer requests for inside moves of service will not affect the contract period.
5. A change in jurisdiction will not constitute a disconnect of service provided the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period, whichever is greater, and provided the new PPCS arrangement is for the same customer at the same location for the same capacity service.

C. Termination Liability Charge

1. In the event that all or any part of a service is disconnected at a customer's request prior to expiration of any selected payment period of greater than one month's duration, the customer will be required to pay a termination charge as stated in that service's section of this *Guidebook*. (T)

D. Additions

1. Additions of services or rate elements, e.g. ports, new local channels, interoffice channels, etc., must be under a new PPCS arrangement at rates and charges as specified in B. preceding.
2. Termination charges for premature disconnection of added contractual services will apply as set forth under Disconnects as stated in E. following.

A2. GENERAL TERMS AND CONDITIONS

(T)

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plans For Contract Services (Cont'd)

E. Disconnects

1. When a service or rate element, included under a PPCS arrangement, is disconnected prior to expiration of the selected service period, Termination Liability Charges apply as set forth in the rate *terms and conditions* in this *Guidebook* for such service. Remaining services or rate elements will not be affected by such disconnections. (T)
2. When a *guidebook* service under a PPCS arrangement is disconnected prior to the expiration of a selected service period as a result of a change of jurisdiction Termination Liability Charges will not apply when: (T)
 - the completed service period is twelve months, or twenty-five percent of the length of the originally selected PPCS service period, whichever is greater, and
 - the service orders to install the new service and disconnect the old service are related together and there is no lapse in service between installation of the new service and disconnection of the existing service, and
 - the service orders are for the same customer at the same location.

F. Moves of Equipment

1. The appropriate nonrecurring charges for inside moves for items associated with contract services as specified in this and other *Guidebooks* are applicable. This type movement will not affect the contract period. (T)
2. Customer requests for moves of service(s) under PPCS, other than inside moves, will be subject to the conditions stated in M. following.

G. Requests for Changes in Length of Optional Payment Period

1. Subsequent to the establishment of a contract with a PPCS period, and prior to the completion of that period, the existing payment period may be replaced by:
 - a. A currently offered payment period at the current rates, with a length equal to or longer than the time remaining in the existing service agreement, subject to the following conditions:
 - (1) No credit will be given for payments made during the formerly selected period.
 - (2) The new payment period begins with the new PPCS effective date.
 - (3) No termination charge applies for the remaining portion of the former payment period.
 - (4) Nonrecurring charges will not be reapplied.
 - (5) A service charge will not apply.
 - b. A currently offered payment period at the current rates, with a length shorter than the time remaining in the existing service agreement, subject to the following conditions:
 - (1) No credit will be given for payments made during the formerly selected period.
 - (2) The new payment period begins with the new PPCS effective date.
 - (3) A termination charge applies for the remaining portion of former payment period.
 - (4) Nonrecurring charges will not be reapplied.
 - (5) A service charge will not apply.

H. Renewal Options

1. The customer has the following renewal options:
 - a. Prior to completion of the current payment period, any period available under the PPCS may be selected at the rates in effect for new customers at the time of the renewal. The customer will be charged the current rate for the newly selected payment period, commencing the day following completion of the prior payment period.
 - b. Service may be continued on a month-to-month basis at the current rate for the one-month payment period, unless otherwise specified in this *Guidebook*. The customer has no additional service commitment and, consequently, when service is terminated will not be subject to any termination charge. The one month service will be subject to Company-initiated rate adjustments. (T)

A2. GENERAL TERMS AND CONDITIONS

(T)

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plans For Contract Services (Cont'd)

H. Renewal Options (Cont'd)

1. The customer has the following renewal options: (Cont'd)
 - c. If the customer does not elect an additional payment period or does not request discontinuance of service, service will be continued at the monthly rate currently in effect for the month-to-month payment rate, under the terms specified in b. preceding.
 - d. Upon expiration, Letters of Election executed on or after October 1, 2012, shall automatically renew for an additional one-year term under the same rates, terms and conditions in effect under the original Letter of Election, unless the Subscriber or the Company provides written notice of its intent not to renew the Letter of Election at least sixty (60) days prior to the expiration of the initial term or any subsequent additional one-year term.
2. Service charges are not applicable for services renewed under the PPCS. Any new rate elements added at the time of renewal will be subject to all appropriate service charges and other nonrecurring charges.
3. The Company may discontinue or change any or all renewal options.
4. When a customer renews a PPCS arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
5. Recognition of previous service will be given to customers who renew an existing PPCS arrangement, for all associated rate elements at the same location(s), provided that the length of the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period of the original PPCS arrangement, whichever is greater.
6. Recognition of previous service will be given to month-to-month customers with a service date of January 1, 1994 or later who convert to a PPCS arrangement, provided the minimum service period has been met. For customers whose service date is January 1, 1994 or earlier, recognition will be given for the previous service back to January 1, 1994. For customers whose service date is later than January 1, 1994, recognition for the previous service will be given back to the actual service date.
7. To determine the appropriate PPCS for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of the months of the proposed service period of the PPCS arrangement. For example, a PPCS arrangement for a thirty-six month service period under Payment Plan A is renewed for twenty-four months with no changes at the end of the thirty-six month period. The sum of months for the completed and proposed service periods would equal sixty months and would be billed under Payment Plan B. Another example is a Month-to-Month customer, in service for fifteen months, who wishes to convert to a sixty month PPCS arrangement with no changes. The combined service period of the Month-to-Month arrangement and the PPCS arrangement is equal to seventy-five months, which would be billed under Payment Plan C.

(T)

I. Transfer of Service

1. Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer as specified in this Guidebook. This does not constitute a disconnect of service or a discontinuance of an existing PPCS arrangement. The new customer will be subject to all provisions and equipment configurations currently in effect for the previous customer. *Terms and conditions* concerning transfer of service between subscribers as stated in other sections of this Guidebook also apply under PPCS.

(T)

J. Deferred Payment

1. Payment of nonrecurring charges for services with contract payment plans which have been approved for deferred payments may be deferred over the length of the customer's payment period or a shorter period (in annual increments) subject to the conditions specified in the Guidebook for the contracted service as well as the conditions following:
 - a. The charges to be deferred must be either the Installation, Service Establishment and/or other nonrecurring charges (including the applicable interest).
 - b. The payment period must be longer than one month.
 - c. The minimum amount deferrable shall be the minimum amount set forth in the specific guidebook for the contracted service.

J. Deferred Payment (Cont'd)

1. (Cont'd)

- d. Interest on deferred amounts will be calculated at the rate set forth in the deferred payment agreement concurred in by both the customer and the Company. The interest rate shall be reviewed periodically by the Company. If the Company determines that the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of an allowed interest rate specified by law. Suspension of the deferred payment option will not affect customers with existing deferred payment agreements that were made prior to the effective date of such suspension.
- e. The deferred charges (including interest) will be prorated on a monthly basis over the length of the selected deferral period.
- f. All deferred charges must be paid in full when the customer:
 - (1) Disconnects service, for the system or service prior to expiration of the deferral period.
 - (2) Fails to pay a monthly amount within thirty days of its due date.
- g. The customer may prepay only the total outstanding deferred charges at any time during the selected deferral period. The customer will be given a credit for the amount of unearned interest. The customer may not prepay less than the total of the outstanding deferred charges.

K. Prepayment

The customer may prepay the total outstanding recurring monthly rates for contracted services, approved for prepayment, for payment periods greater than one month. The prepayment of monthly rates in no way constitutes a purchase and the Company retains full ownership of all services covered by the prepayment. The following conditions apply:

- 1. Customers who prepay six months or more will have an allowance applied. The interest rate credit for prepayments shall be based on market interest rates that will change periodically, and will be calculated by the Company.
- 2. Monthly rates for all services covered by a single Letter of Election must be prepaid. Monthly rates must be prepaid for services added subsequently and placed on the same Letter of Election (i.e., customer-elected coterminous option) with a prepaid service.
- 3. Customers who change the length of a prepaid payment period will be credited any unused portion of the prepayment, subject to termination charges as specified preceding and/or in the *Guidebook* for the contracted service. (T)
- 4. Customers who prematurely disconnect will have termination or cancellation charges deducted from the prepaid amount and any balance credited to their account.

L. Exception To Termination Liability For State, County, And Municipal Governments

(See A2.4.8)

(T)

M. Moves of Service(s) under PPCS

Termination Liability Charges will not apply to customer requests for moves of service under PPCS from one location to another location subject to the following:

- 1. The original and new premises locations must be in Company territory within the same state.
- 2. The move from the original location to the new location must be completed within thirty days of the original premises disconnect date.
- 3. No lapse in billing will occur for moves of service under PPCS.
- 4. Orders to disconnect the existing service and reestablish it at the new location must be related.
- 5. Any rate elements from the original location that are not reestablished at the new location will be subject to applicable Termination Liability charges.
- 6. Any additions made at the new location will be treated as coterminous additions in accordance with D. preceding.

8. All appropriate nonrecurring charges for moves of service as specified in this *Guidebook* will apply. (T)
9. Moves of service that involve a change of jurisdiction, e.g., intraLATA to intrastate, intrastate to interstate, etc., will not be treated as a disconnect of service with regard to Termination Liability Charge application. The customer must subscribe to a payment arrangement offered in the appropriate *service publication* which is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining contract period, whichever is greater. (T)

By undertaking any transaction with the Company on behalf of a customer, the agent warrants and represents to the Company that the agent has been duly authorized by the customer to act on behalf of the customer in the transaction undertaken. In the event that the customer denies that the agent has acted within the scope of its authority, the agent shall assume responsibility for such transactions and will indemnify and hold the Company harmless from any and all damages, losses, or claims resulting from such dispute or denial by the customer, except for any damages, losses, or claims resulting from the Company's willful misconduct, and will pay any and all applicable rates and charges for services rendered or equipment supplied by the Company because of the agent's actions. The foregoing in no way absolves the customer from liability arising from transactions performed by the agent on behalf of the customer.

A2.14.4 Proof of Authority

- A. When the Company in the reasonable exercise of the Company's discretion believes it appropriate, the Company may request proof of the authority of any party claiming to be the agent of the customer prior to acting upon such request. Failure of the Company to request such proof shall not, however, limit or otherwise affect the agent's responsibility or liability set forth herein, nor shall such a failure constitute a waiver of the Company's right to request such proof at any time in the future.
