### A3. BASIC LOCAL EXCHANGE SERVICE

#### A3.1 General

- A. Basic local exchange service as offered in this Guidebook, is comprised of exchange access lines defined as follows:  
Exchange Access Line - The serving central office line equipment and all the Company plant facilities up to the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the guidebook use offering selected by the customer.
- B. Exchange access lines are subject to the nonrecurring charges specified in Section A4.
- C. Rates for basic local exchange service are related to total exchange access lines and PBX trunks in the local calling area.
- D. Base Rate Areas, Locality Rate Areas and Exchange Service Areas for each exchange are identified on maps.
- E. The rates for service and equipment not specifically shown in this section are presented in other sections of this Guidebook.
- F. Rates for business basic local exchange service and residence PBX trunk service include Touch-Tone dialing capability which facilitates the origination of telephone calls using instruments equipped for tone-type address signaling. (Effective 5/1/2005, rotary-dial is not available for additions, new installations or transfers of service).

#### A3.4 Systematic Regrouping

- A. An exchange will be classified from one group to another immediately following either occurrence as specified in 1. or 2. following:
  - 1. When the number of exchange access lines and PBX trunks in the local calling area of the exchange averaged for the end of any twelve (12) consecutive months, falls into a different rate group from that currently in effect.
  - 2. When the local calling area of an exchange is revised as a result of a change of extended area service and the number of exchange access lines and PBX trunks in the revised local calling area falls into a different rate group than that in which the exchange is currently classified.

#### A3.5 Reclassification of Service

- A. In order to provide equitable treatment between customers and to proceed with the elimination of party *line* service; when the number of customers connected reaches **(1) on a two-party line or (2)** or less **on** a four-party line, the Company may, thirty days after written notice to the customer, reclassify the service to *individual line* service and apply the *individual line* rate. In cases of unusual hardship the party *line* service may be retained at the request of the customer. (C)
- B. Party *line* service is not offered for new service. Existing party *line* subscribers whose service is scheduled for conversion to central office equipment not designed for party *line* service will be notified as early as practical and will be regraded to individual line service on or before the date the service is converted. (C)

A joint user is a person, firm or corporation, whose use of a subscriber's business service is not contemplated under the terms outlined above, but who, subject to the consent of the subscriber and the terms and conditions specified in this Guidebook, is privileged to use the subscriber's service. To facilitate this use of the service, each joint user is allowed one listing in the alphabetical section of the *Company's Listing Information System* without extra charge. Nothing herein shall be construed as bestowing any contractual right upon the joint user. Joint user service is a condition of the agreement between the Company and principal subscriber, and the Company shall not, under any circumstances, assume any obligation to the joint user. (T)
- B. Joint user service is permitted in connection with the following:

  - 2. Commercial PBX flat rate or message rate service
  - 3. Hotel PBX Service
- C. Where service is furnished at a concession rate to the subscriber of the exchange service, joint user service will not be provided unless the proposed joint user would himself be entitled to service at a concession rate, if he was an exchange service subscriber. No concession is allowed from the regular rates for joint user service.
- D. An application for joint user service and facilities furnished in connection therewith must be arranged for by the subscriber to the exchange service, who is responsible for the payment of all charges incurred thereunder, regardless of whether such charges are associated with his usage or that of any of his joint users. Additional listings and miscellaneous services are furnished, with the consent of the subscriber, for use of the joint user, at regular rates.
- E. Charges for joint user service date from the day the Company's information records are posted and are payable monthly in advance. The minimum chargeable period for joint user service is the life of the directory issue (*where available*) in which the listing first appears, not to exceed one year from the effective date of the listing. In the event the joint user listing does not appear in the directory, the minimum chargeable period is for one month. (T)
- F. Charges for joint user service are automatically discontinued upon termination of the exchange service or may be discontinued upon request of the subscriber if the joint user no longer utilizes any of the subscriber's service and provided that the minimum chargeable period for joint user service has elapsed.
- G. Joint users of a customer's service must have the option of obtaining service directly from the Company.
- H. The total charges for exchange service allocated by the subscriber among the subscriber and his joint users shall not exceed the charges of the Company to the subscriber as set forth in this Guidebook. (T)

#### A3.47 AT&T Business Local Calling (BLC) (Cont'd)

##### A3.47.2 Terms and Conditions (Cont'd)

- M.** Customer may purchase a Business Local Calling 1-19 line package for a 12-month term via a written or oral agreement. The agreement will automatically renew in successive 12-month terms unless, prior to expiration of the then-existing term, either party (Customer or Company) provides the other 30-days written notice that it does not wish to renew the agreement.<sup>1</sup> Absent such notification, a new 12-month agreement subject to the same rates, terms and conditions will commence on the expiration date of the then-current term. (C)

When Business Local Calling 1-19 line package is purchased as part of a Bundle Offer (i.e. an offer for the purchase of multiple AT&T services at a discount), the customer agrees to maintain the Bundle Offer for the applicable term. The price of the Business Local Calling service portion of the Bundle is valid until one of the following events occurs, at which time the price will increase: (1) the term of the Bundle Offer expires; (2) customer changes the Business Local Calling service address; or (3) customer drops one of the AT&T services in the Bundle Offer. If the customer is no longer eligible for the Bundle Offer price for the reasons described above, but has time remaining on the Bundle Offer term, the price for the Business Local Calling service will increase to the then-existing 12-month term price.

- N.** Applicable local, state, and federal charges; taxes; 911 fees; and the End User Common Line charge are in addition to the line option prices listed in A3.47.6 following.
- O.** If a customer does not commit to a new term plan or an alternate plan by the last date of the existing term plan, the customer's existing AT&T Business Local Calling plan, discounts and rates will terminate and the customer's services will be billed at the Month-to-Month rates as shown in A3.47.6 following. AT&T Business Local Calling will also be available on a Month-to-Month basis without having previously subscribed to a term plan. Month-to-Month prices will be subject to Company-initiated price adjustments.
- P.** Lines subscribed to an AT&T Business Local Calling account cannot be placed on customer-initiated temporary suspension.
- Q.** AT&T Business Local Calling customers with 1-19 initial line agreements who request a move or transfer of their telephone service either within the same premises or from one premises to another will be charged a one-time \$20 per line Service Order and Line Connection Charge for a maximum of 4 lines per move or transfer. This charge will not apply if the move or transfer is within 90 days of term expiration and the customer agrees to a new AT&T Business Local Calling agreement.
- R.** AT&T Business Local Calling customers may combine subscribed lines from any state where an AT&T ILEC provides local service and where the AT&T Business Local Calling plan is available, into one agreement to meet line commitments.
- S.** Each business customer may establish multiple 1-19 line AT&T Business Local Calling agreements, but will be limited to a maximum of one 20+ line AT&T Business Local Calling agreement at any given time. The total number of lines subscribed under all agreement types combined is limited to 35,000 per customer. This limitation applies for each business customer across all states where an AT&T ILEC provides local service and where AT&T Business Local Calling is also available.

**Note 1:** Effective June 19, 2019, new 12-month terms will no longer automatically renew. 12-month term plans existing prior to June 19, 2019 will auto-renew until such time as either party (Customer or Company) provides the other 30-days written notice that it does not wish to renew the agreement, per paragraph A3.47.2 M. (N)

Except as provided for elsewhere in this Guidebook, customers who terminate their entire AT&T Business Local Calling account prior to completion of the selected term period are subject to termination charges. Termination charges are equal to \$15.00 times the number of months remaining on the term commitment times the number of lines subscribed to on the initial order.
- B. Termination charges are not applicable if, during the term period: (M)
1. the customer converts to another Company access and local usage plan with a term equal to or greater than the time remaining on the AT&T Business Local Calling term plan. For 20+ line agreements the customer must also establish a new line commitment at least as great as in their initial subscription in order to qualify; or (M)
  2. the customer converts to an upgraded technology with the Company (e.g., network access lines to PBX Trunks, Centrex, ISDN) and commits to a term equal to or greater than the time remaining on the AT&T Business Local Calling term plan. It is at the Company's sole determination whether a product change satisfies the requirements for waiver of the termination liability under this clause; or (M)
  3. the customer chooses to terminate their agreement and to negotiate a new AT&T Business Local Calling agreement with a term period greater than the time remaining on the existing AT&T Business Local Calling agreement. The new service agreement will be based on the term plan rates in effect at the time of establishing the new agreement. For 20+ line agreements the customer must also establish a new line commitment at least as great as in their initial subscription in order to qualify. (M)
  4. An AT&T ILEC Service (referred to as the "Terminated ILEC Service") provided under an AT&T Business Local Calling Agreement is migrated to a qualifying AT&T Business Voice over IP (BVoIP) Service or to a qualifying AT&T Mobility Service (referred to collectively as the "Replacement Service"), then the Early Termination Charge associated with the Terminated ILEC Service will be waived provided: (N)
    - a. the Terminated ILEC Service has been installed at the Customer site for no fewer than 3 months; (N)
    - b. the Term of the Replacement Service agreement is equal to or greater than the remaining term for the Terminated ILEC Service; (N)
    - c. the Replacement Service is installed or available at the same Customer sites as the Terminated ILEC Service; (N)
    - d. the Replacement Service is contracted for in the same relative quantity(ies) as those Terminated ILEC Services being displaced; and (N)
    - e. activation of the Replacement Service at the Customer sites or for Customer use at such Customer Sites occurs within 90 days of termination of the ILEC Service at that site. (N)

It is at the Company's sole discretion whether a product change satisfies these requirements. (N)
- C. For customers who initially subscribe to 20+ lines: in any month during the term of an AT&T Business Local Calling agreement if the customer's total number of subscribed lines falls below 80% of the number of lines subscribed to on the agreement, then a shortfall adjustment charge will be applicable and will appear on the customer's bill for each of those months. This shortfall adjustment charge is equal to \$10.00 times the number of lines below the 80% requirement. (M)
