| Expected Effective Date: | 06/23/2025 |
| Descriptive Narrative: | <p>BellSouth Telecommunications, LLC d/b/a AT&T Georgia intends to retire copper facilities serving distribution area (DA) 2401D in the Woodstock (WDSTGACR) wire center in Woodstock, GA due to facilities damaged cause by a city road move of copper cable serving this DA. While AT&T Georgia technicians made repairs sufficient to sustain service to affected customers, the damage degraded the copper facilities to the extent that complete replacement would be necessary as a permanent solution.</p> <p>Rather than replace the copper facilities AT&T Georgia plans to migrate customers served by the copper facilities to existing Gigabit Passive Optical Network/Fiber-to-the-Premises (GPON/FTTP) and then retire the copper facilities.</p> |
