Expected Issue Date:	01/30/2026
Expected Effective Date:	01/30/2026
Descriptive Narrative:	<p>BellSouth Telecommunications, LLC d/b/a AT&T Georgia (AT&T Georgia) intends to retire copper facilities serving Distribution Area (DA) 120906 in the Roswell (RSWLGAMA) Wire Center in Roswell, GA due to damaged facilities of a Serving Area Interface (SAI) and a Video Ready Access Device (VRAD) serving this DA sustained during a car accident. While AT&T Georgia technicians made repairs sufficient to sustain service to affected customers, the damage degraded the copper facilities to the extent that complete replacement would be necessary as a permanent solution.</p> <p>Rather than replace the copper facilities AT&T Georgia plans to migrate customers served by the copper facilities to existing Gigabit Passive Optical Network/Fiber-to-the-Premises (GPON/FTTP) and then retire the copper facilities.</p>
