**2.2 Use, Abuse, Fraud and Unlawful Purposes**

**2.2.1 Use of Service**

The service is provided for use by the Customer and may be used by others, when so authorized by the Customer, providing that all such usage shall be subject to the provisions of this Guidebook.

Interstate IntraLATA Toll Services may be used for non-voice transmission on a two-point basis between points within the same LATA.

Telephone Company-provided local business exchange service may be used for the purpose of providing access to resold or shared Interstate IntraLATA Toll Services notwithstanding any tariff regulations respecting resale and sharing contained in Telephone Exchange Service Tariffs of the Telephone Company.

Interstate IntraLATA Toll Services may be used for non-voice transmission on a two-point basis between points within the same LATA, except in the BellSouth Region where this service may be used for non-voice to all points.

**2.2.2 Abuse and Fraudulent Use**

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

(A) the use of the services of the Telephone Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for service;

(B) the obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, Interstate IntraLATA Toll Services, by rearranging, tampering with, or making connection with any service components of the Telephone Company, or by any truck, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service;

(C) the use of the service of the Telephone Company for a call or calls, anonymous or otherwise, if in a manner reasonably expected to frighten, abuse, torment, or harass another;

(D) the use of profane or obscene language;

(E) the use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other Customers.

**2.2.3 Unlawful Purposes**

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

Manhole - Denotes an enclosure that provides access to subterranean Telephone Company facilities. Manholes are normally completely below ground or pavement and are accessed via a chimney or neck with a covered top. This term shall also include hand holes, which also provide physical access to subterranean Telephone Company facilities, but which are smaller than manholes and are recessed into the ground or pavement.

Mapping - Denotes the formatting of a particular SONET transmission signal to allow for the carrying of specific service levels such as 44.376 Mbps (DS3) or 1.544 Mbps (DS1).

(D)

(D)

Media Access Control (MAC) Address - A data link layer protocol that defines how packets are transmitted on a local area network.

Media Stimulated Mass Calling Events - Denotes the use of Switched Access Service for calls placed to 800, 900, POTS, etc. telephone numbers in response to television and radio advertising for which a substantial call volume is anticipated during a short period of time. Media stimulated mass calling is highly peaked and often used in conjunction with call counting services for public opinion polls, marketing surveys, entertainment, etc.

MegaLink Data Channel - Denotes a channel for the digital transmission of synchronous serial data at rates of 2.4, 4.8, 9.6 or 56 kbps.

Merger - Denotes the union of two or more interests or corporations.

Message - a "Call" as defined preceding.

Metallic Channel - Denotes a channel for the transmission of low speed varying signals at rates up to 30 baud.

Milliwatt (102 Type) Test Line - an arrangement in an end office which provides a 1004 Hz tone at 0 dBm0 for one-way transmission measurements towards the customer's premises from the Telephone Company end office.

Mobile Access Tandem Connection - Denotes a connection provided between a Mobile Carrier's Mobile Telephone Switching Office and a Telephone Company access tandem using mobile radio services provided in the Telephone Company's intrastate tariffs. Mobile Access Tandem Connections provide Mobile Carriers with access to the public switched network of the Telephone Company. Type 2A Connections are a form of Mobile Tandem Connections.

Mobile Carrier - Denotes carriers regulated under Parts 5, 22 or 90 of the F.C.C. Rules and Conditions, including Cellular Mobile Carriers, Radio Common Carriers and Specialized Mobile Radio Carriers.

Mobile End Office Connection - Denotes a connection provided between a Mobile Carrier's Mobile Telephone Switching Office and a Telephone Company end office using mobile radio services provided in the Telephone Company's intrastate tariffs. Mobile End Office Connections provide Mobile Carrier's with access to the public switched network of the Telephone Company. Type 1 Connections are a form of Mobile End Office Connections.
