**6.1 Conditions under which Service is Furnished**

**6.1.1 Conference Service is available in the Southwest and Midwest Regions and the following conditions apply:**

Conference Service

A. Definition

1. Conference Service is the furnishing of IIMTS for telecommunications among an originating station and two or more stations when at least one of the stations is in a different local service area than the originating station. In addition to the condition in Parts 2 and 3, preceding, the following apply:
2. Conference service is not available in connection with:
  - Radiotelephone units served through:
  - VHF Service stations of Other Participating Carriers, or
  - Air-Ground Service Stations

B. Conditions Under Which Service is Furnished

1. Service is furnished subject to the availability of the service components required.
2. All stations, on a conference connection may be so interconnected that each may communicate with all the others, or one station may be the transmitting station and all others receiving stations.
3. Service is offered to a specified person or station.
4. An operator, upon request, will attempt to arrange for the establishment of a conference call at a specified time.
