Enhanced Ameritech ValueLink Plus is available on a month-to-month plan.

a. Month to Month

The month-to-month term plan requires a Minimum Monthly Usage Commitment (MMUC).

The MMUC is a minimum usage level that a customer must commit to per month, per account, in order to receive the discounted per minute price. If the total Enhanced Ameritech ValueLink Plus usage charges are below the MMUC in any given month, the full amount of the applicable MMUC will apply in lieu of the actual usage charges. The MMUC will not be enforced in the first bill period. Customers will be given one billing cycle to attain their MMUC level.

b. Termination Charges

Customer terminating an Enhanced Ameritech ValueLink Plus plan prior to the expiration of the selected term period are subject to termination charges.

Termination charges are equal to the amount of the unearned discounts for the twelve months immediately preceding termination. The unearned discounts are calculated by subtracting the discounted charges actually incurred during the twelve months immediately preceding termination from the charges that the customer would have incurred during that period under the longest term plan that the customer would have actually qualified for based upon the actual term of service, or month-to-month rates if the customer would not have qualified for any term plan. Termination charge calculations will include, if applicable, volume discounts, bonuses, and usage discounts.

- c. At the expiration of the selected Enhanced Ameritech ValueLink Plus term, if a customer does not expressly indicate election of a new term plan, the rates will revert to the highest Enhanced Ameritech ValueLink Plus Month-to-Month per minute rate.
