(B) Area Commitment Plan (ACP) <sup>(1)</sup>

(C)

The Area Commitment Plan (ACP) allows customers who have obtained service on a month-to-month basis to receive reduced rates, in the form of ACP credits, in exchange for a commitment to maintain a level of service for a specified period of time. The terms of this plan apply to special access services or switched access services that are available under an ACP, except as noted in the rate regulations for a service.

Services included in a Channel Services Payment Plan (CSPP) and/or a Transport Payment Plan (TPP) may not be included in an ACP or vice versa.

The customer determines the commitment level of rate elements that will be included in an ACP, i.e., the customer will provide the number of commitment rate elements expressed as a whole number (e.g., 12 DS1 Local Channels). For example, a customer wishes to establish an ACP for all of his DS1 services that are billing on a month-to-month basis. The customer has 12 DS1 Local Channels and 6 DS1 Interoffice Channels that have a total of 90 Interoffice Channel miles. In this example, the quantity of commitment rate elements would be specified as 12 DS1 Local Channels and 90 Interoffice Channel miles. For interoffice channels, the commitment is based on a quantity of miles. When credits are applied to interoffice channel miles on a circuit, the customer automatically receives credit for the fixed rate element component of the interoffice channel. As a further example, this customer may desire to establish a commitment level only for a small portion of these DS1 services. In this case, the customer would specify the level that is desired (e.g., 1 DS1 Local Channel). ACP commitments are made on a regional basis, i.e., one commitment for all Company service areas.

(1) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) <sup>(3)</sup> (Cont'd) (C)

The Customer may choose any period of time between 24 and 72 months for the commitment.<sup>(1)</sup> The applicable rate for use in the ACP calculation is the ACP rate selected commitment period. ACP commitment periods are offered as follows:

- ACP A, commitment periods may be selected from 24 months to 48 months in length<sup>(2) (3)</sup> (C)
- ACP B, commitment periods may be selected from 49 months to 72 months in length<sup>(1) (2)</sup>

Each month the Telephone Company will determine the number of in-service rate elements, by type (Local Channel, Multiplexer or Channel Mileage), for which the Telephone Company will apply credits during the following month. The amount of any ACP credit will be based on the difference between the month-to-month rate and the associated ACP rate. Credit and shortfall calculations will be performed at the end of each month, and the resulting credit/shortfall amounts will be applied to the Customer's bill during the following month.

The Telephone Company will apply credits to Local Channel and Multiplexer rate elements, by applying the following steps in the following order:

- (1) Credits will be applied by state, in proportion to the percentage of the relevant rate element type purchased by the Customer in each state. For example, if a Customer purchases 40 percent of its Local Channels in Florida, then the Telephone Company will apply 40 percent of the Customer's ACP credits to Local Channels to Florida.
- (2) Within each state, Local Channel and Multiplexer credits will be applied by Rate Zone, beginning with Rate Zone 1 and proceeding to Zone 3.
- (3) Within each Rate Zone, credits will be applied according to the applicable monthly charge for each rate element, beginning with the highest billed rate elements and proceeding to the lowest billed rate elements.

- (1) Effective May 15, 2015, Plan B commitment periods of 61 to 72 months will no longer be available. Plan B commitment periods from 49 to 60 months will continue to be available for new ACPs. There is no change for existing ACPs.
- (2) Effective on September 13, 2017, ACPs greater than 36-months for special access services are no longer available, including for any otherwise available conversions. Circuits already subject to an ACP greater than 36-months, as of September 13, 2017, will continue to be provided under the then-current ACP term for the remainder of that term.
- (3) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a BellSouth SPA High Capacity DS1 (a.k.a BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term. (N)

(B) Area Commitment Plan (ACP)<sup>(2)</sup> (Cont'd)

(C)

The Telephone Company will apply credits to mileage rate elements, by applying the following steps in the following order:

- (1) Credits will be applied by state, in proportion to the percentage of the relevant rate element type purchased by the customer in each state. For example, if a Customer purchases 40 percent of its Local Channels in Florida, then the Telephone Company will apply 40 percent of the Customer's ACP credits to channel mileage in Florida.
- (2) Within each state, credits will be applied beginning with the longest mileage circuit and proceeding to the shortest mileage circuit.
- (3) If circuits have the same mileage, credits will be applied by Rate Zone, beginning with Rate Zone 1 and proceeding to Zone 3.
- (4) Within a Rate Zone, credits will be applied according to the applicable monthly charge for each mileage rate element, beginning with the highest billed rate element and proceeding to the lowest billed rate element.

If the number of in-service rate elements is less than the commitment level, a shortfall charge will apply. The shortfall charge will be equal to the difference between the Customer's commitment level and the number of in-service rate elements of the relevant type (Local Channel, Multiplexer or Channel Mileage); multiplied by 50 percent of the ACP rate applicable to each rate element to which a shortfall charge is applied. To calculate shortfall charges, the Telephone Company will apply the ACP Plan B, Price Cap Zone 2 rate that is in effect on the billing date for the appropriate commitment period, i.e., the ACP rate that is effective at the end of each month for which the credit/shortfall calculations are performed.<sup>(1)</sup>

- (1) As specified in BellSouth Telecommunications Tariff F.C.C. No. 1, Section 7.4, the Price Flex Zone 2 rate, as specified in Part 13, Section 23, of this Guidebook will be used for calculation of shortfall charges associated with multiplexing and mileage rate elements for special access transport, as the Price Cap Zone 2 rate is no longer in effect and a Price Flex rate now applies.
- (2) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) <sup>(1)</sup> (Cont'd)

(C)

Services available under ACP and the ACP rates are specified in the rate regulations of the individual services.

Credit and shortfall amounts will be distributed to billing areas based on each billing area's portion of a Customer's regional ACP eligible in-service units. Each state in the region is considered to be one billing area.

Effective March 4, 2006, a Customer may have only one ACP. For Customers with multiple ACP commitments prior to March 4, 2006, upon expiration of the multiple commitments, only one ACP may be maintained. In those cases, as of March 4, 2006, where the Customer has more than one ACP agreement, the credits and shortfall charges will be determined in chronological order, starting with the earliest agreement. For Interoffice Mileage Commitments under ACP, circuits will be assigned with the longest mileage circuit assigned first and continuing in descending order by circuit length until the number of circuits subscribed to are assigned starting with the earliest agreement.

The Customer may add or disconnect services as desired, subject to the minimum service periods set forth in Part 13, Section 7, paragraph 7.4.4 for special access services and subject to applicable nonrecurring charges. Credits for services under an ACP will be made at the circuit level.

(1) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. (B) Area Commitment Plan (ACP) <sup>(2)</sup> (Cont'd)

(C)

A customer may upgrade services under an ACP to a higher order of service<sup>(1)</sup>, provided under an Optional Payment Plan (i.e., an ACP, a TPP, a FPSPP, a FSP or a CSPP arrangement) and request a reduction in his ACP commitment level without incurring a termination liability. The customer request for the services being upgraded from a lower order of service must be coordinated with the installation of the new service being upgraded to a higher order of service. A new ACP will be issued to reflect a new commitment level. The new commitment level must be equal to or greater than the current commitment level less the quantity of services upgraded.

Effective March 4, 2006, a customer desiring to increase a commitment level may update an existing ACP agreement to include the increased commitment level. The commitment period for the updated ACP agreement must be equal to or greater than the time remaining in the existing ACP agreement.

If during the commitment period, the customer desires to decrease its commitment level or period, the customer must enter into a new ACP agreement and terminate the existing ACP agreement(s). This will result in a termination liability to be calculated as follows:

The penalty for a decrease in the commitment level or commitment period, per unit decreased, will equal the ACP rate associated with the existing ACP agreement multiplied by the difference in months between the time the ACP agreement has been in effect and the minimal months of the existing agreement times a factor. The factor is 40 percent for agreements that have been in effect twelve months or less, or 20 percent for agreements that have been in effect longer than 12 months.

Changes in commitment periods within a plan (e.g., ACP B) do not constitute a change involving a termination liability.

In the case of a decrease in both a commitment level and commitment period, the termination liability will be calculated first for the reduction in level and then for the reduction in period based on the reduced level.

- (1) Customer requested conversion of Special Access Service (a.k.a., BellSouth SPA) to the same or higher speed Fast Packet Access Service will be treated as an upgrade to a higher order of service.
- (2) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. (2) the earliest date by which service can be made available to the customer by the Telephone Company.

(b) If the customer desires a service date later than as provided in Section 2.4.8(D) (2) (a), the stabilized monthly recurring rates in effect on the service date are applicable.

(3) Additions

(a) Additions of services or rate elements to BellSouth DS1 Diverse service to activate spare or unused capacities, must be activated under the same rate plan as the existing TPP arrangement. LightGate (a.k.a. BellSouth SPA Point to Point Network) and/or SMARTRing (a.k.a. (a) Except as provided in Sections 2.4.8(D)(4)(b) through (f), when a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) and/or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) rate element is disconnected prior to being in service for a 12-month period, (e.g., the minimum term for a Plan A TPP), the termination liability charge will be derived by multiplying the difference in rates between the current month-to-month rate and the rate for the TPP arrangement selected. For example, a customer subscribes to a TPP for 24 months (Plan A) and terminates service after 10 months. The termination liability charge will be applied by multiplying the number of months in service (10) by the difference between the month-to-month and Plan A monthly rates. With the exception of Renewal Options in Section 2.4.8(D)(7), a four month minimum service period for BellSouth DS1 Diverse service, BellSouth Metro Ethernet Service, LightGate (a.k.a. BellSouth SPA Point to Point Network), and/or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) will be applicable and all month-to-month conditions will apply.

When a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Metro Ethernet Service or SMARTRing service (BellSouth SPA Dedicated Ring) TPP customer disconnects a rate element prior to the 12 month TPP minimum, all current month-to-month nonrecurring charges associated with the LightGate (a.k.a. BellSouth SPA Point to Point Network) system, BellSouth Metro Ethernet Service or the SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) ring level rate elements will apply. Also, for SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces installed on or after December 2, 1997, the current month-to-month nonrecurring charges will apply for rate elements disconnected prior to the 12-month TPP minimum.

(1) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. Migration to AT&T Dedicated Ethernet Service

Customers subscribing to BellSouth Wavelength Channel Service may migrate to AT&T Dedicated Ethernet provided by the Telephone Company without incurring termination liability, subject to the following conditions:

- (1) The new AT&T Dedicated Ethernet and the existing BellSouth Wavelength Channel service must be billed to the same customer of record at the same customer locations.
- (2) The customer's existing service must have been in place for at least 12 months.
- (3) The minimum term for the new service must be at least 12 months and must be equal to or greater than the number of months remaining in the customer's existing Term Payment Plan (TPP) term.
- (4) The speed (capacity/bandwidth) of the new service must be equal to or greater than that of the existing service.
- (5) The customer must issue a disconnect order for the replaced BellSouth Wavelength Channel service to be effective within 90 days after the AT&T Dedicated Ethernet installation date. The disconnect order and new orders must be coordinated through the Telephone Company.

(b) Except as provided in Sections 2.4.8(D) (4) (c) through (f), when a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Metro Ethernet Service or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) TPP customer disconnects services or rate elements prior to the minimum number of months for the plan period selected, termination liability charges will apply. The termination liability charge will be derived at the time of disconnection by taking the difference between the rate for the TPP period for which the customer subscribed, and the rate for the TPP period that the customer's completed service would otherwise qualify, and multiplying the difference by the number of months service the customer completed under a TPP. For example, a customer subscribes to a TPP for 73 months (Plan C) and terminates service after 20 months (Plan A). The termination liability charge will be applied by multiplying the number of months in service (20) by the difference between the Plan A and Plan C monthly rates. When a BellSouth Diverse DS1 service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Metro Ethernet Service or SMARTRing (a.k.a. (c) When a TPP arrangement is disconnected prior to the expiration of a plan period due to a customer requested change to a higher order of service at the same location, or to expand or upgrade an existing service, termination liability charges will not apply when:

- (1) the customer has completed at least 6 months of the originally selected TPP service period, and
- (2) the service period of the new arrangement for the new service is equal to or longer<sup>(1)</sup> than the remaining service period of the disconnected arrangement, and
- (3) the service orders to install the new service and disconnect the old service are related together and received by the Telephone Company at the same time, and there is no lapse in service between installation of the higher order of service and disconnection of the existing service, and
- (4) the capacity of the new service is equal to or greater than the existing service. For converting LightGate service (a.k.a. BellSouth SPA Point to Point Network) to SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring), the capacity of the LightGate service (a.k.a. BellSouth SPA Point to Point Network) is considered to be the quantity of DS3s activated on the LightGate service (a.k.a. BellSouth SPA Point to Point Network). Specific changes of BellSouth Metro Ethernet Service that are considered to be the same or higher order of service are set forth in Part 11, Section 7.4.32.

- The service period selected for the new TPP arrangement begins on the new TPP effective date but not later than the expiration date of the TPP being replaced

- The start date of the TPP is not changed, however, with an extension the customer selects a new TPP service period (i.e., the number of months associated with the customer's TPP) that is greater than what presently exist for the current TPP.
- The maximum service period that may be selected for an extension is 96 months. After 96 months, a customer must establish a new TPP arrangement.
- If the new service period selected with an extension results in a change of Payment Plans, then the rates associated with the new Payment Plan will be effective on the first day of service under the extended TPP. For example, if a customer presently has a 36-month TPP arrangement, which is associated with Payment Plan A rates, and extends his service period to 61 months, which is associated with Payment Plan C rates, the Plan C rates will be effective on the first day of the extended TPP.
- If a TPP arrangement that has been extended is disconnected prior the expiration of the extended service period, termination liability charges will be based on the rates associated with the extended TPP arrangement at the time of the disconnect. For example, if a customer's TPP that has been extended and is receiving Plan C rates at the time the TPP is disconnected, then Plan C rates will be used to determine the applicable termination liability.

(10) Automatic Extension of TPP Arrangements

(a) For the period beginning on January 13, 2001 through January 12, 2002, customers that complete a TPP arrangement will receive an automatic 12-month extension of their TPP arrangement. With this automatic extension, the customer's service will be continued under TPP at the rates and charges associated with the payment plan that is being extended. Customers that do not wish to utilize the benefits of the automatic extension may request that their TPP arrangement be terminated, without penalty, at any time during the 12-month period associated with their extension.

At the end of the 12-month extension, or at the time that a customer indicates that they do not desire to continue under the 12-month extension, the standard provisions associated with the completion of a TPP arrangement apply.

(1) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

## 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

## 7.4 Rate Regulations (Cont'd)

7.4.9 LightGate Service<sup>(1)</sup> (a.k.a. BellSouth SPA Point to Point Network) (C)  
(Cont'd)

LightGate service (a.k.a. BellSouth SPA Point to Point Network) is available at month-to-month rates, with a four-month minimum service period for all associated rate elements. However, local channel systems with SAFT levels I or II reliability, have a 4-month minimum service period. Service is also available under a Transport Payment Plan (TPP), or Channel Services Payment Plans (CSPP) A, (24-48 Months), B (49-72 Months) or C (73-96 Months) as specified in Part 3, Section 2, paragraph 2.4.8, except as modified following:

(A) All rate elements associated with a LightGate service (a.k.a. BellSouth SPA Point to Point Network) local channel system or an interoffice channel system must be provided under the same TPP or CSPP arrangement; provided, however, that channel interfaces may be provided under a monthly rate arrangement which is greater than, equal to or less than the payment plan for the associated local channel or interoffice channel.

(B) A termination liability charge will be applicable for LightGate service (a.k.a. BellSouth SPA Point to Point Network) rate elements provided under a CSPP arrangement that are disconnected prior to the end of the chosen service period. The termination liability charge is equal to the number of months remaining in the service period multiplied by 60% of the monthly rates for the rate elements disconnected. LightGate service (a.k.a. BellSouth SPA Point to Point Network) rate elements provided under a TPP arrangement that are disconnected prior to the end of the chosen service period will incur termination liability in accordance with Part 3, Section 2, paragraph 2.4.8. The following exceptions apply:

(1) No Termination Liability Charge will be applicable for a LightGate service (a.k.a. BellSouth SPA Point to Point Network) when the customer replaces an existing CSPP arrangement with a new TPP arrangement for the same or larger system(s) and all associated rate elements at the same location(s) for a service period equal to or greater than the time remaining on the existing CSPP arrangement. This provision also applies for conversions of asynchronous LightGate service (a.k.a. BellSouth SPA Point to Point Network) systems to larger synchronous LightGate service (a.k.a. BellSouth SPA Point to Point Network) systems at the same location(s) for a service period equal to or greater than the time remaining on the existing CSPP arrangement.

(1) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

7.4 Rate Regulations (Cont'd)

7.4.15 DS1 High Capacity<sup>(1)</sup> (a.k.a. BellSouth SPA DS1) Service (C)

Monthly rates and nonrecurring charges as specified in Section 23 apply for DS1 High Capacity (a.k.a. BellSouth SPA DS1) service.

DS1 High Capacity (a.k.a. BellSouth SPA DS1) service is available under several payment plans: Month-to-month (with a minimum of one month), Plan A (24-48 Months) or Plan B (49-72 Months). Plans A and B are provided under conditions specified in the Channel Services Payment Plan (CSPP) described in Part 3, Section 2, paragraph 2.4.8(A), except as modified following:

- (A) A termination liability charge will be applicable if services provided under a CSPP arrangement are disconnected prior to the end of the chosen service period. The termination charge is equal to the applicable rate per rate element for the current contract multiplied times the difference in months between the time the CSPP contract has been in effect and the minimum contract length multiplied times a factor. The factor is 50 percent for contracts that have been in effect twelve months or less, or 20 percent for contracts that have been in effect longer than twelve months.
- (B) No charges apply for the conversion of existing DS1 High Capacity (a.k.a. BellSouth SPA DS1) service under a month-to-month payment plan to a CSPP arrangement.
- (C) Plan C offered under the CSPP arrangement, as specified in Part 3, Section 2, paragraph 2.4.8(A), is not available for DS1 High Capacity (a.k.a. BellSouth SPA DS1) service.

In order to accommodate more flexible customer situations, certain elements of DS1 High Capacity (a.k.a. BellSouth SPA DS1) service are available under an Area Commitment Plan (ACP) as described in 2.4.8(B) of BellSouth Telecommunications Tariff F.C.C. No. 1. ACP for DS1 High Capacity (a.k.a. BellSouth SPA DS1) service is made available for local channels, interoffice channel miles and basic channelization. DS1 High Capacity (a.k.a. BellSouth SPA DS1) Interoffice Channel-Fixed rate elements will receive the same rate treatment for credits and shortfall charges as long as the associated circuit mileage qualifies under the ACP. The ACP A and ACP B rates for DS1 service are the same as the Plans A and B rates shown for CSPP.

7.4.16 Reserved for Future Use

- (1) Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term. (N)
