2. General Regulations

2.1 Undertaking of the Telephone Company

2.1.1 Scope

- (F) Access Services are provided to customers under the provisions of this tariff. The customer may be either a carrier, end user or information provider for purposes of ordering service and receiving billing. This tariff is limited to providing access service between (1) an end user and a certified carrier, (2) two certified carriers, or (3) an end user and an information provider. The latter provision (3) will be provided on a terminating basis to only those Telephone Company offices within the toll free calling area of the customer's point of termination.
- (G) The UNE to access conversion language applies only to UNE to interstate access conversions.

36.1/6

Section (D) does not apply to Indiana Jurisdiction.

37/13

References to DNAL in Section 2.3.10 (E) do not apply to Indiana Jurisdiction.

2.3.12 Returned Check Charge

An administrative charge of \$10.00 will apply whenever a check or draft presented for payment for service is not accepted by the institution on which it is written.

44/6

- (III) When the bill is sent to the end user, the late payment penalty in total will not exceed 3% of the original delinquent amount.

70.1/Original

3.2.3 WATS

Where WATS Access Services are provided in conjunction with Special Access Services at Telephone Company Designated WATS Serving Offices for the provision of WATS or WATS-type Services, Switched Access Service minutes which are carried on that end of the service, (i.e., originating minutes for outward WATS and WATS-type services and terminating minutes for inward WATS and WATS-type services) shall not be assessed Carrier Common Line Access per minute charges with the following exception. Carrier Common Line Access per minute charges shall apply when Feature Group A switched access is ordered from a non equal access telephone company office that does not have measurement capabilities and the assumed average access minutes, as set forth in 6.7.7 are used.

70.2.1/Revision No. 1

If the end user line is not presubscribed to a Primary Interexchange Carrier (PIC) the Primary Interexchange Carrier Charge (PICC) will not be billed to the end user. The InterLATA PICC, for all end users without a PIC, will be billed to the Interexchange Carriers based on the Central Office distribution of the total InterLATA presubscribed access lines they serve. The IntraLATA PICC, for all end users without a PIC, will be billed to the IntraLATA Carriers based on the Central Office distribution of the total IntraLATA presubscribed access lines they serve. The following formula will be used to determine the number of PICCs to be billed to each InterLATA, or IntraLATA Carrier: Total non-presubscribed InterLATA access lines multiplied by each InterLATA Carrier's percentage of presubscribed access lines. Total non-presubscribed IntraLATA access lines multiplied by each IntraLATA Carrier's percentage of presubscribed access lines.

70.9/Original

- (B) When the end user is provided with a local exchange service which is not identified as Centrex, Business or Residence service, it shall provide the Telephone Company any request information necessary for the Telephone Company to determine the appropriate charges.

74/Revision No. 4

For Indiana Jurisdiction interpretation, (4), (5) and (6) should read:

When an end user is provided more than one local business exchange service in a state by the same Telephone Company, other than that specified in (2) preceding, and when the local business exchange service is provided as semi-public service under the general and/or local exchange service tariffs, the End User Common Line (EUCL) Multiline Business Subscribers-Individual line or trunk rate as set forth in 4.1.7 following applies to each such semi-public local business exchange service.

(7) should read:

When an end user is provided a single local business exchange service in a state by the same Telephone Company, other than that specified in (2) preceding, and when the local business exchange service is provided as a multiparty service under the general and/or local exchange service tariffs, each party is deemed to be a user of an EUCL and the End User Common Line (EUCL) Single Line Subscriber - Individual line or trunk rate as set forth in 4.1.7 following applies to each such party.

SECTION 4 EXCEPTIONS (CONT'D)

FCC Page No./Revision No.

75/Revision No. 7

(8) should read:

When an end user is provided only a single local business exchange service in a state by the same Telephone Company, other than that specified in (2) preceding, and when the local business exchange service is provided under the general and/or local exchange service tariffs, the End User Common Line (EUCL) Single Line Subscriber-Individual line or trunk rate as set forth in 4.1.7 following applies to each single business service. Such local business exchange service includes a single semi-public business service or any other single local business exchange service not covered in (7) preceding.

(9) and (10) should read:

When a end user is provided a local residence exchange service in a state by the Telephone Company, other than that specified in (2) preceding.

(11) should read:

When an end user is provided a local exchange service which is not identified as WATS, Centrex, Business or Residence service, the Telephone Company will designate the service as either WATS, Centrex, Business or Residence Service. The charges as set forth in 4.1.7 following for Centrex CO, Business Subscriber or Residence Subscriber in accordance with the designation will apply.

Presubscription is a procedure whereby an end user may select and designate to the Telephone Company an IXC to access for interLATA and intraLATA/intrastate calls.

83/Original

4.2(B)

The Telephone Company will notify End Users of intraLATA Presubscription through Telephone Company bill inserts. The notice will contain a description of intraLATA Presubscription (1+ and 0+ local toll calls), information on how to select the company which will carry calls, and service charges. There will be no charge for the initial selection made within six (6) months of the implementation of intraLATA Presubscription. Each subsequent change for an interLATA carrier, an intraLATA carrier or a combination of both carriers will result in a service charge.

SECTION 4 EXCEPTIONS (CONT'D)

[GB] Part 2, Section 5, Sheet 16

The development of extraordinary costs and use of special construction terms and conditions does not apply to Indiana Jurisdiction.

For Indiana Jurisdiction, any extraordinary costs which may be involved based on a customer's request for expedited service will be charged to the customer based on cost.

100/Original

Reference to Section 1 in (E) does not apply to Indiana Jurisdiction.

105/Original

5.4.5 (C) Should read:

- (C) Where special construction is involved, cancellation charges and/or Termination Liability Charges based on cost will apply in addition to charges set forth in (B) preceding.

SECTION 6 GENERAL EXCEPTION STATEMENTS

1. LIDB Service is available to Indiana carriers that purchase Signal Transfer Point Access Service as described in Section 6.1.3 (A)(4)(c).
2. Dedicated Access Line Service as provided for use with Switched Access Service does not apply to Indiana Jurisdiction. In the Indiana Jurisdiction, WATS is used as DAL is in Federal Jurisdiction. Consequently, read WATS where DAL is stated unless otherwise indicated.
3. Common Switching Optional Features are provided "per Transmission Path" for WATS.

117.2/2

Last Sentence in paragraph 1 of Section 6.1.1 (F) should read:

When 900 access service is provided from an end office not equipped with equal access capabilities, such service will be provisioned in accordance with the technical characteristics available with Feature Group C and will not be provided from such end offices to customers not having equivalent interstate 900 services as of November 24, 1992.

The customer or his client is required to provide a voice over message that clearly states the initial and per minute charge for the call for all calls where the total charge could exceed \$1.50.

SECTION 6 EXCEPTIONS

FCC Page No./Revision No.

119/13

6.1.1 (G) Non-Presubscribed does not apply to Indiana Jurisdiction.

6.1.2 Dedicated Access Line Service does not apply to Indiana Jurisdiction.

The following is applicable to the Indiana Jurisdiction.

6.1.2 Associated Applications

(A) Intrastate Wide Area Telecommunications (WATS)

- (1) The connection of an End User premises with WATS (includes Out-WATS and 800 Service) or a similar IC service will be provided for use with a unique carrier's interLATA Switched Access Service. Along with charges contained in this section, an Access Surcharge, and Message Equipment Recover Charge, as set forth in Paragraph 6.8.9 following will apply. Only interLATA calls will be delivered to the IC. A WATS Access Line Charge as set forth in Part 10 of this tariff will be billed to the customer.
- (2) Intrastate WATS (includes Out-WATS and 800 Service) is available as a joint offering of the Telephone Company and the IC. Minutes of use (MOU) will be apportioned between the Telephone Company and the IC based on actual minutes of use during a billing period. IntraLATA WATS minutes of use will be deducted from total intrastate WATS minutes before determining.

(Cause No. 39174)

SECTION 6 EXCEPTIONS (CONT'D)

FCC Page No./Revision No.

119/13 (Cont'd)

(A) Intrastate Wide Area Telecommunications (WATS) (Cont'd)

(2) (Cont'd)

billable access minutes described in this section.
These IntraLATA MOU and a WATS Access Line Charge will be billed by the Telephone Company to the End User at rates set forth in Part 10 of this tariff.
An Access Surcharge and Message Equipment Recovery Charge will be applied to the customer as set forth in paragraph 6.8.9 following.

(B) Service Associated with Interstate Dedicated Access Lines

Consistent with applicable Federal Tariffs, Interstate Dedicated Access Line Service may serve Intrastate calls depending on the screening and blocking options ordered by the customer. Where this occurs, Intrastate access charges included in 6.8.1 through 6.8.9 following, where applicable, will be billed for interLATA calls, and IntraLATA Usage Charges found in 6.8.10 following will be billed for all intraLATA calls. These charges will be billed to the customer of record. When requested by the customer and upon written agreement between the customer and the Telephone Company, the Telephone Company will bill the IntraLATA Usage Charges directly to the end user.

119.1/8

6.1.2(A) WATS Access Capability does not apply to Indiana Jurisdiction.

SECTION 6 EXCEPTIONS (CONT'D)

FCC Page No./Revision No.

137/9

(6.1.8) Insert as last sentence of first paragraph: A WATS Access Line may, at the option of the customer, be provided with FGC and FGD.

149.1/2

6.2.3(B)(3) Dedicated Access Line Termination Optional Features does not apply to Indiana Jurisdiction.

152.1/10

6.2.4 Feature Group D (A)(8), 2nd paragraph regarding when a originating only trunk is restricted from being presubscribed does not apply to Indiana Jurisdiction.

153/8 and 153.1/5

The first sentence in 6.2.4 (A)(11) and (12) should read:

When a customer has had FGB access in an end office and subsequently replaces the FGB access with FGD access, at the mutual agreement of the customer and the Telephone Company, the Telephone Company will, for a limited period of time, direct calls dialed by the customer's end users using the customer's previous FGB access code to the customer's FGD access service.

SECTION 6 EXCEPTIONS (CONT'D)

FCC Page No./Revision No.

153/Revision No. 9

6.2.4(A)(9) Should read:

- (9) When the 101XXXX access code is used for 1+ traffic from a Telephone Company pay telephone, if the dialed access code is the access code of the IC selected to carry the 0+ and/or 1+ traffic, as described in 4.2(B)(4) preceding, traffic will be routed in the same manner as 1+ traffic. If the dialed access code is that another IC (casual 1+ carrier), the casual 1+ carrier may elect to have calls routed to its premises as sent-paid coin traffic. If the casual 1+ carrier elects to route the 101XXXX-1+ coin traffic, the IC must order trunks with the Operator Trunk - Full Feature type of transport termination, as set forth in 6.3.2(C). The IC must also be prepared to receive 101XXXX-0+ traffic. The IC may also elect to have both 101XXXX-1+ and 101XXXX-0+ traffic routed to a recorded message.

The following applies to Indiana Jurisdiction.

A WATS Access Line may, at the option of the customer, be provided for use with FGD Switched Access Service. A WATS Access Line provides a connection between a customer's end user's premise and a Telephone Company end office switch capable of performing the necessary screening functions for 800 Service, WATS or similar services and is provided only for use at the closed end of such services.

WATS Access Lines are arranged for either originating calling only or terminating calling only. They are provided with rotary dial or dual tone multifrequency address signaling and either loop start, or ground start supervisory signaling. The choice of the type of signaling is at the option of the customer.

WATS Access Lines are provided as either an effective two-wire or effective four-wire transmission path.

FCC Page No./Revision No.

160/Revision No. 5

The following applies to Indiana Jurisdiction for 6.3.1(J).

Hunt Group Arrangement

This option provides the ability to sequentially access one of two or more line side connections in the originating direction, when the access code of the line group is dialed. This feature is provided in all Telephone Company end offices. It is available with Feature Group A.

Hunt Group Arrangement for Use with WATS Access Lines

This option provides the ability to sequentially access one of two or more WATS Access Lines (e.g., 800 Service access lines) in the terminating direction, when the hunting number of the WATS Access Line Service group is forwarded from the customer to the Telephone Company. This feature is provided in all Telephone Company end offices in which WATS Access Lines are provided. It is available with Feature Groups C and D.

(I) End Office End User Line Service Screening for Use with WATS Access Lines

This option also provides for calls with access codes 101XXXX and 950 and/or 900 to be blocked and routed to a recorded announcement.

(J) Regular Multiline Hunt Group does not apply to Indiana Jurisdiction.

162/11

Read WATS where DAL is stated.

SECTION 6 EXCEPTION (CONT'D)

163/17

- The following Common Switching Optional Features apply to Indiana Jurisdiction.

(S) Uniform Call Distribution Arrangement

This option provides a type of multiline hunting arrangement which provides for an even distribution of calls among the available lines in a hunt group. Where available, this feature is provided in Telephone Company electronic end offices only. It is available with Feature Group A.

Uniform Call Distribution Arrangement for Use with WATS Access Lines

This option provides a type of multiline hunting arrangement which provides for an even distribution of terminating calls among the available WATS Access Lines in the hunt group. Where available, this feature is only provided in Telephone Company electronic end offices in which WATS Access Lines are provided. It is available with Feature Groups C and D.

163.1/10

63.1(v) Public Switched Digital Service (PSDS) Switching Capability is a Common Switching Chargeable Optional Feature.

163.7.1/Original

6.8.1(C)(5) Service Rearrangements

The last paragraph on this page does not apply to the
Indiana Jurisdiction.

175.1/12

- Add as the 4th paragraph:

- The customer must disconnect one trunk at the end office or tandem for each rerouted tandem or end office trunk installed. For example, a customer could disconnect one voice grade trunk at the tandem and reconnect the trunk at the end office. The number of trunks being connected at the end office or tandem cannot exceed the number of trunks disconnected.

176.4/7

The specific application of premium and transitional rates for a specific customer is dependent upon the type of service and the availability of equal access capabilities in the end office to which the service is provided. Rates for optional features are not applied on premium and transitional basis, but rates apply equally to all customers regardless of the type of office with which they are associated or the availability of equal access capabilities in the end office.

The third and fourth paragraphs do not apply to the Indiana Jurisdiction.
