- Remote Call Forwarding (CO Based): Provides a method to automatically transfer all incoming calls to another dialed number at all times. The dialable number is defined by Carrier for its customer. The dialed number can be either a 7 or 10-digit number (POTS) and can be changed via a service order. No physical telephone is required at the Carrier's customer's dialed number. (Business Service Ordering and Line Connection Charges apply).

|--|---|---------|
| • per initial feature /RCF/ /RCFVH/ | - | \$17.71 |
| • per additional feature necessary for each additional call to be forwarded simultaneously /RCA/ | - | 17.71 |

Carrier's business customers who have their exchange access service with another carrier and who now establish their exchange access service with the Carrier and who subscribe to Remote Call Forwarding will receive a discounted monthly rate per RCF path for the first 12 months. The discounted monthly rate applies to initial as well as additional RCF paths, excluding 800 service^{/1/} lines. Additionally, the Carrier's customers will receive a waiver of Remote Call Forwarding nonrecurring charges. To qualify for this discounted rate and waiver the Remote Call Forwarding CFN (Call Forwarding Number) must terminate to a business access line of the Carrier. Subscribers may have a maximum of ten (10) RCF paths (initial/additional) per billing account participating in this discounted service, and each RCF path must be located in the same state where the qualifying local exchange business service is established. Subscribers must order RCF service within 30 days of establishing the qualifying exchange access service from another carrier in order to be eligible for this discounted service.
