

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services

Section 13 addresses Additional Engineering, Additional Labor and Miscellaneous Services (e.g., Maintenance of Service, Provision of Access Service Billing Information, etc.).

The specific rates and charges for these activities are set forth in subsequent sections.

For the purpose of Section 13, the terms Hourly Rates, Basic Time, Overtime and Premium Time are defined as follows: (T)

- Hourly Rates - Hourly rates are based upon the time of day, day of week, and whether the work is performed on a Telephone Company Holiday. Hourly rates will apply as defined below for: Basic Time, Overtime, and Premium Time. Charges apply for each half hour or fraction thereof unless otherwise specified herein. (N)
- Basic Time – 8:00 a.m. – 5:00 p.m., Monday through Friday (except Telephone Company Holidays). To the extent work continues past 5:00 p.m., time will be billed as Overtime. (T)
- Overtime – Outside Basic Time and on Saturdays (except Telephone Company Holidays).
- Premium Time – Sundays and/or Telephone Company Holidays. Telephone Company Holidays: New Year’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Day after Thanksgiving, Christmas Eve, and Christmas Day (T)

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the request of the customer only when:

- (A) A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.5 preceding. (T)
- (B) Additional Engineering time is incurred by the Telephone Company to engineer a customer's request for a customized service. (T)

The Telephone Company will notify the customer that Additional Engineering charges, as set forth in 13.1.1 following, will apply before any Additional Engineering is undertaken. (T)

13.1.1 Charges For Additional Engineering

The charges for Additional Engineering are as follows: (T)

Additional Engineering Periods	USOC	First Half Hour or Fraction Thereof	Each Additional Half Hour or Fraction Thereof
(A) Basic Time - per engineer	AEH	\$35.18	\$35.18

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services

13.1.1 Charges for Additional Engineering (Cont'd)

Additional Engineering Periods	USOC	First Half Hour or Fraction Thereof	Each Additional Half Hour or Fraction Thereof
(B) Overtime - per engineer	AEH	\$41.72	\$41.72

13.2 Additional Labor

Additional Labor is that labor requested by the customer on a given service and agreed to by the Telephone Company as set forth in this Section 13.2. The Telephone Company will notify the customer that Additional Labor charges as set forth in 13.2.6 following will apply before any Additional Labor is undertaken.

(T)
(T)
(T)

Types of Additional Labor are:

(N)

- Installation, moves, network reconfigurations, and/or other service activities that the customer requests the Telephone Company to perform outside of Basic Time. (USOC ALH, ALH++)
- Standby includes all time in excess of one-quarter (1/4) hour during which Telephone Company personnel standby at the customer's request. (USOC ALT)
- Additional Labor testing with other telephone companies, or repair of facilities which connect to facilities of other service providers which is in addition to the normal effort required to test, maintain, or repair facilities provided solely by the Telephone Company. (USOC ALK, ALK++)
- Other Labor is that Additional Labor not included in the preceding items including, but not limited to, labor incurred to extend the Point of Termination, and labor incurred to accommodate a specific customer request that involves only labor which is not covered by any other section of this tariff. (USOC ALK, ALK++)

(N)

Additional Labor Charges apply on a first and additional basis for each half hour or fraction thereof unless otherwise specified herein.

(T)
(T)

A callout is when a Telephone Company employee is called in to work at a time not consecutive with the employee's scheduled work period. Any dispatch that results in a callout will be subject to a minimum charge on an Overtime and/or Premium Time basis of four (4) hours. However, at no time will the customer be charged if trouble is found to be on the Telephone Company's side of the demarcation point.

ACCESS SERVICE**13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)****13.3 Miscellaneous Services (Cont'd)****13.3.3 Standard Interface Devices**

Services provided by the Telephone Company are terminated using standard jacks as interface devices. These devices are provided to allow connection of Registered Equipment to services that are subject to the Registration Program as set forth in Technical Reference Publication AS No. 1. The use of these devices is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific connecting devices are described in the document on file with the FCC entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations Described in Subpart F of Part 68 of the FCC's Rules and Regulations."

Other services or facilities provided by the Telephone Company or by others may also be terminated in any spare capacity which remains after installation of these devices, without additional charge for the use of such capacity.

The nonrecurring charges, which include installation, for standard interface devices and their typical uses are set forth following:

	USOC	Nonrecurring Charge
(A) Standard Voice Jacks		
(1) Miniature six-position jacks for connection of terminal equipment as follows:		
(a) Single-line telephone set surface or flush mounted.	RJ11C	\$0.00

ACCESS SERVICE**13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)****13.3 Miscellaneous Services (Cont'd)****13.3.4 Testing Services**

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.3.4(C) following. Other testing services provided by the Telephone Company in association with Access Services are furnished at no additional charge. These other testing services are described in 6.1.6 and 7.1.7 preceding.

Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in (A)(5), (B)(1) and (B)(2) following for a customer to request Telephone Company personnel to perform testing services at the customer's premises.

The offering of Testing Services under this section of the tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in (A), (B) and (C) following:

(A) Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which are performed during the installation of a Switched Access Service, and (b) tests which are performed after acceptance of such access services by a customer, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (no Telephone Company or customer technicians involved), on a cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises), or a manual basis (Telephone Company technician(s) involved at Telephone Company office(s) and at customer's premises).

Nonscheduled tests are performed by the Telephone Company "on demand", which result in the measurement of Switched Access Services. Nonscheduled tests may involve Telephone Company technicians at Telephone Company offices and at the customer's premises.

Material formerly appeared in ILL. C. C. No. 15, Section 13.3.4, Pages 651 and 652.

Issued: February 16, 1996

Effective: April 1, 1996

By D. H. Gebhardt, Vice Pres. - Reg. Affairs

Chicago, Illinois 60606

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.4 Testing Services (Cont'd)

(A) Switched Access Service (Cont'd)

(1) Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of Switched Access Service involves the Telephone Company provision of a technician at its office(s) and the Customer provides a technician at its premises, with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for example, consist of the following tests:

- . Impulse Noise
- . Phase Jitter
- . Signal to C-Notched Noise Ratio
- . Intermodulation (Nonlinear) Distortion
- . Frequency Shift (Offset)
- . Envelope Delay Distortion
- . Dial Pulse Percent Break

ACCESS SERVICE**13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)****13.3 Miscellaneous Services (Cont'd)****13.3.4 Testing Services (Cont'd)****(A) Switched Access Service (Cont'd)****(3) Cooperative Scheduled Testing**

Cooperative Scheduled Testing (CST) of Switched Access Services (Feature Groups B, C, and D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests, will consist of quarterly loss and C-message noise tests, and annual balance tests. However, the customer may specify a more frequent schedule of tests. In addition to the loss/noise/balance measurements, the customer may also order, at additional charges, gain-slope and C-notched noise testing.

The Telephone Company will provide, on a quarterly basis, a CST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.

(4) Manual Scheduled Testing

Manual Scheduled Testing (MST) of Switched Access Services (Feature Groups B, D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s) and at the customer's premises, will consist of quarterly loss and C-message noise tests, and annual balance tests. However, the customer may specify a more frequent schedule of tests. In addition to the loss/noise/balance tests, the customer may also order, at additional charges, gain-slope and C-notched noise testing.

The Telephone Company will provide, on a quarterly basis, an MST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.

ACCESS SERVICE**13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)****13.3 Miscellaneous Services (Cont'd)****13.3.4 Testing Services (Cont'd)****(A) Switched Access Service (Cont'd)****(5) Nonscheduled Testing**

Nonscheduled Testing (NST) of Switched Access Services is where:

- the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent ("automatic testing"), or
- the Telephone Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s), and/or at the customer's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled Tests may consist of any tests, e.g., loss, noise, slope, envelope delay, which the customer may require.

(6) Obligations of the Customer

- (a)** The customer shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in 13.3.4(A)(2) preceding or NST as set forth in 13.3.4(A)(5) preceding.
- (b)** The customer shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.

Material formerly appeared in ILL. C. C. No. 15, Section 13.3.4, Page 656.

ACCESS SERVICE**13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)****13.3 Miscellaneous Services (Cont'd)****13.3.4 Testing Services (Cont'd)****(B) Special Access Service**

The Telephone Company will, at the request of a customer, provide assistance in performing specific tests requested by the customer.

(1) Additional Cooperative Acceptance Testing (ACAT)

When a Customer provides a technician at its premises or at an end user's premises, with suitable test equipment to perform the requested tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Acceptance Testing on Voice Grade Services. At the customer's request, the Telephone Company will provide a technician at the customer's premises or at the end user premises. These tests may, e.g., consist of the following:

- Attenuation Distortion (i.e., frequency response)
- Intermodulation Distortion (i.e., harmonic distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay Distortion
- Echo Control
- Frequency Shift

(2) Nonscheduled Testing (NST)

When a customer provides a technician at its premises, with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the customer's request, the Telephone Company will provide a technician at the customer's premises. Nonscheduled tests may consist of any tests, e.g., loss, noise, slope, envelope delay, which the customer may require.

The three tests as set forth in (i) following represent the minimum offering, i.e., an order for testing must, at a minimum, consist of four 1004 Hz Loss Tests per transmission path, four C-Message Noise Tests per transmission path and one Return Loss (Balance) Test per transmission path, per year. The Additional Tests as set forth in (ii) following may be ordered by the customer at additional charges, 60 days prior to the start of the customer prescribed schedule. The customer also may specify a more frequent schedule of tests 60 days prior to the start of the customer prescribed schedule.

To First Point of Switching	USOC	Monthly Rate
(i) Basic Tests#		
1004 Hz Loss Tests performed within a one year period, - per test ordered, - per transmission path	UBSX+	\$.4554

Subject to a one year minimum period, then continuing until canceled by the customer.

13.3.5 Provision of Access Service Billing Information

- (A) The customer may receive the initial copy of their monthly access bill and service and feature record, in the standard format provided by the Telephone Company via paper, magnetic tape, CD ROM or data transmission at no charge. (C)
- (B) At the request of the customer three additional copies of their monthly access bill, and/or service and feature record will be provided in standard format provided by the Telephone Company via paper, microfiche, magnetic tape, CD ROM or electronic data transmission at no charge. Customers requests for copies of their monthly access bill and/or service and equipment record, beyond these three additional copies will be charged as set forth in (E) following. (C)
- (C) If a customer requests receiving their primary bill on a magnetic tape or by electronic data transmission, rules and regulations concerning payment arrangements and credit allowances described in Section 2.4 still apply for these media, as well as for paper, on all accounts.
- (D) Upon acceptance by the Telephone Company of an order for data transmission, the Telephone Company will determine the period of time required to implement the transmission of such material on an individual order basis.
- (E) The rates and charges for the provision of an additional copy of Access Service Billing Information are as follows:

	<u>FID</u>	<u>Rates</u>
(1) Provision of Standard Billing Detail and/or Information in magnetic tape format,		
- per logical record	DMT	\$.0030

ACCESS SERVICE**13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)****13.3 Miscellaneous Services (Cont'd)****13.3.8 Provision of Billing Name and Address Information**

Billing Name and Address (BNA) provides the billing name and address of an end user who has an Automatic Number Identification (ANI) recorded by the customer for telecommunications services rendered by the customer to its end user. The receipt of this information will allow the customer to provide its own billing to end users who may not have established a formal relationship with the customer.

- (A) The BNA will be obtained by the Telephone Company from its customer information data bases. The BNA will be provided for the ANI received by the Telephone Company to the extent a name and address exists in the Telephone Company's customer information data bases, except that the BNA will not be provided to the customer where the ANI received by the Telephone Company identifies a public telephone or other public telecommunications device.

The request for BNA information will be provided in accordance with specifications provided by the Telephone Company.

The BNA sub-elements are a minimum monthly charge which includes 75 or less BNA requests, a BNA request charge for requests in excess of 75 per month and a magnetic tape charge. A BNA charge applies for each BNA request whether or not a match is found. A magnetic tape charge applies for each magnetic tape provided to the requesting customer. The magnetic tape will be provided without the return of previously supplied tapes. The output records will normally be made available for mailing ten work days after receipt of the customer order or at an interval mutually agreed upon. Availability may be delayed in case of input errors in the customer provided order. Unless otherwise specified by the customer, the magnetic tape(s) will be sent to the customer via first class U.S. Mail service. If expedited delivery is requested by the customer, the customer can request overnight delivery or arrange for the delivery expense to be charged against its own delivery account.
