### 2. General Regulations

#### 2.6 Definitions (Cont'd)

**Coin Station** - a location where Telephone Company equipment is provided in a public or semipublic place where Telephone Company customers can originate telephonic communications and pay the applicable charges by inserting coins into the equipment.

**Committed Information Rate (CIR)** - A statistically guaranteed level of transmission or guaranteed bandwidth that the Ethernet network will provide to the Basic Connection when information (or data) needs to be transmitted.

**Commingling<sup>(1)</sup>** - Commingling means the connecting, attaching or otherwise linking of an unbundled network element, or a combination of unbundled network elements, to one or more facilities or services that a requesting telecommunications carrier has obtained at wholesale from the Telephone Company, or the combining of an unbundled network element, or a combination of unbundled network elements with one or more such facilities or services. Commingling means the act of commingling.

**Common Channel Signaling Network** - a digital data network carrying signaling, routing, and control information which interfaces with the voice/data network.

**Common Line** - a line, trunk, pay telephone line or other facility provided under the general and/or local exchange service tariffs of the Telephone Company, terminated on a central office switch. A common line-residence is a line or trunk provided under the residence regulations of the general and/or local exchange service tariffs. A common line-business is a line provided under the business regulations of the general and/or local exchange service tariffs.

**Communications System** - channels and other facilities which are capable of communications between terminal equipment provided by other than the Telephone Company.

**Competitive County** - The term "Competitive County" denotes the geographic unit of a county or county-equivalent that either is competitive pursuant to the F.C.C.'s competitive market test or was granted Phase II, Level 2 pricing flexibility prior to June 1, 2017. (N)  
(N)  
(N)

**Connecting Facility Assignment** - a facility identification of the channel of a high capacity service on which a slower speed service rides.

<sup>(1)</sup> In the event the Commission or a court, pursuant to any regulatory or judicial review of the Commission's *Review of the Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers*, Report and Order and Order on Remand and Further Notice of Proposed Rulemaking, CC Docket No. 01-338, FCC 03-36, para. 581 (released Aug. 21, 2003) (*Triennial Review Order*), vacates, stays, remands, reconsiders, or rejects the portion of the Triennial Review Order requiring ILECs to permit commingling, the terms and conditions of this tariff authorizing commingling, which are identified with a footnote, shall cease to be effective as of the effective date of the Commission order or the issuance of the court's mandate. In that event, the Telephone Company will provide customers that have commingled UNE(s) and/or UNE Combination(s) with wholesale services obtained under this Tariff written notice that, within 30 days, customers must either convert such UNE(s) or UNE Combination(s) to a comparable service, or disconnect such UNE(s) and/or UNE Combination(s) from those wholesale services. Failure to provide the Telephone Company instructions to convert or disconnect such UNE(s) and/or UNE Combination(s) within 30 days, as described above, shall be deemed authorization to convert the UNE(s) and/or UNE Combination(s) to comparable access services at month-to-month rates.

## ACCESS SERVICE

### 2. General Regulations (Cont'd)

#### 2.6 Definitions (Cont'd)

**Modification of Final Judgement (MFJ)** - the consent decree approved by the U.S. District Court in United States versus Western Electric 552 F. Supp. 171 (To D.C. 1982).

**Multicast Traffic** – Ethernet frames that are forwarded to multiple destinations that are identified using a multicast group address.

**Multi-Point Distribution Service** - the multi-point distribution of pay television programming via microwave broadcast transmission equipment.

**Network Control Signaling** - the transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charge signals), address signaling (e.g., dialing), calling and called number identifications, rate of flow, service selection error control and audible tone signals (call progress signals indicating re-order or busy conditions, alerting, coin denominations, coin collect and coin return tones) to control the operation of the telecommunications system.

**Network Interface** - the point of interconnection between telephone company communications facilities and terminal equipment, protective apparatus or wiring at a subscriber's premises. The network interface or demarcation point shall be located on the subscriber's side of the telephone company's protector, or the equivalent thereof in cases where a protector is not employed, as provided under the local telephone company's reasonable and nondiscriminatory standard operating practices.

**Network Terminal Number (NTN)** - in PSN service, numeric character sequence used to identify the originating and terminating locations of each user's DTE.

**Network User Identification (NUI) Code** - in PSN service, a character string, with structure defined by the Telephone Company, used as a log-in ID.

**Non-Competitive County** - The term "Non-Competitive County" denotes the geographic unit of a county or county-equivalent that neither is competitive pursuant to the F.C.C.'s competitive market test nor was subject to Phase II, Level 2 pricing flexibility prior to June 1, 2017.

## ACCESS SERVICE

### 7. Special Access Service (Cont'd)

#### 7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

Effective November 3, 2017, Competitive Counties and Non-Competitive Counties have been established and are defined in Section 2.6 and the wire centers within such counties are listed in Sections 14.2.3 and 14.2.4.

For all rate elements other than End User Local Distribution Channels and their applicable optional features,<sup>(2)</sup> price flex rates and charges, as provided in Section 21.5.2, apply, regardless of whether the county is Competitive or Non-Competitive.

For End User Local Distribution Channels and their applicable optional features,<sup>(1)(2)</sup> the application of "price cap" or "price flex" is dependent upon whether or not the serving wire center is located in a Competitive County. If the End User Local Distribution Channel is in a Competitive County, price flex rates and charges apply, as provided in Section 21.5.2. If the End User Local Distribution Channel is in a Non-Competitive County, price cap rates and charges apply, as provided in Section 7.5.

##### 7.4.1 Rate Zones

Rate zones are applicable to DS1 (1.544 Mbps) and DS3 (44.736 Mbps) services described in this section, and Special Facilities Routing Arrangements for these services as described in Section 11, following. Each Telephone Company Wire Center, under an Optional Payment Plan term, has been assigned to a rate zone. To determine the rate zone wire center assignments use the following:

- For DS1 and DS3 services subscribed to prior to March 17, 2001, the wire center rate area assignments can be found in ILL CC No. 20, Part 4, Section 2.
- For DS1 and DS3 services subscribed to on or after March 17, 2001, the wire center rate zone assignments included in the National Exchange Carrier Association, Inc. (NECA) F.C.C. Tariff No. 4 are assigned to rate zones 1, 2, 3, 4 and 5. All other Telephone Company offices are assigned to zone 5.

In addition, Local Distribution Channel, Channel Mileage and Channel Mileage Termination rates are dependent upon the zone assignment of the Serving Wire Center. Channel Mileage and Channel Mileage Termination that is computed between wire centers in different rate zones will be assessed the rates in the higher priced rate zone. Multiplexing rates will be determined by the location of the multiplexing arrangement.

##### 7.4.2 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. The rates and charges are described as follows:

###### (A) Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

Note: Base Rate Service rate areas will continue to be found in ILL. C.C. No. 20, Part 4, Section 2.

<sup>(1)</sup> Until February 1, 2018, End User Local Distribution Channels and their applicable optional features that had not qualified for Phase II, Level 2 pricing flexibility prior to June 1, 2017, will be rated at the price cap rate regardless of the status of the county in which the applicable wire center is located.

<sup>(2)</sup> Optional features for End User channel terminations includes all optional features in Section 7.5, except for the Transfer Arrangement and Network Reconfiguration Service.

**ACCESS SERVICE**

**7. Special Access Service (Cont'd)**

**7.5 Rates and Charges**

Effective November 3, 2017, all rate elements, other than End User Local Distribution Channels and their applicable optional features<sup>(3)</sup> in Non-Competitive Counties, are no longer available from Section 7.5 for new service subscriptions.<sup>(2)</sup> The application of rates and charges for Special Access services is based upon the county classification as Competitive or Non-Competitive, as provided in Section 7.4. A list of Competitive and Non-Competitive Counties is located in Sections 14.2.3 and 14.2.4.

(N)  
|  
(N)

**7.5.1 Metallic Service**

		<b>USOC</b>	<b>Monthly Rate</b>	
<b>(A)</b>	Local Distribution Channel - Per point of termination	TNVG2	\$17.90	
<b>(B)</b>	Channel Mileage Termination <sup>(1)</sup> - Per point of mileage termination	CM6	None	(T)
<b>(C)</b>	Channel Mileage <sup>(1)</sup> - Per mile	1L5XX	9.46	(T)

<sup>(1)</sup> Metallic circuits beyond five miles are limited to existing circuits.

<sup>(2)</sup> Until February 1, 2018, End User Local Distribution Channels and their applicable optional features that had not qualified for Phase II, Level 2 pricing flexibility prior to June 1, 2017, will be rated at the price cap rate regardless of the status of the county in which the applicable wire center is located.

<sup>(3)</sup> Optional features for End User channel terminations includes all optional features in Section 7.5, except for the Transfer Arrangement and Network Reconfiguration Service.

## ACCESS SERVICE

### 14. Operating Territory of the Ameritech Operating Companies

#### 14.1 Operating Territory

(N)

Wire Center and Interconnection Information is set forth in Exchange Carrier Association Tariff F.C.C. No. 4 (ECA No. 4).

#### 14.2 Competitive and Non-Competitive Counties

(N)

##### 14.2.1 General

Counties and county-equivalents within the Telephone Company's operating territories are either Competitive or Non-Competitive for the purposes of pricing Special Access Services. The application of the Competitive and Non-Competitive designations is described in Section 7.4.

Rates and charges for Competitive rate elements are provided in Section 21, and for Non-Competitive rate elements, the rates and charges are provided in Section 7.5.

For Special Access services, as provided in Section 7, rates and charges for End User Local Distribution Channels and their applicable optional features<sup>(2)</sup> in Non-Competitive Counties are the price cap rates.<sup>(1)</sup>

##### 14.2.2 Rate Regulations

The application of rates and charges for Special Access services, as provided in Section 7, is based upon the county classification as Competitive or Non-Competitive, as provided in Section 7.4. A list of Competitive and Non-Competitive Counties is located in Sections 14.2.3 and 14.2.4.

<sup>(1)</sup> Until February 1, 2018, End User Local Distribution Channels and their applicable optional features that had not qualified for Phase II, Level 2 pricing flexibility prior to June 1, 2017, will be rated at the price cap rate regardless of the status of the county in which the applicable wire center is located.

<sup>(2)</sup> Optional features for End User channel terminations includes all optional features in Section 7.5, except for the Transfer Arrangement and Network Reconfiguration Service.

**ACCESS SERVICE**

**21. Metropolitan Statistical Area Access Services (Cont'd)**

21.1 General Description

(A) This section of the tariff provides the regulations, rates and terms and conditions that apply to telecommunications services provided by the Telephone Company in the Metropolitan Statistical Areas (MSAs) in which the Telephone Company has received Phase II pricing flexibility pursuant to Subpart H of Part 69 of the Commission's Rules. MSAs are divided into the categories below:

(1) Full Service MSAs

Full Service Relief MSAs are those MSAs which qualified for Phase II pricing flexibility for all elements of service, i.e., local channels (channel terminations) between LEC end offices and customer (end user) premises; entrance facilities; dedicated interoffice facilities; local channels (channel terminations) between an interexchange carrier's point of presence and a serving wire center. The Full Service Relief MSAs are set forth in Section 21.2 (A).

(2) Limited Service MSAs

Limited Service Relief MSAs are those MSAs that qualified for Phase II pricing flexibility for all elements of service except local channels (channel terminations) between a LEC end office and a customer (end user) premise. The Limited Service Relief MSAs are set forth in Section 21.2 (B).

(B) The services provided in MSAs pursuant to this section of the tariff are set forth in Section 21.3. These services are comparable to the Special Access Services in Sections 7 and 11 and to the Switched Access Dedicated Transport Services in Section 6. The general regulations, service descriptions and rate regulations for the Special Access Services in Sections 7 and the Switched Access Services in Section 6 are also applicable to the services specified in this section.

(C) Unless otherwise provided for in this section, regulations set forth in Sections 1, 2, 5, 13 and 14 are also applicable.

(C)
