 Third Revised Page 1  
 Cancels Second Revised Page 1  
 EFFECTIVE: August 23, 2013

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES**

In this section normally scheduled working hours are an employee's scheduled work period in any given calendar day (e.g., 7:00 a.m. to 4:00 p.m.) for the application of rates based on working hours.

**E13.1 Additional Engineering**

- A. Additional Engineering will be provided by the Company at the request of the customer only when:
  - 1. A customer requests additional technical information after the Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in E6.1.5 and E7.1.7 preceding.
- B. The Company will notify the customer that additional engineering charges, as set forth in E13.1.3 following, will apply before any additional engineering is undertaken. These charges apply per Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request.

**E13.1.1 Reserved for Future Use**

**E13.1.2 Reserved for Future Use**

**E13.1.3 Charges For Additional Engineering**

- A. The charges for additional engineering are as follows:
  - 1. Additional Engineering Periods

	<b>First Half Hour Or Fraction Thereof</b>	<b>Each Additional Half Hour Or Fraction Thereof</b>	<b>USOC</b>
(a) Basic Time, normally scheduled working hours	<b>\$31.00</b>	<b>\$22.00</b>	<b>AEH</b>
(b) Overtime, outside of normally scheduled working hours	<b>37.00</b>	<b>26.00</b>	<b>AEH</b>

**E13.2 Additional Labor**

In this section Normal Business Day is Monday – Friday, 8 am – 5 pm,

All charges apply per technician,

Holidays will be defined as: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day

Additional labor is that labor requested by the customer on a given service and agreed to by the Company as set forth in E13.2.1 through E13.2.5 following. The Company will notify the customer that additional labor charges as set forth in E13.2.6 following will apply before any additional labor is undertaken.

The Labor charges apply per Company employee performing billable work at the customer's request. The sum of the time is used to determine the number of 30-minute increments to be billed. Only one initial increment is to be billed per request. A request for additional labor by a Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of four hours.

**E13.2.1 Overtime Installation**

Work related efforts of the Telephone Company performed outside a Normal Business Day.

**E13.2.2 (DELETE)**

**E13.2.3 Stand By**

Stand by includes all time in excess of one-half (1/2) hour during which Company personnel stand by to make cooperative tests with a customer to verify facility repair on a given service.

## E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

### E13.3 Miscellaneous Services

#### E.13.3.1 Maintenance of Service

The charges for Maintenance of Service are deregulated. Terms and conditions are located in the AT&T Interstate Access Guidebook. (T)

#### E13.3.2 Reserved For Future Use

#### E13.3.3 BellSouth Equal Access Subscription

##### A. Description

##### 1. BellSouth Equal Access Subscription

BellSouth Equal Access Subscription is a procedure whereby an end user for Telephone Exchange Service lines and/or trunks or the location provider or its authorized agent of pay telephones may select and designate to the Company an IC to access for intraLATA calls without dialing an access code. The end user or location provider or its authorized agent may designate an IC for intraLATA, a different IC for interLATA, or the same IC for both. This IC is referred to as the end user's or pay telephone location provider's or its authorized agent's preferred IC and is defined by a unique Carrier Identification Code (CIC) shown on the customer service record.

Should a customer wish to use other services of the same or another IC, it will be necessary for the customer to dial the necessary access code(s) to reach that IC's other service(s).

For Independent Payphone Providers subscribing to SmartLine\* service, the IC designated as the primary IC for 0+ intraLATA traffic may direct the routing of 1+ intraLATA calls either to itself or another IC (transport carrier), without dialing of an access code, subject to provisions set forth following. The option chosen by the IC will apply to all pay telephones provided from all end offices subtending an access tandem which are subscribed to that IC. (T)

## ACCESS SERVICES TARIFF

PSC KY. TARIFF 2E  
Sixth Revised Page 3.1  
Cancels Fifth Revised Page 3.1  
EFFECTIVE: November 28, 2000

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.3 BellSouth Equal Access Subscription (Cont'd)****A. Description (Cont'd)****1. BellSouth Equal Access Subscription (Cont'd)**

The IC shall submit an order for all end offices subtending an access tandem indicating whether 1+ IntraLATA traffic from its subscribed pay telephones shall be routed to itself (as direct IC) or to another IC (as transport carrier). Recordings with alternate dialing instructions are not acceptable. If calls are to be routed to a transport IC, the 0+ IC must provide written authorization certifying that the order is being submitted pursuant to an agreement with the transport carrier. Only one transport carrier may be indicated for each access tandem.

If the IC designated as the primary IC for 0+ IntraLATA traffic does not submit an order designating the transport carrier for 1+ IntraLATA traffic for pay telephones at all end offices subtending an access tandem, the 1+ IntraLATA traffic for that office will continue to be routed to the Company as of July 1, 1995, or until the subscribed 0+ carrier is ready to handle the 1+ IntraLATA sent-paid traffic, or makes arrangements with another IC to handle the traffic.

**B. Verification of Choice of IC**

ICs must request verification of choice from their customers/*subscribers*. All letters of agency, recordings, or other evidence of *verification* shall be maintained by the IC for a *minimum period of two years after obtaining such verification*. (C)

**1. Verification of Orders**

No IC (*submitting carrier*) shall submit to the Company a primary or preferred interexchange carrier (PIC) change order unless and until the order has first been confirmed in accordance with one of the following procedures: (C)

a. The IC has obtained the customer's written *or electronically signed* authorization *and/or verification* to submit the order that explains what occurs when a PIC is changed and confirms: (C)

- the customer's billing name and address and each telephone number to be covered by the PIC change order;

- the decision to change the PIC to the IC;

-if the PIC change order applies to a number in an area with at Two-PIC system, clearly states that the customer has authorized the change of his intraLATA PIC, his interLATA PIC, or both; and

- the customer's understanding of the PIC change fee; or

b. The IC has obtained the customer's electronic authorization, placed from the telephone number(s) on which the PIC is to be changed, to submit the order that confirms the information described in a. preceding to confirm the authorization; or

c. An appropriately qualified independent third party has obtained the customer's *oral* authorization to submit the PIC change order that confirms the information described in a. and includes appropriate verification data (e.g., the customer's date of birth or social security number). (T)

An appropriately qualified independent third party must operate in a location physically separate from the IC and may not be owned, managed, controlled, or directed by the soliciting IC, nor can it receive financial incentives or *confirm* IC changes. (T)

d. Such other verification procedures as may be specified by the Kentucky Public Service Commission in rules or regulations which are consistent with rules promulgated by the Federal Communications Commission pursuant to 47 United States Code Section 258, *revision released August 25, 2000 and effective November 28, 2000*. (C)

2. The IC must submit a PIC change order, no more than 60 days after obtaining the written or electronically signed authorization. (N)

## 1. Definitions:

- a. Authorized carrier is defined as any carrier that submits a change, on behalf of an end user or location provider or its authorized agent, in the selection of a primary or preferred interexchange carrier (PIC) with authorization verified. (N)
- b. Unauthorized carrier is defined as any carrier that submits a change, on behalf of an end user or location provider or its authorized agent, in the selection of a primary or preferred interexchange carrier (PIC) but fails to verify authorization. (N)
- c. Unauthorized change is a change in end user or location provider or its authorized agent's selection of a primary or preferred interexchange carrier (PIC) that was made without authorization. (N)

- 2. When the Company is informed by an end user or location provider or its authorized agent of an alleged unauthorized change, the Company shall notify both the authorized and alleged unauthorized carrier of the incident. The Company shall direct the end user or location provider or its authorized agent to the relevant governmental agency, when an alleged unauthorized change is reported, for determination of fault. (N)

In accordance with FCC Slamming Liability Rules, FCC Docket 94-129, the relevant governmental agency, in this instance the Kentucky Public Service Commission, will determine whether an unauthorized change occurred and resolution shall be handled directly with the authorized carrier, the unauthorized carrier and the end user, location provider or its authorized agent. (N)

- 3. When two or more IC orders are received for an end user or pay telephone line, the order with the latest application date determines customer choice. (T)

ICs involved in changes will be notified by the weekly activity report via paper format or mechanized interface in Network Operations Forum (NOF) format.

- 4. *The alleged unauthorized carrier* will be assessed the subscription change charge as specified in E., following, *when an alleged unauthorized change has been reported by* the end user or pay telephone location provider or its authorized agent. (C)

**D. BellSouth Equal Access Subscription Charge Application**

- 1. New end users or location providers or its authorized agent of pay telephone will be asked to select a preferred IC for IntraLATA at the time they place an order with the Company for Telephone Exchange Service. There will be no charge for this initial selection. The nonrecurring charge for all other changes is as set forth in E., following.

A subscription charge will apply for each IntraLATA PIC change submitted, except as provided in 1. preceding and in cases where the IntraLATA PIC change request is submitted along with an InterLATA PIC change request. The applicable subscription charge for each InterLATA PIC change submitted is as set forth in the BellSouth Telecommunications, Inc. Tariff FCC No. 1, Section 13.3.3.

- 2. On-Line Transfer Service is available to ICs participating in IntraLATA subscription for the purpose of assisting ICs and customers in the establishment of the end user's or pay telephone location provider's or its authorized agent's account. This service is not applicable when the end user initiates a request via the internet. Once the end user or location provider or its authorized agent selects a preferred IC, the Company representative will provide the end user or location provider with the preferred IC's 800 telephone number. If the preferred IC participates in On-Line Transfer Service the end user or location provider or its authorized agent will have the option of being transferred directly to the preferred IC.
  - a. On-Line Transfer Service is available in all states within the Company's operating territory. On-Line Transfer Service may be ordered through a service agreement submitted to the Company. The service must be ordered on a state basis.
  - b. On-Line transfer cannot be offered and will not be available to end user's or pay telephone location provider's or its authorized agent's when the end user or location provider or its authorized agent has selected a preferred IC for IntraLATA subscription, and a preferred IC for InterLATA subscription and the preferred ICs are not the same IC, and both ICs participate in the On-Line Transfer service.

Furthermore, when the Telephone Company uses third party verification to confirm its selection as local or intraLATA toll service provider, On-Line Transfer service will not be available.

**E13.3 Miscellaneous Services (Cont'd)**

**E13.3.3 BellSouth Equal Access Subscription (Cont'd)**

**D. BellSouth Equal Access Subscription Charge Application (Cont'd)**

2. (Cont'd)

c. The Company representative will make one attempt to transfer the end user or location provider of pay telephones to the preferred IntraLATA IC. When the transfer is completed and the Company's representative receives one audible ring, the representative will disconnect from the call. If a busy line or circuit busy is encountered, the end user or pay telephone location provider or its authorized agent will be instructed to dial the preferred IntraLATA IC's 800 telephone number, previously provided, at a later time.  
 The preferred IC will be billed applicable charges for the transfer as provided in E.2. following.

d. The preferred IC must comply with the following guidelines:

- (1) The preferred IC must provide a dedicated 800 number for the end user or location provider or its authorized agent transfer.
- (2) On-Line Transfer Service calls must be processed on a first priority basis, i.e., 95 percent of all calls transferred must be answered by the preferred IC within 30 seconds.
- (3) The preferred IC must process transferred calls within six minutes.

e. The preferred IC must provide notification thirty days prior to discontinuance of this service.

3. If an IC elects to discontinue BellSouth SWA FGD or BellSouth SWA TSBSA 3 service in an equal access end office, the IC is obligated to contact, in writing, all end users or location providers or its authorized agent of pay telephones, who have selected, the canceling IC as their primary IC. The IC must inform the end user or pay telephone location provider or its authorized agent that they are canceling their BellSouth SWA FGD or BellSouth SWA TSBSA 3 service; request that the end user or location provider or its authorized agent select a new IC; and state that the canceling IC will pay the change charge.

For a period of two years from the date of BellSouth SWA FGD or BellSouth SWA TSBSA 3 discontinuance, the IC discontinuing service will be responsible for paying the change charge for any of its designated end users or pay telephone location providers or its authorized agent.

4. IC Pays Billing Option

The IC Pays Billing Option is an option that permits an IC to be charged by The Telephone Company for their end user's intraLATA PIC change charge when the Telephone Company changes an end user's primary IC assignment.

The intraLATA PIC change may either be requested via an IC-provided end user or agent list submitted in the Customer Account Record Exchange (CARE) format (IC Pays – Carrier Initiated) or by the end user directly to the Telephone Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the intraLATA PIC change charge on a case by case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all end user intraLATA PIC changes to the IC's CIC (and at the IC's option, changes from the IC's CIC to "No intraLATA PIC" initiated through the Telephone Company will be redirected to the IC.

The IC submitting the intraLATA PIC change must sign an IC Pays Billing Option agreement with the Telephone Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user will not be assessed the IntraLATA Subscription change charge for the intraLATA PIC change.

The IC participating in the IC Pays Billing Option will pay the applicable charge for a change in IntraLATA Subscription as set forth in the following Section 13.3.3.E.1

**E. The nonrecurring charge for a change in IntraLATA Subscription; and the charges for On-Line Transfer Service are as follows:**

1. Subscription change, per line or trunk

	<b>Nonrecurring Charge<sup>1</sup></b>	<b>USOC</b>
(a) billed to end user or pay telephone location provider or its authorized agent	<b>\$3.07</b>	<b>EAJCP</b>
(b) billed to IC	<b>3.07</b>	<b>EAJCP</b>
(c) alleged unauthorized change	<b>3.07</b>	<b>EAJXB</b>

**Note 1:** This charge will not apply in cases where the IntraLATA PIC change request is submitted along with an InterLATA PIC change request.

**E13.3.4 Standard Jacks - Registration Program****A.** Provision of Standard Jacks

Standard jacks are provided by the Company to connect Registered Equipment to those services that are subject to the Registration Program as set forth in Technical Reference Publication AS No. 1. The use of jacks is covered in Part 68 of the FCC's Rules and Regulations. Specific jacks are described in the document on file with the FCC entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations Described in Subpart F of Part 68 of the FCC's Rules and Regulations".

**B.** Use of Standard Jacks

These jacks are used to terminate services provided by the Company. Other services or facilities provided by the Company or by others may also be terminated in any spare capacity of the jacks remaining after installation without additional charge for the use of such capacity.

 EFFECTIVE: February 16, 1997

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.5 Testing Services**

- A.** Testing Services offered under this section of the Tariff are optional and subject to rates and charges as set forth in E13.3.5.F. following. Other testing services provided by the Company in association with Access Services are furnished at no additional charge. These other testing services are described in E6.1.6 and E7.1.7 preceding.
- B.** Testing services are normally provided by Company personnel at Company locations. However, provisions are made in D.6. and E.2. following for a customer to request Company personnel to perform testing services at the customer's premises.
- C.** The offering of Testing Services under this section of the Tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in D., E., and F. following.
- D. *BellSouth SWA* Service** (T)
1. Categories of Tests (T)
 

Testing Services for *BellSouth SWA* are comprised of (a) tests which are performed during the installation of a *BellSouth SWA* service and (b) tests which are performed after acceptance of such access services by a customer, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

    - a. Scheduled Tests (T)
 

Scheduled tests are those tests performed by the Company on a regular basis, e.g., monthly, which result in the measurement of *BellSouth SWA* service. Scheduled tests may be done on an automatic basis (no Company or customer technician(s) involved), on a cooperative basis (Company technician(s) involved at Company office(s) and customer technician(s) involved at the customer premises), or on a manual basis (Company technician(s) involved at Company office(s) and at the customer's premises).
    - b. Nonscheduled Tests (T)
 

Nonscheduled tests are performed by the Company "on demand", which result in the measurement of *BellSouth SWA* services. Nonscheduled tests may involve Company technician(s) at Company offices and at the customer's premises.
  2. Additional Cooperative Acceptance Testing (T)
    - a. Additional Cooperative Acceptance Testing (ACAT) of *BellSouth SWA* service involves the Company provision of a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests.
    - b. Additional Cooperative Acceptance Tests may, for example, consist of the following tests:
      - Impulse Noise
      - Phase Jitter
      - Signal To C-Notched Noise Ratio
      - Intermodulation (Nonlinear) Distortion
      - Frequency Shift (Offset)
      - Envelope Delay Distortion
      - Dial Pulse Percent Break

3. Automatic Scheduled Testing
  - a. Automatic Scheduled Testing (AST) of *BellSouth SWA* services (*BellSouth SWA FGD* and *BellSouth SWA TSBSA 3*), where the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent, will consist of monthly loss and C-message or C-notched noise tests. (D)  
(D)  
However, the customer may specify a greater number of tests. In addition to the loss and noise tests, the IC may also order, at additional charges, gain-slope and balance testing.
  - b. The Company will provide a monthly AST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.
4. Cooperative Scheduled Testing
  - a. Cooperative Scheduled Testing (CST) of *BellSouth SWA* services (*BellSouth SWA FGB*, *BellSouth SWA FGD*, *BellSouth SWA TSBSA* and *BellSouth Directory Assistance* Access Service not routed through an access tandem), where the Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests, will consist of quarterly loss and C-message or C-notched noise tests. However, the customer may specify a greater number of tests. In addition to the loss and noise tests, the customer may also order, at additional charges, gain-slope and balance testing. (D)
  - b. The Company will provide, on a quarterly basis, a CST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.
5. Manual Scheduled Testing
  - a. Manual Scheduled Testing (MST) of *BellSouth SWA* services (*BellSouth SWA FGB*, *BellSouth SWA FGD*, *BellSouth SWA TSBSA 1* and *BellSouth SWA TSBSA 3* and *BellSouth Directory Assistance* Access Service not routed through an access tandem), where the Company provides a technician at its office(s) and at the customer's premises, will consist of quarterly loss and C-message or C-notched noise tests. However, the customer may specify a greater number of tests. In addition to the loss and noise tests, the customer may also order, at additional charges, gain-slope, and balance testing.
  - b. The Company will provide, on a quarterly basis, an MST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.
6. Nonscheduled Testing
  - a. Nonscheduled Testing (NST) of *BellSouth SWA* Services is where:
    - (1) The customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent ("automatic testing"), or
    - (2) The Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests ("cooperative testing"), or
    - (3) The Company provides a technician at its office(s) and/or at the customer's premises, with suitable test equipment to perform the required tests ("manual testing").

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.5 Testing Services (Cont'd)****D. BellSouth SWA Service (Cont'd)** (T)

## 6. Nonscheduled Testing (Cont'd)

b. Nonscheduled Tests may consist of any test (s.) required by the IC, for example, loss, noise, slope, envelope delay<sup>1</sup> or balance.

## 7. Obligations of the Customer

a. The customer shall provide the Remote Office Test Line priming data to the Company, as appropriate, to support AST as set forth in E13.3.5 preceding or NST as set forth in E13.3.5 preceding.

b. The customer shall make the facilities to be tested available to the Company at times mutually agreed upon.

c. Access to the test lines for *BellSouth SWA FGD and BellSouth SWA* TSBSA 3 service should follow protocols recommended in Technical Reference TR-NPL-00258. (T)

**E. Special Access (a.k.a. BellSouth SPA) Service** (T)

The Company will, at the request of a customer, provide assistance in performing specific tests requested by the customer.

## 1. Additional Cooperative Acceptance Testing (ACAT)

When a customer provides a technician at its premises or at an end user's premises, with suitable test equipment to perform the required tests, the Company will provide a technician at its office for the purpose of conducting Additional Cooperative Acceptance Testing on voice grade services. At the customer's request, the Company will provide a technician at the customer premises or at the end user premises. These tests may, e.g., consist of the following:

- Attenuation Distortion (i.e., frequency response)
- Intermodulation Distortion (i.e., harmonic distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay Distortion
- Echo Control
- Frequency Shift

## 2. Nonscheduled Testing (NST)

When a customer provides a technician at its premises with suitable test equipment to perform the required tests, the Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the customer's request, the Company will provide a technician at the customer's premises. Nonscheduled tests, may consist of any tests, e.g., loss, noise, slope, envelope delay.

A customer may also request nonscheduled testing for the purpose of isolating trouble. If no trouble is found in the Company's facilities, the customer shall be responsible for paying nonscheduled testing charges as set forth in F.2.b following.

## 3. Obligation of the Customer

When the customer subscribes to Testing Service as set forth in this section, the customer shall make the facilities to be tested available to the Company at times mutually agreed upon.

**Note 1:** Envelope delay tests are not available with Automatic Testing.

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES**

**E13.3 Miscellaneous Services (Cont'd)**

**E13.3.5 Testing Services (Cont'd)**

F. Rates and Charges

1. *BellSouth SWA*

a. Additional Cooperative Acceptance Testing

(1) Testing Periods

	<b>First Half Hour Or Fraction Thereof</b>	<b>Each Additional Half Hour Or Fraction Thereof</b>	<b>USOC</b>
(a) Basic Time, normally scheduled working hours.	<b>\$27.60</b>	<b>\$19.84</b>	<b>UBCX+</b>
(b) Overtime, outside of normally scheduled working hours on a scheduled working day.	<b>31.85</b>	<b>24.10</b>	<b>UBCX+</b>
(c) Premium Time, outside of scheduled work day.	<b>36.11</b>	<b>28.36</b>	<b>UBCX+</b>

b. Automatic Scheduled Testing (AST)

AST requires a minimum yearly contract for twelve 1004 Hz Loss Tests and twelve C-Message or C-Notched Noise Tests per circuit. However, at the customer's option, a greater number of tests may be contracted for. As illustrated in the following example, billing for each test ordered will be spread over a twelve month period. Optional tests, as set forth in (2) following, may be contracted for at additional charges. Sixty (60) days notice is required when a request for a greater number of tests or subsequent to the initial order.

(1) To first point of switching, Basic Tests<sup>1</sup>, per test ordered, per year

	<b>Monthly Rate</b>	<b>USOC</b>
(a) 1004 Hz Loss Tests performed in a one year period, per circuit	<b>\$.21</b>	<b>UBGX+</b>
(b) C-Message Noise Tests performed in a one year period, per circuit	<b>.21</b>	<b>UBGX+</b>
(c) C-Notched Noise, Tests performed in a one year period, per circuit	<b>.21</b>	<b>UBGX+</b>

(2) To first point of switching, Optional Tests, per ordered, per year

(a) Return Loss (Balance) Tests performed in a one year period, per circuit	<b>.21</b>	<b>UBGX+</b>
(b) Gain-Slope Tests performed in a one year period, per circuit	<b>.21</b>	<b>UBGX+</b>

Example - At a minimum a customer would schedule 12 1004 Hz Loss Tests and 12 C-Message Noise Tests or 12 1004 Hz Loss Tests and 12 C-Notched Noise Tests, for a total of 24 basic tests per circuit per year. the charges would be computed on a monthly basis as follows:

Min. Basic Tests Per Year (24) x Mo. Rate Per Test (**\$.21**)= Min. Mo. Charge (\$5.04)

**Note 1:** Subject to a one year minimum contract period and annually thereafter.

F. Rates and Charges (Cont'd)

1. *BellSouth SWA* (Cont'd)

c. Cooperative Scheduled Testing (CST)

CST requires a minimum yearly contract for four 1004 Hz Tests and four C-Message or C-Notched Noise Tests per circuit. However, at the IC's option, a greater number of tests may be contracted for. As illustrated in the following example, each test ordered will be billed to the customer on a monthly basis over a twelve month period. Optional tests, as set forth in (2) following, may be contracted for at additional charges. Sixty (60) days notice is required when a request for a greater number of tests or additional tests is made subsequent to the initial order.

(1) To first point of switching, Basic Tests<sup>1</sup>, per test ordered, per year

	<b>Monthly Rate</b>	<b>USOC</b>
(a) 1004 Hz Loss Tests performed within a one year period, per circuit	<b>\$.56</b>	<b>UBSX+</b>
(b) C-Message Noise Tests performed within a one year period, per circuit	<b>.56</b>	<b>UBSX+</b>
(c) C-Notched Noise Tests performed within a one year period, per circuit	<b>.56</b>	<b>UBSX+</b>
(2) To first point of switching, Optional Tests, per test ordered, per year		
(a) Return Loss (Balance) Tests performed within a one year period, per circuit	<b>.78</b>	<b>UBSX+</b>
(b) Gain-Slope Tests performed within a one year period, per circuit	<b>.85</b>	<b>UBSX+</b>

Example - At a minimum a customer would schedule 4 1004 Hz Loss Tests and 4 C-Message Noise Tests or 4 1004 Hz Loss Tests and 4 C- Notched Noise Tests, for a total of 8 basic tests per circuit per year. The charges would be completed on a monthly basis as follows:

Min. Basic Test Per Year	Mo. Rate Per Test	Min. Mo. Charge
8	.56	\$4.48

d. Manual Scheduled Testing (MST)

MST requires a minimum yearly contract for four 1004 Hz Loss Tests and four C-Message or C-Notched Noise Tests per circuit. However, at the IC's option, a greater number of tests may be contracted for. As illustrated in the following example, each test ordered will be billed to the customer on a monthly basis over a twelve month period. Optional tests, as set forth in (2) following, may be contracted for at additional charges. Sixty (60) days notice is required when a request for a greater number of tests or additional tests is made subsequent to the initial order.

**E13.3.6 Provision of Access Service Billing Options**

- A. At the customer's request and at no charge, the customer may choose as the primary billing medium one of these billing formats: standard paper, magnetic tape, data transmission or CD-ROM/Computer diskette. The standard paper, magnetic paper and data transmission mediums will also include, at the customer's option, billing via CD-ROM/computer diskette.
- B. When magnetic tape is requested as the primary monthly bill, the Company does not require the customer to return previously supplied tapes.
- C. When data transmission is requested as the primary monthly bill, the data may be transmitted at either 50 kbps or 56 kbps for customers using T-TRAN software, or 56 kbps for customers using Network Data Mover (NDM\*) software.
- D. The customer will receive an abbreviated bill in paper format when the magnetic tape or data transmission option is chosen as the primary billing medium. The abbreviated bill will conform with industry standard billing data output.
- E. CD-ROM and computer diskette billing provide an electronic transmission medium for the customer's use in reading and printing access bills. Only one CD-ROM or set of diskettes will be provided per bill period.
- F. The Company will accept a request for change from one form of primary billing medium to another at no charge to the customer. Where a customer requests combinations of more than one type of billing media, and the Company can, with reasonable effort, comply with that request, such combinations will be provided to the customer.
- G. At the option of the customer, and for additional charges, additional copies of the access bill will be provided on magnetic tape format, transmitted to the customer's premises by data transmission, or provided on microfiche film. Additional paper or microfiche copies of the access bill or the customer service record may also be requested.
- H. When a customer elects to receive second and subsequent copies of its access bill in magnetic tape format, only one copy of the magnetic tape will be provided. The Company does not require the customer to return previously supplied tapes. Rates and charges for magnetic tape format apply on a per tape, and per information record basis.
- I. When a customer elects to receive second and subsequent copies of its access bill by data transmission, the data may be transmitted at either 50 kbps or 56 kbps for customers using T-TRAN software, or at 56 kbps for customers using Network Data Mover (NDM\*) software. Rates and charges for data transmission apply on a per information record.

**E13.3.6 Provision of Access Service Billing Information (Cont'd)**

- J. A maximum of 99 copies of the access bill will be provided in microfiche format. Unless otherwise specified by the customer, microfiche copies will be sent to the customer's billing address. Rates and charges for microfiche copies apply on a per page basis. Per page charges are to be applied on a first and additional basis. The first page - per copy charge applies to the initial provision of a given microfiche film page to a customer, and the additional copy - per page charge applies to the provision of each additional copy of such page to the customer.
- K. A maximum of eight additional paper copies of the access bill may be requested and all copies will be sent to the customer's billing address. Rates and charges for paper copies are on a per page basis.
- L. Unless otherwise specified by the customer, paper copies, *microfiche copies*, magnetic tape *and/or CD-ROM/computer diskette* will be sent via U.S. Mail service. However, at the customer's request, the customer or the customer's representative may pick up the paper copies or tape at a location designated by the Company.
- M. The customer may deem it necessary to request the Company resend the access service billing information. Such a request, when not the result of Company error, will be subject to the same rates and charges as an original request for copies of access service billing information. These are set forth in (N) following.
- N. The rates and charges for the provision of Access Service billing information are as follows:

	<b>Monthly Rate</b>	<b>USOC</b>
1. Provision of billing detail in magnetic tape format

(a) Each	<b>Monthly Rate</b>	<b>USOC XTDDU</b>
	<b>\$93.41</b>	

**E13.3.9 Telecommunications Service Priority (TSP) System**

**A. Service Description**

- 1. The Telecommunications Service Priority (TSP) System is a structured coding scheme that prescribes the order in which National Security Emergency Preparedness (NSEP) telecommunications services are installed or restored. The TSP System was developed to support the requirements of the U. S. Government and applies only to NSEP telecommunications services to which the Company is able to apply priority treatment. It requires and authorizes priority action by the Company.
- 2. Conditions of emergency or crises that cause invocation of NSEP treatment can only be declared by authorized officials of the Federal Government or other officials (Federal or non-Federal) specified by the Manager - Office of Emergency Communications (OEC) on behalf of the Executive Office of the President of the United States. (T)

**B. Service Limitations**

- 1. Priority installation and/or restoration of NSEP telecommunications services shall be provided in accordance with Part 64.401, Appendix A, of the Federal Communications Commission's Rules and Regulations.  
 In addition, TSP System service shall be provided in accordance with the guidelines set forth in "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service User Manual" (OEC manual 3-1-1 dated July 9, 1990) and "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service Vendor Handbook" (OEC manual 3-1-2 dated July 9, 1990). (T)
- 2. The customer for the TSP System service must also be the same customer for the underlying Access Service with which it is associated.
- 3. The Company will arrange for the installation and/or restoration of TSP System service upon receipt of the proper certification as specified in B.1. preceding.
- 4. It is the responsibility of the TSP user to provide the TSP Authority Code to the Company with each service request.

## ACCESS SERVICES TARIFF

PSC KY. TARIFF 2E  
First Revised Page 19  
Cancels Original Page 19  
EFFECTIVE: October 10, 2013

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)****B. Service Limitations (Cont'd)**

5. When performing Priority Installation or Priority Restoration (repair) on TSP-designated services in compliance with the Rules and Regulations cited in B.1. preceding, the Company may not be in a position to notify the customer regarding additional labor charges if additional labor is required. The customer recognizes that quoting charges and obtaining permission to proceed with the installation or restoration of service may cause unnecessary delays and grants the Company the right to quote charges after the installation or restoration has been completed.

**C. Rules and Regulations**

1. Under certain conditions, it may be necessary to preempt one or more customer services with a lower (or no) restoration priority in order to install or restore NSEP telecommunications service(s). If preemption is necessary and if circumstances permit, the Company will make every reasonable effort to notify the preempted customer of the action to be taken. Credit allowance for service preemption will adhere to the provisions appearing in E2.4 of this Tariff.
2. No charge applies when a TSP designation is discontinued.
3. With the exception of credit information, a customer obtaining TSP System service acknowledges and consents to the provision of certain customer service details by the Company to the Federal Government to allow for the proper maintenance and administration of the TSP System. That information includes but is not necessarily limited to:
  - Confirmation of completed TSP service orders directly to the Manager, Office of Emergency Communications (OEC); (T)
  - Verification of installation and/or restoration priority level assignment(s) with the Manager, OEC; (T)
  - Reconciliation of TSP service information with the Manager, OEC, or the customer (prime service vendor). (T)

**D. Definitions****Office of Emergency Communications (OEC)** (T)

The OEC is established under the Executive Office of the President of the United States and is responsible for the day-to-day operations of the TSP System. This includes maintaining a twenty-four hour point-of-contact to handle emergency provisioning requests, assigning priority levels and Authorization Codes and maintaining data on TSP assignments. (T)

**National Security Emergency Preparedness (NSEP) Services**

NSEP services are telecommunications services that are used to maintain a state of readiness or to respond to and manage any events or crises (local, national or international) which causes or could cause injury or harm to the population, damage to or loss of property, or degrade or threaten the NSEP posture of the United States.

**Prime Vendor**

The service vendor from whom the service user or its authorized agent orders service.

**Priority Installation (PI)**

Provisioning, on a priority basis, of a new TSP service authorized as so urgent that it must be provided earlier than the Company's standard provisioning interval.

**Priority Restoration (PR)**

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES**

**E13.3 Miscellaneous Services (Cont'd)**

**E13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)**

**D. Definitions (Cont'd)**

Restoration, on a priority basis, of an existing TSP service for which any interruption would have serious adverse impact on the supported NSEP function.

**Subcontractor**

The service vendor from whom the prime vendor obtains service for the completion of the prime vendor's end-to-end service.

**Telecommunications Service Priority (TSP) System**

TSP is a structured coding scheme that establishes the order in which NSEP services are to be installed or restored in the event of an emergency. The TSP System was developed to ensure priority treatment of the nation's most important telecommunications services.

**TSP Authorization Code**

A twelve character code that identifies an NSEP TSP service and denotes the order in which that service is to be provisioned (installed) and/or restored.

**E. TSP Rate Categories**

1. There are two basic rate categories which apply to TSP System service:
  - a. Priority Installation
  - b. Priority Restoration
    - Level Implementation
    - Level Change
    - Maintenance/Administration
2. Certain activities associated with the TSP System are included in the rate elements as follows:
  - a. Priority Installation includes order coordination.
  - b. Priority Restoration includes system development, verification and confirmation.

**F. Rates and Charges**

1. The following rates and charges are in addition to all other rates and charges that may be applicable for other services furnished in conjunction with TSP service:
  - a. Priority Installation (PI)<sup>1</sup>
    - (1) Per Circuit

	<b>Nonrecurring Charge</b>	<b>Monthly Rate</b>	<b>USOC</b>	
(a) Prime vendor	\$85.82	\$-	P1APX	(R)

**E13.3.10 BellSouth Administrative Management Service**

A. Service Description

1. General

BellSouth Administrative Management Service provides customers access to other Company network management products, and provides the customer greater control of and additional information about the network services they purchase from the Company. The features offered under Basic Service A are provided through the same system, Electronic Communications Gateway, that the Company utilizes for access to these features. The features offered under Basic Service B are being offered through the system utilized for the initial BellSouth Administrative Management Service offering.

Although most Operation Support Systems (OSS) are optional on a nominal business day, BellSouth Administrative Management Service will be provided on a twenty-four hour basis for continuous usage of those systems that are accessible twenty-four hours.

2. Customer Access

For the existing BellSouth Administrative Management Service, the customer will have access to the system through a customer provided VT100 terminal with a choice of up to 2400 bits per second (BPS) dial access or a dedicated 9600 bps private line. For the features offered through Basic Service A, the customer may choose to *access the Preferred Interexchange Carrier (PIC) Service by utilizing a workstation or Personal Computer, and either connecting via a dial access (up to 19.2 bps) or a private line connection. The Trouble Administration (TA) service may be accessed with a Personal Computer via the Public Internet or a private line connection.* If the customer of Basic Service A chooses a dial access, the purchase of a Security Card will be required for each dial access arrangement.

If the subscriber has purchased a Security Card in conjunction with another feature or service offered by the Company, that Security Card may also be used in conjunction with Basic Service A. It is up to the subscriber to notify the Company of an existing Security Card so the Company can ensure that the card is validated for multiple features and/or services.

3. Maintenance and Operation

Due to the nature of the hardware used to offer these services, it may be necessary to perform preventive and routine maintenance on the system. At such times, the customers will be notified in advance as to the time and duration of these outages.

**Note 1:** TSP Authority Codes are not applicable to the Hub-to-Hub portion of a multipoint arrangement.

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.10 BellSouth Administrative Management Service (Cont'd)****B. Regulations (Cont'd)**

## 1. Basis of Offering (Cont'd)

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of these services render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

The Company will assist the customer in resolving any installation or day to day channel service problems. However, the Company does not assume responsibility for the compatibility or suitability of the customer's equipment.

## 2. Provision of Service

Customer access to the existing BellSouth Administrative Management Service may be either a BellSouth SWA (Dial) Service, a Private Line Service, or **Public Internet Service**. (T)

For dial/shared access, the customer will be required to provide a terminal, a modem, and dial tone at his premises. Provided the customer's premises resides in a Company LATA, the customer will dial a non-toll access number which furnishes access to BellSouth Administrative Management Service. If the customer's premises does not reside in a Company LATA, the customer must obtain an access line to a Company location from which the Company offers access to BellSouth Administrative Management Service. The BellSouth Administrative Management Service port will be assigned a seven-digit number to enable the customer to access this port. If the customer desires multiple telephone numbers to access BellSouth Administrative Management Service, an additional port charge will be required for each additional telephone number requested.

Dedicated access will be provided at speeds up to 9600 bps for customers wanting continuous access to the existing BellSouth Administrative Management Service. The customer will be required to provide at his premises a terminal, a modem, obtain a dedicated data circuit to a location designated by the Company at which the Company provides access to BellSouth Administrative Management Service.

For the Basic Service A offering the customer will be required to provide a terminal, a modem, and a dial tone at his premises and obtain a Security Card for each dial access desired.

Dedicated access will be provided for customers of Basic Service A desiring continuous access to this offering. Additionally, the customer of Basic Service A will be required to provide at his premises a terminal, a modem, and obtain a dedicated data circuit to a location designated by the Company at which the Company provides access to Basic Service A.

The customer will be responsible for installation, maintenance and testing of customer-provided terminal equipment.

**C. Explanation of Terms****BILLING INFORMATION ON ACCESS SERVICE**

The customer will have access to his records, whereby, he may gain information about his last and current bill amount and any payments or adjustments posted to date. He will also have access to his Customer Service record, which provides detailed information about his services provided by the Company.

(T)

- A. The Company will make customer lists available to ICs for the limited purposes of order entry, customer service, fraud prevention, and identification of customers who have moved from one location to another.
- B. The BellSouth Customer List Services are provided as described following:
  - 1. BellSouth Customer Name and Address Service is the provision of current customer listings with respect to the Company's subscriber lines and available for subscription in central offices which have converted to equal access. The customer name and address database is updated monthly. Therefore, any request for BellSouth Customer Name and Address service will reflect the same customers for a thirty-day period.
  - 2. BellSouth Daily Customer Change Activity Service is the provision of customer change activity on subscriber lines not subscribed to ordering IC via the Customer Account Record Exchange (CARE) interface. The change activity (e.g. new connects, T and F orders, disconnects, number changes, name changes, record orders, etc.) will be provided on a daily basis via the electronic based CARE interface.  
 To access CARE via Network Data Mover (NDM), TCP/IP Dial-Up Modem, the customer must purchase a Security Card at the rate set forth in E13.3.10, preceding.
  - 3. BellSouth Resold Customer List Information is the provision of current listings of resold local end users, where BellSouth performs the switching function associated with the local service. The resold end users name and address data is updated monthly. Therefore, any request for BellSouth Resold Customer List Information service will reflect the same resold end users for a thirty-day period.
- C. BellSouth Customer Name and Address and BellSouth Daily Customer Change Activity services provide the following information to the requesting carrier for each customer record:
  - 1. Billing Name and Address
  - 2. Billing Telephone Number
  - 3. Working Telephone Number
  - 4. Terminal Number
  - 5. Customer Type (business/residence)
  - 6. Non-published/Non-list Indicator (BellSouth Customer Name and Address service - IC subscribed listings only)
  - 7. Customer Source (IC subscribed listings only)
  - 8. Customer Code
  - 9. PICC Line Indicator (BellSouth Customer Name and Address- IC subscribed listings only)
- D. BellSouth Customer Name and Address service may be ordered using various options:
  - 1. Subscribed to Ordering IC - This is a list of customers subscribed to a specific IC. The IC may order a list of customers subscribed to the ordering IC for intraLATA, subscribed to the ordering IC for interLATA, or subscribed to the ordering IC for both. In addition the IC may order residence only, business only, or residence and business.

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract.

(T)

- D.** BellSouth Customer Name and Address service may be ordered using various options: (Cont'd)
2. Not subscribed to Ordering IC - This is a list of customers not subscribed to the ordering IC. The IC may order a list of customers subscribed to other carriers for intraLATA, subscribed to other carriers for interLATA, or subscribed to other carriers for both. In addition, the IC may order residence only, business only, or residence and business.
  3. Subscribed as "None" - This is a list of customers that have requested they not be subscribed to any IC. The IC may order a list of customers not subscribed for intraLATA, not subscribed for interLATA or not subscribed for both. In addition, the IC may order residence only, business only, or residence and business.
  4. Subscribed as "Undecided" - This is a list of customers that are undecided as to their choice of IC. The IC may order a list of customers undecided for intraLATA subscription, undecided for interLATA subscription or both. In addition the IC may order residence only, business only, or residence and business.
  5. Universal - This is a list of all lines eligible for equal access subscription, including those subscribed to the ordering IC as well as those subscribed to "other". The IC may order a list of customers eligible for intraLATA subscription, eligible for interLATA subscription, or eligible for both. In addition, the IC may order residence only, business only, or residence and business.
- E.** BellSouth Daily Customer Change Activity service may be ordered using the following option:
1. Not Subscribed to Ordering IC - This is a list of customers not subscribed to the ordering IC. The IC may order a list of customers not subscribed to the ordering IC for intraLATA, not subscribed to the ordering IC for interLATA, or not subscribed for both. In addition, the IC may order residence only, business only, or residence and business.
- BellSouth Daily Customer Change Activity service must be ordered for the entire State. All change activity (e.g. new connects, T&F orders, disconnects, number changes, name changes, record orders, etc.) will be transmitted to the requesting IC, via the electronic based CARE interface.
- F.** ICs requesting BellSouth Customer Name and Address and BellSouth Daily Customer Change Activity services must submit separate requests in writing to the Company by completing a customer list request for each customer list ordered.
- G.** ICs requesting BellSouth Customer Name and Address service for non-published numbers must submit a statement to the Company stating that the IC will protect the privacy of subscribers with non-published telephone numbers in accordance with the requirements of the Company's General Subscriber Service Tariff.
- Non-published numbers will not be provided with BellSouth Daily Customer Change Activity service.
- BellSouth Customer Name and Address ordering options, subscribed to the ordering IC and universal, as stipulated in D. preceding, are the only customer lists which include non-published and non-listed customer information. Non-published and non-listed customer information will only be provided to the IC which furnishes the subscriber's long distance message telecommunications services.
- H.** The IC may deem it necessary to request the Company resend the customer name and address information. Such a request, when not the result of Company error, will be subject to the same rates and charges as the original request.

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract.

(T)

**I. Restrictions On Use of BellSouth Customer List Information**

1. The IC agrees not to publish any customer listing information provided and to use such information only with regards to its provision of interexchange service to such customers.
2. The IC shall utilize the customer listings obtained only for the purpose of providing interexchange telecommunications services.
3. The IC shall not permit anyone but its duly authorized employees to inspect or use the customer list information.
4. The IC may subcontract to third parties providing interexchange service functions. However, the subcontractor must agree, in writing, to the same limitations applicable to the IC.

In addition to remedies and damages that may be available to subscribers under state law, as to IC and other third parties, ICs risk the loss of the provision of these services if the third parties with which they subcontract do not comply with the restrictions imposed on the use the customer information provided.

5. The IC may not use such information to publish and distribute, in any form, lists of new or changed telephone subscribers.
6. The IC shall not reproduce in any way copies of customer listings furnished, other than as required internally for providing the IC's interexchange services.

**J. BellSouth Resold Customer List Information**

1. BellSouth Resold Customer List Information service provides the following information to the requesting carrier for each customer record:
  - a. Working Telephone Number
  - b. Terminal Number
  - c. Customer Type (business/residence)
  - d. Local Service Provider Identification (LSP-ID)
2. BellSouth Resold Customer List Information service may be ordered using various options:
  - a. Subscribed to Ordering IC - This is a list of resold end users subscribed to a specific IC. The ICs may order a list of end users subscribed to the ordering IC for intraLATA, subscribed to the ordering IC for interLATA, or subscribed to the ordering IC for both. In addition, the IC may order residence only, business only, or residence and business.
  - b. Not Subscribed to Ordering IC - This is a list of resold end users not subscribed to the ordering IC for intraLATA, not subscribed to the ordering IC for interLATA, or not subscribed to the ordering IC for both. Listing also includes end users who are not subscribed to any IC, and end users who are undecided for intraLATA, interLATA or for both.
  - c. Universal - This is a list of all lines eligible for equal access subscription, including those subscribed to the ordering IC as well as those subscribed to "other". The ICs may order a list of customers eligible for intraLATA, eligible for interLATA or eligible for both. In addition, the IC may order residence only, business only or residence and business.
3. BellSouth Daily Customer Change Activity Service is not available for BellSouth Resold Customer List Information.
4. The IC may deem it necessary to request the Company resend the customer name and address information. Such a request, when not the result of Company error, will be subject to the same rates and charges as the original request.
5. All restrictions defined in I. preceding apply to BellSouth Resold Customer List Information.
6. The Company shall have the right to audit the operations, procedures and systems of the IC, upon reasonable notice and at reasonable times, to the extent necessary to ensure compliance with the provisions of this Tariff Section.
7. BellSouth Resold Customer List Information is provided via paper format or magnetic tape. Unless otherwise specified by the customer, paper copies or magnetic tapes will be sent via courier mail service. However, at the customer's request, the customer or the customer's representative may pick up the tapes or paper copies at a location designated by the Company.
8. At a minimum, customers must order all BellSouth Resold Customer List Information within a NPA-NXX or Zip Code.
9. The applicable charges for BellSouth Resold Customer List Information services are as stated in O. following, and are due upon receipt of the bill for the customer listings. The late payment penalty, as provided in E2.4.1.B.3. of this Tariff, is applicable for payments received after the due date specified on the bill.

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract.

**E13.3.12 BellSouth 8XX Toll Free Dialing Number Administration Service**

BellSouth 8XX Toll Free Dialing Number Administration service is a Company provided service associated with BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service which provides for the assignment and administration of ten digit 800 number(s), (i.e., 800+NXX+XXXX). BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service requires the customer's subscription to the basic BellSouth 8XX Toll Free Dialing Number Administration service, following, or as an alternative the provision of those services by other local responsible organizations or through direct access by the customer to the Service Management System. Optional features may be subscribed to in the same manner.

The BellSouth 8XX Toll Free Dialing Number Administration service customer is responsible for making the necessary arrangements with BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service providers to accept the BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service number or POTS number for transport.

Additionally, BellSouth 8XX Toll Free Dialing Number Administration service does not include the provision of a facility over which to terminate the 800 calls (e.g., WATS Access Line (a.k.a. BellSouth SPA WATS Line), Common Line, etc.). Charges, as set forth in E13.3.12.D following, will apply for each 800 number established with BellSouth 8XX Toll Free Dialing Number Administration service.

## E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

### E13.3 Miscellaneous Services (Cont'd)

#### E13.3.12 BellSouth 8XX Toll Free Dialing Number Administration Service (Cont'd)

*BellSouth 8XX Toll Free Dialing Number Administration* Service consists of the following basic service features, optional service features and optional Call Handling and Destination Features. (T)

##### A. Basic Service Features

##### 1. 800 Number Assignment and Administration

*BellSouth 8XX Toll Free Dialing Number Administration* service provides for the assignment of ten digit 800 number(s) (i.e., 800+NXX+XXXX) to the *BellSouth 8XX Toll Free Dialing Number Administration* service customer. The Company will select the 800 number(s) to be assigned to the *BellSouth 8XX Toll Free Dialing Number Administration* service customer unless the *BellSouth 8XX Toll Free Dialing Number Administration* service customer requests a specific 800 number. If the requested number is available, the Company will make a reasonable effort to comply with the *BellSouth 8XX Toll Free Dialing Number Administration* service customer's request for the specific 800 number, in accordance with the *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service Number Administration Guidelines. (T)

##### 2. IntraLATA and InterLATA Carrier Selection

The *BellSouth 8XX Toll Free Dialing Number Administration* service customer must designate the intraLATA carrier and/or the interLATA carrier(s), as applicable, that will transport the 800 number or POTS number. The *BellSouth 8XX Toll Free Dialing Number Administration* service customer is responsible for arranging for the transport service and delivery of the *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service calls. (T)

The selection of one interLATA carrier and one intraLATA carrier is provided at no additional charge with the initial order for service. As an optional feature, the customer may subscribe to the Multiple Carrier Routing feature for which multiple carriers may be selected.

##### 3. Area of Service

Area of Service is defined as the geographical area from which calls to a particular 800 number may be received. The standard area of service provided with *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service is the entire state. Customers may specify other levels of Area of Service with the Customized Area of Service feature. (T)

The Area of Service will be limited to that geographical area(s) served by those access service providers (e.g., Exchange Telephone Companies) that offer ten digit screening of 800 calls and also participate in the *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service Number Administration Guidelines. The Area of Service may also be limited to certain geographical areas depending on access serving arrangements ordered by the access service customer. (T)

The *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service provider is responsible for ensuring that appropriate traffic capacity is provided to accept such 800 dialed calls (i.e., where *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service has been provisioned as set forth in E6.2.5 preceding) from within the portion of the defined Area of Service served by the Company. (T)

##### B. Optional Service Features

Various service options are available to the 800 Number Service customer as part of, or in association with, 800 Number Service.

##### 1. 800 Number Reservation

800 Number Reservation allows for an 800 Number Service customer to reserve numbers in advance of placing an order for 800 Number Service. Reserved 800 number(s) will be maintained in a reserved status for a period not to exceed 60 calendar days from the date the ASR is received. The 800 Number Service customer may request activation of any or all of the reserved numbers during the 60 day period. Activation is accomplished when the number is placed in the working status, at which time the 800 Number Service customer is responsible for providing the ordering information described in E5.2.1 preceding for 800 Number Service.

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.12 BellSouth 8XX Toll Free Dialing Number Administration Service (Cont'd)** (T)**B. Optional Service Features (Cont'd)**

## 1. 800 Number Reservation (Cont'd)

Reserved 800 numbers for which an ASR to activate is not received during the 60 day period will be removed from the reserved status on the 61st day following the 800 Number Service customer's original reservation date.

Charges, as set forth in E13.3.12.D following, will apply for each 800 number reserved.

## 2. POTS Number Delivery

The 800 Number Service customer may specify whether the POTS Number as opposed to the 800 Number is desired. If requested the terminating POTS number (NPA+NXX+XXXX) will be delivered in place of the dialed 800 number (800+NXX+XXXX). When the POTS number is to be forwarded, the 800 Number Service customer must provide to the Company the full ten digit POTS number to be associated with the 800 number and indicate to whom the POTS number is to be delivered.

## 3. Customized Area of Service

The Customized Area of Service option provides for a unique customer defined geographic area from which calls to a particular 800 number may be received. The customer may define a specific Area of Service in terms of LATA(s), NPA(s), or combination thereof.

The Customized Area of Service will be limited to the geographical area(s) served by those access service providers (e.g., Exchange Telephone Companies) that offer **BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service** of 800 calls and also participate in the **BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service Number Administration Guidelines**. The Area of Service may also be limited to certain geographical areas depending on serving arrangements ordered by the access service customer. (T)

The **BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening** service provider is responsible for ensuring that appropriate traffic capacity is provided to accept such 800 dialed calls (i.e., where **BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening** service has been provisioned as set forth in E6.2.5 preceding) from within the portion of the defined Area of Service served by the Company. (T)

## 4. Multiple Carrier Routing

The Multiple Carrier Routing option allows the **BellSouth 8XX Toll Free Dialing Number Administration Service** customer to specify the use of different carriers for transport of 800 number or POTS number traffic within an area of service. (T)

**C. Call Handling and Destination Features**

A number of optional call handling and destination features are available to the **BellSouth 8XX Toll Free Dialing Number Administration** service customer. The customer is responsible for insuring the compatibility of any combination of features selected. The optional features are as follows. (T)

## 1. Time of Day Routing

Time of Day Routing provides **BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening** service subscribers with the ability to distribute calls to different locations based on the specific hour of day a call is placed. Customers may make selections in 15 minute increments but must account for a complete 24 hour period. (T)

## 2. Day of Week Routing

Day of Week Routing allows **BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening** service subscribers to distribute calls to a number of answering locations based on the day of week a call is placed. Calls can be directed for a single day or in groups of days. However, the customer's specification must account for a seven day week. (T)

## 3. Specific Date Routing

Specific Date Routing provides *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service subscribers the capability of distributing 800 calls to different locations based on the specific date in the year the call is placed. (T)

## 4. Allocation By Percentage

This feature provides *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service subscribers the ability to distribute *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service calls to more than one location, by specifying the percentage of calls to be directed to each location. Distribution percentages may be selected in gradations as small as one percent for a total of 100 percent. This feature also provides *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service subscribers the ability to select multiple carriers to transport their 800 traffic based on percentage allocations. (T)

## 5. Ten Digit Node Routing

Ten Digit Node routing provides *BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening* service subscribers the capability to route calls to preselected destinations based on the originating ten digit number(s). 800 calls from other than the preselected originating ten digit numbers will be blocked. This feature is available only where 10 digit ANI is provided. (T)

**D. BellSouth 8XX Toll Free Dialing Number Administration Service Charges** (T)

## 1. 800 Number Reservation Charge

A nonrecurring charge applies for the reservation of an 800 Number. There are two levels of nonrecurring charges. A nonrecurring 800 Number Reservation Charge applies for the first reserved 800 number submitted on an Access Service Request (ASR), and a separate nonrecurring 800 Number Reservation Charge applies for each additional reserved 800 number submitted on the same ASR.

## 2. 800 Number Establishment Charge

800 numbers can be established for use with 800 Number Delivery or POTS Number Delivery. There are two levels of nonrecurring charges applicable to each. A nonrecurring 800 Number Establishment Charge applies for the first 800 number submitted on an ASR, and a separate nonrecurring 800 Number Establishment Charge applies for each additional 800 number submitted on the same ASR.

3. *BellSouth 8XX Toll Free Dialing* Number Administration service Change Charge (T)

An 800 Number Service Change Charge applies for changes associated with an 800 number, subsequent to the initial establishment of that 800 number. There are two levels of nonrecurring charges. A nonrecurring 800 Number Service Change Charge applies for the first 800 Number for which associated changes are being made affecting that number, submitted on an ASR. A separate nonrecurring 800 Number Service Change Charge applies for each additional 800 Number for which associated changes are being made affecting that number, submitted on the same ASR.

## 4. Customized Area of Service

Nonrecurring charges apply for the provision of the Customized Area of Service option. The charges are applied on a First and Additional basis. First and additional installation charge treatment is applied to Customized Area of Service requests submitted on the same or related ASRs. Related ASRs must be received on the same business day.

## 5. Multiple Carrier Routing

Nonrecurring charges apply for the provision of the Multiple Carrier Routing option. The charges are applied on a First and Additional basis. First and additional installation charge treatment is applied to Multiple Carrier requests submitted on the same or related ASRs. Related ASRs must be received on the same business day.

**E13.3.13 BellSouth Billing Name and Address for ANI Service**

**A. BellSouth Billing Name and Address for ANI Service**

1. BellSouth Billing Name and Address for ANI service provides for end user billing name and address and associated information. It is available to ICs such as an Enhanced Service Provider (ESP), Operator Service Provider (OSP), Interexchange Carrier (IC) and any other provider of telecommunications services.
2. BellSouth Billing Name and Address for ANI service is available on those calls for which the ANI of the calling or billed party is provided to the Company. This includes 101XXXX dialed calls and collect and third party billed calls. Information provided consists of the following: <sup>1</sup>
  - a. Billing name and street address of the subscriber (BNA)
  - b. Billing Telephone Number (BTN)
  - c. Working Telephone Number (WTN)
  - d. Terminal Number (TER)
  - e. IC Type Indicator (CTI)
  - f. IC Code

(N)

Note 1: Effective August 20, 2016, Collect Calls and Third Number billing are discontinued.

**E13.3 Miscellaneous Services (Cont'd)**

**E13.3.13 BellSouth Billing Name and Address for ANI Service (Cont'd)**

**A. BellSouth Billing Name and Address for ANI Service (Cont'd)**

3. BellSouth Billing Name and Address for ANI service is ordered under terms and conditions as set forth in E5.2.1 preceding in order to establish an account.

For collect and third party billed calls, BellSouth Billing Name and Address for ANI service is not available on accounts of nonpublished/nonlisted end users who, by request to the Company (which request may be submitted at any time), have specified that such information not be released. <sup>1</sup>

(N)

4. The IC may deem it necessary to request the Company resend the BellSouth Billing Name and Address information. Such a request, when not the result of Company error, will be subject to the same rates and charges as the original request.

5. Restrictions on use of BellSouth Billing Name and Address for ANI information:

- a. The IC, or its authorized billing and collection agent, agrees not to publish any BellSouth Billing Name and Address for ANI information provided and to use such information for the sole purpose of rendering bills for its provision of services to its ICs.
- b. The IC, or its authorized billing and collection agent, may not permit anyone but its duly authorized employees to inspect or use BellSouth Billing Name and Address for ANI information.
- c. The IC, or its authorized billing and collection agent, may not use the BellSouth Billing Name and Address for ANI information to publish and distribute, in any form, lists of the subscribers provided.
- d. The IC, or its authorized billing and collection agent, shall not reproduce in any way copies of the BellSouth Billing Name and Address for ANI information furnished, other than as required internally for the rendering of bills for services provided.

6. The Company will provide BellSouth Billing Name and Address for ANI data no later than ten (10) business days from the date of receipt of the IC's request. Availability of data may be delayed if errors exist in the request received from the IC.

## **E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES**

### **E13.3 Miscellaneous Services (Cont'd)**

#### **E13.3.15 Equal Access Transaction Services<sup>1</sup> (Cont'd)**

(T)

##### **A. Service Description (Cont'd)**

The Company will provide Equal Access Transaction Services to ICs participating in intraLATA BellSouth Equal Access Subscription. ICs who request Equal Access Transaction Services for InterLATA BellSouth Equal Access Subscription will order this service from BellSouth's FCC No. 1, Section 13.3.15. for South Central Bell Telephone and Telegraph Company. The IC must execute and submit to the Company a blanket agency letter for submitting PIC orders.

Equal Access Transaction Services provided are described as follows:

##### **1. Specified Due Date for PIC Change Service**

The Company will accept an order from an IC requesting the Company to change the intraLATA PIC for an end user's or owner's business, residence or pay telephone access line to the IC's Carrier Identification Code (CIC). The Company will internally coordinate and schedule a standard due date which shall be provided to the IC requesting the change. The Company will accept such orders either by Working Telephone Number (WTN) or for all WTNs associated with a Billing Telephone Number (BTN).

The Company will accept a request from an IC to process and coordinate internally a due date for an intraLATA PIC change in an interval shorter than the standard service interval for a PIC change order. The customer and the Company shall work cooperatively in establishing expedited due dates. It shall be within the sole discretion of the Company to determine whether it can meet a requested expedited due date. If an expedited due date cannot be met within normal working hours, overtime charges, as provided in E13.2.6.C., preceding shall apply.

##### **2. Customer Service Record (CSR) Information Service**

a. The Company will provide and/or verify CSR information which the IC has obtained proper authorization to receive from the residence, business or coin customer. A confirmation of choice as provided in E13.3.3.B. preceding from a customer will be provided by the IC to the Company upon request. The confirmation of choice must, if for a business, specifically include all of the customer's subsidiaries and/or affiliated companies for which it is valid.

b. CSR Information Service provides the following information to the requesting IC:

- (1) Billing Name
- (2) Billing Address
- (3) Billing Telephone Number (BTN)
- (4) Working Telephone Number (WTN)
- (5) Terminal Numbers (TERs)
- (6) Customer Type (residence/business/pay telephone)
- (7) Customer Code

c. Carrier Identification Code (CIC) information is not provided as a part of Customer Record Information Service. However, the requesting IC can verify if the IC's CIC is shown on the CSR by requesting CIC verification.

##### **3. CIC Verification**

CIC verification is made available from the Company's Equal Access Service Center (EASC) only through written or facsimile (fax) requests submitted by the IC. Charges are applicable on a Billing Telephone Number (BTN) and Working Telephone Number (WTN) basis for each line verified.

##### **4. Verification of Pending Service Orders that Impact PIC Orders Service**

The IC may request the status and/or verification of pending service orders that impact residence, business and/or pay telephone IntraLATA PIC orders. The IC must provide the service order numbers or the BTNs to the Company before verification can be provided. The Company shall provide an estimated due date to the carrier for the pending service orders(s).

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract.

## ACCESS SERVICES TARIFF

PSC KY. TARIFF 2E  
 Third Revised Page 35  
 Cancels Second Revised Page 35  
 EFFECTIVE: January 17, 2008

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.15 Equal Access Transaction Services<sup>1</sup> (Cont'd)**

(T)

**A. Service Description (Cont'd)****5. Resolution of PIC Discrepancy Service**

The IC may request resolution of residence, business and/or pay telephone PIC discrepancies. The charge for Resolution of PIC Discrepancy Service, as specified in E. following is applicable per WTN verified. If the Company determines that there is a discrepancy in the switch (i.e., the customer's service record shows the customer presubscribed to the inquiring IC and the line is programmed to a different IC), the line information will be corrected and the inquiring IC will not be charged for the request on that WTN.

**B. Restrictions on Use of Information**

ICs requesting Equal Access Transaction Services for non-published numbers must submit a statement to the Company stating that the IC will protect the privacy of subscribers with non-published telephone numbers.

In addition, the ICs must agree that the line information provided via Equal Access Transaction Services:

1. Shall not be resold or otherwise provided to any other person, corporation, partnership or entity of whatever kind for any purpose.
2. Shall be used only in furtherance of establishing and maintaining interexchange service for end users who have requested such service from the IC.
3. Shall not be used for marketing or any other purposes not specifically set forth in A. preceding.
4. Shall be inspected or used only by the duly authorized employees of the IC.
5. Shall not be reproduced in any way, other than as required internally for the establishment and maintenance of end user interexchange service.

The ICs may subcontract to third parties functions which include use of line information provided via Equal Access Transaction Services. However, that subcontractor must agree, in writing, to the same restrictions and nondisclosure requirements, as outlined in B. preceding, applicable to ICs.

**C. Ordering Conditions**

1. The time required to provision the services (i.e., the interval between the request date and the provision or due date) is known as the service interval. Such intervals will be established in accordance with published service date interval guidelines which are available to customers upon request, whether the customer's service date is subject to standard or negotiated intervals.
2. The Company will notify the IC of the mutually agreed upon standard or expedited due date, not later than one business day following the issue date of the order.
3. ICs may request Specified Due Date, CSR Information, Verification of Pending Orders that Impact PIC Orders and Resolution of PIC Discrepancy Services by fax, US Mail, overnight courier mail or verbal. CIC Verification is made available from the Company's EASC to the IC only through written or fax requests submitted by the IC.
4. The IC must accurately request information by providing the correct billing telephone name and/or telephone number. If the Company discovers an error in the IC's request, an error message will be sent back and the IC will be charged the appropriate tariff rate for the requested service(s).
5. The IC may deem it necessary to request that the Company resend the information provided by the Company. Such a request, when it is not due to Company error, will be subject to the same charges as the original request.

**D. The applicable charges for Equal Access Transaction Services, as stated in E. following are applicable to ICs, and are due upon receipt of the bill. The late payment penalty, as provided in E2.4.1.B.3. preceding, is applicable for payments received after the due date specified on the bill.**

Charges for these services are in addition to the normal intraLATA subscription change charge, as provided in E13.3.3.F.1. preceding. The intraLATA subscription change charge is applicable to end user bills.

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract.

**E13.3.16 BellSouth Data Gathering Through CARE**

- A.** The BellSouth Data Gathering Through CARE service is available to Interexchange Carriers (ICs), Resellers or Billing Clearinghouses who participate in IntraLATA BellSouth Equal Access Subscription. ICs, Resellers or Billing Clearinghouses who request Data Gathering Through CARE to assist them in InterLATA BellSouth Equal Access Subscription will order this service from BellSouth's FCC No. 1., Section 13.3.16. This service provides a means for ICs, Resellers or Billing Clearinghouses to obtain information utilized to submit Preferred Interexchange Carrier (PIC) changes for all numbers associated with a subscriber's BTN without requiring the subscriber to obtain and provide this information.
- B.** BellSouth Data Gathering Through CARE service allows the IC, Reseller or Billing Clearinghouse to submit a CARE record at the Billing Telephone Number (BTN) level and receive all the Working Telephone Numbers (WTNs) and Terminal Numbers (TERs) associated with the BTN. No information will be furnished for residence accounts and/or lines or terminals marked as Non-Published (NP) or Non-Listed (NL) unless the ordering provider is the PIC of record at the time of the request.
- C.** BellSouth Data Gathering Through CARE is only available to ICs, Resellers or Billing Clearinghouses for end user customers from whom the IC, Reseller or Billing Clearinghouse has met the requirements for intraLATA presubscription as provided in E13.3.3.B. preceding.
- D.** The information provided will include:
1. The Billing Name and Address (BNA). The BNA provided for residence and business accounts is the billing name and address for the end user. On pay telephone accounts, the billing name and address is the name and address of the owner or its authorized agent of the pay station.
  2. Billing Telephone Number (BTN). On pay telephone Accounts, this will be the same as the Working Telephone Number (WTN)
  3. Working Telephone Number (WTN) (PIC eligible)
  4. Terminal Numbers (TERs) (PIC eligible, if applicable)

**Note 1:** The WTN rate is for additional Working Telephone Numbers associated with a Billing Telephone Number. If only one WTN is requested, the BTN rate will apply.

**Note 2:** This charge is in addition to the BellSouth Equal Access Subscription Change Charge as provided in E13.3.3.E.1. preceding.

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract.

- E.** The IC, Reseller or Billing Clearinghouse will subscribe to BellSouth Data Gathering Through CARE by submitting a request to the Company. Transactions for BellSouth Data Gathering Through CARE will be made via the CARE Transaction Codes and Status Indicators. The information will also be returned to the IC or Reseller using CARE Transaction Codes and Status Indicators. The return responses to a BellSouth Data Gathering Through CARE request will be provided as part of the PIC Activity report.
- F.** Restrictions on use of the BellSouth Data Gathering Through CARE information are as follows:
  - 1. The IC, Reseller or Billing Clearinghouse shall not permit anyone but its duly authorized employees to inspect or use the information provided.
  - 2. The IC, Reseller or Billing Clearinghouse will use the information in furtherance of establishing and maintaining interexchange service for end users who have requested such service from the provider.
  - 3. The IC, Reseller or Billing Clearinghouse may not use the information to publish and distribute, in any form, lists of the subscribers provided.
  - 4. The IC, Reseller or Billing Clearinghouse shall not reproduce in any way, copies of the information furnished, other than as required internally to maintain service of the end user.
- G.** The IC, Reseller or Billing Clearinghouse must execute and submit to the Company a Request for Service letter to establish the service and billing account.
- H.** The applicable charge for BellSouth Data Gathering Through CARE, as provided in I. following, is due upon receipt of the bill as provided in E2.4.1.B.2. and E2.4.1.B.3. preceding.

**E13.3.17 PIC In Error**

- A.** Service Description
  - 1. The Company will provide PIC In Error (PIE) service to ICs participating in IntraLATA BellSouth Equal Access Subscription. The IC must have a blanket agency letter for submitting PIC orders on file with the Company. In addition, the IC must execute and submit to the Company a PIC In Error request for service letter.
  - 2. With PIE service, ICs may submit a line number or list of line numbers, via FAX or telephone, of end user customers whose PIC was changed in error by the IC.

Note 1: On and after February 18, 2008, services in Sections E13.3.11, E13.3.15, E13.3.16, and E13.3.17 will no longer be available from the tariff. Comparable services will be available under contract. (N)

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES**

**E13.3 Miscellaneous Services (Cont'd)**

**E13.3.17 PIC In Error<sup>1</sup> (Cont'd)**

(T)

- A. Service Description (Cont'd)
  - 3. PIE service is only applicable on end user customer lines if the error is reported by the IC and before the end user disputes the PIC change.
  - 4. The PIE service is only available for PIC orders submitted by the IC via CARE.
- B. When the Company is contacted by an IC, and the IC advises PIC change orders have been submitted in error, the Company will request the line number or list of line numbers changed in error. The Company will determine the end users prior carrier and prepare the appropriate service order record to return the end user to their former PIC at no charge to the end user. The IC submitting the erroneous PIC change order(s) will be assessed a PIE charge as provided in G. following, and the applicable PIC change charge(s) as provided in E13.3.3.E.1. preceding, for each PIC change made to return an end user to their previous carrier.
- C. The PIE service in no way relieves the IC of the regulatory requirements for:
  - 1. Verifying all PIC orders generated by telemarketing prior to submitting those orders, as provided in E13.3.3.B.2. preceding, or;
  - 2. Instituting steps to obtain LOAs on all PIC orders submitted to the Company, as provided in E13.3.3.B. preceding.
- D. Limitations of PIC In Error Service:
  - It is the ICs responsibility to notify end users of the PIC change made in error.
  - ICs must advise the Company of the PIC change error within seven calendar days of the IC submitted PIC change.
- E. Any overtime required by the Company to correct an end users PIC reported by the IC, will be charged to the IC as provided in E13.2.5 preceding. Overtime must be authorized by the requesting IC at the time the request is made.
- F. The applicable charge for PIE service, as stated in G. following, is due upon receipt of the bill as set forth in E2.4.1.B.2. and E2.4.1.B.3. preceding. In addition, the applicable charge for a change in intraLATA presubscription as provided in E13.3.3.E.1. preceding will be assessed to the requesting IC.

EFFECTIVE: November 14, 2014

**E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES****E13.3 Miscellaneous Services (Cont'd)****E13.3.23 Physical Access Collocation Cross-Connect Service****A. General Description**

1. Physical Access Collocation Cross-Connects provide a one to one dedicated transmission path between the ordering customer's tariffed service offerings or transport equipment located in the Telephone Company Central Office and the ordering customer's own physical collocation arrangement or another telecommunication carrier's (collocator's) physical collocation arrangement in the same Telephone Company Central Office for all of the access services listed below, except the following:
  - a. Exchange Access Frame Relay service (described in E21.1) (D)
  - b. Exchange Access ATM service (described in E21.3) (D)
  - c. BellSouth Metro Ethernet service (described in E7.2.18) (D)

The above-listed access services may only be requested between the ordering customer's tariffed service offerings or transport equipment located in the Telephone Company Central Office and the ordering customer's own physical collocation arrangement in the same Telephone Company Central Office.
2. Standards for performance monitoring of services which interconnect to the collocation arrangement will be driven by the particular service type and service specific requirements. The Telephone Company's obligation for monitoring ends at the demarcation point.
3. Physical Access Collocation Cross-Connects are flat rate, non-distance sensitive charges and will be applied on a per cross-connect ordered basis.
4. Physical Access Collocation Cross-Connects will be ordered on the same Access Service Request (ASR) as the service being cross-connected. All ASRs must be complete and accurate before the Company will initiate the provisioning process.
5. Nonrecurring charges are applicable for Physical Access Collocation Cross-Connect service.
6. The collocator may cross-connect at the DS0 level with the following Telephone Company access services:
  - a. Local Channels (described in E7.1.2.A) (D)
  - b. Optional Features and Functions (described in E7.1.2.C) (D)
  - c. Exchange Access Frame Relay service (described in E21.1) (D)
7. The collocator may cross-connect at the DS1 level with the following Telephone Company access services:
  - a. DS1 Local and Interoffice Channels (described in E7.1.2) (D)
  - b. DS1 Basic Channelization System (described in E7.1.2) (D)
  - c. FlexServ (a.k.a. BellSouth SPA Customer Reconfiguration) Port in a Digital Cross-Connect System (described in E7.4.12) (D)
  - d. Shared Use Analog and Digital High Capacity (a.k.a. BellSouth SPA High Capacity) services (described in E7.4.12) (D)

## E13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

### E13.3 Miscellaneous Services (Cont'd)

#### E13.3.24 Virtual Access Collocation Cross-Connect Service (N)

##### A. General Description (N)

1. Virtual Access Collocation Cross-Connects provide a one to one dedicated transmission path between the ordering customer's tariffed service offerings or transport equipment located in the Telephone Company Central Office and the ordering customer's own virtual collocation arrangement or another telecommunication carrier's (collocator's) virtual collocation arrangement in the same Telephone Company Central Office for all of the access services listed below, except the following: (N)
  - a. Exchange Access Frame Relay service (described in E21.1 of this Tariff) (N)
  - b. Exchange Access ATM service (described in E21.3 of this Tariff) (N)
  - c. BellSouth Metro Ethernet service (described in E7.2.18 of this Tariff) (N)

The above list of access services may only be requested between the ordering customer's tariffed service offerings or transport equipment located in the Telephone Company Central Office and the ordering customer's own physical collocation arrangement in the same Telephone Company Central Office. (N)
2. A monthly recurring charge applies for the Virtual Access Collocation Cross Connect element that consists of the cross connect panel, cable racks, bay framework, jumpers and other supporting hardware. (N)
3. The Virtual Access Collocation Cross-Connect element is designated as BellSouth Switched Access (SWA) or Special Access (SPA), depending on the type of service to which it cross connects. (N)
4. Virtual Access Collocation Cross-Connect service is flat rate, non-distance sensitive charges and will be applied on a per cross connect ordered basis. (N)
5. Standards for performance monitoring of services which interconnect to the collocation arrangement will be driven by the particular service type and service specific requirements. The Telephone Company's obligation for monitoring ends at the demarcation point. (N)
6. Virtual Access Collocation Cross-Connects will be ordered on the same Access Service Request (ASR) as the service being cross connected. All ASRs must be complete and accurate before the Company will initiate the provisioning process. (N)
7. The collocator may cross connect at the DS0 level with the following Telephone Company access services: (N)
  - a. Local Channels (described in E7.1.2.A of this Tariff) (N)
  - b. Optional Features and Functions (described in E7.1.2.C of this Tariff) (N)
  - c. Exchange Access Frame Relay service (described in E21.1 of this Tariff) (N)
8. The collocator may cross-connect at the DS1 level with the following Telephone Company access services: (N)
  - a. DS1 Local and Interoffice Channels (described in E7.1.2 of this Tariff) (N)
  - b. DS1 Basic Channelization System (described in E7.1.2 of this Tariff) (N)
  - c. FlexServ (a.k.a. BellSouth SPA Customer Reconfiguration) Port in a Digital Cross-Connect System (described in E7.4.12 of this Tariff) (N)
  - d. Shared Use Analog and Digital High Capacity (a.k.a. BellSouth SPA High Capacity ) services (described in E7.4.8 of this Tariff) (N)
  - e. SMARTRing (a.k.a. BellSouth Dedicated Ring) services (described in E7.2.16 of this Tariff) (N)
  - f. BellSouth SWA service (described in E21.1 of this Tariff) (N)
  - g. SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) (described in E7.4.16 of this Tariff) (N)
  - h. Exchange Access Frame Relay service (described in E21.1 of this Tariff) (N)
  - i. Exchange Access ATM service (described in E21.3 of this Tariff) (N)

9. The collocator may cross-connect at the DS3 level with the following Telephone Company access services:
  - a. 28 DS1 Channelization System (described in E7.1.2)
  - b. FlexServ (a.k.a. BellSouth SPA Customer Reconfiguration) Port in a Digital Cross-Connect System (described in E7.4.12)
  - c. Shared Use Analog and Digital High Capacity (a.k.a. BellSouth SPA High Capacity) services (described in E7.4.8)
  - d. SMARTRing (a.k.a. BellSouth Dedicated Ring) services (described in E7.2.16)
  - e. BellSouth SWA service (described in E6.1.3)
  - f. Exchange Access Frame Relay service (described in E21.1)
  - g. Exchange Access ATM service (described in E21.3)
10. The collocator may cross-connect at the fiber level with the following Telephone Company access services:
  - a. SMARTRing (a.k.a. BellSouth Dedicated Ring) service rate categories (described in E7.1.2.D)
  - b. Exchange Access Frame Relay service (described in E21.1)
  - c. Exchange Access ATM service (described in E21.3)
  - d. BellSouth Metro Ethernet service (described in E7.2.18)
  - e. AT&T Dedicated Ethernet (described in E30.2 of this Tariff)
  - f. AT&T Switched Ethernet Service<sup>SM</sup> (described in E30.1)
11. The collocator may cross-connect at the Ethernet Cat-5 Cable level with the following Telephone Company access services:
  - a. BellSouth Metro Ethernet service (described in E7.2.18)
  - b. SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) service rate categories (described in E7.1.2.D)
