A4. SERVICE CHARGES

A4.2 Application of Charges (Cont'd)

A4.2.6 Service Charge Exceptions (Cont'd)

- A.** Service Charges do not apply for: (Cont'd)
10. Requests for full or partial disconnection.
 11. Upgrades from BellSouth Back-Up Line service to business individual line service or ISDN service.
 12. The connection, move or change of telephone service previously provided over a Government System where there is no break in the continuity of service.
- B.** When a customer's request is provided:
1. In accordance with a promotional waiver, additional service subject to an equal or lesser Service Charge may be made a part of the same service order. Charges for Line Connection, Line Change, or Premises Work will apply, if applicable, for additional service.
 2. In accordance with the Service Charge Exceptions listed in A4.2.6, additional features or services subject to the Secondary Service Charge may be made a part of the waiver order.
- C.** The Secondary Service Charge is not applicable:
1. Secondary Service Charges will not apply in response to competitive situations for residence subscribers who order one or more of the services listed below.
 - a. Custom Calling Service
 - b. **(DELETED)**
 - c. Grouping Service
 - d. RingMaster Service
 - e. TouchStar Service
 - f. Designer Listings
 - g. Message Waiting Indication
 - h. Customized Code Restriction
 - i. Voice Mail Calling Features Package
 - j. Privacy Manager Service
- D.** Residential Online Service Connection Charge Waiver
Service Connection Charges (such as the Line Connection Charge – First Line or Additional Line) may be waived for residential customers who order new local service (N Order) or transfer service (T Order) on att.com and who are in AT&T Southeast territory for local service. This waiver of charges is available on up to three (3) lines. The subscriber must purchase a minimum of AT&T local service and at least two (2) non-zero rated features or a package of local service containing in its price at least two (2) qualifying features.
- E.** Residential Service Connection Charge Waiver
Service Connection Charges (such as the Line Connection Charge – First Line or Additional Line) may be waived for residential customers who subscribe to Complete Choice Basic or any other package or service that contains the components that comprise the Complete Choice Basic package. It can also be waived for customers who subscribe to basic service plus two (2) non-zero rated features. This waiver is valid for only one (1) service line at the intended local service address. The customer must place the order through an AT&T business office or outbound telemarketing vendor. This waiver is not valid for existing AT&T customers or out of region customers who are new to AT&T. Residential customers who are currently not subscribing to AT&T for local service may be eligible for this waiver. The customer must have at least one (1) wireline local service or equivalent (wireless in lieu of wireline) with a provider other than AT&T at a local service address within AT&T territory. The customer must request the qualifying service at the same address and in the same name as the existing service, unless the customer is planning an imminent move from an address in AT&T territory to another address within thirty (30) days of responding to this offer. In the case of an imminent move, AT&T may offer the customer the waiver of charges and place the order at the new address. The customer must not have had local service with AT&T within ten (10) days prior to the new service connection date.

A12.16.1 General

- A. PCS provides central office calling features furnished from Electronic Central Office equipment located in Company buildings. Access arrangements available to PCS are individual Business exchange lines, trunks and exchange lines extended to foreign central offices/foreign exchanges. It is offered on a single or multiple access arrangement basis as a customer option and may be provided subject to the availability of facilities. All access arrangements in PCS will have the same subscriber responsibility. Exchange access arrangements in PCS must have the same type of service, e.g., must be either flat, measured or message service. (C)
- B. PCS service requires one basic feature group per access arrangement and the basic feature group selected may vary among multiple access arrangements. Optional feature groups are only available in conjunction with a basic feature group and will be offered on a per access arrangement equipped basis.
- C. PCS is not available to access arrangements equipped with ESSX service, Outward WATS Service, and 800 Service. PCS basic and optional feature groups are not compatible with existing Custom Calling Services described in Section A13.
- D. The billing record of any local or toll calls on access arrangements using PCS service will not be affected by the application of the features of this service.
- E. Some PCS features may not be available to access arrangements utilizing dial pulse signaling. The rates and charges for Touch-Tone service are in addition to PCS rates and charges.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.16 Prestige Communications Service (PCS) (Cont'd)

A12.16.1 General (Cont'd)

- F. The quality of transmission for calls utilizing PCS Call Forwarding features or the User Transfer/Conferencing feature may vary depending on the distance and routing involved. The Company makes no representation as to the quality of the transmission of such calls.
- G. The minimum service period for PCS is one month commencing with the date of installation of the service.
- H. Feature availability and/or operation is dependent upon the type of serving central office and/or the current generic program.
- I. PCS can be suspended as specified in A2.3.16. During the period of suspension, no recurring charge applies to the PCS features.

A12.16.2 Service Description

A. Basic Features

1. User Transfer/Conferencing^{1,2}

A user of this feature may hold an in-progress call and complete a second call while maintaining privacy from the first call, or may add on the previously held call for a three-way conference. The feature also allows an incoming call to be transferred to another access arrangement. (T)

2. Call Pickup¹

This feature allows a PCS user the ability to answer a call which has been directed to another PCS access arrangement within the same call pickup group by dialing a code. Multiple call pickup groups are allowed with PCS service. (T)

3. Call Hold^{1,3}

A user of this feature can place any established call on hold by depressing the switchhook and dialing a code. This frees the access arrangement to originate another call. (T)

B. Optional Features

1. Speed Calling⁶

This feature provides a PCS user the ability to place a call by dialing a code plus one digit, to any one of six numbers preprogrammed by the customer on an individual access arrangement. (T)

2. Call Waiting¹

This feature signals a PCS user that is on an existing call that another call is waiting. Cancel Call Waiting provides the ability to deactivate the Call Waiting feature on a per call basis and is included with Call Waiting where available. Call Waiting may be provided on individual access arrangements that are not in rotary (arranged for hunting) or on the last access arrangement in a rotary hunt group. (T)

3. Call Forwarding Variable¹

This feature provides a PCS user the ability to have all incoming calls forwarded to a different number by dialing a code and the number where calls are to be forwarded. Ring Reminder provides a short burst of ringing on an access (T)

Note 1: This feature is inherent in most customer provided PBX's. Under certain conditions, the PBX feature may take precedence over, alter, or preclude the use of this PCS feature. (T)

Note 2: Due to technological limitations, User Transfer includes Conferencing. (T)

Note 3: Due to technological limitations, User Transfer/Conferencing is required with Call Hold. (T)

A12.16 Prestige Communications Service (PCS) (Cont'd)

A12.16.2 Service Description (Cont'd)

B. Optional Features (Cont'd)

- 4. Call Forwarding Don't Answer^f (T)
 This feature provides a PCS user the ability to automatically forward all calls that encounter a don't answer condition, after a preselected interval, to an alternate number. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Due to technical limitations, the actual interval before a don't answer call is forwarded may vary slightly from the pre-set value. The interval and destination number are specified by the customer at the time the feature is ordered. Changes in either the destination number or the forwarding interval must be requested from the Company by service order.
- 5. Call Forwarding Busy Line^f (T)
 When the called access arrangement is busy, this feature automatically routes all calls to a preselected access arrangement on a different premises from the called access arrangement. The destination number is specified by the customer at the time this feature is ordered. A change in the destination number must be requested from the Company by service order.
- 6. Speed Calling 30^f (T)
 This feature provides a PCS user the ability to place a call by dialing a code plus two digits, to any one of thirty numbers preprogrammed by the customer on an individual access arrangement

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.70 Privacy Manager Service

A13.70.1 Definition of Feature Offering

- A. Privacy Manager Service will provide Caller ID subscribers with the ability to identify unavailable, unknown, blocked and private numbers. Privacy Manager Service will intercept all unidentified calls before the subscriber's telephone rings. If the call is marked private, the caller will be asked to press 1 to deliver his/her calling information. On unavailable or unknown numbers, the caller will be asked to state their name. Once the calling party is identified, the service will ring the subscriber and announce the calling party's information. The subscriber has the option to accept the call, reject the call, or send a "Do Not Solicit" message to a telemarketer. Privacy Manager Service allows the subscriber to assign a special pass code giving callers of his/her choice the ability to bypass Privacy Manager Service. Subscribers may also switch Privacy Manager Service on or off from his/her own phone.

A13.70.2 Regulations and Limitations of Service

- A. The following regulations and limitations apply:
 1. Privacy Manager Service is provided subject to the availability of facilities.
 2. Privacy Manager Service is available to single and multi-line residence customers.
 3. Privacy Manager Service is not compatible with Calling Number Delivery Blocking-Permanent, FX, FCO *or* ISDN. Privacy Manager Service may not be compatible with RingMaster Service in all switch types. (T)
 4. Caller ID and Touch-Tone Service are required in order to subscribe to Privacy Manager Service.
 5. Privacy Manager Service can be suspended as specified in A2.3. During the period of suspension, no recurring charge applies.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.9 Prestige Communications Package (PCP) (Cont'd)

(Obsolete December 8, 1989, Type D)

Obsolete Service Offering. Not available for new installations or on transfers of service to a new location. Existing PCP customers may request feature changes and additions or line additions at the rates specified in this section. If the customer requires features not found in A112.9 that are available from A12.16, the entire PCP billing will be converted to rates specified in A12.16.

A112.9.1 General

- A. PCP is a central office communications system package furnished from electronic central office equipment located in Company buildings. Access arrangements to PCP are provided in association with individual Business exchange lines, trunks, 800 Service and/or certain types of foreign exchange lines. It is offered as a customer option and may be provided subject to the availability of facilities to access arrangements except services provided through No. 1 or 1A ESS Remote Switching Systems (RSS). All access arrangements in a PCP system must have the same type of rate, i.e., they must all be either flat or measured rate service. (C)
- B. PCP service is offered in two categories, PCP I and II. PCP I provides for a system accommodating from two to six access arrangements. PCP II provides for a system accommodating from seven to thirty central office access arrangements. PCP II is offered only in conjunction with business service access arrangements. The billing record of toll calls on access arrangements using PCP service will not be affected by the application of the features of this service. Intercom calls between access arrangements in the same PCP system will not incur local usage charges.
- C. A customer may choose to combine exchange access arrangements terminating at different locations into a single PCP system. All access arrangements terminating in a PCP system, however, must be served by the same central office.
- D. Six PCP features, Intercom, Call Pickup, Call Hold, Call Waiting, Call Forwarding Variable and Convenience Dialing, are not available to access arrangements utilizing dial pulse signaling. All PCP features are available to access arrangements utilizing Touch-Tone signaling.¹ The rates and charges for Touch-Tone service are in addition to PCP rates and charges.

Note 1: See exceptions found in A112.9.2.B.6.

(Obsolete December 8, 1989, Type B)

Obsolete Service Offering. Not available for new installations or on transfers of service to a new location. Existing PSLs customers may request feature changes and additions or line additions at the rates specified in this section. If the customer requires features not found in A112.9 that are available from A12.16, the entire PSLs billing will be converted to rates specified in A12.16.

A112.10.1 General

- A.** PSLs provides central office calling features for Business Flat, Measured or Message Rate Services and is furnished only from central offices equipped to provide this service. It is offered only on a single exchange line basis as a customer option and is provided subject to the availability of facilities. PSLs is not available for lines equipped with Rotary (Grouping) arrangements, ESSX or Coin Telephone Services. Custom Calling Service (CCS) options specified in A13.16 are not compatible with PSLs and may not be combined with PSLs features on the same line. (C)
- B.** The billing record of any local or toll calls on lines using PSLs will not be affected by the application of the features of this service.
- C.** Four PSLs features, Call Hold, Call Forwarding, Convenience Dialing and Speed Dialing-Thirty are not available to lines utilizing dial pulse signaling. All PSLs features are available to lines utilizing Touch-Tone signaling. The rates and charges for Touch-Tone service are in addition to PSLs rates and charges.
- D.** The quality of transmission for calls utilizing PSLs's User Transfer, Call Forwarding or Conferencing features may vary depending on the distance and routing of the calls involved. The Company makes no representation as to the quality of the transmission of such calls.
