A40. FAST PACKET TRANSPORT SERVICES

A40.10 Fast Packet Services Payment Plan

A40.10.1 General

- A. The regulations specified herein are applicable to specific services as indicated in each service's respective subsection of this *Guidebook*. All of these services are included in this Section (A40. - Fast Packet Transport Services). (T)
- B. Services furnished under the Fast Packet Services Payment Plan (Fast Packet SPP) are subject to all general *service terms* applicable to the provision of service by the Company as stated elsewhere in this *Guidebook* except as noted herein. (T)
- C. The Fast Packet SPP is a payment plan which allows customers to pay fixed or variable rates for Fast Packet Transport Services over variable contractual payment periods. A specific monthly rate applies for the duration of each period.
 - 1. Term Payment Plan A - payment periods may be selected from 12 months to 24 months in length.
 - 2. Term Payment Plan B - payment periods may be selected from 25 months to 48 months in length.¹ (C)
- D. When the customer orders service to be provided under a Fast Packet SPP arrangement, the customer must designate to the Company the payment plan and the service period desired, e.g. Term Payment Plan B and 36 months.

A40.10.2 Application of Rates and Charges

- A. Rates stabilized under a Fast Packet SPP arrangement are exempt from Company initiated increases, however decreases to any rate element will automatically flow through to the customer.
- B. Termination Liability Charge
 - 1. In the event that all or any part of a service is disconnected at customer request prior to expiration of any selected payment period of greater than one month's duration, the customer will be required to pay a Termination Liability Charge unless specifically stated otherwise in that service's *guidebook*. (T)
 - 2. The Termination Liability Charge is determined by multiplying the number of months remaining in the contract payment period by the contracted monthly rate by 50 percent.
 - a. For example, a customer subscribes to a Fast Packet Transport Service using Term Payment Plan B and selects the 30 month payment period. After 12 months the customer chooses to terminate service. The Termination Liability Charge is calculated by multiplying 18 months (30 months - 12 months) by the monthly rate by 50 percent.
- C. When customers renew or change the length of their payment period, the rates applicable for the new period are those currently in effect at the time of the renewal or change in the length of the payment period. A Service Charge will not be applicable for such renewals or changes to the payment period.
- D. Customer requests for inside moves of service will not affect the contract period.
- E. A change in jurisdiction will not constitute a disconnect of service provided the new Fast Packet SPP arrangement is at least the minimum number of months allowable under Term Payment Plan A (as defined in the Fast Packet Transport Service's specific tariff section) or equals/exceeds the remaining service period, whichever is greater, provided the new Fast Packet SPP arrangement is for the same customer at the same location for the same capacity service.

A40.10.3 Additions

- A. Additions of services or rate elements - e.g., Ports - must be under a new Fast Packet SPP arrangement at rates and charges as specified in A40.10.2. (T)
- B. Termination charges for premature disconnection of added contractual services will apply as set forth under Disconnects in A40.10.4. (T)
- C. Additions under Fast Packet SPP are exempt from Company initiated rate changes for all payment periods longer than one month. However, decreases for any rate element will automatically flow through to the customer.
- D. Installation, Service Charges, service establishment, and any other nonrecurring charges, as specified in this *Guidebook*, will apply to the added services. (T)

A40.10.4 Disconnects

- A. When a service or rate element included under a Fast Packet SPP arrangement is disconnected prior to expiration of the selected service period, Termination Liability Charges may apply as set forth in A40.10.2. Remaining services or rate elements will not be affected by such disconnections. (T)

Note 1: Effective November 15, 2013, customers may not establish new term plans greater than 36 months for BellSouth Metro Ethernet Service described in A40.13, and existing term plans greater than 36 months may not be renewed or extended for a term greater than 36 months. (N)

A40.13.2 Regulations (Cont'd)

D. Contract Plans

1. Contract plans are available under conditions specified in the Fast Packet Services Payment Plan in A40.10, with contract periods described as follows:
 - a. Term Payment Plan A - payment periods may be selected from twelve (12) to thirty-six (36) months.
 - b. Term Payment Plan B - payment periods may be selected from thirty-seven (37) to sixty (60) months.¹ (C)
2. Termination Liability Charge will not be applicable for customer requests to change from a Shared Native Mode LAN Interconnection (NMLI) service to a higher bandwidth Premium BellSouth Metro Ethernet Service arrangement. The length of the commitment associated with the new service must be equal to or greater than the time remaining in the customer's existing service arrangement commitment.
3. The auto renewal clause described under the Fast Packet Services Payment Plan in A40.10.6.A.4 is not applicable to BellSouth Metro Ethernet Service.

E. Moves

1. A move involves a change in the physical location of one of the following:
 - a. The point of interface at the customer premises.
 - b. The customer's premises.
2. The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.
 - a. Moves Within the Same Building
When the move is to a new location within the same building, the charge for the move will be an amount equal to one half the nonrecurring (i.e., installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements.
 - b. To a Different Building
Moves to a different building, other than addressed in *paragraph* 3 will be treated as a disconnect at the existing location and all associated nonrecurring charges will apply at the new location. The customer will remain responsible for satisfying the remainder of the existing contract.² (T)
3. Moves of Service under Fast Packet SPP
Customer requests for moves of service under Fast Packet SPP, other than inside moves, will be subject to the conditions stated in A40.10.11. (C)

Note 1: Effective November 15, 2013, customers may not establish new term plans greater than 36 months for BellSouth Metro Ethernet Service, and existing term plans greater than 36 months may not be renewed or extended for a term greater than 36 months. (N)

Note 2: Such moves of Metro Ethernet Service with Automatic Protection Switching (APS) shall additionally incur the full nonrecurring charge for establishing the APS feature at the new premises (as a new APS design will be required). The APS monthly recurring charge may change as appropriate based upon the actual route mileage associated with the new premises' APS design. (T)
