A13.27.5 Enhanced Universal Emergency Number Service (E911) (Cont'd)

E. Rates And Charges (Cont'd)

3. Service Features

- a. Rounded to the nearest 1000 access lines per service feature per Company (excluding all types of WATS terminations). This count is based upon the number of access lines in service at the time service is established. In instances where an exchange in an E911 system overlaps into an adjacent county or municipality without E911 service, charges for total exchange access lines will apply. When the adjacent county or municipality implements E911 service, charges for only access lines located in their respective serving areas will apply. This count will be adjusted annually to update customer billing.¹
