A3.1 General (Cont'd)

- I. Pursuant KPSC Administrative Case No. 360, a monthly Intrastate Universal Service Surcharge shall be imposed on all local exchange access lines, MultiServ service lines and MultiServ PLUS service lines or in the case of ESSX service and Centrex service, per Network Access Register (NAR). For purposes of application of this surcharge, access lines are defined as facilities which provide access to and from the telecommunications network for toll service and for local calling with the exception of WATS, Remote Call Forwarding, Radio Common Carriers, InterLATA Foreign Exchange Lines, Private Line Services, Mobile, Interexchange Carriers, and Company Official Accounts. The Commission has determined in Case No. 2016-00059, Order dated March 10, 2016, that the amount of the surcharge will be \$.14 per access line; however, this amount is subject to change by the Commission to meet the needs of the Universal Service Fund in Kentucky. The surcharge shall appear as a separate line item on the customer's bill.

A3.2 Statewide Rate Schedules (Cont'd)

A3.2.3 Measured Rate Schedule (Cont'd)¹

- B. The rates stated preceding include the following monthly local usage allowances for dialed sent paid local calls: (M1)
- 1. Usage allowance (M1)

	Usage Allowance	USOC	
(a) Low-Use Residence Measured Service (obsolete, see A103)			(M1)
(b) Standard Residence Measured Service (obsolete, see A103)			(M1)
(c) Business Measured Service	\$7.50	NA	(M1)

When a customer subscribes to more than one measured rate line on the same premises and the lines are group billed on the same service account, the local usage charges on all such lines are combined. If usage allowances are applicable, they are also combined to determine the amount of charges for usage in excess of such allowances. Usage charges and/or usage allowances shall not be combined for measured rate lines structured on separate service accounts, even though one account might be "billed to" another account for the purpose of rendering one bill to the subscriber. (M2)

In locations where Measured Rate Individual Line Service is available, it will replace the current Individual Line Message Rate Service. Existing Individual Line Message Rate subscribers will have the choice of converting to either Flat or Measured Rate Service. (M2)

- C. The following mileage bands and rates apply for all usage within the Limited Local Calling Area. This schedule is not applicable for any service established after Area Calling Service² is offered in an exchange. Usage charges will be billed in arrears. Partial minutes count as full minutes for each individual call completed. (T)(M1)

Mileage Bands	Initial Minute	Additional Minute	
A (0 miles)	\$.04	\$.02	(M1)
B (1-10 miles Limited LCA)	.04	.02	(M1)

- D. Lower rates for the Evening and Night and Weekend rate periods are expressed as a percent reduction of the usage rates stated *herein*. The rate is applied to the total summarized usage charge for those portions of all messages occurring within the reduced rate period. When application of the reduced rate results in a fractional charge, the amount will be rounded to the nearer whole cent. (T)

No reduced rate applies for that portion of messages in the Day rate period.

When messages span more than one rate period, total charges for the minutes in each rate period are summarized, any reduced rate applied and the results for each rate period are totaled to obtain the total message charge.

- 1. Rate periods and rate discounts are described in the table following.

C. Complete Choice Basic Offer¹

Eligible residential subscribers who purchase local service with AT&T and subscribe to and retain the Complete Choice Basic (CCB) package may receive a monthly bill credit for 12 months, on up to two lines, that will provide a net price of \$15.00 for the CCB package.

Rules

1. Eligible subscribers are those residential subscribers who have at least one local exchange access line or a substitute (e.g. wireless or VoIP service) with a provider other than the Company at a service location that can be served by the Company.
2. Eligible subscribers must request the qualifying service at the same address as the existing service, unless they are planning an imminent move – within 30 (thirty) days of responding to the offer – from one address in an AT&T incumbent local exchange service area to another address in an AT&T incumbent local exchange service area.
3. The subscriber is required to subscribe to AT&T for local service and purchase the Complete Choice Basic package on each line receiving the credit.
4. Eligible subscribers will receive a bill credit for 12 months on up to two lines that will provide a net price of \$15.00 for each Complete Choice Basic package. If the subscriber discontinues the package, the credits will cease.
5. This offer may not be combined with other local service offers that provide a monthly recurring credit or discount, but may be combined with an offer that waives the nonrecurring installation/service charge(s).
6. Subscribers must keep the CCB package for 30 days to receive the benefits of this offer.
7. This offer is not available to subscribers who are switching service between affiliated companies.

Note 1: Effective December 15, 2015, the Complete Choice Basic Offer is no longer available to new subscribers. Existing subscribers receiving benefits of this offer may continue to receive the benefit until the end of the 12-month period.

A3.4 Regrouping

Rates for Local Exchange Service are set out in this *Guidebook* for each exchange and vary depending upon the number of main station lines (including Centrex Type Services main station lines, except as provided following,) and PBX trunks (including trunks providing ESSX service to U.S. Government-owned systems serving certified military bases) included in the Limited Local Calling Area of each exchange. When an exchange changes from one group to another because of increase or decrease in station lines and trunks, the rates for the appropriate higher or lower group will become effective, after a waiting period of four months.

A3.31 Lifeline

A3.31.1 Description of Service

- A. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket 97-157, which adopts the Federal-State Joint Board's recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996 and the FCC Report and Order and Further Notice of Proposed Rulemaking in WC Docket No. 11-42, adopted January 31, 2012.  - 3. Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.

Information obtained during such audit will be treated as confidential information to the extent required under State and Federal laws.
