A100. OBSOLETE SERVICE OFFERINGS - GENERAL

A100.1 General

- A. Service offerings listed herein are classified as obsolete. Conditions applicable to these offerings are set forth in paragraphs following.
1. Basic local services
Coding to indicate those classes of basic local service which are not offered at all or which have been obsoleted may be shown in Section A3 with appropriate footnotes. The footnotes are keyed to the specific exchanges to which they apply. (T)
 2. Service offerings which have been made obsolete (other than those shown in Section A3) are classified according to the categories shown following:
Type A - Not offered for new installations on and after the specified obsoleted date; any available units used only for additions to existing service at the same location.
Type B - Not available for new installations, additions or on transfers of service to new location.
Type C - Unit no longer being manufactured; offered for new installations only as obtainable from existing stock.
Type D - Any other arrangement; the specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.
- B. Obsolete services are furnished subject to all the *Terms and Conditions* of the *Guidebook* the same as would be applicable if the service offering were not obsolete. For convenience in use, a *Guidebook* Reference is provided as an aid in referring the reader to a specific Section having a bearing on the obsolete service offering. (T)
- C. Unless additions are specifically provided for in the obsolete offering, rates and charges for all equipment which is ordered subsequent to its becoming obsolete will be based on estimated costs. However, when the same or a similar equipment is a current offering, then the current rate or charge applies instead. Regular service charges apply in addition. (T)
- D. Items of equipment which are continued in service for existing customers only may be retained by a customer as long as the equipment is repairable and the Company is able to obtain repair parts under normal supply conditions. When this equipment becomes unrepairable or repair parts are unobtainable, the service will be discontinued and the equipment removed by the Company.

A103. OBSOLETE SERVICE OFFERINGS - BASIC LOCAL EXCHANGE SERVICE

A103.1 Reserved For Future Use

A103.2 Statewide Rate Schedules

(Obsoluted, 07-10-93, Type D, see A3.7) Two-Party Line Service will not be available for new installations, relocations, or transfers of service to new locations.

Effective 01-24-94, the Company will begin a program to upgrade two-party customers to individual line service. Customers will be notified prior to their service being changed. When upgraded, residential customers will be allowed to continue paying two-party zone charges until one of the following occurs: transfer of service to new location; additional line(s) added; or requested relocation of Company facilities.

A103.2.1 Flat Rate Schedule

The rates specified herein entitle subscribers to an unlimited number of messages to all stations bearing the designation of central offices within the serving exchange and Limited Local Calling Area exchanges as shown in A3.6, Local Calling Areas. (M1)

		Residence		Business		USOC
		1-Pty.	2-Pty.	1-Pty.	2-Pty.	
A.	The following schedule of monthly rates is applicable to Flat Rate Main Station Line Service:					
1.	Rate groups include total main station lines and PBX trunks.					
	(a) Group 1 (0-13,800)	-	\$ 9.84	-	\$24.07	NA
	(b) Group 2 (13,801 - 25,100)	-	10.52	-	26.22	NA
	(c) Group 3 (25,101 - 45,500)	-	11.04	-	28.02	NA
	(d) Group 4 (45,501 - 200,800)	-	11.56	-	29.86	NA
	(e) Group 5 (200,801 - 1,191,800)	-	14.08	-	38.17	NA
B.	In accordance with KPSC Docket No. 91-149, the following exchanges have an exception rate to the statewide group.					
1.	Exception from the schedule.					
	(a) Georgetown	-	11.68	-	30.18	NA
	(b) Sadieville	-	11.68	-	-	NA
	(c) Stamping Ground	-	11.68	-	30.18	NA

A103.2.2 Message Rate Schedule

A103.2 Statewide Rate Schedules (Cont'd)

A103.2.8 Area Calling Service

(Obsolated 9-27-2002, Type D) Business Area Calling Service with LUD will not be available for new installations, additions to existing service or transfers of service to new locations. (T) (M)

(Obsolated 6/01/2013) This service is not offered for new installations or transfers of service to new locations for Residential customers. (M)

Refer to A3.2.8 for all terms and conditions associated with Business and Residence Area Calling Service. (M)

- A. Reserved For Future Use. (M)
- B. Reserved For Future Use. (M)
- C. The access line for Residence Area Calling Service and Business Area Calling Service with Local Usage Detail (LUD) is provided at the following rate. All other services offering Area Calling Service are provided for in the appropriate sections of this Guidebook. Separate access line rates are provided for LUD subscribers. LUD is described in A3.22. (M)
 In accordance with KPSC Docket No. 91-149, the Georgetown, Sadieville and Stamping Ground exchanges have an exception to the statewide group.

		Monthly Rate Rate Group			
		1 - 4	5	Exception	USOC

A103.2 Statewide Rate Schedules (Cont'd)

A103.2.9 Complete Choice Service

(Obsoleted February 19, 2009, Type D. Not available for new installations, additions or on transfers of service to new location. Customers may add or remove features within the plan.)

A. General

1. Complete Choice service provides the features specified following and a flat rate access line. The access line includes Touch-Tone capability.
2. The rate specified herein entitles a residence subscriber to unlimited calling to all exchange access lines within the subscriber's exchange and the Limited Local Calling Area as defined in A3.6.1.
3. The rate specified herein also entitles a residence subscriber to unlimited use of the services/features specified in the following sections:
 - A13.9 Custom Calling Services
 - A13.19 TouchStar Service excluding Calling Number Delivery Blocking-Permanent
 - A13.20 Customized Code Restriction
 - A13.34 RingMaster service
 - A13.47 Message Waiting Indication
 - A113.9.3.B Obsolete Custom Calling Services
 - A12.16.2.A Call Hold and Call Pickup only (PCS limitations do not apply)

A subscriber may select an unlimited number of compatible services or features from the Sections listed above. All **Terms, Conditions** and Limitations specified in the sections listed (except as indicated above) apply to the respective services/features requested as part of this service. Service Charges specified in Section A4 do not apply for transactions involving only additions, deletions or changes to the services/features requested as part of this service.

4. Residence customers may subscribe to the Two-Line Plan or the Three-Line Plan for Complete Choice service. Both plans offer grouping service as specified in A3.19 at no additional charge in addition to the features listed in 3. All services/features specified as available with Complete Choice service are available with each line of a multi-line package. All lines in each multi-line package must be billed to the same account and located at the same premises.
5. Service charges specified in Section A4 do not apply for a conversion of existing service to/from Complete Choice service.
6. Existing customers of Complete Choice service cannot take advantage of special promotions for Complete Choice service or Area Plus service with the Complete Choice option or any of the services/features specified in 3, unless specifically allowed by the terms of the special promotion.

A103.2.12 PreferredPack Plan

(Obsoleted January 27, 2009, Type D. Not available for new installations, additions or on transfers of service to new location. Customers may add or remove features within the plan.)

A. Description of Service

1. The PreferredPack plan provides the features/services specified following and a flat rate access line with Touch-Tone capability.
2. The rate specified herein entitles a residence subscriber to unlimited calling to all exchange access lines within the subscriber's local calling area as defined in A3.6.1.
3. The rate specified herein also entitles a residence subscriber to unlimited use of the features/services specified following from the listed sections:
 - A13.9 Call Waiting ID, Three-Way Calling, Call Forwarding Busy Line, Call Forwarding Don't Answer (with or without Ring Control), Star 98 Access
 - A13.19 Caller ID, Call Return
 - A13.47 Message Waiting Indication
 - A13.70 Privacy Manager service

B. Terms, Conditions and Limitations of Service

1. The PreferredPack plan is only available to residence subscribers. A residence subscriber may select any suitable combination of the features/services listed in A103.2.12.A.3. (T)
2. All **Terms, Conditions** and Limitations specified in the sections listed in A103.2.12.A.3 apply to the respective features/services requested as part of this package. (T)
3. All features/services are furnished only from central offices that have been arranged to provide these services. The features/services are provided subject to availability of facilities.
4. Service charges specified in Section A4 do not apply for transactions in which a subscriber only modifies an existing PreferredPack plan package by adding, deleting or changing features/services requested as part of the package.
5. Existing customers of the PreferredPack plan can not take advantage of special promotions for the PreferredPack plan or any of the features/services specified in A103.2.12.A.3, unless specifically allowed by the terms of the special promotion.
6. The PreferredPack plan can be suspended as specified in A2.3.16. During the period of suspension, the rate specified following applies

C. Rates and Charges

A103.2.13 2 Pack Plan

(Obsoleted January 27, 2009, Type D. Not available for new installations, additions or on transfers of service to new location. Customers may add or remove features within the plan.)

A. Description of Service

1. The 2 Pack Plan provides the features/services specified following and a flat rate access line with Touch-Tone capability.
2. The rate specified herein entitles a residence subscriber to unlimited calling to all exchange access lines within the subscriber's local calling area as defined in A3.6.1.
3. The rate specified herein also entitles a residence subscriber to unlimited use of the features/services specified following from the listed sections:
 - A13.9 Call Waiting ID, Call Forwarding Busy Line, Call Forwarding Don't Answer (with or without Ring Control), Star 98 Access
 - A13.19 Caller ID
 - A13.47 Message Waiting Indication

B. Terms, Conditions and Limitations of Service

1. The 2 Pack Plan is only available to residence subscribers. A residence subscriber may select any suitable combination of the features/services listed in A103.2.13.A.3, but the customer must select Call Waiting ID and Caller ID. (T)
2. All **Terms, Conditions** and Limitations specified in the sections listed in A103.2.13.A.3 apply to the respective features/services requested as part of this package. (T)
3. All features/services are furnished only from central offices that have been arranged to provide these services. The features/services are provided subject to availability of facilities.
4. Service charges specified in Section A4 do not apply for transactions in which a subscriber only modifies an existing 2 Pack Plan package by adding, deleting or changing features/services requested as part of the package.
5. Existing customers of the 2 Pack Plan can not take advantage of special promotions for the 2 Pack Plan or any of the features/services specified in A103.2.13.A.3, unless specifically allowed by the terms of the special promotion.
6. The 2 Pack Plan can be suspended as specified in A2.3.16. During the period of suspension, the rate specified following applies.

C. Rates and Charges

A103. OBSOLETE SERVICE OFFERINGS - BASIC LOCAL EXCHANGE SERVICE

A103.8 Joint User Service

(Obsoleted 3-11-87, Type D, *Guidebook* Reference A3.8.) On and after 3-11-87. Joint User Service will not be available for new installations, relocations, transfers of service or additions of access lines, additions of joint users, additions or changes of listings and additions of central office controlled features such as Touch-Tone and Custom Calling Service. (T)

A103.8.1 Application, Terms and Conditions (T)

- A. In general, Business Exchange Service is furnished for the exclusive use of the business subscriber and his employees, agents, and representatives. Joint User Service is a shared service arrangement which allows the business telephone Exchange Service of a subscriber to be used, when designated by the primary subscriber, by individuals, firms, or corporations not otherwise permitted use of the subscriber's Business Service by this *Guidebook*. (T)
- B. Joint User Service is permitted in connection with the following:
 - 1. Business Individual Line Flat Rate, Measured Rate or Message Rate Service.
 - 2. Commercial PBX Flat Rate, Measured or Message Rate Service.
 - 3. Hotel PBX Service.
 - 4. Centrex Type Services.
- C. Application for Joint User Service and for changes in service or equipment furnished therewith, must be executed by the primary subscriber. The primary subscriber is responsible for payment of all charges incurred, regardless of whether such charges are associated with his usage or that of any of his Joint Users. Stations, additional listings and miscellaneous equipment are furnished, with the consent of the primary subscriber, for use of the Joint User, at the regular rates.
- D. Charges for Joint User Service date from the day of the Company's information records are posted and are payable monthly in advance. The minimum chargeable period for Joint User Service is the life of the directory issue in which the listing first appears, not to exceed one year from the effective date of the listing. Contracts for Joint User Service are self-renewing for periods of one directory issue, not to exceed one year from the effective date of the directory. In the event the joint user listing does not appear in the directory, the minimum chargeable period is for one month.
- E. Joint User Service is terminated and charges for Joint User Service are automatically discontinued upon termination of the primary subscriber's telephone service. Charges for Joint User Service may be discontinued at the request of the subscriber provided that the Joint User no longer utilizes any of the customer's service or equipment, and also that the terms of the minimum service period have been satisfied.
- F. The total charges for telephone service allocated by the primary subscriber among the subscriber and his joint users shall not exceed the charges of the Company to the primary subscriber as set forth in this *Guidebook*. (T)
- G. Joint Users of a primary subscriber's service must have the option of obtaining service directly from the Company.
- H. A Joint User is entitled to one listing in the alphabetical section of the telephone directory.
- I. Joint User Service is not provided on party lines.

A103. OBSOLETE SERVICE OFFERINGS - BASIC LOCAL EXCHANGE SERVICE

A103. OBSOLETE SERVICE OFFERINGS – BASIC LOCAL EXCHANGE SERVICE

A103.20 Trunk Lines

(Obsolated 9-27-2002, Type D, *Guidebook* Reference A3.20) Area Calling Service with LUD for business, hotel and hospital subscribers will not be available for new installations, additions to existing service or transfers of service to new locations. (T)

A103.20.1 General

- A. Business trunks are provided on a flat rate basis, or Area Calling Service basis where available. On or after August 4, 1976, Message Rate Trunk Service is offered to new subscribers only for hotel and hospital services (See A103.7.2). The provision of all of the preceding services is subject to any other restrictions in this and any other applicable service publication.
- B. Hospital, hotel, rest home and nursing home subscribers may combine flat and message rate service or flat and Area Calling Service at a premises. Area Calling Service and message rate service may not be combined on a premises. These trunks are provided at the rates stated in A3.20.8 for the appropriate service.
- C. Hotels, hospitals, rest homes and nursing homes may subscribe to Area Calling Service, flat rate service, or message rate service. Guests may contract separately for one of the residence services otherwise available to them.
- D. Grouping service is provided for trunk lines at the rates specified in A3.19.

A103.20.2 Rates And Charges

In accordance with KPSC Docket No. 91-149, the Georgetown, Sadieville and Stamping Ground exchanges have an exception rate to the statewide group.

- A. Area Calling Service is provided for business, hotel and hospital subscribers where facilities are available at the rates specified following. In addition, usage charges apply as stated in A3.2.8. Separate Area Calling Service rates are provided to Local Usage Detail (LUD) subscribers. LUD is described in A103.22.

		Monthly Rate

A103. OBSOLETE SERVICE OFFERINGS – BASIC LOCAL EXCHANGE SERVICE

A103.22 Local Usage Detail (LUD)

(Obsoleted 9-27-2002, Type D, *Guidebook* Reference A3.22) Area Calling Service with LUD will not be available for new installations, additions to existing service or transfers of service to new locations. (T)

A103.22.1 General

- A. Local Usage Detail - (LUD) is an option for Area Calling Service customers who desire a printed listing of call details for local calls. For Area Calling Service customers this will include all calls terminating within the Full Local Calling Area. This printed listing is in lieu of the usual summary billing of all dialed sent paid usage. LUD is furnished on a billing date basis only, i.e., the service must be initiated and terminated on billing dates and must remain in effect for all intervening complete billing periods, except when associated with Area Calling Service which is either established or terminated between billing dates. Requests for LUD must be received at least five days prior to the billing date on which it is initiated.

A103.22.2 Rates

- A. The following charge applies for LUD within the Limited Local Calling Area when provided to Measured Rate Service subscribers.
 - 1. Printed Listing

	Charge	USOC	
(a) Additive for Measured Rate - Area Calling Service with LUD for MultiServ service Main Station Lines, MultiServ PLUS service NAR(s) or BellSouth Centrex service NAR(s)	\$3.00	UPPMA	(T)

Charges for LUD are in addition to other applicable local usage charges specified in this *Guidebook*. (T)
 LUD will be provided on a per line basis except when a customer has multiple lines on the same service account for combined usage and allowance billing. One LUD listing is furnished for these combined accounts.

- A103.38 Back-Up Line**

(Obsoleted 9-1-11, Type B – Not available for new installations, additions or on transfers of service to new location.)

A103.38.1 Terms, Conditions and Rates

(T)

- A.** Back-Up Line is an optional service which provides individual line business subscribers with an additional line which is available for inward and outward calling.
- B.** This service is only available to individual line business subscribers, where facilities permit. Back-Up Line service cannot be used as the primary business line, and must be located on the same premises as the business individual line service with which it is associated.
Back-Up Line will not be available to business party lines.
- C.** Each Back-Up Line can receive calls forwarded from one busy primary line or hunt group at no charge. This overflow capability will be provided on the forwarding line.
If a customer subscribes to more than one Back-Up Line, these Back-Up Lines may be provisioned in an overflow group at no charge. Overflow capability may not be provided from a Back-Up Line or group of Back-Up Lines to other lines on the same premises.
- D.** Overflow capability from additional primary lines or hunt groups to Back-Up Line service will be provided on the forwarding line.

- | | Monthly Rate | USOC |
|---|---------------------|--------------|
| 1. Overflow to Back-Up Line from each additional flat, measured, or message rate primary line or hunt group will be provided at the rate specified for Grouping Service.
(a) See A3.19 | \$ - | BULRX |
| 2. Overflow to Back-Up Line from each additional Area Calling Service primary line or hunt group will be provided at the rate specified for Grouping Service.
(a) See A3.19 | - | BULSX |
- E.** A directory listing is not furnished with Back-Up Lines. However, a directory listing may be purchased, if desired, at the rates specified in Section A6.
 - F.** Usage charges are applied for all incoming and outgoing calls associated with Back-Up Line service, as described in H and I, with the following exceptions. No usage charges apply to calls completed to the Company Business Office, Repair Service, or Emergency 911 Service. Charges for calls to Directory Assistance will be billed at the rates shown in A3.13 or A18. Usage Based Pricing primary lines will be billed their appropriate usage charges for all calls which overflow to a Back-Up Line. These usage charges are in addition to the Back-Up Line incoming usage charge described in H.

A103. OBSOLETE SERVICE OFFERINGS – BASIC LOCAL EXCHANGE SERVICE

A103.43 BellSouth Business Plus Service

(Obsolated 6-15-2007, Type 4 - Not available for new installations, additions to existing installations, or moves to a new location. Existing customers may not change to a different BellSouth Business Plus service option, however, they may convert to a Complete Choice for Business package that includes BellSouth Business Plus service.)

A103.43.1 Plan Descriptions

A. BellSouth Business Plus Service

1. BellSouth Business Plus service is offered as a business individual line service where facilities and equipment are available.
2. BellSouth Business Plus service allows the business customer to choose between two LATA-wide¹ calling options:
 - a. Option 1 - Flat rated plan which allows for calling anywhere within the LATA (subject to a total usage allowance of 120 hours/7,200 minutes) per billing period.
 - b. Option 2 - Combination rated plan which provides for unlimited usage within the limited local calling area as specified in A.3.6.1 for a flat monthly charge, and a single rate for each minute of use for all other calling within the LATA.
3. The option chosen by the BellSouth Business Plus service subscribers will apply to each of their lines.
4. Touch-Tone Calling service is provided to all BellSouth Business Plus service subscribers at no additional charge.
5. Customers may subscribe to either the standalone BellSouth Business Plus service offering or to the BellSouth Business Choice Package (See A103.44) which includes a BellSouth Business Plus service line or to the BellSouth Complete Choice for Business package (See A3.45) which includes a BellSouth Business Plus service line. If BellSouth Business Plus service is subscribed to, the rates of A103.43.2 are applicable. If BellSouth Business Choice Package or BellSouth Complete Choice for Business package is subscribed to, the rates of A103.44.2 or A3.45.2, respectively, are applicable. All of the *Terms, Conditions* and Limitations specified for each offering will apply to the respective services and features.
6. Usage rating is dependent upon the underlying service of the originating call location. When BellSouth Business Plus service usage charges as described in paragraph 2 are applicable, they will also apply to 1+, 0+ and 0- calls made within the LATA. However, for 0+ and 0- calls, usage does not contribute toward the Option 1 usage threshold and each minute of use is rated. The appropriate operator services surcharges will also be charged in accordance with the *Terms, Conditions* of A.3.14.
7. BellSouth Business Plus service Option 2 customers only may subscribe to Local Usage Detail for billable usage. There is no charge for the Local Usage Detail.
8. Method of Determining Monthly Usage Charges
 - a. Usage is determined for each call based on minutes or fraction thereof, with a minimum call duration of one minute. This value is then multiplied by the rate per minute for the rate option selected by the customer. The resultant amount is truncated to whole cents for each call. The amount of usage billed to the customer is subject to paragraphs b and c.
 - b. For Option 1, only usage above the first 120 hours (7,200 minutes) of usage in a billing period is billed to the customer.
 - c. For Option 2, only usage outside the Limited Local Calling Area is subject to the billing as described in paragraph a.

A103.43.2 Exchange Access Line Rates

A. Individual Line Service

	Monthly Rate	Rate per Minute of Use	USOC
1. BellSouth Business Plus service Option 1			
(a) Each line	\$120.00	-	BK1
(b) Each Minute of use above 120 hours (7,200 minutes) in a billing period	-	\$.05

(b) Each Minute of use outside the Limited Local Calling Area	-	.09	

A103.43.3 Service Charges

- A.** The service order charges specified in Section A4 are applicable for the installations of new lines at the subscriber's premises. These charges are not applicable for existing customers who wish to convert an existing line to a BellSouth Business Plus service plan.
- B.** Service charges do not apply for transactions which only involve additions, deletions or changes to the service or features requested as part of BellSouth Business Plus service with BellSouth Business Choice package service or with a Complete Choice for Business package.

Note 1: For a list of all exchanges in each LATA, see A3.6.2.

A103. OBSOLETE SERVICE OFFERINGS – BASIC LOCAL EXCHANGE SERVICE

A103.44 BellSouth Business Choice Package

(Obsoleted 11-18-99, Type B – Not available for new installations, additions or on transfers of service to new location.)

A103.44.1 General

- A. BellSouth Business Choice Packages are offered where facilities and equipment are available.
- B. BellSouth Business Choice Packages are offered to business subscribers and consists of a BellSouth Business Plus service Calling Plan line, touch-tone service and a choice of up to five selected calling features per line. BellSouth Business Choice Packages are available only in conjunction with BellSouth Business Plus service Calling Plan Options 1 and 2, as described in A3.43. The calling feature choices are listed in D.
- C. The BellSouth Business Plus service Calling Plan option chosen by the subscriber will apply to each line on the same account. BellSouth Business Plus service options may not be mixed on the same account.
- D. For each line, the BellSouth Business Choice Package also provides the subscriber with up to five compatible services and features from the following list. All of the *Terms, Conditions* and Limitations specified in Section A13 apply to the respective services and features requested as part of this service. The calling features chosen may vary from line to line in a BellSouth Business Choice Package line grouping. (T)

- E. A foreign listing and an additional listing are each available as part of these packages. All of the *Terms, Conditions* and limitations specified in A6 apply to the respective listings provided as part of this service. (T)
- F. Grouping service is also available as part of Complete Choice for Business packages containing three or more lines. The maximum allowed number of lines in grouping is one less than the number of lines in the package (e.g. for a 7-line package, a maximum of six lines in grouping is allowed). Obsoleted 3-line packages may have a maximum of three lines in grouping within the package. All of the *Terms, Conditions* and limitations specified in A3.19 apply for grouping service provided as part of this service. (T)

A103. OBSOLETE SERVICE OFFERINGS – BASIC LOCAL EXCHANGE SERVICE

A103.45 BellSouth Complete Choice For Business Package (Cont'd)

A103.45.3 Term Plan

- A. The Complete Choice for Business package Term Plan is available for any business customer who subscribes to a Complete Choice for Business package.
- B. Complete Choice for Business package Term Plans offer discounts off rates shown in A103.45.2. If the Subscriber does not renew the Subscriber Election agreement for another term or at the expiration of the renewed term, the Subscriber agrees to pay the full rates for the individual package components.
- C. The 12-month term is also available as a 12-month oral agreement with option to re-subscribe. If the customer selects the 12-month agreement with option to re-subscribe, the plan will renew for 12-month intervals. A maximum of two 12-month renewals are available after the first 12-month term. The customer will receive written notification of their selection outlining the details of the agreement, plus subsequent notifications regarding their re-subscription options beginning approximately one hundred and eighty (180) days prior to the expiration of each 12-month term depending upon the subscriber's billing cycle. The customer is under no obligation to re-subscribe after completion of a 12-month term period. Customers will be provided the discounts established in the first 12-month term for both successive 12-month terms.
- D. A termination liability will be assessed to a subscriber who terminates the service prior to the expiration of the term commitment. For Complete Choice for Business package Term Plan elections, the amount to be assessed will be equal to \$20.00 multiplied by the number of months remaining on the term.

Termination liability charges for Complete Choice for Business package Term Plan elections will not be applicable if, during the term period; (1) the customer converts to another Company access and local usage plan with a term equal to or greater than the time remaining on the Complete Choice for Business Package term plan, (2) the customer converts to an upgraded technology with the Company (i.e. network access lines to PBX Trunks, Centrex, ISDN Prime) and commits to a term equal to or greater than the time remaining on the Complete Choice for Business package term plan. It is at the Company's sole determination whether a product change satisfies the requirements for waiver of the termination liability under this clause or (3) the customer chooses to terminate their agreement and to negotiate a new Complete Choice for Business package agreement with a term period greater than the time remaining on the existing Complete Choice for Business agreement. The new service agreement will be based on the discounts in effect at the time of establishing the new agreement.

If during the Term, an AT&T ILEC Service (referred to as the "Terminated ILEC Service") provided under an AT&T Complete Choice for Business Agreement is migrated to a qualifying AT&T Business Voice over IP (BVoIP) Service or to a qualifying AT&T Mobility Service (referred to collectively as the "Replacement Service"), then the Early Termination Charge associated with the Terminated ILEC Service will be waived provided:

1. the Terminated ILEC Service has been installed at the Customer site for no fewer than 3 months;
2. the Term of the Replacement Service agreement is equal to or greater than the remaining term for the Terminated ILEC Service;
3. the Replacement Service is installed or available at the same Customer sites as the Terminated ILEC Service;
4. the Replacement Service is contracted for in the same relative quantity(ies) as those Terminated ILEC Services being displaced; and
5. activation of the Replacement Service at the Customer sites or for Customer use at such Customer Sites occurs within 90 days of termination of the ILEC Service at that site.

It is at the Company's sole discretion whether a product change satisfies these requirements.

- E. The Complete Choice for Business package Term Plan discounts are as follows:

	Term	Discount
For Term Plan elections dated on or after September 1, 2011	12 months	25%
For Term Plan elections dated on or after September 1, 2011	24 months	25%
For Term Plan elections dated from July 1, 2003 through August 31, 2011	12 months	8%
For Term Plan elections dated from July 1, 2003 through August 31, 2011	24 months	15%
For Term Plan elections dated on or after July 1, 2003	36 months	25%

- F. Subscribers who participate in a new Term Plan, and subscribe to new service during the term, will not be billed for the line connection charges and change in service charges, if applicable, associated with the service order. This will include the Line Connection Charge (first and additional lines) and the Charge for Change in Service, if applicable.
- G. Unless the Subscriber notifies *the Company* of its intent not to renew for another like term under the Program prior to expiration, then upon expiration of the initial term, the Subscriber term election agreement shall automatically renew for another term as initially selected¹. *The Company* will provide written and/or verbal reminders to the Subscriber of the Subscriber term election agreement expiration date and the automatic renewal provision beginning approximately one hundred eighty (180) days prior to its expiration, depending upon the Subscriber's billing cycle.

Note 1: This clause is no longer applicable for customers initially subscribing on or after September 1, 2011.

A108. OBSOLETE SERVICE OFFERINGS - TELEPHONE ANSWERING FACILITIES

A108.1 General Provisions

(Obsoleted, 7-28-04, Type D) Obsolete service offering. Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service/system or entire moves of existing service to new locations.

A108.1.1 Facilities And Equipment

- A.** The Company will provide facilities, as outlined herein, for Telephone Answering Bureaus (secretarial firms) for their use in furnishing telephone answering service for subscribers to exchange services, excluding multiparty line services, when they are absent or do not desire to answer their calls personally.
- B.** Specially designed telephone answering equipment is available for terminating a number of secretarial lines extending from telephone subscribers' service so that an attendant may answer incoming calls to the lines of subscribers who contract with the Telephone Answering Bureau. The equipment is designed to prevent the attendant from placing outgoing calls over such secretarial lines.
- C.** Main station and local private line terminations may also be provided where the subscriber contracts with a Telephone Answering Bureau to receive all incoming calls or where the Telephone Answering Bureau wishes to terminate administrative service for answering purposes only.
- D.** Foreign exchange service and secretarial lines associated therewith may be terminated in telephone answering equipment for answering purposes only.
- E.** Local exchange trunks may be terminated in a telephone answering switchboard for the purpose of completing local or long distance calls to and from administrative telephones furnished with and on the same premises as the telephone answering switchboard.
- F.** The interconnection by the Telephone Answering Bureau of its client's line with other lines or central office lines or other facilities is subject to the limitations of the equipment. Where such connections can be made and include connections to the Company exchange network, Private Line Service, or Long Distance Message Telecommunications network, the responsibility of the Company shall be limited to the furnishing of facilities suitable for Exchange Service, Private Line Service or Long Distance Message Telecommunications Service and to the maintenance and operation of such facilities in a manner proper for such services.
- G.** A concentrator-identifier is available for connecting a Telephone Answering Bureau with secretarial lines or main station lines of its clients located in central office areas other than that in which the Telephone Answering Bureau is located. Where main station lines are connected to concentrators, the address of the Telephone Answering Bureau shall be shown in the directory listing for service.
- H.** The Telephone Answering Bureau may bridge calls from secretarial lines to the general exchange network over exchange central office lines furnished the Telephone Answering Bureau for administrative use; however, these facilities furnished by the Company are not designed for call bridging. The Company will not be liable for defects in transmission or other service difficulties arising out of or resulting from the Telephone Answering Bureau bridging calls.
- I.** Rates and charges for expediting the installation of service is as specified in Section A4 for the appropriate residence or business class of service. (T)

A108.1.2 Initial Service Periods

Telephone answering concentrator-identifier equipment is provided for initial service periods of five years, with basic termination charges being applicable as indicated herein.

A109. OBSOLETE SERVICE OFFERINGS - FOREIGN EXCHANGE SERVICE AND FOREIGN CENTRAL OFFICE SERVICE

A109.1 Cross Boundary Foreign Exchange Service

(Obsoleted 2-21-80, Type D, *Guidebook* Reference A9.)

Effective February 21, 1980, Cross Boundary Foreign Exchange Service as provided for herein is discontinued as a service offering to new customers. However, such services being furnished as of February 21, 1980, may be continued for the same customer at the same premise in the same or less quantity.

(T)

A109.1.1 Rates And Charges

A. The rate for foreign exchange service is the nonrecurring and monthly rate for flat rate individual line main station service or PBX flat rate trunk line of the serving foreign exchange, plus mileage charges as follows for each circuit:

1. Where the foreign exchange service is so provided direct from the foreign exchange to the applicant's location:

a. For the distance from the subscriber's location to the rate center of the foreign exchange area from which service is furnished, a mileage charge applies.

(1) Airline Measurement

(a) Per mile or fraction thereof

Charge	USOC
\$5.00	NA

b. In those cases where a portion of the service is furnished by a connecting company, the rates and regulations of the connecting company apply to the part of the exchange service it furnishes.

A111.1 ESSX-1 Service

(Obsoleted 09-01-95, Type D) Service rates and charges in this Section are not available for new installations, moves, transfers of service or replacements or additions to existing service.

Obsolescence Rules

1. ESSX-1 service subscribers under a month to month payment option will be allowed to maintain their ESSX-1 service at month-to-month rates.
2. ESSX-1 service subscribers under contract will be allowed to maintain their ESSX-1 service under the rates and charges outlined in this Section, when the contract expires. For expired contracts, the Company may establish a date in the future to begin conversion of subscriber accounts to the month-to-month rates and charges outlined in this Section. (T)
 Obsoleted January 18, 1986, Type D, *Guidebook* Reference Section A112. Not available for installations of new systems or for moves of existing service to a location served by different switching equipment. Additional main station lines and the features in this section and A123 are available for additions to existing systems at the rates specified in these Sections. If the customer requires features not found in this Section or A123, that are available from Section A112., the entire system's billing will be converted to rates specified in Section A112. (T)

A111.1.1 General

- A. ESSX-1 Service is furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features.
 1. Direct Inward Dialing (DID) and Identified Outward Dialing (IOD) of exchange and toll calls to and from station lines and attendant positions of an ESSX-1 system
 2. Intercommunicating calls between station lines of the same ESSX-1 system
 3. Identification by station number of outgoing toll calls dialed by a station line
 4. Call Transfer, Consultation Hold and Three-Way Calling of incoming and outgoing exchange, toll, Enhanced Private Switched Communications Service (EPSCS), and Common Control Switching Arrangement (CCSA) type calls without the assistance of an attendant
 5. Station hunting on main station lines provided by series sequential, series non-sequential, basic multi-line hunt group or call forwarding-busy line and call forwarding-don't answer
 6. Common recorded announcement interception of calls to unassigned station numbers
 7. Trunk answer any station line of incoming primary directory listing calls (T)

A111.1.2 Terms and Conditions

- A. Definitions
 - ATTENDANT ACCESS CIRCUIT
 An attendant access circuit connects an attendant position to the serving central office. These circuits are used for the completion of calls directed to the attendant, extension of those calls to station lines and attendant assistance for station lines.
 - ATTENDANT POSITION
 An attendant position consists of customer-provided premises equipment.
 - BASE SERVICE AREA
 The base service area of an ESSX-1 system is located in the serving central office area within a one-half air line mile radius of the serving central office.
 - COMMON BLOCK (M)
 A Common Block is that portion of the memory storage in a No. 1 ESS central office that contains the features for a specific ESSX-1 system. An additional common block is required when a single ESSX-1 system serves two or more locations with widely differing calling characteristics. (M)
 - ESSX-1 MAIN STATION CIRCUIT (M)
 An ESSX-1 main station circuit connects an ESSX-1 main station line to the serving central office. (M)
 - ESSX-1 MAIN STATION LINE (M)
 An ESSX-1 main station line consists of the termination of a station circuit in the switching equipment of the serving central office. (M)
 - ESSX-1 SYSTEM (M)
 An ESSX-1 system consists of all station lines of a customer with the same primary directory listing which are served by the same central office equipment. (M)

Page 1.1 is hereby deleted in its entirety and removed from this Guidebook. (N)

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.2 Terms and Conditions (Cont'd)

(T)

A. Definitions (Cont'd)

GROUP USE SERVICE

Group Use Service is an optional service feature whereby different ESSX-1 systems which are served by the same central office equipment may be arranged for intercommunication calling between station lines and attendant positions of those systems.

NETWORK ACCESS REGISTER

The Network Access Register provides for exchange and toll network calling to and from main station lines and attendant positions of an ESSX-1 system.

STATION HUNTING

1. Series Sequential

When a call is originated to a busy station line in a series sequential station hunting group, the call hunts for an idle station line in that group in an ascending numerical sequence. A number may not hunt to any number which would hunt back to the original number dialed. Each line can hunt to and/or be hunted from only one number.

2. Series Non-Sequential

When a call is originated to a busy station line in a series non-sequential hunting group, the call hunts for an idle station line in that group in a pre-arranged numerical sequence. A number may not hunt to any number which would hunt back to the original number dialed. Each line can hunt to and/or be hunted from only one number.

3. Basic Multi-Line Hunt Group

When a call is originated to a busy station line in a basic multi-line hunting group, the call hunts once in a pre-arranged order for an idle station line through all remaining station lines in that group.

4. Call Forwarding - Busy Line

When a call is originated to a busy station line, the call is forwarded to the attendant or a designated station line in the same ESSX-1 system. The calls forwarded may be incoming only or incoming and intercommunicating.

5. Call Forwarding - Don't Answer

When a call which has been originated to a station line is not answered before the passage of a prescribed time interval which is dependent upon the arrangement of the serving central office equipment, the call is forwarded to the attendant or a designated station line in the same ESSX-1 system. The calls forwarded may be incoming only or incoming and intercommunicating.

TOLL DIVERSION

Toll Diversion automatically denies an ESSX-1 station line direct dialing access to a toll network. Station line users attempting to place such calls are diverted to the attendant.

TOLL RESTRICTION

Toll Restriction automatically denies an ESSX-1 station line direct dialing access to a toll network. Station line users attempting to place such calls will receive a distinctive tone to indicate that access is denied.

TRUNK ANSWER ANY STATION LINE

Trunk Answer Any Station Line is an attendant position night service arrangement whereby, when activated by the attendant, calls to the primary directory listing activate a common alerting signal on the customer's premises. These calls may then be answered by any main station line in the system upon dialing a special code.

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.2 Terms and Conditions (Cont'd)

- B.
ESSX-1 Service is classified as business service and is furnished only from No. 1 ESS central office equipment located on Company premises. ESSX-1 Service is offered subject to the availability of facilities and where, in the judgment of the Company, service may be provided by the use of service arrangements, equipment and facilities in quantities and types regularly furnished by the Company.
(T)
- C.
ESSX-1 Service is offered only as a complete service. ESSX-1 Service is not available without Network Access Registers.
- D.
Attendant positions, if provided, are located on the customer's premises and must conform to the operating practices of the Company to ensure that a proper standard of service is maintained.
- E.
One primary Directory Listing is furnished without additional charge for each ESSX-1 system in order to direct incoming calls from the exchange and toll networks to an attendant position of an ESSX-1 system.
- F.
An attendant access circuit may be arranged for dial "O" operation in order to permit station line users direct access to an attendant position.
- G.
The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an ESSX-1 system is limited by the number of network access registers subscribed to by the customer. Each network access register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the network access register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charge as specified in Section A4 applies per network access register affected.
(T)
- H.
Interception of Calls to Unassigned Station Lines
 - 1.
Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service. Referral of unassigned number calls will not be provided.
 - 2.
Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all ESSX-1 systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted.
- I.
At the time an ESSX-1 main station line is initially installed, it will be equipped with a suitable station hunting arrangement as determined jointly by the customer and the Company. When a change in that arrangement is requested by the customer, the appropriate Service Charge (including Premises Work Charges) as specified in Section A4 for a change in a line termination applies per main station line affected.
(T)
- J.
When the station hunting arrangements Call Forwarding-Busy Line and Call Forwarding-Don't Answer are provided on the same station line, all busy line and don't answer condition calls forwarded must either be incoming only or incoming and intercommunicating and, in addition, must be forwarded to the attendant or the same designated station line.
- K.
With the exception of Network Access Registers, neither partial nor complete temporary suspension of ESSX-1 Service is permitted.
(M)

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.2 Terms and Conditions (Cont'd)

- L. Optional Service Features** (T)
1. **Definitions** (T)
 - CALL HOLD** (T)
 - A station line user may place any call involving his station line on hold by dialing a preset code. (M1)
 - CALL PICK-UP** (M1)
 - A station line user may answer calls directed to another station line in the same call pick-up group by dialing a preset code.
 - CALL WAITING-TERMINATING**
 - A called station line equipped with this optional service feature will receive an audible tone to indicate that an incoming or intercommunication call is waiting when the called station line is busy.
 - CALL WAITING-ORIGINATING**
 - A calling station line provides an audible tone to a called station line in the same ESSX-1 system to indicate that an intercommunication call is waiting when the called station line is busy.
 2. The optional service feature Call Waiting-Terminating can only be provided when all station lines in an ESSX-1 system which are so equipped are arranged for either incoming calls only or incoming and intercommunication calls. Call Waiting-Terminating and the basic service feature Call Forwarding-Busy Line cannot be provided on the same station line.
- M. Rates And Charges**
1. Except where A111.1.2.M.6. is applicable, the rates and charges specified for ESSX-1 Service are in addition to the rates and charges for stations and other services with which the system is associated. (T)
 2. **Nonrecurring Charges** (T)
 - a. ESSX-1 nonrecurring charges are in addition to appropriate Service Charges (including Premises Work Charges) outlined in Section A4. (T)
 - b. ESSX-1 nonrecurring charges applicable on initial or subsequent installation may, at the customer's option, be paid in a lump sum when the service is established or deferred over a predetermined time in accordance with existing administrative procedures.
 3. If the ESSX-1 subscriber elects a Measured Rate Service option, Measured Rate Service usage charges specified in Section **A103** are applicable on calls to locations outside the subscriber's ESSX-1 system in addition to the rates and charges in this and other Sections for ESSX-1 Service and other associated services. Usage charges are not applicable on calls originated and terminated within the same ESSX-1 system. (T)
 4. A mixture of flat rate and measured rate service will not be allowed within a single customer system.
 5. ESSX-1 Basic Equipment, Network Access Registers, lines and circuits are available either at the rates and charges specified in A111.1.3 or under the ESSX-1/Multiline Service Option in A111.1.7. The customer must subscribe to all of these elements from the same Section. (T)
 6. When connecting ESSX-1 lines to facilities of other Interexchange Carriers not under the Company's jurisdiction, all ESSX-1 rates and charges associated with that line are not applicable.
 7. (DELETED)
 8. The rates and charges in this and other Sections for ESSX-1 Service and the associated features and services will continue to apply to existing ESSX-1 subscribers served at a location that is converted through no desire or fault of the subscriber to other than Number 1 ESS central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the non-Number 1 ESS equipment, the billing for that customer's system will be converted to charges appropriate for the central office equipment providing his service. (T)(M2)

B. Automatic Route Selection (ARS)

1. General

Automatic Route Selection is an ESSX-1 optional feature available where equipment and facilities permit. Station line users dial a pre-selected code to automatically select the preferred route subscribed to by the customer for network calls. Alternate routing to other facilities is also provided. This arrangement is available for use with Foreign Exchange, WATS, CCSA, EPSCS, Tie Line and toll type facilities.

Automatic Route Selection is accessed by dialing a single code (1, 2 or 3 digits) which automatically selects the appropriate route (FX, WATS, EPSCS, CCSA, OCC, Tie Line or toll type facility) to complete the call. If all facilities in the initial route selected are busy, the call will advance to other routes in the selected pattern. Patterns may consist of up to four (4) private routes. If no route is available, the call will route to a toll network or overflow tone (customer option). All patterns accessed by a single access code will have the same final route, either a toll network or overflow tone.

For calls using FX, WATS, EPSCS, OCC, Tie Line or CCSA type facilities, the routing may be based on a Number Plan Area (NPA) and limited to specific Central Office Codes within the NPA as designated by the customer. This is referred to as Foreign Area Discrete Translation.

Note 1: Rates and charges for Call Pickup also apply.

Note 2: When Code Restriction for NXX assigned to 900 and 976 is required, apply Code Restriction for NXX assigned to 900 and 976 as specified in Section A12.

(T)

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.4 ESSX-1 Optional Features (Cont'd)

B. Automatic Route Selection (ARS) (Cont'd)

2. Definitions

FACILITY

A facility denotes a specific FX, EPSCS, CCSA, OCC, Tie Line or WATS type circuit.

FOREIGN AREA DISCRETE TRANSLATION

Foreign Area Discrete Translation is the screening of a specific group of digits, by the switching equipment, to determine proper call routing.

PATTERN

A group of routes arranged to be selected in a sequence specified by the customer. For example:

Pattern #1	Pattern #2	Pattern #3
Company FX	Company WATS	Company FX
Company WATS	Company CCSA	Company WATS
Company CCSA	Overflow Tone	Company Tie Line
Toll		Toll

ROUTE

A route is a group of one or more facilities of the same type used to complete 7 or 10-digit calls between the same points.

ROUTE SELECTION

The automatic selection of the preferred route as predetermined by the customer, upon dialing of an access code by the station line user.

3. **Terms and Conditions**

- a. Automatic Route Selection is offered only to ESSX-1 customers served from No. 1 ESS central offices equipped to furnish this feature, where facilities permit.
- b. Preferred routes and alternate routing patterns will be specified by the customer.
- c. All rates and charges specified for Automatic Route Selection are in addition to the rates and charges for the associated facilities.
- d. The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- e. A single rate per facility will apply regardless of the number of patterns having access to that facility. The monthly rate specified is applicable to each facility available to the patterns.
- f. Patterns without final route to a toll network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgment of the Company, provide an adequate level of service so as to avoid interfering with the service of others (or to prevent others from making or receiving calls over their telephone service.)
- g. Where a route is used in one pattern (pattern reached by one access code), only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes), one translation per pattern may be provided subject to the appropriate charges as specified in A111.1.4.B.4.(c). Where central office code translation is required for more than one Number Plan Area (NPA) per single facility group or route, rates and charges as specified in A111.1.4.B.4.b will apply for each NPA translated.

(T)

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.4 ESSX-1 Optional Features (Cont'd)

B. Automatic Route Selection (ARS) (Cont'd)

3. Terms and Conditions (Cont'd)

- h. A group of patterns may have either a toll network or overflow tone as a final route. A combination of both within the same pattern group, that is, a group of patterns accessed by one code, is not permitted. Dial "9" may be used as an access code only if the patterns accessed have a toll network as a final route.
- i. Where toll restricted station lines have access to Automatic Route Selection patterns with final route to a toll network, rates and charges apply as specified for patterns with overflow to tone in lieu of the charge and rate specified for final route to a toll network.
- j. The customer is responsible for notifying the Company whenever any of the items specified in A111.1.4.B.4.c are required.

4. Rates and Charges

	Installation Charge	Monthly Rate	USOC

(2) Addition of patterns				
(a) Per pattern (see A111.1.4.B.4.b.)	-	-	NA	
(3) Additions or changes in NPA or central office code screening				
(a) Per route	160.00	-	NA	(M)
(4) Addition or deletion of a facility in an existing pattern				
(a) Each			NA	(M)

Note 1: Where station lines equipped for toll restriction access a pattern, apply the charge and rate as specified for overflow to tone.

Note 2: Each WATS type band is treated as a separate route.

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE**A111.1 ESSX-1 Service (Cont'd)****A111.1.4 ESSX-1 Optional Features (Cont'd)****C. Station Message Detail Recording****1. General**

Station Message Detail Recording (SMDR) is an arrangement to provide a record, by station number of originating intercity traffic routing over FX, WATS, EPSCS, CCSA and/or toll type facilities for ESSX-1 customers, where facilities have been made available. The station message detail will include the calling station number, the called number, date, time of day, duration of call and the type of facility used. Some message detail may be limited or omitted when this service is provided in conjunction with Automatic Route Selection.

The record will be provided, on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in the routes selected by the customer for Station Message Detail Recording.

2. Terms and Conditions

- a. Station Message Detail Recording (SMDR) may be offered to station lines of ESSX-1 customers served from a No. 1 ESS central office where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- b. Station Message Detail Recording is not represented to be a provision of billing detail. Where Foreign Exchange type facilities are involved, all such call attempts, whether completed or not, will appear in the SMDR.
- c. Station message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the accounting center furnishing the tape.
- d. Station message details may be provided on all facilities subscribed for by the customer but will not include intercom calls originated by ESSX-1 station line users. The customer may designate the group or groups of facilities on which Station Message Detail Recording (SMDR) is to be provided.

3. Rates

	Installation Charge	Monthly Rate	USOC
a. Common Equipment			
(1) Charges			
(a) Per Primary Location	\$1,300.00	\$135.25	CMM
(b) Per Secondary Location served by separate No. 1 ESS switching equipment	1,300.00	135.25	CMM
(c) Per Facility Group	6.00	-	CMW
b. Station Message Detail			
(1) Per message ¹			
(a) Each	-	.02	NA
c. Line Equipment			
(1) Charges			
(a) Per FX Trunk type facility terminated in arrangement	-	16.65	CMQ
(b) Per Tie Line type facility terminated in arrangement ²	1,040.00	7.90	CMT

Note 1: The total monthly charge for this service is determined by multiplying the number of messages by the monthly rate indicated.

Note 2: This charge is applicable only at the time the switching equipment is arranged to provide Station Message Detail Recording on the initial Tie Line for each customer and is applicable to each switching equipment so arranged.

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.4 ESSX-1 Optional Features (Cont'd)

D. Uniform Call Distribution

1. Definitions

UNIFORM CALL DISTRIBUTION (UCD)

UCD is a hunting arrangement available on ESSX-1 lines served by a No. 1 ESS central office equipped with Generic Program 6 and higher. The feature provides even distribution of incoming and intercommunicating calls to the group of lines designated as part of the UCD group.

UNIFORM CALL DISTRIBUTION WITH QUEUING (UCD/Q)

Queuing is an option that may be added to the UCD arrangement. Queuing permits calls, in excess of lines in a UCD group, to be held in the central office and distributed in their order of arrival to lines in the UCD group as the lines become available.

2. Rates

	Installation Charge	Monthly Rate	USOC	
a. Uniform Call Distribution

d. Delay Announcements				
(1) Charges				
(a) Per announcement (Limit one)	44.00	65.00		A8GCE
(b) Per announcement trunk	12.00	8.20		A8GAT
(c) Per station line	-	1.00		A8GST

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.5 Use Of Other Services With ESSX-1 Service

Where other services offered by the Company can be used with ESSX-1 service, they will be furnished under the *Terms and Conditions*, and at the rates as covered in this and other Sections of this *Guidebook*. (T)

A111.1.6 Credits And Surcharges

Credits and surcharges as described following will apply for all Network Access Registers (NAR's) and lines ordered on or before July 27, 1983.

A surcharge that is equivalent to the charge for access to an interexchange carrier over a PBX trunk will apply to each Network Access Register. For each line a credit will be applied which, when combined with the preceding surcharge and with charges applied to those lines for access to interexchange carriers, will provide a monthly net billing equal to the interexchange carrier access charge for a PBX trunk multiplied by the number of NAR's described in the preceding paragraph.

A111.1.7 ESSX-1/Multiline Service Option

A. Terms and Conditions (T)

1. For ESSX-1 Systems of four hundred (400) main station lines or less within five miles airline distance from the serving wire center, the ESSX-1/ Multiline Service circuits are available under the VTPP ESSX-1/Multiline Service option and a conventional payment plan at rates and charges specified following. Circuit packages under the ESSX-1/ Multiline Service Option will be provided under the Variable Term Payment Plan (VTPP) as described in Section A2, except as specified in A111.1.7.A.2. Individual circuits may be provided under the conventional payment plan only to VTPP ESSX-1/Multiline Service subscribers and only under the following circumstances:

- When less than a 24-circuit package is required to serve a single customer location, or
- When less than an additional 24-circuit package is required to complete service to a single customer location where VTPP ESSX-1/Multiline Service circuit packages are being provided.

2. Options and Conditions Under VTPP

- a. Customers may select one of three payment periods - 36 months, 60 months or 84 months.
- b. Transfer of service is permitted under the Plan. A transfer charge is applicable to the customer acquiring ESSX-1 Service.
 - (1) Transfer Charge

(a) Each	Charge	USOC
	\$200.00	NA

- c. The ESSX-1/Multiline Service rates in effect at the time the Company is notified in writing of the subscriber's choice of the ESSX-1/Multiline Service payment period options will be applicable for the duration of the payment period chosen by the subscriber.
- d. Termination charges under the ESSX-1/Multiline Service option will be an amount equal to the monthly rate for the unexpired portion of the customer's payment period. Termination charges will not apply to a circuit package that is made to become a part of a larger circuit package that is subsequently subscribed to as a new VTPP ESSX-1/Multiline Service Option circuit package.

A111.OBSOLETE SERVICE-OFFERINGS – ESSX-1-SERVICE

A111.1 ESSX-1 SERVICE (Cont'd)

A111.1.7 ESSX-1/Multiline Service Option (Cont')

- A. *Terms and Conditions* (Cont'd) (T)
 - 2. Option And Conditions Under VTPP (Cont'd) (T)
 - e. ESSX-1/Multiline Service Option is provided in specific line package sizes between a single point of termination and the serving wire center. The VTPP *Terms and Conditions* in Section A2 pertaining to in-service moves will apply to a move of a VTPP ESSX-1/Multiline Service Circuit package. (T)
 - f. ESSX-1/Multiline Service is provided subject to the availability of adequate facilities as determined by the Company.
 - g. The rates as specified in A111.1.7.B.5 apply per package regardless of the number of lines within each package that are activated by the customer.
 - 3. ESSX-1 monthly rates that re in effect for Basic Equipment, Intercommunication Switching, Terminating Arrangements, Additional Common Blocks and Station User Optional Features when the Company is notified in writing of the customer's choice of a VTPP ESSX-1/Multiline payment period will apply for that customer for the length of his VTPP ESSX-1/Multiline payment period. For the Intercommunication Switching portion of the preceding, this applies only to those Intercommunication Switching rates that are associated with circuits that are provided as part of VTPP ESSX-1/Multiline Service Option circuit packages. Termination charges will not apply for these services and features. (T)
 - 4. Rates, charges, liabilities and additional *Terms and Conditions*, if applicable, may be developed on an individual case basis for ESSX-1 systems exceeding four hundred (400) Main Station Lines under provisions in A5.4. Individual circuits and/or circuit packages terminated at a point beyond five miles from the serving center office in a system of 400 main station lines or less will also be provided under provisions in A5.4. The terms of such special service offerings shall be generally consistent with the terms of these offerings. (T)
 - 5. The Secondary Service Charge in Section A4 will be the only nonrecurring charge applicable for a conversion from conventional ESSX-1 Service rates to ESSX-1/Multiline Service Option rates if there is no change in services or facilities at the time of conversion. (T)

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**A113.1 Group Emergency Alerting And Dispatching Systems**

(Obsoluted September 30, 1979, Type D, *Guidebook* Reference A13.) (See A113.1.2.C. also)

Obsolete, Type D, "Not available for new installations or on customer initiated transfers of service. When a Company-initiated change in a customer's serving central office occurs due to a dial to dial replacement, or area transfer, the equipment will not be relocated to the new central office."

Group Emergency Alerting and Dispatching Systems will be eliminated after February 28, 2003.

A113.1.1 General

- A.** Group emergency alerting and dispatching systems are available in all dial central office areas to facilitate the making of concurrent emergency calls to a fixed group or groups of numbers (individual line subscribers) to obviate the need for making individual calls to each number.
- B.** The Small and Twenty-Four Line systems are restricted to a single central office unit when operated with general exchange service.
- C.** The Company will furnish all lines and equipment required for the Small group alerting and dispatching systems, consisting generally, in addition to regular exchange facilities, of a dispatching telephone or telephones at locations designated by the subscriber and connected by means of lines to special equipment located in the central office.
- D.** The Twenty-Four Line Group Alerting system does not need a dispatching station as this function is handled by the equipment in the central office and regular exchange facilities of the called stations. All stations ring simultaneously when one of the listed emergency alerting numbers (maximum of two) is dialed. Any receiving station that is busy when an emergency call comes in will receive a "tone" signal. Upon terminating the call in progress, the receiving station will ring and the emergency call may be completed. A call to the second emergency alerting telephone number while the other one is in use will result in both calls being bridged to call receiving lines.
- E.** The approval for connection of the individual subscriber's exchange line to the emergency alerting and dispatching equipment will be the responsibility of the subscriber and upon objection from the individual subscriber to such connection, the Company may disconnect the individual subscriber's line from the emergency alerting and dispatching equipment.

A113.1 Group Emergency Alerting And Dispatching Systems (Cont'd)

A113.1.2 Rates And Charges

The following rates and charges apply, which are in addition to regular charges for exchange service furnished to the alerted station line. (T)

Regular rates and charges apply for business exchange service in addition to the following rates and charges. (M1)

- A. Small System - Limited to one dial central office area with a maximum capacity of 63 called lines. (Basic Termination Charge applies to 60 months) (M1)

	Monthly Rate	Basic Termination Charge	USOC	
1. Common Equipment - either single or multi-group basis, maximum of three groups as follows. (M1)				
(a) Two or three groups of 21 alerting lines or less per group. (M1)	-	-	NA	
(b) Two groups with a maximum of 42 alerting lines in one group and 21 alerting lines in the second group. (M1)	\$225.00	\$850.00	99V	
2. Supplementary Items (M1)				
(a) Line equipment each called line (M1)	6.00	50.00	56Y	
(b) Dispatcher set (maximum of one) Customer-provided equipment will be required at the customer's premises	-	-	NA	
(c) Control lines between dispatcher location and central office, each ¹	-	-	NA	
3. Line Connection and Rewire Charges				
(a) Connection or substitution of subscriber lines subsequent to initial installation ²	-	-	NA	
B. Twenty-Four Line System				
1. For use within a single dial central office and having a maximum capacity of twenty-four call receiving individual exchange lines. (Basic Termination Charge applies to 60 months.)				
(a) Common Equipment for fifteen called lines including two connector terminations	345.00	2,400.00	6EF	
(b) Common Equipment for additional called lines up to a maximum of twenty-four called lines, each group of three	42.50	400.00	2LF	
(c) Subsequent addition or change of called line (Appropriate Service Charges including Premises Work Charges in Section A4 are applicable.)	-	-	NA	

Note 1: If appropriate, charges for private line telephone channels and miscellaneous signaling channel (when required) as quoted in the Private Line *Guidebook* are applicable. (M)

Note 2: Appropriate Service Charges (including Premises Work Charges) in Section A4 are applicable. (T)

A113.17 Feature Packages

A113.17.1 The Feature Package

(Obsoleted January 9, 2004, Type B. Not available for new installations, additions or on transfers of service to a new location.)

A. Description of Service

1. This feature package provides a package of network features/services for residence customers.
2. The rate specified herein entitles a residence subscriber to unlimited use of the features/services specified following from the listed sections:

- A13.9 Call Waiting ID, Three-Way Calling, Call Forwarding Busy Line¹, Call Forwarding Don't Answer¹ (with or without Ring Control), Star 98 Access¹
- A13.19 Caller ID, Call Return
- A13.47 Message Waiting Indication¹
- A13.70 Privacy Manager service

B. Terms, Conditions and Limitations of Service

1. This feature package is only available to individual line residence subscribers. A residence subscriber may select any suitable combination of the features/services listed in A113.17.1.A.2. (T)
2. All **Terms, Conditions** and Limitations specified in the sections listed in A113.17.1.A.2 apply to the respective features/services requested as part of this package. Nonrecurring programming fees do not apply for features/services requested as part of this package. (T)
3. All features/services are furnished only from central offices that have been arranged to provide these services. The features/services are provided subject to availability of facilities.
4. Service charges specified in Section A4 do not apply for transactions in which a subscriber only modifies an existing unit of this feature package by adding, deleting or changing features/services requested as part of the package.
5. Existing customers of this feature package can not take advantage of special promotions for this feature package or any of the features/services specified in A113.17.1.A.2, unless specifically allowed by the terms of the special promotion.
6. This feature package is not available with a line provided as part of any Complete Choice service or plan, a line specified in this Guidebook as Message Rate or Measured Service.
7. This feature package can be suspended as specified in A2.3.16. During the period of suspension, no recurring charge applies

C. Rates and Charges

1. The following monthly rate applies for this feature package.

(a) Per feature package	Monthly Rate \$17.00	USOC PAMA1¹ PAMA2
-------------------------	-------------------------------------	---

Note 1: The PAMA1 USOC must be used to provision the plan when one or more of the features/services that refer to this footnote are included in this feature package.

Pages 5.4 through 5.6 are hereby deleted in their entirety and removed from this Guidebook.

(N)

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

A113.19 TouchStar Service (Cont'd)

A113.19.3 Terms, Conditions And Limitations Of Service

(T)

A. The Following Limitations Apply:

1. TouchStar service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within TouchStar service equipped offices. Also, feature screening lists can only contain numbers of subscribers served out of TouchStar service equipped offices.
2. The TouchStar service basic features are available to single line and multi-line residence and business customers who have rotary dial or Touch-Tone service. Caller ID - Basic and Caller ID - Deluxe are available to single and multi-line residence and business customers. Effective March 15, 1995, Caller ID - Multi-Line which was available only for line side terminations equipped with hunting (grouping) arrangements will no longer be available to new customers. Call Tracking (BCLID) is not available for single line arrangements, but it is available for PBX and business multi-line customers. Neither Caller ID - Basic, Caller ID - Deluxe, Call Tracking (BCLID), nor Caller ID - Multi-Line can be provisioned for Basic 911 customers.
3. TouchStar service basic features cannot be provisioned on toll terminals, trunks or some remote switching locations.
4. Appropriate Service Charges apply except during Company selected periods of special promotion.
5. The Company will deliver all numbers, subject to technical limitations, including numbers associated with Non-published Listing Service as described in Section A6, unless the caller subscribes to and/or has activated Calling Number Delivery Blocking.
6. Optional Calling Number Delivery Blocking - Permanent is available upon request, at no charge to residential subscribers of Non-Published Listing Service as described in Section A6 and to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted. This includes lines at the residences of employees/volunteers where the head of the agency certifies to local Company management a need for blocking based upon health and safety concerns: (a) Non-profit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies, (b) federal, state and local law enforcement agencies.
7. Calling party information via Caller ID - Multi-Line is not available on operator handled calls.
8. The Company's liability arising out of the provision of any TouchStar service feature, including but not limited to the delivery or non-delivery of calling numbers, is limited as set forth in A2.5. (M)
9. TouchStar service features are not available on trunks except as specifically noted in 2. (M)
10. Numbers transmitted via Caller ID - Multi-Line are intended solely for the use of these subscribers. Resale of this information is prohibited by this Guidebook, except the caller's numbers may be provided to the subscriber's client for those calls sponsored or provided by that specific client where the client's identity is disclosed to the caller and the client agrees not to distribute such information to others. (M)

Note 2: Effective March 15, 1995, all existing Caller ID - Multi-Line customers may retain this service as specified in this Section or change to the service provided under Caller ID - Basic or Caller ID - Deluxe as specified in A13.19. If existing Caller ID - Multi-Line customers change or add to their existing service, then they will have to convert to Caller ID - Basic or Caller ID - Deluxe. Service charges from Section A4 shall not apply for such conversions. All new single and multi-line residence and business customers desiring a TouchStar service calling information delivery feature will have to use Caller ID - Basic or Caller ID - Deluxe. Call Tracking (BCLID) is available for PBX customers as well as business multi-line customers.

(T)

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

A113.28 Announcement Facilities

A113.28.1 General

(Obsoluted 5-6-2002, Type D – Not available for new installations, moves or transfers. Existing customers may add service if facilities are available. *Guidebook* Reference A13.) (T)

Announcement facilities will be eliminated after February 28, 2003.

Announcement facilities are provided, where available, to the customer's premises for connection to electronic or electro-mechanical devices that provide recorded announcements to calling parties.

A113.28.2 Terms and Conditions

A. The Company will provide facilities, when available, for customers for their use in providing announcements by telephone to calling parties simultaneously, under the following conditions: (T)

1. In order to permit the determination of the anticipated incoming call volume so that facilities of the proper capacity may be furnished, the customer is required to designate the kind of announcements for which the announcement service is to be used.
2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to announcement equipment without impairing the Company's general telephone service or telephone plant. The customer may be required further to bear the expense of traffic load protection equipment when, in the judgment of the Company, such would be required as a protection to the general telephone service or telephone plant during temporary periods of traffic overload to the announcement system. The traffic load protection equipment reduces the normal length of the announcement cycle.
3. Facilities shall be used for such announcements as may be desired by the customer, provided that the contents and length of such announcements shall be subject to the approval of the Company.
4. The Company will furnish said announcement facilities to its customers for use by such customers in providing announcements, only within the limits of the local service area serving the customer, including the limits of other local service areas having access to the location of the announcement facilities on a local service basis. This limitation is not intended to preclude the completion of any incoming sent paid long distance message calls placed to the announcement number.
5. Telephone users calling the announcement number are automatically disconnected after elapsing of time for one full announcement.
6. One directory listing without charge will be furnished with each service.
7. Facilities for announcement services will be furnished where all the necessary exchange facilities, as determined by the Company, are available.

A113.28.3 Rates And Charges

- A. Exchange facility, each
1. Grouping service rates also apply as appropriate.

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**A113.39 Central Office Local Area Network Service**

(Obsolated July 7, 1993, Type B) Not available for new installations, additions or transfers of service to new location, *Guidebook* Reference A13. (T)

A113.39.1 General

- A. Central Office Local Area Network (C.O. LAN) service is a data communications network service providing for the interconnection of customer provided data devices and for the transmission of data between such devices.
 - 1. C.O. LAN service is provided from specially equipped central offices and utilizes data switching technology, digital and analog transmission facilities and existing local facilities to provide switched data transport at speeds up to 19.2 Kilobits per second.
 - 2. The primary component of C.O. LAN service is the C.O. LAN Data Switch located in the Company's central office.
- B. C.O. LAN service will support customer provided asynchronous data terminals and host computers and is capable of switching terminal to terminal, terminal to host computer(s) and host computer to host computer data traffic at speeds up to 19.2 kilobits per second.
 - 1. C.O. LAN service also provides access to the telecommunications network via an optional modem pooling arrangement.
 - 2. For customers served by more than one C.O. LAN equipped central office, private data networks may be established using private inter-nodal trunks.
- C. The data switch located in a central office will not be dedicated to a single customer and may provide C.O. LAN service to more than one customer.

A113.39.2 Terms and Conditions

- A. Central Office Local Area Network Service can only be provided from central offices equipped for C.O. LAN service subject to the technical limitations of such equipment and availability of suitable facilities.
 - 1. Interconnection of C.O. LAN service is accomplished by a data switching facility located in the central office.
 - 2. A customer may access C.O. LAN via a voice/data multiplexer located in the central office, or the public switched network via a modem pooling arrangement.
 - 3. C.O. LAN service is capable of transmitting data at various speeds up to 19.2 Kbps depending upon the transmission characteristics of the facility and equipment used for such transmission.
- B. Voice/data multiplexers (VDMs) used in provisioning C.O. LAN service must be compatible.
 - 1. The voice/data multiplexers located on the customer's premises will provide connections for station lines and data terminals. This voice/data multiplexer will transmit the data and voice signals simultaneously to the central office.
 - 2. The voice/data multiplexer located on the customer's premises must be provided by the customer and be compatible with the central office voice/data multiplexer under the technical guidelines for C.O. LAN service. These technical specifications are found in BSS's Technical Reference 73509 or its successor.
 - 3. The voice/data multiplexer located in the central office will separate the signals transmitting the voice to the voice switch and the data to the data switch.
 - 4. The voice/data multiplexer offered under C.O. LAN service is available only for access to C.O. LAN service.
- C. Data is transmitted through C.O. LAN service to destinations designated by the customer. (T)

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

A113.39 Central Office Local Area Network Service (Cont'd)

A113.39.2 Terms and Conditions (Cont'd)

- D. Modem pool members are dedicated to a specific customer for access by the customer's designees only. Each modem pool member is equipped with an associated local exchange facility. The modem pooling capability offered under C.O. LAN service is available only for access to or from C.O. LAN service. (T)
- E. The customer is responsible for the distribution of access codes (e.g., passwords) to authorized users. (T)
- F. In addition to the C.O. LAN rates and charges in this *Guidebook*, the customer is also responsible for all exchange service rates, local usage, toll and private line channels as well as all other applicable rates, charges, *Terms and Conditions* included in this *Guidebook*. (T)
- G. Suspension of all or part of C.O. LAN service requested by the customer is not permitted. (T)
- H. The voice/data multiplexer (VDM) feature of C.O. LAN is available on individual business and residence lines and on ESSX service switched access facilities served out of a properly equipped central office located less than 18 Kilofeet in cable route distance from the subscriber with the service provisioned on non-loaded cable pairs. (T)

A113.39.3 Definitions

ASYNCHRONOUS

An asynchronous transmission is one where each character is transmitted one at a time over a communications line using a start and a stop bit to flag the beginning and end of each character.

ASYNCHRONOUS PORT CONNECTION

An asynchronous port connection, for Central Office Local Area Network Service, includes use of C.O. LAN service common equipment, asynchronous interface modules, and switching within and between nodes located in the same serving central office.

INTERNODAL TRUNKING

Internodal trunking allows C.O. LAN service users to communicate with terminals or hosts connected to other nodes within the network via private data transmission facilities.

LOCAL CALLING AREA (LCA)

A Local Calling Area for C.O. LAN service consists of all C.O. LAN service nodes within the same LATA and within the same exchange calling area. A LATA may have more than one Local Calling Area.

MODEM POOLING

A Modem Pool consists of one or more modems with associated exchange facilities, and asynchronous ports, arranged in a customer-dedicated trunk group for either inward or outward C.O. LAN service data transmission. A modem pool member and its associated exchange facility are provisioned from the same central office as the serving C.O. LAN data switch. Modem Pooling is available at 300, 1200, and 2400 bps.

NODE

A Node consists of all C.O. LAN service common equipment, software, and interface modules required to provide switching and control functions for devices attached to that common equipment.

VOICE/DATA MULTIPLEXER

The Voice/Data Multiplexer (VDM) allows for the simultaneous transmission of both voice and data over an allowed exchange type facility.

A113.39.4 Payment Plans

- A. General
 - 1. All of the service features listed in A13.39.5 may be placed under contract and rate stabilized at the current rate for periods from 24 to 60 months. (T)
 - 2. Except as modified herein, subscribers selecting the rate stabilized option are subject to the *Terms and Conditions* specified in Section A2 for Variable Term Payment Plans. (T)
 - 3. Rate stability for payment periods in excess of 60 months will be handled on an individual case basis. (M)

 - a. Additions may be made depending on the availability of equipment.
 - b. Rates currently in effect will be applied. (T)
 - c. Additions may be made on a month to month basis or on a rate stabilized basis as long as the stabilized option is not for a payment period of shorter duration than the payment period associated with the original service.
- C. Expiration of Contract Period
 - 1. C.O. LAN customers may, upon the expiration of their contract:
 - a. Select a new contract period as offered in the current *guidebook*, or (T)
 - b. Revert to the current rates for the monthly payment option. (T)
 - 2. A C.O. LAN customer may at any time during the selected contract period recast for an equal or longer contract period at the current rates subject to the following conditions: (T)
 - a. No credit will be given for payments made during the formerly selected period.
 - b. Nonrecurring charges will not be reapplied.
 - c. The new payment period begins with the date requested.
 - d. No termination charge applies for the former payment period.
 - e. A Service Charge will apply.
- D. Moves of Service
 - 1. A move of a customer's C.O. LAN Service to a location served by different central office switching equipment will be considered a termination of service at the existing location and the establishment of new service at the proposed location.
- E. Termination Charges
 - 1. Termination charges will apply for C.O. LAN Service under the rate stability option. These charges shall be equal to the sum of the rates for the remaining periods left in the contract.
- F. Supersedure
 - 1. Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer. The new customer will be subject to all provisions currently in effect for the previous customer.
- G. Prepayment
 - 1. Subscribers electing to rate stabilize their service may prepay the total, or any portion thereof, of their recurring monthly rates. These requests will be handled on an individual case basis.

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS
A113.39 Central Office Local Area Network Service (Cont'd)

A113.39.5 Rates And Charges

A. General

1. Service Establishment

a. Service Establishment Charges apply for the initial establishment of Central Office Local Area Network Service.

(1) Service Establishment Charges

	Feature Establishment Charge	USOC
(a) Per customer system, per Central Office	\$850.00	NRCSC

2. Central Office Nonrecurring and Recurring Charges

a.

	Installation Charge	Monthly Rate	USOC
(1) Asynchronous Port Connection			
(a) 300, 1200, 4800, 9600 bps, each	\$ 65.00	\$ 14.00	OLB
(b) 300, 1200, 2400, 9600 bps, each	65.00	14.00	OLA
(c) 300, 1200, 9600 bps 19.2 Kbps, each	65.00	20.00	OLD
(2) Central Office Voice/Data Multiplexers			
(a) Each	-	8.00	LWJ
(3) Central Office Modem Pooling ¹			
(a) Inward, each modem	51.00	43.00	LWHIX
(b) Outward, each modem ²	51.00	43.00	LWBOX
(4) Internodal Trunk Port - Private ³			
(a) IntraLATA, each 56 Kbps port	450.00	345.00	LOA1X

3. Service Change and Rearrangement Charges

a. Service change and rearrangement charges apply to all customer requests for changes to their service, subsequent to initial installation.

	Nonrecurring Charge	USOC
(1) Port Rearrangement Charge ⁴		
(a) Initial port	\$65.00	NRCPR
(b) Additional ports, each	29.00	NRCAP
(2) Database Change Charge ⁵		
(a) Initial change	65.00	NRCDC
(b) Additional change, each	16.00	NRCAC

Note 1: Includes a local exchange facility in addition to the modem. Inward modems arranged in multiline hunt groups will require the appropriate Grouping Service Charges for a flat rate individual business line, as specified elsewhere in this Guidebook. An asynchronous port (2.a.(1)(b)) is also required.

Note 2: Customer is responsible for toll charges, if any.

Note 3: Requires a dedicated facility from the Private Line Guidebook in addition to the part charge specified in this Section.

Note 4: This charge applies to changes to the options of existing asynchronous ports. If more than one option change is required on a given port, only one charge is applied to that port.

Note 5: This charge applies to the addition, deletion, or change of any asynchronous port group, private inter-nodal trunk group, or service name.

(T)

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

A113.58 Uniform Access Number (UAN)

(Obsoleted 8-15-03, Type B. Not available for new installations, additions or on transfers of service to a new location.)

A113.58.1 Description of Service

- A.** Uniform Access Number (UAN) is an optional service which provides the customer with a uniform Business Line Telephone Number for client access to the customer's service. The client will be able to dial one number from all locations within the specified area and the call can be routed to a specified customer location. UAN will be provided under the following terms and conditions.
1. UAN is available where facilities or arrangements permit.
 2. A UAN telephone number may not be accessed by 0+ or 1+ toll calls. Also, no operator assisted calls will be permitted to be placed to a UAN, nor will third party or collect toll calls be permitted to be billed to UANs.
 3. The assigned telephone number will have a dedicated NXX.
 4. UAN can be delivered through a line-side connection or a trunk-side connection as specified in A3.28, but not simultaneously for the same dedicated NXX number. A trunk-side connection is required if UAN is used with Automatic Number Identification (ANI). (T)
 5. Line side connections are made through regular exchange access lines (by individual business lines, PBX trunks, etc.). Trunk side connections are made via a Trunk Side Access Facility.
 6. Nonrecurring Charges apply for each UAN per Traffic Operator Position System (TOPS) Tandem office. Where more than one UAN is established at the same TOPS Tandem location for the same customer and the UANs are ordered and installed at the same time the first nonrecurring charge rate element applies to the first UAN. Each additional UAN number will be billed at the additional service installed rate. The same nonrecurring charges and application apply per TOPS Tandem for UAN number changes requested by the customer subsequent to the original UAN assignment.
 7. Number changes required for Company reasons will not incur the Service Establishment Charge.
 8. A customer may reserve UANs to meet his specified growth requirements at specified locations. In the event the customer elects not to be provided with reserved UANs, assignment of these UANs cannot be assured.
 9. This service includes preassigned UANs. Such telephone numbers will be removed from reserved status and assigned as active UANs as requested by the customer.
 10. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
 11. The service is furnished subject to the availability of UANs.
 12. Limitations and use of service as stated in Section A2 will apply. (T)
 13. Calls to a disconnected UAN will be routed to intercept over announcement facilities; however, the announcement provided will not refer the caller to another telephone number.
 14. Directory Listing may be provided for UAN service at rates applicable for additional business or foreign listings as covered in Section A6. (T)
 15. No local measured or message rate service charges or long distance message telecommunications service charges (as provided in Section A18) will be collected from end users for calls to a UAN customer. Long distance charges (Section A18) associated with calls to a Uniform Access Number will be reverse billed to the UAN customer. (T)
 16. Access to UAN may not be available to certain classes of service.

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

A113.58 Uniform Access Number (UAN) (Cont'd)

A113.58.2 Terms and Conditions

- A. A UAN can be used only for one customer in an NPA. All usage will be combined and billed per account per Revenue Accounting Office.
- B. The UAN monthly rate is applicable on a per telephone number per TOPS Tandem office basis.
- C. The customer must be located within the same state as the TOPS office that is providing UAN Service.
- D. UAN Service will be provided within a maximum of thirty (30) days after the customer's request for service has been processed in order to allow the Company sufficient time for implementation.

(T)

A113.58.3 Reservation of Uniform Access Numbers

- A. A customer may reserve UANs in NPAs where the customer does not have service in order to insure expansion to other areas with the same UAN; however, a customer must implement a UAN in at least one LATA in *Company* territory in order to reserve the UAN in other NPAs. In the event that the customer elects not to be provided with reserved UANs, telephone numbers cannot be assured for the customer's requirements in other NPAs.
- B. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
- C. The service is furnished subject to the availability of UANs.
- D. Calls to reserved (unassigned) UANs will be routed to recorded announcement facilities.
- E. UANs furnished herein retain their reserve status until removed by the customer from the reserved status or assigned as a UAN at which time the service assumes rates and charges applicable to UAN.
- F. Reservation of UAN rates will be billed until the UAN is removed from reserved status or billed as an active UAN in at least one LATA within an NPA.
- G. A Secondary Service Charge per NPA is applicable in addition to the nonrecurring charge for reservation of UAN.

(T)

A113.58.4 Rates and Charges

A. Uniform Access Number

- (1) Per UAN, per TOPS Tandem Office

	Nonrecurring Charge	Monthly Rate	USOC
(a) First UAN in TOPS Tandem Office	\$585.00	\$20.00	UN9
(b) Each Additional UAN in the same TOPS Tandem Office	85.00	20.00	UN9
(c) Per Subscriber Change of Point-to Number, per TOPS Tandem Office	125.00	-	UN9SC

- (2) Per Call Delivered

	Rate	USOC
(a) Each	\$.09	NA

B. Reservation of UAN

- (1) Establish Reserve Status

	Nonrecurring Charge	Monthly Rate	USOC
(a) Per UAN, Per NPA	\$18.00	\$28.66	UN9RS

A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE

A117.1 Terms And Conditions

(Obsoluted 04-08-91, Type B) Effective April 8, 1991, Mobile Telephone Service is restricted to existing customers. No new service can be ordered or transferred after April 8, 1991. (T)

On 06-02-92, the type of obsolescence will change from Type B to Type D. On that date all existing service will be discontinued except in locations where public mobile radio service is not available from another carrier. (T)

A117.1.1 Definition

A. Mobile Telephone Service

Mobile Telephone Service is a communication service through a land radiotelephone base station between;

1. a wire telephone and a mobile unit
2. two mobile units or
3. a wire telephone or a mobile unit, and another station which is authorized by the Federal Communications Commission to communicate with the Mobile Telephone Service base station, or between two such other stations.

B. In the application of *terms, conditions* and rates, stations other than mobile units which are authorized by the Federal Communications Commission to communicate with a Mobile Telephone Service base station are considered as mobile units.

C. Base Station Of Registry

The base station from which a mobile unit receives its mobile telephone number.

D. Foreign Base Station

Any base station other than the Base Station of Registry.

E. Transient Mobile Unit

A mobile unit communicating through a Foreign Base Station.

A117.1.2 Availability Of Service

Mobile Telephone Service is available to mobile units equipped for this service when within range of a base station through which such service is furnished, subject to transmission, atmospheric and like limitation, provided however, that the Company reserves the right to refuse to connect calls to or from any Transient Mobile Unit which regularly places more calls through one particular Foreign Base Station than through its Base Station of Registry.

On and after January 1, 1968, new application for Mobile Telephone Service on vessels will not be accepted for service through the Louisville, Owensboro and Paducah land radiotelephone base stations.

A117.1.3 Reserved For Future Use

A117.1.4 Reserved For Future Use

A117.1.5 Reserved For Future Use

A117.1.6 Denial And Restoration Of Service

In addition to the provisions in Section A2 (Cancellation of Service for Cause), the Company reserves the right to deny service to any mobile unit which regularly places more calls through one particular Foreign Base Station than its Base Station of Registry. Service will be restored upon the payment of all charges due plus a restoration charge specified in Section A4.

A117.1.7 Reserved For Future Use

A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE

A117.2 Reserved For Future Use

A117.3 Service Classes And Areas

A117.3.1 Service Classes

- A. Mobile units under contract for service through a base station of this Company as identified in A117.4.3 are furnished Measured Rate Mobile Telephone Service only for all messages through that base station. (T)
- B. Mobile units under contract for service through any other mobile base station inside or outside this state, but being within range of and equipped to receive service from any base station of this Company other than its base stations of registry are furnished Transient Mobile Telephone Service only.

A117.3.2 Service Areas

The local service area for Measured Mobile Service and Transient Mobile Service is as specified for Local Exchange Service in A3.6. (T)

A117.4 Rates

A117.4.1 Reserved For Future Use

A117.4.2 Reserved For Future Use

A117.4.3 Service Charges

A. Measured Rate Mobile Service

The following rates, including one directory listing, apply for each measured rate mobile unit registered in the base stations shown following:

1. Local Service

For Radio Link used on a Dial Basis. Timing for Radio Link charges begin one (1) minute after channel usage begins.

	Monthly Rate	USOC	
a. Monthly Rate (includes one (1) hour of use)			
(1) Base Stations			
(a) Bowling Green	\$33.77	MD1	
(b) Frankfort	33.77	MD1	
(c) Louisville	44.04	MD1	
(d) Owensboro	33.77	MD1	
(e) Paducah	33.77	MD1	
(f) Pikeville	33.77	MD1	
(g) Prestonsburg	33.77	MD1	
(h) Winchester	33.77	MD1	
b. Radio Link Charge for each additional minute of cumulative use on a dial basis to become effective as soon as timing registers are provided.			
(1) All Base Stations			
(a) Each additional minute of use	.10	NA	(M)

Nonrecurring Charges - Regular service charges quoted in Section A4 apply in connection with Measured Rate Mobile Service. (M)

2. Long Distance Service (M)

Regular wire line charges for Long Distance Message Telecommunications Service apply in addition to the Radio Link charges as provided in A17.4.3.A.1 for calls beyond the Local Service Area. (M)

A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE

A117.4 Rates (Cont'd)

A117.4.3 Service Charges (Cont'd)

B. Transient Mobile Unit Service

(M)

The following charges are applicable for messages between a transient mobile unit connected through a base station of *the* Company in Kentucky and a wire telephone or another mobile unit:

(T)

1. Messages within the local service area:

	Rate	USOC
(a) Radio Link Charge for first five (5) minutes or fraction thereof	\$1.00	NA
(b) Each additional minute or fraction thereof	.10	NA

2. Long Distance Messages

Regular wire line charges for Long Distance Message Telecommunications Service apply in addition to the Radio Link charge as provided in A17.4.3.B.1.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General

(Obsoleted 7-31-2004, Type D) Not available for new installations, additions or transfers of service.

- A.** Wide Area Telecommunications Service (WATS) is the furnishing of dial type telecommunications between an exchange line or a WATS Access line and other exchange terminations of this Company and its connecting companies within the same LATA in the state of Kentucky in accordance with the *Terms, Conditions* charges set forth in this *Guidebook*. The WATS charges set forth herein are in payment for the service furnished between the calling and called terminations. The Company provides intraLATA WATS Service. Toll Free Dialing (TFD) Service is the term now used to describe the service formerly known as 800 Service. Toll Free Dialing Service provides incoming service utilizing 8XX numbers. Additional 8XX codes will be activated as required for Toll Free Dialing Service. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS and intraLATA only Outward WATS require the use of a WATS access line from A119.5.4. Option TFD Service and Open TFD Service¹ can be terminated, at the direction of the customer, on a WATS access line from A119.5.4 or on an exchange line purchased from the appropriate *service publication*. See A119.5.20 for applicable charges when terminating on an exchange line. For the *Terms, Conditions* and rates of the interLATA portion of these services refer to the interLATA carrier's tariffs. (T)
- B.** Dial type telecommunications, as specified in A., for Combined Outward WATS and intraLATA only Outward WATS must be dialed and completed from or to a WATS access line. For Option TFD Service and Open TFD Service, service can be completed to a WATS access line or an exchange line. In all cases communications must be completed without the assistance of a Company operator, except that a Company operator will: (T)
1. reach the called telephone number where facilities are not available for customer dial completion,
 2. reach the called telephone number when the customer reports making an unsuccessful attempt for reasons other than a busy, don't answer or wrong number condition,
 3. re-establish a call which has been interrupted by cutoff or poor transmission after the called number has been reached, or (T)
 4. provide Directory Assistance Service for Outward WATS at the rates specified in Sections A3 and A18.
- C.** WATS is provided as either Outward WATS or Toll Free Dialing Service (Inward WATS). Combined and IntraLATA Outward WATS require a WATS access line arranged for outward calling only. Option TFD Service and Open TFD Service can, at the direction of the customer, be terminated on a WATS access line arranged for inward calling only or an exchange line. For service terminating on an exchange line, only one TFD number can be assigned to terminate on any one exchange line number. An exchange number may include residence or business line as trunk numbers including DID numbers from Section A12. The termination of Toll Free Dialing Service to an existing Outward WATS or Open TFD Service or Option TFD Service telephone number is prohibited. In accordance with the *Terms and Conditions* of this *Guidebook*, Outward WATS and Toll Free Dialing Service are for the purposes of intrastate communication only². Where technically capable, the Company's central office equipment and/or facilities will be utilized to ensure the preceding. (T)
- D.** A WATS access line or exchange line for Option TFD Service and Open TFD Service is the transmission path between a WATS termination and the point in the Company central office where access to the public switched network is obtained for the purpose of completing WATS calls. A WATS access line may also be provided over an IntraLATA High Capacity Channel Facility equipped with Outward WATS or Toll Free Dialing Service functionality. See B7.3 of the *Private Line Guidebook* for additional applicable charges. (T)

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States, except as specified in Note 2. (M)

Note 2: If specified by the customer, limited (10% or less) interstate usage is allowed on intrastate WATS access lines.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General (Cont'd)

- E. The WATS access line or exchange line may terminate in one of the following: (T)
1. A connection to a network control signaling unit on the customer's premises (M1)
 2. A connection to terminal equipment or a terminating system on the customer's premises
 3. A connection to switching equipment in the Company central office
 4. A connection to an Interexchange Carrier (IC) feature group service in the Company central office
- The terminating point of a WATS access line or exchange line for Toll Free Dialing Service (any of the arrangements listed preceding) is a WATS termination. The first such termination associated with a WATS access line is the WATS main termination. Any additional termination associated with the same WATS access line is a WATS extension. A WATS extension must be located in the same LATA as its associated main termination. Any additional termination associated with the same exchange line for TFD Service is an exchange line extension from the appropriate *service publication*. (T)
- F. Communications systems provided by Interexchange Carriers may be connected with the facilities furnished by the Company for WATS as specified in A15.6. (T)
- G. Customer-provided terminal equipment or protective circuitry may be connected to WATS in accordance with effective provisions of the Federal Communications Commission's Registration program.
- H. The agents and employees of the Company shall have the right to enter the premises of a customer or authorized user at any reasonable hour for the purpose of installing, inspecting or repairing the services of the Company or, upon termination of the service, for the purpose of removing such services.
- I. Combined WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities.
- J. Subscribers using a bi-jurisdictional access line for Outward WATS or Toll Free Dialing Service may choose either the Company or the interexchange carrier to complete and bill intraLATA calls according to the appropriate rates, *Terms and Conditions*. The "1+" and "0" intraLATA usage will be billed to the subscriber (end user or IC) where the closed end of the bi-jurisdictional WATS Access Line is terminated. Subscriber billing information should be provided to the Company at the time the bi-jurisdictional WATS Access Line is ordered when the Company is used to complete intraLATA calls. (T)
- K. Customers who subscribe to Toll Free Dialing Service provided by other than the Company may designate the Company as the intraLATA carrier. Such intraLATA usage will be billed in accordance with the rates, *Terms and Conditions* specified in A119.5.21. (T)
- L. The Company will provide the intraLATA portion of Open TFD Service with the IC providing the interLATA (and/or interstate) portion of the service. For the *Terms, Conditions* and rates of the interLATA (and/or interstate) portion of this service, refer to the interexchange carrier's tariffs. (T)
- M. Effective January 1, 1994, Combined Toll Free Dialing Service is not available for new customers. (M2)

M1 - Material appearing on this page previously appeared on page(s) 1 of this section.

M2 - Material previously appearing on this page now appears on page(s) 3 of this section.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General (Cont'd)

- N. Option TFD Service and Open TFD Service are provided by the Company utilizing a Toll Free Dialing number. (M)
1. Toll Free Dialing Number Assignment - Toll Free Dialing Service provides for the assignment of a single ten digit TFD number (i.e., 800+XXX+XXXX) to the customer which can be used on a statewide basis for Option TFD Service or Open TFD Service.¹ Toll Free Dialing Service provides the customer with one toll free dialing number for Option TFD Service statewide or for Open TFD Service. A Toll Free Dialing number when used for Option TFD Service, can be selected for an area consisting of less than an entire state by specifying the desired Area of Service. Area of Service is described in 2. The assigned toll free dialing number can terminate to a WATS Access line provided in A119.5.4, or to an exchange line. Subsection A119.5.20 provides the applicable charges for services terminating to an exchange line. In the provisioning of Open TFD Service, the Company will be the Responsible Organization (RESPORG). The Company will require the 10-digit POTS number for intraLATA screening. (T)(M)
 2. Area of Service for Option TFD Service and Open TFD Service - For Option TFD Service, the Area of Service defines the geographic locations (LATAs) within a state from which the Option TFD Service customer desires to accept calls for a given Toll Free Dialing Number. The Area of Service may range from a single LATA to the entire state. A WATS Access Line or exchange line is required within each LATA specified by the Area of Service for termination of Service traffic that originated within that LATA. The desired Area of Service must be specified by the customer at the time Option TFD Service is ordered. Customers requesting an Area of Service encompassing more than one LATA are required to subscribe to the Variable Call Destination feature described in 3. For Open TFD Service, the Area of Service is defined as either the entire state or the entire United States.¹
 3. Variable Call Destination for Option TFD Service - The Variable Call Destination feature provides for multiple terminations (one ten digit telephone number per LATA) of Option TFD Service when the customer specifies an Area of Service greater than one LATA. This allows for the assignment of one Toll Free Dialing Number, for statewide use, with termination to a WATS Access Line or exchange access line within the LATA where the TFD call originated. Rates for Variable Call Destination record establishment and record changes are provided in A119.5.20. (T)
- Note 1:** Open TFD Service Subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States, except as specified in A119.1.C. (T)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.2 Use Of The Service**

- A. The service is furnished subject to the condition that all applicable *Terms and Conditions* in Section A2 will be adhered to, with the exceptions of A2.2.1.A and B, which restrict the use of service and prohibit payment to the customer by another for use of the service. (T)
- B. All resold Toll Free Dialing Services, including Option TFD Service and Open TFD Service must terminate to a WATS Access Line.
- C. The service is provided for use by the customer and may be used by others when so authorized by the customer, provided that all such usage is subject to the provisions of this Guidebook.
- D. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 - 1. the placing or acceptance of a WATS call in response to an uncompleted long distance call placed to send information and to avoid the Message Telecommunications Service (MTS) charge, and
 - 2. the obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS through any fraudulent means with the intent of avoiding payment of the regular charges for such service.

A119.3 Limitation Of Service

- A. WATS does not include conference, or other calls requiring operator handling except as provided in A119.1.B.
- B. WATS is not represented as adapted for connection to other services of the Company, or to customer-provided terminal equipment, communications systems, or multi-line terminating systems. The service contemplates the provision of satisfactory transmission only between the WATS access line or exchange line for Option TFD Service and Open TFD Service and the called or calling termination.
- C. WATS access lines and extensions will be terminated only at premises located within the same LATA in the state of Kentucky.
- D. Toll Free Dialing Service (Inward WATS) is furnished upon condition that the subscriber contracts for an adequate number of access lines or exchange lines for Option TFD Service and Open TFD Service to permit the use of this service without injurious effects upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish Toll Free Dialing Service (Inward WATS) to any applicant, without incurring any liability, if the use of the service would interfere with or impair WATS or any other service rendered by the Company.

A119.4 Reserved For Future Use**A119.5 Rates And Charges****A119.5.1 General**

- A. WATS monthly usage charges are for intraLATA telecommunications between a WATS termination and another termination within the same LATA in the state of Kentucky. Monthly usage charges are based on the total hours of use in a WATS Service group or the total hours of use per exchange line utilized for Option TFD Service and Open TFD Service. WATS access lines and exchange lines will not be mixed at any one customer location for termination of Option TFD Service and Open TFD Service traffic associated with a given toll free dialing number. Each subscriber's usage charges will be based on a separate schedule for both intra and interLATA Service.
- B. WATS Service Group

A WATS service group is composed of either Combined Outward WATS, Outward WATS (intraLATA service only) or Open TFD Service or Option TFD Service access lines (but not all).

 - 1. An Outward WATS service group is composed of all Outward WATS access lines for the same service area provided to a single customer terminated in the same terminating system at the same premises.
 - 2. An Outward WATS-IntraLATA Service service group is composed of all Outward WATS-IntraLATA Service access lines of a single customer terminating in the same terminating system at the same premises.
 - 3. An Open TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer for the same service area, and arranged in Company central office equipment as part of a given hunting arrangement.
 - 4. An Option TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer arranged in Company central office equipment as part of a hunting arrangement.

A119.5 Rates And Charges (Cont'd)

A119.5.21 Add-On TFD Service

- A. Unless specified otherwise in the following paragraphs, hourly rates and usage charge methodology specified for Option TFD Service in A119.5.4.A and A119.5.5 apply for usage carried and billed by the Company when the Company is designated as the intraLATA carrier for Toll Free Dialing service provided by another company. The following provisioning USOC establishes the add-on TFD billing capability. (T)

	USOC
Per add-on TFD access number	TGW

- B. Local Discount Option¹
1. Due to billing system requirements, this option is available only for TFD Service that terminates to a telephone number providing dial tone from the **Company's** network to an end user who obtains the telephone number service directly from **the Company** or indirectly from a certificated reseller of **the Company's** services. (T)
 2. Customers who subscribe to add-on Toll Free Dialing service with a local discount must subscribe to a specified monthly usage commitment. Based on the monthly usage commitment, the appropriate rates from the following table apply as specified in 5 for all usage on the service. The following table specifies two sets of intraLATA usage rates for each monthly usage commitment. One set of rates applies for calls that originate from exchanges within the limited local calling area specified in A3.6.1 for the TFD termination, and the other set of rates applies for calls that originate from exchanges outside the same local calling area. A customer may be billed a shortfall penalty after each anniversary of the service if the monthly usage commitment is not satisfied on a cumulative annual basis. (T)
 3. Usage Rates

Within Limited Local Calling Area Outside Limited Local Calling Area

	Add-On TFD Monthly Usage Commitment	Per Minute For Additional Time		Per Minute For Additional Time		USOC
		Initial Period (up to 30 seconds)	(six second increments)	Initial Period (up to 30 seconds)	(six second increments)	
(a)	300 hours	\$0.03450	\$0.06900	\$0.04200	\$0.08400	WFTO1
(b)	750 hours	0.03250	0.06500	0.03950	0.07900	WFTO5
(c)	1,500 hours	0.03050	0.06100	0.03700	0.07400	WFT10
(d)	3,000 hours	0.02850	0.05700	0.03450	0.06900	WFT20
(e)	4,500 hours	0.02550	0.05100	0.03200	0.06400	WFT30
(f)	6,000 hours	0.02450	0.04900	0.02950	0.05900	WFT40
(g)	7,500 hours	0.02350	0.04700	0.02825	0.05650	WFT50

4. For customers who subscribe for a specified term to add-on Toll Free Dialing service with a local discount, the discounts indicated in the following table apply to the appropriate rates specified in 3. Upon cancellation of a specified term plan, the customer will be billed an amount equal to the discounted local calling area rate times the monthly usage commitment for the number of months remaining on the plan. (T)

**Term Commitment for Local Discount
Option Add-On TFD Service**

Term Commitment for Local Discount Option Add-On TFD Service	Discount
Month-to-Month	None
12 months	5.0%
24 months	8.0%
36 months	11.0%

5. For add-on Toll Free Dialing service with a local discount, each message is rated separately. The discounts specified in 4 are applied to the rates specified in 3, and the resulting rate is applied to each message using an initial period of thirty seconds and additional periods in one second increments thereafter. If a call lasts less than thirty seconds, the customer is billed the appropriate charge for a full thirty second message. There are no time-of-day discounts for add-on Toll Free Dialing service with a local discount.

Note 1: This service is not provided by Independent Telephone Companies that concur in Section A119.

A120. OBSOLETE SERVICE OFFERINGS - OPTIONAL CALLING PLANS

A120.1 General

(Obsoleted September 27, 2002, Type B) Not available for new installations, additions or on transfers of service to new locations.

This Guidebook applies to Long Distance Message Telecommunications Service furnished or made available by the Company and its connecting companies between points within the state of Kentucky and within the same LATA where the respective rate centers of such points also are located in said state and the same LATA.

A20.1.1 Description Of Service

Optional Calling Plans are specially designed intercity calling plans applicable to intrastate intra-LATA Dial Station-to-Station long distance calls placed during the service period as prescribed in the plans defined following. All other long distance calls will be billed as regular long distance calls.

A. One-Way Measured Point-to-Point Calling

One-Way Measured Point-to-Point Calling, during the hours indicated, is furnished only on Dial Station-to-Station calls originating one-way outward from the Optional Calling Plan subscriber's telephone to telephones in the prescribed terminating exchange.

A120.2 General Terms And Conditions

(T)

A120.2.1 Liability Of The Company

Adjustments will not be applicable on Optional Calling Plan service until the subscriber has used a minimum of one hour's service in a given month.

A120.2.2 Limitation Of Service

- A.** Offering of this service is subject to availability of facilities and/or billing capability as determined by the Company.
- B.** Plan usage time is accumulated by completed calls in minutes and seconds with a minimum connection time applicable of one minute. Usage time for any given billing month on two-way plans will be accumulated based on when usage data for calls in the reverse direction are available for computer processing rather than the date when made.
- C.** The originating time of connection determines whether a call is included in the subscriber's optional calling plan.
- D.** Individual message detail is not included as part of the service.
- E.** Optional Calling Plans do not include conference or other calls requiring operator handling. For all Optional Calling Plans, an operator will:
 1. Reach the called telephone number, when the customer reports making an unsuccessful attempt for reasons other than a busy, don't answer or wrong number condition, or
 2. Re-establish a call which has been interrupted by cut-off or poor transmission after the called number has been reached.
- F.** A customer may not subscribe to more than one Optional Calling Plan that covers the same time period and geographical area.

A120.2.3 Use Of Service

The service is furnished subject to *Terms and Conditions* in Section A2, including those *Terms and Conditions* which restrict use of the service to communications in which the customer has a direct interest and prohibit payment to the customer by another for use of the service, except as specified in A20.1.1.D.7.

(T)

A120.2.4 Minimum Contract Period

The minimum contract period is one month, except as specified in Section A6 when a two-way subscriber has a foreign listing printed in the distant directory which indicates no charge applies for direct dialed calls to his number.

A120.2.5 Reserved For Future Use

A120.2.6 Suspension Of Service

Service will be suspended for causes other than those enumerated in Section A2 only as a result of the suspension of the service with which associated.

A120.2.7 Reserved For Future Use

A120.2.8 Concessions

No concession allowances will be made on any of the Optional Calling Plans.

(Obsoleted August 5, 1985, Type D, *Guidebook* Reference A23.)

Available for existing service and additions of existing ESSX-1 locations.

A123.2.1 ESSX-1 Station User Optional Features

A. General

Number 1 ESS Optional Feature service is furnished from Number 1 ESS central office equipment located on Company premises and may be provided, subject to the availability of facilities, to ESSX-1 systems which are served by the same such equipment.

B. *Terms and Conditions*

1. Automatic Callback (T)
 - a. Automatic Callback permits a main station line user who attempts an intercommunication call to a busy main station line to be automatically connected to that line when both called and calling lines are subsequently idle. Automatic Callback is only operational for intercommunication calls between main station lines served by the same Number 1 ESS customer group.
 - b. A calling main station line is permitted only one Automatic Callback request at a time. The called main station line is limited to only one request at a time for Automatic Callback. Once requested, Automatic Callback will remain active for a period not to exceed thirty minutes unless deactivated by the calling main station line.
2. Call Forwarding - Don't Answer Ringing Cycle Changes

At the time a main station line is initially equipped for Call Forwarding - Don't Answer, it will be arranged for a predetermined number of ringing cycles to be completed prior to the incoming call being forwarded. When a change in the number of ringing cycles is requested by the customer, the Installation Charge as specified in A123.2.1.C applies per main station line affected.
3. Call Forwarding Over Private Facilities
 - a. A main station line user may establish the automatic routing of incoming calls to a specific private facility which is terminated in that main station line user's system. As used herein, the term "private facility" applies to CCSA, EPSCS, ETS, WATS, FX and tie lines arranged for senderized operation, and the local and toll message network.
 - b. The Call Forwarding Over Private Facilities routing of calls to FX and CCSA access lines requires special Number 1 ESS central office modification. Initially, this optional service feature will not be available for the routing of calls via any facility, ARS pattern or switching service network involving FX. When the Number 1 ESS central office equipment is subsequently modified, such routing will be made available to the customer at no additional charge.
 - c. The Call Forwarding Over Private Facilities routing of calls to EPSCS and ETS requires special Number 1 ESS central office modifications separate from the modification specified in A123.2.1.B.3.b. Initially, this optional service feature will not be available for the routing of calls via EPSCS and ETS. When the Number 1 ESS central office equipment is subsequently modified, such routing will be made available to the customer at no additional charge.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.1 ESSX-1 Station User Optional Features (Cont'd)

B. Terms and Conditions (Cont'd)

3. Call Forwarding Over Private Facilities (Cont'd)

- d. Incoming local and toll message network and INWATS calls to main station lines arranged for Call Forwarding Over Private Facilities routing are subject to the appropriate charges for such calls and a common recorded announcement is furnished to inform the caller that the call is being forwarded.
- e. Calls forwarded to the local and toll message network and WATS are subject to the appropriate charges for such calls.
- f. Where the Call Forwarding Over Private Facilities optional service feature routes calls to a specific private facility which is denied access, those calls will instead be routed to a common recorded announcement which refers the caller to the system's attendant.

4. Reminder Ring

- a. Reminder Ring provides for a distinctive ringing signal to be furnished to a Call Forwarding-Variable or Call Forwarding Over Private Facilities equipped main station line at the time a call is forwarded.
- b. When Reminder Ring is requested for a main station line which is not so arranged, the Installation Charge as specified in A123.2.1.C applies per main station line affected.

5. Distinctive Ringing and Call Waiting Tone

- a. Distinctive Ringing and Call Waiting Tone are furnished in different classes which permit main station line users to identify the source of calls. These three classes identify:

Class	Call Source
A	Interconnection
B	Direct inward dialed local and toll Attendant completed CCSA access line Tie Line
C	Preemptible SCAN access line Dial Call Waiting Call Waiting-Originating Console night service arrangement

- b. Distinctive ringing is furnished to indicate the source of calls to idle main station lines. Distinctive tone is furnished to indicate the source of calls to busy main station lines equipped for Call Waiting optional service features.
- c. A distinctive ringing/tone is furnished to each class and is used to identify all call sources within each class.
- d. Class A ringing/tone is not furnished separately and is included at no additional charge to main station lines arranged for Class B ringing/ tone. Class C ringing/tone may be furnished separately or in association with Class B ringing/tone.
- e. Class C tone associated with Call Waiting-Originating or Dial Call Waiting will only be provided where all such main station lines in the same Number 1 ESS customer group are commonly arranged for Class C tone.
- f. Where a customer's system is equipped with a 50B or 51A Console and is arranged for Class B ringing/tone, Class C ringing will be provided to identify night service arrangement extended calls to main station lines at no additional charge.

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.1 ESSX-1 Station User Optional Features (Cont'd)

B. Terms and Conditions (Cont'd)

- 6. Selected Customer Control of Facilities
 - a. Selected Customer Control of Facilities restricts the access of all main station lines to specific facility groups which are a part of a predetermined routing pattern.
 - b. When the Selected Customer Control of Facilities optional service arrangement is activated for a facility group, calls directed to that group will automatically proceed to the next idle route designated to the routing pattern.
 - c. When a facility group is restricted by use of the Selected Customer Control of Facilities optional service arrangement, access to that group is restricted whether the call attempt is via predetermined routing or normal access method.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

(M)

A123.2.2 Centralized Attendant Service

A. General

1. Description

Centralized Attendant Service (CAS) allows a customer with a number of locations that are served by either a PBX or ESSX-1 system to concentrate all attendants at a single centralized location (main). Incoming calls over a local exchange trunk to an unattended location (branch) are routed to the main location via a Release Link Trunk (RLT). A CAS attendant will then complete the call by dialing the called party's station line number over the same RLT.

2. Associated Services and Equipment

a. The main location must be an ESSX-1 system served by a central office that is equipped for this service. In the latter case, the attendant position must also be equipped with the optional station user feature Call Transfer, Consultation Hold and Three-Way Calling, all calls. 51A console or equivalent equipment is required.

b. The branch locations must be any of the following:

- (1) An ESSX-1 system served by a central office that is equipped for this service and arranged for switched loop operation and Touch-Tone service,
- (2) (DELETED)
- (3) Compatible customer-provided equipment.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.2 Centralized Attendant Service (Cont'd)

A. General (Cont'd)

3. Service Features

a. Standard

Attendant Call Distribution - queues and distributed calls to the CAS attendants. This provides administrative control over the team of attendants and enables the calls from the branch locations to be handled in their approximate order of arrival as attendant positions become available.

b. Optional

Uniform Numbering - to simplify the attendant operation of CAS, a uniform numbering plan can be used, where facility conditions permit, wherein corresponding departments at the various locations would be assigned the same station number.

B. Rates and Charges

1. Service Establishment Charge

(a) Per ESSX-1 location	Nonrecurring Charge \$1,255.00	USOC NRCCE
-------------------------	---	-----------------------

2. The following rates are in addition to those established for ESSX-1 Service, Private Line facilities, Release Link Trunks (tie lines) and/or PBX systems associated with an ESSX-1 installation.

	Installation Charge	Monthly Rate	USOC
a. Release Link Trunk terminal equipment			
(1) ESSX-1 location			
(a) Each	\$ 405.00	\$145.00	EC6
(2) Branch ESSX-1 location			
(a) First two terminations	1,820.00	58.00	EC4
(b) Each additional termination	405.00	29.00	EC5
b. CAS Attendant Console equipment			
(1) Compatible customer provided equipment is required.			
(a) Each	-	-	NA
c. Uniform Numbering			
(1) Per 100 numbers or a fraction thereof			
(a) Per location, per occasion	56.00	-	NA

(M)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching

A. General

1. Electronic Tandem Switching (ETS) features are provided only in association with ESSX-1 Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities, to ESSX-1 systems which are served by the same such equipment. (T)
2. The ETS features are designed to meet the needs of those ESSX-1 customers who have large numbers of WATS, FX and Private Line services. These features will be used to control and monitor facilities in such classes of application as: (T)
 - a. Stand-alone ESSX-1 configurations,
 - b. Electronic Tandem Network configurations as ESSX-1 tandems,
 - c. Intercity Facilities Concentrators as the main ESSX-1 with many branch PBX's homing on it to gain intercity access, and
 - d. Main/Tributary/Satellite configurations as the main ESSX-1 with access to a Common Control Switching Arrangement (CCSA) or Enhanced Private Switched Communications System (EPSCS) network. (M)

B. *Terms and Conditions*

1. Explanation of Terms (T)
 - a. ETS Features

ETS features are ESSX-1 optional features which are, except as specified in A123.2.3.B.6, comprised of both Automatic Route Selection-Deluxe (ARS-D) and Facilities Restriction Levels (FRL) and, at the option of the customer, the following service features and arrangements:

 - Time of Day Routing
 - Authorization Codes
 - Deluxe Queuing
 - Station Message Detail Recording to Premises
 - Account Codes
 - Facilities Administration and Control
 - Traffic Data to Customer (Pollable)
 - Facility Assurance Reports
 - Uniform Numbering/Automatic-Alternate Routing
 - Automatic Overflow to Toll
 - b. Automatic Route Selection-Deluxe (ARS-D)

ARS-D provides for the origination of only ten digit calls to a public network telephone number, after the Centrex or ESSX-1 ARS-D access code, e.g., "8", automatically scans the digits and selects a first choice completing route when available, or subsequent route if the first choice route is not available. Routes may include Foreign Exchange trunk lines, Wide Area Telephone Service lines, exchange trunk lines to the toll network or access lines to CCSA or other arrangements where compatible.

The final completing route may be the toll network or, at the option of the customer, the call attempt is routed to overflow tone if a Facilities Restriction Level (FRL) is insufficient to complete the call.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. *Terms and Conditions* (Cont'd)

1. Explanation of Terms (Cont'd)

b. Automatic Route Selection-Deluxe (ARS-D) (Cont'd)

When ARS-D is provided in conjunction with Uniform Numbering/Automatic Alternate Routing (UN/AAR), incoming tie lines from other ESSX-1 or PBX systems connected directly to the ESSX-1 system may be arranged to have automatic access to the ARS-D and UN/AAR features. When such arrangements are provided, the tie lines to the ARS-D become "dedicated" tie lines, i.e., provided for and restricted to that use only, and separate tie lines are required from the distant ESSX-1 or PBX system if access is to be provided to other ESSX service, or ESSX-1 functions at the ARS-D equipped ESSX-1 system. In addition, when ARS-D is provided in conjunction with UN/AAR, routes may include tie lines to a distant ESSX-1 or PBX system equipped with an ARS-D like capability for subsequent access to the toll network.

The ARS-D feature provides all number translation and supervision necessary to route the call. "More Expensive Route" (MER) Tone is supplied, at the option of the customer, as a function of the route selected for a particular call. Time of Day (TOD) Routing is an ARS-D option which permits preprogrammed selection of alternate routing pattern groups for public network calls (up to three sets of ARS-D routing pattern groups) on a time-of-day and day-of-week basis. Manual override is available with the Facility Administration and Control feature. The Maximum number of programmed changes per week is sixteen.

c. Facilities Restriction Levels (FRL)

FRL is required in connection with ARS-D and is provided on each station and incoming tie line to determine both the type of calls and types of facilities within the privileges of the associated user. When the FRL is transmitted over a tie line to a distant PBX or ESSX-1 system equipped with ARS-D (for call screening at the distant point), it is identified as a Traveling Class Mark (TCM).

Authorization Codes are an FRL option which provides for a station user to dial a code which overrides the FRL associated with that station line or incoming tie line. The ESSX-1 system requests dialing of the authorization code when the default FRL (i.e., the FRL associated with the station line or incoming tie line) has insufficient privileges to complete the call. The Authorization Code is also inspected for validity as a security check. The Authorization Code is recorded in the Station Message Detail Recording to Premises (SMDR-P) record of the call when the SMDR-P feature is provided.

d. Deluxe Queuing

Deluxe Queuing permits station users to be placed in a queue whenever the first choice route for completing a particular call is already in use. Two queuing arrangements are available:

- (1) A Ring-back Queue (RBQ), in which case the calling station goes on-hook (hangs up) and is called back when a facility becomes available, and
- (2) An Off-hook Queue (OHQ), in which case the calling station remains off-hook (doesn't hang up) and is held in queue until a facility becomes available.

Calls held in queue beyond a predetermined time limit will be removed from the queue and routed, at the option of the customer, via either subsequent route choices or to overflow tone.

(T)

(T)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. *Terms and Conditions* (Cont'd)

1. Explanation of Terms (Cont'd)

e. Station Message Detail Recording to Premises (SMDR-P)

SMDR-P provides a record, on magnetic tape equipment located at the customer's premises, of calls originating from ESSX-1 station lines to locations outside the same ESSX-1 system. Facility groups may also be designated as requiring originating and/or terminating records.

Account Codes are an SMDR-P option which permit a station user to dial a series of digits (code) which will appear in the SMDR-P record for that particular call. The Account Code can be used by the customer for account or project identification. Adding an Account Code to a call, where arrangements have been made to provide this capability, is at the discretion of the station user. Each customer's Account Codes must contain the same number of digits, not to exceed eight, and must not conflict with ETS network code assignments.

f. Facilities Administration and Control

Facilities Administration and Control permits customer control of parameters which determine user calling privileges, i.e., Authorization Codes and associated FRL. In addition, FRL association with stations, tie lines and Authorization Codes may be collectively upgraded or downgraded by invoking a predetermined set of FRL's identified as Controlled Alternate FRL's. Manual control (override) of Time of Day Pattern Groups and activation or deactivation of queuing is also provided.

g. Traffic Data to Customer (Pollable)/Facility Assurance Reports (FAR)

Traffic Data to Customer (Pollable) permits the customer to poll the switching equipment on a daily or hourly basis to obtain certain traffic measurements. Equipment must be provided at the customer's premises to record the traffic data.

Facility Assurance Reports (FAR) provides the customer the ability to obtain automatic circuit assurance data via the same equipment utilized to record traffic data. FAR includes, for example, the identity of facilities not accessed or facilities constantly off-hook during a specified period of time.

h. Uniform Numbering/Automatic Alternate Routing (UN/AAR)

UN permits station users to place calls via tie lines using a uniform dialing plan. The user dials an access code, followed by a seven digit number which uniquely identifies a specific ETS network station line. The number consists of a three digit location code and a four digit station line code. When the same access code is followed by a ten digit public network number, the call is routed via the ARS-D feature. The feature provides the number translation and supervision necessary to route the call.

AAR provides automatic routing of ETS network calls to alternate tie line routes when primary tie line routes are busy.

Automatic Overflow to Toll Provides completion of ETS network calls via the toll network when all primary and alternate tie line routes are busy.

(T)

(M)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. *Terms and Conditions* (Cont'd)

2. Automatic Route Selection - Deluxe (ARS-D) (Cont'd) (T)
 - a. ARS-D is furnished only in association with Facilities Restriction Levels (FRL). (M1)
 - b. Preferred routes and alternate routes in patterns will be specified by the customer. (M1)
 - c. A maximum of three ARS-D Pattern Groups with a maximum of sixty-four (64) patterns in each Pattern Group will be provided. The three Pattern Groups referred to will consist of one primary and two additional Pattern Groups for Time of Day Routing.
 - d. A maximum of ten routes are provided in a pattern.
 - e. Each WATS type band is treated as a separate route.
 - f. A maximum of sixty-four (64) Number Plan Areas (including the home NPA) may be designated by the customer for routing of calls by central office codes (six digit translation).
 - g. All rates and charges specified for ARS-D are in addition to the rates and charges for the associated facilities and facility terminations.
 - h. A single rate "per facility terminated in patterns" will apply regardless of the number of patterns having access to that facility. The monthly rate specified is applicable to each facility available to the patterns.
 - i. The charges specified in A123.2.3.C for each code addition or change is applicable whether customer or Company initiated.
 - j. Where ARS-D is furnished in connection with Uniform Numbering/Automatic Alternate Routing, tie lines to other PBX or ESSX-1 system locations may appear as routes in ARS-D patterns when such tie lines are provided for subsequent access to the toll network at the distant PBX or ESSX-1 system location.
 - k. The TOD Routing feature permits up to sixteen programmed changes in Pattern Groups per week. When additional ARS-D patterns are required due to TOD changes, rates and charges as specified in A123.2.3.C apply to each additional pattern.
 - l. CCSA access lines (public network calls) and access lines to other similar arrangements, compatible with ARS-D, may be included as routes in patterns.
 - m. ESSX-1 toll diversion and toll restriction do not function on calls routed via ARS-D.
3. Facilities Restriction Levels (FRL)
 - a. FRL is furnished only in association with Automatic Route Selection - Deluxe (ARS-D).
 - b. A maximum of eight Facilities Restriction Levels are available for each ESSX-1 system.
 - c. A maximum of twenty thousand (20,000) Authorization Codes are available for each ESSX-1 system.
 - d. Authorization Codes must consist of a uniform number of digits, with a minimum of three digits and a maximum of six digits.
 - e. Customer implementation of change of Authorization Codes or associated Facilities Restriction Level require the Facilities Administration and Control feature.
 - f. All station lines and incoming tie line terminations with access to ARS-D must be equipped with FRL. (M2)

M1 - Material appearing on this page previously appeared on page(s) 8 of this section.

M2 - Material previously appearing on this page now appears on page(s) 10 of this section.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. *Terms and Conditions* (Cont'd)

4. Deluxe Queuing
 - a. Calls in queue may overflow to subsequent routes or to tone at the customer's option.
 - b. Deluxe Queuing is available with facilities appearing as the primary (first choice) route in Automatic Route Selection Deluxe or Uniform Numbering/Automatic Alternate Routing patterns.
 - c. The text and announcement provided with the Recorded Announcement option will be provided by the Company.
 - d. The music for the Music on Queue option must be provided by the customer.
 - e. The Music on Queue option requires a voice grade channel between the central office and the customer-provided music source at the customer's premises. This feature is available only with Off-hook Queue.
 - f. The customer must specify the length of time a call is held in queue (threshold time limit) before overflowing to subsequent routes or to overflow tone.
 - g. Incoming tie lines can be arranged for Off-hook Queue only.
 - h. ESSX-1 station lines can be provided either Ring-back Queue or Off-hook Queue. All such station lines must be equipped with the same type queuing.
 - i. Off-hook Queue must be equipped for either Recorded Announcement or Music on Queue.
5. Station Message Detail Recording to Premises (SMDR-P)
 - a. SMDR-P is not represented to be a provision of billing detail.
 - b. Station message detail records will be provided on customer provided terminal equipment located at the customer's premises.
 - c. The customer must provide suitable space, environmental conditions, 110 volt AC power, and magnetic tape for the equipment located at his premises.
 - d. Processing of message detail information by the Company accounting center is not provided with this arrangement.
 - e. The customer must designate all station lines in a No. 1 ESS customer group and/or selected facility groups on which SMDR-P originating and terminating records are to be provided.
 - f. Additions or deletions of SMDR-P recording are provided by Company service orders.
 - g. Where SMDR-P is provided, a detailed record may be made for each completed call. At the option of the customer, arrangements can be made to provide records of calls attempted as well as calls completed. Under certain exceptional conditions, with SMDR-P, calls may be processed without recording the call detail.
 - h. SMDR-P includes the recording of Account Codes and Authorization Codes where these optional features are provided.
 - i. Account Codes are available with the initial installation of SMDR-P at no additional charge. Additions or changes of Account Codes subsequent to the initial installation of SMDR-P are provided at rates and charges shown in A123.2.3.F.

A123.2.3 Electronic Tandem Switching (Cont'd)

B. *Terms and Conditions* (Cont'd)

6. Customer Administration and Control
 - a. Customer Administration and Control features are comprised of either or both the Facilities Administration and Control optional features and the Traffic Data to Customer (Pollable)/Facility Assurance Reports (FAR) optional feature.
 - b. Traffic Data to Customer (Pollable)/FAR may be provided to ESSX-1 systems which are not equipped with the ETS features of Automatic Route Selection-Deluxe (ARS-D) and Facilities Restriction Levels (FRL).
 - c. A business exchange line termination in each central office equipment accessed is required. Appropriate rates and charges for a business exchange line apply for each such termination provided. (T)
 - d. Facilities Administration and Control will
 - (1) select ARS-D pattern groups and determine status,
 - (2) activate/deactivate queuing and determine status, and
 - (3) change Authorization Codes and associated FRL's.
 - e. Traffic Data to Customer (Pollable)/FAR provides
 - (1) Facilities Assurance Reports listing trunks not accessed and all trunks constantly off-hook in the previous two hours, and
 - (2) traffic data reports on trunk groups and queues.
7. Uniform Numbering/Automatic Alternate Routing (UN/AAR)
 - a. All calls must consist of a seven digit called number, after the access code or after the access code and Account Code (where this option is provided).
 - b. The customer must specify the first choice route and each subsequent route to each ESSX-1 or PBX system involved.
 - c. The customer must notify the Company when any change in route or routing sequence is desired.
 - d. The maximum number of routes in a pattern is four.
 - e. The maximum number of patterns is one hundred eighty (180).
 - f. Where calls are routed via the toll network, the rates and charges specified for Automatic Overflow to Toll, PBX trunks, and toll messages are applicable.
 - g. The rates and charges specified in A123.2.3.C apply only once per each tie line facility terminated in UN/AAR and/or Automatic Route Selection - Deluxe, whether terminated in one or both patterns.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES**A123.2 ESSX-1 Optional Features (Cont'd)****A123.2.4 Customer Management Features****A. ESSX Customer Administration Service****1. General**

- a. The ESSX Customer Administration Service (ECAS) feature permits ESSX-1 customers to activate/deactivate selected optional features, change certain service options, and change feature configurations on predesignated ESSX-1 station lines. Customer provided terminal equipment is required for the operation of the ECAS feature.
- b. For ECAS equipped station lines, ECAS allows the customer to verify and/or display the assignment of features on a single station line, range of station lines or all station lines to determine which station or stations have a particular feature or service option.
- c. Certain ESSX-1 station lines may be specified by the customer to be exempt from this feature. Additionally, the Company reserves the right to make station lines inaccessible for ECAS.
- d. Changing the status of a station line from accessible to ECAS to inaccessible or vice versa, must be done by the Company via a Service Order request. Appropriate Service Charges in Section A4 apply. (T)
- e. The Company has made the following provisions to protect the integrity of the switching system database and to ensure the security of ECAS changes.
 - (1) An ECAS customer's change, display or verify capabilities are restricted to that particular customer's own ESSX-1 system.
 - (2) All changes are audited as they are entered by the ECAS customer. Invalid changes will not be accepted. An error message detailing which command is in error will be given.
 - (3) Customer access to the database is protected using a dialup, login, password/dial back arrangement.
- f. An ECAS customer can schedule changes (individual or bulk) for completion by the next day or for a future day. Additionally priority changes may be requested and the changes completed the same day subject to A123.2.4.A.2.d and A123.2.4.A.2.1. (T)
- g. Definitions pertaining to ECAS/ESSX-1 features are specified in A123.2.1.B. (T)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.4 Customer Management Features (Cont'd)

A. ESSX Customer Administration Service (Cont'd)

1. General (Cont'd)

h. The ECAS feature allows the customer to perform the following transactions from the customer provided terminal:

(1) Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are:

- Line Status¹ (Active/Inactive)
- CAT Code
- Ringing Cycles for CFDA
- Call Pickup Group: The call pickup group to which a station is assigned can be changed on a per station basis
- The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.
- Speed Call Group: The Speed Call group to which a station is assigned can be changed on a per-station basis
- Series Completion "Hunt To" Telephone Number (TN): The "hunt to" TN assigned to a station line can be changed on a per station basis²
- Station TN Rearrangement: Swap TNs from one location to another³
- Facility Restriction Levels
- Access Line Class of Service
- Add/Change Customer Entered Listing Information

(2) Activate/deactivate the following features and service options on a single station line basis:

- Automatic Callback Calling
- Call Forwarding Busy Line
- Call Forwarding Don't Answer
- Call Forwarding Variable
- Call Forwarding Variable – Outside
- Call Hold
- Call Pickup
- Call Waiting Originating
- Call Waiting Terminating
- Dial Call Waiting
- Directed Call Pickup - Barge In
- Directed Call Pickup - Non Barge In
- Speed Calling – 6
- Speed Calling – 30
- Basic Station Line Hunting (Series Completion)⁴
- Inhibit ETS queuing

Note 1: Station lines made inactive using ECAS will continue to be billed at the *guidebook* rates. (T)

Note 2: All numbers in series completion hunt must be in the same common block.

Note 3: Rearranged station TNs carry all features and characteristics to their new location unless the Common Block is also changed.

Note 4: Deactivating Basic Station Line Hunting may disrupt the normal completion order of a Hunt Group.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 ESSX-1 Optional Features (Cont'd)

A123.2.4 Customer Management Features (Cont'd)

A. ESSX Customer Administration Service (Cont'd)

1. General (Cont'd)

h. (Cont'd)

- (3) Review the following information to aid in system management
 - The configuration of a single ESSX-1 station line (i.e., service options and active station line features)
 - The number of stations having or not having a particular feature
 - Pending TN swaps
 - The series completion sequence of a station line
 - Selected Company entered information affecting customer station lines
 - Customer Entered Listing information
 - The number of call pickup groups in the system
- (4) An ECAS customer may also print the following administrative reports.
 - Configuration (i.e., service options, station features) for a single station line or span of ESSX-1 station lines.
 - A listing of all pending changes including the type of change and the scheduled effective date.
 - Customer Entered Listing Information¹

The following information is included on all ECAS changeable station lines.

- Station Telephone Number
- Name²
- Organization²
- Location²

- (5) Initial training of the customer for up to four system managers in the use of this feature is included at the time the feature is put into service. Communication counselor training is a prerequisite to the ECAS systems manager training. Any customer training or subsequent assistance necessary after the initial establishment of the feature is at the option of the customer and a Subsequent Training Charge applies per hour where such training is provided.

2. *Terms and Conditions*

- a. ECAS is provided only with ESSX-1 systems served from a 1A ESS central office and is furnished subject to the availability of facilities. (T)
- b. Features for all station lines must be requested via a Service Order.³ Rates and Charges for the features specified in A111.1.4.A apply as appropriate.

Note 1: The ability to print customer entered listing information is provided as an optional feature, and is subject to the appropriate charges specified in A123.2.4.A.3.a.

Note 2: The ECAS customer is responsible for entering and updating the information contained in this field.

Note 3: Appropriate Service Charges in Section A4 will apply. (T)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES**A123.2 ESSX-1 Optional Features (Cont'd)****A123.2.4 Customer Management Features (Cont'd)****A. ESSX Customer Administration Service (Cont'd)****2. Terms and Conditions (Cont'd)**

- c. The customer provided ECAS terminal equipment requires an ESSX-1 main station line. Rates and charges in A111.1.3 apply as appropriate. (T)
- d. ECAS changes must be entered prior to a time to be designated by the Company to be completed as priority changes or by the next day as requested by the customer.
- e. An ECAS customer cannot activate features in excess of the quantity that has been ordered from the Company. The customer will receive an indication when 100% utilization of a feature is reached. Additional quantities of features may be added subject to A123.2.4.A.2.b. (T)
- f. Contractual obligations and End User Common Line Charges will be billed to the location where originally installed and will not transfer with a station line number rearrangement.
- g. The following types of lines will be restricted from Station TN Rearrangement capability. Service option and feature change capabilities will still be available except on lines assigned to multiline hunt groups.
 - Station lines assigned to multiline hunt groups
 - Attendant Lines
 - Any ESSX-1 line which has a special hardware configuration (e.g., ground start lines and lines having SCAN points or signal distribution points)
 - Manual lines (e.g., station lines with full originating and/or terminating restrictions)
- h. ECAS functions performed by the Company at the customer's request subsequent to the initial installation will be subject to the nonrecurring charge specified in A123.2.4.A.3.b.
- i. The Per System charges specified in A123.2.4.A.3.a apply when a feature is initially activated in a Common Block.
- j. Any required changes in customer provided equipment as a result of growth, desired enhancements or technological advancement, will be the responsibility of the ECAS customer. Compatibility with customer provided station terminal equipment is not guaranteed.
- k. The ECAS customer is responsible for assigning and maintaining a record of station feature assignments. The ECAS customer also agrees to provide the Company with a central point of contact for inquiries and/or trouble reports involving station features.
- l. ECAS customers will be responsible for initiating a Service Order to correct any information pertaining to Directory Listings that changed as a result of ECAS TN swap. Appropriate Service Charges in Section A4 apply. (T)
- m. ECAS customers will be limited to one (1) TN swap per day as a priority request. The number of feature changes that can be requested as priority changes will be determined by the Company when ECAS is ordered.

A131.1 Reserved for Future Use

A131.2 Area Communication Service

(Obsoleted 09-01-95, Type D) Service rates and charges in this Section are available for inward activity of existing Area Communication Service subscribers in conjunction with ESSX service or Digital ESSX service and only as specified in the obsolescence rules stated in A112.26 and A112.28. Not available for new service or entire moves of existing service to new locations. (T)

A131.2.1 General

A. Service Description

1. Area Communication Service is an arrangement that provides calling, with abbreviated dialing, among multiple ESSX service systems. Area Communication Service allows users in one ESSX service system to dial four or five digits to reach users in the other destinations included in the Area Communication Service arrangement. Destinations included in the Area Communication Service arrangement may be PBX, ESSX service or any other location which may be dialed directly. The calls can be local or toll. The customer may subscribe to ESSX service at the other locations, but it is not required. (T)
2. The only function Area Communication Service offers to ESSX service customers is abbreviated dialing to the other selected locations. (T)

A131.2.2 Terms and Conditions

A. Service Specifications

1. Area Communication Service will allow four or five digit dialing on a system basis to the customer's distant number range. Area Communication Service will prefix any Access Code (if required), Home (HNPA) or Foreign Numbering Plan Area (FNPA) (if required), and NXX dialed by the customer before routing to the distant location. (T)
2. For each Area Communication Service destination, customers must specify the number of other destinations to be called via Area Communication Service and the quantity of terminations required. (T)
3. The four or five digit abbreviated dialing ranges cannot be duplicated at any other Area Communication Service location or destination. (T)
4. ESSX service customer groups (Digital) or common blocks (Analog) are required at each serving central office at which Area Communication Service is provided. (T)
5. Area Communication Service will be offered only where facilities permit. (T)
6. IntraLATA toll calls will be subject to the applicable rates for the authorized intraLATA toll service selected by the customer. InterLATA toll calls will be routed to the interexchange carrier (IC) to which the customer has presubscribed. (T)
7. When Area Communication Service involves more than one ESSX service customer, each customer must consent to sharing of information with other customers that is necessary for implementation of Area Communication Service. (T)

A131.2.3 Definitions

A. Features

Abbreviated dialing is the only feature offered by Area Communication Service.

B. Destination

Destination represents the number of routes or other locations in the Area Communication Service arrangement.

C. Termination

Termination represents the number of simultaneous originating Area Communication Service calls from each ESSX service location. (T)

A131. OBSOLETE SERVICE OFFERINGS - MULTI-LOCATION BUSINESS SERVICE (MLBS)

A131.2 Area Communication Service (Cont'd)

A131.2.4 Rates and Charges

A. General

Area Communication Service rates and charges are in addition to those incurred for other service described in this *guidebook*. (T)

B. Features

		Nonrecurring Charge	Month To Month	36 Months	60 Months	84 Months	USOC	
1.	Service Establishment							
	(a) Per ESSX service system	\$250.00	\$25.00	\$22.00	\$21.00	\$20.00	DXHIS	(T)
	(b) Per destination	-	2.50	2.25	2.00	1.75	SESMC	
	(c) Each termination ¹	25.00	20.00	17.00	16.00	15.00	AHY	
2.	Change of Area Communication Service Existing Location							
	(a) Per occasion, per location	225.00	-	-	-	-	RCHTE	
	(b) Per occasion, termination	20.00	-	-	-	-	RCHTA	

Note 1: A new or existing NAR must be associated with each termination.

A132. OBSOLETE SERVICE OFFERINGS - INTEGRATION PLUS MANAGEMENT SERVICES (IPMS)

A132.1 Integration Plus Management Services (IPMS) Description

A132.1.1 Reserved for Future Use

A132.1.2 Integration Plus Management Services Terminal Interface

A. *Terms and Conditions*

1. Requirements For Access

(Obsoleted 6-23-08, Type D; not available for new installations, moves or transfers. Existing customers may continue to utilize existing Dial or Dedicated Access arrangements.)

a. Dial Access

The customer must provide a switched (dial) access capability with asynchronous protocol from the customer's terminal location to the designated Company location. Customers who subscribe to a dial method of access, will be given a telephone number to dial which will establish a port connection.

b. Security Card

Dial and web access customers must also order a Security Card. This card provides the customer a unique password identification code which will electronically change periodically. The Security Card charge specified in 4 will apply for the initial card or for the issuance of additional cards for additional users or to replace a lost, damaged or expired card. Should a customer receive a defective card, that card will be replaced at no charge to the customer.

If the customer has purchased a Security Card in conjunction with another feature or service offered by the Company, that Security Card may also be used in conjunction with FlexServ service. It is the customer's responsibility to notify the Company of an existing Security Card so the Company can ensure that the card is validated for multiple features and/or services.

c. Dedicated Access

The customer must purchase a Private Line for access to FlexServ service from the customer's terminal location to the designated Company location. The type of dedicated access required will depend on the type of access desired.

d. Other Requirements

In addition to either purchasing a dial access or a private line, the customer will be required to furnish a VT100 type terminal and a compatible data set. The data set required will depend on the type of access chosen by the customer and the capability for connection with the Company. CPE must comply with specifications found in BellSouth Technical Reference Publication 73535 for Corporate Packet Network Asynchronous Terminal Access (8/89) and BellSouth Technical Reference Publication 73516 Issue C, Corporate Packet Network Physical Interface Specifications (9/91). These publications are available from the Information Exchange Manager, *AT&T* Telecommunications, Inc., SUP40 *AT&T* Center, 675 W. Peachtree St., N.E., Atlanta, Georgia 30375.
