E3. CARRIER COMMON LINE ACCESS SERVICE

E3.9 Rate Regulations (Cont'd)

- E. (Cont'd)
- 5. (Cont'd)

For originating access minutes of use associated with calls placed to 700, 800 and 900 numbers which terminate on a **BellSouth SWA** service assessed Carrier Common Line Access Service charges, the customer shall report as follows: On or before the fifteenth day of each March, June, September and December the customer shall provide the Company a report of the percentage of total intrastate 700, 800, and 900 originating minutes of use that will terminate in a **BellSouth SWA** service that is assessed Carrier Common Line Access Service charges for the forthcoming quarter. The reported percentage will be used by the Company to determine the customer's current monthly bill for the originating minutes of use for which the report was provided as set forth in 6. following. The customer reported percentage should reflect any under or over estimate in the prior quarter. In the event the customer does not supply a report, the Company will assume the percentage to be the same as that provided in the previous quarterly report.

If a dispute arises concerning the customer provided quarterly percentage report, the Company may request the customer to provide the data the customer used to determine the percentage. The customer shall keep records from which the reported percentage credit can be ascertained. Upon request of the Company, the customer shall make records available for inspection as reasonably necessary for purposes of verification of the percentages and shall supply the data within 30 days of the Company request. The Company will not request such data more than twice a year.

- 6. The originating premium access per minute charge(s) apply to all originating access minutes of use, less those originating access minutes of use associated with calls placed to 700, 800, and 900 numbers and less those originating access minutes of use associated with **BellSouth SWA** FGA and **BellSouth SWA** LSBSA services where the off-hook supervisory signalling is forwarded by the customer's equipment when the called party answers, plus all originating access minutes of use associated with calls placed to 700, 800 and 900 numbers for which the customer furnishes a report of the percentage of minutes that terminate in a **BellSouth SWA** service that is assessed Carrier Common Line Access Service charges, and for which a corresponding reduction in the number of terminating access minutes of use has been made as set forth in 5. preceding.

E3.10 Rates And Charges
