A1. DEFINITION OF TERMS

TIE LINE

See "Exchange Line".

TOLL MESSAGE (LONG DISTANCE MESSAGE)

See "Message".

TOLL SERVICE

See "Long Distance Message Telecommunications Service".

TOUCH-TONE SERVICE

See "Exchange Service".

TRANSIENT MOBILE UNIT

A mobile unit communicating through a Foreign Base Station.

TROUBLE DETERMINATION

Trouble Determination is defined as dispatch work performed in connection with a service difficulty or trouble report when it is determined that the trouble originated from the customer's side of the demarcation point.

(DELETED)**WATS ^{/1/}**

See "Wide Area Telephone Service".

(C)

WIDE AREA TELEPHONE SERVICE^{/1/}

The furnishing of facilities for dial type telephone communication between a wide area service access line and other exchange and toll station telephones in the area prescribed in the guidebook.

(C)

WIRE CENTER

A "Wire Center" is a Company facility that houses Company equipment necessary for the provision of switched and non-switched telephone service to customers in a defined geographical area. The facility is identified with V&H coordinates and is assigned one or more NXX's for use in providing switched services to customers located in the specified geographical area. The Company equipment located at a Wire Center may consist of switching equipment or non-switched equipment working with a distant host switch as well as equipment used to terminate dedicated non-switched services.

WIRE CENTER SERVING AREA

The term "Wire Center Serving Area" denotes, in most cases, that area of the exchange served by a single wire center. In certain highly concentrated exchanges where wire centers are in close proximity, more than one wire center may be included in the wire center serving area.

WORKING SERVICE POINT

As used in this Guidebook, denotes an outlet (a Company-provided standard miniature modular jack or equivalent) on the Company facilities through which terminal equipment may be connected to the telecommunications network.

ZONING (OUTSIDE BASE RATE AREA)

The partitioning of Outside Base Rate Area local exchange service subscribers into defined areas based upon either distance from the Base Rate Area boundary (Band Zoning) or geographic factors as shown by filed Tariff maps (Geographic Zoning) for the purpose of applying common Outside Base Rate Area charges to all subscribers within a zone having the same class of service.

^{/1/} Effective December 31, 2021, Wide Area Telecommunications (WATS) is withdrawn for Residential customers.

(N)

A4. SERVICE CHARGES

A4.1 Definitions

SERVICE CHARGE

Service Charge is a nonrecurring charge or charges applying to the ordering, installing, moving, changing, rearranging or furnishing of telecommunication services or facilities. Service Charges are categorized as:

- Line Connection Charge
- Line Change Charge
- Secondary Service Charge
- Premises Work Charge

Line Connection Charge (First Line, Additional Line) - Applies for establishing an exchange access line or trunk. The charge includes service ordering, central office work, exchange access line work and a standard voice miniature six position network interface.

Line Change Charge (First Line, Additional Line) - Applies per line to miscellaneous customer requested changes on existing service for, but not limited to, number changes and suspend/restore.

Secondary Service Charge - Applies per customer request for the receiving, recording, and processing of customer requests to change services or add new or additional services.

Premises Work Charge - A nonrecurring charge based on the labor time and miscellaneous material required to perform customer requested work such as rearranging the drop wire, protector and/or network interface.

CUSTOMER REQUEST

The term "per customer request" as used in this section shall be defined as a customer request for service that is ordered at the same time to be provided on the same date, the same premises, the same system, and the same account.

A4.2 Application of Charges

A4.2.1 General

- A. Except as provided hereinafter, the following are subject to service charges:
 1. All classes of Basic Exchange Service, ISDN, Centrex Type Services, Wide Area Telecommunications Service^{/1/} (C) (IntraState), Telephone Answering Service and additional classes of service provided in this Guidebook.
 2. Features and ancillary services.
 3. Miscellaneous service arrangements and auxiliary equipment
- B. **(DELETED)**
- C. The Line Connection Charge includes a standard voice miniature six position network interface for simple type services which do not require other network interfaces. See Section A14 for FCC approved network interfaces.
- D. Installation charges throughout this Guidebook may be applicable in addition to the charges in this section.
- E. Service charges may be required to be paid at the time of application for service.

A4.2.2 Line Connection Charge Application

- A. The First Line Connection Charge is applicable if the customer is requesting only one line or for the first line if multiple lines are being ordered.
- B. The Additional Line Connection Charge applies for each additional line on the customer's request after the first line.
- C. The Line Connection Charge applies:
 1. For the connection of each exchange access line or trunk.
 2. On ESSX-1 service for the connection of a Network Access Register (NAR).

^{/1/} Effective December 31, 2021, Wide Area Telecommunications (WATS) is withdrawn for Residential customers.

A119. OBSOLETE SERVICE OFFERINGS-WIDE AREA TELECOMMUNICATIONS SERVICE³ (C)**A119.1 General**

(Obsolated 7-31-2004, Type D) Not available for new installations, additions or transfers of service.

- A.** Wide Area Telecommunications Service (WATS) is the furnishing of dial type telecommunications between an exchange line or a WATS Access line and other exchange terminations of this Company and its connecting companies within the same LATA in the state of Kentucky in accordance with the Terms, Conditions charges set forth in this Guidebook. The WATS charges set forth herein are in payment for the service furnished between the calling and called terminations. The Company provides intraLATA WATS Service. Toll Free Dialing (TFD)³ Service is the term now used to describe the service formerly known as 800 Service. Toll Free Dialing Service provides incoming service utilizing 8XX numbers. Additional 8XX codes will be activated as required for Toll Free Dialing Service. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS and intraLATA only Outward WATS require the use of a WATS access line from A119.5.4. Option TFD Service and Open TFD Service¹ can be terminated, at the direction of the customer, on a WATS access line from A119.5.4 or on an exchange line purchased from the appropriate service publication. See A119.5.20 for applicable charges when terminating on an exchange line. For the Terms, Conditions and rates of the interLATA portion of these services refer to the interLATA carrier's tariffs.
- B.** Dial type telecommunications, as specified in A., for Combined Outward WATS and intraLATA only Outward WATS must be dialed and completed from or to a WATS access line. For Option TFD Service and Open TFD Service, service can be completed to a WATS access line or an exchange line. In all cases communications must be completed without the assistance of a Company operator, except that a Company operator will:
1. reach the called telephone number where facilities are not available for customer dial completion,
 2. reach the called telephone number when the customer reports making an unsuccessful attempt for reasons other than a busy, don't answer or wrong number condition,
 3. re-establish a call which has been interrupted by cutoff or poor transmission after the called number has been reached, or
 4. provide Directory Assistance Service for Outward WATS at the rates specified in Sections A3 and A18.
- C.** WATS is provided as either Outward WATS or Toll Free Dialing Service (Inward WATS). Combined and IntraLATA Outward WATS require a WATS access line arranged for outward calling only. Option TFD Service and Open TFD Service can, at the direction of the customer, be terminated on a WATS access line arranged for inward calling only or an exchange line. For service terminating on an exchange line, only one TFD number can be assigned to terminate on any one exchange line number. An exchange number may include residence or business line as trunk numbers including DID numbers from Section A12. The termination of Toll Free Dialing Service to an existing Outward WATS or Open TFD Service or Option TFD Service telephone number is prohibited. In accordance with the Terms and Conditions of this Guidebook, Outward WATS and Toll Free Dialing Service are for the purposes of intrastate communication only². Where technically capable, the Company's central office equipment and/or facilities will be utilized to ensure the preceding.
- D.** A WATS access line or exchange line for Option TFD Service and Open TFD Service is the transmission path between a WATS termination and the point in the Company central office where access to the public switched network is obtained for the purpose of completing WATS calls. A WATS access line may also be provided over an IntraLATA High Capacity Channel Facility equipped with Outward WATS or Toll Free Dialing Service functionality. See B7.3 of the Private Line Guidebook for additional applicable charges.

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States, except as specified in Note 2.

Note 2: If specified by the customer, limited (10% or less) interstate usage is allowed on intrastate WATS access lines.

Note 3: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE¹ (C)**A119.1 General (Cont'd)**

- E. The WATS access line or exchange line may terminate in one of the following:
1. A connection to a network control signaling unit on the customer's premises
 2. A connection to terminal equipment or a terminating system on the customer's premises
 3. A connection to switching equipment in the Company central office
 4. A connection to an Interexchange Carrier (IC) feature group service in the Company central office
- The terminating point of a WATS access line or exchange line for Toll Free Dialing Service¹ (any of the arrangements listed preceding) is a WATS termination. The first such termination associated with a WATS access line is the WATS main termination. Any additional termination associated with the same WATS access line is a WATS extension. A WATS extension must be located in the same LATA as its associated main termination. Any additional termination associated with the same exchange line for TFD Service is an exchange line extension from the appropriate service publication. (C)
- F. Communications systems provided by Interexchange Carriers may be connected with the facilities furnished by the Company for WATS as specified in A15.6.
- G. Customer-provided terminal equipment or protective circuitry may be connected to WATS in accordance with effective provisions of the Federal Communications Commission's Registration program.
- H. The agents and employees of the Company shall have the right to enter the premises of a customer or authorized user at any reasonable hour for the purpose of installing, inspecting or repairing the services of the Company or, upon termination of the service, for the purpose of removing such services.
- I. Combined WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities.
- J. Subscribers using a bi-jurisdictional access line for Outward WATS or Toll Free Dialing Service may choose either the Company or the interexchange carrier to complete and bill intraLATA calls according to the appropriate rates, Terms and Conditions. The "1+" and "0" intraLATA usage will be billed to the subscriber (end user or IC) where the closed end of the bi-jurisdictional WATS Access Line is terminated. Subscriber billing information should be provided to the Company at the time the bi-jurisdictional WATS Access Line is ordered when the Company is used to complete intraLATA calls.
- K. Customers who subscribe to Toll Free Dialing Service provided by other than the Company may designate the Company as the intraLATA carrier. Such intraLATA usage will be billed in accordance with the rates, Terms and Conditions specified in A119.5.21.
- L. The Company will provide the intraLATA portion of Open TFD Service with the IC providing the interLATA (and/or interstate) portion of the service. For the Terms, Conditions and rates of the interLATA (and/or interstate) portion of this service, refer to the interexchange carrier's tariffs.
- M. Effective January 1, 1994, Combined Toll Free Dialing Service is not available for new customers.

Note 1: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)
(N)

M1 - Material appearing on this page previously appeared on page(s) 1 of this section.

M2 - Material previously appearing on this page now appears on page(s) 3 of this section.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE² (C)**A119.1 General (Cont'd)**

- N. Option TFD Service and Open TFD Service are provided by the Company utilizing a Toll Free Dialing² number. (C)
1. Toll Free Dialing Number Assignment - Toll Free Dialing Service provides for the assignment of a single ten digit TFD number (i.e., 800+XXX+XXXX) to the customer which can be used on a statewide basis for Option TFD Service or Open TFD Service.¹ Toll Free Dialing Service provides the customer with one toll free dialing number for Option TFD Service statewide or for Open TFD Service. A Toll Free Dialing number when used for Option TFD Service, can be selected for an area consisting of less than an entire state by specifying the desired Area of Service. Area of Service is described in 2. The assigned toll free dialing number can terminate to a WATS Access line provided in A119.5.4, or to an exchange line. Subsection A119.5.20 provides the applicable charges for services terminating to an exchange line. In the provisioning of Open TFD Service, the Company will be the Responsible Organization (RESPORG). The Company will require the 10-digit POTS number for intraLATA screening.
 2. Area of Service for Option TFD Service and Open TFD Service - For Option TFD Service, the Area of Service defines the geographic locations (LATAs) within a state from which the Option TFD Service customer desires to accept calls for a given Toll Free Dialing Number. The Area of Service may range from a single LATA to the entire state. A WATS Access Line or exchange line is required within each LATA specified by the Area of Service for termination of Service traffic that originated within that LATA. The desired Area of Service must be specified by the customer at the time Option TFD Service is ordered. Customers requesting an Area of Service encompassing more than one LATA are required to subscribe to the Variable Call Destination feature described in 3. For Open TFD Service, the Area of Service is defined as either the entire state or the entire United States.¹
 3. Variable Call Destination for Option TFD Service - The Variable Call Destination feature provides for multiple terminations (one ten digit telephone number per LATA) of Option TFD Service when the customer specifies an Area of Service greater than one LATA. This allows for the assignment of one Toll Free Dialing Number, for statewide use, with termination to a WATS Access Line or exchange access line within the LATA where the TFD call originated. Rates for Variable Call Destination record establishment and record changes are provided in A119.5.20.

Note 1: Open TFD Service Subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States, except as specified in A119.1.C.

Note 2: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)
(N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE¹ (C)

A119.2 Use Of The Service

- A. The service is furnished subject to the condition that all applicable Terms and Conditions in Section A2 will be adhered to, with the exceptions of A2.2.1.A and B, which restrict the use of service and prohibit payment to the customer by another for use of the service.
- B. All resold Toll Free Dialing¹ Services, including Option TFD Service and Open TFD Service must terminate to a WATS Access Line. (C)
- C. The service is provided for use by the customer and may be used by others when so authorized by the customer, provided that all such usage is subject to the provisions of this Guidebook.
- D. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 1. the placing or acceptance of a WATS call in response to an uncompleted long distance call placed to send information and to avoid the Message Telecommunications Service (MTS) charge, and
 2. the obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS through any fraudulent means with the intent of avoiding payment of the regular charges for such service.

A119.3 Limitation Of Service

- A. WATS does not include conference, or other calls requiring operator handling except as provided in A119.1.B.
- B. WATS is not represented as adapted for connection to other services of the Company, or to customer-provided terminal equipment, communications systems, or multi-line terminating systems. The service contemplates the provision of satisfactory transmission only between the WATS access line or exchange line for Option TFD Service and Open TFD Service and the called or calling termination.
- C. WATS access lines and extensions will be terminated only at premises located within the same LATA in the state of Kentucky.
- D. Toll Free Dialing Service (Inward WATS) is furnished upon condition that the subscriber contracts for an adequate number of access lines or exchange lines for Option TFD Service and Open TFD Service to permit the use of this service without injurious effects upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish Toll Free Dialing Service (Inward WATS) to any applicant, without incurring any liability, if the use of the service would interfere with or impair WATS or any other service rendered by the Company.

A119.4 Reserved For Future Use

A119.5 Rates And Charges

A119.5.1 General

- A. WATS monthly usage charges are for intraLATA telecommunications between a WATS termination and another termination within the same LATA in the state of Kentucky. Monthly usage charges are based on the total hours of use in a WATS Service group or the total hours of use per exchange line utilized for Option TFD Service and Open TFD Service. WATS access lines and exchange lines will not be mixed at any one customer location for termination of Option TFD Service and Open TFD Service traffic associated with a given toll free dialing number. Each subscriber's usage charges will be based on a separate schedule for both intra and interLATA Service.
- B. WATS Service Group

A WATS service group is composed of either Combined Outward WATS, Outward WATS (intraLATA service only) or Open TFD Service or Option TFD Service access lines (but not all).

 1. An Outward WATS service group is composed of all Outward WATS access lines for the same service area provided to a single customer terminated in the same terminating system at the same premises.
 2. An Outward WATS-IntraLATA Service service group is composed of all Outward WATS-IntraLATA Service access lines of a single customer terminating in the same terminating system at the same premises.
 3. An Open TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer for the same service area, and arranged in Company central office equipment as part of a given hunting arrangement.
 4. An Option TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer arranged in Company central office equipment as part of a hunting arrangement.

Note 1: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)
(N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE¹ (C)

A119.5 Rates And Charges (Cont'd)

A119.5.4 Monthly Rates And Charges

A. Hourly Rates

The following hourly rates apply to the total usage of each service group or total Option TFD Service¹ or Open TFD Service usage terminating on an exchange line(s). These rates are applied according to the method specified in A119.5.5. following. (C)

1. Combined Outward WATS and Outward WATS - IntraLATA Service

	Per Hour		Per Minute		USOC
	Peak	Off Peak	Peak	Off Peak

(j) Greater than 2500 Hours	5.80	5.30	.0967	.0883	NA

B. Rate Periods

Rates applicable are based on the time of day and day of week as follows:

1. Peak Period

8AM to 5PM Monday through Friday. The Peak Period for holidays (New Year's Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day) is charged at Off Peak Period Rates.

2. Off Peak Period

5PM to 8AM Monday through Friday

All day Saturday and Sunday, and Monday until 8AM.

All day holidays (New Year's Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day).

Note 1: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)

(D)

B. Variable Call Destination Rates

1. The following rates apply when an Area of Service greater than one LATA is selected. It provides for multiple terminations (one ten-digit telephone number per LATA) of Option TFD Service.

	Monthly Rate	Nonrecurring Charge	USOC
(a) Per TFD record established	\$2.00	\$10.00	E8H
(b) Per TFD record changed	-	15.00	REAPT

C. Toll Free Dialing Service Nonrecurring Charge Exceptions

Nonrecurring Charges will not apply for adding a service during selected periods of special promotion of that service. During such promotion, the following services may be ordered without Nonrecurring Charges.

1. Open TFD Service
2. Option TFD Service

Note 1: When this service is terminated on an existing exchange line, Section A4. Service Charges do not apply to that exchange line. When this service is ordered in conjunction with the new connection of an exchange line, appropriate Service Charges in Section A4. apply to the exchange line only. Section A4. charges will never apply to the Option TFD Service or Open TFD Service.

Note 2: Effective December 1, 2021, Wide Area Telecommunications Services and Toll Free Dialing are withdrawn for residential customers.
