EFFECTIVE: May 1, 2006

E7. SPECIAL ACCESS (A.K.A. BELLSOUTH SPA) SERVICE**E7.4 Rate Regulations (Cont'd)****E7.4.1 Types Of Rates And Charges (Cont'd)****A. (Cont'd)****3. Service Rearrangements**

Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements as set forth in E5.2.6 preceding or a change in the physical location of the point of the termination at a customer designated premises. Changes which result in the establishment of new minimum period obligations are treated as disconnects and starts. Changes in the physical location of the point of the termination are treated as moves and are described and charged for as set forth in E7.4.5 following. A change which results from a transfer of service is described and charged as set forth in 4. and E7.5.13 following.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service. (M)

Administrative changes, identified as follows, will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Access Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the Access Service). Administrative changes are as follows: (M)

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes its name -- e.g., AT&T-Long Lines to AT&T-Communications), (M)
- Change of customer or customer's end user premises address when the change of address is not a result of a physical relocation of equipment, (M)
- Change in billing data (name, address, or contact name or telephone number). The customer of record does not change, (M)
- Change of customer circuit identification, (M)
- Change of billing account number, (M)
- Change of customer test line number, (M)
- Change of customer or customer's end user contact name or telephone number, and (M)
- Change of jurisdiction, e.g., intraLATA to intrastate, intrastate to interstate, etc. No Termination Liability Charges apply for services billed under the Channel Services Payment Plan (CSPP) if the customer subscribes to a payment arrangement offered in the appropriate tariff which is a minimum twenty-four month service period or equals/exceeds the remaining contract period, whichever is greater. (M)

Material appearing on this page previously appeared on page(s) 50 of this section.

All BellSouth marks contained herein and as set forth in the trademarks and service marks section of the BellSouth Tariffs are owned by BellSouth Intellectual Property Corporation.

EFFECTIVE: May 1, 2006

E7. SPECIAL ACCESS (A.K.A. BELLSOUTH SPA) SERVICE**E7.4 Rate Regulations (Cont'd)****E7.4.1 Types Of Rates And Charges (Cont'd)****A. (Cont'd)****3. Service Rearrangements (Cont'd)**

All other service rearrangements, including physical changes to existing services, will be charged for as follows:

-If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the Local Channel and bridging rate elements being added will apply. Nonrecurring charges for interoffice channel mileage and/or optional features may also apply.

-If the change involves the addition of other customer designated premises to an existing two-point service, resulting in a multipoint circuit configuration, the nonrecurring charge for the local channel and bridging rate elements being added will apply. Nonrecurring charges for interoffice channel mileage and/or optional features may also apply.

-If the change involves the disconnection of a customer designated premise from an existing multipoint circuit resulting in a two-point circuit configuration, no charges will apply.

- If the change involves the addition of optional features or functions which have separate nonrecurring charges, the nonrecurring charges for the optional features or functions added will apply.

-If the change involves a customer requested change of data transmission rate for an existing Digital Data Access (a.k.a. BellSouth SPA DS0 Digital Data) Service circuit, the appropriate nonrecurring charge shall be the Speed Change Charge provided in E7.5.7.C.4. following. This charge shall apply per local channel on each circuit where the speed is requested to be changed. The existing circuit will experience out of service time when the speed change work is conducted. (Full nonrecurring charges shall apply for customer requests for changes of data transmission rate where out of service time cannot be tolerated. The customer shall specify the disconnect date for the circuit being replaced.)

-If the change involves changing (reconfiguring) an existing BellSouth Metro Ethernet service Connection, appropriate charges provided in E7.4.32 following apply.

- If the change involves the addition of a DS3 Network Interface Unit (NIU) to a SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) or SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network) the rates and charges shown in E13.3.25 of this Tariff shall apply.

- For all other rearrangements involving physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a Local Channel rate element nonrecurring charge will apply. Only one such charge will apply per service order, per change.

For all other requests involving administrative activities involving no physical changes, the following charges will apply: (1) If the request is for multiple circuits of the same type, a charge equal to one "First" Local Channel nonrecurring charge applies, (2) If the request is for only one circuit, a charge equal to one "Additional" Local Channel nonrecurring charge applies, (3) If the request is for multiple circuits of different types, charges will be applicable for each type of circuit according to the same guidelines in (1) and (2) preceding.

E13.3.25 DS3 Network Interface Unit With Loop Back Capability

A. General Description

The DS3 Network Interface Unit (NIU) with loop back capability is available for use with SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring) or SMARTGate service (a.k.a. BellSouth SPA Managed Shared Ring Network). The DS3 Network Interface Unit (NIU) loop back function is accessible only by the customer of the DS3 service. For installation of such DS3 NIUs associated with existing services, an outage of the customer's service is required. This outage shall be as authorized by the customer and a credit for service outage will not be applicable.

B. Rates and Charges

1. Per DS3 NIU With Loop Back Capability

	Nonrecurring Charges		Monthly Rate	USOC
	Initial	Subsequent		
(a) Per DS3 NIU With Loop Back Capability	\$400.00	\$475.00	NA	NW1D3
