**K.** Caller ID - Multi-Line<sup>2</sup>

This feature allows residence and business customers with Rotary (Grouping) arrangements to receive and view on a display unit call related information on certain incoming calls.

The following information is transmitted to the Caller ID - Multi-Line customer and displayed on the called CPE during the first long silent interval of the ringing cycle: calling Directory Number, time of day (hours and minutes) the call was received, and date (month and day) the call was received.

Any customer subscribing to Caller ID - Multi-Line will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the features described herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network feature described herein.

These channels are provided to extend exchange, Centrex Type Services terminated in a non-button telephone to another building on the same premises or to extend communications systems such as PBX or Key systems to other buildings on the same premises.

Where the customer provides his own communication system, such as a PBX or Key system, the customer may provide the facilities required to extend the use of his system from one building to another on the same premises.

When all terminations are located on the same premises a mileage charge applies between buildings for the direct airline distance, determined in quarter mile increments (a fractional quarter mile being considered as a full quarter mile). For channels routed through the central office the charge is as stated in A13.25.2.A.1., and charges apply as though the stations were located on different premises. (T)

If the Company considers it appropriate and compensatory, existing facilities may be rated at 3 1/4 percent of the in-plant cost of the facilities to determine a monthly rate. The facilities may be offered for sale to the customer.

**A113.28.1 General**

(Obsoleted 5-6-2002, Type D – Not available for new installations, moves or transfers. Existing customers may add service if facilities are available. Guidebook Reference A13.)

Announcement facilities will be eliminated after February 28, 2003.

Announcement facilities are provided, where available, to the customer's premises for connection to electronic or electro-mechanical devices that provide recorded announcements to calling parties.

**A113.28.2 Terms and Conditions**

- A. The Company will provide facilities, when available, for customers for their use in providing announcements by telephone to calling parties simultaneously, under the following conditions:
  1. In order to permit the determination of the anticipated incoming call volume so that facilities of the proper capacity may be furnished, the customer is required to designate the kind of announcements for which the announcement service is to be used.
  2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to announcement equipment without impairing the Company's general telephone service or telephone plant.   4. The Company will furnish said announcement facilities to its customers for use by such customers in providing announcements, only within the limits of the local service area serving the customer, including the limits of other local service areas having access to the location of the announcement facilities on a local service basis. This limitation is not intended to preclude the completion of any incoming sent paid long distance message calls placed to the announcement number.
  5. Telephone users calling the announcement number are automatically disconnected after elapsing of time for one full announcement.
  6. One listing without charge will be furnished with each service.
  7. Facilities for announcement services will be furnished where all the necessary exchange facilities, as determined by the Company, are available.
