A119. OBSOLETE SERVICE OFFERINGS-WIDE AREA TELECOMMUNICATIONS SERVICE³ (C)**A119.1 General**

(Obsolated 7-31-2004, Type D) Not available for new installations, additions or transfers of service.

- A.** Wide Area Telecommunications Service (WATS) is the furnishing of dial type telecommunications between an exchange line or a WATS Access line and other exchange terminations of this Company and its connecting companies within the same LATA in the state of Kentucky in accordance with the Terms, Conditions charges set forth in this Guidebook. The WATS charges set forth herein are in payment for the service furnished between the calling and called terminations. The Company provides intraLATA WATS Service. Toll Free Dialing (TFD)³ Service is the term now used to describe the service formerly known as 800 Service. Toll Free Dialing Service provides incoming service utilizing 8XX numbers. Additional 8XX codes will be activated as required for Toll Free Dialing Service. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS and intraLATA only Outward WATS require the use of a WATS access line from A119.5.4. Option TFD Service and Open TFD Service¹ can be terminated, at the direction of the customer, on a WATS access line from A119.5.4 or on an exchange line purchased from the appropriate service publication. See A119.5.20 for applicable charges when terminating on an exchange line. For the Terms, Conditions and rates of the interLATA portion of these services refer to the interLATA carrier's tariffs.
- B.** Dial type telecommunications, as specified in A., for Combined Outward WATS and intraLATA only Outward WATS must be dialed and completed from or to a WATS access line. For Option TFD Service and Open TFD Service, service can be completed to a WATS access line or an exchange line. In all cases communications must be completed without the assistance of a Company operator, except that a Company operator will:
1. reach the called telephone number where facilities are not available for customer dial completion,
 2. reach the called telephone number when the customer reports making an unsuccessful attempt for reasons other than a busy, don't answer or wrong number condition,
 3. re-establish a call which has been interrupted by cutoff or poor transmission after the called number has been reached, or
 4. provide Directory Assistance Service for Outward WATS at the rates specified in Sections A3 and A18.
- C.** WATS is provided as either Outward WATS or Toll Free Dialing Service (Inward WATS). Combined and IntraLATA Outward WATS require a WATS access line arranged for outward calling only. Option TFD Service and Open TFD Service can, at the direction of the customer, be terminated on a WATS access line arranged for inward calling only or an exchange line. For service terminating on an exchange line, only one TFD number can be assigned to terminate on any one exchange line number. An exchange number may include residence or business line as trunk numbers including DID numbers from Section A12. The termination of Toll Free Dialing Service to an existing Outward WATS or Open TFD Service or Option TFD Service telephone number is prohibited. In accordance with the Terms and Conditions of this Guidebook, Outward WATS and Toll Free Dialing Service are for the purposes of intrastate communication only². Where technically capable, the Company's central office equipment and/or facilities will be utilized to ensure the preceding.
- D.** A WATS access line or exchange line for Option TFD Service and Open TFD Service is the transmission path between a WATS termination and the point in the Company central office where access to the public switched network is obtained for the purpose of completing WATS calls. A WATS access line may also be provided over an IntraLATA High Capacity Channel Facility equipped with Outward WATS or Toll Free Dialing Service functionality. See B7.3 of the Private Line Guidebook for additional applicable charges.

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States, except as specified in Note 2.

Note 2: If specified by the customer, limited (10% or less) interstate usage is allowed on intrastate WATS access lines.

Note 3: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers.

(N)
(N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE¹ (C)**A119.1 General (Cont'd)**

- E. The WATS access line or exchange line may terminate in one of the following:
1. A connection to a network control signaling unit on the customer's premises
 2. A connection to terminal equipment or a terminating system on the customer's premises
 3. A connection to switching equipment in the Company central office
 4. A connection to an Interexchange Carrier (IC) feature group service in the Company central office
- The terminating point of a WATS access line or exchange line for Toll Free Dialing Service¹ (any of the arrangements listed preceding) is a WATS termination. The first such termination associated with a WATS access line is the WATS main termination. Any additional termination associated with the same WATS access line is a WATS extension. A WATS extension must be located in the same LATA as its associated main termination. Any additional termination associated with the same exchange line for TFD Service is an exchange line extension from the appropriate service publication. (C)
- F. Communications systems provided by Interexchange Carriers may be connected with the facilities furnished by the Company for WATS as specified in A15.6.
- G. Customer-provided terminal equipment or protective circuitry may be connected to WATS in accordance with effective provisions of the Federal Communications Commission's Registration program.
- H. The agents and employees of the Company shall have the right to enter the premises of a customer or authorized user at any reasonable hour for the purpose of installing, inspecting or repairing the services of the Company or, upon termination of the service, for the purpose of removing such services.
- I. Combined WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities.
- J. Subscribers using a bi-jurisdictional access line for Outward WATS or Toll Free Dialing Service may choose either the Company or the interexchange carrier to complete and bill intraLATA calls according to the appropriate rates, Terms and Conditions. The "1+" and "0" intraLATA usage will be billed to the subscriber (end user or IC) where the closed end of the bi-jurisdictional WATS Access Line is terminated. Subscriber billing information should be provided to the Company at the time the bi-jurisdictional WATS Access Line is ordered when the Company is used to complete intraLATA calls.
- K. Customers who subscribe to Toll Free Dialing Service provided by other than the Company may designate the Company as the intraLATA carrier. Such intraLATA usage will be billed in accordance with the rates, Terms and Conditions specified in A119.5.21.
- L. The Company will provide the intraLATA portion of Open TFD Service with the IC providing the interLATA (and/or interstate) portion of the service. For the Terms, Conditions and rates of the interLATA (and/or interstate) portion of this service, refer to the interexchange carrier's tariffs.
- M. Effective January 1, 1994, Combined Toll Free Dialing Service is not available for new customers.

Note 1: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)

(N)

M1 - Material appearing on this page previously appeared on page(s) 1 of this section.

M2 - Material previously appearing on this page now appears on page(s) 3 of this section.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE² (C)

A119.1 General (Cont'd)

- N. Option TFD Service and Open TFD Service are provided by the Company utilizing a Toll Free Dialing² number. (C)
1. Toll Free Dialing Number Assignment - Toll Free Dialing Service provides for the assignment of a single ten digit TFD number (i.e., 800+XXX+XXXX) to the customer which can be used on a statewide basis for Option TFD Service or Open TFD Service.¹ Toll Free Dialing Service provides the customer with one toll free dialing number for Option TFD Service statewide or for Open TFD Service. A Toll Free Dialing number when used for Option TFD Service, can be selected for an area consisting of less than an entire state by specifying the desired Area of Service. Area of Service is described in 2. The assigned toll free dialing number can terminate to a WATS Access line provided in A119.5.4, or to an exchange line. Subsection A119.5.20 provides the applicable charges for services terminating to an exchange line. In the provisioning of Open TFD Service, the Company will be the Responsible Organization (RESPORG). The Company will require the 10-digit POTS number for intraLATA screening.
 2. Area of Service for Option TFD Service and Open TFD Service - For Option TFD Service, the Area of Service defines the geographic locations (LATAs) within a state from which the Option TFD Service customer desires to accept calls for a given Toll Free Dialing Number. The Area of Service may range from a single LATA to the entire state. A WATS Access Line or exchange line is required within each LATA specified by the Area of Service for termination of Service traffic that originated within that LATA. The desired Area of Service must be specified by the customer at the time Option TFD Service is ordered. Customers requesting an Area of Service encompassing more than one LATA are required to subscribe to the Variable Call Destination feature described in 3. For Open TFD Service, the Area of Service is defined as either the entire state or the entire United States.¹
 3. Variable Call Destination for Option TFD Service - The Variable Call Destination feature provides for multiple terminations (one ten digit telephone number per LATA) of Option TFD Service when the customer specifies an Area of Service greater than one LATA. This allows for the assignment of one Toll Free Dialing Number, for statewide use, with termination to a WATS Access Line or exchange access line within the LATA where the TFD call originated. Rates for Variable Call Destination record establishment and record changes are provided in A119.5.20.

Note 1: Open TFD Service Subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States, except as specified in A119.1.C.

Note 2: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)
(N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE¹ (C)

A119.2 Use Of The Service

- A. The service is furnished subject to the condition that all applicable Terms and Conditions in Section A2 will be adhered to, with the exceptions of A2.2.1.A and B, which restrict the use of service and prohibit payment to the customer by another for use of the service.
- B. All resold Toll Free Dialing¹ Services, including Option TFD Service and Open TFD Service must terminate to a WATS Access Line. (C)
- C. The service is provided for use by the customer and may be used by others when so authorized by the customer, provided that all such usage is subject to the provisions of this Guidebook.
- D. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 1. the placing or acceptance of a WATS call in response to an uncompleted long distance call placed to send information and to avoid the Message Telecommunications Service (MTS) charge, and
 2. the obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS through any fraudulent means with the intent of avoiding payment of the regular charges for such service.

A119.3 Limitation Of Service

- A. WATS does not include conference, or other calls requiring operator handling except as provided in A119.1.B.
- B. WATS is not represented as adapted for connection to other services of the Company, or to customer-provided terminal equipment, communications systems, or multi-line terminating systems. The service contemplates the provision of satisfactory transmission only between the WATS access line or exchange line for Option TFD Service and Open TFD Service and the called or calling termination.
- C. WATS access lines and extensions will be terminated only at premises located within the same LATA in the state of Kentucky.
- D. Toll Free Dialing Service (Inward WATS) is furnished upon condition that the subscriber contracts for an adequate number of access lines or exchange lines for Option TFD Service and Open TFD Service to permit the use of this service without injurious effects upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish Toll Free Dialing Service (Inward WATS) to any applicant, without incurring any liability, if the use of the service would interfere with or impair WATS or any other service rendered by the Company.

A119.4 Reserved For Future Use

A119.5 Rates And Charges

A119.5.1 General

- A. WATS monthly usage charges are for intraLATA telecommunications between a WATS termination and another termination within the same LATA in the state of Kentucky. Monthly usage charges are based on the total hours of use in a WATS Service group or the total hours of use per exchange line utilized for Option TFD Service and Open TFD Service. WATS access lines and exchange lines will not be mixed at any one customer location for termination of Option TFD Service and Open TFD Service traffic associated with a given toll free dialing number. Each subscriber's usage charges will be based on a separate schedule for both intra and interLATA Service.
- B. WATS Service Group

A WATS service group is composed of either Combined Outward WATS, Outward WATS (intraLATA service only) or Open TFD Service or Option TFD Service access lines (but not all).

 1. An Outward WATS service group is composed of all Outward WATS access lines for the same service area provided to a single customer terminated in the same terminating system at the same premises.
 2. An Outward WATS-IntraLATA Service service group is composed of all Outward WATS-IntraLATA Service access lines of a single customer terminating in the same terminating system at the same premises.
 3. An Open TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer for the same service area, and arranged in Company central office equipment as part of a given hunting arrangement.
 4. An Option TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer arranged in Company central office equipment as part of a hunting arrangement.

Note 1: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)
(N)

EFFECTIVE: October 1, 2006

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.5 Rates And Charges (Cont'd)**

(M)(T)

A119.5.1 General (Cont'd)

(M)(T)

C. Chargeable Time

(M)

1. Chargeable time for a call begins when the connection is established between the WATS termination and the calling or called termination. (M)
2. Chargeable time for a call ends when the calling termination hangs up, thereby releasing the network connection. However, if the calling termination does not hang up after the called termination hangs up, then chargeable time ends when timing equipment in the network terminates the connection. (M)

A119.5.4 Monthly Rates And Charges (Cont'd)

C. Monthly Access Line Rates

1. The WATS access lines as described in this Section will be used for intra and/or interLATA Services and will be provided by the Company and billed to the end user. The interLATA carrier may act as an agent and order the access line on behalf of the customer.
2. The following rates apply for each access line per month (in addition to the monthly usage charges specified in A119.5.5.):

	Monthly		
	Rate	USOC	
(a) Outward WATS - IntraLATA Service only	\$25.00	WFMS+	
(b) Combined Outward WATS	25.00	WMC	
(c) Combined Outward WATS, with interstate ¹	25.00	XER	
(d) Combined Outward WATS when provided over an intraLATA high capacity channel facility with WATS functionality ²	3.00	WHTS+	
(e) Outward WATS when provided over an intraLATA high-capacity channel facility with WATS functionality ² - IntraLATA Service only	3.00	WHPS+	
(f) Combined 800 Service with Interstate (Obsoleted 1/1/94)	25.00	XE8	
(g) Option TFD Service ³	25.00	W1MSX	(C)
(h) Open TFD Service	25.00	WSA1X	
(i) Combined 800 Service when provided when provided over an intraLATA high capacity channel facility with 800 Service functionality. (Obsoleted 1/1/94)	3.00	WH9S+	
(j) Combined 800 Service (Obsoleted 1/1/94)	25.00	WAC	
(k) Option TFD Service when provided over an intraLATA high-capacity channel facility with TFD Service functionality ²	3.00	8MKSX	
(l) Open TFD Service when provided over an intraLATA high capacity channel facility with TFD Service functionality. ²	3.00	WH9T+	

- D.** For each intrastate Outward WATS or Toll Free Dialing Service access line provided under this *Guidebook*, the End User Common Line (EUCL) - Individual Line rate applies as set forth in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.7.(B).

Note 1: See A119.1.C.

Note 2: See A119.1.D.

Note 3: Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.5 Rates And Charges (Cont'd)

(M)(T)

A119.5.5 Method Of Determining Usage Charges

(M)(T)

A. Minimum Average Time Requirement

(M)

Total monthly usage is subject to a Minimum Average Time Requirement (MATR) of one minute per completed call. This means that if the average duration per message for all messages in a service group, or messages associated with an Option TFD Service or Open TFD Service terminating on an exchange line during a billing period is less than one minute, charges will be based on an average duration of one minute per message.

(M)

B. Total Hours of Use

(M)

Determine the total chargeable hours of use for the service group. This is the greater of the following (rounded to the nearest tenth of an hour):

(M)

1. the total actual hours for all lines in the service group (chargeable time for each call is specified in *A119.5.1.C.* preceding), or
2. the total "equivalent" hours for the service group, which is what the use would have been if the average duration of all completed calls for the group had been one minute (i.e., the total number of completed calls for all lines in the group multiplied by one minute).

(M)(T)

(M)

C. Usage Charge Per Service Group

(M)

Use the table of hourly rates (in *A119.5.4* preceding) and the total use per service group (from A. preceding) to determine the usage charge per service group. Multiply the appropriate hourly rate from the rate table by the number of hours used in the Peak and Off Peak Periods (for example, if total usage equals 20 hours for a given month, then the appropriate rates would be the Peak and Off Peak rates for Greater than 15 Hours.)

(M)(T)

D. Total Usage Charge For Option TFD Service and Open TFD Service Terminating On An Exchange Line

(M)

For Option TFD Service terminating on an exchange line, monthly usage charges are calculated separately for each LATA in which the service terminates on an exchange line. For Option TFD Service and Open TFD Service terminating on an exchange line, the usage charge is determined as follows:

(M)

1. For each exchange line (telephone number) termination of a given toll free dialing number (maximum of one per LATA) the total chargeable hours of use for that termination is the greater of the following:
 - a. The total actual Option TFD Service and Open TFD Service hours associated with a given toll free dialing number and exchange line (chargeable time for each call is specified in *A119.5.1.C.*), or
 - b. The total "equivalent" hours associated with a given toll free dialing number for the exchange line termination, which is what the use would have been if the average duration of all completed calls had been one minute (i.e. the total number of completed calls multiplied by one minute).
2. Using the total chargeable hours determined in C.1., preceding and the table of hourly rates from *A119.5.4.A.*, preceding, multiply the appropriate hourly rate from the rate table by the total number of hours (for example, if total usage equals 20 hours for a given month, then the appropriate rate would be the rate for Greater than 15 Hours of use).

(M)

(M)(T)

(M)

(M)(T)

A119.5.6 Charges For Fractional Periods

(M)(T)

The charges for a fractional part of a month are a proportionate part of the monthly charge based on the actual number of days the service is provided. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days.

(M)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE⁴ (C)

A119.5 Rates And Charges (Cont'd)

A119.5.7 Installation Charges

A. The following charges apply for the installation of each WATS access line:¹

1. Charges

	Installation Charge	USOC
(a) Outward WATS - IntraLATA Service only	\$130.00	WFMS+
(b) Combined Outward WATS	130.00	WMC
(c) Combined Outward WATS, with interstate ²	130.00	XER
(d) Combined 800 Service	105.00	WAC
(e) Combined 800 Service with interstate	105.00	XE8
(f) Option TFD Service ⁴	105.00	W1M
(g) Open TFD Service	105.00	WSA1X

B. Nonrecurring charges specified in Section A4 apply for WATS.³

C. Combined OutWATS Carrier Change Charge

1. For InterLATA portion of Combined Outward WATS

	Nonrecurring Charge	USOC
(a) Per line	\$11.00	NA

A119.5.8 Reserved For Future Use

A119.5.9 Access Line Terminations

The WATS access line may terminate in any of the arrangements listed in A119.1.E.

- Note 1:** Not applicable for access lines provided over an intraLATA high capacity channel facility with WATS or Toll Free Dialing Service functionality. See B7.3 of the Private Line Guidebook for applicable charges.
- Note 2:** See A119.1.C.
- Note 3:** For access lines provided over an IntraLATA high capacity channel facility with WATS or Toll Free Dialing Service functionality, appropriate Service Charges in A4 apply.
- Note 4:** Effective December 31, 2021, Wide Area Telecommunications Service (WATS) and Toll Free Dialing Services are withdrawn for Residential customers. (N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.5 Rates And Charges (Cont'd)

A119.5.10 WATS Extension Lines

The following charges apply for a WATS extension station.

- A. Nonrecurring charges specified in Section A4. (T)(M1)
- B. Channel rates and charges, as specified in A119.5.10.B.1, 2 and 3, if the WATS extension line is located in a different building or different premises from the WATS main line. (T)(M1)

	Installation Charge	Monthly Rate	USOC	
1. Different Premises				
a. When the WATS extension line is located in the same exchange and in the same central office serving area as the WATS main line, rates and charges for a local channel apply.				
(1) Local Channel				
(a) rates and Each (See A13.2.4, Local Channel Type 2149 and 2157 for the charges.)	-	-	1SE++	
b. When the WATS extension line is located in the same exchange but in a different central office serving area from the WATS main line, the following interoffice mileage charge applies in addition to the rates and charges for the local channel specified preceding.				
(1) Interoffice channel measured between the serving central offices				
(a) Local Channel (See A9.1.3. for the rates and charges.)	-	-	1LLWR	
2. Different Building Same Premises				
a. When the WATS extension line is located in a different building on the same premises as the WATS main line or another extension line associated with the same WATS access line, the following rates apply.				
(1) Channel between buildings on the same premises				
(a) Per 1/4 mile or fraction thereof (See A13.2.4.(d) for the rates and charges.)		-	1LLWG	
3. Different Exchange
