A120. OBSOLETE SERVICE OFFERINGS - OPTIONAL CALLING PLANS

A120.1 General

(Obsoleted September 27, 2002, Type B) Not available for new installations, additions or on transfers of service to new locations.

This Guidebook applies to Long Distance Message Telecommunications Service furnished or made available by the Company and its connecting companies between points within the state of Kentucky and within the same LATA where the respective rate centers of such points also are located in said state and the same LATA.

A20.1.1 Description Of Service

Optional Calling Plans are specially designed intercity calling plans applicable to intrastate intra-LATA Dial Station-to-Station long distance calls placed during the service period as prescribed in the plans defined following. All other long distance calls will be billed as regular long distance calls.

A. One-Way Measured Point-to-Point Calling

One-Way Measured Point-to-Point Calling, during the hours indicated, is furnished only on Dial Station-to-Station calls originating one-way outward from the Optional Calling Plan subscriber's telephone to telephones in the prescribed terminating exchange.

A120.2 General Terms And Conditions

A120.2.1 Liability Of The Company

Adjustments will not be applicable on Optional Calling Plan service until the subscriber has used a minimum of one hour's service in a given month.

A120.2.2 Limitation Of Service

- A. Offering of this service is subject to availability of facilities and/or billing capability as determined by the Company.
- B. Plan usage time is accumulated by completed calls in minutes and seconds with a minimum connection time applicable of one minute. Usage time for any given billing month on two-way plans will be accumulated based on when usage data for calls in the reverse direction are available for computer processing rather than the date when made.
- C. The originating time of connection determines whether a call is included in the subscriber's optional calling plan.
- D. Individual message detail is not included as part of the service.
- E. Optional Calling Plans do not include conference or other calls requiring operator handling. For all Optional Calling Plans, an operator will:
 - 1. Reach the called telephone number, when the customer reports making an unsuccessful attempt for reasons other than a busy, don't answer or wrong number condition, or
 - 2. Re-establish a call which has been interrupted by cut-off or poor transmission after the called number has been reached.
- F. A customer may not subscribe to more than one Optional Calling Plan that covers the same time period and geographical area.

A120.2.3 Use Of Service

The service is furnished subject to Terms and Conditions in Section A2, including those Terms and Conditions which restrict use of the service to communications in which the customer has a direct interest and prohibit payment to the customer by another for use of the service, except as specified in A20.1.1.D.7.

A120.2.4 Minimum Contract Period

The minimum contract period is one month, except as specified in Section A6 when a two-way subscriber has a foreign listing in the distant *exchange* which indicates no charge applies for direct dialed calls to his number.

A120.2.5 Reserved For Future Use

A120.2.6 Suspension Of Service

Service will be suspended for causes other than those enumerated in Section A2 only as a result of the suspension of the service with which associated.

A120.2.7 Reserved For Future Use

A120.2.8 Concessions

No concession allowances will be made on any of the Optional Calling Plans.
