	Usage Allowance	USOC
(a) Business Measured Service	\$7.50	NA

When a customer subscribes to more than one measured rate line on the same premises and the lines are group billed on the same account, the local usage charges on all such lines are combined. If usage allowances are applicable, they are also combined to determine the amount of charges for usage in excess of such allowances. Usage charges and/or usage allowances shall not be combined for measured rate lines structured on separate service accounts, even though one account might be "billed to" another account, for the purpose of rendering one bill to the subscriber

C. The following mileage bands and rates apply for all local usage within the Basic Local Calling Area as described in A3.6. Usage in excess of the allowance will be billed in arrears. Partial minutes count as full minutes. These rates are based on airline mileage between wire centers. Wire center coordinates are specified in A3.36.
