  - 2. (Cont'd)
 

For calls forwarded inside the Local Calling Area, a measured or message Call Forwarding customer is responsible for the applicable customer-dialed Measured Rate or Message Service charges specified in this Guidebook, as appropriate for each call answered at the answering location.

Such charges apply to all calls answered at the terminating station line, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

  - 2. It is available only on two-way trunks.
  - 3. It is not available with Direct Inward Dialing trunks.
  - 4. If the feature is proposed on a facility on which hunting is also to be provided, this service is available only with Multi-Line and Series Completion hunting arrangements and is subject to the limitations of these arrangements.
  - 5. When calls are being forwarded intra-office, the number of calls that can be forwarded simultaneously is equal to the number of trunks in the customer's system that are arranged to receive calls and are equipped to provide the Call Forwarding Variable feature.
  - 6. When calls are being forwarded inter-office, only one call can be forwarded at a time.
  - 7. Call Forwarding - Variable can be sequentially forwarded in a chain across lines within a central office a maximum of five times.
