A5.4.1 General

A. Where practicable, special equipment and arrangements, not otherwise provided for in this Guidebook, are furnished if they are in accord with authorized service offerings and if they are to be used in connection with and not detrimental to any of the services furnished by the Company. The Company may provide such special service arrangements when the nature and magnitude of the provision is sufficient to impose the need for specific customer pricing. Charges for such special service arrangements will be based on the estimated costs of furnishing them, such costs to consist of the following items to the extent they are applicable:

1. Cost of maintenance.
2. Cost of operation.
3. Depreciation on the estimated cost installed of the facilities utilized, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.

5. Any other specific items of expense associated with the particular situation.
6. A reasonable amount, computed on the estimated cost installed of the facilities utilized, for return and contingencies.

B.
