

TARIFF DISTRIBUTION

FILE PACKAGE NO.: LA-18-0071

DATE: November 15, 2018

STATE: LOUISIANA

EFFECTIVE DATE: 11/15/2018

TYPE OF DISTRIBUTION: Approved

PURPOSE: Withdraw various obsoleted High Voltage Protection Equipment
Options

A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT

A114.4 High Voltage Protection Equipment (Cont'd)

A114.4.1 General (Cont'd)

C. Determination Of Protection Required

The Company shall determine from data furnished by the customer the proper method of protection to isolate or neutralize the electrical hazard.

D. Provision Of Equipment

As an option, the customer may furnish the equipment at his premises to isolate or neutralize electrical hazards. However, the high voltage protection equipment at the customer's premises will be provided either all by the Company or all by the customer.

If the customer provides the high voltage protection equipment at his premises, it must meet the technical criteria prescribed by the Company. The Company will inspect and verify the protection equipment when service is established at a new or existing location, and at such times as deemed necessary with additions or rearrangements at an existing location.

Except for Type 1b Service, when the customer provides the high voltage protection equipment at his premises, the Company will provide the necessary additional protection equipment at the Company central office and/or at the remote drainage location. Charges for these arrangements are outlined in A114.4.3.

When the customer provides the terminating equipment or system at his premises, charges for the appropriate connecting arrangement will be applicable as outlined in Section A15.

A114.4.2 Rates And Charges

The following rates and charges are applicable for high voltage protection equipment furnished by the Company. These arrangements will be necessary for protection on both exchange and private line services. Where the Company provides the high voltage protection equipment, it will consist of neutralizing or isolating transformers (A114.4.2.A.) and miscellaneous equipment (A114.4.2.B.) at the terminal and/or at a remote drainage location as appropriate for the type of service at that location.

The per circuit charges for high voltage protection equipment as specified following apply to two-wire circuits only. When high voltage protection is required on four-wire circuits, the monthly rate shall be determined by applying the monthly rate for two (2) two-wire circuits. The installation charges for a four-wire circuit are the same as those specified for a two-wire circuit.

A. Neutralizing Or Isolating Transformer

- 1. Type 1a service providing protection suitable for exchange or private line service which can tolerate occasional circuit outages.

	Installation Charge	Monthly Rate	USOC	
(a) With maximum ground potential rise (GPR) of 3000 Vrms	\$-	\$-	NA	
2. Type 1b service providing protection suitable for exchange or private line service which can tolerate occasional circuit outages with maximum (GPR) of:				
(a) (DELETED)				(D)
(b) (DELETED)				(D)
(c) 8000 Vrms - First circuit at a location	39.18	44.93	VP9	
(d) (DELETED)				(D)
(e) For protection greater than 8000 Vrms (Based-On-Cost)	-	-	NA	

A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT

A114.4 High Voltage Protection Equipment (Cont'd)

A114.4.2 Rates And Charges (Cont'd)

(DELETED)

	Installation Charge	Monthly Rate	USOC	(D)
B. Miscellaneous Equipment				
1. For Types 1b, 2, 3 or 4 service at the customer's premises				
(a) Equipment for first group of 10 circuits or fraction thereof at a location	-	\$8.15	VPM	(D)
(DELETED)				(D)
2. For Types 1a (Does not apply when GPR is less than 1000 volts), 2, 3 or 4 Service at the remote drainage point				
(a) Equipment for the first group of 10 circuits or fraction thereof at a location	-	6.58	VPO	(D)
(DELETED)				(D)
C. The preceding charges in A114.4.2. do not include costs associated with the provision of transmission and/or remote ground channels. These channels, when provided as dedicated facilities will be based-on-cost. When a regular distribution cable is used, charges for channels will be applicable as outlined in the Private Line Guidebook.				
The Company will not begin billing for high voltage protection arrangements at a location until the Company has inspected and verified that all high voltage protection requirements have been met at that location.				

A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT

A114.4 High Voltage Protection Equipment (Cont'd)

A114.4.3 Customer-Provided High Voltage Protection Equipment

A. The following rates and charges are applicable for equipment provided by the Company at the Company Central Office and/or at the remote drainage location in conjunction with high voltage protection equipment furnished by the customer.

	Installation Charge	Monthly Rate	USOC	
1. (DELETED)				(D)
2. Miscellaneous equipment for Types 1a, 2, 3 or 4 service at the remote drainage location			VPO	
(a) Equipment for the first group of 10 circuits or fraction thereof at the same location. (Rates quoted in A114.4.2.)	-	-		
(DELETED)				(D)
3. For protection greater than maximum GPR stated in A114.4.2.A. preceding			NA	
(a) Each (Based-On-Cost)	-	-		
4. An initial charge for inspection and verification of customer provided equipment installations is applicable for existing and new service locations.				
(a) For existing and new service locations		Nonrecurring Charge \$104.49	USOC NA	
5. A charge per additional or rearranged circuit (maximum charge of \$100.00 per subsequent visit) is applicable for inspection and verification of customer provided equipment installation of Types 1b, 2, 3 or 4 service when added on a subsequent visit at the same location.				
(a) Each		26.12	NA	

B. The preceding charges in A114.4.3. do not include costs associated with the provision of transmission and/or remote ground channels. These channels, when provided as dedicated facilities will be based-on-cost. When a regular distribution cable is used, charges for channels will be applicable as outlined in the Private Line Guidebook.

The Company will not begin billing for high voltage protection arrangements at a location until the Company has inspected and verified that all high voltage protection requirements have been met at that location.
