E2. GENERAL REGULATIONS

E2.7 Special Promotions

E2.7.1 Regulations

- A. The Company may offer special promotions of new or existing services or products upon 10 days notice to the Commission. These promotions are temporary waivers of certain recurring and/or nonrecurring charges or one-time credits to customers' accounts. Subject to the availability of services and facilities, promotions are offered on a completely nondiscriminatory basis with each subscriber in the classification of service and area for which the promotion is offered having an equal opportunity for participation. In the event that a promotion occurs during any other scheduled promotion, the customer may choose only one of the available promotions in which to participate. Notification will include the time period in which the promotion will be conducted as well as the terms and conditions.

E2.8 Reserved For Future Use

E2.9 Reserved For Future Use

E2.10 Reserved For Future Use

E2.11 Trademarks and Servicemarks Protection

E2.11.1 Use of Trademarks and Servicemarks

Trademarks and Servicemarks owned by BellSouth Intellectual Property Corporation may not be used by any entity concurring in or providing services pursuant to this Tariff except under an express written license agreement with BellSouth Intellectual Property Marketing Corporation.

E2.12 Completion of IntraLATA Calls

E2.12.1 General

Facilities-based interexchange carriers can complete intraLATA calls on a 1+, 0+ , "101XXXX" and/or other access code basis.

E2. GENERAL REGULATIONS

E2.13 TDM to IP Transition

(M)

E2.13.1 General TDM to IP Transition Provisions

(M)

As a result of evolving network technology, the Telephone Company is able to offer new, advanced services. At the same time, certain older services will no longer be available in some geographic areas, as those services are no longer technically or economically feasible. The table below identifies services that have been withdrawn, by wire center and exchange, along with additional information related to these service withdrawals.

E30. ETHERNET SERVICES

E30.2 AT&T DEDICATED ETHERNET SERVICE

E30.2.1 Service Description

- (A) AT&T Dedicated Ethernet Service is a fiber based, point-to-point, Ethernet service that allows Customers to transport data signals between two locations. AT&T Dedicated Ethernet Service can be used to transport data as an Ethernet signal or embedded within an Optical Transport Network (OTN) signal.

AT&T Dedicated Ethernet Service is available at the following speed and format options:

Speed	Ethernet Formats	Optical Transport Unit (OTU) Formats
1Gbps	1GE - Gigabit Ethernet	Not available
2.5Gbps	Not available	OTU1
10Gbps	10GE LAN-PHY	OTU2e
	10GE WAN-PHY	OTU2
40Gbps	40GE	OTU3
100Gbps	100GE	OTU4

- (B) The Telephone Company reserves the right to make individualized decisions regarding the provision of AT&T Dedicated Ethernet to individual customers. The Telephone Company may negotiate the specific prices and terms for AT&T Dedicated Ethernet for each individual customer. Unless otherwise specified in this section, the general terms and conditions of this Intrastate Access Tariff apply to AT&T Dedicated Ethernet service (e.g. Section 2). (T)

(C) Port Connection

The Port Connection is the standard rate element that includes the service interface (point of demarcation) at the Customer-designated premises (Customer Site), any network termination equipment (NTE) placed at the Customer Site, and the physical transport facilities from the Customer Site to the AT&T Dedicated Ethernet network at the serving wire center for that Site.

One Port Connection charge applies per Customer Site at which the Port Connection is terminated. This charge will apply even if the Customer Site and the serving wire center are both located in the same Telephone Company building (e.g., where the Customer Site is a collocation arrangement⁽¹⁾, Carrier Point-of-Presence, etc.).

Rates and charges for the Port Connection are provided in Section E30.2.5.

⁽¹⁾ In addition to a Port Connection charge, cross connect charges will also apply under the applicable tariffs for connecting AT&T Dedicated Ethernet Service to a collocation arrangement.
