 3. Prior to May 1, 2022, service offerings (other than classes of basic local exchange service) which have been made obsolete are classified according to the categories shown below. (C)
 - Type A - Obsolete service offerings. Not available for customers as new service offerings except in cases where the obsolete service is left in or when transferred to a new location within the same exchange.
 - Type B - Not available for new installations, additions or on transfers of service to new location.
 - Type C - Unit no longer being manufactured; offered for new installations only as obtainable from existing stock.
 - Type D - Any other arrangement; the specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.
- B.** Obsolete services are furnished subject to all the terms and conditions of the guidebook the same as would be applicable if the service offering were not obsolete. (C)
(D)
- C.** Services which are continued in service for existing customers only may be retained by a customer as long as the equipment necessary to provide the service is repairable and the Company is able to obtain repair parts under normal supply conditions. When this equipment becomes unrepairable or repair parts are unobtainable, the service will be discontinued and the equipment removed by the Company.
