## B2. TERMS AND CONDITIONS

### B2.1 Undertaking Of The Company (Cont'd)

#### B2.1.4 Provision Of Facilities

- A. The Company or the Company and other carriers will provide all facilities necessary for private line service to the demarcation point at a customer premises, except that, the customer or authorized user may provide his own terminal equipment or communications systems for use with such service as specified in 1. through 5. following, or as otherwise specified hereinafter. The equipment specified in this Guidebook will be provided only for use on channels provided by the Company.
1. When a private line is used for voice communications for the purpose of remote operation of mobile radiotelephone systems, it is contemplated that the customer or authorized user shall provide all station apparatus for such use, except as specifically provided elsewhere in this Guidebook.
  2. Where the customer or authorized user provides his own communications system, or terminal equipment the customer or user, except as provided in B2.1.4.A.2.a. and B2.6 following, shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.
    - a. Where excess facilities are available, i.e., facilities beyond the identifiable needs of the Company's exchange plant requirements, the Company will provide on-premises channels to connect customer-provided equipment. No new Intra-system channels will be provided except where facilities already exist.
  3. When a private line is used for teletypewriter transmission, the teletypewriter equipment may be provided by the customer or authorized user. On a given private line at a given premises all such equipment must be provided by
    - a. the Company or
    - b. the customer or authorized user. Such equipment must operate at a line signaling speed not to exceed that specified for the channel facilities furnished.
  4. When a private line is used for data transmission which requires terminal equipment (data sets) as specified in B3.2.2 and B3.3.2 following, such data sets may be provided by the customer or authorized user and/or the Company at the option of the customer, except that the Company shall furnish all data sets, located in the Company's central offices. Where the customer or authorized user elects to provide his own data set(s) on a given private line, it shall be the responsibility of the customer or authorized user to ensure the continuing compatibility of such data set(s) with the facilities furnished by the Company.
  5. When a private line is used for transmission purposes other than voice and teletypewriter except as specified in B2.1.4.A.1., 2. and 3. preceding, it is contemplated that the customer or authorized user will provide the station equipment for such other purposes; however, at the request of the customer, the Company will provide teletypewriter station equipment subject to the provisions in B2.1.4.A.3. preceding for use in connection with services for data transmission, for remote metering, supervisory control and miscellaneous signaling purposes.
- B. The Company undertakes to maintain and repair the facilities which it furnishes. The customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.
