A9. FOREIGN EXCHANGE SERVICE AND FOREIGN CENTRAL OFFICE SERVICE

A9.2 Foreign Central Office Service

A9.2.1 General

- A.** Foreign Central Office Service is exchange service furnished to a subscriber in a multi-office exchange from a central office other than the one from which service would normally be furnished.
- B.** Foreign Central Office Service is offered in connection with Individual Line Main Station Service, PBX Service and Centrex Type Services only.
- C.** Other services, equipment or facilities used in connection with Foreign Central Office Service, except as otherwise indicated in this Guidebook, are furnished subject to the rates, terms and conditions applying in the foreign central office from which the subscriber is served.
- D.** Alternate routing of this service may be provided on a direct serve basis to the subscriber's premises from the requested foreign central office on an individual case basis as specified in Section A5, subject to the following conditions:
 - 1. The subscriber must maintain a minimum of fifty percent of the trunks/lines from the central office from which service would normally be furnished.
 - 2. Rates and charges for all components of the service will continue to apply as specified in A9.2.2.A. and B, with the exception of those applicable for Type 2145 channel(s). The monthly rate for the class of service desired will be based on the rates applicable from the foreign central office, but will be no less than the rates for that service from the subscriber's normal serving wire center. Additionally, rates and charges as specified in A5 will apply on an individual case basis.

A9.2.2 Rates And Charges

- A. Methods Of Applying Rates**

The rate for Foreign Central Office Service is the monthly rate for the class of service desired, plus a foreign central office mileage charge as shown in A9.2.2 for the distance, airline measurement, between the central office from which the subscriber would normally be served and the foreign central office (i.e., the central office from which the subscriber desires to be served). In addition the subscriber is charged any Zone Charges which would apply for connection with the central office from which service would be rendered.
- B. Type 2145**
 - 1. Interoffice Channel including the Channel Terminals, per channel

	Installation Charge	Monthly Rate	USOC
(a) First 1/4 mile	\$69.75	\$1,513.00(I)	1LX4R

A12.8 Identified-Outward Dialing (IOD) From Private Branch Exchange Systems

- A. The service is furnished subject to the availability of facilities and numbers.
- B. The service includes the central office equipment necessary for identification of outgoing toll calls and billing of toll calls by number.
- C. The service must be provided on all trunks or lines in a group.
- D. The minimum contract period for the service is three years. In case of discontinuance or reduction of service within the minimum contract period a basic termination charge as shown in the rates below, reduced by 1/36 for each full month of service provided, shall be applied.
- E. Where Identified-Outward-Dialing is requested on more than one group of trunks or lines, each such group shall be considered a separate service.
- F. The rates herein contemplate the use of standard equipment and serving arrangements. When equipment or service of a special type is requested and provided, rates and charges are based on the additional costs involved to meet the individual requirements of each case.
- G. Operational characteristics of interface signals between Company-provided connecting arrangements and customer-provided equipment must conform to the terms and conditions the Company considers necessary to maintain proper standards of service.
- H. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

- Note 1:** In addition to the rates and charges for DID terminations, rates and charges for Flat Rate Inward or DID Combination Trunks as specified in A3 apply as appropriate.
- Note 2:** Combination Trunks with the Call Transfer feature are only provisioned from 5ESS switches where facilities permit.
- Note 3:** Provide faster signaling on DID trunks. The choice of pulsing alternative depends on the customer's premises equipment
- Note 4:** Provides automatic intercept and referral of calls from a non-listed disconnected DID number to a standard central office recorded announcement for twelve months or until the delivery of the new directory, whichever comes first. AIS is available only where facilities permit.

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.56 Hot Line Service

A13.56.1 General

- A. Hot Line Service is an automatic dialing feature which provides the customer with the ability to automatically be connected with another line in the circuit switched network. When the customer's telephone instrument goes off-hook, a switched connection is set up without any further action.
- B. Hot Line Service may be used only in connection with individual line service.
- C. Hot Line Service is furnished only from central offices which have been arranged to provide this service and is provided subject to the availability of facilities.
