A113.17 Feature Packages

A113.17.1 The Feature Package

(Obsoleted January 9, 2004, Type B. Not available for new installations, additions or on transfers of service to a new location.)

A. Description of Service

1. This feature package provides a package of network features/services for residence customers.
2. The rate specified herein entitles a residence subscriber to unlimited use of the features/services specified following from the listed sections:

A13.9 Call Waiting ID, Three-Way Calling, Call Forwarding Busy Line¹, Call Forwarding Don't Answer¹ (with or without Ring Control), Star 98 Access¹

A13.19 Caller ID, Call Return

A13.47 Message Waiting Indication¹

B. Terms, Conditions and Limitations of Service

1. This feature package is only available to individual line residence subscribers. A residence subscriber may select any suitable combination of the features/services listed in A113.17.1.A.2.
2. All terms, conditions and limitations specified in the sections listed in A113.17.1.A.2 apply to the respective features/services requested as part of this package. Nonrecurring programming fees do not apply for features/services requested as part of this package.
3. All features/services are furnished only from central offices that have been arranged to provide these services. The features/services are provided subject to availability of facilities.
4. Service charges specified in Section A4 do not apply for transactions in which a subscriber only modifies an existing unit of this feature package by adding, deleting or changing features/services requested as part of the package.
5. Existing customers of this feature package can not take advantage of special promotions for this feature package or any of the features/services specified in A113.17.1.A.2 preceding unless specifically allowed by the terms of the special promotion.
6. This feature package is not available with a line provided as part of any Complete Choice service or plan, or a line specified as Message Rate or Measured Service.
7. This feature package can be suspended as specified in A2.3.16. During the period of suspension, no recurring charge applies

C. Rates and Charges

1. The following monthly rate applies for this feature package.

	Monthly Rate	USOC	
(a) Per feature package	\$42.00	PAMA1¹ or PAMA2	(1)

A113.18 Reserved For Future Use

Note 1: The PAMA1 USOC must be used to provision the plan when one or more of the features/services that refer to this footnote are included in this feature package.

A113.19 TouchStar Service

(Obsoleted April 1, 1995, Type D) Existing Caller ID - Multi-Line² customers may retain their existing service as specified in this section of the Guidebook if they so choose. However, if these customers want to change or add to their existing service, they will have to convert to Caller ID – Basic³ or Caller ID – Deluxe¹ as specified in A13.19. Service charges from Section A4. shall not apply for such conversions. All new customers desiring a TouchStar service calling information delivery feature will have to use A13.19. (C)

A113.19.1 Reserved For Future Use

A113.19.2 Definitions Of Feature Offerings

A. Caller ID - Multi-Line²

This feature allows residence and business customers with Rotary (Grouping) arrangements to receive and view on a display unit call related information on certain incoming telephone calls.

The following information is transmitted to the Caller ID - Multi-Line customer and displayed on the called CPE during the first long silent interval of the ringing cycle: calling Directory Number, time of day (hours and minutes) the call was received, and date (month and day) the call was received.

A service order is required to establish or discontinue Caller ID - Multi-Line. Subsequent to establishment, the feature can be activated and deactivated at the customer's discretion through the use of preassigned feature access codes.

Any customer subscribing to Caller ID - Multi-Line will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the features described herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network feature described herein.

If the incoming call is from a line equipped with RingMaster service, the telephone number transmitted will always be the main number rather than any dependent RingMaster service number.

If the incoming call is from a caller served by a Private Branch Exchange (PBX), only the main number will be transmitted and available for display.

If the incoming call originates from a Multi-Line Hunt Group, the telephone number transmitted and available for display will always be the main number of the hunt group unless the telephone number is Telephone Number (TN) identified.

Caller ID - Multi-Line is not available on operator handled calls.

Note 1: Effective August 1, 2016, Caller ID – Deluxe (without ACB) is no longer available for residence subscribers.

Note 2: Effective July 1, 2017, Caller ID – Multi-Line is no longer available for residence subscribers.

Note 3: Effective August 1, 2017, Caller ID – Basic is no longer available for residence subscribers. (N)

A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**A113.19 TouchStar Service (Cont'd)****A113.19.3 Terms, Conditions And Limitations Of Service****A.** The Following Limitations Apply:

1. TouchStar service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within TouchStar service equipped offices. Also, feature screening lists can only contain telephone numbers of subscribers served out of TouchStar service capable offices.
3. TouchStar service basic features are available to single line and multi-line residence and business customers who have rotary dial or Touch-Tone service.
3. TouchStar service cannot be provisioned on party line service, toll terminals, trunks or some remote switching locations except as specifically noted in 5. following.
4. Appropriate service order charges apply except during Company selected periods of special promotion.
5. Caller ID – Basic¹ and Caller ID are available to single and multi-line residence and business customers. Caller ID and Caller ID - Basic are not available to PBX customers. Call Tracking (BCLID) is not available for single line arrangements, but it is available for PBX and multi-line business customers. Effective April 1, 1995, Caller ID-Multi-Line which was available for line side terminations equipped with hunting (grouping) arrangements will not longer be available to new customers. Caller ID - Basic, Caller ID, Call Tracking, and Caller ID-Multi-Line cannot be provisioned for Basic 911 customers. (C)
6. The Company will deliver all numbers/names, subject to technical limitations, including telephone numbers/names associated with Non-published Listing Service as described in Section A6.
7. Calling party information is not available on operator handled calls via Caller ID - Multi-Line.
8. The Company's liability arising out of the provision of any TouchStar service feature, including, but not limited to the delivery or non-delivery of calling numbers/names, is limited as set forth in A2.5.1.
9. Telephone numbers transmitted via Caller ID - Multi-Line are intended solely for the use of the Caller ID - Multi-Line subscriber. Resale of this information is prohibited by this Guidebook, except the callers' numbers may be provided to the subscriber's client for those calls sponsored or provided by that specific client where the client's identity is disclosed to the caller and the client agrees not to distribute such information to others.
10. (DELETED)

Note 1: Effective August 1, 2017, Caller ID – Basic is no longer available for residence subscribers. (N)

A113.25 Channels For Extension Line

A113.25.1 Reserved For Future Use

A113.25.2 Method Of Applying Rates

A. Channels Between Buildings On The Same Premises

These channels are provided to extend exchange service terminated in a customer-provided non-button telephone, to another building on the same premises or to extend customer-provided communications systems such as PBX or Key Systems to other buildings on the same premises, where existing facilities are available.

When the customer provides his own communication system, such as a PBX or Key System, the customer shall provide the facilities required to extend the use of his system from one building to another on the same premises.

When all terminations are located on the same premises a mileage charge applies for the direct airline distance between buildings, determined in one-tenth mile increments (a fractional one-tenth mile being considered as a full one-tenth mile).

The monthly rate as shown in A113.25.4.A. following for channels between buildings on the same premises contemplates termination of the channel at the premises point of entry in each of the buildings.

Where a supporting structure is necessary for the purpose of furnishing extension lines on the subscriber's premises such supporting structure is furnished by the subscriber as provided for in "Construction on Private Property" in Section A5.

A113.25.3 Reserved For Future Use

A113.25.4 Rates And Charges

A. Channel between buildings on the same premises, each

(Obsoleted 12-03-91, Type D; not available for new installations, moves or transfers. Existing customers may add channels only to the extent that they are available) (T)

The rates and charges in this *Guidebook* for channels between buildings on the same premises are applicable only for those facilities in place as of April 20, 1984 for the extension of customer-provided communications systems. The Company will not provide intra-system channels except where facilities already exist. (T)

- 1. Per two point channel

	Installation Charge	Monthly Rate	USOC
(a) Each 1/10 mile or fraction thereof ¹	\$45.12	\$ 2.50	1LLBE or 1LVBE or 1LTBE

A113.28 Announcement Facilities

A113.28.1 General

(Obsoleted 4-19-2002, Type D – Not available for new installations, moves or transfers. Existing customers may add service if facilities are available.) (T)

Announcement facilities are provided, where available, to the customer's premises for connection to electronic or electro-mechanical devices that provide recorded announcements to calling parties.

A113.28.2 Terms and Conditions (T)

- A. The Company will provide facilities, when available, for customer use in providing announcements by telephone to calling parties simultaneously, under the following conditions:
 - 1. In order to permit the determination of the anticipated incoming call volume so that facilities of the proper capacity may be furnished, the customer is required to designate the kind of announcements for which the announcement service is to be used.
 - 2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to announcement equipment without impairing the Company's general telephone service or telephone plant. The customer may be required further to bear the expense of traffic load protection equipment when, in the judgment of the Company, such would be required as a protection to the general telephone service or telephone plant during temporary periods of traffic overload to the announcement system. The traffic load protection equipment reduces the normal length of the announcement cycle.
 - 3. Facilities shall be used for such announcements as may be desired by the customer, provided that the contents and length of such announcements shall be subject to the approval of the Company.
 - 4. The Company will furnish said announcement facilities to its customers for use by such customers in providing announcements, only within the limits of the local service area serving the customer, including the limits of other local service areas having access to the location of the announcement facilities on a local service basis. This limitation is not intended to preclude the completion of any incoming sent paid Interexchange Carrier or Company long distance message calls placed to the announcement number.
 - 5. Telephone users calling the announcement number are automatically disconnected after elapsing of time for one full announcement.
 - 6. One directory listing without charge will be furnished with each service.
 - 7. Facilities for announcement services will be furnished where all the necessary exchange facilities, as determined by the Company, are available.

A113.28.3 Rates And Charges

- A. Exchange Facility
 - 1. Rate equal to the Business Measured Rate Service¹ individual line indicated in Section A3. (T)

(Obsoleted 8-15-03, Type B. Not available for new installations, additions or on transfers of service to a new location.)

A113.58.1 Description of Service

- A.** Uniform Access Number (UAN) is an optional service which provides the customer with a uniform Business Line Telephone Number for client access to the customer's service. The client will be able to dial one number from all locations within the specified area and the call can be routed to a specified customer location. UAN will be provided under the following terms and conditions.
1. A UAN telephone number may not be accessed by 0+ or 1+ toll calls. Also, no operator assisted calls will be permitted to be placed to a UAN. (C)
 2. The assigned telephone number will have a dedicated NXX.
 3. UAN can be delivered through a line-side connection or a trunk-side connection as specified in A3.28 but not simultaneously for the same dedicated NXX number. A trunk-side connection is required if UAN is used with Automatic Number Identification (ANI).
 4. Line-side connections are made through regular exchange access lines (by individual business lines, PBX trunks, etc.). Trunk-side connections are made via a Trunk Side Access Facility.
 5. Nonrecurring Charges apply for each UAN per Traffic Operator Position System (TOPS) Tandem office. Where more than one UAN is established at the same TOPS Tandem location for the same customer and the UANs are ordered and installed at the same time the first nonrecurring charge rate element applies to the first UAN. Each additional UAN number will be billed at the additional service installed rate. The same nonrecurring charges and application apply per TOPS Tandem for UAN number changes requested by the customer subsequent to the original UAN assignment.
 6. Number changes required for Company reasons will not incur the Service Establishment Charge.
 7. A customer may reserve UANs to meet his specified growth requirements at specified locations. In the event the customer elects not to be provided with reserved UANs, assignment of these UANs cannot be assured.
 8. This service includes preassigned UANs. Such telephone numbers will be removed from reserved status and assigned as active UANs as requested by the customer.
 9. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
 10. The service is furnished subject to the availability of UANs.
 11. Limitations and use of service as stated in Section A2. will apply.
 12. Calls to a disconnected UAN will be routed to intercept over announcement facilities; however, the announcement provided will not refer the caller to another telephone number.
 13. Directory Listing may be provided for UAN service at rates applicable for additional business or foreign listings as covered in Section A6.
 14. No local measured or message rate service charges or long distance message telecommunications service charges will be collected from end users for calls to a UAN customer. Charges associated with calls to a UAN will be reverse billed to the UAN customer. Rates associated with long distance and local calling payment plans will apply if applicable.
 15. Toll charges or optional calling plan charges will apply if the UAN subscriber's client is located in the same LATA as the UAN subscriber but outside the Expanded Local Calling Area (ELCA) of the subscriber. These charges will be billed to the UAN subscriber.
 16. If the UAN subscriber subscribes to an optional local calling plan for his outward usage within the ELCA (e.g., Local Optional Service, Local Optional Service Option B, etc.), plan usage allowances and usage caps are not applicable to inward usage charges. Inward usage charges will be billed in accordance with rates and charges as defined in A3.33.
 17. If the UAN subscriber's client is located in the Expanded Local Calling Area and terminates to a UAN subscriber's location in the Basic Local Calling Area, Expanded Local High Volume Incoming Calling Service charges will apply. Expanded Local High Volume Calling Service charges as defined in A3.33 will be billed to the UAN subscriber.
 18. Access to UAN may not be available to certain classes of service.

A113.58.2 Terms and Conditions

(T)

- A. A UAN can be used only for one customer in an NPA. All usage will be combined and billed per account per Revenue Accounting Office.
- B. The UAN monthly rate is applicable on a per telephone number per TOPS Tandem office basis.
- C. The customer must be located within the same state as the TOPS office that is providing UAN Service.
- D. UAN Service will be provided within a maximum of thirty (30) days after the customer's request for service has been processed in order to allow the Company sufficient time for implementation.

A113.58.3 Reservation of Uniform Access Numbers

- A. A customer may reserve UANs in NPAs where the customer does not have service in order to insure expansion to other areas with the same UAN; however, a customer must implement a UAN in at least one LATA in BellSouth territory in order to reserve the UAN in other NPAs. In the event that the customer elects not to be provided with reserved UANs, telephone numbers cannot be assured for the customer's requirements in other NPAs.
- B. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
- C. The service is furnished subject to the availability of UANs.
- D. Calls to reserved (unassigned) UANs will be routed to recorded announcement facilities.
- E. UANs furnished herein retain their reserve status until removed by the customer from the reserved status or assigned as a UAN at which time the service assumes rates and charges applicable to UAN.
- F. Reservation of UAN rates will be billed until the UAN is removed from reserved status or billed as an active UAN in at least one LATA area within an NPA.
- G. A service order charge per NPA is applicable in addition to the nonrecurring charge for reservation of UAN.
