

TRANSITING

/1/

Transit traffic types will be delivered by AT&T on behalf of a carrier that has AT&T Interconnection Service at an AT&T tandem switch:

- local and intraLATA toll traffic (the originating carrier, transiting through AT&T, and terminating to a subtending third party telecommunications carrier)
- intraLATA 800 traffic originated from a subtending third party telecommunication carrier transiting through AT&T and terminating to the 800 service provider (which originated the special 800 billing service).

PRICES

Transiting (local and intraLATA toll):

Tandem Switching	\$0.000309(R) per MOU
Tandem Transport	0.000105(R) per MOU
