
APPLICATION OF PART 21

This Part applies to the provision of Intrastate Access Services.

Regulations, Rates and Charges applying to the provision of Access Services within a Local Access and Transport Area (LATA) for Connection to Intrastate Communications Facilities for Intrastate Customers within the operating territory of the Michigan Bell Telephone Company, LLC in the State of Michigan are as specified in the Ameritech Operating Companies Tariff F.C.C. No. 2, Access Services, as it now exists, and as it may be revised, added to or supplemented.

Michigan Bell Telephone Company, LLC (MBT) in providing Intrastate IntraLATA communications retains Dial-I+, 0+ and 0- Message Telecommunications Services (MTS).

Broadband Access Services have been de-tariffed from F.C.C. No. 2, and can now be found at www.att.com/guidebook

In those cases where the customer is unable, or does not, provide Percentage of Intrastate IntraLATA Use (PILU) as specified herein, the Telephone Company shall compute the PILU as a residual of the Percentage of Interstate Use (PIU) and Percentage of Intrastate InterLATA Use (PIIU) reported by the customer.

Access Services are provided by means of wire, fiber optics, radio or any other suitable technology or a combination thereof.

VoIP-PSTN Traffic

This section applies to VoIP-PSTN traffic exchanged between the Telephone Company and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment. The transitional Intercarrier Compensation framework for VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, Release No. 11-161 (Nov. 18, 2011) ("FCC Order") directed that this intrastate VoIP-PSTN traffic be billed employing interstate rates.⁽¹⁾

The intrastate switched access rates in this tariff are the same as the interstate rates for Switched Access rate elements. Thus, no modifications to the rates and/or billing are necessary as a result of the VoIP-PSTN provisions of the FCC Order.

⁽¹⁾ Although the Telephone Company has taken the position that this tariff, by its own terms, already applies to VoIP-PSTN traffic, as defined herein, the Telephone Company has included this Section in the tariff out of an abundance of caution to prevent any claim that it does not so apply, and to implement the decision by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order") that VoIP-PSTN access traffic should be exchanged at interstate access rates (unless the parties have agreed otherwise). By its terms, the FCC Order is prospective only and does not address preexisting law with regard to the applicability of intercarrier compensation or the enhanced service providers ("ESP") exemption to VoIP-PSTN Traffic. Including this section in the tariff in no way alters or otherwise affects the applicability of this tariff to VoIP-PSTN Traffic before the effective date of the FCC Order.

28. AT&T Volume Discount Plan is not offered on an intrastate basis.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 1 - General

Original Sheet 1

1. GENERAL

A. Description

Interconnection Services are available to telecommunications carriers for use in the provision of a telecommunications service as specified and to the extent required by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996) ("the Act") and the rules and regulations of the Federal Communications Commission and the Michigan Public Service Commission. In order to obtain Interconnection Services, customer must enter into an agreement with Company that is approved by the Michigan Public Service Commission in accordance with Section 252 of the Act ("Interconnection Agreement").

This Part applies to Interconnection Services provided by Ameritech Michigan, hereafter referred to as the "Company." To the extent there is a conflict between the terms and conditions of this tariff and the terms and conditions of the Interconnection Agreement between customer and Company, the Interconnection Agreement between customer and Company shall apply.

General Regulations as found in Part 2 of this Tariff apply to this Part unless otherwise specified in this Part. The term "customer," which appears in Part 2 General Regulations, is the equivalent of the term "telecommunications carrier" as defined by the Act and used in this Part (sometimes referred to herein as Carrier). Any references in this Part to service descriptions contained in other sections of this tariff shall include all definitions. Unless expressly provided to the contrary herein, however, such references do not incorporate the terms, conditions, or rates and charges contained in the referenced material. Where service descriptions use the terms "customer" or "subscriber," such terms shall be deemed to mean:

- "Carrier" (as defined in this Part) when the context concerns ordering service including requesting repair, including authorization for the dispatch of service technicians to the Carrier's Customer's premises and performance of any premises work; and billing responsibility for the provision of service ordered by Carrier, and the use, activation, or premature termination of service by Carrier.
- "Carrier's Customer" (as defined in this Part) when the context concerns the definition of: the service location (premises); the configuration and sizing of the telecommunications system, network, including any aspects or capabilities of service, are used, activated, or accessed.

1. GENERAL (cont'd)

B. Terms and Conditions

Responsibility of the Company

The Company is not responsible to the telecommunications carrier, if necessary, changes in protection criteria or in any of the facilities, operation, or procedures of the Company render any facilities provided by a telecommunications carrier obsolete or render modification of the telecommunications carrier's equipment necessary.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 1 - General

Original Sheet 4

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Use of Service

General

- Unlawful Use of Service

Service shall not be used for any purpose in violation of law. The Carrier, and not the Company, shall be responsible to ensure that Carrier and its customers' use of the services provided hereunder complies at all times with all applicable laws. The Company may refuse to furnish service to a Carrier applicant or shall disconnect the service of a Carrier or as appropriate the Carrier's Customer when:

- An order is issued by a court, the Michigan Public Service Commission or any other duly authorized agency, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or
- The Company is notified in writing by a Law Enforcement Agency acting within its jurisdiction that any facility furnished by the Company is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law.

Termination of service shall take place after reasonable notice is provided the Carrier, or as ordered by the Court.

If communications facilities have been physically disconnected by Law Enforcement officials at the premises where located, and if there is not presented to the Company the written finding of a court of competent jurisdiction authorizing such disconnection, then upon written request of the Carrier, and agreement to pay restoral of service charges and other applicable Service Charges, the Company shall promptly restore such service.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 1 - General

Original Sheet 5

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Liabilities

Liabilities Between Parties

Liability of the Company to the telecommunications carrier and the telecommunications carrier to the Company, resulting from any and all causes, shall not exceed the liability of the Company as set forth herein and in other Sections of this tariff. Specifically, the Company and the telecommunications carrier shall each be liable only for the service(s) or facility(ies) that each provides. Neither the Company nor the telecommunications carrier shall bear any responsibility for the services and facilities provided by the other, Affiliates of the other, or agents, subcontractors, or other persons retained by the other. Neither the Company nor the telecommunications carrier shall be liable for any act or omission of another telecommunications carrier (other than an Affiliate) providing a portion of a service. A Party's liability, whether in contract, tort or otherwise, to the other Party shall not exceed the amounts properly charged for the service or facility (ies) by such Party for the period of time during which such Party failed to provide the service(s) or facility(ies). Notwithstanding the foregoing, in cases involving any Claim for a Loss associated with the installation, provision, termination, maintenance, repair or restoration of an individual Network Element or combination or a resale service provided for a specific customer of the telecommunications carrier, the Company's liability to the telecommunications carrier shall be limited to the greater of: (i) the total amount properly charged to the telecommunications carrier for the service or function not performed or improperly performed and (ii) the amount the Company would have been liable to its customer if the comparable retail service was provided directly to its customer.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 1 - General

Original Sheet 6

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Liabilities (cont'd)

Liabilities Between Parties (cont'd)

In no case shall either the Company or the telecommunications carrier be liable to the other for any indirect, special, consequential, incidental or punitive damages, including, but not limited to, economic loss, lost business, revenues, or profits (collectively "Consequential Damages"), whether foreseeable or not, and regardless of notification by, the other party of the possibility of such damages. This limitation shall not limit any right the Company or a telecommunications carrier may have to be indemnified, defended or held harmless against any amounts payable to a third person, including any losses, costs, fines, penalties, criminal or civil judgments or settlements, expenses (including attorney's fees) and Consequential Damages of such third person. The Company and the telecommunications carrier agree that this allocation of risk and liability is fair and reasonable.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 1 - General

Original Sheet 7

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Liabilities (cont'd)

Liabilities to Other Parties (cont'd)

The telecommunications carrier and the Company shall each be responsible only for the service(s) and facility(ies) it provides, and neither shall bear any responsibility for the service(s) and facility(ies) provided by the other or a third party. Neither the Company nor the telecommunications carrier shall bear any responsibility for the services and facilities provided by the other, Affiliates of the other, or agents, subcontractors, or other persons retained by the other. Neither the Company nor the telecommunications carrier shall be liable for any act or omission of another telecommunications carrier (other than an Affiliate) providing a portion of a service. A Party's liability, whether in contract, tort or otherwise, to the other Party shall not exceed the amounts properly charged for the service or facility (ies) by such Party for the period of time during which such Party failed to provide the service(s) or facility(ies). Notwithstanding the foregoing, in cases involving any Claim for a Loss associated with the installation, provision, termination, maintenance, repair or restoration of an individual Network Element or combination or a resale service provided for a specific customer of the telecommunications carrier, the Company's liability to the telecommunications carrier shall be limited to the greater of: (i) the total amount properly charged to the telecommunications carrier for the service or function not performed or improperly performed and (ii) the amount the Company would have been liable to its customer if the comparable retail service was provided directly to its customer.

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Liabilities (cont'd)

Liabilities to Other Parties (cont'd)

The telecommunications carrier and the Company shall indemnify, defend and hold each other harmless for and against any claim, loss or damage, asserted by any person related to or arising out of the acts or omissions of the other party or by customers, employees, agents, or contractors of the other party against whom indemnification is sought. In such cases, the indemnifying party shall reimburse the other for all of the non-defending party's costs, expenses or judgments including attorney's fees. Each party agrees to notify the other promptly of any matters for which the foregoing indemnity may apply. Failure to so notify the indemnifying party shall not relieve such party of any liability or responsibility, except to the extent that such failure prejudices the ability of the indemnifying party to defend any action or claim. The indemnifying party shall have the right to defend against such liability or assertion in which event the indemnifying party shall give written notice to the indemnified party of acceptance of the defense of such claim and the identity of counsel selected by the indemnifying party. Until such time as indemnifying party provides such written notice of acceptance of the defense of such claim, the indemnified party shall defend such Claim, at the expense of the indemnifying party, subject to any right of the indemnifying party, to seek reimbursement for the costs of such defense in the event that it is determined that indemnifying party had no obligation to indemnify the indemnified party for such Claim. The indemnifying party shall have exclusive right to control and conduct the defense and settlement of any such claims subject to consultation with the Indemnified Party. The indemnifying party shall not be liable for any settlement by the indemnified party unless such indemnifying party has approved such settlement in advance and agrees to be bound by the agreement incorporating such settlement.

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Liabilities (cont'd)

Liabilities to Other Parties (cont'd)

At any time, an indemnified party shall have the right to refuse a compromise or settlement and, at such refusing party's cost, to take over such defense; provided that in such event the indemnifying party shall not be responsible for, nor shall it be obligated to indemnify the relevant indemnified party against, any cost or liability in excess of such refused compromise or settlement. With respect to any defense accepted by the indemnifying party, the relevant indemnified party shall be entitled to participate with the indemnifying party in such defense if the claim requests equitable relief or other relief that could affect the rights of the indemnified party and also shall be entitled to employ separate counsel for such defense at such indemnified party's expense. If the indemnifying party does not accept the defense of any indemnified claim as provided above, the relevant indemnified party shall have the right to employ counsel for such defense at the expense of the indemnifying party. Each party agrees to cooperate and to cause its employees and agents to cooperate with the other party in the defense of any such claim and the relevant records of each Party shall be available to the other party with respect to any such defense, subject to any applicable restrictions and limitations set forth elsewhere in this Tariff.

1. GENERAL (cont'd)

B. Terms and Conditions (cont'd)

Liabilities (cont'd)

Liabilities to Other Parties (cont'd)

The telecommunications carrier may, at its discretion, provide in its tariffs or other contracts for services under this Part with its end users, that in no case shall the Company be liable to the telecommunications carrier's end users or any third parties for any Consequential Damages, whether foreseeable or not, and regardless of notification by the telecommunications carrier of the possibility of such damages. To the extent that a telecommunications carrier elects not to place in its tariffs or contracts such limitation(s) of liability, and the Company incurs a loss as a result thereof, such telecommunications carrier shall indemnify and reimburse the Company for that portion of the loss that would have been limited had the telecommunications carrier included in its tariffs and contracts the limitation(s) of liability that the Company included in its own retail tariffs at the time of such loss. Nothing in this Part shall be deemed to create a third party beneficiary relationship with the telecommunications carrier's end users.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 3 - Database Access

Original Sheet 1

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA)

A. DESCRIPTION

Emergency Number Service Access (ENSA) is a service which enables the use of Ameritech facilities and databases used in the provision of Universal Emergency Number/9-1-1 Telecommunications Service, by Telecommunications Carriers (hereafter referred to as "Carriers"), where Ameritech (hereafter referred to as the "Company") is the 9-1-1 service provider.

The Carrier shall interconnect with each Ameritech 9-1-1 Selective Router that serves the areas in which Carrier provides Telephone Exchange Service. Such interconnection shall be used by Ameritech to provide the 9-1-1 service and access to all sub-tending Public Safety Answering Points (PSAPs). The Carrier will establish such interconnection by providing itself, or leasing from a third-party (including Ameritech), the necessary dedicated DS1 facilities and trunk groups between the Carrier's point of interconnection and the designated Ameritech 9-1-1 Selective Router switch location(s).

ENSA includes the conditioning of Carrier obtained or provided transport facilities from the interconnection point, routing to the appropriate 9-1-1 Selective Router Switch, access to 9-1-1 features and coordination of initial loading, updating and maintenance of the Carrier's customer information in Ameritech's databases, as prescribed by the Company.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

B. DEFINITIONS

9-1-1 Selective Router Switch

A 9-1-1 office providing tandem switching capability for 9-1-1 calls. It controls switching of ANI information to the PSAP and also provides the Selective Routing function, Speed Calling features, Call Transfer capability and certain maintenance functions for each PSAP.

Automatic Location Identification (ALI)

A feature that forwards the name and address associated with the calling party's telephone number (identified by ANI as defined below) to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off-premise extensions, etc.) are identified with the address of the telephone number at the main location.

Automatic Number Identification (ANI)

A feature which allows the number of the calling party to be forwarded to the PSAP for display.

Enhanced 9-1-1 Service (E9-1-1)

Enhanced 9-1-1 Service provides routing via dedicated trunking facilities to all primary PSAPs and to secondary PSAPs based upon ANI capability or Default Routing. The number of lines to a PSAP will be determined by the Company based upon anticipated call volumes. Secondary PSAPs that do not meet these specifications will receive calls on a transfer basis over the exchange network or over additional E9-1-1 Exchange lines subscribed to by the customer.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

B. DEFINITIONS (cont'd)

Public Safety Answering Point (PSAP)

An answering location for 9-1-1 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Calls are first directed to the Primary PSAPs for response. Secondary PSAPs receive calls on a transfer basis only and generally serve as a centralized location for a particular type of emergency call. PSAPs shall be staffed by employees or agents of service agencies such as police, fire or emergency medical services or a common bureau serving a group of such entities.

Selective Routing

A feature which allows 9-1-1 calls to be routed to the designated primary PSAP based upon the identification number of the calling party.

Telecommunications Carrier (Carrier)

A provider of telecommunications services, for whom access to facilities and databases required to provide 9-1-1 service is required by the Telecommunications Act of 1996, and the regulations of the Federal Communications Commission.

Universal Emergency Number/9-1-1 Telecommunications Service

A telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the municipality may receive telephone calls placed by persons in need of assistance who dial the telephone number 9-1-1. The 9-1-1 Service includes the lines and equipment necessary for answering, transferring and dispatching public emergency telephone calls originated by persons within the telephone central office areas arranged for 9-1-1 calling.

Universal Emergency Number/9-1-1 Telecommunications Service Customer

A municipality or other state or local governmental unit to whom authority has been lawfully delegated within a geographic area to respond to public emergency telephone calls, at a minimum for police and fire service.

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 3 - Database Access

Original Sheet 4

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

C. TERMS AND CONDITIONS

1. Emergency Number Service Access (ENSA) is only available to Carriers for use in the provision of Universal Emergency Number/9-1-1 Telecommunications Service, to the extent required by the Telecommunications Act of 1996, ("the Act"), Pub. L. No. 104-104, 110 Stat. 56 1996 and the rules and regulations of the Federal Communications Commission and the Michigan Public Service Commission.
2. This Part applies to Emergency Number Service Access provided by Ameritech, hereafter referred to as the "Company."
3. General Regulations as found in Part 2 of this Tariff apply to this Part unless otherwise specified in this Part. The term "customer," which appears in Part 2 General Regulations, is the equivalent of the term "telecommunications carrier" as defined by the Act and used in this Part.
4. When requested by a Carrier, the Company will provide ENSA enabling nondiscriminatory use of Ameritech facilities and databases, equal in quality to that provided to itself, facilitating the provision of service to the Universal Emergency Number Service 9-1-1 Telecommunications Customer. In the event facilities are not available, the Company will provide ENSA upon availability.
5. This service is limited to accommodating the use of Ameritech facilities required to furnish central office telephone number 9-1-1 as the universal emergency telephone number, as defined in Part 8, Section 3 of this tariff.
6. The Company will coordinate with the Carrier, provision of transport capacity sufficient to route originating 9-1-1 calls from the Carrier's interconnection point to the designated 9-1-1 Selective Router, meeting a minimum P.01 grade of service at all times.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

C. TERMS AND CONDITIONS (cont'd)

7. The Carrier must provide a minimum of two dedicated channels from the point of interconnection, to the 9-1-1 Selective Router for the provision of 9-1-1 service.
8. When the Carrier forwards the Automatic Number Identification (ANI) information of the calling party to the Selective Router, the Company will forward the calling number and associated street address to the PSAP for display. When ANI is not forwarded by the Telecommunications Carrier, an identification code will be forwarded for display.
9. Ameritech will coordinate access to the Ameritech 9-1-1 Automatic Location Identification ("ALI") database for the initial electronic loading and updating of Carrier's customer information. Access coordination will include:
 - Ameritech will provide Carrier with reference data required for Carrier to ensure that Carrier's customer will be routed to an Ameritech designated 9-1-1 Selective Router when originating a 9-1-1 call;
 - Carrier will supply an electronic version of Customer telephone numbers, addresses and other information, as required by Ameritech, both for the initial load and, where applicable, daily updates;
 - Ameritech will establish specific 9-1-1 routing information on each Carrier customer's access line; and
 - Ameritech will notify Carrier of error(s) involving entry and update activity.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

C. TERMS AND CONDITIONS (cont'd)

10. Carrier, or its third party agent, will provide appropriate 9-1-1 record data to Ameritech for use in updating the 9-1-1 ALI database. The initial and subsequent customer data will be provided to Ameritech in a format prescribed by Ameritech. Carrier shall include its company identification, as registered with NENA, on all records provided to Ameritech. Carrier is responsible for providing updates to customer record data for purposes of updating the 9-1-1 ALI database and for error corrections that may occur during the entry of customer data to the Ameritech ALI database. Carrier shall reimburse Ameritech for any additional database charges incurred by Ameritech for errors in ALI data updates caused by Carrier or its third-party agent.
11. The Company is not liable for the accuracy, completeness and content of 9-1-1 record data delivered by the Carrier. The Carrier is responsible for maintaining the accuracy, completeness and content of all data that it delivers to the Company.
12. The Carrier, as a condition of service, agrees to abide by all confidentiality and non-disclosure requirements, as defined in any applicable agreement or by law.
13. The Carrier agrees to provide Ameritech with all information required to complete an Ameritech Planning Questionnaire and Network Definition in order to appropriately plan, design and implement ENSA service when ordered. This information will be provided in the format prescribed by the Company, initially and on an ongoing basis.
14. The installation of initial or subsequent 9-1-1 facilities required to maintain applicable Company service standards will be accommodated at a charge to the Carrier and will be ordered out of the appropriate Exchange or Access tariff.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

C. TERMS AND CONDITIONS (cont'd)

15. It is the responsibility of the Carrier to monitor circuits for the purpose of determining network traffic volumes and trunk group failures and notify Ameritech both when additional circuits are required and of failures as prescribed in applicable agreements or by law.
16. The prices for ENSA Service do not include the inspection or monitoring of the Carrier's facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The Carrier shall be responsible for making such operational tests as, in the judgment of the Carrier, are required to determine whether the facility is functioning properly for its use. The Carrier shall promptly notify the Company in the event that their facilities are not functioning properly.
17. Notwithstanding anything to the contrary contained herein, the Company's liability to the requesting Carrier and any third person shall be limited to the maximum extent permitted by Applicable Law. Under no circumstances shall the Company incur any liability, direct or indirect, to any person or party placing a 9-1-1 call, to any other person or party on whose behalf a 9-1-1 call is made or to any customer, police, fire or public safety agency or department.
18. The Company will not be liable to the Carrier or its customers, for any failure with respect to the completion of emergency calls made to an Operator.
19. The 9-1-1 calling party forfeits the privacy afforded by Private and Semi-Private Listing Service to the extent that the name, telephone number, address and language, medical, and disability information associated with the originating station location are furnished to the PSAP.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

C. TERMS AND CONDITIONS (cont'd)

20. The Carrier is responsible for provision of Universal Emergency Number/9-1-1 Telecommunications Service in accordance with the terms and conditions prescribed in Company Tariffs, applicable laws and state regulations.
21. Carrier shall be responsible to submit to the applicable government entity any 9-1-1 surcharges assessed by such entity.
22. The Carrier shall be responsible for the payment of all charges billed by the Company for the provision of ENSA as prescribed in this tariff, by law, and/or any applicable agreement with the Carrier. The Company shall not be liable for disconnection for nonpayment of applicable charges, resulting from the Carrier's provision of Universal Emergency Number/9-1-1 Telecommunications Service.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

D. FEATURES

9-1-1 Selective Router Interconnection

Provisioning of DS1 facility and associated 9-1-1 trunk groups for voice path to carry the 9-1-1 call with associated routing information.

ANI/ALI/SR and Database Management

9-1-1 call transport/data delivery, via selective routing, of automatic number identification (ANI) and automatic location information (ALI) to an authorized PSAP. Ameritech 9-1-1 database provisioning and management in support of electronic data input and transfer of Carrier 9-1-1 records, including associated record updates, receipt verification, storage, and record error transfer for Carrier correction.

Address and Routing File (ARF) is a data file (delivered via CD-ROM) developed to support Carrier 9-1-1 customer record processing, addressing and delivery of 9-1-1 calls to the Ameritech designated 9-1-1 Selective Router Switch.

9-1-1 Selective Router Switch Administration

Establishment and maintenance of 9-1-1 translation tables within designated Selective Router switches to support Carrier interconnection and call routing to an authorized PSAP.

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

E. TECHNICAL REFERENCES

Carriers ordering ENSA are responsible for obtaining or providing facilities and equipment that are compatible with the Company's network. Carriers must meet the following interface specifications as described below.

<u>Subject</u>	<u>Technical Reference</u>
Interface between Carriers and Customer Installations – Analog Voicegrade Enhanced 911 Switched Access Using Network Provided Reverse Battery Signaling	ANSI T1.411a-1996
Interconnection to an Ameritech 911 Selective Routing Switch via SS7 Trunks as a substitute for CAMA signaling	AM TR-NIS-000152

The Technical Reference can be obtained from:

Manager - TIRM Office
Ameritech Services, Inc.
2000 W. Ameritech Center Drive, Locn 3A09F
Hoffman Estates, IL 60196
(847) 248-4328

1. EMERGENCY NUMBER SERVICE ACCESS (ENSA) (cont'd)

F. PRICES

ENSA is provided on a 12-month term which is automatically renewed upon expiration, unless canceled by either party, as defined in any applicable agreement or by law.

Dedicated DS1 facilities are required for the transport of 9-1-1 calls from the Carrier's serving end office/interconnection point to the Ameritech designated 9-1-1 Selective Router switch. A minimum of one dedicated DS1 is required to each designated Ameritech 9-1-1 Selective Router Switch although not all channels have to be activated. Standard tariff rates shall apply for all Ameritech facilities leased by Carrier.

The prices for diversity will be determined on a case by case basis.

1. Service Elements

Description	Nonrecurring Charge	Monthly Price
9-1-1 Selective Router Interconnection		
- Digital DS1 Interface	\$ 572.39	\$ 205.16
- Each DS0 installed	319.30	N/A
- Analog Channel Interface	496.18	19.81
ANI/ALI/SR and Database Management		
- per 100 records, rounded up to the nearest 100	.00	3.93
9-1-1 Selective Router Switch Administration		
- per Selective Router	233.32	5.06

PART 23 - IC Service for LE Telecommunications Carriers
SECTION 5 - Transit

Original Sheet 1

1. TRANSITING

Transit traffic types will be delivered by AT&T on behalf of a carrier that has AT&T Interconnection Service at an AT&T tandem switch:

- local and intraLATA toll traffic (the originating carrier, transiting through AT&T, and terminating to a subtending third party telecommunications carrier)
- intraLATA 800 traffic originated from a subtending third party telecommunication carrier transiting through AT&T and terminating to the 800 service provider (which originated the special 800 billing service).

PRICES

Transiting (local and intraLATA toll):

Tandem Switching	\$0.000309 per MOU
Tandem Transport	0.000105 per MOU
Tandem Transport Facility	0.00004 per MOU

Issued under authority of 1991 PA 179 as amended.
