TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM

A. Description and Application of Services

1. General

The National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System is a service that provides the regulatory, administrative, and operational framework for the priority installation and/or restoration of NSEP telecommunications services.

NSEP telecommunications services are defined as those services used to maintain a state of readiness or to respond to and manage any event or crisis, i.e., local, national or international, which causes or could cause injury or harm to the population, damage to or loss of property or degrades or threatens the National Security Emergency Preparedness posture of the United States.

A TSP designation requires and authorizes priority action by the Company providing such services.

2. Regulations

The regulations and rates specified herein are in addition to the applicable regulations found in other sections of this Guidebook.

(a) Availability of Service

TSP System service is available to all qualified Government Agency customers for services described in this Guidebook. Non-Government customers requesting TSP System service must be sponsored by a qualified Government Agency. The request for a TSP Authorization Code must be processed through the sponsoring agency.

(b) Provision of Service

TSP System service shall be provided in accordance with the "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service and the "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service.

The TSP System applicability is limited to Digital Link Services and Private Line Services that the Company can discreetly identify for priority provisioning and restoring.

TSP System service will be provided to any Digital Link Service or Private Line Service customer upon receipt of written confirmation that the proper Priority System Authorization Number (PSAN) has been duly authorized and that authorization has subsequently been confirmed by the Company.

TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM (cont'd)

A. Description and Application of Services (cont'd)

- 2. Regulations (cont'd)
 - (b) Provision of Service (cont'd)

The customer, in obtaining TSP System service, acknowledges and consents to the provision of certain customer service record information by the Company to the OEC in order for OEC to maintain and administer its overall TSP System. This customer service record information will include the TSP Authorization Code and Company Circuit/Service Identification information.

Under certain conditions it may be necessary to preempt one or more customer services with a lower or no restoration priority in order to install or restore NSEP telecommunications service(s) of a higher priority. If such preemption is necessary and if circumstances permit, the Company will make reasonable effort to notify the preempted service customer of the action being taken. Credit allowance for such service preemption shall be in accordance with the provisions set forth in Part 15, Section 1.

3. Method of Applying Rates

Certain activities associated with the TSP System performed by the Company are included in the following rate elements:

(a) Rate Elements

Priority Installation (Provisioning)

The act of supplying telecommunications service to a customer, including all associated transmission, wiring, and equipment if legally provided by the Company, in a shorter period of time than standard order intervals would allow. One charge applies per circuit per request.

Priority Restoration Level Implementation (Assignment)

The act of designating the priority level for the restoration of a particular NSEP telecommunications service. One charge applies for the initial service installation. One charge applies for each subsequent request to add circuit locations to an existing service.

Priority Restoration Level Change (Revision)

The act of changing the priority level assignment for an NSEP telecommunications service. This includes any extension of an existing priority level assignment to an expanded NSEP service. One nonrecurring charge applies per circuit per request.

Priority Restoration Administration and Maintenance

The act of administering and maintaining the TSP system in such a manner that it corresponds to the Office of Emergency Communications database. The monthly charge applies per circuit location.

TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM (cont'd)

A. Description and Application of Services (cont'd)

- 3. Method of Applying Rates (cont'd)
 - (b) Credit Allowances Credit allowance for service interruption for Priority Restoration Maintenance and Administration shall be the same as for the Digital Link Service or Private Line Service with which it is associated.
 - (c) Revocation or Discontinuance When TSP is revoked, or discontinued, and the associated Digital Link Service or Private Line Service is continued in service, no charge applies for such a discontinuance.
 - (d) Additional Labor Charges When performing Priority Installation (Provisioning) or Restoration of a Digital Link Service or Private Line Service the Company, due to circumstances beyond its control, may not be in a position to notify the customer in advance that certain additional labor charges may apply as set forth in Part 15, Section 1, Paragraph A.4.c.
 - (e) Quotation of Additional Charges In subscribing to TSP System service, the customer recognizes this condition and grants the Company the right to quote charges after the installation or restoration has been completed.

4. Rates

The following rates and charges are in addition to all other rates and charges that may be applicable for the associated service that is provided by this Guidebook.

| Priority Installation (PI) of a Digital Link Service or Private Line Service, Per Request, per service ^{/1/} | <u>USOC</u> | Monthly <u>Rate</u> | Service <u>Charge</u> |
|---|----------------|------------------------|--------------------------|
| Prime Service Vendor Subcontractor | P1APX P1ASX | None None | \$50.00 50.00 |
| Priority Restoration (PR) of a Digital Link Service or Private Line Service, Per Request, per service | | | |
| PR Level Implementation ^{/1/} Prime Service Vendor Subcontractor | PR5PX PR5SX | None None | 51.00 51.00 |
| PR Level change on an existing Digital Link Service ^{/2/} Prime Service Vendor Subcontractor | PR8PX PR8SX | None None | 50.00 50.00 |
| Administration and Maintenance of TSP Service, <u>Per Point of Termination on a Customer Premises</u> Prime Service Vendor Subcontractor | PR9PX PR9SX | \$4.20 3.45 | None None |

/2/ When a Priority Restoration Level Change is ordered with additional activity that would normally generate a PR Level Implementation charge only one Priority Restoration charge applies.

^{/1/} When a Digital Link Service or Private Line Service is ordered with both Priority Installation and Priority Restoration, only the nonrecurring charge for Priority Restoration applies.
